EDITOR GOLSON SHOULD REMOVE "BEAM FROM OWN EYE"

When our friend, Mr. H. H. Golson, editor of the Abbeville Herald, came up to Chilton County last Friday and was one of the speakers at the so-called Hoover Rally, held at Thorsby, on that day, we fear he got off side. He claims and avers that he is still a Democrat, but that he is against Gov. Alfred E. Smith, on account of the Governor being a Tammanyite, a wet and a Roman Catholic.

This rally was held before the Republican party in Alabama had selected their Presidential Electors and many are of the opinion that it was nothing more nor less than a Republican Rally, he'd in the interest of the local Republican ticket.

Mr Golson was invited to come and speak by a Republican and was surrounded by the Republican leaders of the State and county, on the rostrum of the auditorium, when he was making his speech, which, from all the reports we are able to get, met the approval of the said leaders. Before making this speech Mr. Golson did not advise with Mr. W. M. Polk, chairman of the County Democratic Campaign Committee or any other Democrat in the county, and ascertain if his speech would help the local Democratic ticket or injure it.

Nor did he go to the trouble to equip himself with any facts regarding the local conditions politically. If he had he, would, no doubt, have found that his coming to this county to make a political speech was premature and uncalled for, unless he came here solely for the purpose of making a Republican speech.

And owing to the situation that prevails in this county, this paper does not believe that Mr. Golson's speech in any wise did any good for the cause —which he states—prompted him to come here, as he made a bad connection. If he is fraught with vengeance on candidates whose lives do not happen to come up to that high standard of moral living and who he believes are unfit for public office—it seems to us that he might have investigated and ascertained if there was a candidate for office in this county whose record should be held up to the dear people for their scrutiny after his searching investigation was made and his standard of living made known to the people.

If he is determined to get the political scalp of all the candidates whose [illegible] and ideals, we invite him to come back into this county and ferret out that rumor, that last September on the banks of the Coosa River, in Chilton County, [illegible] there were present a number of officials whose duty it was to conserve the peace and enforce the law and who according to said rumor permitted open and flagrant violations of the prohibition laws of the state and nation. And if he finds that said rumors are true and that there is now some of those same officials candidates for public office, then let him take up his fight here in Alabama and get the beam out of his own eye, before he strives to get the mote out of his neighbor's ...

MR. JOHN THOMPSON PROBABLY CANDDATE FOR SHERIFF

Mr. John T[illegible] who resides east of Clanton, was among the many visitors to Clanton last Saturday, attending to business matters. Mr. Thompson is one of Chilton County's farmers and business men for whom the people have a high regard, and who has been mentioned as a probable candidate for Sheriff of Chilton County, two years hence on the Democratic ticket.

We believe that Mr. Thompson would make the County a splendid sheriff, as he believes in treating all alike and in giving everyone a fair and square deal. He would enforce the law as it should be on all and without discrimination, and as he commands the respect and admiration of those who know him, the people would no doubt find in him a very conscientious and efficient officer should he throw his hat into the ring and be elected when the time comes.

TRACTOR IS A GREAT SERVANT OF AGRICULTURE

A short time ago a fifty-car trainload of tractors, to be used in the cultivation of cotton, was shipped into Mississippi. It is stated that these machines will do the work of 1300 men and 5200 mules in drawing multiple row cutlivators.

The Florence, Alabama, Times-News, in commenting on this, says that "there will probably be no more significant development in Southern agriculture during 1928".

The tractor has given the farmer new standards of speed, efficiency and labor saving. It will be interesting to observe the progress in cotton cultivation in the Mississippi delta that will be effected by the utilization of these tractors.

ANOTHER MILESTONE IN LIVING COMFORT

Recent statistics show that gas fuel serves the immense total of 52,000,000 persons in the United States, through almost nine million stoves, 3,400,000 water heaters, 4,400,000 space heaters and several hundred thousand central heating systems.

The great increase in household gas use in the future will be in these central heating systems. Its development in this direction has barely begun, and since 1919 is said to have gained 2,000 per cent.

The evolution of gas is another milestone on the road leading to greater living comfort.

CHEVROLET ASSEMBLY PLANT OPENED IN ATLANTA, GA.

Detroit, Mich., Aug. 13.—The formal opening during the past week of the Chevrolet assembly plant in Atlanta, Ga., coming at a time when a similar plant is under construction in Kansas City, is further indication that there is to be on let down in the company's extensive sales program.

The mammoth Atlanta plant, which has been in operation since May 1, is capable of turning out 350 cars a day, and was the eighth assembly plant to be opened by Chevrolet in this country. The Kansas City plant with the same capacity will be the ninth.

Atlantans last week welcomed their first opportunity of visiting the great assembly plant, and seeing the magic Chevrolet assembly line produce the world's most popular automobile from a set of seemingly unrelated parts. Atlanta newspapers welcomed Chevrolet to the southeast, and viewed the plant as a southern institution. It was mainly southern contracting genius that built it in four months, one week and six hours, several days before the contracted time had expired. Southern help has been operating it ever since the first car rolled off the line. It serves the southeastern market exclusively supplying cars to the dealers of Georgia, North and South Carolina, Alabama and Florida. A southerner, W. S. (Crane) Roberts has been placed at the head of this, the newest and one of the greatest of the south's industrial institutions.

The plant covers 32 acres and occupies 410,000 square feet of floor space There are five buildings, and in the main one the Fisher Body Company is using 160 by 760 square feet of space to build their famous bodies for the Chevrolet closed cars.

The plant is ideally located with the tracks of the Southern Railroad paralleling its loading dock. Track storage for 300 freight cars is provided.

Another facility to speed up deliveries is a driveway shed, 40 by 220 feet, where dealers from nearby cities car take deliveries of cars.

In his office at the plant, L. S. Costley, regional sales manager, has been directing a sales legion that has as its field 11,000,000 people in the five southeastern states. Figures for the Southeastern automobile market show that it is rapidly becoming one of the best in the country with the demand for Chevrolet increasing rapidly. Due to the perfection of its product and the expansion of its sales forces, Chevrolet sales record in the southeast has been second to none.

Official figures show that the number of Chevrolets sold in the Southeastern region were 16,390 for the fiscal year, 1924-25. The following year the figures reached 53,417. Last eyar the figure was more than 81,500. This fiscal year close to 95,000 sales have been registered.

The Southeastern Region, with headquarters at Atlanta, is composed of five zones with offices at various key points in the territory. These are located at Charlotte, N. C.; Columbia, S. C.; Birmingham, Ala.; Jacksonville, Fla. and Atlanta.

SNAPPY STUFF

Because Ben Saddow of St. Louis tried to kiss her, Miss Mary Grome cut off part of his ear with a breadknife.

Words underscored by Mrs. Emily Punchard of London in a poem resulted in her husband being granted a divorce.

Nine nails were removed from the stomach of J. C. Chistens, a carpenter of St. Paul.

Mrs. Mary Rehbuhg, 71, of Cleveland, was fined $100 when she admitted in police court that she had sold beer to support her invalid husband.

Mrs. Edith Teague of Kansas City found a snake coiled in her bed and killed it with her shoe.

Mrs. Jane Webb of Hanbury, Eng., celebrated her 100th birthday in the same house where she was born.

Frederick W. Gregory of Hull, Eng., in his will forbade his daughter ever to speculate.

Charles Belt, 7 years old, of Lexington, Kp., has suffered no ill effects, despite the fact that he devoured a 10-pound supper at a restaurant recently.

Miss Elizabeth Cordaille of New York City directed in her will that all her letters and diary be destroyed unread.

Married only seven days, Mrs. Florence H. Fisher of Chicago sued for divorce and won a decree.

Mrs. Effie Sellers of Aldershot, Eng., smuggled tobacco to her husband in prison by putting it inside a cake.

Mrs. Oliver Harriman of New York City willed $6,000 to her maid, Maggie Fleming, who had served in the household for 35 years.

Harrison Finn of Los Angeles has sued for divorce, charging cruelty, because his wife sprinkled tacks on the stairs when he stayed out late at night.

Samuel F. Calvin, 76-year old lawyer of Philadelphia, has started on a 1,500 mile hike.

Misses Mary and Catherine Gorelle of Hull, Eng., were guarded by police while they became brides at a double wedding because the guests rioted in the church.

Adolph Gertzen of Bremen, Germany, got 10 years in prison for swindling women by posing as a lonely widower in search of a wife.

Mrs. Margaret Bleight of St. Paul was enjoined by court from cursing Joseph Riley, a neighbor.

After Mrs. R. V. Convers of Chicago had been granted a divorce she pulled out a handful of her husband's hair in the courthouse corridor.

Thirty-seven marriages solemnized in Berne, Switzerland this year, are the result of leap year proposals by young women.

Recently three undertakers delivered coffins to Miss Florence Lee of Chicago on orders telephoned by some practical joker.

Mrs. Sarah Button, aged 73, of Witnesham, Eng., won first place in a plowing contest for women.

Mrs. Josephine Weston, aged 106, of Fort Worth, insists on having four full meals a day.

Mrs. Rose Bardon of Chicago testified in her divorce suit that her husband refused to buy her a pair of stockings.

Argus F. Krammerer, a barber in Louisville, Ky., gives free haircuts to children in the orphanage one day in the week.

Guy Widdeman, 18, of Mexico, Mo., was sentenced to go to church two years, when convicted of chicken stealing.

A marriage license was issued to D. F. Kendall, 68 years old, and Martha Gibson, 17, of Fairmont, W. Va.

Herman Kanwischer of Valparaiso, Ind., ordered in his will that the pall bearers and hack drivers at his funeral be given a half barrel of beer and $10 each.

Lightning struck her vanity case while Miss Geneva Mayer, 17, of Newport, Ky., was powdering her nose, but she escaped injury.

Because her dog could not be landed from a Venezuelan steamer with her Senora Maria Toresa refused to debark at Plymouth, Eng., and went on to Holland.

E. A. Waddell of Boston, who won two medals for heroism in the war, was sent to prison recently for five years for fraud.

Horace Elsen of Chicago was arrested for drunkenness when he climbed an electric light pole to light his cigar.

THE CITY'S BAD LUCK

Most of what is best in city life, says the temporary city dweller, can be brought to the farm; the best of country life can never be transplanted to the city.—Womans Home Companion.

RUBBER SPINES

Don't lean over backwards in your attempts to be fair. It may simply prove you have a rubber spine.—Farm and Fireside.

SELF CONFIDENCE

If a child can acquire a superiority complex before he is old enough to be a prig he will achieve self confidence.—The American Magazine.

CHILDREN'S FATAL DISEASES

Worms and parasites in the intestines of children undermine health and so weaken their vitality that they are unable to resist the diseases so fatal to child life. The safe course is to give a few doses of White's Cream Vermifuge. It destroys and expels the worms without the slightest injury to the health or activity of the child. Price 35c. Sold by

2:00—Gathering up the Fragments, Rev. Neil McQuarrie and others. Closing business.

STANTON

(Too late for last week)

The Parent-Teachers Association met Thursday evening at the home of Mrs. T. D. Parnell. Miss Armour Woolley, president, presided over the meeting. The reports were read by the secretary, Miss Mildred Schurter. The members present were: Mesdames Schurter, Parnell, Woolley, Harris, Henry, and Misses Armour and Sara Woolley, Mildred Schurter and Mabel Harris.

Mr. Ratha Horris of Birmingham is visiting his parents, Mr. and Mrs. H. A. Harris.

Mr. R. E. Fitts and Miss Alma Mae Fitts of Safford spent Friday here.

Miss Virginia Woolley has returned home after spending the past year at Wellington, Texas.

Mr. and Mss. H. R. Schurter, Jr. of Vredenburgs, Ala., spent Sunday with their parents, Mr. and Mrs. H. R. Schurter.

Mr. W. C. Dyer of Birmingham spent Monday here.

Mr. Morgan Hayes and children of Tuscaloosa visited Mr. and Mrs. J. C. Woolley Tuesday.

ALBERT DAVIS HAS ACCIDENT WHILE ON VACATION

Mr. Albert Davis, who with his wife and little child were on vacation in south Alabama, escaped without any serious injury in an automobile accident which occurred last Wednesday afternoon of last week, between Evergreen and McKenzie.

In the car with Mr. Davis and wife and little child, were Mr. and Mrs. C. W. Williamson, relatives. Mrs. Williamson received a broken arm, while Mr. Williamson received only minor injuries.

The accident was caused though carelesness on the part of the driver of the car which struck the car in which Mr. Davis was driving, so we were informed. Both cars were badly damaged.

CROP CONDITIONS IN ALABAMA BY F. W. GIST

Montgomery, Ala., August 13.—Alabama's cotton crop had a condition of 59 per cent on August, indicating a possible yield, according to present out look, of 871,000 bales, or an average yield of lint of 122 pounds per acre, a total production of 1,192,000 bales in 1927, of 1927, or with 1926 when a heavy yield of 195 pounds per acre and 1,498,000 bales were gathered.

The crop for the U. S. was estimated at 14,291,000 bales with a condition of 67.9 as compared with a condition of 69.5 at this time in 1927.

According to crop figures compiled by F. W. Gist, federal and state statistican, this year's acreage is greater and the amount of fertilizer much heavier than last year. The stand is not so good and the fruiting is nearly three-fourths behind last year. Heavy rains, a late season, have combined to make a backward crop, with retardation due to grass.

In the north half of Alabama and the western half of the black belt, the condition is above the average, while in the eastern black belt and southeastern sectionist is sharply below the average.

This year's corn crop will fall short of the crop of 1927 by about 14 million bushels. The condition of the crop is 62 per cent and an indication yield of 12 bushels per acre. There will be a decided shortage of corn, and with a shrot oat crop and feed crops not so promising, farmers are facing a winter shortage of feeds.

Peanuts promise a shortage of a million bushels, in spite of a decided acreage increase. With a high price considerable acreage may be harvested in southeast Alabama, that would otherwise be hogged off. Hay has improved during the past month, but is still under normal by 23 per cent. Pastures look well with a rating of 89 per cent.

July weather was favorable for farm work and crop growth. There was ample rain and warmth. May and June were so backward and unfavorable that the growth of all farm crops was retarded; some fields were replanted one or more times, and some fields of corn and cotton were abandoned to grass. Small patches of potatoes and legume crops got the best of the chances of production, although sirup crops have rather a poor crop prospect.

INVITATIONS SENT OUT FOR MERCHANTS CON. AUG. 29-30

Birmingham, Ala., August 13.—More than 40,000 invitations, containing the program of some of the good things being planned for the delegates to the twelfth annual convention of the Alabama Merchants Assoctation, which meets in Birminghma August 29th and 30th, are being received this week by merchants throughout Alabama from the Wholesale Merchants and Manufacturers Division of the Birmingham Chamber of Commerce, which organization will act as host. Merchants are urged by Murray Brown, chairman of the invitation committee, to send in their acceptance cards immediately so the entertainment committee will know how many to prepare for.

Merchants who attend the convention, will be given "Courtesy Parking Cards", issued by Commissioner John Taylor, which will entitle them to park in the restricted district of the business district until 1 A. M., according to George Bellsynder, chairman of the convention arrangements. Birmingham citizens are allowed to park in this zone, which is the choice parking district for only one hour. Arrangements have also been made with the National Birmingham Garages, 1813 First Ave. for delegates to park in the city's finest "auto hotel" at specially reduced rates.

Plans for the first day's entertainment are complete, it was announced by Harry Todd, entertainment chairman. Delegates will register at the Municipal Auditorium Wednesday morning, where they will receive their free coupon books and will be given a theater party at the "Alabama", Birmingham's newest and finest vaudeville and motion picture place, Wednesday afternoon.

The Wednesday night session will be held at the Highland Park Golf and Country Club, W. O. Kelley of Cullman, president of the Alabama Merchants Association, will preside and make a brief talk, followed by an address on "The Chain Store Problem," by an expert on this subject.

Among the entertainment features will be a "Dance Revue," to include Oriental and Hawaiian numbers and Black Bottom dances.

The annual "Convention Ball" will conclude the evening's program. Only delegates holding tickets will be admitted to the club.

NOTICE OF SPECIAL ELECTION

STATE OF ALABAMA,
CHILTON COUNTY,
CITY OF CLANTON.

NOTICE is hereby given that a special election will be held in the City of Clanton, on the 10th. day of September, 1928, at the Courthouse in Clanton, Ala., for the purpose of submitting to the qualified voters of the City of Clanton, for their determination, by ballot, whether or not the sale of the water works plant of the City of Clanton shall be authorized for a consideration of not less than Forty-six Thousand Three Hundred Eighty-one Dollars, ($46,381.00) payment of such purchase price to be made by the assumption by the purchaser of the existing bonded indebtedness, incurred in the construction of such water works plant, to an amount not exceeding $25,000 and the accrued interest thereon since the last interest paying date, and the balance to be paid in cash.

The City Council having passed a Resolution to the effect that it is to the best interests of the City of Clanton that such sale be made, and has fixed the above named sum as a minimum price at which the sale should be had.

All qualified voters under the laws of this State, who are resident citizens of the City of Clanton, may vote in such election.

G. O. Foshee, M. L. White, and W. D. Spigener have been appointed managers, and Mrs. J. D. Armstrong, and N. L. Roberts have been appointed Clerk, and J. A. Boockholdt, has been appointed Returning Officer of such election, and such election shall be conducted in all respects as municipal elections are conducted in the State of Alabama.

J. B. ATKINSON,
Mayor, Clanton, Alabama.

THE ART OF INTEREST

Good neighbors early learn the art of being interested without being inquisitive.—The American Magazine.

ALABAMA POWER COMPANY OFFICE BEING REPAIRED

The office of the local office of the Alabama Power Company, which is in the Wade building, is undergoing repairs this week. The floor of the main office, which was of wood, has been taken up and a concrete floor laid in its place. The work began last Monday.

While this repair work was going on the business of paying light bills and the like was carried on in an adjoining store.

GREAT REVIVAL MEETING CLOSES AT PLEASANT GROVE

We have just closed one of the best revivals at Pleasant Grove Church, 7 miles west of Clanton, thot has ever been held. Rev. Limbrick, our pastor, assisted by Rev. Harry Culp, conducted the meeting. Thirty-six new members were added to the church. In the last three revivals held here, we have received seventy-two members. We are still praying for greater w[illegible]

Chilton County Abstract Co.

M. D. FOSHEE, Manager

A good business man will not buy a farm or any property without first looking it over to see what it is worth.

However, some will buy or loan money on land without an abstract.

Isn't it equally as foolish to buy a farm without looking it over as to buy it and not know whether the titles are good or not? Without an abstract you do not know where you are getting the land you look at or not.

Before investing in land in any way have an abstract made and be safe.

SUMMER SCHOOL AT AUBURN ENDS

Auburn, Ala., Aug., 14.—At the end of 11 weeks of continuous work the annual summer session at the Alabama Polytechnic Institute will end Saturday, August 18. Commencement exercises will take place Friday, August 17. Dean Zebulon Judd, director of the summer school, reports that there are 70 candidates for degrees, 8 of which are candidates for advanced degrees.

The first session of the summer school began in June and lasted six weeks. Immediately after it closed, the second session began and continued five weeks. By operating on a six-day basis each week the work of the second session was done in five weeks instead of six.

The commencement exercises on August 17 will be the second at Auburn this year. For several years degrees have been conferred on those entitled to them at the end of the summer school, and the number receiving degrees annually is increasing steadily.

The total summer enrollment this year is the largest on record with 1,084 students as compared with 1,022 last year. Prior to 1927 the 1926 enrollment of 871 was the largest. Since 1923 enrollment at Auburn summer schools has grown steadily.

In quality of work, in subjects taught, and in interest among students as well as in numbers the summer session now drawing to a close has been the best ever, according to Dean Judd. All sections of the state and several other states were represented by the student body.

The Ford Motor Company is attempting to produce rubber in Brazil, the goal of this concern being an annual production sufficient for 2,000,000 automobile tires. About a year ago the Ford Motor Company bought 5,000,000 acres of Brazilian jungle land for rubber production.

Mr. R. M. Butler of Route 5 was in our office Friday. Mr. Butler says that he enjoys our Notes of Travel every week, also Bro. Bryan's Bible stories.

COTTON LEAF WORM ATTACK IS EXPECTED

Auburn, Ala., Aug., 14.—If history repeats itself Alabama cotton will be attacked by cotton leaf worms (known also as army worms) this year. This statement was made by W. A. Ruffin, extension entomologist at Auburn, after receiving information that large worm outbreaks have appeared recently in a number of counties in Texas and Oklahoma. Outbreaks are expected any day.

Records of the past show that outbreaks west of the Mississippi River at this season were followed by outbreaks in Alabama and most other states east of the Mississippi River. With the Alabama cotton crop about one month late an outbreak of worms in the near future would result in heavy damage unless farmers apply poison for control.

The leaf worm is not a new insect. It is old and well known, having appeared in Alabama many times in the past. Usually they appear as a vast army by which they are known. They are ravenous eaters and quickly defoliate cotton.

County agents are on the lookout and farmers have been asked to equip themselves with poison and with machinery for applying it. Calcium arsenate is good. A dusting machine used for applynig calcium arsenate for boll weevil control may be used. If such equipment is not available, a pole and bag outfit or some cheaper outfit may be used for army worms. However, such equipment is not effective for boll weevil poisoning.

Alarm over the first appearance may not be necessary, Mr. Ruffin said. The second generation that will appear about three weeks later must be watched, he explained.

An [illegible] in the New York Times [illegible] says: "The American [illegible] has [illegible] the states of Florida, Georgia, and Mississippi [illegible] to [illegible] [illegible] [illegible]

The Alabama Industrial Review

With Good Crops Being Harvested, General Business On Up-grade, And Employment Increasing In Many Lines, Conditions For Balance Of Year Are Distinctly Favorable.

Fayette—Improvement of Kennedy-Fayette road will begin within 60 days.

Millport—Contract let for erection of bridges on new Millport-Kennedy-Reform highway.

Reform—Work under way on convict camp north of here.

Tuscumbia—Tuscumbia end of Montgomery Avenue completed.

Sheffield—More than 300 feet sidewalk will be laid on 10th Street.

Mobile—L. & N. Railroad seeks 30-year franchise to construct and maintain spur track in vicinity of L. & N. Railroad crossing in southern part of mobile.

Muscle Shoals—First shipment of rubber floor tile recently made by Rubber Products Corporation of Alabama.

Mobile—Building permits issued here for first 15 days of July represent $95,000.

ON EDGE

Worried A Lot

"I took Cardui at intervals for three years, and have been in good health since last fall," says Mrs. Noble J. Hayes, of Waterloo, S. C. "My improvement after taking a course of this medicine was really remarkable.

"I am much stronger and can accomplish so much more work now. My weight increased twenty pounds, and my color is good.

"For a long time I had been feeling poorly. Some days I dragged around the house and had not enough energy to do my housework.

"I worried a lot about myself. I did not seem like myself, and my nerves were all on edge. I did not sleep well, and my appetite left me.

"I found Cardui to be an excellent tonic. After I had taken it a few weeks, I began to pick up and to gain in weight and strength."

At all drug stores.

I have for sale one Automobile Electrical Blueprint book, and one Dykes Automobile and Gasoline Engine Encyclopedia. These books may be had at a very reasonable price. They will be valuable to anyone studying electrical wiring. See or call Mrs. G. W. Culp, at the central office at Clanton, Ala.. No. 47-2t-pd.

FACULTY FOR THOMAS JUNIOR HIGH SCHOOL NAMED

The faculty for the Thomas Junior High School, located just south of Clanton, has been named for the coming term. Prof. J. L. Wilson, who is principal of the school, stated that the school will probably open about Oct. 1, although no announcement has yet been made as to the exact opening date.

The faculty for the coming term is as follows: J. L. Wilson, principal; Miss Icabelle Cobern, Mountain Creek, 6th and 7th grades; Miss Juanita Connatser, Thorsby, 4th and 5th grades; Miss Nell Stubblefield, Tennessee, 2 nd and 3rd grades; Mrs. Calra Boockholdt, Clanton, 1st grade.

Attention is called to the fact that an additional teacher has been added for the coming term, there being only four last year. Miss Connatser and Miss Stubblefield were teachers at the school during the last term, also Prof. Wilson has been principal in the school in that district for seven terms this term making the eighth.

A four weeks session was just finished at the school last Friday. This session was held so that pupils who desired to make up on studies in which they were behind in, could do so. Prof. Wilson had charge of this special session.

STATE CAPITOL NEWS

Montgomery, Ala., Aug. 6.—Lieutenant-Governor W. C. Davis of Jasper will be a candidate for governor in the next Democratic primary, according to close personal and political friends of the lieutenant-governor. Friends of Mr. Davis have been definitely assured by him that he will be a candidate, and that he will make formal announcement of his candidacy at the proper time. Mr. Davis, according to his friends here, will make the race on his own merits and his public record, and his decision to become a candidate will be in no wise affected by what any other aspirants for the office may or may not do.

In making public the intentions of the lieutenant-governor, his friends here stressed the point that they are not attempting to precipitate the gubernatorial campaign permaturely, with the primary two years off. They pointed out, however, that A. H. Carmichael of Tuscumbia has already announced that he will be a candidate, and that this announcement has been carried in the press. In view of this development, supporters of Mr. Davis felt that in justice to his friends over the State, they should be advised of his intentions.

As a result of these recent developments, there are two assured candidates for governor in 1930—Davis and Carmichael. Mr. Carmichael's announcement of his intention to try again for the office was made in a letter to one of his supporters, Senator Teasley of Montgomery, in which he stated that he will certainly be a candidaate. This announcement was published in the daily press of August 1st. In addition to these two, there is a long list of possible candidates for governor, such as always exists prior to the opening of the campaign for governor, and which is always thinned down before the race actually gets under way. So far, however, Davis, and Carmichael are the only two who have definitely let it be known that they will be in the race.

Ever since Davis swept the field for lieutenant-governor in 1926 he has been regarded as a formidable contender for governor in the next election and keen interest has already been manifested in his candidacy. He is an ardent prohibitionist and supporter of public education, and was leader in the long fight which recently ended in the abolition of the barbarous convict lease system and the removal of the convicts from the mines. As presiding officer of the senate in the Legsaliture of 1927, Lieutenant-Governor Davis had an important influence in constructive legislation and it was at this session that the corporation influence which have so long affected legislation in Alabama were thoroughly routed. If past performance is any indication Mr. Davis is a vote-getter of the first ability. He made a run-away race for lieutenant-governor in 1926, and with five candidates in the race polled 78,595 first-choice votes, defeating the nearest opponent by nearly 30,000 votes. His supporters declare that he will give Alabama a sound and progressive business administration as governor.

Mr. Carmichael is also a well-known figure in public life in Alabama, having served several terms in the state legislature, where he was speaker of the house of representatives a number of years ago. He also is a strong prohibitinnist and friend of the public school system. He was a candidate for governor in 1926, and ran third in a field of four. Hopes of his friends who still are ambitious to see him become governor were revived by the heavy vote in he primary last Spring. Friends of other candidates point out, however, that all the dry forces of Alabama put Carmichael on their ticket for delegate in preference to other candidates suspected of having wet tendencies, and they contend therefore, that the vote which he received for delegate will have no significance in the coming gubernatorial campaign.

In addition to the two mentioned above, it has been rumored that the list of gubernatorial entries may be swelled to include J. Lee Long of Greenville, speaker of the house of representatives, Judge C. E. Thomas of Prattville, State Superintendent of Banks, former Governor W. W. Brandon, Charles S. McDowell of Eufaula, and possibly still others. At the beginning of every campaign there is always a long list of possible candidates who figure on running, or who might run if someone else does not run, and it remains to be seen just how many of these possibilities will actually make the race.

Charles McDowell was a candidate for governor in 1926, and ran next to Bibb Graves. The main plank in his platform was a $75,000,000 road bond issue, and his friends declare that subsequent events have "vindicated" his stand on this matter. He was lieutenant-governor under the Brandon administration, and was formerly state senator from Barbour county. It is persistently repeated that he will run for governor again.

ED. HAYNES ARRESTED ON PROHIBITION CHARGE

Ed. Haynes, a white man residing near South Calera was found to have in his possession last Tuesday morning twenty gallons of beer, is the information reaching us.

A charge of violating the Prohibition Law was placed against Haynes, Federal Officer Gillespie and Officer Foshee, Deputy Sherrif Murrah and Loss Robinson, made the arrest, according to reports.

ALL-DAY SINGING AT COURT HOUSE, SUNDAY, AUGUST 19.

There will be an all-day singing at the Court House Sunday, August 19th, in the Sacred Harp and Harmony books. The Birmingham class will be with us. Also Prof. John McDye, who will be organist for the day. All who have never heard this old sacred music played on an instrument, come and hear him.—A. A. Jackson, chairman; J. R. Scott, secretary.

ALL-DAY SINGING AT UNION GROVE CHURCH LAST SUNDAY

An all-day singing was held last Sunday, August 12th, at Union Grove. The Ganus Quartet of Birmingham were present and sang many beautiful selections. The Prof. S. A. Ganus was also present with his wife, who is a wonderful pianist. Several solos were rendered by these gifted musicians.

The Godfrey brothers, of the well-known Riley Brothers Quartette sang at this gathering also. Dinner was spread on the ground, picnic style, to an extra large crowd at the noon hour.

10 Big Reasons why Chevrolet is - First Choice of the Nation for 1928!

With over 750,000 new Chevrolets on the road since January 1st, today's Chevrolet is first choice of the Nation for 1928. Come in and see how completely this sensational automobile provides the ten great factors which automobile buyers everywhere are now demanding.

The COACH $585 f.o.b.

1. **DESIGN** Today's Chevrolet is modern to the minute in every detail of design.
2. **APPEARANCE** Today's Chevrolet provides the marvelous beauty of design and proportion for which Fisher Bodies are everywhere famous.
3. **FEATURES** Possessing quality features typical of the finest cars, today's Chevrolet is everywhere regarded as the world's most luxurious low-priced automobile.
4. **PERFORMANCE** Chevrolet's amazing performance is the result of a valve-in-head motor whose power is a matter of worldwide fame and whose snap and smoothness are assured by alloy invar-strut pistons, large valves with mushroom type tappets and accurately counter-balanced reciprocating parts.
5. **COMFORT** The Bigger and Better Chevrolet is built on a 107" wheelbase, equipped with four long semi-elliptic springs set parallel to the frame and with seat cushions provided with deep, resilient springs.
6. **HANDLING EASE** For ease of control Chevrolet design incorporates a full ball bearing steering gear, smooth shifting transmission, light pedal action clutch and big non-locking four-wheel brakes.
7. **ECONOMY** Chevrolet owners enjoy the greatest economy of operation.
8. **MAINTENANCE** Chevrolet enjoys a worldwide reputation for low maintenance costs.
9. **RESALE VALUE** Chevrolet's resale value is unusually high because Chevrolet's rugged construction assures many thousands of miles of dependable transportation.
10. **PRICE** Chevrolet offers these beautiful modern cars at these amazing low prices:

The Touring or Roadster $495
The Convertible Sport Cabriolet $695
The Coach $585
The Imperial Landau $715
The Coupe $595
Utility Truck (Chassis only) $520
The 4-Door Sedan $675
Light Delivery (Chassis only) $375

VOLUME 6 CLANTON, ALABAMA, THURSDAY AUGUST 23 1928 NUMBER 48

W. B. Oliver Named Campaign Chairman

Democratic Forces To Begin Activities In State At Early Date

Birmingham, Ala., Aug. 15.—Selection of Congressman W. B. Oliver, of Tuscaloosa, as chairman of the state Democratic campaign committee was announced today by E. W. Pettus, chairman of the State Executive Committee.

Oliver is congressman from the Sixth Alabama District. He is one of the state's foremost Democrats and also is an ardent prohibitionist and a pioneer advocate of the dry law. He voted both for the Volstead Act and for submission of the Eighteenth Amendment to a referendum by the people. He has been a member of Congress since 1915 and ranks high in congressional circles in Washington.

Pettus, in announcing the selection of Oliver, as campaign manager, said that Alabama Democrats would start immediately in formulating plans to wage a vigorous campaign for the election of Gov. A. Smith, the nominee of the Democratic party for the presidency.

The complete personnel of the campaign committee which will work with Congressman Oliver will be announced following a conference between Oliver Watt Brown, Democratic national committeeman for Alabama; Mrs. Charles J. Sharpe, national committeewoman, and Pettus.

Date for the conference was not announced but it probably will be held within the next few days.

It was also announced that the state executive committee will meet at Montgomery at noon, Saturday, Aug. 25, to take up matters of importance in connection with the state's campaign.

Oliver was born in Eutaw, Green County, in 1867. He attended the University of Alabama and was later admitted to the bar in Tuscaloosa County. He was dean of the law school at the University from 1909 to 1913.

In addition to being an ardent and consistent dry, Oliver has been moderator of the Presbyterian Church. He is a Mason, member of the Knight of Pythias, Elks, and Woodmen of the World.

Congressman Oliver was reported to be in Washington today. It was said, however, that he would accept as chairman of the campaign committee and that he would return immediately to Alabama to begin an active campaign.

PAGE'S CAFE GROWING POPULAR WITH COUNTRY FOLK

Page's Cafe, located near the railroad, next door to the Alabama Harness and Shoe Shop, is gaining popularity among the people of Chilton Cunty. This little cafe and lunch stand caters mostly to the farmers and working people. They serve that good old substantial home cooked food.

Mr. J. B. Page, who has recently moved to Clanton is operating this cafe and invites the people to visit him.

DEACON'S TRAINING COURSE AT VERBENA POSTPONED

Verbena, Ala., Aug. 20. 1928.—On account of the Methodist Revival, being in progress, the Deacon's Training Course, which was to begin Monday, August 27th, at the Verbena Baptist Church, will not begin until Monday night, September 3rd, and will continue throughout the week.

Let all church workers, who will take advantage of the opportunity to get this course.—W. T. Johnson, chairman.

BENNAN SIGN SERVICE, NEW SHOP, GAINING POPULARITY

Perhaps it is needless for us to mention the opening of a new sign shop in Clanton, as it seems as if this new concern has already made for itself in Clanton, a reputation of being a shop capable of turning out any kind of high class advertising signs anyone may desire.

This new concern is known under the name of Bennan Sign Service, and is located on Seventh Street, which is the Birmingham-Montgomery Highway, next door to Parrish's, one of Clanton's up-to-date dry goods stores. The members of this new firm are Messrs T. D. Benton and C. F. Nanney, both past masters in the painting, constructing, arranging and erecting of any kind of sign, electric and all.

GRAMMAR SCHOOL BUILDING WORK IS BEING PUSHED

The foundation for the new grammar school building in Clanton is practically completed and the sills for the flooring are being put in place, in fact a part of the flooring has already been put down.

Material is steadily coming in for the building and the work is rapidly gong forward. The contract for the erection of the new building and the remodeling of the old building, which was awarded to A. B. Bearden & Son of Birmingham, calls for the completion of the work by the fifteenth of this coming December.

A large crew of workmen are on the grounds and within a very short time with the continuance of favorable weather, the building is expected to begin to take shape.

There will be nine rooms in the new building and many modern conveniences are to be installed for the comfort and care of the children attending.

BIG REVIVAL CLOSED AT LIBERTY HILL CHURCH

We have just closed one of the best revivals in the history of the church, Rev. Willie Jones of Dora, Ala., did the preaching and Mr. Gresham Lowery who is now an evangelist singer, conducted the singing. There were 40 additions to the church, 26 by baptism and 14 by letter.

This church has been greatly and spiritually revived. We will meet here the 4th Sunday the 26th day of August, at 10:00 a. m. to elect a pastor and clerk, for the ensuing year. All members are requested to come and help us in this matter.

The Singing Society meets here the 2nd. Sunday p. m. and Cedar Grove the 4th Sunday p. m.

Sunday School at 10:00 a. m. and B. Y. P. U. at 7:00 p. m. every Sunday.

HAIRY VETCH MAKING PROGRESS IN ALABAMA

Business Of Manufacturing Nitrogen on Farms To Be Practiced on Big Scale

Auburn, Ala., Aug. 22.—Beginning fall the business of manufacturing nitrogen on farms will be practiced on a big scale in Alabama, according to reports received from county agents engaged in a state-wide campaign having for its goal a record-breaking acreage planted in hairy vetch this fall. The campaign began in north Alabama on August 13, and will begin in Chilton County on August 20th, and will end in south Alabama, September 1.

Statistics compiled by J. C. Lowery, extension agronomist at Auburn, show that with corn at a dollar per bushel and seed cotton at six cents per pound Alabama farmers should expect next fall more than $4.00 for each dollar invested this fall in hairy vetch seed, inoculation, and phosphate fertilizer. Taking the state as a whole, corn yields were increased 22 bushels per acre and cotton 356 pounds of seed cotton per acre as a result of one crop of hairy vetch. At $1.00 per bushel this corn is worth $22.00 and cotton $21.36 at six cents per pound.

At present the Farm Bureau is distributing seed, inoculation and fertilizer at a cost of $4.50 per acre which is less than one-fourth of the average returns in former years.

Where hairy vetch has been compared with commercial nitrogen results have been overwhelmingly in favor of vetch. It is also cheaper than manure at $2.00 per ton. However, farmers are urged to save all manure.

"The big advantage of hairy vetch," said Mr. Lowery, "is that the farmer who plants these seed this fall is not expected to have to buy any nitrogen next spring to apply where vetch is grown. Nitrogen which veteh takes from the air and adds to the soil is ton will need and there will be some all that a crop of either corn or cotresidue for another year.'

MAKING GOOD HEADWAY WITH NEW HIGHWAY

Good headway is being made by those in charge of constructing the Clanton-Maplesville Highway, and already a good portion of the new road is being used.

The grading crew is now at work within the corporate limits of Clanton, and with the new machinery recently purchased, even greater progress is expected.

Smith Speech Is Progressive, Human, Stand

ALBANY, N. Y., Aug. 22.—Before an immense throng which gathered to hear his first pronouncement on the issues of the Presidential campaign, Governor Alfred E. Smith accepted the Democratic nomination for President here tonight in an address which was as progressive in character as it was courageous in its terms.

Governor Smith pledged himself and his party to the restoration of honesty in government; to the promotion of a real prosperity for the whole people through actual rather than fancied economies and reorganization in government and the enactment of sound tariff legislation; to the establishment of a foreign policy opposed to unwarranted intervention in Latin-American countries and for the outlawry of war; and to the stamping out of corruption in prohibition enforcement.

The Democratic candidate placed himself squarely on record for farm relief and promised to call together the best informed minds among farmers, business men and economists immediately following the election to devise a practicable plan for the control of surplus crops for submission to Congress at the beginning of his administration.

"Upon the steps of this Capitol where twenty-five years ago I first came into the service of the state, I receive my party's summons to lead it in the nation," said Governor Smith in accepting his party's call. "Within this building I learned the principles, the purposes and the functions of government and to know that the greatest privilege that can come to any man is to give himself to a nation which has reared him and raised him from obscurity to be a contender for the highest office in the gift of its people.

"With a gratitude too strong for words and with humble reliance upon the aid of Divine Providence, I accept your summons to a wider field of activity."

He sounded the keynote of his entire address when he said:

Constructive Government

"Government should be constructive, not destructive; progressive, not reactionary."

"I am entirely unwilling to accept the old order of things as the best unless and until I become convinced that it cannot be made better," he continued.

"It is our new world theory that government exists for the people as against the old world conception that the people exist for the government," he said.

The candidate reaffirmed his belief in the soundness of "deliberate action of an informed electorate." He referred to the public issues he carried to the voters in New York State and added:

"That direct contact with the people I propose to continue in this campaign and, if I am elected, in the conduct of the nation's affairs."

He said he would strive to make the nation's policy a reflection of the nation's ideals. Cleveland's phrase, "Public office is a public trust," now takes on new meaning, he said.

"The Republican party today stands responsible for the widespread dishonesty that has honeycombed its administration," Governor Smith asserted.

The Governor attacked the claim of Republican prosperity.

"The Republican party builds its case upon a myth," he said.

Four million men out of work, whole industries prostrate and widespread business discontent do not spell prosperity, he continued.

"Prosperity to the extent that we have it is unduly concentrated and has not equitably touched the lives of the farmer, the wage-earner and the individual business man," said Governor Smith.

Republican leaders have tried to divert attention from the real situation by a propaganda of governmental economy, he asserted.

The Republican party promised reorganization of the government, he said, yet after seven years the structure is worse than it was in 1921.

Governor Smith pointed to the increase in federal appropriations, against which, he said, the official spokesman answers only, "We have given an economical administration."

"I assert that there is no proof," Governor Smith declared.

After giving a summary of the government finances, he pointed out that as against the claim of tax reductions there were actually $24,000,000 more federal taxes collected last year than in the first year of the Coolidge Administration.

It is not economy to refuse to make necessary expenditures to provide facilities for the transaction of government business, he said, pointing out that scarcely a city in the country has adequate quarters for federal business at the present time.

Anticipating Republican misrepre

(Continued on last page)

The Negro and His Lair

Memphis Commercial Appeal.

From early childhood I have been a constant observer and an ardent admirer of the wondrous works of God. In my early days birds, bees, bugs and flowers were a never-ending source of pleasure to me; and when a lad of more mature years I have lain for hours in the shade of some friendly tree and played with a toad frog or June bug until the dinner horn blew, when I was erroneously supposed to have been diligently hoeing cotton. In after years I have sat silently on the seashore and watched the tide ebb and flow; I have climbed lofty mountains, and loked down upon the clouds; I have descended into the valleys and stood upon the banks of the world's greatest river and watched the turbulent waters roll by; I have looked above into the starry decked dome of Heaven and gazed upon the far-away planets and comets performing their stupendous and harmonious revolutions, and have seen written upon the face of all nature the glory and wonder of the great Creator. But I have always and do now, regard the negro as His masterpiece. He stands alone in a class by himself; and while the Yazoo and Mississippi delta is peculiarly suited to his needs, yet he can adjust himself to any kinds of climatic conditions and live and die happy under the most trying circumstances.

Sleep In Sun

He can lie down beneath the scorching rays of a noonday sun and sleep the sleep of the seven sleepers of old without suffering any evil effects from it whatever; or he can weather the fiercest wintergale, clad only in a pair of cotton overalls and a blue jumper. He can also wear an overcoat to a Fourth of July celebration, or a pair of linen pants and an alpaca coat to a Christmas tree and be perfectly comfortable.

And, strange, as it may seem, anybody's clothes will fit him, and look nice on him. King Solomon, in his declining years, when he had become thoroughly disgusted with high society and fast living said that there was nothing new under the sun; that he had gone all the gaits and had seen the whole show, from the free exhibition to the grand concert, and that there was nothing to it, or words to that effect. But it will be remembered that he never had any negroes to deal with, or he would have had a new problem to solve every day of his eventful life. There is nothing else like the negro under the sun. He sees all things, hears all things, believes all things, and has implicit faith in everything he sees or hears and stands ready at all times to step aboard of anything that comes along, from a young mule to a flying machine.

Has Used Wireless

Wireless telegraphy is nothing new to him; he has used it for ages; every negro's mouth is a transmitter and every ear a receiver. If anything of importance happens on a plantation tonight, every negro for forty miles around, will know it by morning.

If you ever arrive in a Delta town on the train on Sunday and the whole colored population is not at the depot to meet you, do not get off the train, for you may know that of a surety some catastrophe has just struck the town.

Saturday is his special day by custom, and common consent, and if you have any business to attend to in a delta town on Saturday, attend to it early and get off of the streets before you get hurt. A negro cannot see you Saturday, unless you owe him something, and if you get in his way he is liable to step on you, sit down on you, or back you up against a brick wall and smother you to death. He does not usually do these things, or any of these through any evil design, as many sometimes suppose, but he simply cannot help it if you get in his way, for he is busy and connot look out for you. Saturday is his

(Continued on Page Four)

FARM BUREAU COTTON ASSOCIATION MEMBERS GET CHECKS

Checks amounting to $277,000 have just been mailed to members of the Alabama Farm Bureau Cotton Association, who had cotton in the Annual pool this year, according to Allen Northington, general manager. This was the final settlement of the 30,161 bales handled through the Annual pool.

The Cotton Association members still have considerable cotton in the Special pool. This cotton is being sold only when the members ask that it be sold. There were 50,077 bales in the Special pool. Besides the Annual and Special pool cotton, the Association handled 21,100 bales of cotton in the 1926 Long Pool.

Officials announce that they are now ready to handle this year's cotton crop. It has been demonstrated that farmers, in most sections of Alabama, receive better grades, better warehouse rates, and, in most cases, better prices through the Cotton Association than they do on the outside.

MR. AND MRS. PAUL C. SMITH VISIT HERE SUNDAY

Mr. and Mrs. Paul C. Smith, Jr., and children Mary Eliza and Louise of Birmingham arrived last Sunday to visit friends and relatives. Mr. Smith returned to Birmingham Sunday afternoon, while Mrs. Smith and children will remain for several days as the guest of Mrs. Mamie C. Smith.

REV. F. A. GIBSON CLOSES REVIVAL AT MT. ARANT

Rev. A. F. Gibson returned Thursday from Shelby county where he assisted Rev. Harry Culp with a big revival at Mt. Arant. Rev. Gibson states that the revival lasted only a short time but was a very enjoyable affair.

MERCHANTS SENDING IN RESERVATIONS TO MEET

Alabama Merchants To Convene In Birmingham August 29th and 30th

Birmingham, Ala. Aug. 20.—Reservations to the twelfth annual Alabama Merchants Convention in Birmingham August 29th and 30th, are coming in to headquarters at the Birmingham Chamber of Commerce, according to the president of the association, W. O. Kelley, of Cullman.

Among the first arrivals are reservations from merchants at Carbon Hill, Pelham, Haleyville, Rockford, Jasper, Jemison, Aliceville, Beaverton, Oakman, Cordova, Bughton, Quinton, Empire, Eutaw, Cropwell, Trussville, Benoit, Warrior, Ashville, Townley, Cullman, Hanceville, Rockcastle, Village Springs, Lovick, Trafford, Jones and others.

The two days program is crowded with a variety of entertainment features, including a theater party, convention revue and convention ball the first day and a barbecue, bathing beauty contest, horseshoe pitching contest and free rides on the various concessions at Fair Park on the second day.

Two short business sessions will be held, one at the Municipal Auditorium Wednesday morning, following registration when delegates will be officially welcomed and committees appointed and one Wednesday night at the Highland Park Club.

President Kelley will preside over both sessions, making his annual address Wednesday night. Election of officers will take place at this meeting and Dr. Lee Bidgood, dean of the School of Commerce at the University of Alabama, his subject being "Big Business Comes To The Retail Store."

An automobile will be given away Thursday night as an attendance prize and George Bellsynder, general chairman of arrangements states everything will be done for the entertainment of the 4,000 delegates expected, while they are in the city.

Merchants are urged to send in their reservations as early as possible.

JIM BAKER IMPROVING AFTER SLIGHT ILLNESS

Jim Baker, a familiar colored character around Clanton, is recovering from a recent illness. This illness was superceded b ya recent fall, which caused laceration of one of his arms, which became infected.

2:05—"Sharpening Our Vision Through Study Courses" by Ruth [illegible]

2:20—Conversion of Farmer Brown to the Doctrine of Stewardship" Indian Grave members.

TWO MEN INJURED WHEN CAR GOES OVER EMBANKMENT

Two men were injured, one seriously, in an automobile accident which occured about one mile north of here on the Birmingham-Montgomery highway about eleven-thirty a. m. Tuesday.

The men are: Mr. Leonard Thomas, of Montgomery, the most seriously injured, severe cuts about the head and arms; and Mr. Morris Glass, of Gordo, bruises and shock. The two men were on their way to Montgomery to attend the Merchants Convention which is being held there, when the accident occured. It was raining extra hard, and a terrific wind was blowing, and this, according to passing motorists, seemed to be the cause of the accident. The car deft the road and went over a high embankment, turning over. The car, a Hupmobile Six sedan, was damaged considerably.

Mr. Thomas is with Solomon Bros., of Montgomery, and Mr. Glass, a resident of Gordo. He was accompaning Mr. Thomas on the trip to Montgomery. Both were rushed to the office of Dr. Napoleon Johnson here, where they were given treatment. Later in the afternoon they were carried to Montgomery to St. Margaret's Hospital by J. Mell Martin's ambulance.

SERVICES AT LUTHERAN CHURCH IN THORSBY

We have been requested to announce that serviees will be held at the Lutheran Church in Thorsby, Ala., on next Sunday morning, August 26 at 10:45 o'clock. The Rev. T. N. Bakke will conduct these services.

At two-thirty o'clock the same afternoon, a special business meeting will be held at the church, presided over by Rev. Bakke.

Rev. and Mrs. T. N. Bakke, Mrs. Mathilda Grenn, Mrs. H. H. Dahl and Mr. Gus Jones were among the visitors to Clanton from Thorshy last Tuesday.

SINGING AT NEW HARMONY CHURCH ON AUGUST 25TH

The Sacred Harp Singers will meet at New Harmony Church on next Saturday August 25th, at eight o'clock. They will meet for the purpose of organizing a County Sacred Harp Singing Convention. The singing will continue through Saturday and Sunday, except preaching at the regular hours as this is the regular preaching days.

All singers and lovers of Sacred music are invited to come and help, and enjoy the old-time singing and the old-time Gospel.—A. A. Jackson, W. L. Sanders, Roy Jackson and others.

Mr. and Mrs. J. E. Denis of Maplesville were among the visitors to Clanton last Tuesday.

Chilton County Abstract Co.

M. D. FOSHEE, Manager

A good business man will not buy a farm or any property without first looking it over to see what it is worth.

However, some will buy or loan money on land without an abstract.

Isn't it equally as foolish to buy a farm without looking it over as to buy it and not know whether the titles are good or not? Without an abstract you do not know where you are getting the land you look at or not.

Before investing in land in any way have an abstract made and be safe.

UNUSUAL OPPORTUNITY IN BIG FIRESTONE TIRE SALE

The announcement by Clanton Service Station, well-known local Firestone Tire Dealers, of a great "Labor Day" sale will prove of more than ordinary interest to the many motorists in this city and vicinity who are planning a trip over the annual three-day holiday.

"Prices lower than ever before known," reads the advertisement, and such a statement has especial significance in view of this local dealer's enviable, long-established reputation for conservative management and dependable merchandise.

According to the announcement, the entire fresh, new stock of the famous Firestone Gum-Dipped Tires, as well as the standard Oldfield, Courier and Airway casings, will be on sale up until the close of the Labor-Day week end.

This year's blistering summer, it is pointed out, has been especially hard on tires and now will be a splendid time not only to insure a holiday uninterrupted by outworn casings, but to save money on tires for use the entire year 'round.

This newspaper is heartily in accord with the "Buy at Home" movement which is growing in popularity here. It is recognized that Clanton's welfare is coincident with the progress of the local business men. Undoubtedly the growing patronage of this Firestone Dealer is due to increasing appreciation of the advantage of dealing with a firm fully acquainted with local requirements and usages.

It is announced that despite the amazingly low prices in effect on the Firestone, Oldfield and Courier Tires, the famous Firestone unlimited guarantee against defects for the entire life of the tire, will be given on these brands, in all sizes and types.

AIR TRAFFIC REQUIRES WOOD

Montgomery, Ala., Aug., 20.—Wood forms important parts of the structures of man's newest device of transportation, the airplane, points out the Alabama Commission of Forestry. While steel and duralumin are also used extensively, many of the best airplane designers claim that for certain purposes wood cannot be surpassed.

For the propellers Apple wood, Cherry, Dogwood, Hickory and Walnut are especially valuable. The wood most commonly used for the spars and ribs of the wings is Spruce. This is a very light material and can usually be obtained in suitable dimensions and quality. The leading edges, and sometimes the entire surface of the wings are often comprised of plywood made of Mahogany or Birch, although other species are frequently used.

Among the favorable characteristics of wood as contrasted with metal for airplane construction is its elasticity. Under stress of the parts, wood is little liable to permanent deformation. The ease with which wood may be repaired in case of wear and tear and minor accidents also meets with much favor among aeronautical engineers.

BILLINGSLEY

The inclemency of the weather prevented the Special program of the Y. W. A. Sunday night. It will be given next Sunday night at 7:15 o'clock before the preaching service. The playlet, was written by Mrs. Carter Wright State W. M. U. President.

Miss Mabel King is visiting her aunts Mrs. Olive and Misses Laura and Fannie Apperson in Birmingham.

Prof. J. O. Dickinson of Altoona, who is attending the University this summer visited relatives here Sunday.

Dr. and Mrs. E. E. Downs were called to Montgomery Saturday by the death of his brother's wife, Mrs. J. A. Downs.

Mr. and Mrs. W. A. Gandy spent Sunday with relatives at Plantersville.

E. B. Mills made a business trip to Birmingham Saturday.

Messrs O. C. Davis, Letcher Thompson, and McCrary of Tallassee were visitors here Sunday.

Quite a number attended the political meeting at Prattville Sunday afternoon.

Mrs. E. J. Moatts of Route 1, has returned from a Montgomery Hospital. She and little daughter are doing fine.

LEGION OFFICERS ELECTED

At a meeting of Porter Plier Post of the American Legion last Thursday night the following officers were elected:

Van Smith, Commander; Percy M. Fitts, Vice-Commander; John H. Plier, Adjutant.

Twenty-four ex-service men of Clanton and Chilton County have signed up for membership.

Another meeting of the Post is called for Friday night of this week at the Courthouse. Every ex-service man in the County is invited to attend. At this meeting delegates will be chosen to go to the State Convention of the Legion at Huntsville.

State Commander, Pete Jarman, was present at the meeting last week and made a very inspiring address to the Legionaires of the local Post.

KNOW Your South
and be a Partner
· · · in its Growth · · ·

Birmingham
Industrial Center Of The SOUTH

Birmingham, Ala., has a distinctive air about it. While typically Southern, it possesses the bustle and hustle of a great metropolis. In half a century, it has grown from a small mining settlement of 3,000 souls to a metropolitan area population today of 375,000 persons.

The secret of its remarkable growth is due to the wealth of natural resources in the mountains surrounding the city. Here are found together coal, ore, and limestone, the three essentials for making steel. This is the only spot in the world where these three minerals are found together. While first a city noted for making steel, it has in recent years become noted for being a city of diversified manufactures. There are today 800 different industries, making more than 2,000 different articles, including all the essentials of life and many of the luxuries.

Birmingham public schools are noted throughout the country and there are two A Grade colleges located here. More persons attend Sunday school and church in Birmingham than in any other city in the world per capita.

What is declared by many to be the finest municipal golf course and club in the United States is located in Birmingham. The first unit of a half million dollar municipal stadium has recently been completed and some of the leading athletic events of the South are being held here.

To know the South—you must see Birmingham.

(Signed)
BIRMINGHAM CHAMBER OF COMMERCE

What the "OLD RELIABLE" means to BIRMINGHAM

The L. & N. and Birmingham have worked arm in arm for nearly 60 years in developing the natural wealth of this wonderful district. The L. & N. has been, and hopes to continue to be, a factor in its industrial progress. Over 3,100 L. & N. employes work and live in Birmingham territory, drawing nearly $5,250,000 in salaries annually.

The L. & N. serves Birmingham with 26 passenger and 76 freight trains daily. It spends several million dollars yearly with industries in and near Birmingham, particularly for the purchase of steel.

THE OLD RELIABLE L&N LOUISVILLE & NASHVILLE R.R.

H-6

CLANTON BAPTIST TO BEGIN REVIVAL NEXT SUNDAY

Beginning next Sunday, Aug. 26th, the Clanton Baptist church will begin a series of revival services to continue eight or ten days. Rev. R. L. Wyatt of Birmingham will arrive Monday and do the preaching. He is a man of fine personality and a preacher of rare gifts. He will deliver his first sermon Monday evening, at 7:30.

Mr. H. W. Lowery of Clanton will have charge of the music. He is too well known to Clanton audiences to need any introduction as a singer. Mr. Lowery wishes to meet all those who will help in the singing at the church Friday evening at 7:30 for organizing and practice.

The services will be held each day at 10 o'clock and each evening at 7:30 o'clock. All the circles will meet at the church Monday afternoon at four o'clock and have their regular business meeting followed by a special prayer service for the revival. The public is extended a cordial invitation to be with us in all these services. —S. J. Ezell, Pastor.

SUNDAY SCHOOL CONVENTION AT MULBERRY AUGUST 26

The following is the program of the Third District Sunday School Convention of the Unity-Chilton Associations to be held at Mulberry next Sunday, August 26:

2:30 p. m. Devotional, by T. L. Lecroy.

2:45. "Music, and its part in the Sunday School," Mrs. C. N. Parnell.

3:00. The Superintendents Program, J. D. Griffin.

3:30. "The Sunday School I would like to have," H. A. Harris.

4:00. The Sunday School that helps me in my work as a pastor," Rev. Paul Oden.

4:30. Business session, and adjournment.

The following Sunday Schools are asked to send delegates to this Convention: Maplesville, Mt. Carmel, Pleasant Grove, Ebenezer, Alpine, Pilgrims Rest, Sardis, and Mulberry.

The Superintendents of each of these Schools are urged to be present.—J. E. Dennis, Dis. Pres.

Mr. and Mrs. Clay Marcus motored to Birmingham last Sunday. They were accompanied by Mrs. E. Sanders, who returned to her home in Birmingham.

STANTON

Mrs. Ruby Oglesby and children of Selma, and Mrs. Bob Young of Tuscaloosa spent Tuesday as the guests of Mrs. M. E. Dunsmore.

Mrs. Alice Woolley of Cox, Ala., is visiting Mrs. Joe Cox.

Mr. and Mrs. Percy Rasberry and son of Dora, Ala., are visiting Mr. Rasberry's grandparents, Rev. and Mrs. W. J. Ruddick.

Mr. Clifton Beagles of Fulton, Ala., spent Sunday here.

The many friends of Mrs. W. J. Ruddick are very glad to know she is improving after being very ill.

The Parent-Teacher's Assocation met Thursday evening at the home of Mrs. H. A. Harris. The following members were present: Mesdames Schurter, Parnell, Woolley, Henry Cox, and Misses Armour Woolley. Mildred Schurter, and Lora Woolley. Ice cream and cake was served.

Mr. and Mrs. H. A. Harris, Mr. A. L. and Archie Harris and Miss Mable Harris spent Saturday in Linden.

Mr. J. L. Burnette, Mr. Rush, Vernie and Dennis Burnette and Lum Bearden spent Saturday in Birmingham.

MISS WYNNESS TATE IS VISITOR TO CLANTON

Miss Wynness Tate and Miss Lucille Braswell stopped over in Clanton for awhile last Wednesday. They were enroute to Fitzpatrick, Ala., in Bullock County.

Miss Tate will be remembered in Clanton as a member of the faculty of Chilton County High School several years ago and has many friends here who are always glad to see her.

Miss Braswell is the Home Demonstation Agent for Walker County while in Clanton, they were the guests of Mrs. Mamie C. Smith.

PEARS!

These meetings will be conducted under the direction of the Church of Christ of Clanton, Ala. The public is cordially invited and urged to attend these meetings.

The Leaders of Church of Christ, Clanton, Ala.

SIX QUALIFY FOR COUNCIL; ONLY ONE FOR MAYOR

While many names have been mentioned as possible candidates for the office of [illegible] will be held in Clanton next [illegible] when the time we go to press Wednesday evening, according to [illegible] known.

Eric Hart, who has served as a member of the City Council in a very able manner, has qualified as a candidate for Mayor. "Buck" as he is well and favorably known, has no "qualified" opposition for this, the highest office of the town. He has taken an active part in civic, religious and social affairs, and needs no introduction to the voters of the town.

For members of the Board of Councilmen: W. M. Polk, Sr., Reedy Taylor, H. S. Shaw, J. P. Lawrence, J. W. Franklin, and G. D. Broadhead, are all qualified and their names will appear on the ballot. These men are all well and favorably known in every sense of the word, and while only five are to be selected, the town is assured of being ably handled when left in the care of five taken from the above group.

STANDARD HYDRANT COUPLINS ARE NEEDED

A large proportion of the fire departments of this country are unable to aid neighboring cities if a need arises because of lack of uniformity of hydrant couplings. The National Board of Fire Underwriters is carrying on a campaign for the adoption of uniform standard of fire hose and connections.

It is said that in a number of the greatest and most destructive conflagrations the loss would have been appreciably less had standarization of equipment been effected. As it was, fire fighting apparatus that came from communities ready to aid, was practically useless and could not be utilized.

Our fire menace must be curbed and this standardization movement will do much to help. Every city and town should cooperate to the fullest extent in remedying present conditions as rapidly as possible. When we have conquered fire it will mark the dawn of still greater progress and prosperity.

BURGLARY INSURANCE COVERAGES MORE LIBERAL

Burglary, robbery, theft, and larceny are branches of the "crime industry" which affect practically every household today. Burglary insurance has been a logical development to meet present conditions. Insurance companies have had to broaden the coverages in this type of insurance without increasing the rates.

As an example a hold-up within the premises insured is now covered without extra cost, as well as property contained in a safety deposit box located in a bank or a trust company or safe deposit company in the United States or Canada. And so on through a long list of new provisions broadening the scope of the policies.

The policyholder will now be indemnified for loss of a baby buggy or a bicycle from a porch, golf sticks from an automobile in his garage and other similar losses not previously covered except at extra cost.

A man is sure, for divorce because he did not know his wife very well when they were married. Almost any husband might truthfully acknowledge that.

The most provoking husband is one who talks indistinctly in his sleep.

Well, whichever way a Southern Democrat votes he will have a few bishops on his side.

A knocking motor should have immediate attention, but a knocking man should be left severely alone.

If Tex Rickard wants to tage a real snappy event he might arrange a political debate between Mr. and Mrs. Shaver.

The Georgia man who lost his speech while making an airplane flight probably wishes he had let the wife go up first.

If your boy shows an inclination for eavesdropping, spying, and snooping, encourage him. He may become a great investigator someday.

THE NEGRO IN HIS LAIR

(Continued from first page)

"rashions" and news exchange day, and in addition to having all those things on his mind, he has to shake hands with every other negro woman he meets. You had better take out an accident policy or get off the streets Saturday.

Stomach Like An Accordion

The standard "rashions" for a negro is a peck of corn meal, two pounds of sugar, one pound of coffee, three pounds of salt meat and one gallon of black molasses a week, but he can consume all this at one sitting if necessary, or if he is working for you and boarding himself he can live a week on three soda crockers, a box of sardines and 5 cents worth of cheese. In other words his stomach is built on the same general priciples of an old fashioned accordion, and either contracts or expands according to the pressure brought to bear upon it.

He is also immune to nearly all kinds of poisons, and can swallow the most deadly drug with impunity. I remember of having a negro working for me one time who was having chills and was suffering with severe backaches. I got him a bottle of chill tonic to take and a bottle of liniment to rub his back with. The liniment was labeled in box car letters, "Poison, For External Use Only", and I cautioned him about it when I gave it to him, but for three days and nights, before I had found it out, he had been rub bing his back with the chill tonic and taking a tablespoonful of the liniment three times a day before each meal with excelleent results. On another occasion I was sick and had a negro to wait upon me, and the doctor opened a can of antiphlogistine to make a plaster for my side, and left the can in the kitchen table, and when my negro went in to get his supper he mistook it for a can of peanut butter and ate the whole of it without ever discovering his mistake.

Lays Up No Treasure

The negro does not lay up treasures on earth where moth and rust would corrode them or where thieves might break through and steal, but when he has any money or other valuable thing he immediately puts it in circulation, and the things in which he usually invests are never of a permanent or lasting nature. He spends much money each year for legal and medical advice, persumably of the purpose of finding out what he ought to do, so that he may do the opposite, for it is a well known fact that a negro was never known to shut a gate or follow anybody's advise about anything.

He is also an ardent admirer of the work turned out by the dental surgeon, and down deep in every negro's heart there is a secret longing to some day have a gold tooth in front, one in a plate so that he can take it out and look at it and put it back at will.

Strong For Art

He is likewise a great admirer of art, and in nearly every negro's home be it ever so humble, there hangs a life-size crayonportrait of himself on the wall right opposite the door, where you will be sure to see it as you come in the door. The rest of his surplus money he usually spends for entertinment, perferably an excursion but enything else in motion will do. I have frequently stood on the street corner on a cold, cloudy winter day and watched as many as fifty negroes, who would not average 50 cents each, and none of whom had on clothes enough to flag a handcar, clinging to a merry-go-round as it went round and round, grinding out that well-known and much beloved melody "Oh, Bill Bailey, Why Don't You Come Home."—and their front teeth shining like the keys on a "baby grand" piano, while hundreds of others who did not have the price of a ride, were standing in half-frozen mud shoe, mouth deep, cheering them as they came round.

All things are pleasing to him. A circus or a funeral is equally enjoyable, but a protracted meeting followed by a big baptizing, or a term of the Circut Court followed by a public hanging is his chiefest delight.

The negro was once the white man's slave, but that was only for a short time, and was a part of the great scheme which God had in mind to better prepare him for the enjoyment of the great things which he meant to bestow upon him in the future. By long and close association with the white man, the negro learned all of his ways, and his most innermost thoughts, and can now size him up and classify him as accurately as a cotton buyer does the different grades of cotton, and can do it much quicker.

He Gets What White Man Has

He is no longer a slave to man or Mammon, and verily that Scripture which says: "The last shall be first and the first shall be last" has already come to pass and the negro now has a reserve seat in the front row. If any good things are to be had he is sure to get his share. One day a negro asked me if I thought a negro had a soul. I told him I most assuredly did, and if he did not have one it was the only thing I had ever heard of a white man having that a negro did not get if he stayed with him long enough The negro has no great problems to solve. There is no race question so far as he is concerned. He enjoys the society of all races, ages and nationalities and will mingle freely with any of them. He enjoys with equal pleasure the companionship of a 5-year old white boy, or an aged Chinaman who is unable to speak or understand a single word of English, for in either case he gets to do most of the talking.

For A Silver Standard

The tariff question or the currency question does not interest him in the least. Silver is his standard and he does not want any other kind of money. Neither does the Mexican situation worry him any. All those things are the white man's trouble. But if the white folks want to whip Mexico or anybody else for any cause, or without any cause for that matter, and will furnish him with the arms and ammunition, and will back him up in it, he will be glad to do it for him.

His One Great Trouble

The road question is the only question that ever gave the negro any real trouble, but that was when he was subject to road duty, and happily for him, that burden has also been shifted to the white man, and the roads of the Delta are now being worked by taxation, and all he has to do is to pack them down after they are constructed.

Neither does the levee nor the want of a levee bother him. That is some more of the white folks' trouble. If we have an overflow, or do not have one, it is all right with him. If we do have one, he is the first to have a boat and get out into it and paddle around from morning until night with the blessed assurance that there will be no more work done while it lasts, and that he will draw his rations from his land'ord or from the government and sometimes both, until it subsides.

When He Comes to Town

Whenever a negro tires of country life he moves to town, acquires a charcoal bucket and a tailor's goose, forms an alliance with some white man's cook and with his living thus assured, opens a cleaning and pressing establishment. He then gets out Monday morning and gathers in the Sunday clothes of the white clerks of the town, and after wearing them himself every night during the week, he gets up Saturday morning and treats them to a gasoline bath, flattens them out with a red hot iron and rushes them home to their owners, so that they might wear them Sunday, collects $1.05 for his services in their behalf and goes on his way rejoicing. But should there be any specal occasion in town on Saturday night which he wishes to attend he holds back the best suit that he happens to have on hand and wears it to that and carries it home Sunday morning, if he happens to wake up in time; otherwise the owner can lay in bed over Sunday and he will bring it backs sometime the following Monday.

If perchance his fancy does not run to cleaning clothes, he gets himself a gasoline stove and other paraphernalia wherewith to defaat the vagrant statute, and sets up a lunch counter, where he serves all such as care to come his way, irrespective of race, color, or previous condition of servitude, with hamburgers, hot catfish and beef suasage and some sweet spirits of fermenti on the side. But should neither of the vocations appeal to him he usually opens a colored barber shop with a pool room and crap table in the rear.

As soon as the city authorities become obnoxious to him, however, he again comes back to the quiet country life, usually right after the Christmas holidays, and joins himself to a cotton planter, and by his certain written contract, duly executed in duplicate, obligates and binds himself to cultivate and gather a crop of cotton on the land therein described and on the strength thereof, proceeds to eat up anywhere from $5 to $300 worth of grub while he is waiting for the ground to get in shape to plow, and it very frequently happens that when the trees begin to bud and when the birds begin to sing, Mr. Negro is seized with wanderlust, and suddenly disappears, and the people woh once knew him know him no more forever. Every Delta town also has its full quota of negro women, who, like the lily, toil not, neither do they spin, yet the Queen of Sheba, in all her glory was never clad like unto one of them.

Surely the negro is fearfully and wonderfully made, and his ways are past finding out.—Montgomery Advertiser, Nov. 4, 1913.

HERRIN-PIPER MULE Co.

Successor to
Donahoo Mule Company

Located at 2701-2nd. Ave., Birmingham, Ala., have maintained their high standing in this section for many years as able and reliable live stock dealers. They offer a most advantageous market for horses and mules, conducting a sales and exchange business. They are authority on the value of horses and mules and are accurate on appraisal.

This company is more than an institution of their own city as their activities extend for many miles in all directions. They buy mules from Missouri, and have on hand at all times a large stock, another splendid feature of their service is, that they will deliver, a purchase within fifty mile radius, of Birmingham. The reputation of this firm for fair and above board methods, its general usefulness for buyer and seller, has brought it an everlasting patronage from all over the surounding territory. The management of this establishment are able to supply the public with all kinds of horses and mules, with every animal just as represented, at very reasonable prices.

GENERAL MOTORS PROVING GROUND HAS ADDED FEATURE

Detroit, Mich., Aug. 20, 1928.—General Motors Proving Ground, the 1245 acre outdoor laboratory near Milford, Mich., where cars are accurately measured to find out their performance ability, has in response to a demand for greater accuracy, added a weather house to its many ingenious scientific checking devices.

Adapted, like so many of its companion devices at the Proving Ground, to the sole task of evaluating precisely and impartially all makes of automobiles, the weather house is, perhaps, the only one of its kind in the world. Unlike other observatories, this one is not a weather forecaster, but a weather "hindcaster" to use a term employed by Proving Ground engineers. It is unique, again, in that it includes in its complete equipment, probably the only wind velocity indicator in operation outside of the U. S. Navy.

It has been in use for several weeks, and is operating day and night under the direction of skilled meterologists. Its reports are available to all General Motors divisional engineers and daily reports are filed at Lansing with the Michigan state weather department.

Here is a hypothetical instance of the manner in which the weather house assists the engineer in the precise task of measuring an automobile merit:

The Chevrolet engineering division, in checking back on the performance of one of its "Bigger and Better" models, might find that on May 9th its gasoline consumption exceeded slightly that of the preceding and following days. It might be found, too, that a little more water was required for the radiator and that fluctuations were noted in the speed, none of which effects would be discerned by the average driver.

The Chevrolet engineers will set out to find the cause of these variations. And one of the first aids they will call upon is the weather recorder.

In checking back with the graphic weather records, the engineers might find that the wind velocity varied on May 9th, between six and ten miles an hour. On May 8th and May 10th it remained below five miles an hour throughout the day. Thus the engineers know in making their comparisons that the wind was a factor in the change and to what extent. In like manner they are able to tell exactly what effect the sunshine, rain, humidity or snow had to do with performance fluctuations on any given hour of any given day. This definite knowledge is a vital help in developing new models and in adjusting old ones.

The wind velocity, incidentally, is one of the most important meteorological factors in motor performance. So marked is its effect, in fact, that precise tests are impossible when it exceeds 10 miles an hour. The complex and always reliable wind velocity indicator, which came into being in the United States Navy, where it was evolved from a device originally used for transmitting messages from the bridge of a ship to the engine room, is therefore one of the most highly considered pieces of equipment in the weather house.

Weather has always been a bugaboo to automotive engineers, and the Proving Ground has not neglected to place it among the most important factors bearing upon performance. Means of recording temperature and barometric pressure had been in use before the weather house was established. It remained, however, for this compact little building, whose warning flags are discernable from all parts of the ground, to place weather computation on an efficient basis. About 1,000 feet higher than Detroit with cold winters, warm summers and generous distribution of snow and rainfall, meteorologists agree with automobile men that it is ideally located.

UNDERGROUND NEW YORK SURPASSES OLD WONDERS

The largest city in the world has arrived at the point where it far surpasses the fame, of ancient European cities for tunnels, catacombs and underground passageways.

An imaginary cross section of underground New York, discussed in The American Magazine, shows the extent to which New York's city under the city has been developed. Arteries of traffic, light, heat and waste, subway lines worth hundreds of millions of dollars—one new line is to cost $400,000,000 alone—railway tracks, stores and other buildings stretch out for miles under the island of Manhattan. In the heart of the business district well known hotels and towering business buildings are supported by tons of concrete in piers and tons of steel columns.

"Assume for a minute," says the magazine, "that a gingantic cleaver were to descend upon Manhattan Island and to split it from end to end along the new subway line on Eighth avenue. You would behold thronging skyscrapers and densely populated apartment houses and ten miles of street railways all propped up temporarily on stilts of lumber, concrete and steel.

"Under the sidewalks of New York! Here are what have been called the city's vocal cords, her muscular, nervous and alimentary systems. There are telegraph, telephone, and power lines, pnuematic tubes, and transit tunnels side by side, with great channels of pure water, huge sewers and endless pipe lines for gas and for scalding steam."

FARM PRICES INCREASE ON VARIOUS COMMODITIES

Montgomery, Ala., Aug. 20.—Farm prices of various commodities grown in Alabama advanced on the average from June 15 to July 15 by about 8 points, and now average 95 per cent above the average from 1910 to 1914, according to the August issue of Farm Production, issued by F. W. Gist, federal and state statistican.

Only cotton seed and hay showed a decrease in price, while the price of peanuts remained the same, and such other commodities as potatoes, eggs, chickens, butter etc. bring more to the farmers' pocket book.

The tendency of crop prices for the United States has been downward lately, including corn, wheat, cotton and potatoes. However, the general price position of farm products as a whole, is still the most favorable, since the depression in 1920.

The U. S. Bureau of Agricultural Economics has recently compiled a new index of prices actually paid by farmers for the things they buy. Using this new retail index as an exchange basis, the purchasing power of farm products stood at 95 in May and 93 in June, the 5 pre-war years representing par or 100. This is the highest level of purchasing power since 1920, and means that the farmers' dollar is growing bigger.

For the U. S. the farm price of hogs declined slightly from May 15 to June 15, the June 15 farm price being about 1 per cent lower than that for May.

The Farm price of potatoes declined nearly 19 per cent between May 15 and June 15. This slump caused a heavy loss to Baldwin County growers, and caused a number of carloads which were not dug. According to reports made to the State Department of Agriculture, the price for sweet potatoes in July was considered very good and growers express satisfaction over the result. The northern movement of the early crop of sweet potatoes is about finished.

DIZZY
Lost Appetite

Mr. M. F. Fink, of Harrisburg, N. C., says: "It must have been fully twenty-five years ago that I began taking Black-Draught regularly.

"I was in town one day, and while talking to a friend I stooped over to pick up something. When I straightened up, I felt dizzy. I spoke to him about this and how I had not felt like eating.

"My friend told me to take some Black-Draught. I knew my mother had used it, and so I bought a package. When I got home, I took a good, big dose, and the next night, another. In a few days I felt much better.

"A good many times I have had this dizziness and a bad taste in my mouth, or headaches, and then I take Black-Draught and get better. I do not have to take it very often. We buy from five to seven packages a year." Try it!

Mr. and Mrs. L. D. Guy and Mrs. D. C. Alred were visitors to Birmingham last Saturday.

NO SERVICES AT METHODIST CHURCH NEXT SUNDAY P. M.

There will be services at the Methodist church as usual next Sunday morning, but the services for the evening have been called off on account of the meeting at the Baptist church, so, we are informed.

Work On Cotton Mill Is Progressing

Water Main Connecting Mill Site To City Main Opened This Week

The construction on the new cotton mill here is still making big headway. Material is arriving at intervals, and the large number of workmen employed on the ground by the different contractors are kept busy, sometimes working overtime.

The main building has reached the second story and it is expected that the roof will be put on by the latter part of the week, so it is reported, with the continuance of favorable weather.

Men in charge of the laying of the water mains and sewerage have been on the grounds now for several days. The water main connecting the mill site with the city's water mains has already been laid up to the point on the mill site where the large meter will be installed. The pressure was turned on the newly laid pipe early Tuesday morning after the pipe had received inspection. According to information gven us, the work of laying the sewers both sanitary and storm began last Wednesday.

A new ditching machine has been received and put into operation by the Hornbuckle Construction Company of Atlanta. This mammoth dirt remover displaces the equivalent in labor to that of fifty men per day.

Foundations have been laid for the immediate erection of the water tank which will supply water both for the dwelling houses and for the mill. The unusual feature regarding this arrangement pertains to the fact that this tank is to be used simply as an emergency reserve in that in case of fire in the city and the pressure is needed for that emergency, the water will be automatically shut off in the mains and the contents of this tank will still supply the mill village thus leaving it fully protected.

The new road connecting the mill site with the paved highway has been progressing satisfactorily although it has been somewhat retarded by wet weather. It is expected however, that it will be completed in good time.

MRS. C. C. BILLINGSLEY DIED AT HOME NEAR BILLINGSLEY

Mrs. C. C. Billingsley, age 81, died at the home of L. F. Askins, near Billingsley, Tuesday evening, August 21st, at 7 o'clock.

The death of this esteemed lady brought to an end a life that been spent in the interest of humanity, and her absence will be felt in no small way

The deceased is survived by her husband, numerous grand-children and great grandchildren and many other relatives.

Interment took place at Big Springs cemetery Wednesday evening at 3 o'clock, with Rev. J. W. Martin conducting the funeral services.

REVIVAL CLOSES AT CONCORD NEAR BILLINGSLEY

Reports reaching us say that the revival meeting which was being held at Concord Church, near Billingsley, was wonderfully attended, both at the morning and evening services.

The Rev. Morgan of Speigner conducted the meeting, assisted by Rev. J. H. Limbrick, pastor of the church. The meeting closed last Thursday with the evening services.

G. M. WYATT, Prop. Clanton, Ala.

Farm Demonstration Dept.

(By C. E. Stapp, County Agent)

FEED SHORTAGE IS SEEN FOR ALABAMA

Auburn, Ala., Aug. 20, 1928—A smaller feed crop as well as a smaller cotton crop in Alabama this year is forecast by F. W. Gist, agricultural statistician for the U. S. Department of Agriculture and the State Department of Agriculture at Montgomery. Mr. Gist found that on August 1 the condition of the Alabama corn crop indicated a production of 33,816,000 bushels as compared with 47,456,000 bushels in 1927.

This prospective reduction in the size of the crop means that Alabama farmers will have to buy corn or other feed to make crops in 1919. Part of the reduction is due to planting a smaller acreage but most of it is due to unfavorable weather during the spring and summer.

The report by Mr. Gist has brought the suggestion from county agents—and also from extension specialists at Auburn—that farmers make a special effort to save all hay and other feed crops this fall. Anything that will make satisfactory feed should be saved, they say.

While the corn crop is short the hay crop presents a better outlook, although on August 1 it was under normal by 23 per cent. Pastures were much better and it is probable that recent rains have helped improve the hay crop and presented opportunities for farmers to save more feed.

FACTS ABOUT FARMING

It looks foolish for a farmer to pay out money for nitrogen when there is an abundance of it in the air and hairy vetch will gather all he needs, provided he plants the seed, inoculates them, and applies basic slag at the same time.

If bureau or table drawers become hard to open which often happens in damp weather, rub them well with paraffin and you will find they will work quite smoothly. Soap may be used, though paraffin is better.

The budget estimates for the fiscal year beginnnig July, 1929, are now $208,000 below the $3,700,000,000 goal set by President Coolidge as the sefety limit, according to a press dispatch from the President's summer home in Wisconsin.

The farmer who plants hairy vetch seed in the fall has taken the first step toward a big yield of cotton or some other crop on his land next year.

If resetting of strawberry patches was not done in early spring it can be done during rainy spells in the early fall. Those set in fall will not bear so heavily the first year, but will produce in abundance the second year.

In order that laymen may understand the meaning of the word watt as applied to power of radio stations Commissioner Caldwell of the Federal Radio Commission issued a statement that one horsepower equals 746 watts.

Hairy vetch is a little manufacturing plant. It takes nitrogen from the air and stores it in the soil for succeeding crops.

FARM AND HOME FACTS

Some of the unprofitable land in Alabama can be made profitable by grazing beef cattle on it.

As a whole, dairymen are pleased with the result of their business this year.

Alabama is the leading state in planting hairy vetch seed for making old land productive as when it was new.

The Alabama cotton situation is improving. Better weather late in July and early August was responsible for the improvement.

By helping farmers to purchase hairy vetch the Alabama Farm Bufeau is furthering a great cause—namely, that of making land rich.

A dollar spent for hairy vetch seed inoculation and basic slag this fall should return $4.00 in the fall of 1928, according to Alabama County agents.

Unless farmers are careful to save feed this fall there will be a shortage in Alabama next spring, according to government forecasts.

Buy vetch seed, inoculation and basic slag this fall and have rich land next spring and summer says the Experiment Station of the Alabama Polytechnic Institute, Auburn.

NEWS IN BRIEF

In Clarke County, Alabama farmers planting corn after vetch average 40 bushels per acre, according to C. L. Hollingsworth, county agent.

A London dispatch reports "The merger of all the wireless and cable services in the British Empire—a project heretofore in scope—was envisioned July 27 when the Imperial Wireless and Cable Conference issued a report recommending such a consolidation. . . ."

A cotton crop of 871,000 bales in Alabama this year is the government forecast as of August 1. Farmers increased their acreage and used more fertilizer, but an unfavorable season reduced prospective yields.

Livestock production is on the increase in Wilcox County, Alabama, according to W. A. Cammack, county agent. Cultivated fields are being fenced for pastures and breeding stock bought. Years ago Wilcox ranked high in beef cattle.

A Chicago dispatch says that "Retail prices of beef in Chicago are the highest they have been for many years." The reason given for the boost in price is that there is a shortage of beef cattle in this country.

On August 1 the condition of the Alabama crop was 62 per cent of normal, indicating a yield of 12 bushels per acre, according to F. W. Gist, agricultural statistician, Montgomery. On this basis Alabama farmers will produce this year 33,816,000 bushels as compared with 47,456,000 harvested in 1927.

STATE CAPITOL NEWS

Evidence of the wonderful progress which the State of Alabama has made within the memory of men now living is to be found in a review of an old book published in 1878, entitled a "Handbook of Alabama," written by Saffold Berney, then a young attorney of Mobile. The author is today Judge Saffold Berney, of the Mobile Circuit, one of the oldest and most admired members of the judiciary in Alabama, who has lived to see many of his predictions of progress and development come true. A copy of his work is in possession of Henry S. Long, Chairman of the State Tax Commission, who ressurrected it recently from among some old possessions. A perusal of its pages serves to strikingly impress the reader with the tremendous strides which Alabama has made in the last fifty years.

When Judge Berney wrote his book Mobile was by far the largest city of Alabama, with a population of 32,034. Montgomery was second with 10,588, Selma came third with 6,484. Huntsville fourth with 4,807 and Eufaula fifth with 3,185 in habitants. Birmingham, according to the last federal census, that of 1870, had only 1,200 inhabitants, but even then was already beginning to boom, for Judge Berney, writing in 1878, says, "Its population is now estimated at from 3,000 to 3,500. The general offices of the South and North Alabama Railroad are here, and its chief officers reside here. The machine shops, also, of this road, are here, giving employment to a large number of thrifty mechanics, many of whom have bought lots, built houses and permanently settled in the city." It is a far call from this description to the present industrial metropolis of the South with its 200,000 inhabitants. Judge Berney, however, sensed the possibilities of the future, for his article on Birmingham closes with the following words: "When its geographical position, healthful location, commercial facilities and contiguity to the rich mineral deposits of the State are all taken into consideration, it will be evident to any one that the future of Birmingham is bright with promise, and the hopes of its projectors are destined to brilliant realization."

Judge Berney's work contains also a grim reminder of a past era in Alabama history—of the days when the scourge of yellow fever menaced the Gulf Coast section and at intervals sent the population scurrying northward to escape the dread disease. Today, Alabama ranks at the top of the list of the states in public health work. Yellow fever is not only a thing of the past in this state, but it has been stamped out even in the tropical countries where it originated in Panama and Cuba. It is a matter of pride to Alabamians of today that the eradication of yellow fever in its tropical breeding grounds was due to the genius of one of Alabama's sons, the late Surgeon-General Gorgas. Fifty years ago, however, the danger of yellow fever on the Alabama Coast was very real. Judge Berney points with pride to Mobile's rigid quarantine system, and declares that the city, "is now justly regarded as one of the healthiest cities in the Union." He reminds his readers that during the four years of the Civil War, when Mobile was cut off from the outside world by blockade, the city was wholly free from the fever, showing that it was in imported disease. He adds, however, that, "If by accident, the fever should ever again be brought to Mobile, its improved facilities for avoiding its spread, if not entirely destroy it."

An interesting feature of the handbook is a chapter on "Cotton Manufacturing in Alabama," written by H. A. Haralson, of Mathews Cotton Mills, Selma, which shows that even fifty years ago Alabamians were beginning to realize the industrial possibilities of their state, which have since experienced such a wonderful development. Referring to the cotton manufacturing industry, Haralson says: "We begin to see an interest felt in the subject everywhere; men think of it; men talks of it; and it will not be long before it will be considered worthy to take its place alongside of the grandest of all callings, agriculture, whose right arm it is in the South. These men will act. We will then see our country—our state—once more take rank in point of wealth with what are considered the most favored portions of the land." A comparison is given of the cost of operation of cotton mills in Alabama, as compared with Massachusetts, and the author inquires, "Would mills erected now—in times of depression and strikes, and other civil and monetary revolutions and uncertainties, be likely to pay? A sufficient answer to this would be to point to the dividends recently declared by nearly all the mills of the South. The mills to which allusion has been specially made, were all small at one time, and would not now be regarded as very extensive establishments by Northern manufacturers. But they have by proper management and by the great and decided advantage the South possesses for the manufacture of cotton, built themselves up to their present very respectable proportions."

Then handbook also contains an extensive account of the mineral resources of Alabama and asserts with reference to the coal production, that "if the imvrovement continues in the same ratio, and there is no reason to doubt that it will, the output during the present year (1878) will be considerable over 200,000 tons." The present coal production of Alabama approximates 20,000,000 tons annually, one hundred times the output of fifty years ago.

The school enrollment in the public schools of Alabama in 1877-78 totalled 141,230, it is shown. Figures from the department of education for 1926-27 show an enrollment of 597,250, of whom 107,391 were in high schools; so that the high school enrollment for 1926-27 was not far behind the total enrollment of fifty years ago. The progress in higher education is brought out even more vividly. Judge Berney's book records, in the account of the University of Alabama, that "the number of students in the University during the past year, session of 1877-78, was 177." For the session of 1926-27 the enrollment at the regular session at the University was 2,492; while including summer school and extension classes, the enrollment totalled 6,206.

The schedule of state license taxes levied in 1878 is a further reminder of days that are gone. There is a long list of licenses for various classes of liquor dealers; and the schedule includes also, "for each chicken or cock pit, $25." There is also enumerated a peddlers license of $40 for peddlers in a wagon, $20 for ped-

J. E. EASTERLING BRINGS IN EXTRA FINE WATERMELON

J. E. Easterling, one of Chilton County's progressive young farmers, brought to this office "the champion melon" of the season last Friday.

This melon was of the Stone Mountain variety, and while we have not seen all the melons raised in this section this year, we believe that it will compare favorably with any of them, in both size and flavor. The melon weighed 76 pounds, and was highly enjoyed by the office force the same day brought in.

REEDIE TAYLOR LEAVES FOR NORTHERN MARKETS

Mr. Reedie Taylor, manager of the Chicago Sales Company, one of the most progressive dry goods stores in Clanton, left last Sunday for the Northern markets where he will buy fall goods for his store.

For the past several days the Chicago Sales Company has had on a sale, making room for the new goods which will begin to arrive in the near future. Mr. Taylor expects to be away approximately one week, at the markets.

T. W. BRYAN BRINGS NICE MELONS TO NEWS OFFICE

Mr. T. W. Bryan one of the progressive farmers of Clanton, Route 7, brought to the News office one day last week, two very fine watermelons, also one extra small one weighing one pound only, and which was ripe and had an unusual good flavor. The species are unknown.

The other two melons brought in by Mr. Bryan were exceptionally large with a fine flavor. Mr. Bryan had the distinction of being the first to bring a melon to the News office last year, but he stated that his crop was somewhat behind this year, so he brought in the "smallest melon.'

MR. FRANK J. CALLEN GOES TO MARKET FOR FALL GOODS

Mr. Frank J. Callen, proprietor of "Callens", Clanton popular gents furnishing store, left last Sunday for St. Louis and other markets where he will purchase fall goods for "Callens".

Mr. Callen will be away for about one week. Watch for announcement of the specials offered by this up-to-date gents' furnishing store.

NEW SALEM

Everyone around this place is feeling fine after a few days revival. We want to invite everyone who attended the services to come back to Sunday School each Sunday morning at nine o'clock. Don't wait until our next meeting to come back, come help us in our Sunday School, we need you.

Would like to remind all members of the Womans Missionary Society, that we meet Friday afternoon to celebrate our ninth anniversary. We invite everyone to come and enjoy the afternoon. Come and bring something good to eat. We especially invite the members of the church to be present, for there is some business to be attended to.—Lena Bean.

NOTICE OF SPECIAL ELECTION

STATE OF ALABAMA,
CHILTON COUNTY,
CITY OF CLANTON.

NOTICE is hereby given that a special election will be held in the City of Clanton, on the 10th. day of September, 1928, at the Courthouse in Clanton, Ala., for the purpose of submitting to the qualified voters of the City of Clanton, for their determination, by ballot, whether or not the sale of the water works plant of the City of Clanton shall be authorized for a consideration of not less than Forty-six Thousand Three Hundred Eighty-one Dollars, ($46,381.00) payment of such purchase price to be made by the assumption by the purchaser of the existing bonded indebtedness, incurred in the construction of such water works plant, to an amount not exceeding $25.000 and the accrued interest thereon since the last interest paying date, and the balance to be paid in cash.

The City Council having passed a Resolution to the effect that it is to the best interests of the City of Clanton that such sale be made, and has fixed the above named sum as a minimum price at which the sale should be had.

All qualified voters under the laws of this State, who are resident citizens of the City of Clanton, may vote in such election.

G. O. Foshee, M. L. White, and W. D. Spigener have been appointed managers, and Mrs. J. D. Armstrong, and N. L. Roberts have been appointed Clerk, and J. A. Boockholdt, has been appointed Returning Officer of such election, and such election shall be conducted in all respects as municipal elections are conducted in the State of Alabama.

J. B. ATKINSON,
Mayor, Clanton, Alabama.

SMITH SPEECH IS PROGRESSIVE, HUMAN, STAND

Democratic Nominee Pledges Self to Administration for Benefit of All the People.

AGRICULTURAL PROBLEM TO GET PROMPT ACTION

Will Enforce Dry Law, Stamp Out Corruption and Recommend Changes to Congress—Promises Honest Tariff.

(Continued from first page)

sentation of the Democratic party's position on the tariff, Governor Smith declared:

No Business Upheaval

"The Democratic party does not and under my leadership will not advocate any sudden or drastic revolution in our economic system which would cause business upheaval or popular distress.

"The Democratic party stands squarely for the maintenance of legitimate business and a high standard of wages for American labor.

"Pay no attention to the Republican propaganda and accept my assurance as the leader of our party that Democratic tariff legislation will be honest," he declared. "It will play no favorites. It will do justice to every element in the nation."

He said foreign policy has its roots in the approval of the majority of the people and that he regarded it as a paramount duty to keep alive the interest of the people in questions of foreign policy and to advise the electorate as to facts. He promised to stress the necessity for restoration of cordial relations with Latin-America.

The Republican administration has signally failed in its endeavor to remove the causes of war, he continued.

"I pledge myself to a resumption of a real endeavor to make the outlawry of war effective by removing its causes and to substitute the methods of conciliation, conference, arbitration, and judicial determination," he declared.

The President has two duties with respect to the prohibition question, he said.

"The first is embodied in his oath of office," he went on. "If with one hand on the Bible and the other hand reaching up to Heaven, I promise the people of this country that 'I will faithfully execute the office of President of the United States and to the best of my ability preserve, protect and defend the Constitution of the United States,' you may be sure that I shall live up to that oath to the last degree.

"I shall to the very limit execute the pledge of our platform 'to make an honest endeavor to enforce the 18th amendment and all other provisions of the Federal Constitution and all laws enacted pursuant thereto.'"

The Governor promised "ruthlessly to stamp out" the present corruption in prohibition enforcement.

"Such conditions cannot and will not exist under any administration presided over by me," he asserted.

Continuing, he said:

"The second constitutional duty imposed upon the President is 'to recommend to the Congress such measures as he shall judge necessary and expedient.' * * * *

"I shall advise the Congress in accordance with my constitutional duty of whatever changes I deem 'necessary or expedient.' It will then be for the people and the representatives in the national and state legislature to determine whether these changes shall be made."

"I believe in temperance," he continued. "We have not achieved temperance under the present system. The mothers and fathers of young men and women throughout this land know the anxiety and worry which has been brought to them by their children's use of liquor in a way which was unknown before prohibition. I believe in reverence for law. Today disregard of the prohibition laws is insidiously sapping respect for all law. I raise, therefore, what I profoundly believe to be a great moral issue involving the righteousness of our national conduct and the protection of our children's morals."

The remedy is to be found in the fearless application of Jeffersonian principles, he continued, to allow for different habits and customs of different parts of the country.

"Some immediate relief would come from an amendment to the Volstead law giving a scientific definition of the alcoholic content of an intoxicating beverage," he said. "The present definition is admittedly inaccurate and unscientific. Each state would then be allowed to fix its own standard of alcoholic content, subject always to the proviso that that standard could not exceed the maximum fixed by the Congress.

"I believe, moreover, that there should be submitted to the people the question of some change in the provisions of the 18th amendment. Certainly, no one foresaw when the amendment was ratified the conditions which exist today of bootlegging, corruption and open violation of the law in all parts of the country. The people themselves should, after this eight years of trial, be permitted to say whether existing conditions should be rectified. I personally believe in an amendment to the 18th amendment which would give to each individual state itself only after approval by a referendum popular vote of its people the right wholly within its borders to import, manufacture or cause to be manufactured and sell alcoholic beverages, the sale to be made only by the state itself and not for consumption in any public place."

"Our Canadian neighbors," he said, "have gone far in this manner to solve this problem by the method of sale made by the state itself and not by private individuals.

Saloon Won't Return

"There is no question here of the return of the saloon. When I stated that the saloon 'is and ought to be a defunct institution in this country' I meant it. I mean it today. I will never advocate or approve any law which directly or indirectly permits the return of the saloon."

"This country cannot be a healthy, strong, economic body if one of its members, so fundamentally important as agriculture, is sick almost to the point of economic death," said Governor Smith, taking up the subject of farm relief.

The Republican administration has made many promises of legislation to aid the farmer, but has kept none of them, he continued.

"The tariff is ineffective on commodities of which there is exportable surplus without controlled sale of the surplus," said Governor Smith. "Our platform points the way to make the tariff effective for crops of which we produce a surplus.

"Co-operative, co-ordinated marketing and warehousing of surplus farm products is essential just as co-ordinated, co-operative control of the flow of capital was found necessary to the regulation of our country's finances.

"Our platform declares for the development of co-operative marketing and an earnest endeavor to solve the problem of the distribution of the cost of dealing with crop surpluses over the marketed unit of the crop whose producers are benefited by such assistance. Only the mechanics remain to be devised. I propose to substitute action for inaction and friendliness for hostility. In my administration of the government of my state, whenever I was confronted with a problem of this character, I called into conference those best equipped on the particular subject in hand. I shall follow that course with regard to agriculture. Farmers and farm leaders with such constructive aid as will come from sound economists and fair-minded leaders of finance and business must work out the details. There are varying plans for the attainment of the end which is to be accomplished. Such plans should be subjected at once to searching, able and fair-minded analysis, because the interests of all require that the solution shall be economically sound."

Will Call Conference

Governor Smith then promised to summon an agricultural conference to work out the solution, saying:

"If I am elected, I shall immediately after election ask leaders of the type I have named, irrespective of party, to enter upon this task. I shall join with them in the discharge of their duties during the coming winter and present to Congress immediately upon its convening the solution recommended by the body of men best fitted to render this signal service to the nation. I shall support the activities of this body until a satisfactory law is placed upon the statute books."

On the subject of transportation Governor Smith said he believed in encouraging the construction and use of modern highways to carry the short haul of small bulk commodities and to aid in marketing farm products.

Also of great importance, he said, is the development of transportation by our waterways, which are still in a highly undeveloped state.

Linked with waterways development is the control of floods, the governor said. He declared that the two Republican administrations had waited for the Mississippi flood of last year instead of taking leadership in this important work.

"The money actually appropriated for flood relief is too small to make even a start," Governor Smith asserted. "Too much time has been spent in squabbling over who shall pay the bill."

Governor Smith pledged himself "to a progressive, liberal conservation policy based upon the same principles to which I have given my support in the State of New York," and to fight against selfish aggression "wherever it appears and irrespective of whom it may involve."

"The sources of water power must remain forever under public ownership and control," he said.

Benefits growing from the development of water power as an incident to the regulation of the Colorado River should be "equitably distributed among the states having right of ownership," Governor Smith declared.

It would be the policy of his administration to develop a method of operation for Muscle Shoals which would reclaim for the government some fair revenue from the enormous expenditure already made, he said.

Red tape and autocratic bureaucracy should be brushed aside in caring for veterans in distress, Governor Smith said. Likewise, he said he would continue his sympathetic interest in the advancement of progressive legislation for working men and women, the proper care of maternity, infancy and childhood, and the encouragement of activities which advance public health.

His Labor Policy

Turning to the labor question, Governor Smith said:

"The reasonable contentment of those who toil with the conditions under which they live and work is an essential basis of the nation's well-being. The welfare of our country, therefore, demands governmental concern for the legitimate interest of labor."

In conclusion the governor said in part:

"I pledge a complete devotion to the welfare of our country and our people. I place that welfare above every other consideration and I am satisfied that our party is in a position to promote it. To that end I here and now declare to my fellow countrymen, from one end of the United States to the other, that I will dedicate myself with all the power and energy that I possess, to the service of our great republic."

REGISTER'S SALE

The State of Alabama, Chilton County
CIRCUIT COURT IN EQUITY
W. Emmett Perry, et al. Complainant
VS.
Ed Ellis, et al., Defendant

By virtue of a decree in the above stated cause rendered on the 7th. day of August, 1928, by the Circuit Court, in Equity, to satisfy said decree, I will sell to the highest and best bidder for cash, at public sale, at the Courthouse door of said County, between the hours of 11 o'clock A. VOLUME 6 CLANTON, ALABAMA, THURSDAY AUGUST 30, 1928 NUMBER 49

American Legion Post Making Big Headway

Two Delegates Sent To Convention in Huntsville From Local Post

The Clanton Post of the American Legion is still making progress, and the outlok for a greater post here is exceptionally bright, according to J. H. Plier, adjutant of the local post.

At the second regular meeting of the Post which was held last Friday night at the Court House here, all officers and practically all members of the local post were present. The meeting was called to order by the Commander, Vandy Smith. Different business matters were discussed and disposed of, after which the election of delegates to the American Legion Convention at Huntsville was held.

John Browder and Joe N. Calloway were elected as delegates to this convention and left Sunday morning by motor for Huntsville. The convention was in session three days. The delegates expect to return today and bring with them much of the valuable information that was given out at the convention.

Some of the principal speakers at the Convention were Gov. Bibb Graves, Sergt. York, an outstanding personage in the World War, and General Seibert, also an outstanding army officer. Other speakers were present.

The next meeting of the local Post of the American Legion will be held next Thursday night, Sept. 6, at Gore's Pond, and will be in the form of a chicken barbecue and outing, according to information given us. The notice to all Legionaires will be found elsewhere in this issue of the News.

CORSET DEMONSTRATION TO BE HELD AT ELMORE'S

In this issue of the News will be found the ad of Elmore's, one of Clanton's popular and progressive dry goods stores, announcing that a corset demonstration will be held at their store on Tuesday, September 4th.

An expert corsetiere from the Gossard Factory, will be at Elmore's store on that date and all ladies are invited to visit the store on that date.

GEO. McCAIN ERECTING NEW WAREHOUSE HERE

Mr. George McCain is erecting a warehouse, just behind the large barn of W. B. McCain on the Birmingham-Montgomery highway here.

Mr. McCain stated that the warehouse will be of wooden frame with corrugated sheet iron walls and roof. It will be used for the storing of hay and other feed stuffs for stock.

MRS. H. G. BOYD RETURNS FROM TRIP TO CALIFORNIA

Mrs. H. G. Boyd and adopted daughter, Gypsy Ann, returned last Sunday from an extended trip to California. Mrs. Boyd was the guest of Dr. and Mrs. C. V. Thompson of Pescadero, California. Mrs. Thompson is Mrs. Boyd's sister. While away Mrs. Boyd visited several points of interest, her visit lasted approximately three months

COTTON SHIPPED TO COTTON ASSOCIATION

Montgomery, Ala., Aug. 28.—Cotton of the 1928 crop is coming into the Alabama Farm Bureau Cotton Association from South Alabama, according to Allen Northington, general manager. J. F. Granberry of Headland, Route 3, delivered the first bale. Immediately following Mr. Granberry's delivery, Mrs. A. J. Mason of Barlow Bend, and Coma Garrett Jr., of Grove Hill, of Clarke County and P. Z. Smith, Secretarry-Treasurer of Geneva County Farm Bureau Gin and Warehouse Company, delivered cotton. Since that time, most Counties of South Alabama have placed cotton with the Association.

This year the Association is paying a premium on the first bale of cotton delivered, from each County in the State.

Cotton is at least three weeks late in all sections of Alabama this year. Very little picking has been done in South Alabama and practically none in North and Central Alabama. Last year at this time harvesting was well underway all over the state.

ALRED DRUG COMPANY INSTALLS NEW SODA FOUNT

The Alred Drug Company has recently installed a new and very modern soda fountain in their drup store on Main Street. In replacing the old fountain with the new one, the change was made during the night so as not to interfere with the business during the day.

This new fountain is of the latest design, that is, it is of the kind that is built so that the task of keeping it clean and sanitary will be easy. Cleanliness, service, quality, and courtesy being the things predominating at the Alred Drug Company's soda fount.

The cooling system of this new fountain is the Frigidaire system. The ice cream, and in fact, the whole fountain is kept cold by Frigidaire, keeping it at a uniform temperature of frigid qualities day and night.

See their invitation elsewhere in this issue of the News, to the general public to visit their store and inspect the new fountain.

THORSBY PUBLIC SCHOOL IS BEING REPAINTED

The job of repainting the Thorsby Public School building has been under way for several days and is expected to be completed during the present week.

The contract for this job was awarded to Mr. Earl H. Marcus, and from reports, the patrons will have every reason to be proud of the job when Mr. Marcus and his assistants have completed the job. Both the interior and exterior of all wood work is being reworked.

JEMISON HIGH SCHOOL TO OPEN SEPTEMBER 3

Vocational Home Economics Addition To School Building Added

Jemison, Ala., Aug. 26.—The Jemison High School will open its doors for the current year Monday, September 3rd. In order that certain speakers may be present, the date is set for 10:45 A. M.

The following is a list of the members of the faculty for the coming year: Misses Rubye Gulley, Sarah Haynes, Linnie Cline, Beulah Naive, Leona Stanley, Margie Murphy, Jessie Mims, Mary Clements, Mrs. Dezzie Littlejohn, Messrs J. P. Montgomery and Z. H. Turner.

The enrollment this year is expected to show its gradual increase, and with the completion of the Vocational Home Economics addition (allowing the high school department more room), the best of work can be accomplished.

The school authorities extend to the general public a most cordial welcome to be present at the opening exercises.

Mr. J. A. Peterson, who was principal of the school last year, will serve again as principal.

MISS MADELYN ORR RETURNS FROM ATLANTA, GA.

Miss Madelyn Orr returned last Sunday from Atlanta, Ga., where she has been for some time purchasing supplies for the conducting of her Kindergarten School this term. She was accompanied to Atlanta by Miss Irene Jones.

EMMETT SMITH INJURED WHEN STRUCK BY AUTO

Mr. Emmett Smith of Thorsby, Rt. 1, received three broken ribs on his right side and several bruises about the body, when he was struck by an automobile said to have been driven by Mr. J. M. Gaines of near Haynes, Ala., last Friday morning.

The accident occurred on Main St. at the corner of the Clanton Brokerage Company, just opposite the Jones Hardware Co. Smith, it is reported, was standing on the sidewalk, near the edge, when the car struck him, knocking him to the pavement, pushing him against the curb.

According to witnesses, the car, a Ford, got from control of Mr. Gaines and almost jumped the curb stone at the corner.

Smith was rushed to the office of Dr. Arthur Johnson, where his injuries were dressed and were pronounced painful, but not serious. He is able to be up at the time of this writing.

Gaines was arrested on charges of reckless driving and violating the traffic law.

Party Leaders Sound Call to Southern Cause

Montgomery, Ala., Aug. 25.—The rebel yell of the Confederacy—the yell before which many a Northern trooper has flinched and blanched on the battlefields of the Sixties—rang thru the Grand Theater here Saturday afternoon—Democracy's answer to Republicanism in Alabama.

Thousands of men and women from every section of Alabama rose to their feet cheering as a white-haired veteran of the Confederacy leaped from his chair with the rebel yell on his lips.

The outbreak came in the midst of a speech by Archie H. Carmichael, of Tuscumbia. He had been interrupted repeatedly in the earlier parts of his speech with prolonged applause.

"So long as there is a Confederate soldier with a dangling empty sleeve in his coat, we can never vote the Republican ticket," he said. "I guess one reason I am a Democrat is because my father was one of those one-armed veterans.

"Another reason must be that I remember Sherman's march to the sea.

"I remember as a boy, my brother and I seated in the barn discussing our imaginary troubles. We decided to run away. We were leaving the home where we thought we had been mistreated.

"But after leaving the barn my brother asked, 'Arch, where are we going?' 'There ain't no place to go', I replied. The Democrats just aint got no place to go. If you do go off, you'll spend the balance of your life explaining why you went. Think about it— there ain't no place to go."

The expected expression of the party's attitude toward those who have deserted failed to materialize, but there was not an anti-Smith gesture.

"Let's have no criticism of anyone until we know", was the plea of Congressman W. B. Oliver, state campaign committee chairman.

Mrs. William H. Mitchell, of Florence; T. D. Samford of Opelika; Lieut. Gov. W. C. Davis, Maj. Frank M. Dixon of Birmingham; Congressman Oliver and E. W. Pettus of Selma, chairman of the State Democratic Executive Committee, were among the other speakers.

"In other words of that distinguished Mississippi statesman, Tuscaloosa County is here with her quota because, in Tuscaloosa County we are Democrats and white men."

This was the message of Former Gov. William W. Brandon, who was called to the floor by Congressman Oliver.

The crowd that packed the theater stood and cheered for several minutes as the former governor came forward.

"We are Democrats", Mrs. Mitchell declared. "Our political enemies are the Republicans. Are we going over to the enemy just because our candidate for the Democratic nomination was not chosen? Are we going to let it be said that the women of the South broke the faith?"

"With what party did our forebears fight back in the Sixties?" asked Major Dixon. "What party lifted us up when the capitol at Montgomery was filled with black men? Have you read the force bill? Will you go with your own people—or with the enemy?"

"A small coteire of men bargained away the presidency of the United States when Warren G. Harding was nominated," declared Lieut. Gov. W. C. Davis. "Coolidge inherited the Harding machine. While Vare and Mellon are the men we must thank for Hoover—Vare, whose conduct was such that even a Republican Senate could not swallow him. Would Hoover ever have been nominated if the two-thirds rule had prevailed at the Republican convention? And eyt Alfred E. Smith won that two-thirds at Houston. Smith, who is responsible to no clique or group for his nomination.

"Common decency is the real issue confronting the American voter in this election."

Congressman Oliver contrasted the straightforward frank avowal of Gov. Smith of his personal views on prohibition and his honorable promise to enforce the Volstead Act with all the vigor of his administration, with the evasive attempts of Hoover to straddle the fence.

He reviewed the numerous attempts of Hoover to evade the prohibition, beginning with his first trip to face the late Senator Willis in Ohio.

He then quoted former Gov. Pinchot of Pennsylvania, an ardent dry, giving

(Continued on Editorial page)

Report of the Grand Jury July Term Circuit Court

STATE OF ALABAMA,
CHILTON COUNTY,
Circuit Court of said County and state
TO HON. GEO. F. SMOOT, as Judge of said Court:

We, the Grand Jury, empanelled for the July Term of the Circuit Court after receiving Your Honor's most able charge, entered upon our investigations of the matters that came before us as Grand Jurors, and herewith submit the following report:

During our investigations we have considered 70 cases, and have examined 105 witnesses, and returned 53 True Bills.

We have made a personal inspection of the County Jail, and believe it at present to be sufficiently safe for the keeping of the prisoners confined therein, and that they are being cared for with reasonable comfort; we find that some of the windows of the Jail are screened, and some are not, and several window panes are out of the windows, and some of the window casings are in bad need of repair. We recommend that these matters be brought to the attention of the proper authorities, that they may be fixed.

We further recommend that an opening be made from the hallway of the jail into the main compartment where the prisoners are kept, through one of the doors, in order that the Sheriff may give the prisoners their food without having to mix with them.

On our inspection of the Alms House we found 15 inmates, all being cared for with reasonable comfort. We were informed that many of the inmates are very old and feeble, and in very bad health, and that it has been thirty days since any Doctor has seen any of them. From our observation of some of the inmates, we feel that thirty days is too long a period of time to allow to elapse without having a physician to call at the home. We recommend that grates be put in the fire places of the Alms Houses, and that coal be supplied them to burn in the grates during the approaching winter. These old people that occupy the Alms house are not able to handle and cut up their wood, and we feel it is nothing but right that they be supplied with fuel that will insure them of having warmth during the Winter. The paint on the Alms houses is very old, and in most places is worn off, and for the protection of the County property, we feel that the houses should be repainted.

We have examined the fee book of the Probate Judge and find it neatly kept and correct in so far as we are able to ascertain. We have examined the bonds of the various county officials, and find that they are ample for the protection of the public, and in our examination of the Sheriff's account with the state for feeding prisoners, we find it being kept in accordance with law. On our examination of the office of the County Superintendent of Education, we find his books, records and papers are neatly kept, and in so far as we ascertained, were being kept fully in accordance with the law.

The Grand Jury thanks Your Honor for the instructive charge given us when we were first empanelled, it has been very helpful to us throughout all our investigations.

Sheriff Collins and his deputies, and Mr. Robinson, the Bailiffs for the Grand Jury, were most courteous to us during our investigations, and rendered us valuable assistance in the dispatch of the business before us.

All of which we greatly appreciate.

And now having complied to the best of our ability with your Honor's charge we respectfully ask that we be dismissed, until such time as Your Honor may see fit and think proper to have us convene again.

This August 24th, 1928.

O. R. MULLINS, Foreman.

MUSICAL CONCERT AT HIGH SCHOOL HERE AUGUST 31ST.

A musical concert will be given at the Chilton County High School tomorrow night, Friday, August 31st, by the pupils of the Singing School that has been conducted by Prof. Frank E. Stamps and Prof. Dwight Brock of Chattanooga, Tenn., at Concord.

On the program of this concert will be found numerous solos, duets, and quartets. There will be approximately one hundred people in the choir, all who are pupils of the Messrs. Stamps and Brock at Concord. Several special numbers will be rendered by different ones, and the celebrated Clanton Quartette will also be present and render several numbers.

This is sure a treat for the people of this section and any other section who attend. A small admission of 25 and 35 cents will be charged.

The Stamps All-Star Quartette, Victor Recording Artists, will also be present with selections.

ONLY ONE CASE TRIED IN MAYOR'S COURT MONDAY

Only one case was disposed of in Mayor's Court last Monday morning, and that was the case of Mr. J. M. Gaines, of near Haynes, Alabama. Mr. Gianes was charged with reckless driving and violating the traffic law. The charges were brought about after Gaines' car had struck Emmett Smith, last Friday in Clanton and injured him considerably.

Mr. Gaines was tried and fined twenty-five dollars and costs.

SINGING CONVENTION AT THORSBY A BIG SUCCESS

Herbert Lowery, of Clanton, Elected President For Coming Year

The Chilton County Singing Convention which met at Thorsby, last Sunday, August 26, at the Grammar School building, was pronounced by those attending to be a grand success. The convention was called to order by the president, Prof. Akin Collins of Thorsby.

The crowd attending this convention was one of the largest in its history. This convention should not be confused with the old Chilton County Singing Convention. This meeting is an annual affair and for the past two times it has been held at Thorsby.

Showalters Song Books were used and the singing was excellent. Among the out-of-town singers present were Prof. Stamps of Tennessee who sang a solo, also Prof. Dwight Brock, pianist of Tennessee, was present, and he and Prof. Stamps sang a duet which was immensely enjoyed. Mr. Ralph Grant one of Chilton's own widely known singers was present. Mr. Grant sang several selections which were thoroughly enjoyed.

The Clanton quartet was also present at the Convention and rendered several selections. The meeting was thoroughly and well carried out. Some business matters were attended to, among which was the election of a new president for the coming year. Prof. Akins Collins, who has been president for the convention for the past three years will be succeeded by Mr. Herbert Lowery, of Clanton, who was elected as president for the coming year. Mr. J. L. Gore of Union Grove was also nominated.

Mr. Lowery states that it is his intention to possibly have the convention held in Clanton when it convenes for its next annual convention. And he also states that he hopes to have several widely known quartettes and other good singers present, and that he will do his best to make the next annual convention a big success.

$10,000.00 VERDICT FOR PLAINTIFF IN SCOTT VS L. & N. CASE

The case of J. D. Scott, administrator, versus the L. & N. Railway Co., tried last week resulted in a verdict for the Plaintiff in the sum of $10,000.00. The case has been pending for some time and this was the second trial. The first verdict which was for the defendant was reversed by the Supreme Court, on appeal. The plaintiff was represented by W. A. Denson of Birmingham, and J. B. Atkinson of Clanton, while the defendant was represented by Messrs Charlie Eyster, of Decatur, Griffith of Cullman and L. F. Gerald of Clanton. No notice of appeal has been filed from the last verdict.

Health Officer For State Died August 22

Goes To Hospital For Short Rest And Death Comes As A Surprise

Montgomery, Ala.—Dr. Samuel W. Welch, 67, state health officer for Alabama since 1917 and past president of the State and Provincial Health Officers of America, died in a local hospital Wednesday morning, August 22.

He went to the infirmary Tuesday for a short rest and his death came unexpectedly. Death was attributed to heart trouble.

The body was sent to Talladega, Ala., Wednesday for funeral and burial. Funeral arrangements have not yet been completed.

Funeral services were held at 4 p. m. with T. L. Welch, W. H. Boynton, J. H. Camp, S. C. Oliver, Phillip Duncan, T. L. Cannon, T. H. Hazelhurst, J. H. Wiler, and C. L. Salter serving as pall bearers. The Talladega County Medical Association will act as honorary pallbearers.

Gov. Graves announced Wednesday that the state capitol would be closed during the hours of the funeral. The State Department of Health was closed Wednesday.

Dr. Welch was born at Alpine, Ala., Feb. 15, 1861, the son of Dr. William A. and Willie Ann Welch.

Dr. Welch was considered one of the foremost authorities on health work in the United States. In 1919 he prepared a bill amending the medical laws of Alabama and succeeded in having the Legislature pass a measure increasing the appropriations for state health work from $25.00 to $150.000 annually. Health officers from many states of the union and foreign countries have studied the system of health control put into effect in Alabama by Dr. Welch.

At the national meetings of the American Medcial Association and the State and Provencial Health Authorities in St. Paul and Minneapolis last June, Dr. Welch read papers on the work being done in Alabama. He prominently was mentioned for president of the American Association. He retired this year as president of the State and Provencial Health Authorities.

He received his education at Howard College, Tulane University, College of Physicians and Surgeons of Baltimore, and Johns-Hopkins School of Medicine. Before his appointment as state health officer he was county health officer for Talladega County, his home county, a member of the committee on public health and state board of examiners, president of the Alabama Medical Association and served with distinction as a member of the medical section of the state committee of national defense during the World War.

Dr. Welch is survived by his widow, four sons and one daughter. The body was sent Wednesday afternoon to Talladega, Ala., where funeral services will be held at the old family homestead.

Although in ill health for several months, Dr. Welch carried on his work which he had spent 10 years in perfecting. Early this Summer he attended the meetings of the American Medical Association and the convention of the Provencial Health Authorities of America. Dr. Welch was president of the latter body.

It was beleived that the strain of the trip weakened his condition and that his addresses on health work in Alabama overtaxed his strength.

At the inception of the League of Nations, a delegation was sent to Montgomery and spent several days studying the methods used by the State Health Department. Virtually every week representatives of various foreign nations came to Montgomery to study the health work in the state.

Preparation of anti-rabies treatment in the state health laboratories and making it possible to send the treatments to persons bitten by rabid dogs, eliminating the necessity of spending several weeks at the capital, was one of the acomplishments with which Dr Welch was credited. Only recently the State Health Department inaugurated the plan of sending to counties snake bite serum which has saved the lives of several persons in the state.

He began the practice of the medical profession at Alpine, Ala., 1893 and

Spring Service Co. Moves Into New Plant

Experienced And Skilled Workmen Make Up Personnel Of Force

COMPLETELY remodeled and back to business after fire which destroyed the office a few weeks ago, the Birmingham Spring Service Company, 2017 Av. B. invites the public to visit their new plant.

The Birmingham Spring Service Co., is one of Birmingham's youngest and most progressive firms. In locating here the company brought a wealth of experienced, skilled workmen with it. William P. Martin, general manager, was for 17 years a spring designer for one of the largest spring manufacturing plants in the world. In fact the entire personnel of the shop are skilled in the heat treatment of springs. This house is considered one of the most modern spring manufacturing and repair business.

Plant Well Equipped

The plant is one of the best equipped in the south, having a full line of machinery for the manufacture and repairs of springs of all sizes and designs. It carries a complete stock of springs and accessories for all model automobiles over a period of the last five years. It has factory specifications and can make springs for any make or model automobile since 1912. This is a distinct advantage to motorists in itself. Guaranteed factory specifications as to quality and dimensions on all springs has been a big factor in the success of the company.

Already the reputation this young firm has built in the last eigth months has spread all over the state with the result that a great amount of work is daily received by mail. The city business likewise has grown at a very rapid pace.

Unquestionable quality, rapid, courteous service and lowest possible prices constitutes the policy of the firm.

COOPER NEWS

Mr. Arden Allen and Mrs. Agnes Allen of Birmingham were the guests of Mr. and Mrs. J. T. Allen Sunday.

Quite a number from here are attending Court in Clanton this week.

Miss Lottie Vance is spending this week with her parents, Mr. and Mrs. L. C. Vance.

Mr. Ralph Grant is at home for a visit with relatives.

Mr. Ben Day was the guest of Miss Mary Wise recently.

Misses Inez Vance, Jannie Allen and Mary Wise visited Mrs. Eula Smith and daughter in Clanton Saturday afternoon.

Mrs. F. J. Allen and her son Mr. Hardy Allen were guests of Mr. and Mrs. J. T. Allen Sunday afternoon.

Mr. and Mrs. M. A. Pinson have had as their guests for a few days Miss Gardner of Birmingham.

NOTICE OF SPECIAL ELECTION

STATE OF ALABAMA,
CHILTON COUNTY,
CITY OF CLANTON.

NOTICE is hereby given that a special election will be held in the City of Clanton, on the 10th. day of September, 1928, at the Courthouse in Clanton, Ala., for the purpose of submitting to the qualified voters of the City of Clanton, for their determination, by ballot, whether or not the sale of the water works plant of the City of Clanton shall be authorized for a consideration of not less than Forty-six Thousand Three Hundred Eighty-one Dollars, ($46,381.00) payment of such purchase price to be made by the assumption by the purchaser of the existing bonded indebtedness, incurred in the construction of such water works plant, to an amount not exceeding $25,000 and the accrued interest thereon since the last interest paying date, and the balance to be paid in cash.

The City Council having passed a Resolution to the effect that it is to the best interests of the City of Clanton that such sale be made, and has fixed the above named sum as a minimum price at which the sale should be had.

All qualified voters under the laws of this State, who are resident citizens of the City of Clanton, may vote in such election.

G. O. Foshee, M. L. White, and W. D. Spigener have been appointed managers, and Mrs. J. D. Armstrong, and N. L. Roberts have been appointed Clerk, and J. A. Boockholdt, has been appointed Returning Officer of such election, and such election shall be conducted in all respects as municipal elections are conducted in the State of Alabama.

J. B. ATKINSON,
Mayor, Clanton, Alabama.

THORSBY INSTITUTE TO OPEN WED., SEPT. 12

Thorsby Ala., Aug. 28.—Thorsby Institute will open Wednesday, September 12th. There will be several new members on the faculty this year, all coming highly recommended.

Owing to sickness in the family of Miss Mary Stoddard will not be here this year. Her place will be taken by Miss Onita Klingelhoefer of Beaver Falls, Pa. Miss Klingelhoefer will teach the same subjects that Miss Stoddard was to have taught and comes well prepared for her work. She has an A. B. Degree from Geneva College, Beaver Falls, Pa. and also a M. A. Degree from the Hartford School of Religious Education, one of the best schools in the country in this line. People come from abroad to attend it. She is a Presbyterian and has had eight years of teaching experience. She has also had a year in the Philadelphia School of Christian Education.

Another new teacher will be Mr. Roland A. Morgan, a graduate of Berea College, Berea, Ky., who is to teach Science and Athletics. Mr. Morgan intends to give special attention to athletics and hopes to have a good Basket Ball team and engage outside teams in games.

Miss Kathryn Dick will be the music teacher this year. She has an A. B. degree from Berea College, Berea, Ky., and also a diploma in music. She teaches both piano and voice and is especially strong in chorus work. It has been said of her that "she plays the pipe organ with distinction." It would be well for all who wish to take music to let Mr. Maddox or Mr. Butler know at once. Mr. Maddox is at the Institute on library days and after September1 will be there all the time.

Miss Marie Boring of Demorest, Ga. has a Ph. B. degree from Piedmont College, Demorest, Ga., and will be office secretary and teacher of shorthand, typewriting and bookkeeping.

Sale Closes Sept. 15
Until Sept. 15, we will install an Electric Refrigerator and Electric Range in your kitchen for only $15 down. Balance in 30 monthly payments. We will also make a $10 trade-in allowance on your old stove and give you, absolutely free, a beautiful 7-piece set of Aluminum Kitchenware. This is worth another $10!

Thousands of Thrifty Women Now Have *Electric Kitchens*

SINCE this record-breaking sale began, thousands of thrifty Alabama housewives have *modernized* their kitchens with Electric Refrigerators and Electric Ranges. They did this for only a few dollars down. They have MORE THAN TWO YEARS to pay the balance. The many economies and pleasures which they have found in Electric Cookery and Electric Refrigeration can also be yours—if you take advantage of our Special Offer!

The housewife of today needs Electric Refrigeration. She cannot jeopardize the health of her family by lack of good refrigeration. She will not tolerate the useless expense of food spoilage. Then, too, an Electric Refrigerator means fewer trips to market, for food keeps longer in its cold, dry air.

An Electric Range is the answer to the modern woman's cooking requirements. Its automatic features free her from the kitchen. It means better cooking, more easily done. It is clean, convenient and simple in operation. You will be surprised and delighted at the beauty and efficiency an Electric Range brings to your kitchen!

You can come and go as you please when you "Cook by Wire!"

We will gladly send a representative to your home to explain the many advantages of "Cooking and Cooling by Wire."

"SUPPOSE IT WERE YOURS"

Suppose you had a piece of property upon which you were dependent for your living, and it was necessary to have other people around to whom you paid salaries and wages to help you run the place. What would you say if some of those people persisted in doing things which kept you on the jump all the time to keep the place from burning up? Suppose you heard one of them say, when asked why he was not more careful about where he tossed his cigarette butt, "Why should I care, it isn't my mill." Frankly now, what would you say?

After all, isn't that practically what we are persistently careless not only with fire but with other things, too?

There are hundreds of ways in which we can prevent fires. We can be careful with matches and with cigarette butts. The largest single cause of fires in this country is cigarettes. In 1926 fire losses of $30,160,000 were caused by this one thing alone.

Before you throw away that match or cigarette be sure it is out. Before you throw away your lunch papers look for the rubbish can.

Do unto others as you would like others to do unto you. This is one of the best rules of life ever presented to man. In your habits, is it too much to ask you, to SUPPOSE IT WERE YOURS.—From Safeguarding America Against Fire.

SAVING 300 LIVES

Louisville, Ky., Aug. 22.—Deaths from the operation of highway vehicles in the United States, according to the grade crossing committee of the American Railway Association, reached 23,497 in 1927; in other words, these vehicles sent to their doom the equivalent of the entire population of a fair sized city. Of this total, accidents at railway grade crossings contributed 1,974, or 8.4 per cent of the deaths. Total highway fatalities in 1926 were 21,431 so that the 1927 figure shows an increase of 10 per cent. On the other hand, the number attributed to railway grade crossings was 4 per cent lower in 1927 than in 1926 and the ratio of grade crossing fatalities to total deaths in highway accidents declined from 9.6 per cent to 8.4. If grade crossing accident deaths in 1927 had shown the same increase as did other highway casualties, 2,270 persons would have lost their lives, as against the actual figure of 1,947. In other words, the railroads, by eliminating crossings, providing greater protection and by educating the public to "cross crossings cautiously" in one year alone may be credited, theoretically at least, with conserving the lives of almost 300 people. The American people are paying an awful price in human lives for the popularity of highway transportation and it is encouraging to see, in some quarter, at least, a tendency toward reducing these casualties.

Party Leaders Sound Call to Southern Cause

(Continued from first page)

Pinchot's views on prohibition under a Republican administration.

The Coolidge administration has talked dry, and acted wet", Congressman Oliver charged.

"If Gov. Smith is elected, he will enforce that law. He has declared openly, honestly, frankly against that very corruption and hyprocrisy which Pinchot denounces."

"And when they tell you Smith is a Catholic, ask them what is Hoover," Mr. Pettus suggested.

"Hoover is a member of the Congregation of Friends. A congregation that has no church, has no preacher and only acts when the spirit moves them."

The vast Democratic gathering was opened with prayer by the Rev. John E. Northcutt, pastor of the Dexter Avenue Methodist Church, Montgomery.

Following the prayer Mr. Pettus, who served as master of ceremonies, made a short address and introduced the first speaker, Mrs. Mitchell.

After adjournment an impromptu meeting of the state campaign committee was held on the stage of the theater, where Mr. Oliver announced that headquarters, at least temporarily would be established at Birmingham, at the Morris Hotel. Sub-offices will be opened in Montgomery and Huntsville.

As an opening move in the campaign Mr. Oliver asked that all members of the committee send in concrete suggestions for handling the campaign in the various sections of Alabama.

Mr. Oliver was empowered to appoint all committees necessary in the work, which will include a speakers' bureau.

There was not a note of discord in the entire gathering. Enthusiasm and optimism held sway everywhere. Not a voice was lifted in criticism of the party or the party's nominees.

At noon every available seat in the theater was taken, and men and women blocked the aisles back to the doors.

"This is a Democratic woman's appeal to Democratic women," Mrs. Mitchell as first speaker on the program said. "Before we were enfranchised we boasted that we would elevate politics. Now we have the opportunity to prove our good sense, our patriotism and political honor.

"Those women who voted in the Democratic primary owe a duty to that party to stand by the Democratic nominee. This is a land of party government. We are Democrats. Our political enemies are the Republicans. Are we going over to the enemy just because our candidate for the Democratic nomination was not chosen? Are we going to let it be said that the women of the South broke the faith?

"The women of the Tennessee Valley are for the Democratic party—first, last and all the time. And if there could ever come a time to bolt, that time is not now.

'We have too much to be proud of —our party platform, the principles of Thomas Jefferson, Andrew Jackson, Grover Cleveland and Woodrow Wilson—and last but not least, our presidential nominee for November. No one, Democrat or Republican, could read the life history of Al Smith without experiencing a great feeling of admiration.

"Trust the enforcement of the prohibition law to Al Smith, who looks the world squarely in the face and without quibbling tells it his honest opinions. Contrast him with that man who professes to be "bone dry" and who endorses for a high law enforcement officer, Andrew Mellon, who made his millions in the liquor trade.

"We are called to the fight by the great spirits of Alabama's Houston, her Morgan and her Pettus, her Bankhead and her Fighting Joe Wheeler, and hundreds of other patriots! Let us, the Democratic women of Alabama, not betray them!"

"Fifty years ago I joined the Methodist Church," T. D. Samford told his audience. "Since then my loyalty to my church has not abated.

When James Cannon, Jr., was chosen a bishop in the Methodist Church, I was a delegate to that conference. I fought his election bitterly, and opposed him to the end. If ever I had the spirit of a bolter, I might have bolted my church when Cannon became a bishop. But I accepted and I acquiesed. As a member of the church to which I had given allegiance, it never occurred to me, when they dod things I didn't like, to turn my back, walk out and quit.

"And—as a loyal member of my church I challenge the right of any person or preacher to use my church for any political purpose whatever.

"Where is the great hulk of prohibition strength today? It is in the Democratic party. And if the prohibition leaders in Alabama and in the nation desert us now, what right will they have to come back to us later for help? They are honest, but misguided. And they will be driving a wedge between themselves and the only party to which they may look for honest support.

I have been a Democrat for 39 years. Shall I, when the testing time comes, prove faithless to that party? Some time ago they asked me if I would vote for Al Smith. My reply was 'Yes sir, I'll vote for him—I'll fight for him—and I'll help to elect him.'!"

The crowd rose to its feet cheering and whistling, and the same old Confederate veteran again lead them in the rebel yell of the Confederacy.

"The slimy trail of the carpetbagger is the South's reply to the wheedling voice of Republicanism," Mr. Samford continued. "Our forebears rose to power in the white hope of salvation for the South. It is the only safeguard of our homes. The only protection of our families.

"Can we depend on Northern Republicanism for that protection? Look the facts in the face! Do you know that Jack Johnson, the negro, was asked to address a gathering of the Northern Methodists when they held their convention in Kansas City just a month before the Republicans arrived?

"Do not be deceived when Herbert Hoover says he will tolerate no modification of the constitution. He wants you to believe he is speaking of the eighteenth amendment. He has no thought of the eighteenth amendment. He will leave that to Andrew Mellon. Herbert Hoover is declaring there 'will be no modification of the fourteenth and fifteenth amendments.'

"Let my right hand wither and my tongue cleave to the roof of my mouth if I ever desert the party and the cause for which my father fought, bled and suffered for months in a Northern prison camp! May God forsake me if I do!"

His response was a wave of cheering that could be heard over Montgomery.

ON EDGE
Worried A Lot

"I took Cardui at intervals for three years, and have been in good health since last fall," says Mrs. Noble J. Hayes, of Waterloo, S. C. "My improvement after taking a course of this medicine was really remarkable.

"I am much stronger and can accomplish so much more work now. My weight increased twenty pounds, and my color is good.

"For a long time I had been feeling poorly. Some days I dragged around the house and had not enough energy to do my housework.

"I worried a lot about myself. I did not seem like myself, and my nerves were all on edge. I did not sleep well, and my appetite left me.

"I found Cardui to be an excellent tonic. After I had taken it a few weeks, I began to pick up and to gain in weight and strength."

At all drug stores.

Alabama's Average Electric Rate—1¼c

THE public is interested primarily in whether the quality of its electric service is good, and the cost is reasonable and just.

Alabama Power Company has 16 standard rates applying to various classes of electric service. To analyze such a number of rates is obviously impossible. However, the average rate per kilowatt hour reveals the true status of the rate schedule, irrespective of what may result in a comparison of rates at certain points or in certain schedules or classifications of service.

That the rates of Alabama Power Company are low may be seen from the fact that THE AVERAGE GROSS RATE PER KILOWATT HOUR PAID BY THE CUSTOMERS OF ALABAMA POWER COMPANY FOR ALL CLASSES OF SERVICE IN 1927 WAS BUT 1.2457 CENTS PER KILOWATT HOUR.

In 1927 Alabama Power Company produced and sold to the public in Alabama a total of 1,050,107,427 kilowatt hours, for which its customers paid a total of $13,079,600.02, or 1.2457 cents per kilowatt hour. OUT OF THIS 1.2457 CENTS PER KILOWATT HOUR THIS COMPANY PAID ALL COSTS OF GENERATION AND DISTRIBUTION OF ENERGY TO ITS CUSTOMERS, INCLUDING INTEREST ON BORROWED CAPITAL INVESTED IN ITS PLANTS AND SYSTEM, WAGES, FUEL, TAXES, DEPRECIATION, AND OTHER OPERATING COSTS.

The low rate schedules of Alabama Power Company have been maintained while wages, taxes, the cost of money, materials, and every other item entering into this Company's service to the public, have increased over pre-war levels.

If the constantly increasing demand for power and Alabama's remarkable industrial development in the past 16 years—the hydro power period—are true gauges of advancement, it would appear that the availability of power in quantity and at low rates has been an important factor in Alabama's progress.

All rates and service regulations of Alabama Power Company have been approved by Alabama Public Service Commission, and are on file with the Commission and at each of the Company's offices, where they are open to inspection by the public upon request.

COUNTY BOARD OF EDUCATION ARTICLE VI.

(By B. Lawrence, County Superintendent)

Sec. 115. Arbitration—If such agreement is not reached within 30 days after the annexation it shall then be mandatory to refer the final disposition of the matter to arbitration by a board consisting of three members, one to be selected by the County Board of Education, one to be selected by the City Board of Education, and the third member of the board of arbitration, the State Superintendent of Education shall appoint the third member.

116. Hearing by Board of Arbitration—The Board of Arbitration shall secure all facts available relative to the matter, hold a public hearing for the purpose of giving an opportunity for every contention to be presented by both evidence and argument, and determine all matters relative to the transfer of the control, existing indebtedness, and use of such school. The findings of a majority of said Board of Arbitration shall be binding on all concerned.

117. Teachers Appointed by County Board—The County Board of Education shall appoint, upon the written recommendation of the County Superintendent, all principals, teachers, Clerical and Professional assistants authorized by the Board. The County Board may suspend or dismiss for immorality, misconduct in office, insubordination, or incompetency or wilful neglect of duty, or whenever, in the opinion of the Board the best interests of the school require it, superintendent, principals, teachers, or any other employees or appointees of the Board.

118. Courses of Study—The County Board of Education shall prescribe, on the written recommendation of the County Superintendent of Education, courses of study for the schools under its jurisdiction, and a printed copy of these courses of study shall be supplied to every teacher and to every interested citizen of the County.

119. Schools Graded and Standardized—The County Board of Education shall, upon the written recommendation of the County Superintendent of Education, grade and standardize all the schools under its jurisdiction.

120. Uniform Opening Date of Schools—The County Board of Education, in order to expedite the payment of teachers salaries and to make possible efficient supervision, shall fix a uniform date each year for the openin gof all schools in the County under its jurisdiction, and all schools as far as in the opinion of the County Board of Education may be practicable, shall open on said date. If for any reason the Board shall permit any schools to open at later date, the reports and records of such schools shall be made so as to conform to the scholastic months, counting from the uniform date hereinabove mentioned.

121. Biennial School Census.—The County Board of Education, subject to the rules and regulations of the County Board of Education shall cause to be taken under the direction of the County Superintendent of Education, a biennial school census of the children in the County between the ages of 6 and 21, inclusive, to be taken in July of each even numbered year, and the County Superintendent of Education, upon the direction at any time of the State Superintendent of Education, shall cause the whole or any part of any school census in his County to be retaken.

122. Census Enumerators — The County Board of Education, upon the recommendation of the County Superintendent of Education, shall appoint a sufficient number of enumerators to take the Census of the County during the mont hof July or at any other time as the State Superintendent of Education shall cause the whole or any part of any school census to be retaken. The County Board of Education, upon the recommendation of the County Superintendent of Education, shall fix the compensation of the enumerators taking any school census, snd shall order them paid out of the treasury of the County. The report of the enumerators shall be made under oath to the County Superintendent of Education not later than the 15th day of August next succeeding for the census taken during the month of July, and not later than 7 days after the direction of the State Superintendent of Education where the census or part thereof has been caused by the State Superintendent of Education to be retaken.

NIECE OF MRS. W. H. SARTOR DIES IN MONTGOMERY

Miss Frances Taylor, age 18, daughter of Mrs. Addie Taylor of Montgomery, died last Sunday night at the Memorial Hospital in Montgomery following an operation.

Miss Taylor was a member of the Methodist Church in Montgomery, of which Rev. I. W. Chalker is pastor. She is also the niece of Mrs. W. H. Sartor of this city. Funeral services were held at four o'clock Monday at Leak's Chapel in Montgomery with the Rev. I. W. Chalker officiating.

The numerous floral offerings and the enormous crowd attending the funeral attested to the high esteem in which this young lady was held by the many people who knew her.

The GINNING Season Is Here

Though considerably later than in the past, the cotton ginning season is here, and we want to call to the attention of the farmers of Chilton County to our gin.

All machinery and equipment has been thoroughly overhauled and everything is now in readiness to gin your cotton. We use only late models, thereby assuring you of the best samples, and as you know, the price you get for your cotton depends on the quality of your samples.

As in the past, we will operate two gins, and we wish to assure you that each gin will be under the supervision of competent operators.

Our gins have been tried out and are now ready to serve you.

At this time, we wish to express our thanks for the patronage given us in the past, and assure you that we will do all in our power to warrant a continuance of your patronage.

Farm Demonstration Dept.

(By C. E. Stapp, County Agent)

VETCH! VETCH! VETCH!

Have you made arrangements for your vetch and Austrian Winter Peas yet? Planting time is drawing near. It takes time to get seed, inoculation and Lime Phosphate. The prices are its value talk to Mr. Jasper Dennis, right this time and every farmers should make an effort to get some vetch or Austrian Winter peas planted. Vetch is a wonderful soil building plant and should be grown on every farm in Chilton County. If you doubt Mr. Sid Weldon, Mr. John Gray, Mr. Will Hamilton, Mr. F. McDowell, and others around Clanton; or to Mr. Howard Oden, Drs. Nix and Parnell and others in the western part of the county; or to the Strocks of Verbena and in fact to any good farmer who has given it a fair trial.

Let your County Agent know at once how much seed, inoculation and Lime Phosphate you ar going to need.

COTTON ANTHRACNOSE OR BOLL ROT

The Anthracnose damage to cotton in this County is rather serious. The bolls are first effected with small water soaked spots, but these spots later become larger and black and have reddish borders and pink centers. This is a disease of cotton and is not caused by some insect as seems to be the opinion of many farmers who have reported it to the County Agent. We know of no treatment for Anthracnose but are advised to rotate crops, not plant cotton on land where the disease occurred the previous season, plant varieties most resistant to the disease and only seed selected from healthly plants.

"NOTICE TO ALL AMERICAN LEGIONAIRES"

We have been requested by the Porter Plier Post of the American Legion to state that their next regular meeting will be held at Gore's Pond where a chicken barbecue will be served to all Legionaires and their wives. Officers of the Legion state that this barbecue will be given on Thursday night, September 6th, at 7:30. And thus far they have 29 members on roll and are preparing to serve them with a good supper on that date.

NOTICE

I regret very much to state that the Clanton Grammar school cannot open Monday, September 3rd as scheduled. The old building is in such condition as to make it impracticable to open school at this time. We are making an effort to secure temporary quarters to open on Monday, September 10th, but further announcement will be made next week about this matter.—B. Lawrence.

Mrs. Guy H. Roberts of Birmingham was the guest of her parents, Mr. and Mrs. W. A. Reynolds this week.

USED CARS

"with an OK that counts"

We have the best stock of used cars that we have ever had, and in order to boost our sales for the last week of August, we are offering them very cheap.

We have several used cars that will give new car performance and look almost as good as new.

If you do not want to pay the price of a new car now, let us sell you one of our thoroughly reconditioned cars "WITH AN O. K. TAG THAT COUNTS." You can depend on them, for they have been thoroughly reconditioned by skilled mechanics using special Chevrolet tools and equipment and genuine Chevrolet replacement parts.

We also have two late model Ford trucks and several good Ford cars and one Ford roadster, all of which are priced very cheap.

We have a car to fit every purse, and can give you what you want in either open or closed cars or 1-ton trucks.

All our cars can be bought with small down payment with liberal terms on the balance on the famous GMAC plan.

Seeing is believnig, so come in and let us show you our used cars and give you a demonstration.

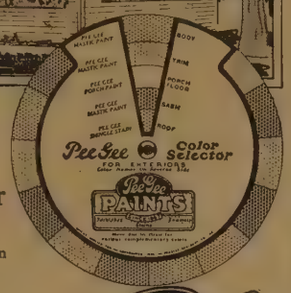
Pee Gee Color Selectors—FREE

When you use paint use a color that will harmonize with the other colors with which it will be seen. Pee Gee Color Selectors automatically solve this problem for you. There are two Selectors, one shows perfect color combinations for interior decorating, while the other is for exteriors. You can have both for the asking.



It's easy to get a good color scheme for your home

When you have decided on the colors you want, then we'll talk about how much

PEE GEE
Mastic Paint

you will need to cover the surface, the necessary number of coats.

You can depend upon this—Pee Gee Mastic will go at least 50% farther than ordinary paints and on top of that it will last twice as long.

The life, brilliant luster, and clearness of colors in Mastic Paint has built for it a reputation that makes it stand in a class by itself. And its economy is a decided recommendation.

Painting problems are what we like, if you have one, tell us about it—we can help.

Take notice that under the 1923 Revenue Code it is the duty of every person in each Election Precinct to attend in person on the day of the appointment in your Precinct and then and there render to the Assessor a full and complete list of all the property of which he or she was owner on the first day of October of that year. All taxes and assessments are delinquent after December 31st, 1928.

J. T. ROCKETT, Tax Collector.
S. M. PATE, Tax Assessor.

TWELVE QUALIFIED FOR OFFICE OF COUNCILMEN

When the dead line had been reached for qualifying as a candidate for offices to be filled in the municipal election of the Town of Clanton on September 17th, there were twelve men who har qualified for councilmen.

All of these twelve men are well and favorably known in Clanton, and when five men from this group have been selected by the voters to act as councilmen, there will be no question as to whether or not the town will have men who are competent to serve as such, for any five selected will be men who are held in high esteem.

Eric Hart, who is better known as "Buck", has no opposition on the ticket for Mayor. He too, is well known, and held in high esteem by the people of Clanton.

Following is the ticket which the voters will pass upon on September 17:

FOR MAYOR
(Vote for One)

ERIC HART

FOR COUNCILMEN
(Vote for Five)

W. T. BAKER
GRADY D. BROADHEAD
J. W. FRANKLIN
W. W. (BUD) JONES
J. P. LAWRENCE
W. M. POLK
Jno. M. (Doctor) ROBINSON
A. C. SMITH
H. S. SHAW
REEDY TAYLOR
LEONARD WILLIAMS
D. A. WINGARD

Verbena Items

Surprise Party Given Honoring Miss Minor

A surprise "kid party" was given last Saturday evening at the home of Mr. and Mrs. A. N. Minor, honoring their attractive daughter, Lurleen, on her eighteenth birthday.

The guests were dressed as small children and many games and contests were enjoyed. A prize for the person being most "kiddish" was awarded to Miss Pat Murphy.

The rooms were decorated in cut flowers. Punch was served to the guests as they arrived by Miss Pearl Minor, sister of the honoree. Music rendered by Messrs Stamps and Brock was also enjoyed. At a late hour, paper sack lunches were served to the guests who were, Misses Margie Murphy, Thelma Bates of Birmingham, Pat Murphy, Ruth Sessions, Carrie Foshee, Louise Gore, of Pratt City, Mildred Danforth, Eugie and Exie Baker, Pearl and Jewel Minor and the honoree.

Messrs Frank Stamps Dwight Brock Arthur Burnette, Bill Minor, Edwin Bruner, Amble Carter and Chauny Carter.

Party Given Honoring Little James Carl Martin

A pretty party was given last Wednesday afternoon from four to six o'clock, August 22, by Mrs. J. Mell Martin at her home on Third Avenue, honoring her little son, James Carl, on his fifth birthday.

Numerous games were enjoyed and the making of pictures furnished entertainment during the afternoon. A color scheme of pink and white was carried out in the living and dining rooms, effectively. Late in the afternoon delicious pink and white brick ice cream and cake was served by Mrs. Martin, who was assisted by Mrs. Saunders and Mrs. E. L. Hartley of Montgomery.

The children enjoying this bright social affair were Sister and Bunkie Saunders and Ernest Hartley Jr., all of Montgomery, Paul Gowan, Jack Lawrence, Bill Armstrong, Edith Parrish, Ruth Jones, Imogene and Willard Johnson, Patsy Jeanne Holladaye, Ann Ross, Wilbur Prince, J. Lee Smith, Jr. Lillian Smith, Margaret Jones, Mary Frances Atkinson, Kenneth Thompson Jr., Anniece Polk and Clyde Jones.

Miss Alma Robinson Returns From Dothan, Ala.

Miss Alma Robinson, the charming daughter of Mrs. W. C. Robinson, returned last Monday from Dothan, Ala., where she has been spending some time as the guest of Miss Louise Ezell.

Miss Robinson was the recipient of numerous social affairs in Dothan during her stay there, included in which was a house party at Panacea, Fla. Miss Robinson is one of Clanton's most popular young ladies, and through her charming and pleasing personality has won many friends while visiting in Dothan.

Party Enjoys Picnic At Swimming Pool

A party composed of Mr. and Mrs. A. N. Minor, Mr. and Mrs. O. V. Bruner, Misses Margie Murphy, Thelma Bates of Birmingham, Pat Murphy, Pearl Minor, Jewel Minor, Frances Moore and Lurleen Minor, Messrs Mitch Williams, Frank Stamps, Dwight Brock, and Leonard Gentry, all enjoyed a picnic given at Mim's Pond last Friday evening. The party left for the pond about six-thirty and enjoyed swimming and other amusements, returning to the home of Mr. and Mrs. Minor, where they were further entertained with songs and music by the Messrs Stamps and Brock, of Tennessee, who are conducting a singing and piano school at Concord.

Attractive Visitors Return To Home In Birmingham

Misses Alys Varian and Margaret Robinson, who have been the attractive guests of Miss Kathryn Johnson, at her home on Seventh Street, returned to their home in Birmingham last Sunday afternoon.

During their stay in Clanton these two charming young ladies won numerous admirers for themselves, and were the inspiration of many social affairs.

Fidelis Class Has Regular Monthly Meeting

The Fidelis Class of the local Baptist Church held its regular monthly meeting last Tuesday afternoon at the Baptist church with Mrs. Renfroe Mullins in charge.

After the business for the afternoon was disposed of, the class held a social hour. Delicious refreshments were served to those present who were: Mrs. Renfroe Mullins, teacher of the class; Misses Pat Murphy, Lurleen Minor, Exie Baker, Ruth Sessions, Carrie Foshee, Jewel Minor, Louise Gore of Pratt City, Margie Murphy, Mary Lee Pyron, and Erin Danforth.

"Home of Quality"

CLANTON, ALABAMA

Chilton County Abstract Co.

M. D. FOSHEE, Manager

A good business man will not buy a farm or any property without first looking it over to see what it is worth. However, some will buy or loan money on land without an abstract.

Isn't it equally as foolish to buy a farm without looking it over as to buy it and not know whether the titles are good or not? Without an abstract you do not know where you are getting the land you look at or not.

Before investing in land in any way have an abstract made and be safe.

HEALTH OFFICER OF STATE DIED IN MONTGOMERY

(Continued from first page)

was married to Miss Ethel Roberts Cleveland of Selma, April 10, 1900.

He entered public life as a member of the Talladega County Board of Health in 1897, later being elected to membership in the State Commission of Public Health and the State Board of Medical Examiners.

His activities in the medical profession included membership in the American Medical Associaton, the Southern Medical Association, the Alabama State Medical Association, the Talladega County Medical Association, the Association of Health Authorities of North America and other medical groups.

STATE CAPITOL NEWS

Montgomery, Ala., August 27, 1928—Alabama lost one of her ablest and most faithful public servants in the sudden death of Dr. Samuel W. Welch State Health Officer. Dr. Welch had been at the head of the State Department of Health for eleven years, and under his leadership Alabama was raised from a small beginning to the very first place among the states of the Union in public health work.

When Dr. Welch became State Health Officer in 1917, county health organization in Alabama was in its infancy. When he died, Alabama had reached first place among the states in percent of population whose health is protected by full time county health units. Tremendous strides were made under his leadership in eradicating malaria, typhoid fever, hookworm, and other diseases. Dr. Welch based his warfare against disease on the theory of "an ounce of prevention," and made great progress in inaugurating health measures which prevent and control outbreaks of contagious diseases.

Dr. Welch's fame was not limited to Alabama; he was known all over the nation, and in fact, was an internationally known figure in public health work. What he did in Alabama attracted attention all over the world, and the League of Nations health service frequently sent doctors from foreign countries to Alabama to study what this State had accomplished in fighting disease. It was no uncommon occurrence to find in Dr. Welch's office visitors from such countries as Russia, China, Bulgaria, Spain, and the South American republics, who came to study and to profit by Alabama's health methods.

Dr. Welch was a tireless worker. Frequently in passing his office on Dexter Avenue after nightfall and after all other offices at the capitol had closed, a light would be seen in the health department, where the state health officer could be found at his desk working long "after hours" in formulating his plans for keeping up the campaign against disease. His death is regarded as a great blow to the Staate, and his place will be hard to fill. At the time of his passing from his labors, while great progress has been made in health work, plans were under way for an even greater expansion of activities. The last legislature greatly increased the public health appropriation, making possible the carrying out of a health program on a scale hitherto unheard of. A successor to Dr. Welch will be elected by the State Board of Health.

Dr. Welch was 67 years of age, and a native of Talladega County. He is survived by his wife and four children. He was the third State Health Officer in the History of Alabama, the first having been Dr. Jerome Cochran, and the second Dr. William Sanders.

There will probably be a special session of the Legislature some time next Spring, according to political prophets around the state capitol Rumors of a special session at an early date were recently set at rest by Governor Graves who announced that he does not contemplate calling a special election in the near future to fill the vacancies in the legislature caused by death or resignation. "It has never been the custom to fill those vacancies unless there was to be a special session of the legislature and inasmuch as I have not now definitely determined that there is such an emergency as demands a special session in the near future, I will not do the useless thing of having members elected until I am sure that there will be a session at which they will serve," the Governor said in a recent statement.

The roadbuilding program in Alabama faces a setback by the end of 1929 if more road funds are not provided, according to figures recently made public. At the present time, road construction is being carried on in this state on a bgger scale than ever before in its history. The boards of revenue of a number of counties have gone on record as favoring a special session to provide funds needed to keep up the work of highway construction.

Progress in wiping out adult illiteracy is indicated in figures from the State Department of Education showing the number of persons attending the "opportunity schools" in 16 counties of the State this summer. The enrollment was 4,117, in white schools; while the negro enrollment was 4,838; the figures for negroes excluding Morgan county, which has not yet reported. Cullman with an enrollment of 647, headed the list of counties in the work of reducing white adult illiteracy.

PARTY RETURNS FROM VISIT TO SOUTH ALABAMA

Mrs. L. E. Diefenderfer and two children Milton and Helen; Mrs. C. S. Howard and children, Lloyd, and Ella, returned last week from a visit to Mobile and St. Elmo. They were accompanied home by Mrs. I. Husby, mother of Mrs. Howard, and Mr. aand Mrs. Fred Husby, who are visiting in Thorsby.

Cotton Gin Announcement

We wish to announce that we have purchased the gin and warehouse at Thorsby, formerly owned by W. H. Goodgame.

All machinery and equipment has been overhauled, and the gin is now in shape to do ginning that will assure the very best samples possible, and good samples assures top price for your cotton, as you know.

The cotton gin will be under the supervision of B. D. Thompson. Mr. Thompson needs no introduction to many farmers, but to those who do not know him, we wish to state that he has had 19 years experience in the operation of gins in Clanton, and he is rated as one of the best in the country. He will give your cotton ginning his personal attention if brought to our gin.

Just as soon as cotton begins to come in, we will operate day and night, and will have competent men in charge at all times.

Union Banner

Chilton County High School Opens Here

Several Prominent Citizens Make Addresses On Opening Day

The fall opening of the 1928-29 terms of the Chilton County High School was held last Tuesday morning in the auditorium of the school building, with a large student body, patrons and friends of the school present. Prof. L. C. Warr, principal and all of the other members of the faculty were present.

The exercises were opened with the song "America", after which Dr. S. J. Ezell, pastor of the local Baptist Church, read an appropriate scriptural selection and Rev. L. B. Green, pastor of the Methodist Church, then lead the invocation.

Mayor J. B. Atkinson, in a few well chosen words, welcomed the faculty, student body and patrons to the Town and pledged the Town to continue to stand back of the school in all its efforts to become one of the best, if not the best, in the state.

Judge L. H. Reynolds then delivered an address which will no doubt be of great benefit to all who heard him, in going forward with the educational work of the county. He pointed out the needs of spending a few more dollars to prevent crime and forcefully impressed upon the minds of his hearers, that it would be far better to spend a few dollars to correct criminals, than it is to spend hundreds of dollars prosecuting them and placing them in penal institutions. He gave statistics showing that the large percentage of the boys who are sent to schools of correction, either use tobacco or beverages and that the boys who attend Church and Sunday School rarely ever get into trouble and that the latter boys, when they reach their majority, are generally found commanding the best salaries and positions in the business world.

Judge Reynolds also pledged the school his co-operation and assured the student body that if the roads which they travel get out of repair, that if they would advise him, that he would see to it that they were immediately repaired so that nothing may prevent them from obtaining an education.

Dr. W. J. Gragg, president of the Central Alabama Hospital, in a forceable manner, reviewed the progress that has been made during the past fifty years in education, commerce, science and medicine. He pointed out the advantages which would result from having a health unit for Chilton County, and showed that the schools would be benefited and the students better fitted to carry on their work in striving to obtain an education, if their health was conserved, and stated that the health unit was a necessary auxiliary to the best and most progressive.

County Superintendent of Education, B. Lawrence, followed Dr. Gragg on the program, and he gave a review of the many accomplishments of the county department of education, which space prevents us from giving; except to mention some of the few important things he brought to his hearers. Among them was the growth in county appropriations for county high

(Continued on Editorial page)

THOMAS A. GRAGG NOW WITH THE BATES MOTOR COMPANY

Mr. Thomas A. Gragg, son of Dr. V. J. Gragg, has accepted a position with the H. M. Bates Motor Company, local Hudson-Essex and Durant dealers.

Mr. Gragg will be in the capacity of a salesman with the new and used car departments of this progressive automobile concern of Clanton. He invites his friends to call and see him at this new location, and he welcomes all inquiries about the make of car he sells.

W. M. POLK AND FAMILY GO TO CINCINNATI, OHIO

Mr. and Mrs. W. M. Polk Sr. and three children, Sunset, Clark and Ann-Peice, and Mrs. Marcus Polk, Jr., left last Thursday for Cincinnati, Ohio. They will make the trip in their car. Sunset, the attractive daughter of Mr. and Mrs. Polk, will remains in Cincinnati at the Conservatory of Music, to continue her studies, which she began there some time ago. The other members of the party are expected to return to Clanton in a short time, after visiting several points of interest in that part of the country.

MR. H. C. McDONALD

Mr. H. C. McDonald, of Wetumpka, Ala., who was elected last week as vice-president of the Alabama Association of Secondary Schools. Mr. McDonald was at one time a resident of Clanton and for several years principal of the Chilton County High School here.

MAPLESVILLE YOUTH HURT IN AUTO WRECK

One Dead, and Two Injured In Auto Crash Near Birmingham

Birmingham, Ala., Aug. 31.—Funeral services for Wilson Chambers, 25, who died Thursday afternoon, following injuries received in an automobile crash on the Montgomery highway Thursday, were held at 2:30 p. m. Saturday at the Hopewell Church. Burial was made in the adjoining cemetery, Vice in charge.

Hollis Yawn, of Maplesville, and Dick Hawkins of Birmingham, companions of Chambers in the crash, are under treatmeent in Hillman Hospital. Yawn was reported by hospital authorities late Friday afternoon as still in a serious condition, but Hawkins was reported as resting easy.

The crash occurred, according to Motor Scout Powell, when the State Highway Department car in which they were riding became unmanageable while turning a curve and smashed through a concrete rail on the Cahaba River Bridge.

LORENZA SMITH GETS LIFE SENTENCE ON GUILTY PLEA

The case of the State versus Lorenza Smith, charged with criminal assault on a young white girl, went to trial last Thursday, and resulted in a conviction of the defendant and his punishment was fixed at life imprisonment. The defendant plead guilty and threw himself upon the mercy of the court, and agreed to take the life sentence which the jury trying the case confirmed.

MR. AND MRS. BLALOCK VISIT CHILDREN HERE

Mr. and Mrs. W. C. Blalock of Maples Springs community were the guest of their children in and near Clanton for several days last week.

Mr. Blalock was a pleasant caller at the News office last Monday. In spite of Mr. Blalock's advanced age, he is very active and would be judged to be much younger than he really is, and he is always interested in any movement for the betterment of Chilton County and the community in which he resides.

MR. A. R. MEEKS AND FAMILY ARRIVE IN CITY THIS WEEK

Mr. and Mrs. A. R. Meeks and son Ernest, arrived in Clanton last Monday and will make their home here. Mr. Meeks, who is superintendent of the new cotton mill here, has been connected with a manufacturing concern at Alexander City, from where they moved.

THE LEADERS BIG SALE CONTIUES WITH SUCCESS

The big sale which has been going on for some time at The Leader continues, and in this issue of the News you will find Mr. Lande offering many bargains.

If you are in need of anything in their line, you will do well to look over the bargains and call and see what The Leader has to offer.

Dr. Gragg Discusses Water Works and its Proposed Sale

Dear Editor:

Since we are to have an election for the ourpose of the public giving an expression in regard to the sale of our municipal water works, I think we should ask ourselves why we should do this, and why the purchaser wants to buy it.

First—While our water is not the best in the world, it is pure and wholesome and has been passed on as such by the State Board of Health many times over.

Our water contains iron in solution, and this can be removed by filtering. The Laundry plant in Clanton now filters all their water and find it both satisfactory and practical. A filtering system can be installed at a very reasonable outlay and our underground water supply is inexhaustable. The cost of sinking another well or two and filtering the water would be little as compared with the loss of the revenue from our water plant.

Let us consider these figures taken from the town's books:

Last years' income from water $7924.-07: Last years' pumping $80.00 per month, $960.00; Last years' water works' Superintendent Salary, $100.00 per month, $1200.00; Total Expenses $2160.00; Net revenue last year, $5764.-07.

And this income is at the present low rate of a $1.25 per month minimum, means $1.13 if paid promptly.

Now compare the purchaser's rates:
A 5-8 inch meter, $2.00 per motnh.
A 3-4 inch meter, $3.00 per month.
And on up higher and higher according to the size of your meter. Also look at their rate on fire hydrants: $50.00 per year each, on the first 10; and $40.00 each per year on the next 90 ,etc.

Now if we cleared $5764.07 last year on our present low rates, how much would the purchaser profit on their proposed rates?

Just Stop And Think

Then there is another bad feature Recently many of our people have been forced to install sanitary connections and connect up with our water system, some of them widows and others who did not feel financially able to bear the burden, and only installed a single sanitary unit and would not use more than 2 or 3 hundred gallons per month. I understand more than 60 per cent of our consumers now use less than the present minimum.

Are you going to raise their rate under the pretext of a larger minimum? It would not help them any if they got a rate of a million gallons for $2 or $3, if they only used 200 or 300 gallons.

Certainly if you cannot trust to the ability of the men who are to be elected to office and have your water works under their control. I say, if you do not expect to have men of business ability or of moral turpitude to look after these things, or if you think they would allow it to run down only to force a sale, then, the earlier we sell, the better.

Second—What does the purchaser want with the plant? Only one answer—Revenue.

I invite your earnest consideration.

V. J. GRAGG, Clanton.

A. A. Jackson Don't Agree With Senator Pat Harrison

Editor Chilton County News:

Will you be so kind as to give me a small space in your paper to say a few words in regard to an article in last week's News under the caption: "Party Leaders Sound Call To Southern Cause' The Rebel Yell of the Confederacy". Also what Senator Pat HARRISON of Mississippi said in the Alabama Times of August 18th, under the caption: "Part Played by Catholics in History of Southland and Its History." The Senator asks these questions: Is the heart less thrilled when the fact is known that the Great Lafayette and Pulaski, and Kasciusko were Catholics? That Generals Beauregard, and Shields and Longstreet were Catholics? Are we to feel no longer that high praise for the spendid service rendered by that distinguished Admiral Raphael Semmes, because he was a Catholic? Did the sword of Robert E. Lee and the conquered banner stir the brave soldiers of the Confederacy less because he was a Catholic? Are we to think less of the immortal Jefferson Davis, because in his youth he attended a Catholic school and received his training from Catholic Preists? Is the memory of this great man to suffer because as a youth he determined and attempted to join the Catholic Church, but that the Catholic Father with whom he conferred enjoined him and advised him that he was yet too young? Are we to think less of his memory because this great, good and beloved man as President of the Conferedate States acknowledged a letter in 1863 from Pope Pius IX, and in his reply wrote: "It is for this reason that I feel it my duty to express personally and in the name of the Confederate States our gratitude for such sentiments of Christian good feeling and Love.

Note the above from the pen of one of our stateman. He did not mention any part that was played by a Protestant. But according to the Senator's own statement the Southern Confederacy was a Catholic Confederacy: run by Catholic generals, and the Pope of Rome. The people of today are too well educated to listen to that old Rebel yell for a lost cause.

Dear Reader, consider the danger our country is facing today. This same bunch that Senator Harrison said run the Southern Confederacy is making a desperate fight to take control of our Nation. Will they do it? That will be for the voters of our country to decide in November.

I believe that we have too many good Democrats and Republicans in this country than to turn this Government over to the bunch that Senator Pat. Harrison proposes should have control of our Government.

In conclusion let me ask each Protestant to get the dictionary and look up the definition of the word Protestant; and decide for yourself whether or not you can vote for Al Smith and be a true Protestant. Can a true Mason vote for Al, can a true K. K. K. vote for him. If so, tell me how it can be done.

Yours for the whole Union, without the Rebel Yell.—A. A. Jackson.

Tuscaloosa Journal Writes On "Standing by Democracy"

Someone has discovered that Senator Charles Curtis, Republican vice presidential nominee, was christened a Catholic way back yonder in days beyond his memory.

Some time ago someone discovered the very important fact that Herbert was married by a Catholic priest.

And of course, it is known of all persons that Alfred E. Smith was born of a Catholic mother and has clung fast to his fajth.

And all these facts were considered of great importance to a nation which boasts of its principles of religious liberty for all men, and their right to worship God according to the dictates of their own consciences.

What matters it in choosing a president or vice-president, if Hoover, when he went to get married, couldn't find a Protestant minister, and was united by a Catholic; whether Indian relatives of Senator Curtis had some Catholic missionary christen him, or whether Smith was born a Catholic?

This business of worrying over "Catholic domination" is tiresome.

The Pope living in Rome can't run the city nor Italy; France 80 per cent Catholic has no "pope worries," Mexico 90 per cent Catholic, has a Masonic president. The fact is, the Pope of Rome is a political nonentity in the world today. We will worry about him taking charge of America when he tries it—not before. In the meantime we stand by Democracy, the symbol of white supremacy in the South for a hundred years.—Tuscaloosa Journal.

MR. HERBERT LOWERY

Mr. Herbert Lowery was elected as president of the Chilton County Singing Association at the annual convention of the Association held at Thorsby recently. He is well and favorably known throughout the county and the Association should make great strides under his leadership.

CHILTON FARMERS TAKE TO VETCH PLANTING

Orders Taken For 7,500 Pounds Legume Seed By Field Worker

Mr. O. C. Paulk, who recently joined the Field Force of the Chilton County Farm Bureau, reports much interest is being taken in the Vetch seed drive now on in the county.

Mr. Paulk also reports much interest being taken in the placing of orders for Basic Slag Phosphate, he having booked orders for 77 tons for immediate delivery. This fertilizer is to be used when planting Vetch, the planting of which is expected to begin at an early date.

The fact that Mr. Paulk took orders for 7,500 pounds of Vetch seed last week indicates the progressiveness of the farmers of Chilton County.

As has been stated in these columns in the past, there is no legumes that will prove more valuable to this particular section than the vetch, and it is indeed gratifying to know that the farmers are taking so much interest in this all-important winter crop, for the improvement and upbuilding of their soils.

Mr. Paulk states that the price for Vetch seed is lower than it was a year ago. However, he urges all who intend buying to place their orders at an early date. Mr. Paulk will be in the County Agent's office should anyone wish to see him on any matters pertaining to placing orders for vetch seed, fertilizers or pooling of cotton.

CLANTON PUBLIC LIBRARY TO BE OPEN SATURDAY

We have been requested to announce this week that the Clanton Public Library, which is located in the new Mullins Building on Seventh Street, was opened last Saturday afternoon from 2 o'clock until 5:30.

The library will also be open each Saturday afternoon in the future at the above stated hours. Everyone is invited to come and get books. Some member of the Clanton Study Club will be in charge of the Library each Saturday afternoon.

MR. AND MRS. J. H. FAVORS HAVE MOVED TO CLANTON

Mr. and Mrs. J. H. Favors and family have moved from Montgomery to Clanton, and they are now occupying the Spanish Stucco bungalow, recently erected in Candler Terrace, by Mr. "Ike' Danforth.

Mr. Favors is connected with the Texas Oil Company, the Texaco Co. recently arranged to work this territory.

DR. J. E. EDGAR OUT OF OFFICE FOR THE WEEK

Dr. J. E. Edgar left last Monday for a short visit to relatives in Deatsville. He expects to be gone for several days returning next Saturday.

Mrs. Edgar has been visiting her parents, Mr. and Mrs. W. R. Gantt, at Deatsville for several days.

Dr. Edgar stated that his office will be open during his absence with his assistant, Miss Susie Griffin in charge.

Successful Baptist Revival Closes Here

Local Pastor Assisted By Rev. R. L. Wyatt, of Birmingham

The revival meeting which began at the First Baptist Church in Clanton August 26th, has been attended by large and attentive crowds. The preaching was done by Rev. R. L. Wyatt of Birmingham. From the first service to that of the close of the meeting, which occurred with the evening services last Wednesday, the Church has been packed to capacity and each sermon delivered by this polished and splendid man of God, brought new visions, new ideas and reconsideration to his audiences.

The Rev. Wyatt has not disappointed the people of Clanton and Chilton County and many from surrounding counties who have heard of and attended these services, for his messages have been strictly in keeping with the commands of the Bible and he has not failed to deliver his messages in a clean, clear cut and forceful manner. He has done Clanton and Chilton County much good and leaves our town with the best wishes from all, and the people of our little city, we feel sure, join us in bidding Rev. Wyatt God-Speed as he labors for the upbuilding of the Kingdom of God.

The singing at these series of meetings was splendid, and much credit is due our fellow townsman, Mr. Herbert Lowery, for his untiring efforts to make it so; the solos, duets and quartets along with the splendid singing of the whole choir, helped much to bring about an atmosphere of religious feeling, which was evident and predominant at each of the services.

Rev. S. J. Ezell, pastor, who assisted Rev. Wyatt, in this meeting stated that twenty six new members were added to the church up until Tuesday night, and that a fine spirit and good feeling among the membership, was evident.

CHILTON COUNTY GINS TO BEGIN OPERATION

The many cotton gins in Chilton County are expected to begin operation within a few days, according to reports. The six gins operating in Clanton are ready for business on a moments notice.

The operators are making some very attractive offers to the first ones bringing to their gin the first bale of cotton. Read their ads for further information

For the past several years, the first of September found the gins running full, with many bales ginned. This season, however, being unusually late, the gins are later in beginning and it is beleved that only a few bales will be brought in to begin with for the next week or so.

JONES HARDWARE HAS FINE DEMONSTRATION IN WINDOW

One of the show windows of the Jones Hardware has attracted unusual attention during the past few days, and many make a trip back down town late in the evening to view the attractive illustration.

We have reference to the left window, in which is placed an electrical device which appars as a house burning, which by the way, is one of the best illustrations we have ever seen. This illustration is on for the purpose of demonstrating the value of Asbestos Shingles which this firm has on sale.

MR. L. E. BOOCKHOLDT OF VERBENA, RT. 2 VISITOR HERE

Mr. L. E. Boockholdt, of Verbena, R. F. D., was in Clanton last Tuesday on business. Mr. Boockholdt, is one of successful farmers and good citizens, who when the crop is laid by, finds something else to do. This summer he has been building and installing at the several schools of the county, modern and sanitary closets. The County Board of Education and other school authorities are to be commended for taking this progressive step in equipping our schools with those conveniences.

MR. AND MRS. E. E. SMITH ATTEND FUNERAL OF RELATIVE

Mr. and Mrs. E. E. Smith were called to Sylacauga during the first part of the week on account of the death of a near relative.

Monumental Works is New Industry for Town of Clanton

Rev. J. C. Dunlap, who has been coming to Clanton for the past thirty years or more, announces that he has opened a Monumental business here.

Rev. Dunlap has secured the service of Mr. Feris of Richmond, Va. who has had forty years experience as a marble cutter, and those placing orders with the new Clanton concern are assured of first class work.

In discussing his decision to open such a business here, Rev. Dunlap stated: "I have traveled much between North Carolina, Texas, and between the Great Lakes and the Gulf, and I know of no place that offers more inducement for such a business as I am opening up in Clanton. The people here are progressive, and a monument erected speaks of culture and refinement, and I believe the good people of this and the surrounding communities will appreciate the extra service that we are offering at normal cost, we invite your co-operation and assure you of entire satisfaction."

The marble shop is located near the Ellis Pan-Am Service Station, where the business will be conducted. This new concern has begun business in a modest way, but they expect to enlarge their stock from time to time, and in the near future they expect to have one of the best of its kind to be found anywhere in this state.

PARTY OF MEN ENJOYED PICNIC NEAR HERE RECENTLY

A party of men enjoyed a picnic last Tuesday on the Weagulfka Creek. The picnic was in honor of Mr. N. C. Kicker of Birmingham, Ala. Mr. Kicker is chief payroll clerk of the Police Department of Birmingham.

Those enjoying this outing were Mr. Green Griffin and sons, Hubbard and James; Adam Courtney, Jim Courtney, Fate Courtney and son Tom, E. H. Dennis, Tom Allen, John Wilson and N. C. Kicker.

A bountiful dinner of barbecued meat and all that goes with it was spread picnic style. Cold drinks were also served during the day. Most of the time was spent swimming, boat riding, fishing, and viewing the masonry of old houses that were built by Mr. T. J. Griffin, father of Mr. Green Griffin, some twenty-five or thirty years ago.

Everyone reported a good time and Mr. Kicker says that he intends to come back again as soon as possible.

NOTICE OF GENERAL MUNICIPAL ELECTION

Notice is hereby given that a General Municipal Election will be held in the Town of Clanton, Alabama, on Monday, September 17th, 1928, for the purpose of electing a Mayor and five councilmen to serve said Town, for the next ensuing term, as prescribed by law, and that said election will be held and conducted under the provisions of the law made and provided for holding of General Elections, and that the polling place for said election will be in the Court House in said Town, and that J. L. Johnson, L. E. Diefenderfer, and T. J. Littlejohn, have been appointed Managers, and Mrs. N. S. Johnson and Mrs. Jas. C. Jones, Clerks, and J. A. Boockholdt, Returning officer, by the Council, to hold said election.

Witness our hands and dated this the 4th. day of September, 1928.

J. B. ATKINSON,
Mayor of the Town of Clanton.
J. H. PLIER,
Clerk of the Town of Clanton.
No. 50-2t

NOTICE

Anyone wanting old newspapers or magazines can have same by calling for them. There is a party in Clanton who has an over amount of these and wishes to give them to some one who might have use for them. For information call at the News office.

MR. LEONARD GENTRY NOW WITH CLANTON LAUNDRY

Mr. Leonard Gentry, who has been employed by the Carter Electric Shop has accepted a position with the Clan-Laundry and Dry Cleaning Company.

Mr. Gentry began his duties last Monday. He is well and favorably known througout this section, and will, without a doubt, prove a valuable employee for the laundry.

W. W. (BUD) JONES AND FAMILY MOVE TO AUBURN

Mr. W. W. (Bud) Jones, who was nominated by his friends for a member of the Town Council in the forthcoming Municipal Election, stated to a representative of the News that he would not be able to serve as he was going to be away from Clanton most of the time for the next year and requests his friends to vote for others than himself. He stated that he appreciated very much the fact that his friends thought that he was the man for one of the places to be filled on the Council, and regrets that the circumstances are such that he cannot be of service to Clanton, his home town, which he stated he hoped to see grow and prosper.

MARTIN-WARR

Troy, Ala., Aug. 29.—Miss Elinor Martin of Troy and Seale, and L. C. Warr of Clanton, were married Sunday afternoon at the Methodist Church in Fairfield. On account of the recent death of the bride's father, the wedding was a very quiet one and was witnessed only by the family and a few relatives.

Immediately afterwards, Mr. and Mrs. Warr left in their automobile for a visit to Seale and will later go to Clanton to make their home.

Mrs. Warr is a daughter of Mrs. H. J. Martin, of Seale, and the late H. J. Martin. She is a graduate of the Troy Normal, and has studied at Peabody College and the University of Alabama. She has been phenomenally successful as a critic teacher in the junior high school department of the Troy Normal for several years. She is zealous, enthusiastic and a leader in all movements for the good of the school. She has a most winning personality and is very charming and attractive.

The groom is an educator of marked success. He has been principal of the Luverne High School for several years and resigned to accept a position as principal of the Chilton County High School at Clanton. He is an alumnus of the Troy Normal, the University of Alabama, Peabody College and has studied at Columbia University for the past summer.

The wedding will be of much interest to educators throughout Alabama.

CALHOUN TIMBER TRACT UNBURNED FORTY YEARS

Montgomery, Sept. 3.—No forest fires for forty years is the history of a tract of mixed pine and hardwood recently examined by agents of the Commission of Forestry in Calhoun County, Alabama. Such a tract is especially interesting, since it indicates what may be expected under similar circumstances on other areas.

The soil was rich in nitrogen, since it had not been driven out by the intense heat of woods burning. Of the chemical elements that are most essential to tree and plant growth, nitrogen is the only one which is completely destroyed by fire. If the woods remain unburned, however, this important fertilizing element steadily accumulates until the proper balance is arrived at. Unburned woods occupying the uplands thus supply through drainage to the lower areas much fertilizer material.

Another important factor that was noted was the absence of undergrowth grass and weeds. The soil retaining its fertility naturally enabled the trees to grow more thriftily and extend their branches and foliage systems so as to shade almost completely the ground underneath. This, of course, prevents the growth of grass. With no under vegetation to crowd into such openings as were made by past cuttings, these spots became covered with young seedlings and saplings of forest trees.

The third important factor noted was that the forest floor, instead of consisting of a loose accumulation of inflamable material, was moist and spongy with the underlayers of fallen leaves, etc., rapidly decaying into humus and mixing with the mineral soil. This disposes of the theory that unless the woods are burned there will be much loose trash and litter that a very serious fire hazard will result. As a matter of fact, there rarely remains an accumulation of more than one to three years' leaf fall that can be readily burned, the earlier material constantly decaying into the ground.

Mobile—No reportable accidents occurred on Mobile-New Orleans division of Louisville & Nashville Railroad during July.

The GINNING Season Is Here

Though considerably later than in the past, the cotton ginning season is here, and we want to call to the attention of the farmers of Chilton County to our gin.

All machinery and equipment has been thoroughly overhauled and everything is now in readiness to gin your cotton. We use only late models, thereby assuring you of the best samples, and as you know, the price you get for your cotton depends on the quality of your samples.

As in the past, we will operate two gins, and we wish to assure you that each gin will be under the supervision of competent operators.

Our gins have been tried out and are now ready to serve you.

At this time, we wish to express our thanks for the patronage given us in the past, and assure you that we will do all in our power to warrant a continuance of your patronage.

TEXACO

Buy oil by name
—TEXACO
Watch the color
—GOLDEN

The first thousand miles

This year . . . your choice of motor oils is second only in importance to your choice of cars.

For engines of 1928 are faster . . . they "turn over" more times in a given second. They run hotter . . . more explosions . . . higher compressions. Only a motor oil with full viscous body can "stand up" under this high-speed heat; only a motor oil as fine as golden Texaco can give your new engine the thorough lubrication it must have at all times . . . under all circumstances.

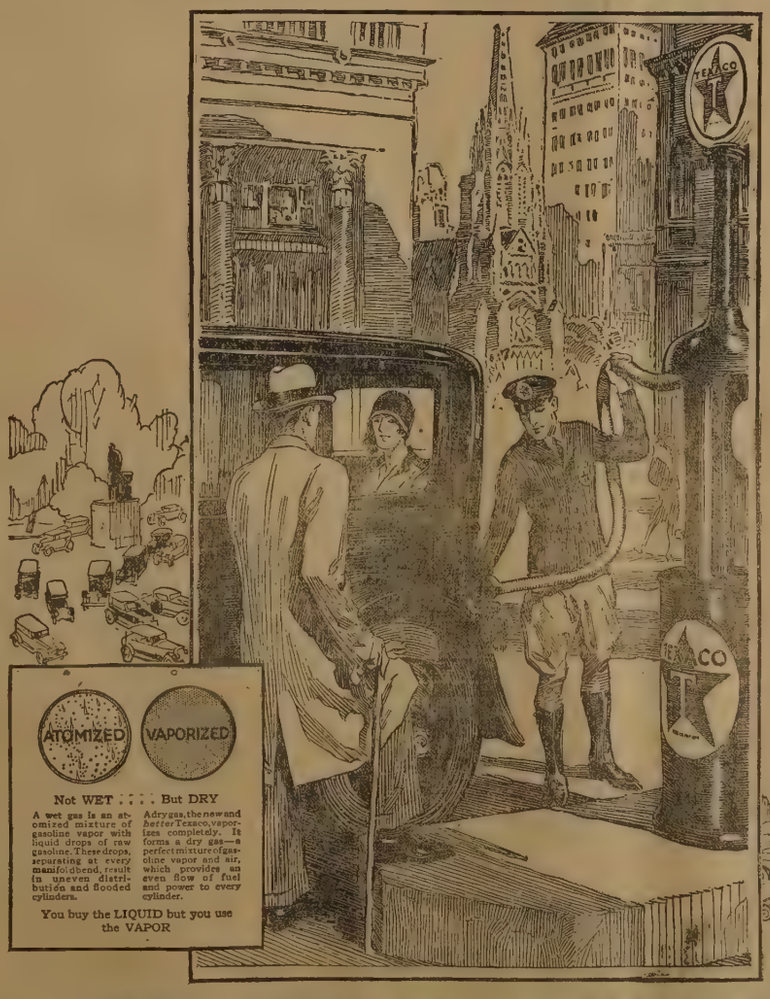
More than ever this year, the first 1,000 miles . . . and the oil you use . . . will determine your engine's performance during each of the thousands of miles to come.

From the first mile on, use Texaco Motor Oil. Free of tars, of paraffin wax and cylinder stock, Texaco flows in coldest winter . . . lubricates thoroughly and dependably at all temperatures.

Wherever you see the Red Star and Green T, ask to see the Texaco Lubrication Chart. It will specify the grade of Texaco Golden Motor Oil authorized for your new engine.

The Texas Company, 17 Battery Place, New York City
Texaco Petroleum Products

TEXACO
GOLDEN
MOTOR OIL



TEXACO
ATOMIZED
VAPORIZED
Not WET . . . But DRY
A wet gas is an atomized mixture of gasoline vapor with liquid drops of raw gasoline. These drops, separating at every manifold bend, result in uneven distribution and flooded cylinders.
Adry gas, the new and better Texaco, vaporizes completely. It forms a dry gas—a perfect mixture of gasoline vapor and air, which provides an even flow of fuel and power to every cylinder.
You buy the LIQUID but you use the VAPOR

Faster . . Faster . . We Drive

Changed Motoring Conditions Demand a New Gasoline

60 . . . 70 . . . perhaps more miles per hour—mastery of the highest hills in high gear—quick-action power—all of this you and thousands of others demand when you buy a car. You may never use this excess power, yet you want it.

Faster and faster—each year a little faster—you drive over increasing miles of improved roads. Faster and faster moves the traffic of cities.

The *new* and *better* Texaco is an answer to these changed and changing conditions. In the tank, the *new* and *better* Texaco is a pure, non-doctored liquid; at the spark, a vapor that is so free of moisture that it can be truly described as *dry*. It is this dryness—this ability to form a dry gas—which, in your engine, results in increased power and responsiveness throughout its entire driving range.

Anywhere—wherever you see the Red Star and Green T, drive in for the *new* and *better* Texaco—the gasoline that forms a dry gas.

For Members County Board of Education
JUDSON STROCK
C. J. KLINNER

Each and every individual nominee is qualified in every respect for the office they are asking the qualified electors to elect them to.

ABOUT THE OPPORTUNITY SCHOOLS OF THE COUNTY

The Opportunity Schools, which have just closed in this county were indeed successful. Much good has been accomplished by each of these schools. We congratulate Hon. H. A. Harris, the director, for his untiring efforts to help make the schools a success, which he accomplished in a signal way. To each of the teachers of these schools much credit is due, for each one of them gave their best services and without stint. They did not withhold any energy or effort to make their school a success and imparted to each of their students something that would make him or her better fitted to meet the difficult problems of life in the future.

The News believes that a better community feeling exists where these schools have been held. That the citizens who attended have been benefitted and are now better equipped as citizens. That they have found an avenue in which they themselves can work out and answer many questions concerning their government, their business and their duties to God, which heretofore they have had to rely on someone else to answer.

The State Department of Education, County Superintendent of Education and every person who had any part whatever in making it possible for these schools, have contributed a great deal toward' bettering civilization.

THE BENEFITS OF HIGHWAYS SAYS, FRANK PAGE OF N. C.

Highways are an investment that pays real dividends and shows profits, according to Frank Page, Chairman of the North Carolina Highway Commission. In a recent speech, he showed what benefits have come to that state from its fine roads.

As the first item, Mr. Page listed relief to towns and counties and savings to road users, through reducing wear and tear and losses.

Second, educational opportunities.

Third, the rapid, cheap and safe transportation of agricultural products.

Fourth, factories avoid congested centers and labor needs no tenements in town.

Fifth, increased accessibility of resorts and places of scenic interest.

Sixth, the appeal good highways make to potential residents.

Seventh, social advantages, by doing away with isolation.

These are highway "dividends" that are paid in every state and every locality.

A community that neglects building good and adequate roads is condemning itseelf to mediocrity and retrogression.

A BASIS FOR GREATER FARM PROSPERITY

"There may be many things that can be done to bring prosperity to the farms or this country, but one is essential, namely, that farming methods be brought to a standard whereby machinery and labor-saving devices are used in the same degree as in industry," says G. C. Neff, Chairman of the Rural Electric Service Committee of the National Electric Light Association.

"Electric central station service has brought about lower factory production costs and has increased the amount and quality of goods produced. Central station service brought to the farmers and properly applied, will do as much for the operation of the farms.

"It is gratifying to report that in a three-year period the number of farms served by electric light and power companies increased 86 per cent. If this increase continues at the same rate, there will be approximately one million farms receiving central station service in this country by the end of 1932."

Modern industry and our great mechanical age, rest on the solid basis of power. It is logical to believe that a future great agricultural era will envolve by the same agency.

SNAPPY STUFF

A khaki Campbell duck, owned by H. S. Maxwell of Suffolk, Va., has achieved a record of 357 eggs in 365 days.

Henry Betrrand of Kansas City won a divorce on evidence that his wife "spooned" with other men while studying astronomy.

Herbert Gordon of Los Angeles was arrested for spying from a castle tower on nude women taking sun baths in the grounds of a sahitarium.

Dr. C. E. Goddard of Harrow, Eng., in his annual report as health officer warned men and women not to smoke more than 10 cigarettes a day.

Otto Kaeppner, a blonde giant of N[illegible], Eng., was arrested while cheering on three women in a rough-and-tumble fight to determine which should be his sweetheart.

A Salvation Army band of Atlantic City refused to participate in a fete because jazz dancing was permitted.

Mrs. Ella Callon of Seattle refused to prosecute her husband who deserted her 16 years ago to marry another woman, and took him home from court

Horsetails were valued at $100 each when a Cynthiana, Ky., court handed down a $500 verdict in favor of a shipper, the tails of his animals having been chewed off during shipment.

After hearing her husband sentenced to jail for abusing her, Mrs. Helen Olson of Brooklyn, presented him a vacation kit and a book.

After testifying during a divorce suit brought by his wife that he spent $245 for buttremilk since July 16, Thoedore Kowper, 54, of Milmaukee, is dead.

After 20 years of searching, John Bell, who was stolen by Gypsies when five years old, has been united with his mother and sister in Dallas, Tex.

Seven members of one family, all female and comprising three generations are attending the summer school of the Teachers' College at Pittsburg, Kansas.

Testifying that her husband beat her Mrs. Caroline Shalton of Chicago, said "We women marry for happiness and get hard work."

Albert Darville of Houston, Tex., stole his wife's wig and sold it to take another woman to a dance.

Douglas Emmens of Hull, Eng., convicted of fraud, admitted in court that he had married women in France, India, Egypt and the United States.

Mrs. Emily Gerrand of Chicago was granted a divorce after testifying that for20 years she had lived in daily terror of her life.

Jerik Marsen of St. Paul was given a suspnded sentence for theft when the court learned he had 20 children.

A jewelry firm in Birmingham, Eng. has designed a ring with a band of red, to be worn by divorced women.

Three teeth of a pet dog owned by Mme. Zallois of Paris have been filled with gold.

The Earl of Tankerville, aged 76, sang a solo and 16 encores at a concert in Chatton, England.

A Scottish girl has asked the Mayor of Edinburg, to find her a husband "big and strong, refined and affectionate."

Mobile—Gulf, Mobile & Northern Railroad has not had a reportable accident on its entire line since May 19.

Mobile—Work in progress waterproofing 7 buildings of quarantine station on Sand Island.

Mobile—2 new telephone exchanges opened in city by Southern Bell Tel. & Tel. Co.

Greenville—Alabama Cotton Mills Company constructing new cotton mill here.

Greenville—Pavement on Bolling St. from Hervert St. to Five Points opened to traffic.

Auburn—Bids received for improvement of East Glenn and Mitcham Avenues.

CHILTON COUNTY HIGH SCHOOL OPENS HERE

(Continued from first page)

school work, and it is surprising to know that only six years ago, that the amount appropriated for that purpose was indeed very small, when compared with the present amounts, which are being set aside for the purpose.

The speaker showed that Chilton County now had an assessed valuation of over $15,000,000.00 and that around $7,000,000.00 of this amount was property of the Alabama Power Company, and that the L. & N. Railway Company properties was over one million dollars, and that corporate property in this county amounted to about sixty per cent of the assessed valuation.

Prof. L. C. Warr, and his efficient corps of teachers were then presented, and if good looking people make good school teachers and good looking boys and girls make good students, then this school will ascend to the top rung of the ladder of success this year.

The faculty for this year is as follows:

Miss Robbie Sawyer, English; Miss Bernice Williams, Mathematics; Mr. Lucious B. Knox, Manual Arts; Mr. O. V. Bruner, Science and Athletics; Mrs. O. V. Bruner, Economics; Miss Sarah Head, English; Miss Claudine Leonard, History; Miss Nell Wells, Social Studies; Mrs. Maggie Frazier, Cincinnatti Conservatory of Music, will have charge of the music.

BROADUS CONNATSER GOES TO NEW ORLEANS TEAM

The following account of the purchasing of Broadus Connatser by New Orleans appeared in the Birmingham News last Sunday, and will be read with interest by the friends of this Clanton boy:

"New Orleans will start the 1929 season with many youngsters in the line-up. Jules Heineman is fed up on veterans and has started signing young players for next season. Jack Connatser, once the property of the Barons, and a graduate of the University of Alabama, has already been purchased from Jackson of the Cotton States League."

CHIROPRACTIC MEANS SPINAL ADJUSTMENTS

(By E. L. Howard)

Among primitive people, in the early days, as humanity became humane, desire to alleviate suffering increased.

The science of surgery was unknown, but the remedial and curative medical science was practiced in an effort to benefit.

Roots, barks, berries of medicinal properties were applied internally and externally.

Broken bones, dislocated joints, strained ligaments, taxed tendons, misplaced muscles demanded more than concocted linaments and remedial lotions,

Each pare of the body was supposed to be necessary to a perfect human body. Each has a special duty to perform. Any removal of any part caused an irreparable defect. The human hand applied to the diabled part of another body antedates the Divine "laying of hands."

The spine is the keystone, as well as the tap root of humanity. The spine connects directly with all parts of the human body. The spine sends out life and vitality of disease and disability.

Thus A. J. Lawley, of Brewster, Lawler & Brewster, chiropractors Woolworth Building, discusses chiropractic.

Adjusting disabled or diseased parts of human anatomy my spinal adjustments antedates all system and schools of remedial and curative sciences for benefit to those neding relief.

In these later days spinal adjustments are called chiropractic. There are approximately 30,000 graduates of the chiropractic schools, starting only a few years ago. There are approximately 3,000,000 individuals who prefer chiropractic to any other remedial or curative system of relief. There are 36 states that have chiropractic examining boards to allow the qualified and prevent the unqualified chiropractors using the science for human betterments.

Alabama is not one of the 36 states having chiropractic examining boards. There are 100 chiropractors in Alabama. There are 30,000 people in the state who prefer chiropractic as a remedial or curative science.

The Alabama Legislature will decide whether or not chiropractic shall hae the right to choose a preferred system of human relief; whether or not the 30,000 people of Alabama shall be allowed to choose the science they wish for relief or cure.—(Adv.)

COTTON ASSOCIATION HANDLING COTTON AS DESIRED

The Alabama Farm Bureau Cotton Association is now prepared to handle cotton for its members almost any way they desire, according to Allen Northington, general manager.

"Under the new seven-year contract we have established a method of handling cotton cooperatively called the Special Pool." Mr. Northington said. "In this pool the members have the right to name the time of sale and get full settlement on their cotton at that time. In the regular Annual Pool, cotton is handled the same as we have always handled cotton for members under the five-year agreement."

During the six years of operation of the Cotton Association, Mr. Northington states that sales outlets and credit arrangements for financing the marketing of cotton have been established whereby the Cotton Association can handle every bale of cotton produced in Alabama, sell it direct to the mills and get all the mills pay for the cotton less the actual cost of handling from the farm to the factory, back to the member.

The Cotton Association handled, of the 1927 crop, over 80,000 bales. 95 per cent of this cotton was sold direct to the mills in this country, and foriegn countries.

"We feel we have been a very definite service to the members in handling their Special Pool Cotton as we have given them the benefit of the direct mill sales and correct grading on their cotton," Mr. Northington said. "Last season was our first year in handling Special Pool cotton for our members so we naturally anticipated more or less confusion. However, we handled this Special Pool cotton without any delay in settlements and are in much better shape this season to render greater service to the farmers.

"When a member sells his cotton through his cooperative Association he is assured of correct grades, weights, and full market value for his cotton the day it is sold," Mr. Northington stated.

Mr. and Mrs. J. C. Funderburk and attractive daughter, Corrine, of Ft. Worth, Texas are guests of Mr. and Mr. J. C. Calloway on Seventh St.

M. sell for cash and accrued interest to date Eight Thousand Dollars ($8,000.00) Clanton, Alabama Public School Bonds. Said bonds to be in the sum of $1,000.00 each and to draw 6 per cent interest thereon from the first day of June 1928. Said last named date being the date of said Bonds and said bonds mature on the first day of June, 1946.

This the 23rd day of August, 1928.

J. B. ATKINSON, Mayor.
J. H. PLIER, Clerk.

NOTICE OF SPECIAL ELECTION

STATE OF ALABAMA,
CHILTON COUNTY,
CITY OF CLANTON.

NOTICE is hereby given that a special election will be held in the City of Clanton, on the 10th. day of September, 1928, at the Courthouse in Clanton, Ala., for the purpose of submitting to the qualified voters of the City of Clanton, for their determination, by ballot, whether or not the sale of the water works plant of the City of Clanton shall be authorized for a consideration of not less than Forty-six Thousand Three Hundred Eighty-one Dollars, ($46,381.00) payment of such purchase price to be made by the assumption by the purchaser of the existing bonded indebtedness, incurred in the construction of such water works plant, to an amount not exceeding $25,000 and the accrued interest thereon since the last interest paying date, and the balance to be paid in cash.

The City Council having passed a Resolution to the effect that it is to the best interests of the City of Clanton that such sale be made, and has fixed the above named sum as a minimum price at which the sale should be had.

All qualified voters under the laws of this State, who are resident citizens of the City of Clanton, may vote in such election.

G. O. Foshee, M. L. White, and W. D. Spigener have been appointed managers, and Mrs. J. D. Armstrong, and N. L. Roberts have been appointed Clerk, and J. A. Boockholdt, has been appointed Returning Officer of such election, and such election shall be conducted in all respects as municipal elections are conducted in the State of Alabama.

J. B. ATKINSON,
Mayor, Clanton, Alabama.

STATE CAPITOL NEWS

The alarming increase in crime in this country is attracting the serious attention of many of the nation's best legal minds, and there is a widespread demand for simplification of Court procedure in criminal cases and the elimination of legal technicalities, as one means of combatting the crime wave. Alabama is fortunate as compared with many other states having big cities and large foreign population, where criminals work in well organized gangs before which the law seems powerless, and gunmen armed with the most modern implements of warfare wage open war upon the streets. Nethertheless, the increase in crime in this State has been pronounced by those who study the question as most disquieting, and demanding energectic action to stop it and protect the lives and properties of the law abiding citizens who make up the great bulk of the state's population. Recent statistics show that the number of committments to the jails of Alabama is rapidly increasing, and a demand is arising for elimination of legal technical loopholes which tend to hamper the enforcement of the law.

This question will be an issue of first importance in the next gubernatorial campaign. While in Montgomery recently Lietenant-Governor W. C. Davis of Jasper stated that in due time he will make formal announcement of his candidacy for governor, and urge as one of the major issues:

"Such reform and simplification of criminal procedure as will enable the courts to expeditiously and effectively administer the criminal laws of Alabama."

In this connection, Mr. Davis called attention to the fact that there is now more crimein this country than in any other civilized country in the world; that during the last ten years almost as many people have been murdered in the U. S. as were killed on both sides during the Civil War. He further stated that the higher crimes committed in the U. S. and the expenses incident thereto, during each year several times exceeded in number th aggregate of crimes in England, Scotland, Wales, Germany and France combined.

Mr. Davis also said that the elimination of technicalities from criminal procedure in Alabama, as has been done in England and many other countries, would only materially reduce crime here, but also in a very substantial way reduce the expense now being incurred in the administration of the criminal laws.

Many will remember that back in 1915 when Lieutenant-Governor Davis, was leading the fight to abolish the convict lease system, he was also chairman of the point judiciary recess committee of the legislature and brought before that body a number of bills simplifying procedure in criminal cases. He has kept up the fight, and contends that the work of that committee was only the beginning of what should be done.

In connection with this interview from Lieutenant-Governor Davis, it is interesting to note that the number of state convicts in Alabama increased in the period from January 1, 1927, to August 1, 1928, by more than one thousand, or from 2,605 to 3,612. This increase is partially attributed, however, to the reduction in number of paroles grantedas compared with the preceding administration. Of greater significance is the tremendous increase in number of committments to the county jails, which represents persons charged with crimes. A report recently submitted to the Governor by Dr. Glen Andrews, State prison inspector, showed that the total number of committments to county jails for the fiscal year ending September 30, 1927, was 37,701, as compared with 28,916 for the fiscal year preceding, an incrase of 8,785 prisoners, or 30 per cent.

"To say the least, this is disquieting, if not startling," Dr. Andrews stated in his report to the governor. "However, an analysis of the committments reveals a still more distressing condition, and one which gives cause for pause and reflection.

"Of the increase noted 4,309 were white men, showing an increase of 33 per cent over the preceding year; 3,540 were negro men, an increase of 28 per cent over the preceding year; 336 were white women, an increase of 34 per cent over the preceding year; 666 were negro women, an increase of 3 percent over the preceding year.

"It is thus seen that the greatest percentage of increase was white women, the next white men, and then negro men and negro women.

"Although the negroes do not constitute half the population of the State only a few years ago they largely exceeded the white in jail population. This condition, however, has sadly changed."

The above does not indicate any improvement as regards obedience to law on the part of the negroes, but the contrary; however, it does indicate that the tendency to lawlessness on the part of the whites has increased in greater ratio .

Dr. Andrews' report shows that there were confined in the county pails 27,042 prisoners during the fiscal year 1915.

"During this year the present state prohibition law went into effect, a large exodus of negroes and others began, the shortage of labor was felt, and other conditions operated to reduce the number of those put into the jails" the report states.

"A marked decrease in the number of committments ensued until there were only 16,456 prisoners in the jails during the fiscal year 1918, when the country was at war.

"From then until the present time, excepting a slight recession for the fiscal years 1922 and 1926, respectively, alluded to above, there has been a gradual and marked increase, until the number of prisoners confined in the jails for the fiscal year 1927 reached 38,685." Of the number listed as confined in jails during 1927, 37,701 were committed to jail during that eyar while the remainder were brought over from the preceding year.

OVER 8,000 LEARN THREE 'R'S' IN STATE OF ALABAMA

More than 4,000 white adults attended opportunity schools in 16 Alabama counties this Summer, a report at the State Department of Education yesterday showed. Enrollment in negro schools totaled 4,838.

The exact number of white adults between 16 years and that ranged in years from 16 to several in the 70's who learned their three R's and rudiments of health and spellling was 4,117. Covington, Geneva, and Lee Counties closed their six weeks' term schools last week. Others will close soon.

Cullman County with 647 enrolled heads the counties. Following are the remaining counties with ther enrollment:

White—Cherokee, 170; Chilton, 209; Clay, 421; Cleburne, 186; Covington, 153; closed last week; Crenshaw, 214; Cullman, 647; Dale, 262; Etowah, 257; Geneva. 402; closed last week; Jackson, 118; Lee, 80; closed last week; Morgan, 177; St. Clair, 220; Walker, 433, and Winston, 177.

A school for the Cajans in Washington County was conducted during the Spring.

—Montgomery Advertiser, Aug. 24.

MT PISGAH NEWS

Our Sunday School at this place is doing nicely at present. There were not as many present last Sunday as we generally have, on account of the bad weather.

We are going to meet the Third Sunday afternoon in this month at 2 o'clock, to organize a Singing Society for the young people. Any one who will come and help us in our singing will be more than welcome.

Mr. and Mrs. William Tatum and family spnt the week end in Prattville visiting relatives.

Misses Merle and Majorie Aldridge spent Sunday with Misses Ruby Dene and Myra Nell Yeargan.

Mr. and Mrs. Jake Henley and children dined with Mr. and Mrs. A. R. Edwards.

Mr. and Mrs. J. L. Holley, Mr. and Mrs. Steve Holley and children, Mr. and Mrs. Jake Henlye, Mr. and Mrs. A. R. Edwards, Messrs Leo Headley and Crawford Williams were all visitors in the home of Mr. I. B. Yeargan Sunday afternoon.

DIZZY

Lost Appetite

Mr. M. F. Fink, of Harrisburg, N. C., says: "It must have been fully twenty-five years ago that I began taking Black-Draught regularly. .

"I was in town one day, and while talking to a friend I stooped over to pick up something. When I straightened up, I felt dizzy. I spoke to him about this and how I had not felt like eating.

"My friend told me to take some Black-Draught. I knew my mother had used it, and so I bought a package. When I got home, I took a good, big dose, and the next night, another. In a few days I felt much better.

"A good many times I have had this dizziness and a bad taste in my mouth, or headaches, and then I take Black-Draught and get better. I do not have to take it very often. We buy from five to seven packages a year." Try it! E-137

Thedford's BLACK-DRAUGHT for Constipation, Indigestion, Biliousness

Mrs. W. J. Rollan and children are visiting relatives in Birmingham this week.

KNOW Your South and be a Partner ... in its Growth ...

Nashville

"Educational Center of The South"

Nashville—a city of 178,000 population—is situated in a section abounding in natural resources. The surrounding country is adapted to diversified farming and Nashville ranks high as a fruit and vegetable market.

Three trunk-line railroads, with the Cumberland River, afford unexcelled shipping facilities.

Nashville is the leading educational center of the South; the leading stove manufacturing center of the South; the largest producer of roasted coffee in the South; manufactures more hardwood flooring than any other city in the United States; is one of the largest stock markets in the South; and the largest brick manufacturing center of the South.

The waterworks and electric light plants are municipally owned. Nashville has 2,500 acres in public parks, 326 miles of water mains, 240 miles of sewers, 90 miles of paved streets, 175 miles of macadam streets.

Visit Nashville, become acquainted with Nashville, and realize for yourself its advantages. I am,

Most cordially yours,

(Signed)

HILARY E. HOWSE

Mayor

What the "OLD RELIABLE" means to NASHVILLE

Nashville is the home of approximately 1,200 employees of this Railroad who earn more than $90,000.00 each month. The L. & N. R. R. also shares in the payment of other employees' salaries whose income totals $119,000.00 per month. Radnor Yard, one of the largest and most modern yards in the South, is located at Nashville.

There are 300 industrial locations on L. & N. tracks in Nashville and the road operates approximately 54 freight trains and 34 passenger trains daily.

THE OLD RELIABLE L&N (LOUISVILLE & NASHVILLE R.R.)

Mrs. Evans Entertains Honoring Miss Lanning

One of the most brilliant and outstanding social affairs of the past week end was the party given by Mrs. J. E. Evans at her home on Second Ave. last Saturday evening honoring Miss Foxye Lanning of Birmingham.

Many interesting games were played and enjoyed during the evening, and at a late hour, delicious sandwiches and iced tea was served by Mrs. Evans, assisted by Mrs. Evans Parrish, Miss Hazel Kreider and Mrs. Willie Jones, to the guests.

Those enjoying this social affair were Misses Gladys Williams, Jean Johnson, Lillian Thompson, Vera Jones Exie and Eugie Baker, Nell Sumner, Myra Johnson, Freedonia Boak, Lois Calloway of Birmingham, Louise McSwain and Foxye Lanning of Birmingham.

Messrs Hollis and Lanier Moore, Elywn Gore, Jim Robrts, Jessie Sam Gowan, William Hester, Paul Cox, Julian Evans, J. D. Evans, Arthur Johnson, Jr., John VanDerveer, Moses Simpson, Edwin Mullins, Sam Upchurch, Ralph Johnston and Billy Smith.

Swimming Party Enjoyed By Younger Set of Clanton

A swimming party given by Miss Mary Frank Smith last Wednesday evening, August 29th, honoring her two visitors, Misses Louise and Mary Braswell of Troy, Ala., was enjoyed by members of the younger set of Clanton.

The party motored to Reynold's swimming pool where swimming and other forms of amusement were enjoyed. Delicious sandwiches and cold drinks were served to the following, Misses Louise McSwain, Elizabeth Johnson, Mary Foshee, Julia Ruth Hester, Mary Frank Smith, Frances Moore, Mary and Louise Braswell of Troy.

Messrs Arthur Johnson, Jr., Earl Ellis, Raymond Smith, Joe Earl Gowan, and Clarke Polk. Acting as chaperones for the party were Mrs. T. M. Dennis and Miss Bertha Dennis.

Mrs. Paul Ousley Hostess To Young Matrons Club

Mrs. Paul Ousley entertained the members of the Young Matrons Sewing Club on last Thursday afternoon at her home on Ninth Street.

Zinnias and dahlias were used in the decoration of the living and dining rooms. Many kinds of fancy work was enjoyed by thoe present until a late hour, when a delicious salad course was served to the following members and guests: Mesdames Joe Higgins, Grady Taylor, Loren Smith, Milton Smith, Flem Higgins, Relious Franklin of Thorsby, Spurgeon Calloway and Marjorine Henley.

H. D. HALE TO OPEN AMUSEMENT PARK WEEK OF SEPT. 17

Among the many things the people of this community have to be proud of is the Milt Tolbert Tent Theatre Company which opens its annual visit here on Monday, September 17th on the Ellis lot. This show is said to be larger, better and one of the largest outdoor theatre organizations in the south.

With a large new outdoor theatre with greatly augmented seating capacity, entirely new and novel stage settings, new seating arrangements and a new lobby front this theatre presents an imposing appearance.

Departing from their usual custom of presenting the customary class of plays shown under the canvas the Tolbert Company this year have secured exclusive rights to some of the most sensational and yet popular plays that have ever been shown to the public of any but the larger Metropolitan theatres.

The opening attraction for Monday night is one of the strongest plays that has ever been shown the American public. A problem of every day life, a vivid portrayal of conditions found in every community, "Other People's Business," in an amusing comedy drama with a moral and stirring story beneath that marks it as a startling revelation of homely truths which strengthen one's character to realize.

This show will appear here under the auspicies of the American Legion.

LOCAL GRAMMAR SCHOOL TO OPEN SEPTEMBER 10TH.

We are requested to state that the Clanton Grammar School will open next Monday, September 10. The committee in charge of arrangements has made the necessary plans to take care of the school until the new building is completed.

Everybody is urged to take note of this important announcement and get the children ready for school next Monday. Tickets for entrance may be secured at Alred Drug Co.

Work on the new building is being pushed with all the rapidity possible.

PARENT-TEACHER ASSOCIATION TO MEET THURSDAY

We have been requested to announce that a meeting of the Chilton County High School Parent-Teachers Association will meet at the High School next Tuesday afternoon at 3:00 o'clock.

At this meeting many important matters will be discussed and everyone who is interested in the welfare of the school is urged to be present.

AIR CLEANER ON AUTOS REMOVES DUST FROM THE AIR

Detroit, Mich., Sept. 3.—Do you know that the air cleaner on automobiles removes the dust from the air, making it purer than that which you yourself breathe? For instance the air cleaner on a Chevrolet reduces the wear on certain moving parts to 17 times less than on cars not equipped with an air cleaner.

Were it not for the air cleaner dust would enter the engine, form on the cylinder walls and soon become thoroughly mixed with the lubricating oil Without an air cleaner the inevitable result would be formation of a grinding compound which, besides attacking the pistons, rings and cylinder walls, would be driven remorselessly into the bearings and other working parts.

Quite often the dust on a good road cannot be seen, but it is there just the same. Motor car wheels constantly grind off particles of road material which are dispersed through the air. These particles viewed under a microscope bear a striking resemblance to a valve grinding compound.

If it were not for the air cleaner, dust and sand would enter the carburetor—even in city driving causing wear on cylinders, rings and pistons.

Analysis of almost any carbon deposit taken from the average engine not air cleaner equipped shows that it contains a considerable amount of hard foreign matter that must have been drawn in through the carburetor. This causing unnecessary repair costs.

The Chevrolet air cleaner is made entirely of metal—has no moving parts —requres no atention. It will last for the lifetime of the car.

The B. Y. P. U. meets each Sunday at seven P. M. at the church. You are invited to attend. Comecarly.

Among the visitors to Clanton from Verbena last Saturday was Mrs. Horace Davis.

EUGENE RUSH COMPLETES FILLING STATION AT LOMAX

Eugene Rush, of Mississippi, formerly of Plantersville, has practically completed the building of a Drive In Filling Station in connection with his home. There will also be a store adjacent to his home behind which there will be a Tourist Camp and he will cater to the tourist trade.

This new structure is approximately two and one-half miles from Clanton, on the Birmingham-Montgomery highway, and is located within the confines of the city limits of Lomax.

Mr. Rush is a civil engineer by profession and his presence in the vicinity will be welcomed by land owners and builders.

This is the second new project to select Lomax as its home within the last few months and the future of this surburb of Clanton appears to be very bright.

MRS. M. LANDE GOES TO MARKET FOR FALL GOODS

Mrs. M. Lande of The Leader, one of Clanton's most up-to-date and progressive dry goods and ready-to-wear stores, left last Monday for the fall markets to purchase her fall stock of ladies ready-to-wear for The Leader.

Before leaving Mrs. Lande stated she intended to purchase the niftiest line of ladies dresses, and coats that has ever been exhibited in Clanton. She also intends to give to this department of The Leader, her undivided attention, and wishes to say to the people to watch for further announcements in the papers.

Mrs. Lande will visit Nashville, St. Louis, and Chicago, and will be gone approximately two weeks. In this issue of the News will be found the ad of The Leader calling attention to some of the bargains they have to offer.

MR. W. C. ROBINSON RETURNS FROM LONG WESTERN TRIP

Mr. W. C. Robinson, one of Clanton's most prominent citizens returned last Saturday from a very extended Western trip. Mr. Robinson had been away for approximately three months, making the trip for his health.

During the trip Mr. Robinson visited thirteen states including New Mexico, Arizona, California, Nevada, Kansas, Idaho, Utah, Colorado, Arkansas, Missouri, Tennessee, Mississippi and Alabama.

Mr. Robinson spent some time in each of these states at the many different points of interest, and says that he still thinks that Alabama is as good as gold. He related several unusual incidents and experiences he ran into, which proved very entertaining.

J. N. GILLIS DIES AT HIS HOME IN BREWTON

News of the death of J. N. Gillis, of Brewton, Ala., was received in Clanton with no small degree of regret, the news having reached here earlier in the week.

Mr. Gillis was widely known as a road builder and contractor and in the past has done much road building in this section.

MR. W. I. MULLINS SLOWLY IMPROVING AFTER ILLNESS

Mr. W. I. Mullins, one of Clanton's oldest and prominent citizens is slowly improving at the time of this writing. Mr. Mullins has been seriously ill for two weeks or more, at his home on Second Avenue.

A special nurse has been in attendance and it is hoped by all Clanton and Chilton County that Mr. Mullins will soon be able to be out again.

MR. E. A. SHIRLEY BOOSTS CENTRAL ALABAMA HOSPITAL

The following letter was received from Mr. E. A. Shirley, and it is high in praise of the local hospital:

"The Central Alabama Hospital, located in Clanton, is a fine place to go for treatment.

They have one of the finest group of nurses that could be afforded any county. They are so kind to their patients until you would feel that it is your own mother nursing you.

The names of the nurses are as follows: Miss Robinson, Mrs. Shaffer, Miss Gentry, Miss Bean, Miss Logan, Miss Pane, and Miss Bice.

The hospital is equipped with everything necessary for the patients' comfort and it is so sanitary. My wife has been there for treatment, I can speak it for the truth. It has a beautiful location, and the environment is ideal also.

Yours truly,
Mr. E. A. Shirley.

RED MEN ENJOY FISH FRY

Tuesday night of last week forty-one members of Waxahatchie Tribe, No. 9, I. O. R. M., and about a dozen invited guests enjoyed a fish fry at Crumpton's Camp on Lake Mitchell. The fish were caught from the lake and prepared by Cary Robinson, the veteran fisherman. Provided with plenty of bread, pickles, coffee, and other condiments, the hungry red men with their paleface friends made quick work of the feast. The spirit of friendliness and good cheer was most appealing and impressive.

After the supper had been dispensed with the Red Men trailed through the forest to a selected spot where the council fire was kindled in true Indian fashion. The chiefs and warriors and braves sat about in a circle while the Sachem conducted a brief business session, and several brief talks were made.

At the conclusion of the council the invocation to the Great Spirit was fittingly made by one of the Chiefs, Rev. M. J. Parrish.

E. E. WINTERS, REPUBLICAN ALL LIFE, FOR ALFRED SMITH

Montgomery, Ala., Sept. 5.—Maj. E. E. Winters, of Montgomery, life-long Republican, and veteran of the Union army in the War between the States, yesterday announced that he would vote for Smith and Robinson.

Maj. Wintrs, in his statement, denounces the anti-Smith Democratic electoral ticket which the Republican party organization in Alabama has accepted, saying that he does not understand "how any self-respecting Republican (unless he be an office holder) can swallow the 'Mugwump' combination."

Maj. Winters cast his first vote for Abraham Lincoln and has been regularly Republican ever since, "but this is more than even a 'hardened sinner' like me can stand."

Maj. Winter's card is a tart condemnation of the Republican leaders of Alabama for yielding to the demands of bolting Democrats that they be allowed to name all of the presidential electors on the ticket. It has been charged that while all of the candidates for elector on the Republican ticket are not klansmen, they were all picked by high klan officials and forced upon Judge Oliver Street, Republican national committeeman from Alabama once noted for his outspoken antipathy for the klan and its methods.

Maj. Winters is a member of the Republican County Executive Committee of Montgomery County, though not active in its affairs at present, and has long been a prominent figure in Republican politics in Alabama. His statement written for the Advertiser, is as follows:

Editor Montgomery Advertiser:

If called upon to choose between the regular "dyed in the wool" Democratic electors representing the two presidential candidates, I shall vote the straight Democratic ticket.

I can't understand how any self-respecting Republican (unless he is an office holder) can swallow 'mugwump' combination.

I cast my first vote for Abrabam Lincoln 64 years ago and have been voting the Republican ticket "early and often" ever sinc, but this is more than even a 'hardened sinner like me can stand."

MISS JUANITA CONNATSER WITH SMITH'S STORE HERE

Miss Juanita Connatser, who will be a member of the Thomas Junior High School faculty again this year during the 1928-29 terms, has accepted a position with Smith's, one of Clanton's popular ladies' ready-to-wear stores.

Miss Connatser invites her friends to call and see her at her new location.

You can buy this safe motor oil by the quart at any Pan-Am Station; or in the handy five- and one-gallon tins shown here

Paraffin-base crudes Make It SAFE

Pan-Am motor oil protects your car under all driving conditions, because it is refined from pure paraffin-base crudes. Nature has given this type of petroleum exceptional qualities. It produces the toughest, sturdiest motor oil known.

Moreover, Pan-Am motor oil is refined with unusual care. Its specifications are similar in all respects to those set up by the leading automotive engineers as the ideal lubricant for modern motors.

Fill up, today, at the first Pan-Am station you see. Every dealer has a scientifically prepared chart showing just the right grade of this *safe* motor oil to protect *your* car.

RAYMOND MIMS GOES TO UNIVERSITY OF ALABAMA

Raymond Mims, son of Hon. J. Z. Mims of Clanton, will leave next Monday to nter the University of Alabama.

Raymond is one of Clanton's young men who has won the confidence of the people by his clean and upright life. He is liked for his straight-forward, quiet and honest living, and the News predicts that he will make good at the University, just as he has in his home town, and wishes him a very pleasant stay at "old Alabama."

MR. AND MRS. FUNDERBURK VISITING RELATIVES HERE

Mr. and Mrs. J. C. Funderburk and daughter Corinne, of Ft. Worth, Tex., who have been in Clanton visiting relatives for the past week returned to their home today.

Mr. and Mrs. Funderburk were at one time residents of Chilton County and have numerous friends here. This is their first visit to Clanton in six or seven years. Mrs. Funderburk is a daughter of Mr. and Mrs. J. C. Calloway of Clanton.

EYES TROUBLE YOU?

I specialize in the examination of eyes and will tell you honestly whether glasses are needed or not. Protect yourself against defective vision. Attend to this matter at your first opportunity.

CROSS EYED CHILDREN!

Special attention will be given to children with cross eyes regardless of age and proper attention in time will avoid permanent crossing of the eyes. Bring your children for examination.

I WILL BE IN CLANTON THE LAST MONDAY IN EACH MONTH AT THE EXCHANGE HOTEL

DR. S. A. BARSON
Optometrist

404-6 First Nat'l Bank Bldg. Montgomery, Ala.

REAL ANTIQUE BEDSTEAD AT LITTLE PAINT STORE

Quite often one hears the remark that this or that is an antique piece of furniture, but if you desire to see a piece of real antique furniture, you should call at the Little Paint Store, which is operated by P. G. Marcus and see a home-made bed stead. This piece of furniture was brought by its owner, Mr. D. C. Littlefield, to the above store last week, and will be repainted and kept at the store on display several days.

The piece of furniture is 127 years old, according to the best information obtainable. It was formerly owned by Mr. Bill Burnett, of Calera, and was originally the property of Mr. Burnett's father, who died several years ago, at the age of 120 years old, so we were told.

The entire piece of furniture indicates that the maker of the bedstead was indeed a mechanic. All ornaments were the result of hand work, and as we know, crude implements for such work in those days were all that the old timers had. The fact that it has maintained its appearance in such a wonderful way is an indication that the one who made it, knew wood and had a good knowledge of the art of woodcraft.

MISS LOUISE ROGERS, OF BIRMINGHAM IN CLANTON

Miss Louise Rogers of Birmingham arrived in Clanton this week and is acting superintendent of the Central Alabama Hospital during the absence of Miss Grace Robinson, who is away on her vacation. Miss Rogers is a graduate nurse, having completed her studies at Norwood Hospital in Birmingham, in the class of 1922.

MILFORD SMITH GETS FIVE YEAR FOR MANSLAUGHTER

Milford Smith, who was charged with manslaughter in the First Degree was tried in the Circuit Court last week and resulted in a verdict finding the defendant guilty as charged and fixing his punishmeent at five years in the state penitentiary.

Milford Smith, was charged with the killing of Charlie Smith, some few months ago. It developed that the defendant was charged with having struck the deceased with a fence rail or a part of fence rail, and from this blow the deceased died. Notice of appeal was given in the case by the defendant's attorney, Hon. L. F. Gerald.

MISS GRACE ROBINSON LEFT TUESDAY ON VACATION

Miss Grace Robinson, superintendent of the Central Alabama Hospital, left Tuesday morning for a two weeks vacation to be spent in Cordova, Ala. Miss Robinson is a graduate nurse and a home girl, who has made good in her profession.

MRS LEMUEL B. GREEN TO RETURN FROM HOSPITAL

Mrs. Lemuel B. Green, who has been in a Montgomery hospital since August 27, is expected to return home this week. The many friends of Mrs. Green will be delighted to know that she is able to return home.

FOR WORKING PEOPLE

The best of workers get out of sorts when the liver fails to act. They feel languid, half-sick, "blue" and discouraged and think they are getting lazy. Neglect of these symptoms might result in a sick spell, therefore the sensible course is to take a dose or two of Herbine. It is just the medicine needed to purify the system and restore the vim and ambition of health. Price 60c. Sold by

UPCHURCH DRUG CO.

Football Activities Now Underway Here

Many Bright Prospects In Evidence For This Season

The football activities of the Chilton County High School began to take place on the high school field here last Monday. There were approximately thirty men out on the first afternoon, practically all of whom meant business.

From the last year's team of the local school, there are eight lettered men out this time, with two more to report later. These men are in fine shape, perhaps even better than last year, and still show the fighting spirit they had in their games during the past term. The lettered men from last year's team are: Jim Roberts, Captain; Edwin Bruner, Alt., Cap.; Douglas Nelson, Courtland Retherford, Benson Simms, Moses Simpson, Jim Wade and Jesse Sam Gowan. All the above men have reported, the two who have not yet reported are "Swifty" Martin and Samuel Martin. These two are expected to report right away.

On the Reserve Team from last year are, Ruphus Brown, Edwin Wagoner, Grover Harris, Bill Minor, Vernon Baker, Ralph Johnston, Harvey Melton, Alvin Stinson, R. J. Jones and Beecher Finley. These men came out last year and fought and stuck with the bunch and are now showing up fine.

The new men who reported to Coach O. V. Bruner this season are: Douglas Green, Ernest Meeks, Paulk, Chester Wingard, and Bob Sumner. From many angles these new men have many good points and seem eager to develop them.

From observation, the men on the line who are showing up well in the practice lately are: Brown, Roberts, Wagoner, Retherford and Wade. Coach Bruner states that he has two extra fine backfields, one which is a heavy duty, hard hitting and hard driving backfield composed of Bruner, Nelson, Simms and Melton.

Then Coach Bruner has a light, fast, keen and speedy backfield composed of Minor, Baker, Sumner, and M. Simpson. All these men have unusual speed, as well as the heavy backfield has.

According to information, Meeks, who is a newcomer to the high school this year, was on the reserve team of Alexander City during the past season and seems very energectic.

Coach Bruner states that the first game of the season is scheduled with the Isabella team on September 28th, and will be played here. Isabella turned out a good team last year, and no doubt that it has been improved to such an extent that Chilton High will have to fight hard to come out on top.

A strong schedule has already been made out according to Coach Bruner. Among the teams on the schedule are Alexander City, Selma, Lanier High of Montgomery, Sylacauga, and dates are pending on Lineville, Greenvile, Marbury, Verbena, Centreville, Rockford and Dadeville.

Each afternoon sees the Chilton High boys out on the field and Coach Bruner carries them through many strenous forms of practice so that nothing shall be lacking even though the opposing team may have the local boys outweighed or out-classed in other ways. Coach Bruner has had many years experience in the making of football teams that stand out for thier Honor and clean way of playing the game, and their ability to win, or loose with a good spirit of sportsmanship.

PREACHING AT THE METHODIST CHURCH NEXT SUNDAY

There will be preaching at the Methodist Church both morning and evening, next Sunday by the pastor, Rev. L. B. Green. The morning subject will be "The Price of Peace and the Outlawing of War" Sunday School at 9:45 a. m. Epworth League at 6:45 p. m. The topic will be "The Character of the Community."

ANTI-SMITH DEMOCRATIC MEETING TO BE HERE SEPT. 6

There will be an Anti-Smith Democratic organization meeting at the Court House at 7:30 p. m. on Thursday the 6th of September. The State Committee is sending a speaker from Birmingham. We are requested to say that all Democrats both ladies and gentlemen are invited to attend.

COTTON ASSOCIATION HANDLING COTTON FOR IMMEDIATE SALE

YOU CAN now handle your cotton through the Alabama Farm Bureau Cotton Association almost any way you desire. You may take your receipts or bill of lading to your local bank, attach them to a Special Pool draft on the Association for the regular advance. Then ask your banker, fieldman or Farm Bureau Secretary to call the Association and have your cotton sold that day. You will get full settlement as soon as your receipts and samples reach the Montgomery office; or you may place your cotton in the Special Pool, as above, and order it sold any time thereafter the price is satisfactory to you; or you may place your cotton in the regular Annual Pool where it will be handled as in the past.

By this method of handling your cotton you are assured correct grades, weights and the full market value the day you sell your cotton.

Charges for storage, insurance and interest are made only for the time the Association carries your cotton. On cotton for immediate sale you only pay for one month's storage which is usually 50c per bale. The only other cost will be $1.50 per bale which covers the service of the Association in grading, stapling, handling and selling. These costs are lower than you can get the same service elsewhere.

Sell your cotton with producers and not against them. This is the only organization in Alabama working for higher price for cotton.

See your banker, county fieldman or come into the office and let us explain to you.

IT WILL MEAN MORE MONEY FOR YOUR COTTON

Farm Demonstration Dept.

(By C. E. Stapp, County Agent)

MR. O. C. PAULK COMES WITH COUNTY FARM BUREAU

Mr. O. C. Paulk, who was employed last year by the Isabella High School, has recently been employed jointly by the Alabama Farm Bureau and the Chilton County Farm Bureau to work in Chilton County. Mr. Paulk has already taken up his duties as Farm Bureau Field Man for Chilton County. with headquarters in the County Agent's office.

Mr. Paulk is very enthusiastic over the Farm Bureau work and has hopes of increasing the membership of the organization to about fifteen hundred members within the next year.

The Chilton County Bureau officials are: J. N. Dennis, pres.; W. L. Popwell, vice-pres.; H. G. Boyd, (Peoples Saving Bank) sec-treas.

The directors are: T. Frank Patterson, J. Sid Weldon, Howard R. Oden, L. G. Posey, I. M. Deason, W. M. Oden, E. C. Mims, O. H. McDowell.

The Farm Bureau is a nation-wide non secret, non sectarian, but business organization of farmers and for farmers. The Alabama Farm Bureau is composed of more than twenty thousand of Alabama's best farmers and last year the state office did more than fourteen million dollars worth of business.

Mr. Stapp's connection with the Farm Bureau is that of an advisor or manager. Mr. Stapp thinks that every good farmer should investigate the policies of the Farm Bureau and he fully believes that everyone who investigates thoroughly will rally to its support.

THE HOME ORCHARD IN CHILTON COUNTY

A good Home Orchard is entitled to a place on every farm in Chilton County, to produce fruit for the family, to increase cash income, to increase health, to improve the landscape and to make farm life better. The primary object should be to raise enough good fruit for the family.

Limited space here will not permit writing about the many important steps necessary for you to make in order to have a good orchard, but if you will call at the office or write to your County Agent he will gladly advise with you and give to you a recently published bulletin on The Home Orchard In Alabama. I consider this bulletin very practical and worth many dollars to any one who will follow it in making a Home Orchard.

I am arranging with the Chilton County Farm Bureau for them to buy fruit trees this fall in large quantities from good nurseries in order that the farmers may be assured of good clean trees and plants at low prices. If you expect to put out a Home Orchard this fall see your County Agent about it before you start unless you feel sure you are able to handle the problems in making and keeping a good orchard.

6500 ALABAMA COWS ARE BEING OFFICIALLY TESTED

Auburn, Ala., Sept. 3.—In Alabama 6500 cows are to be officially tested during 1928-29. These cows are owned by dairymen in seven cow-testing associations, four of which make bi-monthly tests and three make monthly tests.

The newest association in the state is the Gulf Coast Cow Testing Association composed of 35 dairymen in Mobile and Baldwin Counties. They own 1000 cows. Jim VanAntwerp of Mobile is president.

This work according to F. W. Burns, extension livestock specialist at Auburn, and L. H. Stinnett, who is in charge of testing, is enabling dairymen to make many improvements in the way of getting rid of non-profitable cows, changing their feeding practices and methods and doing other things to enlarge their net income.

The associations are organized and operated in cooperation with the county agents. A trained tester is in charge of each association. He visits the herd of each owner, makes tests, and also makes observations and recommendations regarding the herd, its feeding, and management.

"Through these associations," said Mr. Burns, "dairying in Alabama is being placed on a more profitable basis Dairymen who are not members are affected by the work, causing it to be far-reaching in value. Our plan is to organize other associations as there are opportunities and as it is feasible to do so."

THE MANAGEMENT OF

THORSBY INSTITUTE

Wants a few more Girls and Boys of clean habits and earnest purpose to fill vacancies in its Boarding Department for the coming year. Term opens Wednesday, September 12.

Ideals High---Expenses Low

Opportunity to work part of way if necessary. Only twenty per cent of Alabama's High Schools are fully accredited. We are of that 20 per cent. Write for information or call on us.

Take notice that under the 1923 Revenue Code it is the duty of every person in each Election Precinct to attend in person on the day of the appointment in your Precinct and then and there render to the Assessor a full and complete list of all the property of which he or she was owner on the first day of October of that year. All taxes and assessments are delinquent after December 31st, 1928.

J. T. ROCKETT, Tax Collector.

S. M. PATE, Tax Assessor.

HAVE YOU A GOOD TURNIP PATCH

WATCH YOUR TURNIP GREENS FOR PLANT LICE. You can kill plant lice by spraying your greens with a Nicotine solution or with an emulsion of soap and Kerosene oil. Use one ounce of Nicotine to six gallons of water and spray on under side of leaves. You may use a good spray pump or you may take some of the mixture in a two gallon bucket and use an old broom or pinetops to dip in the bucket and just sweep the greens so as to get the solution on the under side of the leaves. You can get the Nicotine at the drug stores or at my office. If you wish to, you may use the following mixture as directed for the Nicotine:

Disolve one pound of soap in one gallon of water and add two gallons of kerosene oil and stir well. This is known as your stock solution. When ready to use take one part of this stock solution and mix thoroughly with eighteen or twenty parts of water and spray.

BRIEFLY SAID

Poor soil is a challenge to the owner to make it rich.

Cotton ginned when it is wet makes a bad sample and brings a lower price.

More and more the farmer who makes money farming must produce on a large scale.

A farmer can make a bale of cotton per acre and fail to make money by not having enough acres.

When pastures get short feed dairy cows should be added to maintain milk production.

It is probable that hens which seem to be picking themselves early in the morning are trying to get rid of lice. Ask your county or home agent how to get rid of them.

There are farmers in Alabama who live many miles from a town or railroad, but radio will reach them with the best in music, news and information if they have a good receiving set. The farmer who forms a working acquaintance with Mr. Hairy Vetch this fall will appreciate his friend when he sees the fine crop of either corn or cotton that follows.

It is a mistake to keep unprofitable hens in a flock and let them eat expensive feed and occupy space needed by others. A thorough culling of each and every flock immediately will save thousands of dollars in Alabama alone during the approaching winter.

"What's your car, a five-passenger?" "Yes, but I can get eight in it if they are well acquainted."

Now that Gene Tunney has disposed of the heavyweight visitor from New Zealand, we can focus our attention on the next big scrap on the calendar—that between Republican Herbert Hoover and Democrat Alfred Smith.

Fresh shipment Landreth Turnip Seed now for sale.—UPCHURCH DRUG CO.

Chilton County Abstract Co.

M. D. FOSHEE, Manager

A good business man will not buy a farm or any property without first looking it over to see what it is worth.

However, some will buy or loan money on land without an abstract.

Isn't it equally as foolish to buy a farm without looking it over as to buy it and not know whether the titles are good or not? Without an abstract you do not know where you are getting the land you look at or not.

Before investing in land in any way have an abstract made and be safe.

Admission 15 and 25 cents.

BROADCASTING STATION BEING ERECTED AT BIRMINGHAM

At a recent electrical meeting it was definitely decided that there will be in operation in Birmingham in the early fall, a powerful 5,000 watt broadcasting station has arrived and is now being tion, which is of a new type, will be equal to any of the present 10,000 Watt stations now in operation.

This new station will be operated by the city of Birmingham, the State of Alabama, and the University at Auburn, jointly, according to reports.

There will be broadcasted, day and night, not only musical programs of the best, but farm reports, agricultural lectures, weather reports, and in fact, all events of interest. According to latest reports, the equipment for this new staation has arrived and is now being erected and will be Alabama's big broadcasting station.

MR. ED MOATTS AND FAMILY MOVE TO BIRMINGHAM

Mr. Ed Moatts, who has recently been employed by the Clanton Laundry and Cleaning Company, has accepted a position in Birmingham. Mr. Moatts rented the pretty bungalow belonging to Mrs. Claude Reynold's in that city, and removed his family there during last week.

MILT TOLBERT SHOW HERE ALL NEXT WEEK

Tolbert Show Comes Here Under Auspicies Of The American Legion

The Milt Tolbert Tent Theatre Company, said to be the largest outdoor theatre organization in the South, will open its engagement in Clanton, Monday, September 17th. The show will be here one week.

Within a large outdoor theatre capacity, entirely new and novel stage settings, new seating arrangements and a new lobby this theatre presents an imposing appearance.

Departing from the usual custom of presenting the customary class of plays shown under canvas, the Tolbert Company has secured exclusive rights to some of the most sensational and yet popular plays that have been shown to the public of any but the large metropolitan theatres.

The opening attraction for Monday night is one of the strongest plays that has been shown to the American people. A problem of every day life, a portrayal of conditions found in every community, "Other People's Business" is an amusing comedy drama with a moral and stirring story beneath that marks it as a startling revelation of homely truths which strengthens ones character to realize.

A feature of the Tolbert Show is the practice of admitting ladies free on opening night. One lady will be admitted with a paid admission. Two ladies on one ticket or one gentleman and one lady on one ticket or one boy, and it makes it possible for every man, woman and child in the community to take advantage of this offer.

This show will be on the Ellis lot. It is sponsored by the local Porter Plier post of the American Legion.

BAKER JR. HIGH SCHOOL TO OPEN MONDAY, OCTOBER 1

The Baker Junior High School will open on Monday, October 1st, at eight o'clock. Rev. H. L. Tate and other prominent speakers will deliver addresses. All parents and friends of the school are urgently requested to be present at the opening exercises.

The faculty for the coming year is composed of the following teachers, who will do departmental work: W. E. Martin, principal; mathematics, history and penmanship; Mrs. C. L. Cates, English, literature and spelling; Miss Frances Lowery, geography and health Miss Gertie Baker, first and second grades; music teacher to be supplied.

T. L. WILLIAMS NOT ELIGIBLE TO SERVE AS COUNCILMAN

Recently in qualifying candidates for the office of councilmen for the town of Clanton, friends of Mr. T. L. Williams qualifed him as a candidate.

Mr. Williams states that he appreciates the honor bestowed upon him, but that owing to his position, he is not eligible to serve, and therefore asks that his friends disregard his name when voting in the municipal election to be held on the 17th. of this month.

This is the second of the twelve, whose names appear on the ticket who will not be eligible, Mr. W. W. (Bud) Jones, being the other. Mr. Jones with his family has moved to Auburn, since friends qualified him.

Miss Mary Ellis left last Tuesday for Marion, where she will enter Judson College. Miss Ellis was a student at Judson during the past term also.

YELLOW ON BLACK TO BE COLOR OF NEW AUTO TAGS

Montgomery, Ala., Sept. 10.—Yellow numbers, splashed on a background of black, will be the color scheme of Alabama's automobile license tags this year. It is just the reverse of last year's color arrangemeent.

Approximately 60,000 tags will be issued in Jefferson County alone, an increase of 4,000 over last pear. The tags are made by inmates of Kilby Prison. Truck owners must obtain tags during October, but owners of private cars will have until Nov. 14.

Tags have four classifications: Class "A" including cars of 25 horsepower or less, $11.75; class "B", 25 to 30 horsepower, $19.25; class "C", 30 to 40 horsepower, $26.75; class "D," more than 40 horsepower, $30.50.

Mr. W. T. Baker and daughter Exie, returned last Sunday from Hackelburg, Ala., where they had been visiting relatives and friends for several days.

Seaborn Jones Family Reunion Attended By Many

An event long to be remembered by many was the family reunion of Mr. and Mrs. Seaborn Jones, which was held at Isabella Church on September 9th.

In attendance at this reunion were relatives of Mr. and Mrs. Jones, children, great-grandchildren, brothers, sisters uncles, aunts, grand children, cousins, and in fact, any kind of relative one might mention, was to be found in this large number of people who had gathered there to honor Mr. and Mrs. Seaborn Jones.

After all had gathered in the grove near the Church, a bounteous luncheon was spread, which proved to be one of the most interesting events of the day. Those in attendance state that it would have been impossible to serve a more palatable luncheon.

Among those who were in attendance were: Mr. and Mrs. R. J. Jones and family of Clanton; Mr. and Mrs. B. E. Jones and family, Montgomery; Mr. and Mrs. S. D. Jones, Macedonia; Mr. and Mrs. C. E. Jones,; Mr. J. H. Davenport; Mr. and Mrs. Crit Jones and daughter, Lock 12; Mr. and Mrs. Herbert Wright and family, Birmingham; W. L. Lenoir and family, Jemison; W. F. DeShazo; Mr. and Mrs. W. T. Bean and family, Clanton; Mr. and Mrs. W. D. DeShazo; Mr. and Mrs. W. D. Vines and family, Selma; Mrs. F. L. Martin and son, Gulfport, Miss.; Mr. and Mrs. B. L. Jones and family, Clanton; Mr. R. J. Williams; Mr. and Mrs. Tom Cost, Jemison; Mr. and Mrs. H. R. Oden and family; Mr. and Mrs. O. M. Huggins, and family, Birmingham; Mr. and Mrs. John Bowden and family, Dolomitte; Mr. J. S. Williams; Mr. and Mrs. J. P. Nix and family, Jemison; Mr. J. W. Carter; Mr. W. H. Veazey; Mr. C. E. Jones; Mr. and Mrs. Earl Thomas and family, Mr. O. O. Caffey; Mr C. O. Jones, Clanton; Mr. S. M. Jones; Mr. C. B. Lenoir; Mr Silas Oden; Mr. and Mrs. N. A. Day, Selma; L. E. Sherman; Mrs Clyde Jones and two daughters, Clanton; Mr. T. L. Lecroy.

Big Feature Film At Wadesonian Theatre Sept. 24-25

A new field of endeavor has been opened to directors of motion pictures, with the era of aviation pictures. William Wellman, who directed "Wings" and "The Legion of the Condemned" the latter, production coming to the Wadesonian Theatre, Clanton, Monday and Tuesday, September 24th and 25th, is the first director to become known as the "air director."

With the exploits of Col. Charles Lindbergh, and others, the country has been awakened to the possibilities of aviation, and the subject of air defence has been brought home with a forcible character. Lindbergh proved General William Mitchell's contention: that the next war will be fought in the air, and the only way in which a nation will survive in the next conflict is to have adequate air defence, is right.

To begin with, Wellman is an air man. He served overseas with the Lafayette Escadrille, the most famous aerial organization born of the war, and was invalided home in 1915 because of wounds. There is a saying among aviators, that once an airman always an air man, and when Wellman became engaged in motion picture work, he always had an ambition to give to the screen a true account of what the life of an aviator in the war was. J. Monk Saunders, himself an aviation instructor during the War, and who is an author of no little repute, wrote the story entitled "Wings" and Paramount produced it. It was a sensation because of the remarkable technical authenticity.

So encouraged with the results was Paramount, that permission was given to the two men to produce a second aviation picture, and this, "The Legion of the Condemned" is the result. With experience gained from their previous work, the latest air picture is said to rival closely the master production.

As a result of these two air pictures film folk have become convinced that aviation offers an opportunity to directors in this field of work. Wellman predicts that directors in the future will be confined to this branch alone. Wellman is looked upon as the father of them all.

Gary Cooper and Fay Wray play the leading parts in the picture, and are said to have registered one of their greatest successes of their careers.

Associational Sunday School Convention Meets Sept. 23

3:15 P. M.—Business Session.

3:30 P. M.—Adjournment.

Every Sunday School in the two Associations is urged to send representatives to this meeting.—Committee.

CHANGE IN HOUR OF SERVICES AT BAPTIST CHURCH

We have been requested to announce that the regular Sunday evening services at the local Baptist Church will begin at seven-thirty o'clock in the future, and the B. Y. P. U. will meet each Sunday evening at six-thirty o'clock instead of at seven as in the past.

These changes will take place next Sunday, September 16.

SINGING AT SHILOH NEXT SUNDAY, SEPTEMBER 19TH

Since the secretary has failed to write a report of our singing for the past two months, we think it necessary to announce our singing for next Sunday, P. M. Seept. 19.

In addition to the class singing, the Clanton Quartette has promised to be with us. Only those who have had the pleasure of hearing this splendid band of singers can know what a wonderful opportunity will be afforded us next Sunday. Let's show them our appreciation of their coming by making every effort possible to be present. Everyone come and bring your books.

—A Subscriber.

L. & N. CARPENTERS REPAIRING DEPOT AND HOUSES

For the past week or so, carpenters of the Louisville and Nashville Railroad Company, have been engaged in the repairing and remodeling of the L. & N. depot here.

The large platform of the depot has been practically rebuilt, and the carpenters are also doing some repair work on the houses belonging to the railroad company.

RADCLIFFE CHAUTAUQUA TO BE AT MAPLESVILLE

Annual Event Promises Bigger and Better Program Than Ever

The Radcliffe Chautauqua begins a series of programs at Maplesville, Sept. 14, 15, and 17th with two programs daily. This bit of information will be received with no little interest by all lovers of real high class entertainment, and no doubt, a large number from Clanton will attend the programs during the three-day session.

According to phamplets issued, the program at Maplesville beginning tomorrow, Friday, will be as follows:

First Day

Opening concert—Neil Patterson's Scotch Highlanders.

Evening Third Day

Lecture—Dr. Albert M. Hyde "Riches We Bestow."

Closing Entertinment—The Dietrics, Magcians.

COURTESY SHOWN MRS. L. C. REYNOLDS BY L. & N.R. R. CO.

Mrs. L. C. Reynolds has recently received a letter from Mr. Thomas Owens, of Louisville, Ky., editor of the Louisville and Nashville Magazine, informing her that her name had just been added to the permanent complimentary mailing list of their splendid magazine, which is published only for employees of the L. & N. Railway.

Mrs. Reynolds' father, Sidney A. Johnson, served for forty years with the L. & N. and at the time of his death a few years ago, was conductor on the Pan American, and was one of the Company's most valued employees. Mrs. Reynolds appreciated very much this courtesy from the higher officials of the L. & N.

Alabama State Fair Only Two Months Off

Secretary-Manager Rosewald Spared No Expense In Booking Program

Montgomery, Ala., Sept. 10.—The State Fair of Alabama now is just two months in distance and the arrival of September finds the stage virtually set for the big 1928 exposition. Secretary-Manager Simon Rosewald, has been busy with plans for the 1928 fair for exactly ten months as he had begun laying the ground work for "Alabama's greatest fair before the last spectator had filed out of the big grandstand last November.

The fair this year will be staged upon approximately the same dates last year. The fair will run eight days, opening on Monday, November 5, and closing Monday night, November 12. Since Armistice day falls upon Sunday this year, the monster celebration planned by fair officials will be held on Monday, the 12th, instead.

In booking his entertainment program for this year, Secretary-Manager Rosewald, spared no expense. As a result the amusement features this year surpass those of any previous fair with considerable room to spare. With the big Rubin and Cherry Shows ruling the enlarged midway, four nationally famous acts on the free grandstand program, the Brilliant Winter Garden Reveu each evening, the Chicago Cadet Band for music makers, five days of running races and two days of automobile races, and fireworks several evenings, the State Fair of Alabama will offer a continuous whirl of high class amusement this year.

Indications point to the finest group of exhibits ever entered in a fair here. Particular attention is being paid to the dairy cattle division, while scores of pen reservations have been made in all livestock divisions. The farm and agricultural sections, the women's department, negro department and others will be packed with interesting and instructive displays.

J. T. NOLAN INJURED IN ACCIDENT LAST SUNDAY

Mr. J. T. Nolan of Montgomery was injured last Sunday night when the car he was driving struck a manhead of a sewer on Sixth Street, at the intersection of Third Avenue near the Masonic Hall.

The manhead was projecting above the level of the street something like a foot or more. This being caused by the grading which is being done at that intersection for the Selma highway.

Mr. Nolan's car struck the sewer, causing the steering apparatus to become disconnected, throwing the car to one side of the street and turning over several times, before striking a tree. Mr. Nolan was thrown from the car against a fence and received several bad cuts and bruises. He is an employee of the Dixie Construction Co. The car, a Ford sedan, was badly damaged according to information given us.

Mr. Nolan states that there was no light nor other warning at the sewer at the time the accident occurred.

CAKE SALE TO BE HELD AT HILL'S NEXT SATURDAY

We have been requested to announce that a cake sale will be held at Hill Grocery Co. on next Saturday, September 15th, all day.

The sale is for the benefit of the Clanton Public Library, which is being reopened, and is located in the new Mullins Building on Seventh Street. The Library has been open for the past several Saturday afternoons and we are informed that it will continue to be open each Saturday hereafter, by the members of the Study Club who are in charge of the Library.

The cake sale next Saturday will be in charge of some competent person. All the cakes are to be baked by different ladies of Clanton. This is a fine chance to aid the ladies of the Clanton Study Club who are working so faithfully and diligently to keep the library going. The cakes will be reasonably priced, so we are informed and you should be there early to get yours.

Mrs. W. C. Robinson and daughter Alma, and son Gaston, motored to Marion last Friday. Gaston will enter Marion Institute for the coming term. Mrs. Robinson and Alma returned via Montgomery Friday afternoon.

POLK BROTHERS ERECTING NEW WAREHOUSE FOR CARS

The Polk Brothers Motor Co., Inc., local dealers for Chevrolet cars, are building another warehouse for the storage of new cars. This new storage place is being built onto the rear of the Robinson Machine Shop, which is next to Polk Brothers Motor Company building.

Carpenters began work on the addition last week and it is expected that it will be completed within the coming week.

Polk Brothers Motor Company, Inc., have recently added to their efficient force, a most competent sales manager, in the person of Mr. C. A. Sherrod of Birmingham, Ala.

Mr. Sherrod has moved his family here, and now makes his home in one of the houses belonging to Mr. W. A. Reynolds near the Chilton County High School. He comes to Polk Brothers highly recommended, having won and kept a place in the Chevrolet 72 club, while connected with the Edwards Motor Company of Birmingham, from where he came to accept the position with the local Chevrolet dealers. Mr. Sherrod has been connected with the Edwards Motor Company for the past three years, and held his membership in the 72 car club during those three years, which means that he has sold a total of not less than seventy-two cars each year.

In Mr. Sherrod's possession are models awarded to him by the Chevrolet Company for excellent salesmanship on their cars. It is our opinion that the progressive firm of Polk Brothers Motor Company, Inc., are to be congratulated that they have been so fortunate in securing the services of such a man as Mr. Sherrod into their organization.

MUSIC DEPARTMENT AT C. C. H. S. PROGRESSING FINE

The Music Department of the Chilton County High School has begun work in a most enthusiastic manner. Besides the piano and voice work, a Glee Club and a Junior Music Club is a part of the organization.

Special effort to improve the singing at the assembly is being made.

We are striving for an all-round first class music department. The good material in the school should be utilized and the beginning this session is most encouraging. We hope to put on good entertainments from time to time in which the public will be most cordially invited.

The music teacher desires and feels assured of the co-operation of the pa[illegible] of the school.

REGISTER'S SALE

In the Circuit Court of Chilton County, Alabama, in Equity.

Hattie M. Gerald, et al. Complainant

vs

Guy H. Gerald, et al. Respondent.

By virtue of a decree in the above stated cause, rendered on the 8th. day of September, 1928, by the Circuit Court, in Equity, to satisfy said decree, I will sell to the highest and best bidder for cash, at public sale, at the Court House door of said County, between the hours of 11 o'clock A. M. and 4 o'clock P. M. on Wednesday, the 26th day of September, 1928, the following described property, viz:

The Northeast-quarter of the Northeast-quarter, of the Northwest-quarter of Section Six, Township Twenty-two, Range 14. Also 5 acres lying on and along the south end of the west half of the west half of the Southeast-quarter of the Southeast-quarter, and that part of the Southwest-quarter of the Southeast-quarter, lying east of the Louisville & Nashville Railroad, all in Section 30, Township Twenty-three, Range 13, the North line of said 5 acres being parallel with the South line of said sub-division, and said land is more particularly described, as follows:

Commence at the Southwest corner of the west-half of the west-half of the Southeast-quarter of the Southeast-quarter of Section 30, Township 23, Range 13, and run thence North along the East line of said land the distance of 526 feet, thence run West at right angles a distance of 636.4 feet, more or less, to the East line of the right of way of the Birmingham & Montgomery Highway, thence run in a southerly direction on and along the East boundary line of said Highway the distance of 686.6 feet, more or less, to the point where the South line of the South half of the Southeast-quarter of Section 30, Township 23, Range 13, intersects said right of way, thence run in a Easterly direction the distance of 195 feet, more or less, to the point of beginning. It being the intention hereof to describe the 5 acres above referred to. All of said property situated in Chilton County, Alabama.

Sold for division among the joint owners thereof.

This the 11th day of September, 1928

W. D. SPIGENER, Register.

No. 51-Sept. 13-2times

AUTO RACES WILL FEATURE LAST DAY

Noted Drivers Will Be In Birmingham, Saturday, September 29th

The last day of the Alabama State Fair in Birmingham, Sept. 29, will be the reddest red letter day in the history of speed in the state and probably in the history of speed in the South. A swirling mass of high-powered motor cars on marathonic dashes and also in short spurts will furnish the thrills for the State Fair visitors on that day.

Names to conjure with in the racing world appear on the program for this big speed fest. The reason that the champion dirt track drivers of the country are coming to Birmingham and bringing along the wonder motor cars of the age is due to the fact that Fair Directors threw economy to the four winds in making out this year's program and decided to put up double the amount of prize money ever offered before. When this was done the king-pins of the racing world started sending in their entries and now the field entered insures Alabama speed fans of the biggest jubilee the state has ever seen.

Eddie Daily, the fighting Irish race ace, who satrtled the world a few months back with his mad dashes on the beaches of Florida and California will bring his dynamite H-S Special here and seated at the wheel of this powerful, sputtering, flaming chariot of death he will seek to shatter any record ever hung up in Alabama.

Archie Fowell, distance champion of the country and winner of the recent 100-mile Mid-West Speedy Derby has his great Hudson Special entered in the long distance events of the day, and Archie says fence or no fence, crash or no crash, he is coming to Birmingham bent on taking the bulk of the huge prize money offered away in his pockets.

Wally Amundson, the pride of Sweden and hero of a dozen thrilling and almost tragic speedway accidants has lined up with the dust-eaters, and with his Newford Special he seems confident of finishing in the money before the afternoon's events have become history. Then there is Harry Nichols, the flashy Chicago speed star with the Miller motored "Golden Egg." This car is a familiar figure in all the big automobile race classics of the country, and because of its peculiar design and its powerful motor it is always to be feared on the tracks no matter who is its pilot. In looking about for something with which to carry him to the dirt track championship of America in 1928 Nichols borrowed, begged and stole enough money to buy this famous car and he is getting ready to ship with it to Birmingham.

Jack Johnson, veteran star of the boardways and idol of the Northwest has the famous French car, "Peugeot" and with a complete new cylindrical arrangement he hopes to push the huge French car to bigger bursts of speed than it has ever known. Norski Larsen, "Spud" Tibbets, Tim Boyle, Hal Austyn, Pete Bordini, and other noted drivers couldn't turn a deaf ear to the big purses offered and they are getting ready to pay Birmingham a visit in quest of fame and fortune.

Announcement is made that the track has been rebuilt to fill every requirement of the International Motor Contest Association, even to the allaying of the dust evil. Calcium chloride treatment will cut down the dust to a minimum, and will not only serve to protect the lives of the drivers, but to protect the clothes of the men and women who sit howling and yowling in the grand stand in the hope that their favorites will come home with the bacon in the big events of the afternoon.

STANTON

Beagle-Schurter Announcement—

Mr. and Mrs. H. R. Schurter announce the marriage of their daughter, Vivian, to W. Clifton Beagles, of Fulton, Ala. The wedding was solemnized September 7, 1928. Mr. and Mrs. Beagles are making their home in Fulton, Ala.

Mr. and Mrs. J. L. Cates of Clanton septn Sunday here.

Miss Elsie Schurter left Tuesday for Birmingham, where she will teach this winter.

Mr. Cershie Harris left Monday for Raymond, Miss., where he will attend school.

Miss Annice Huff of Perryville will spend the winter with her grandparents, Mr. Joe Huff.

Mr. F. D. Wilson of Birmingham spent Sunday here.

Miss Elizabeth Thrash has returned home after spending the week with her sister Mrs. Joel L. Cates, in Clanton.

MILLIONTH CHEV. CAR COMES OFF ASSEMBLY LINE AT FLINT

Detroit, Mich., Sept. 10.—Further entrancing itself in its position as the world's foremost automobile producer, the Chevrolet Motor Company last week reached a new mile-stone in its manufactturing history. With production and sales continuing at a record September clip, the milli nth car of 1928 came off the assembly line at Flint last Tuesday afternoon.

Due to the high September production schedule necessary to meet an unusually heavy fall demand, no formal ceremonies marked the occasion although W. S. Knudsen, president of the Chevrolet Company, R. H. Grant, vice-president in charge of sales, C. F. Barth, vice-president in charge of manufacturing and other Chevrolet officials were present.

The record making car was a coach, one of the most popular models in the line. It was a standard model in every respect. Like hundreds of thousands of Chevrolet coaches it was finished in avenue green Duco, with Tartan tan wheels, black beading and striping in gold.

After a brief informal ceremony the millionth car passed through the usual channels of distribution and was shipped a few hours after it came off the line to a dealer in the middle west.

An idea can be grasped of the immensity of the task of building 1,000,000 cars in less than eight months when it is borne in mind that to achieve this record it was necessary that a Chevrolet be built approximately every 10 seconds of every working day. Computing on the basis that there are 25 working days a month, it means that one million cars were built in a little more than 200 working days.

Mr. Knudsen pointed out that the building of 1,000,000 cars since Jan. 1 would not have been possible without strict adherence to precision methods. "Chevrolet knows that inaccuracies in manufacture and assemblage slow down the line with a consequent lowering of output and increase of cost," Mr. Knudsen said. "In Chevrolet's scheme of volume production the highest standards of quality and accuracy must be maintained in order that costly delays in production caused by breakage and poor fitting parts may be avoided."

The sensational production of one million cars in less than eight months reflects the remarkable public acceptance accorded the "Bigger and Better" model since its introduction January 1. Never in the history of the automobile business has his record been approached by any other manufacturer of gear shift cars.

Party Given Honoring Little Wilbur Prince on 4th Birthday

On Friday afternoon Mrs. A. S Prince entertained a number of little folks at her home on Second Avenue, honoring her little son, Wilbur's, 4th birthday. The lunch table was beautifuly decorated in pink rose buds and ferns, and was presided over by Eloise Rasberry and Nell Ross Mullins. The living and dining rooms were profusely decorated in roses and crepe myrtle, a color scheme of pink and white prevailing.

Outdoor games were enjoyed and Kodak pictures were taken of this happy group. Late in the afternoon they were invted into the dining room. The table was covered with a lace cloth and centered with a large cake embossed in pink, decorated with pink rosebuds and held four burning candles. Pink roses and fern surrounded the cake and ribbon extended from it to the places of the guests. Crystal candlesticks held pink and white candles, with white and pink streamers falling from the chandelier to the four corners of the table.

In drawing the ribbons from underneath the cake, Olive Rainer Elmore drew the button, Frances Bean the thimble, Celia Gerald the dime and Flem Higgins Jr., the ring. Little dolls and balls were given as favors.

The hostess, assisted by Mrs. M. A. Gore, Mrs. V. J. Elmore, Mrs. Flem Higgins, Mrs. Evans Parrish, Mrs. Joe Higgins, Mrs. Paul Ousley and Mrs. Anne Gordon served delicious cream and cake carrying out the chosen color scheme.

Those enjoying this affair were Martha Higgins, Bess Hayes, Lillian Smith, Nell Rockett, Peggy Page, Olive Rainer Elmore, Theda Wyatt, Helen Parrish, Gypsy Ann Boyd, Jean Mullins, Nell Rockett, Frances Bean, Cathern Gordon, Frances Smith, Anne Cordelia Smith, Eloise Rasberry, Nell Ross Mullins, Celia Gerald, Joe Frank Higgins, Jimmie Wyatt, Oscar Jones, Jr., Eric Mullins Hart, Billy Callen, Neal Ousley, Flem Higgins, Jr., James Carl Martin.

Young Matrons Sewing Club Meets With Mrs. Loren Smith

On last Thursday afternoon at four o'clock Mrs. Loren Smith was hostess to the Young Matrons Sewing Club at her home on Eighth Street. Zinnias and dahlias were used in the effective decorations.

Various kinds of fancy work was done during the afternoon, after which the hostess, assisted by her sister, Mrs. Joe Higgins, served a delicious salad course to the following members and guests: Mesdames Paul Ousley, Grady Taylor, Bill Murphy, Joe Higgins, M. B. Arant, John Vanderveer, Grady Heflin, Relious Franklin, Crit Jones, Spurgeon Calloway, Ben Goltsman, Guy Higgins and Milton Smith.

Circle No. 4 Of Baptist Church Met With Mrs. Smith

Circle No. 4 of the local Baptist W. M. S. met at the home of Mrs. A. C. Smith on Seventh Street, on last Monday afternoon at four o'clock.

An interesting program was carried out by Mrs. S. J. Ezell. Later the hostess, assisted by Mrs. Grady Taylar, served a delicious ice course to the following: Mrs. E. E. Upchurch, Mrs. S. J. Ezell, Mrs. Arthur Willis, Mrs. Bama Cox, Mrs. Joe Maddox, Mrs Hance Alred, Mrs. Tom Parrish, and Mrs. Stanley Armstead of Montgomery.

Members Of Fidelis Class Enjoy Camp

The members of the Fidelis Class of the Baptist Church motored to Foshee's Camp on last Thursday afternoon, September 7th, for a days' outing.

Swimming, fishing and hiking made up the pastimes, and the party returned the following Friday afternoon. The ones enjoying this outing were: Misses Gladys Williams, Mary Ellis, Lurleen Minor, Mary Lee Pyron, Ruth Sessions and Pat Murphy. Mrs. J. Renfroe Mullins acted as chaperone for the occasion.

Fidelis Class Holds Business Meeting at Church

The Fidelis Class of the Baptist Church held its regular business meeting last Tuesday evening Sept. 11th, at the local Baptist church.

After the discussion of business that came before the meeting, delicious salad and sandwiches were served, followed by an ice course. Included in this social and business meeting were Mrs. J. R. Mullins, Misses Bess Gilmer, Alma Allen, Cleo Broadhead, Gladys Watson, Avis Grantham, Jewel Minor, Exie Baker, Frances Moore, Pat Murphy and Lurleen Minor.

O. E. S. Has Spent-The-Day Party Last Week

A most enjoyable day was spent Wednesday, September 5, at the home of Mrs. C. Teel, north of Clanton, when Mrs. S. J. McNeil entertained the Thorsby Chapter of the Order of the Eastern Star.

A bountiful dinner was served cafeteria style. The Clanton Chapter was well represented at this spend-the-day party. Those present were Mrs. P. T. Hinkle, Mrs. D. C. Alred, Mrs. J. B. Atkinson, Mrs. M. B. Arant, Mrs. V. J. Gragg, Mrs. L. E. Diefenderfer, Mrs. C. V. Heath, Mrs. Leonard Farley, Mrs. Bama Cox, and Mrs. John Vandereveer.

Mr. Sam Upchurch will leave next Sunday for Nashville, Tenn., where he will resume his studies at Vanderbilt, after spending the summer with his parents, Dr. and Mrs. E. E. Upchurch.

Junior B. Y. P. U. Members Entertained at Social Monday

The members of the Junior B. Y. P. U. were delightfully entertained on last Monday evening from seven to nine o'clock at the Baptist Church. Miss Ruth Sessions is leader of the Junior B. Y. P. U. and had charge of the entertainment.

Punch was served from a well appointed table as the guests arrived. Many interesting games and contests were enjoyed and later, delicious ice cream and cake were served to those present who were: Misses Margaret and Edith Jones, Margaret Johnson, Janie Beth Johnston, Dorothy Sessions, June Cox, Ardelia White, Elizabeth Harris, Mary Frank Smith, Grace Plyler, Hilda Hart, Helen Moore, and Ruth Gowan. Joe Moore, John Ezell, Hal Broadhead, Alec Hayes, Earl Gray and Dan Smith.

EZELL UNION OF B. Y. P. U. ELECTS NEW OFFICERS

A special meeting was held last Friday evening by a committee appointed by the president of the Ezell Union of the local B. Y. P. U. for the purpose of nominating new officers for the union. The meeting was held at the home of Miss Mary Ellis on Seventh Street. The committee was composed of Miss Eugie Baker, former president of the Ezell Union; Miss Lurleen Minor, Miss Mary Ellis, and Billy Smith.

Several important topics concerning the betterment of the local B. Y. P. U. were discussed and the following officers were nominated by the committee.

For president, Miss Lurleen Minor and Mr. Charles Moore; for vice-president, Billy Smith; for secretary, Miss Gladys Williams; for treasurer, Jesse Sam Gowan; for corresponding sec., Exie Baker; for Bible quiz leader, Lorene Murphy; for Chorister, Charles Moore, and Lurleen Minor; for pianist, Miss Pearl Minor; for group captains, Ruphus Brown, and Lillian Thompson.

At the regular Sunday evening meeting of the Ezell Union last Sunday, the election by the members of the Ezell Union, of the officers nominated was carried out. Miss Lurleen Minor was was elected president, Billy Smith, vice president and Charles Moore, chorister. 9ll the other officers who were nominated were elected.

POLK PARTY RETURNS FROM TRIP TO CINCINNATI, OHIO

Mr. and Mrs. W. M. Polk, Sr., and two children Clarke and May Annece and Mrs. W. M. Polk, Jr., returned last Tuesday from Cincinnati, Ohio. They were accompanied to Cincinnati by Miss Sunset Polk, who entered the Cincinnati Conservatory of Music, to resume her studies.

The trip was made by motor and many interesting points were visited by the party before their return. Included in their visits were, Cincinnati, Washington, D. C., Stone Mountain and Lookout Mountain.

Mrs. J. B. Atkinson, and three Charming little daughters left last Wednesday for Vincent, Alabama where they will spend several days with friends and relatves.

Mr. Hugh Jones and Dr. J. P. Hayes and son Alec, motored to Gulfport, Miss., last Tuesday. Alec will enter the Gulf Coast Military Academy at that place.

Mr. and Mrs. Grady Taylor spent the past week-end in Montgomery as the guests of friends in Oak Park.

Mr. and Mrs. Stanley Armstead of Montgomery are spending the week at the home of Mr. and Mrs. A. C. Smith on Seventh Street.

Miss Jaunita Connatser, who recently accepted a position with the Smith's Ladies Ready to Wear Store, has resigned in order to prepare for the opening of the Thomas Junior High School, where she will again be a member of the faculty.

PROPOSED WATER PLANT SALE IS DEFEATED BY VOTE

The proposed sale of the water plant of the Town of Clanton was defeated on last Monday, September 10th, when the question of its sale was put before the voters of Clanton to decide.

There were 215 votes cast against the sale of the plant, and 72 votes cast in favor of the sale, according to reports. The Warrior Water Company had proposed to buy the plant under certain conditions. Ths lacked only one vote being a three to one defeat.

CHEVROLET

This Tag is Your Assurance of Honest Used Car Values

If you are in the market for a used car—come in and learn how completely we protect your purchase when you buy a used car from us!

Our used car department is operated under the famous Red O.K. Tag system—developed by the Chevrolet Motor Company to protect the used car buyer. Under this plan, we attach to the radiator caps of all our re-conditioned cars the famous Chevrolet Red O.K. Tag—showing exactly what vital units have been checked O.K. or reconditioned by our expert mechanics.

We believe that no fairer system of used car merchandising has ever been worked out—for it assures the customer honest value as well as a dependable, satisfactory car.

Come in today and inspect our stock of O.K.'d used cars. You are sure to find the car you want, at a price that will please you—and our terms are exceptionally easy.

A Few of our exceptional Used Car Values "with an OK that counts"

CHEVROLET COUPE—1927
Thoroughly reconditione, fully equipped, good tires, original Duco in perfect condition, looks and runs like new. Down payment $180.00, balance monthly.

FORD SEDAN—$400
This is the best one we have seen, in perfect condition in every respect. Very low mileage and looks like new car. Fully equipped and new tires. Liberal terms

CHEVROLET TOURING—1927
Low mileage, new Duco, good condition, good tires. Looks like new. A car that will satisfy the most critical buyer. Down payment $140.00 balance monthly.

FORD ROADSTER—1927
Reconditioned, good tires, fully equipped, new Duco paint and looks like new. This one is a dandy and priced at only $225.00.

CHEVROLET 1-TON TRUCK—1927
This truck used very little and is in perfect mechanical condition, 4-speed transmission. A big bargain in this one, only $150 down payment, balance monthly.

CHEVROLET COACH—1927
Thoroughly reconditioned, New Duco, good tires. Runs and looks like new. Must be seen to be appreciated. Down payment only $150.00.

PROSPERITY OF ONE BUSINESS TENDS TO HELP OTHERS

Flint, Michigan, Sept. 10.—How the prosperity enjoyed by one business tends to promote the welfare of those in other lines of work is strikingly shown by the activity of the railroads serving the City of Flint. Always busy transporting the manufactured products of this seething industrial center, the roads are working overtime this summer, largely because of tremendous increase in the output of a single Flint industry—the Buick Motor Co.

A few years ago, shipment of a whole trainload of automobiles would have attracted widespread attention as an evidence of remarkable business prosperity. The world marvelled then at stories of Buicks leaving Flint in trainloads—sometimes at the rate of two or three such shipments in one week. Today, the Pere Marquette Railroad alone handles from six to eight full trainloads of Buick cars every day, besides about the same number of Buicks in less than trainload shipments—and it is arranging to take care of even greater shipments, necessitated by the insistent nation-wide demand for these cars.

"We get two trainloads, averaging 60 to 90 freight cars, each containing three automobiles, away for Chicago Junction every night," said the Pere Marquette official in charge of the Buick shipments over his company's rails. "About the same number leaves each day for Suspension Bridge, Ont. There is one trainload a day for Detroit, one for Toledo, and generally one for Milwaukee via Ludington, or for some other point. All this is in addition to many ten or twenty carload shipments to ther cities.

Besides the trainload lots, separate shipments and export loadings of some 30 carloads a day, Buick delivers to nearby points by driveways averaging about 200 cars—or nearly 70 carloads a day, by this means alone. Even when relieved of this portion of the work, however, the railroads must keep their crews and equipment on the job 24 hours a day—and peak production, Buick officials inform them, is still to come!

Brown Parks Named Supt. of Admissions

A. Brown Parkes, former manager of the Jefferson Theatre in Birmingham, and head of the Jefferson Players, a stock organization which has thrilled thousands of amusement lovers in Birmingham the past several years, has been named Superintendent of Admissions for the Alabama State Fair which opens in Birmingham September 24 for a week's run.

Mr. Parkes has already gotten on the job and is at present employing his ticket takers and sellers and instructing them in the fine art of displaying courtesy to the thousands of visitors who will flock to Birmingham from all over the state for the one big gala week.

"I have investigated what has been done in arranging this year's show," said Mr. Parkes, "and feel that I can conservatively prophesy that this year's show is by far the greatest ever offered the people of Alabama."

RAYMOND C. SMITH RETURNS FROM WASHINGTON, D. C.

Mr. Raymond C. Smith, son of Hon. A. C. Smith, prominent attorney of Clanton, returned last Tuesday night from atrip to Washington, Philadelphia and other nteresting points in the north. It was Mr. Smith's intention to include the city of New York in his visit but on account of the rapidly approaching date of his school opening he was obliged to return.

Mr. Smith left last Wednesday for the University of Alabama, where he will resume his law studies. He will receive his Bachelor of Laws Degree this coming January 1928.

FARM HEAD DEFENDS BOLT TO GOV. SMITH

Peek Tells Gov. Hamill Democratic Party's Pledge Is Ample.

The Democratic party endorsed the equalization fee in principle in the Houston platform, George N. Peek, of Moline, Ill., the chairman of the Committee of Twenty-two of the North Central States Agricultural Conference, declared in a letter to Governor John Hamill of Iowa.

Mr. Peek challenged Governor Hamill to call another conference of Governors of the states represented in the North Central States Agricultural Conference to sit in judgment upon his action in declaring his support of Governor Smith. The letter was in reply to one from Governor Hamill to Mr. Peek in which the Iowa Governor accused him of having gone beyond the power vested in the Committee of Twenty-two in bolting the Republican party.

Governor Hamill in his letter to Mr. Peek said farm relief legislation had been blocked by "politics." Mr. Peek in his letter to Governor Hamill asserted the legislation was blocked by an "unsympathetic" President, with the approval of Mr. Hoover and Secretary of the Treasury Mellon.

"You say that the Democratic party failed to endorse the equalization fee," wrote Mr. Peek. "To be sure, it did not by name endorse the equalization fee or the McNary-Haugen bill, but it very definitely endorsed the principle of the equalization fee when it said: 'We pledge the party to an earnest endeavor to solve this problem of the distribution of the cost of dealing with crop surpluses over the marketed units of the crop whose producers are benefited by such assistance. The solution of this problem would avoid government subsidy to which the Democratic party always has been opposed and will be a prime and immediate concern of a Democratic administration.'

"These principles have formed the basis of farm relief that twice passed Congress in legislation, that would have furnished the opportunity for the farmers to get the benefit from tariffs on crops of which we export a surplus—legislation that was passed only to meet twice with the veto of an unsympathetic President who never advanced a constructive proposal himself addressing the problem. And this in the face of the platform pledges of his party upon which he was elected 'to take whatever steps are necessary to bring about a balanced condition between agriculture, industry and labor.'"

HEADS WOMEN IN INDUSTRY

Agnes Hart Wilson of Blossburg, Pennsylvania, running for Congress in the sixteenth Pennsylvania District asserted her support of Governor Smith by saying that she believes he will aggressively enforce the Prohibition law until it is repealed or modified.

COTTON ASSOCIATION HANDLING COTTON FOR IMMEDIATE SALE

YOU CAN now handle your cotton through the Alabama Farm Bureau Cotton Association almost any way you desire. You may take your receipts or bill of lading to your local bank, attach them to a Special Pool draft on the Association for the regular advance. Then ask your banker, fieldman or Farm Bureau Secretary to call the Association and have your cotton sold that day. You will get full settlement as soon as your receipts and samples reach the Montgomery office; or you may place your cotton in the Special Pool, as above, and order it sold any time thereafter the price is satisfactory to you; or you may place your cotton in the regular Annual Pool where it will be handled as in the past.

By this method of handling your cotton you are assured correct grades, weights and the full market value the day you sell your cotton.

Charges for storage, insurance and interest are made only for the time the Association carries your cotton. On cotton for immediate sale you only pay for one month's storage which is usually 50c per bale. The only other cost will be $1.50 per bale which covers the service of the Association in grading, stapling, handling and selling. These costs are lower than you can get the same service elsewhere.

Sell your cotton with producers and not against them. This is the only organization in Alabama working for higher price for cotton.

See your banker, county fieldman or come into the office and let us explain to you.

IT WILL MEAN MORE MONEY FOR YOUR COTTON

ALABAMA COTTON IS BEING STUDIED

Auburn, Ala., Sept. 10.—At the end of this season more will be known about the quality of cotton produced in Alabama. A comprehensive study of it is being made by the Experiment Station of the Alabama Polytechnic Institute in cooperation with the Bureau of Agricultural Economics of the U. S. Department of Agriculture, according to J. D. Pope, Auburn, who is in charge of the study.

This study was started in 1926 when the Experiment Station collected samples from 5000 bales. It was found that 99 per cent of this cotton was 7-8 of an inch in length. The study was made with the cooperation of cotton buyers, ginners, warehousemen, and merchants. During the 1927-28 season 3600 bales were sampled and it was found that 85 per cent had a staple of 7-8 of an inch. Fourteen per cent fell below this length.

Through a cooperative agreement this year a much larger number of samples is being collected and a fairly complete picture of cotton produced in the various areas of the state will be determined in this way, according to Mr. Pope.

This study of the Alabama cotton crop should answer the question as to quality and how it compares with cotton produced in other states, he said. A similar study is being made in other state. A study in Georgia last year revealed that while Georgia mills used more than 600,000 bales of cotton with staple 15-16 of an inch the state produced only 172,000 bales of this length.

The Alabama Farm Bureau Federation and Cotton Association are now in their new home, the Standard Club Building, at 309 Montgomery Street. Officials feel that they are in position to render their members more efficient service in their new headquarters according to Edward A. O'Neal, President.

The Farm Bureau Mutual Supply Association occupies the West end of the first floor, the Cotton Association occupies the entire second floor, while the third floor is left for an assembly hall.

Each Farm Bureau member is urged to visit the new office when in Montgomery. Everyone is cordially invited and will find a warm welcome.

BRIEFLY TOLD

Livestock packers in the United States say that around 200 pounds is the ideal weight for a market hog.

All strawberry plants should be well fertilized during this month. A complete fertilizer is recommended.

Now is the time to be thinking about controlling the erosion of the fields, planning terraces, and preparing equipment for the construction of terraces.

The hen that goes broody more than three times cannot be profitable. Use a celluloid leg band and mark every broody hen. When a hen gets three broody rings sell her.

Losses of hogs in transit are largely preventable by farmers. It is a well-known fact that hogs which have received a ration deficient in minerals or vitamins or both are more easily crippled due to lack of strength in bone, muscle, and nerve development.

NEWS IN BRIEF

Alabama attracted national attention as a poultry state when the American Poultry Science Association selected Auburn as a place for the 1929 convention.

In the production of apples for export Virginia is now the leading state. Apples from this state are said to rank high on the market in London, England.

During the first half of 1928 the British output of artificial silk yarn amounted to $25,193,674 pounds as compared with 16,507,812 pounds for the corresponding period of 1927.

The U. S. Department of Agriculture has found that farmers and stockmen are losing $20,000,000 annually due to careless and wasteful methods of skinning animals and curing the hides.

Miss Gladys Copeland of Auburn has been appointed home demonstration agent for Sumter County, effective October 1, according to announcement by Miss Elizabeth Forney, district home demonstration agent, Auburn.

"As March is the busy month in planting and preparing for the spring and summer garden so should September be for the fall and winter garden."—Julian Brown, Auburn.

NEWS IN BRIEF

The National Pecan Growers Association will meet in annual convention in Albany, Ga., September 25, 26, 27. Clifton Keirkpatrick, of Selma, Alabama, is president, and J. Lloyd Abbott, Spring Hill, Mobile County, Alabama, is secretary.

The State Fair in Birmingham is scheduled for September 24-29 and the Extension Service of Auburn is preparing an exhibit.

J. T. High, district agent, is chairman of the fair committee. September 26 will be "Auburn Day" and Dr. Bradford Knapp will speak about noon of that day.

For the month of July Prof. John E. Ivey and G. A. Trollope, poultrymen at Auburn, received reports from the owners of 66 demonstration poultry flocks. The return per flock above feed cost was $28.93. The owners of these flocks work in cooperation with the county and home demonstration agents.

It is reported that the Republican campaign committee has prepared to spend approximately $20,000 per week for radio broadcasting during the presidential campaign. One of the broadcasting companies gets $6,500 an hour for the use of 27 stations and the other gets $5,000 an hour for the use of its 19 stations.

LOST
Time from Work

Mr. Albert Garland, of Somerset, Ky., recently said:

"I used to work in the mines, but lost quite a bit of time on account of sick spells I had. I would get to having a bad taste in my mouth, and a very dull, tired feeling and ache.

"My mother told me to try Black-Draught, which I did, and after a few doses I felt much better. Now I take it as soon as I feel the least bad, and I don't get down. I certainly can say that it has done more for me than any other medicine I have ever taken.

"I never get without Black-Draught. If I go on a visit, I take a package along in my suitcase. My health is better now than it has been in years."

Black-Draught is prepared from medicinal roots and herbs, of highest quality. Price 25c. Try it.

A Proclamation

BY THE GOVERNOR

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out; and

Whereas, notice of such election, together with the proposed Amendment, is required by law to be given by proclamation of the Governor;

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice direct and proclaim that on Tuesday, the 6th day of November, 1928, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

Article , Section 1: The Legislature may form or provide for the formation of drainage districts, for establishing and maintaining drainage systems; and provide for the assessment of the whole or part of the cost of such improvements against the lands and property in such district to the extent of the increased value thereof by reason of special benefits derived from such improvements and may provide for the issuance of bonds for such districts with or without an election.

Section 2: This amendment shall be retroactive and retrospective and shall operate to ratify, confirm and validate the Act of the Legislature of Alabama, which Act provided for the drainage of farm, wet, swamp and overflow lands in the State of Alabama and authorized the organization of drainage districts, conferred the right of eminent domain to the extent necessary to carry out the purpose of said Act, and provided for the raising of revenue by bond issues or otherwise to pay the cost and expense of maintaining drainage systems so as to promote the public health and general welfare and, which act was approved March 4, 1915; and this amendment shall operate to confirm and validate all corporate organizations under authority of such law, all procedure had, all acts done, all bonds issued, all contracts entered into and assessments made by such corporations under authority of such law.

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

BIBB GRAVES,
Governor.

JNO. BRANDON,
Secretary of State.

"THE LEGION OF THE CONDEMNED"

From every corner of the world they came. That valiant band of youths whose last illusion and first women were dim memories. They had tried everything in life but death—and death they eagerly courted. A sensational mystery melodrama of the air. With Paramount's Glorious Young Lovers.

AT THE WADESONIAN
Theatre, Clanton
Monday and Tuesday
September 24th and 25th

STATE FAIR WILL OFFER MANY BIG FEATURE ACTS

Band Concert, Horse Racing, Fireworks Unsurpassed Every Night

Included in the big list of free acts in front of the grandstand at the Alabama State Fair which opens Monday, September 24, and runs through Saturday, September 29, is a melange of comedy, a number of thrilling aerial episodes, quite a galaxy of equestrian acts and the like.

The Nelsons, one of them, known in the circus world for the past forty years, and recognized as the peer of all clowns and exponents of muscular strength and equilibrium, appear on the program.

Pall's Serenaders will also make merry in song and dance and instrumental music.

Prince Nelson, one of the most daring of the stunt men in the world today, has also signed a contract to thrill the fair patrons. Add to these some of the greatest comedy tumblers in the game, a herd of trained horses, a number of animal acts, and the most daring aerialists in the world, who use no net below in defying death and one will see the merit of the attractions to be offered by the state fair.

The free acts, which will be given on the mammoth stage in front of the grand stand, will take place each afternoon and night. From a vantage point in the stands fair patrons will also see the horse races which will be run each afternoon, the automobile races on Saturday, and the fireworks which will be exploded each night. The fair officials have spent more money on this latter feature than ever before and a fortune will be burned up each night.

The concerts given by Clayton Lamphan's Band, will also take place in front of the grandstand each afternoon and night.

Egg showers are becoming very popular in certain sections of the state, according to newspaper reports. We haven't had any in Chilton County, as yet, which no doubt is due to the fact that all of our eggs are fresh ones for which there is always a ready market. Most of us still remember to order ham and eggs at the cafe, and throw kisses, when we feel sure of our ground, in doing so.

The Democrats will wind up this affair with a love feast and find out they have out-generalled Judge Street, and left him without a set of Republican electors

TRANSVAAL FARMERS RAISE CATTLE ONLY TO BUY WIVES

Native South African farmers raise cattle principally for the purpose of buying wives while the white settlers are left to bring the fertile fields of the Transvaal into their own as a world farming region, according to J. C. Neethling, who has arrived in America to study agriculture in the leading universities.

Despite this native handicap, says Neethling in Farm & Fireside, the productiveness of South Africa is increasing annually and it is in a favorable position for export since many of its crops can be sent abroad in off seasons in other countries.

"The natives," he added, "prefer to devote themselves to loafing and hunting as soon as they get into a position where they can buy wives, which cost ten or twelve head of cattle each. When a wife is thus purchased, she immediately assumes the burden of family labor and the husband is relieved of toil so long as his wife remains able bodied. When the first wife has earned enough cattle to buy a second wife, the husband has still more time to rest. The negro workmen are allotted a patch of about ten acres in addition to eight dollars a month, and upon these areas they grow corn from which they make a drink called kafir beer, containing about five per cent alcohol. The drink works slowly but effectively enough to assure no work on Mondays.'

Neethling declared that sixty per cent of the white population in the Transvaal is Dutch and forty per cent English, and that the feeling which caused the war in 1900 is rapidly giving way to the most cordial relations American implements are largely use in South African farming, he said.

FACTS ABOUT FARMING

It looks foolish for a farmer to pay out money for nitrogen when there is an abundance of it in the air and hairy vetch will gather all he needs, provided he plants the seed, inoculates them and applies basic slag at the same time.

Hairy vetch is a little nitrogen manufacturing plant. It takes nitrogen from the air and stores it in the soil for succeeding crops.

The budget estimates for the fiscal year beginning July, 1928, are now $208,000 below the $3,700,000,000 goal set by President Coolidge as the safety limit, according to a press dispatch from the President's summer home in Wisconsin.

The farmer who plants hairy vetch seed in the fall has taken the first step toward a big yield of cotton or some other crop on his land next year.

If resetting of strawberry patches was not done in the early spring it can be done during rainy spells in the early fall. Those set in fall will not bear so heavily the first year but will produce in abundance the second year.

In order that laymen may understand the meaning of the word watt as applied to power of radio stations Commissioner O. H. Caldwell of the Federal Radio Commission issued a statement that one horsepower equals 746 watts.

If bureau or table drawers become hard to open which often happens in damp weather, rub them well with parrafin and you will find they will work quite smoothly. Soap may be used though parrafin is better.

STATE CAPITOL NEWS

Evidence of the wonderful progress which the State of Alabama has made within the memory of men now living is to be found in a review of an old book published in 1878, entitled a "Handbook of Alabama", written by Safford Berney, then a young attorney of Mobile. The author is today Judge Safford Berney of the Mobile Circuit, one of Alabama's oldest and most admired members of the judiciary in Alabama, who has lived to see many of his predictions of progress and development came true. A copy of his work is in possession of Henry S. Long, chairman of the State Tax Commission, who resurrected it recently from among some old possessions. A persual of its pages serves to strikingly impress the reader with the tremendous strides which Alabama has made in the last fifty years.

When Judge Berney wrote his book, Mobile was by far, the largest city in Alabama, with a population of 32,034. Montgomery was second with 10,588. Selma came third with 6,484. Huntsville fourth with 4,907 and Eufaula fifth with 2,185 inhabitants. Birmingham, according to the last federal census, that of 1870, had only 1,200 inhabitants, but even then was already beginning to boom, for Judge Berney, writing in 1878, says: "It's population is now estimated at from 3,000 to 3,500. The general offices of the South and North Railroad are here, and its chief officers reside here. The machine shops, also, of this road, are here, giving employment to a large numb r of thrifty mechanics, many of whom have bought lots, built houses and permanently settled in the city." It is a far call from this description, to the present industrial metropolis of the South with its 200,000 inhabitants. Jnudge Berney, however, sensed the possibilities of the future, for his article on Birmingham closes with the following words: "When its geographical position, healthful location, commercial facilities and contiguity to the rich mineral deposits of the State are all taken into consideration, it will be evident to any one that the future of Birmingham is bright with promise, and the hopes of its projectors are destined to brilliant realization."

Judge Berney's work contains also a grim reminder of a past era in Alabama history—of the days when the scourge of yellow fever menaced the Gulf Coast section and at intervals sent the population scurrying northward to escape the dread disease. Today, Alabama ranks at the top of the list of the states in public health work. Yellow fever is not only a thing of the past in this State, but it has been stamped out even in the tropical countries where it originated, in Panama and Cuba. It is a matter of pride to Alabamians of today that the eradication of yellow fever in its tropical breeding grounds was due to the genius of one of Alabama's sons, the late Surgeon-General Gorgas. Fifty years ago, however, the danger of yellow fever on the Alabama Coast was very real. Judge Berney points with pride to Mobile's rigid quarantine system, and declares that the city "is now justly regarded as one of the healthiest cities in the Union." He reminds his readers that during the four years of the Civil War, when Mobile was cut off from the outside world by blocade, the city was wholly free from fever, showing that it was an imported disease. He adds, however, that "If, by accident, the fever should ever again be brought to Mobile, the increased facilities for avoiding its approach afforded by the many new lines of railroad, and street railways, leading out of the city to the neighboring safe retreats, will greatly diminish, if not entirely destroy, its force."

An interesting feature of the handbook is a chapter on "Cotton Manufacturing in Alabama," written by H. A. Haralson, of Matthews Cotton Mills Selma, which shows that even fifty years ago Alabamians were beginning to realize the industrial possibilities of their state, which have since experienced such a wonderful development. Referring to the cotton industry, Haralson says: "We begin to see an interest felt in the subject everywhere; men think of it; men talk of it; and it will not be long before it will be considered worthy to take its place alongside of the grandest of all callings, agriculture, whose right arm it is in the South. These men will act. We will then see our country, our state, once more take rank in point of wealth with what are considered the most favored portions of the land." A comparison is given of the cost of operation of cotton mills in Alabama, as compared with Massachusetts, and the author inquires "Would mills erected now—in times of depressions and strikes, and other civil and monetary revolutions and uncertainties, be likely to pay? A sufficient answer to this would be to point to the dividends recently declared by nearly all the mills of the South. The mills to which allusion has been specially made, were all small at one time, and would not be regarded as very extensive establishments by Northern manufactureres now. But they have proper management and by the great and decided advantage the South possesses for the manufacture of cotton, built themselves up to their present very respectable proportions.

The handbook also contains an extensive account of mineral resources of Alabama and asserts with reference to the coal production, that "if the improvement continues in the same ratio, and there is no reason to doubt that it will, the output during the present year (1878) will be considerable over 200,000 tons." The present coal production of Alabama approximates 20,000,000 tons annually, one hundred times the output of fifty years ago.

The school enrollment in the public schools of Alabama in 1877 totalled 141,230, it is shown. Figures from the department of education for 1926-27 show an enrollment of 597,250, of whom 107,391 were in high schools; so that the high school enrollment for 1926-27 was not far behind the total enrollment of fifty years ago. The progress in higher education is brought out even more vividly. Judge Berney's book records, in the account of the University of Alabama, that "the number of students in the University during the past year, session of 1877-78, was 177." For the session of 1926-27 the enrollment at the regular session at the Uniersity was 2,492; while including summer school and extension classes, the enrollment totalled 6,206.

The schedule of state license taxes levied in 1878 is a further reminder of days that are gone. There s a long list of licenses for various classes of liquor dealers; and the schedule includes also "for each chicken or cock pit, $25." There is also enumerated a peddlers license of $40 for peddlers in a wagon, $20 for pddlers on a horse and $10 for peddlers on foot.

Cotton Gin Announcement

We wish to announce that we have purchased the gin and warehouse at Thorsby, formerly owned by W. H. Goodgame.

All machinery and equipment has been overhauled, and the gin is now in shape to do ginning that will assure the very best samples possible, and good samples assures top price for your cotton, as you know.

The cotton gin will be under the supervision of B. D. Thompson. Mr. Thompson needs no introduction to many farmers, but to those who do not know him, we wish to state that he has had 19 years experience in the operation of gins in Clanton, and he is rated as one of the best in the country. He will give your cotton ginning his personal attention if brought to our gin.

Just as soon as cotton begins to come in, we will operate day and night, and will have competent men in charge at all times.

Nowadays You Summon Help by Telephone

CONSIDER the plight of the householder in the days-before-the-telephone. When some member of the family was taken suddenly ill, . . . a fire broke out, . . . an intruder was heard forcing a window---there was only one way of getting help. Somebody had to run for it! . . . While nowdays the telephone does the running for you —at a speed that is faster than light.

If your home has a telephone you are within touch, day and night, of the various protective agencies that mean so much to human welfare. And you can summon aid as easily and quickly as you can chat with friends, or shop at distant stores.

If you have been trying to manage without a telephone---resolve today to have one. The cost of a few cents a day is returned to you many times in the form of comfort and protection. . . . Installations are made quickly these days. . . . Just ask the Business Office or any telephone employee.

SOUTHERN BELL TELEPHONE AND TELEGRAPH COMPANY
Incorporated

Chilton County Abstract Co.

M. D. FOSHEE, Manager

A good business man will not buy a farm or any property without first looking it over to see what it is worth.

However, some will buy or loan money on land without an abstract.

Isn't it equally as foolish to buy a farm without looking it over as to buy it and not know whether the titles are good or not? Without an abstract you do not know where you are getting the land you look at or not.

Before investing in land in any way have an abstract made and be safe.

A Proclamation

BY THE GOVERNOR

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out; and

Whereas, notice of such election, together with the proposed Amendment, is required by law to be given by proclamation of the Governor;

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice direct and proclaim that on Tuesday, the 6th day of November, 1928, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

The Board of Revenue of Jefferson County or other governing body of said county, in addition to the taxes it is now authorized and empowered to levy and collect, shall levy and collect annually a tax of not more than one-tenth of one per centum upon the value of the property therein as fixed for State taxation, to be applied exclusively to the purchase, construction, equipment, repair, operation and maintenance of a charity hospital or hospitals for the care and treatment of indigent persons.

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

BIBB GRAVES,
Governor.

JNO. BRANDON,
Secretary of State.

OFFER BARGAINS IN

USED CARS

During the past few weeks we have had an unusually big demand for new cars, most of which were bought through our trade-in plan, and in this way we have secured some mighty good values in most any make light cars. We now have on hand ready for delivery several Chevrolets that have been reconditioned and we are offering them at real bargains. These cars have good rubber and appearance, and we do not believe that you can get a better bargain than we are offering in our reconditioned Chevrolets.

We also have a number of late model Fords, which have been reconditioned, have good rubber, and in fact, if you are looking for a Ford car, you should see what we have to offer before buying.

ALA. STATE FAIR IN BIRMINGHAM SEPT. 24 TO 29

Big Show Is Ready. Everything New And Different From Last Year

Alabama's biggest show is ready! Old Here-We-Rest's greatest spectacle is on the verge of opening.

Thousands of happy souls are preparing to make the annual trek into Birmingham, the state's metropolis.

The fanfare, the glitter, the tinsel, the din, the shouting, the laudatory remarks of an astounded multitude—these are all in the offing.

The state's entire population awaits with bated breath the swinging back of the massive gates at the Alabama State Fair Grounds for the beginning of the most gala week the state has ever seen from an educational, an entertainment and an amusement standpoint.

This brilliant social, agricultural and progress-making event, an epoch in the state's history, will take place Monday, September 24. From then until the curtain is rung down Saturday night, September 29, joy will run riot, education will triumph, entertainment will break all records and the thrill acreage will double what has happened any previous year.

That is what R. H. McIntosh, new general manager of the Alabama State Fair, thinks about the state's big show. Before placing Mr. McIntosh, one of the South's foremost amusement men, in charge, the directorate loosened the purse strings and told him there was to be no limit on expenditures. "Forget about the cost and give us the best show the state has ever seen," said the directorate. "Savvy," said Mr. McIntosh, as he hopped into the business of writing checks and forwarding guarantees.

The result of his wizardry is to be seen by those who have journeyed out to the state fair grounds and made a casual survey of what has transpired since the state started getting ready for its annual show. What has gone on at the Fair Grounds is a revelation. A regular army of men goes about the business of getting ready for the gala event with a system that is bewildering. Efficiency is the watchword as agricultural exhibits, machinery displays, mechanical booths, industrial spectacles and the like are put in place.

To make the agricultural end of the fair surpass anything that has gone before it Mr. McIntosh threw $30,000 into the prize money barrel and said, "Go to it, boys!" With that glittering array of checkles to tempt them, county officials from the various counties started arranging the best agricultural displays they had ever attempted. Not only that, but individual planters from over the state started sending in their entries.

The same held forth industrially, the Tennessee Coal, Iron and Railroad Company being placed in charge of the industrial show. The industrial show heretofore has been given a lick and a promise because of the fact that no corporation with the great resources of the Tennessee Company has been in charge. This great company has placed its engineers and executives in charge and will give to the State Fair this year the only real, live, colossal industrial display it has ever seen.

In every department from an exhibit standpoint a lavish hand has gone forth to amass and put on display the greatest exhibits possible. The cattle show is open to the entire

WONDERFUL DISCOVERY MADE FOR HUMANITY

People are wonderful, but they don't realize it, possessed with wonderful minds, and bodies, but ignorant even in this modern 20th century period of the many dangers that lurk in their pathway daily, that eventually spell death. Even in this modern and scientific age of medicine and sanatation, people have lots to learn about the preservation of their minds and bodies. Even the food we eat is in most instances as a poisnn dose, many homes employ negro cooks, and even white, and they handle our food, carrying typhus germs, pnuemonia, blood diseases and countless other maladies which kill thousands of our people annually.

Every cook in every home and restaurant, should be compelled to wear rubber gloves. There should be a national law enforcing this measure to the limit. Handshaking is detrimental to the human race. It has been proven by very eminent authorities that this practice is a germ distributor. The hands are everywhere and the germs are passed on and on. The hand of death, handshaking, should be abolished.

The body is a machine like the motor, and the motor must be fueled with good gasoline to get the best results from the machine. Our bodies require blood, good hot blood, to get the best results, keeping our bodies functioning, our blood pure from disease.

Years ago during the Civil War, an old doctor discovered PAXTON'S new system, new life for the blood, giving it to the many diseased soldiers of the war, relieving them of their many ailments. The receipt was kept a secret for years, until a few years ago, when it was put on the market by Doster-Northington Wholesale Druggist of Birmingham, who are distributors for the State of Alabama.—Adv.

A Proclamation

BY THE GOVERNOR

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out; and

Whereas, notice of such election, together with the proposed Amendment, is required by law to be given by proclamation of the Governor;

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice direct and proclaim that on Tuesday, the 6th day of November, 1928, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

"The following municipal corporations, to-wit: Winfield, Marion, Bay Minette, Robertsdale, Foley, Prattville, York, Jackson, Collinsville, Ft. Payne, Luverne, Brantley, Glenwood, Red Bay, Tarrant City, Dadeville, Thomasville, Northport, Hartselle, Haleyville, Talladega, Daphne, Oneonta, Cullman, Leeds, Eutaw, Guin, Sylacauga, Millport and Sulligent, Ozark, Ariton, Midland City and Demopolis, through their respective constituted governing authorities, may levy and collect a rate of taxation in any one year on the property situated therein, not exceeding one per centum of the value of such property as assessed for State taxation during the preceding year; provided that the adoption of this amendment shall in no wise affect, limit, modify, abridge, or impair the power, authority or right of any of said municipal corporations to levy and collect special school taxes, now or hereafter vested in or conferred upon them under the Constitution or any amendment thereto, which said special school taxes shall be in excess of said one per centum herein provided for."

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

BIBB GRAVES,
Governor.

JNO. BRANDON,
Secretary of State.

STATE DEMOCRATIC CAMPAIGN COMMITTEE CALLS FOR SUPPORT OF NOMINEES

Statement Issued On Party Loyalty

Platform and Pledges of Democrats Gone Into Exhaustively In Appeal for Activity

To The Democrats of Alabama.

The state campaign committee has completed its organization, and confidently calls upon you to support it to the utmost of your ability in all of its activities in behalf of the nominees of your party.

Platform

The platform adopted by the National Convention of your party is in full accord with the historic principles of the Democratic Party. The candidates for president and vice president selected by that same convention, in which you were fully represented by delegates, whom you chose, are, in respect of character, courage, intelligence and devotion to Democratic ideals the full equals of any of those magnificent leaders whom the Democratic party has heretofore presented to the nation.

Party Pledge and Party Loyalty

No member of the Democratic party in Alabama has a justifiable excuse for either indifference or hostility to the nominee for president on account of any of the reasons that have been openly set forth for such a course, or for any reason whatsoever. A political party is nothing but an aggregation of citizens who believe in certain fundamental principles of government, and who, unite themselves together in order that their common strength may undertake the formulation of those policies into law. The political party, that is, the mass action of large numbers of people entertaining a common belief is necessary in a government by the people like ours, since uncoordinated individual effort is wholly unavailing to secure good government. The citizens of the state and of the republic must co-operate and act in unison in order that their views as to political policies may be effective. "United we stand, divided we fall," is a saying as true in politics as elsewhere.

In no assemblage or collection of people do all think alike, and, therefore, it is a matter of faith and loyalty which each member of the party owes to every other member and to the fundamental principles of the party, that in party councils the views of the majority shall be binding upon all.

Before the convention at Houston was held, each state elected to that convention, to represent the Democrats of that state, the delegates to which it was entitled under the law. You selected delegates to that convention and they took part in its deliberations, and faithfully undertook to impress upon that convention your views as to platform and candidates. Had they been successful in persuading the convention to adopt their views as to the party candidate you would reasonably and properly have expected every other delegate, and the Democrats whom they represented, to join with you in a loyal and united support of the nominee whom you favored. This they would have been under a most binding, solemn and moral obligation to do. Is not that same moral obligation as binding upon you as, in other circumstances it would have been upon them?

The Democratic party in Alabama is an organization which has the right to fix the conditions for membership in the party, just as any church, or any fraternal order has the right to fix the conditions which qualify for membership in it. The Democratic party exercised that right. Through its governing authority it said that all white voters in Alabama who believed in the principles of the party, and who would support its nominees, had the right to vote in the primary, and that the act of voting in the primary was a pledge to support the party nominees. This rule was in accord with the invariable practice always pursued.

No one was compelled to enter the Democratic primary. Every one who did so, entered it as an entirely voluntary matter. But, when a voter did enter it, that voter thereby pledged himself to vote for the nominee who might be selected, although they might be nominees whom he or she disapproved. No sophistry, no fine spun reasoning, no recourse to alleged moral grounds can change the fact that every man and woman who voted in the Democratic primary thereby pledged himself or herself to vote for all the party nominees, and no sophistry, or recourse to alleged moral grounds can change the fact that one who voted in the Democratic primary and now votes against any nominee of the Democratic party has broken the pledge, has discarded and trampled under feet the moral obligation, which he or she voluntarily assumed.

In all candor, in all fairness and in all kindness we ask what can be the thought of one who having secured the benefit and the privilege of taking part in the Democratic primary now refuses the party that loyal support which was the consideration upon which he was allowed that privilege.

More than this, every single person voting in the last Democratic primary in this state voted with full knowledge of the fact that the governor of New York would in all probability be selected as the party nominee for president. Every single person who voted in the primary, having that knowledge, pledged himself, by voting in the primary, that if the governor of New York was the successful candidate for the nomination that he or she would vote for him as the party candidate.

Why should any Democrat in Alabama desire to break this pledge?

Character of Candidate

1. Is it because the nominee for the presidency is a man as to whose character or ability, or courage he has any question?

The career of Governor Smith is one that must enlist the admiration of every fair and candid mind and the sympathy of every heart that beats responsive to great achievement in the face of odds. Without money, without family influence, without social prestige, without political power, he has, by virtue alone of his great qualities of heart and mind, climbed steadily from poverty and obscurity to within one step of the highest honor and the most responsible office within the gift of the American people. And, throughout his whole career he has carried with him the affection, the respect and the admiration of those for whom and with whom he served.

Standing for 20 years in the fierce light that beats upon a public servant, no enemy, no scandal monger, no envious rival, has ever been, or will ever be, able to point to any action, public or private, that bears the slightest mark of corruption or of unfaithfulness to the highest canons of duty. The honors and the success that are his have left him human and unspoiled.

"He has walked with kings,
Nor lost the common touch."

He has not forgotten the days when he sold papers on the streets of New York, seeking by the humble means within his childish reach to aid in the support of his widowed mother and her younger children. The difficulties of the humble man touch the same responsive chord in his heart today that they did before he came to the dignities of his later years.

The story of his career is the hope and promise of America; it is a thrilling and inspiring proof of the reality of our Democracy.

Tammany Hall

2. Is it because he is supported by Tammany Hall?

Whatever may have been the aims of Tammany in former days, or whatever its character now may be, it has made no stain upon the private character or the public record of Governor Smith. Never, since white supremacy was established in the South has the Republican party abandoned the idea of re-establishing the negro in political domination over us. Who came to the assistance of John T. Morgan and Arthur P. Gorman when they were resisting the effort of the Republican party to pass through Congress the Force bill introduced by Henry Cabot Lodge of Massachusetts? Who answer is, "Tammany Hall and the Democracy of New York." The South alone has never been strong enough in Congress to prevent legislation of this character, and had it not been that the Democratic party in the State of New York, including Tammany Hall, came to our rescue, our elections for years past would have been supervised by federal soldiers.

But, if Tammany Hall was not our ancient ally, to whom we are bound by every tie of gratitude; if it was the sinister and corrupt organization that it is thought to be by some to be, it would be still an angel of light compared to those Republican machines that are responsible for the nomination of Mr. Hoover and which are straining every nerve to accomplish his election. Who is it that can gag at Tammany and swallow Vare and Mellon and the Philadelphia Republican machine? Does not everyone know that the Republican convention stood at the cross roads, uncertain which way to turn, until Mr. Vare, who had been refused a seat in the United States Senate because of the gross corruption practiced in Philadelphia, started the stampede to Hoover by announcing that the Pennsylvania delegation was for him? Has Tammany ever selected a United States senator through methods so corrupt that the Senate declared him unfit to sit in that body as it did in the case of Vare from Pennsylvania and Smith from Illinois? Is there anything in the record of Tammany that can compete with the record of the Republican party which has humiliated the American people by elevating to the president's cabinet many men whose characters and records have been proven unworthy of the confidence and respect of the American people. If Dougherty had belonged to Tammany, if Fall had belonged to Tammany, if Forbes had belonged to Tammany, if Frank Smith had belonged to Tammany, if William S. Vare had belonged to Tammany, if Will Hayes had belonged to Tammany, if former Governor McCray of Indiana had belonged to Tammany, if all the crew of buccaneers who flew the Jolly Roger from the Little Green house in K Street, where honesty and decency and regard for public character and private virtue were trampled under foot, had belonged to Tammany, it might well be said that any man who held joint membership in an organization with men who, in high place, have disgraced ideals of citizenship as these men have, is an object to be viewed with deep suspicion, if not with public scorn. But, these men did not belong to Tammany, nor have any in the class with them as corruptionists and political scapegraces been included in the membership of Tammany Hall, or ever represented the Democratic party before the nation. Nor have any such men, at any time, or under any circumstances been the personal or political associates of Governor Smith. They have, on the contrary, been the personal and political associates of Mr. Hoover. He, as the nominee of the Republican party, is the smiling and receptive beneficiary of their activities. He owes them a debt of gratitude. Governor Smith never sat in Tammany Hall with Fall and Dougherty, nor is he indebted to William S. Vare and Andrew Mellon. Has Mr. Hoover did sit for years in the cabinet of Mr. Harding and the cabinet of Mr. Coolidge with Fall and Dougherty, and owes his nomination to Vare and Mellon. Has anyone ever heard the voice of Mr. Hoover raised in condemnation of the actions of these fellow members of his party? What Democrat of Alabama can shrink from Smith on account of his association with Tammany and throw himself into the arms of the Republican machine whose associates and beneficiaries are in no small way made up of public plunderers and false emissaries of the people?

Religious Tolerance

3. Is it because the nominee of the Democratic party for president is a member of the Roman Catholic Church?

Surely no Democrat, no American citizen, could permit such a consideration to govern his political attitude.

The uncontrolled privilege of worshipping God in any manner or form, according to any ritual, or to none, in association with any religious body, or with none, of adhering to any creed, dogma or doctrine, or to none, without hindrance and without penalty, is the dearest right that can be possessed by a human being. That right is not related to the material and the temporal. It is related to the spiritual, and to the eternal. Political freedom, personal freedom are both involved in, and are inferior to religious freedom. It is the fundamental principle upon which this government is founded. It is expressly protected from governmental interference by the Constitution of the United States.

In clause 3 of Article 6 of the Constitution of the United States it is provided:

"But no religious tests shall ever be required as a qualification to any office of public trust under the United States."

In the first clause of the first amendment to the Constitution it is provided:

"Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof."

The greatest leaders of the Democratic party have insisted by word and deed upon the observance of this principle in letter and in spirit. The Democratic party is founded upon the philosophy of Thomas Jefferson. Though Jefferson's life was filled with accomplishments and crowned with the highest honors, he desired to be remembered for but three things. His epitaph, written by himself, recites that he was the author of the Declaration of Independence, that he was the founder of the University of Virginia and that he was the author of the statutes of religious freedom for Virginia. His emancipation of the people of Virginia from ecclesiastical tyranny and oppression, was in his mind, a contribution to human happiness and to human progress that ranked higher than the immortal document that declared the political freedom of the American people, or the institution upon which he founded to liberate them from the bonds of ignorance. Political freedom, intellectual freedom, and greatest of all, religious freedom—these were the works which crowned the life of the founder of the Democratic party. No man can claim to be a follower of Jefferson, a lover of freedom, liberty, or truly devoted to the welfare of his country, who would deny to any citizen of the United States any political privilege on account of his religious views or affiliations.

Nearer to our times than Jefferson was Woodrow Wilson, who selected for the most intimate relationship of Private Secretary, Joseph P. Tumulty, a member of the Roman Catholic Church. Who can suppose that if there had been in the elevation of a Roman Catholic to high place and responsible offices in this country, an opportunity for the insidious sapping of American liberty by the Roman hierarchy, that Woodrow Wilson, as far in sympathy from the papacy as the East is from the West, would have admitted to his most private councils a Roman Catholic and made a Jesuit the repository of the most secret and important affairs of state.

Still nearer to this date was William Jennings Bryan, a Protestant of the Protestants. Dealing directly with the question of the denial of political rights and privileges to a Roman Catholic he said, in words that every Democrat may take to heart:

"I am not willing to bring discord into my party. The Democratic party is united on all of the economic issues. We have never been so united since I have known politics, and nobody has had more reason than I to regret past discord. Now, when we are united and face our political foes with dauntless courage and with enthusiasm never excelled, these people tell us that we must turn aside from this titanic task, divide our party on a religious issue and cease to be a great political force.

"The Democratic party has never taken the side of one church against another; the Democratic party must remain true to its traditions; it cannot surrender its rights to exist; it cannot be false to the mission that it had in the days of Jefferson, to which it remained true in the days of Jackson and to which it was still loyal in the days of Woodrow Wilson.

"My last objection is that I am not willing to divide the Christian Church, because if it is destroyed there is nothing to take its place. We must stand together to fight our battles of religion against materialism.

"There is only one who can bring peace to the world, and that is the Prince of Peace—the One at Whose coming the angels sang, "On Earth peace, good will toward men."

"Jew and Gentile, Catholic and Protestant stand for God, on whom all religion rests, and Protestant and Catholic stand for the Christ. Is it possible that now, when Jesus—the hope of the world—is more needed than ever before—is it possible that at this time, in this great land, we are to have a religious warfare? Are you willing to start a blaze that may cost innumerable lives, sacrificed on the altar of religious prejudice? I cannot believe it; God forbid; I call you back in the name of our party, I call you back in the name of the Son of God and Savior of the world. Christians, stop fighting; let us get together and save the world from the materialism that robs life of its spiritual values. Banish the "Hymn of Hate," our song must be, 'Blest be the tie that binds our hearts in Christian love.'"

The contention that Governor Smith if president would deliver over the government of the people of the United States in political slavery to the Pope, is as ridiculous as would be the contention that because the Republican candidate for vice president has Indian blood in his veins that he would take orders from the ghost of Sitting Bull.

As president of the United States, Governor Smith would not betray his country if he could, and he could not, if he would.

He has been governor of New York for eight years. His private secretary is a Protestant and a 32nd degree Mason, and, although the Roman Catholic population of New York is very large, the great majority of his appointees to office have been Protestants. It is supposed by some that if Governor Smith should be elected president, he would immediately close the public schools and substitute the parochial schools of the Roman Catholic Church. The utter folly of such a supposition is shown by the fact that appropriations for public schools in the State of New York have been, under his urge, tremendously increased during his administration. No act of his, while Governor of New York, can be truthfully pointed to as an act of favoritism to the Roman Catholic Church.

Nor has any Roman Catholic holding high office in this country ever been guilty of such an act. It would be far more dangerous to the liberties of this country, if members of this church held a higher allegiance to it than to their country, for one of them to sit upon the Supreme Court of the United States than to occupy the White House. And yet, a life long and devoted member of that church has occupied the position of Chief Justice more than once, and the liberties of the people suffered no invasion. Roger B. Taney, who was chief justice from 1835 to 1864, and who was appointed by Andrew Jackson, was a member of the Roman Catholic Church, and Edward D. White, who was chief justice from 1910 to 1921, was also a member of that communion. More devoted patriots than these eminent judges never exercised judicial or political power, and those who fear the subjection of this country to the rule of the Pope in the event Alfred E. Smith is elected president, will find him to be as true to his oath to support and defend the Constitution of the United States as have been the other Roman Catholics who have held public office in America. It will not be forgotten that Senator Walsh whose patriotic devotion uncovered the oil frauds and who was a supporter of Mr. McAdoo against Governor Smith, and who was Mr. McAdoo's manager for the nomination is a Roman Catholic.

But even if Smith desired above all things to advance the interests of his church at the expense of the people of the United States, he would be wholly powerless to do it. Congress, not the president makes the laws. How could the president secure the passage of a law that would oppress or injure Protestants in the interests of the Roman Catholic Church through a Congress that always has been, is now, and always will be predominantly Protestant in its membership? Neither the president nor Congress has any power of legislation regarding schools, marriage or divorce, or affecting churches or the religious concerns of the people. These matters each state deals with for itself, and will continue to deal with for itself, whatever may be the religious complexion of those who may at any time compose the government of the United States.

But it may be said, that the president through his power of appointment of judges, ambassadors and other officers of the United States, may deliver over the people to the Pope. The president has no such power. The Constitution provides that he may appoint these officers, by and with the advice and consent of the Senate. The president can only make one appointment without the consent of a majority of the Senate. He can appoint his private secretary, but he cannot appoint a judge, he cannot appoint a postmaster, he cannot appoint an officer in the army or the navy, unless a majority consent. Where then is the power, even if there was the disposition, by which a Roman Catholic president could in any way adversely affect the liberties and interests of the people in favor of this church?

The fact is that the Roman Catholic Church no longer has political power anywhere. It has been located in the heart of Italy for 19 centuries, among a people nearly all of whom yield a spiritual allegiance to it, and in Italy today the Pope has as little political power as he has in Alabama. In Spain, in France, in Mexico, the vast majority of the people are members of the Roman Catholic Church, but in not one of these countries has the Pope a vestige of political power. In the United States about 15 per cent of the total population belong to the Roman Catholic Church. Can it be possible that the people of Alabama are afraid that, under any circumstances whatever, this 15 per cent of the population could subdue and oppress the remaining 85 per cent?

A large majority of the State Democratic Committee and of the National Democratic Executive Committee and of the state campaign committee and the national convention which nominated Gov. Smith are Protestants. Can it be supposed that these intelligent, patriotic Protestants would be willing under any circumstances to support the candidacy of Gov. Smith if there was the slightest danger that his election imperiled the liberty and the happiness of the Protestants of America, or that it would bring them in political or religious subjection to the Roman Catholic Church?

Can you suppose that Josephus Daniels, of North Carolina, or Carter Glass, of Virginia, or Senator Shepard, of Texas, or Pat Harrison and John Sharp Williams, of Mississippi, or George, of Georgia, or John Knox, of Alabama, or Ruth Bryan Owen, the daughter of William J. Bryan, all Protestants, or any other of the host of Protestant Democrats who earnestly and sincerely strive for the election of the Democratic ticket could lend their aid to a movement that could result in the domination of this country by any religious institution. We regret that the campaign as now waged in Alabama against the Democratic party and its nominees, makes it necessary for us to dwell at length on this subject. Democrats of Alabama, let us urge and implore you that we will be misled by the appeals of religious intolerance. There are dangers to you in this election that are real and substantial and of the most pressing moment. Do not let your attention be diverted from them to such imaginary evils as are involved in the religious argument. No danger to Protestant supremacy exists, but, as we will later show you conclusively, from the words of Mr. Hoover, as well as from his deeds, a real danger exists in the impending attack, in the event of his election, upon White Supremacy in Alabama.

Prohibition

4. Is it because of his views on prohibition?

Gov. Smith, despite any assertion to the contrary, stands squarely on the party platform on this subject.

The platform says:

"Speaking for the national Democracy this convention pledges the party and its nominees to an honest effort to enforce the 18th amendment and all other provisions of the Federal Constitution and all the laws enacted pursuant thereto."

This declaration carefully avoids binding any Democrat from suggesting changes in the Volstead act, or in the 18th amendment, or even from advocating its repeal. It does, in the most express and specific terms bind the party to an honest effort to enforce them. The nominee of the party takes his stand, squarely and firmly upon this platform. In his acceptance speech on August 21, he said:

"The president of the United States has two constitutional duties with respect to prohibition. The first is embodied in his oath of office. If, with one hand on the Bible and the other hand reaching up to heaven, I promise the people of this country that, 'I will faithfully execute the office of president of the United States and to the best of my ability, preserve, protect and defend the Constitution of the United States,' you may be sure that I shall live up to that oath to the last degree. I shall to the very limit execute the pledge of our platform to make an honest endeavor to enforce the 18th amendment and all other provisions of the Federal Constitution and all the laws enacted pursuant thereto.

"The president does not make the laws. He does his best to execute them whether he likes them or not. The corruption in enforcement activities which followed a former Republican prohibition administrator to state that three-fourths of the dry agents were political ward heelers named by politicians without regard to civil service laws and that prohibition is the "new political pork barrel," I will ruthlessly stamp out. Such conditions can not and will not exist under any administration presided over by me."

Here is the specific, definite assurance of a man, too honest and too straight forward to temporize, equivocate or straddle. It is the promise of a man who was not willing before his nomination and who is not willing now to placate hostility by deceit. He tells you frankly now, as he told you frankly and honestly before his nomination what his personal views upon this question were and are, well knowing that his frank declaration of his personal views of the way to obtain true temperance endangered his nomination and imperiled his election. He would not deceive you in order to obtain the nomination; he refuses to deceive you now. Can you suppose him to be honest in one thing and regardless of truth when he says:

"If, with one hand on the Bible and the other hand reaching up to Heaven, I promise the people of this country that I will faithfully execute the office of president of the United States and to the best of my ability preserve, protect and defend the Constitution of the United States; you may be sure that I will live up to that oath to the last degree. I shall to the very limit execute the pledge of our platform to make an honest endeavor to enforce the 18th amendment and all other provisions of the Federal Constitution and all laws enacted pursuant thereto."

Can we well pause here to inquire what has been the Republican record in the past seven years in the enforcement of these laws. Let Gov. Pinchot, of Pennsylvania, a Republican of unquestionable integrity, make the answer. We quote from a reported speech of Gov. Pinchot delivered Aug. 31, 1927, before the Congress of the World League against alcoholism, where he says:

"My four years of struggle to make Pennsylvania dry proved that what is needed to enforce the law is just one thing, a determination to see that the law is enforced. The chief obstacle against which I had to contend was not the bootleggers and the vote politicians, not the breweries or the distilleries, but it was the federal government in Washington. The thing which hampered me beyond all else was the refusal of Mr. Mellon to have the law enforced. When the Volstead act was first passed criminals generally assumed that the government would respect and enforce its own Constitution. Consequently, the figure of crime, poverty and drink declined until Secretary Mellon came into office. The present enormous development of bootlegging as a criminal and financial system has taken place entirely under Mellon's administration. If he had done his duty it could never have taken place at all. For many reasons Secretary Mellon is utterly unfit to have charge of the enforcement of prohibition law. The first man Mellon put in charge of law enforcement in his own state of Pennsylvania was a State Senator McConnell, a violent wet, who within three months turned loose 700,000 gallons of whisky on fraudulent permits, the responsibility for the failure in federal law enforcement does not lie at the door of the treasury alone. There is a power in Washington that could have made even Mellon enforce the law. I mean the president of the United States. The trouble with the Coolidge administration is that it has talked in favor of the drys but acted in favor of the wets."

In answer to the charge that Gov. Smith desires the return of the saloon, his language is specific:

"There is no question here of the return of the saloon. When I stated that the saloon 'is and ought to be a defunct institution in this country' I mean it. I mean it today. I will never advocate nor approve any law which directly or indirectly permits the return of the saloon."

Contrast these statements, brave, straightfordward, specific, concrete and definite with the vague generalities of Mr. Hoover. Speaking for the party which for eight years has pretended enforcement of the 18th Amendment and accomplished nothing, Mr. Hoover says:

"I do not favor the repeal of the 18th Amendment."

Here he leaves entirely open the question of "amending it." He can be entirely consistent and not only "favor" but urge its radical amendment to permit the sale of wine and beer, or even distilled liquors under certain conditions. He nowhere pledges himself as does Gov. Smith, that he will never advocate or approve any law that directly or indirectly permits the return of the saloon."

He expressly declines to commit himself to prohibition as a fixed policy of this country. He says that it is "a great social and economic experiment, noble in motive and far reaching in purpose."

He compliments the motive behind the policy, but he studiously refrains from committing himself, or the Republican party to a continuance of that policy. He describes the policy as an "experiment." An "experiment" is a trial. It may prove successful and be adopted, or it may prove unsuccessful and be abandoned. That is Mr. Hoover's attitude. He proposes to have a committee to examine into the question and report. If his fact finding committee reports that the 18th Amendment is unworkable and should be amended out of all resemblance to itself, Mr. Hoover can, with perfect consistency, use every power of his office to have that report enacted into law. Who can doubt but that Mr. Mellon and Mr. Vare would influence the action of that committee?

The charge that Gov. Smith has repudiated the platform is false on its face. He commits himself, unreservedly and in the clearest and most emphatic terms to the enforcement of the law. The platform requires no one to do more. This was expressly stated by Carter Class in reporting the platform of the convention. Senator Glass said, in moving the adoption of the platform:

"It is a declaration of such simplicity and such clarity that any patriotic citizen, be he of whatever political faith, be he wet or dry, can stand upon, and the platform declarations upon which the nominee of this convention must stand if he shall conscientiously take the office of president of the United States will not commit anybody to the theory of prohibition. It does not constrain or restrain anybody of the opposite opinion."

The views expressed by Gov. Smith as to the most effective way to promote true temperance are, as expressly stated by him, his personal views alone, and they do not conflict with any declaration of the Democratic party.

But, if you were doubtful of the sincerity of Gov. Smith, Democrats ought not to sacrifice the party welfare and the substantial benefits that will result from Democratic success, on this account, because it would be impossible for the president to change this law one jot or tittle without the consent of Congress. That Congress is in control of this situation, and independent of the president was clearly shown when the Volstead Act was passed. When it was presented to Woodrow Wilson, that giant of Democracy, that great leader of the moral forces of the country, whom every Democrat reveres, he disapproved the Volstead Act and vetoed it, but Congress passed it over his veto. Unless two-thirds of Congress wants to change the 18th Amendment, or a majority of Congress wants to amend the Volstead Act, they will not be amended or repealed, notwithstanding what the president may want.

But it is said that Gov. Smith, if president, would appoint judges who would declare the law unconstitutional. We have already shown you that the president can appoint no judge without the consent of the Senate. This supposed power of nullification by judicial appointment by the president does not exist, because the Senate must approve all appointments.

These considerations must convince you that there is nothing for you to fear from Gov. Smith's connection with Tammany, or his personal views on prohibition or his membership in the Roman Catholic Church. We ask

(Continued on next page)

you to give them your fair, thoughtful, honest consideration. If you will do this, we are in no doubt as to the conclusion you will reach.

Conclusive Reasons for Supporting the Ticket

We invite you now to consider some of the reasons why you should enthusiastically support the Democratic party and nominees. These will be more elaborately discussed during the progress of the campaign.

To our friends who call themselves "Anti-Smith Democrats," let us say that as long as Gov. Smith is the nominee of the Democratic party, an "anti-Smith Democrat" is, and can be nothing but an "Anti-Democratic Democrat," which is merely a pleasant way of calling oneself a Republican.

Gov. Smith is the representative of the Democratic party. He can no longer be considered as an individual, but must be considered for and what he is, that is, the representative of the party. Therefore, when you declare yourself against Gov. Smith, you declare yourself to be against the representative of the party, and when you oppose the representative of the party, you, of course, oppose the party.

In addition we invite your attention to the fact that the Democratic party has nominated for vice president, Senator Joseph T. Robinson, a Southern man, [illegible] The names of these men will appear on the ballot. You can only vote for or against them by voting for or against the Democratic party. If you want to vote against Smith you will have to vote against the Democratic electors, and when you do you will also vote against Senator Robinson. You cannot separate the two. If the Democratic electors are defeated in Alabama, the vote of the state will be cast for Hoover and Curtis and against Smith and Robinson. Democrats of Alabama, will you allow your prejudices and fears to induce you to vote for Charles C. Curtis, against your fellow Southerner, Joseph T. Robinson? Senator Curtis brings a sentimental appeal in that part of the blood which flows in his veins, that of the Kaw Indian, and that it would be poetic justice to have a part descendant of the Indians elevated to high office in the land which they once owned. But the claim which Senator Robinson has upon your affections and your loyalty as a man who was born and who has spent his whole life in the South, who is in favor of and sympathetic with our problems and traditions, is far stronger. Remember that if you mark a ballot for the Republican electors, you are voting against Joseph T. Robinson, your partys nominee for vice president, the first Southern man on a national ticket, probably within the memory of any living man, a white man, a Protestant, a prohibitionist and a Southerner. We commend his speech of acceptance to your consideration.

And remember also if you mark a ballot for the Republican electors you are not in the company of Gov. Graves, of Gov. Brandon, of Gov. Kilby, of Gov. Jelks, of Gov. Henderson, of Oscar W. Underwood, of Hugo Black, of Carter Glass, of Joseph Daniels, of Morris Sheppard, of Pat Harrison, of Mrs. Woodrow Wilson, of James M. Cox, of John W. Davis, Chas. W. Bryan, Ruth Bryan Owens, brother and daughter of William Jennings Bryan, and all other members of his family and of his private secretary for years, of John Sharpe Williams, or any of the tried and true friends of the South and of prohibition. These will all be voting for the Democratic electors. Those who mark a ballot for the Republican electors may be assured Secretary Fall in New Mexico, Harry Daugherty in Ohio, as well as former Gov. McCray of Indiana, recently released from the penitentiary and Gov. Jackson of Indiana, indicted for a felony and acquitted on a plea of the statute of limitations, and Perry Howard, the negro member of the national Republican committee in Mississippi, will be doing the same.

Gov. Smith, as we have stated to you is not only a man of pure and unblemished character in public and private life, but he is the ablest executive in America. After he had served in the New York Legislature, he ran for sheriff of New York County and The New York Tribune, a Republican newspaper, said of him, that the people of New York could well afford to pay him $100,000 a year to keep him in the Legislature in order that the people of that state might have the benefit of his intellect and character. The Tribune further said:

"He has done the state and the city more good during the 10 years of his membership than all of the rest of the Legislature put together."

Republicans and Democrats alike have joined in keeping him as governor of New York because of his ability as an executive officer and his character and intelligence as a man. The farmers of this state should be especially interested in his election. Gov. Smith, in his speech accepting the nomination, commits himself to several policies beneficial to the farmers.

We commend this speech in its entirety to your careful consideration. You will be impressed by his candor, his courage, his refusal to hide behind generalities and the definite, specific nature of the policies declared and the position assumed. Especially do we call the attention to the farmers to the fact that he promises that if he is elected president that he will not wait until he is inaugurated to consider farm relief, but that he will, immediately upon his election, call the representatives of the farmers to consult with him to determine upon a plan of relief for the farming industry, so that it can be introduced into Congress as soon as he takes office, and that he will support the plan devised until it becomes law. As to farm relief he says I propose to substitute action for inaction and friendliness for hostility.

Southern farmers [illegible] ber last September [illegible] cotton was selling for [illegible] 23 cents a pound and headed for over 25 cents, that the Bureau of Economics of the Department of Agriculture, presided over by Mr. Jardine, one of Mr. Coolidges' Republican friends, gave out a statement to the effect that the price was much too high. Cotton immediately started a decline that lasted until it reached 16 cents. This Republican board cost the farmers of the South $35 per pale on their cotton. This price prediction was no part of the duty of the board and its conduct was regarded as so outrageous that Congress passed an act prohibiting them from making price predictions in the future. So unfriendly to the Southern farmer was this board considered, that Southern senators and representatives demanded that the head of it be discharged, but a Republican president and a Republican secretary were so well satisfied with this work that the demand was refused. It is nothing to the Republican party that the Southern farmer has to sell his cotton for $30 per bale when he was entitled to receive $125 per bale. Are Southern Democrats going to vote for a party who have without remorse caused a loss of hundreds of millions of dollars to the cotton planter in the South? This is but one of the innumerable crimes of the dastard Republican party to destroy the Southern people, politically and economically. Ever since the close of the Civil War it has never lost an opportunity to do the South an injury. The Republican party which in the days of Thad Stevens used federal bayonets to put former slaves in the Legislature to oppose their former masters, desired Steven's expressive language to see the 'black heel on the white neck,' and did their best to accomplish it. This is the same Republican party which outraged the people of Indianola, Miss., by appointing Minnie Cox, a negro woman, as postmistress, and the people of New Orleans, by ramming down their throats Walter Cohen, a negro, as collector of the port. This is the same Republican party which has time and again endeavored to pass a bill through Congress providing for the control of our elections by federal soldiers so that the negro can again be elevated to a position of authority over us. This is the same Republican party which is still trying to pass a bill to make the whole community responsible in cases when a negro is lynched and makes this policy a plank in its platform. This is the same Republican party whose nominee, Mr. Herbert Hoover, in order to appeal to the negro vote in Ohio, caused social equality, so far as he could, in the Department of Commerce, of which he was secretary, by abolishing the rule which placed negro employes of the department off to themselves. Mr. Hoover abolished this rule which had been in effect for many years just before the Ohio primary this Summer and presumably he did it to appeal to the negro vote in that state, or at the demand of some negro politician. The result of that order is that in the department presided over by Mr. Hoover, the man for whom you are asked to desert your party, negro men now dictate letters and give orders to white girls and occupy seats beside them. Do you care to endorse this action by voting for him and deserting the white man's party? If you vote for Mr. Hoover you vote for a perpetuation of this policy and for the anti-lynching plank in the Republican platform. This is the same Mr. Hoover who owes the vote of Mississippi and Georgia in the convention which nominated him to the negro members of the national Republican committees in those states.

This gives you a slant on Mr. Hoover's ideas and makes the threat contained in his speech of acceptance, that he would see that the Fifteenth Amendment to the Constitution, which is the amendment giving the negro the right to vote, would be enforced in the event of his election, a pressing danger to the white race in the Southern states. Here is what he said: He was discussing the enforcement of the Eighteenth Amendment, but in the course of his remarks, he made a promise that is clearly a pledge to the negro that he will enforce his claimed right to vote. He said:

"Change in the Constitution can and must be brought about only by the straightforward methods provided in the Constitution itself. There are those who do not believe in the purpose of several provisions of the Constitution. No one denies their right to seek to amend it. They are not subject to criticism for asserting that right. But the Republican party does deny the right of any one to "seek to destroy the purposes of the Constitution by indirection."

The Republican party has always claimed that the Southern people have nullified the Fifteenth Amendment to the Constitution, and that is the Amendment to which Mr. Hoover refers when he says:

"There are those who do not believe in the purposes of several provisions of the Constitution."

The Fifteenth Amendment is as follows:

"The right of citizens of the United States to vote shall not be denied or abridged by the United States, or by any state on account of race, color, or previous condition of servitude."

Through our Constitution the Southern states have relieved themselves of the danger of the negro vote, but there is not a session of Congress in which some Republican member does not charge that in so doing we have nullified this provision, and when Mr. Hoover said, "There are those who do not believe in the purposes of several provisions of the Constitution," he can only be understood as saying: "The Southern people do not believe in the purposes of the Fifteenth Amendment to the Constitution. No one denies their right to seek to amend it. They are not subject to criticism for asserting that right, but the Republican party which insists upon political rights for the negro, does deny your right to prevent the negro from voting except by repealing that amendment."

That is the plain English of Mr. Hoover's statement. He plainly states in language veiled so that we may not perhaps catch his meaning, but plain enough to the negroes to whom it will be pointed out, that if he is elected president he will see that the Fifteenth Amendment is enforced.

It is significant and illuminative of what was passing through Mr. Hoover's mind when he made this statement, that though he was discussing the Eighteenth Amendment, he made reference to other provisions of the Constitution whose purposes should be enforced.

It was the Southern states that gave the greatest impetus to the movement to adopt the Eighteenth Amendment. The presence of the large negro population in the South was the condition out of which our prohibition sentiment grew. Mr. Hoover recognized these facts, and it was in his mind that if the South demanded the enforcement of the prohibition amendment, they would have to pay, as the price of that policy, the enforcement of the Fifteenth Amendment. Clearly the two stood on an equal footing in his mind, and clearly he said that the South could not insist upon the enforcement of the 18th Amendment [illegible] "by indirection" [illegible] Who was it, did he say, [illegible] denied the right of any one to nullify any of the purposes of the Constitution by indirection. He said it was "The Republican party," who took this position. The Republican party wrote the Fifteenth Amendment into the Constitution, and it is the author and parent of this amendment who, according to Mr. Hoover, denies the right of anyone to evade it by indirection.

Observe also how carefully his language is adopted to express his exact thought. It is the "purposes," that is the "intended result," of several provisions of the Constitution which he says we do not believe in, and the "intended result" of those provisions which the Republican party denies our right to destroy except by repealing the amendment. The "purposes" of the Fifteenth Amendment were, undoubtedly, to put the negro on the plane of political equality with us. We have lawfully met the provisions of the Fifteenth Amendment in a way which does destroy its purposes, and this it is which he says the Republican party denies we have the right to do. Clearly and plainly he says that the Republican party will not content itself with the enforcement of the Eighteenth Amendment, but that we, the South, must take, along with that, the enforcement of the Fifteenth Amendment according to its "purposes."

A Republican Congress and a Republican president can enforce it. An act of Congress providing for federal registration of voters and federal supervision of elections as a necessary means of enforcing this amendment would be upheld by the Federal Courts, and the frightful spectacle of negro domination, with all the conflict and bloodshed that would involve would again confront us, but in a more dangerous and horrible aspect than in the past.

Our attention has been directed to a statement on this subject prepared by a great Democrat of Talladega County. His logic cannot leave you unmoved. It is as follows:

"Not since reconstruction days has the issue been so sharply drawn as in this race.

"Those who would persuade you to depart from the house of your fathers deny this issue on the grounds that New York state permits negro social and political equality. They do not point out that this has been true in New York for more than half a century, and was true when you were voting for Cleveland and Davis—both citizens of New York. Neither do they point out that the Southern white voter is not interested in what New York State, through her Republican vote has done for the negro but he is vitally interested in what the National Republican Party proposes to do for the negro in Alabama.

"We know what this party tried to do in reconstruction days and what in every Republican Congress since that time they have tried to do with Force bills—reducing our Congressional representation, anti-lynching bills and the like, and we further know that the only power that has saved us from subjugation has been the militant solid Democratic South. Heretofore the lines between friends and enemy have been sharply drawn. Let us examine the facts and see whether we can now with safety go into the camp of our hereditary enemies.

Prior to the time he became a national candidate Hoover was content with the decency of race segregation in the Department of the Census, over which he had control. After becoming a national candidate and wishing to prove his Republicanism he issued an order destroying this segregation and mixing together at their work white and negro men and women. That action has a national significance.

When Hoover and his friends planned his campaign in the National Republican Convention in Kansas City they selected a negro named Hawkins as one of those to second Hoovers nomination, and this he did. Have you read this speech? If not do so before you cast your vote in November. In it Hawkins claimed that the Pilgrims who landed at Plymouth and the negroes who landed at Jamestown alone had developed the United States without the aid of the Southern white men and women and that now they should rule it. Further that the negroes now needed another liberator like Lincoln to not only guarantee but protect them in the exercise of all the privileges guaranteed them by the Constitution and that they had found such a liberator in the man he so cheerfully seconded—Hoover.

The significance of this is not that a negro should hold these sentiments—but that the National Republican Convention should place upon them its stamp of approval.

And did Hoover repudiate these sentiments? Not at all. On the contrary he placed upon them his stamp of approval by promoting Hawkins to one of the chief chairmanships of committees in his campaign organization, this committee being composed of negro men and women from every state in the Union, including Alabama. In addressing the members of his committee Hawkins gave a remarkably clear definition of the Republican party as follows:

"The Republican party is our party, conceived in liberty and dedicated to the task of improving our civic and political status and condition."

The significance of this is that it is the official pronouncement of one of the accredited leaders of Hoover in his campaign to become president of the United States, including Alabama.

Do not be misled. Our government has always, is now, and of necessity always will be, one of parties. You cannot separate the candidate from the party. You cannot vote against Smith without voting against white supremacy. You cannot vote for Hoover without endangering the Solid South. And if you succeed in breaking the Solid South, you will awaken to the fact that you have destroyed your party and will have none to which to return.

The Democratic party alone has thus far guaranteed to you the very security of your homes.

Will you remain loyal to the party of your fathers or will you desert to the party of Hawkins?

This is a real, substantial and pressing danger, beside which the imaginary fear of Roman Catholic domination pales into insignificance.

No greater tribute can be paid to the constructive services of Gov. Smith and his magnificent record as governor of New York than the fact that capital and labor applaud him. When heads of great industries leave the Republican party to support him, it is conclusive that the business interests of the country do not fear his election. In an Associated Press dispatch of Aug. 28, sent from Rochester, N. Y., it is said:

"Delegates to the sixty-fifth annual convention of the New York State Federation of Labor Tuesday wildly cheered the mention of the name of Gov. Alfred E. Smith, although the federation professes to be non-partisan in the coming presidential campaign.

William Green, president of the federation, referred to the Democratic presidential nominee as 'a great outstanding figure' and the 500 delegates, representing more than 850,000 organized workers, came to their feet and shouted, stamped and clapped for two minutes.

Later by acclamation this convention endorsed the candidacy of Gov. Smith.

When labor and capital both recognize him as a friend after his thirty years of public service, no one can be in doubt of his fairness, his justice, his wisdom and his courage.

His speech abounds with evidences of his friendly attitude towards men that labor. He promises that:

"I shall continue my sympathetic interest in the advancement of progressive legislation for the protection and advancement of working men and women. Promotion of proper care of maternity, infancy and childhood and the encouragement of those scientific activities of the national government which advance the safeguards of public health, are so fundamental as to need no expression from me other than my record as legislator and governor."

Foreign Policy

The foreign policy outlined in Gov. Smith's speech must meet universal approval. He recognizes and declares that in our foreign policy we must rise above partisan politics and act as a united nation. He recognizes the right of the Senate to deal with this question in conjunction with the executive, and condemns the policy of the present administration in carrying on what is, in fact and in truth, a war in Nicaragua without congressional sanction. He upholds the Monroe Doctrine but declares that it shall not be used as a pretext for interfering with the domestic concerns of the Latin American countries. He pledges himself to a real endeavor to make the outlawry of war effective by substituting therefor methods of conciliation, arbitration and judicial determination. In the discussion of this subject he reveals himself as a progressive, but sane, ideal, but practical.

Economy

He pledges himself to a real, instead of the pretended economy of the Republican administration. He pledges himself to cut off many useless bureaus and to effect a real reorganization and consolidation of governmental activities upon a business basis, and institute the real economy which comes from prudent expenditures. He has done this in New York State. He can and will do it in the United States to the great relief of the overburdened taxpayer.

The Democratic Party In The South

For more than fifty years the Democratic party has been our sole refuge from political oppression, and governmental tyranny. During this long period it has been the only agency through which we have maintained our social and racial integrity. Through it and it alone, we have preserved our civilization, and to it alone we can look for the future. It must be supported and maintained at every hazard, and by every necessary sacrifice of personal opinion or ambition.

These things must not be, they cannot be, forgotten by those members of the party who feel aggrieved by the nomination of Gov. Smith, nor can they, as patriots and lovers of their country, be unmindful of the fact, whatever their objection to him personally may be, that opposition to him is, at this time, opposition to the political agency which has been our salvation in the past, and to which alone we can look for sympathy, and for fairness in the future.

W. [illegible] OLIVER.
As Chairman of the State Democratic Campaign Committee.

A Proclamation

BY THE GOVERNOR

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out; and

Whereas, notice of such election, together with the proposed Amendment, is required by law to be given by proclamation of the Governor;

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice direct and proclaim that on Tuesday, the 6th day of November, 1928, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

... Article XI. Section 216-A. In addition to the taxes which the City of Birmingham is authorized to levy and collect under the Constitution as heretofore amended, said city shall have the power and right to levy and collect in any year or years for any municipal purpose or purposes, any rate of tax, not in excess of one-half of one per centum, on property situated therein, based upon the valuation of said property as assessed for State taxation for the year next preceding the levy, which a majority of the qualified electors of such city voting at an election called and held as hereinafter provided, may authorize for such purpose or purposes. Said tax shall be used only for the purpose or purposes for which the same is authorized, levied and collected. Such election shall be ordered, held, canvassed, and the returns contested in the same manner as may be provided by law applicable to municipal corporations for elections to authorize the issuance of municipal bonds. The ballots used at such election shall contain the words: "For authorization of additional taxation at a rate not to exceed ... per cent for the year (or years) ... for the purpose or purposes of ..." and "Against authorization of additional taxation at a rate not to exceed ... per cent for the year (or years) ... for the purpose or purposes of ..." The rate of tax proposed shall be printed upon the ballot in the space immediately preceding the year or years in which the proposed rate is to apply, and the purpose or purposes for which same tax is to be used, shall be likewise printed in the respective spaces immediately thereafter. The voter shall record his choice either for or against authorization of the proposed rate for the proposed purpose or purposes by placing a cross mark before or after the words expressing his choice. Nothing herein contained shall in any way change or effect the rights of any holders of bonds of said municipal corporation heretofore issued. Elections in said municipality to authorize the levy of such special tax may be held as often as ordered by the governing body thereof, but when a proposition is submitted to the electors of said municipality for authorization to levy a special tax for a specific purpose and such proposition is defeated, no second election for the same purpose shall be held in such municipality within one year thereafter. This section shall be self-operative without any additional legislation."

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next preceding the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

BIBB GRAVES,
Governor.

JNO. BRANDON,
Secretary of State.

MT PISGAH NEWS

Let's everybody remember to meet next Sunday at wto o'clock to have Sunday School, then sing some. Everybody has a special invitation to attend. Bring your 1928 song book.

We were proud of such a large crowd last Sunday at Sunday School. We invite you to come again.

Mr. an Mrs. D. L. Holley and children spent Friday at the home of I. B. Yeargen.

The friends of Mr. J. L. Holey will regret to learn that he has been very ill. At this writing he is improving slowly.

Mr. and Mrs. Jim Williams of Thorsby spent Sunday afternoon with Mr. and Mrs. I. B. Yeargen.

Mr. A. F. Brown of Birmingham spent the week end with relatives.

Miss Ethel Yeargan spent the latter part of the week with her cousin, Miss Effie Mae Partridge of Cooper.

CROPS AFTER VETCH MAKE BIG YIELDS

Auburn, Ala., Sept. 10.—"The proof of the quality of pudding is in the eating" is the way Alabama farmers who have tried hairy vetch talk about it. Not only are they talking about it but showing results in the way of bumper crops of corn and cotton planted after a crop of vetch is plowed into the soil last spring.

Despite a very unfavorable season big yields of cotton and corn are being made after vetch, according to reports sent in by county demonstration agents to their district agents and to extension specialists of the Alabama Polytechnic Institute at Auburn. In some of the counties yields of cotton will be a bale or more per acre and the corn yields 30 to 40 bushels or more.

During the last few weeks thousands of farmers have visited these farms to see the effects of hairy vetch which is a "wonder crop" when it comes to enriching the soil. And seeing results is believing, the county agents say.

When these farmers made a study of their costs they found that fertilizing land with vetch was much cheaper than buying nitrogen in commercial form. When the two are compered they find that the vetch cost is less than 50 per cent of the cost of commercial nitrogen.

As a result of these demonstrations Alabama farmers are preparing to plant larger acreage in hairy vetch this fall. The Alabama Farm Bureau Federation is handling seed on a cooperative plan and all county Farm Bureaus are collecting orders from the members. The seed are being planted as recommended by the county agents. Recent rains have put Alabama land in good shape to plant winter legume seed.

See your County Agent at an early date about your order for vetch seed.

NOTICE OF GENERAL MUNICIPAL ELECTION

Notice is hereby given that a General Municipal Election will be held in the Town of Clanton, Alabama, on Monday, September 17th, 1928, for the purpose of electing a Mayor and five councilmen to serve said Town, for the next ensuing term, as prescribed by law, and that said election will be held and conducted under the provisions of the law made and provided for holding of General Elections, and that the polling place for said election will be in the Court House in said Town, and that J. L. Johnson, L. E. Diefenderfer, and T. J. Littlejohn, have been appointed Managers, and Mrs. N. S. Johnson and Mrs. Jas. C. Jones, Clerks, and J. A. Boockholdt, Returning officer, by the Council, to hold said election.

Witness our hands and dated this the 4th. day of September, 1928.

J. B. ATKINSON,
Mayor of the Town of Clanton.
J. H. PLIER,
Clerk of the Town of Clanton.
No. 50-2t

NOTICE OF SALE OF BONDS

State of Alabama—Chilton County.

NOTICE OF PUBLIC SALE OF $8,000.00 of Clanton, Alabama, 6 per cent Public School Bonds.

M. sell for cash and accrued interest to date Eight Thousand Dollars ($8,000.00) Clanton, Alabama Public School Bonds. Said bonds to be in the sum of $1,000.00 each and to draw 6 per cent interest thereon from the first day of June 1926, Said last named date being the date of said Bonds and said bonds mature on the first day of June, 1946.

This the 23rd day of August, 1928.

J. B. ATKINSON, Mayor.
J. H. PLIER, Clerk.

COOPER NEWS

Mr. and Mrs. Harrison Smith and children of Eclectic spent the week end at home with Mr. and Mrs. Joe Kelley.

Mr. N. J. Robinson was the guest of Mr. Philip Cooper Saturday night.

Mrs. DeShazo of Birmingham was the guest of her mother, Mrs. Mollie Mooney and children the past week end.

A large crowd of people were delightfully eentertained with music at the home of Jannie Allen Saturday night by some friends from near Wetumpka. Quite a number from Clanton were present.

Mr. and Mrs. Tom Mooney and Mrs. Jones motored to Isabella Sunday afternoon.

Walker Allen was the dinner guest of Luke Calloway Sunday.

Mrs. Bennie Clemmens and two small children who have been making a visit in Montgomery have returned home to her mothers, Mrs. Harley Calloway.

Mr. and Mrs. Hubbard Allen and children of Lock 18, with some friends motored to Cooper and spent Sunday afternon with Mr. and Mrs. J. T. Allen

FACULTY AT ALABAMA COLLEGE IS ENLARGED

Montevallo, Ala., Sept. 10.—Guy C. Allen, in charge of the Guy C. Allen Studios in Birmingham, has been appointed professor of piano at Alabama College, it was announced by President Carmichael. Mr. Allen formally was director of music at Judson College at Marion, Ala., and of Lander College, S. C.

Appointment of Miss Ivol Spafford, supervisor of home economics for Alabama, as a faculty member was also announced. Dr. Carmichael said she will continue her work as home economics teacher for the state, but will devote considerable time to administration work for Alabama College.

SMITH-EDMONDSON MARRIAGE SOLEMNIZED

On last Friday afternoon, September 7th, Miss Marie Edmondson, the attractive daughter of Mr. and Mrs. R. T. Edmondson of Maplesville, Ala., became the wife of Mr. Charles Lamar Smith, of Siluria.

The ceremony was performed at Columbiana, Ala., with only a few intimate friends present.

Mrs. Smith is one of the most popular young ladies of Maplesville, and having lived there for several years, has a large circle of friends, to whom her marriage came somewhat as a surprise.

Mr. Smith, whose home is in Siluria, Ala., is a very popular young man, and holds a responsible position with Mr. W. A. Taylor, road contractor.

Mr. and Mrs. Smith are at present making their home in Maplesville. Announcements of their marriage are being received by their many friends.

Take notice that under the 1923 Revenue Code it is the duty of every person in each Election Precinct to attend in person on the day of the appointment in your Precinct and then and there render to the Assessor a full and complete list of all the property of which he or she was owner on the first day of October of that year. All taxes and assessments are delinquent after December 31st, 1928.

J. T. ROCKETT, Tax Collector.
S. M. PATE, Tax Assessor.

A new gasoline experience—
actually—NEW MILES per gallon

IT is a fact that the *new* Texaco does give better results—measurably better. It has at once overcome the limitations of the older type of engine and enhanced the performance of the new.

You can't be mistaken. You see the record of actual miles rolling up on your speedometer. You notice the ample gasoline reserve and the fewer filling stops. Your car is the same, but the *new* and *better* Texaco is a different gasoline—more miles to the tankful.

That's the difference between dry gas and wet! The *new* and *better* Texaco, vaporizing to a dry gas, enters the cylinders and ignites instantly. It burns freely and delivers *all* its power in that split fraction of a second of the power-stroke.

Wherever you stop for gasoline, see to it that your car draws up beside the Texaco pump. Look for the Texaco Red Star and Green T.

Not WET . . . . . But DRY

ATOMIZED

A wet gas is an atomized mixture of gasoline vapor with liquid drops of raw gasoline. These drops, separating at every manifold bend, result in uneven distribution and loss of power.

A dry gas, the *new* and *better* Texaco, vaporizes completely. It is a perfect mixture of dry gasoline vapor and air which provides an even flow of fuel and power to every engine cylinder.

VAPORIZED

THE TEXAS COMPANY, 17 Battery Place, New York City
Texaco Petroleum Products

The NEW *and* BETTER
TEXACO
GASOLINE

THOSE WHO COULD BEST AFFORD TO BE CARELESS SELDOM ARE

IF carelessness about lubrication were merely a matter of wasted money there are plenty of well-to-do people who would never give the matter a second thought.

But to have a car's performance on the road spoilt! That's another story, and a sad one. Swift, comfortable, silent transportation; that is what you expect from your car today, and that is precisely the condition that Texaco Motor Oil facilitates to the maximum.

But the big point, after all, that one gains at the sign of the Texaco Red Star and Green T is *—absolute certitude of clean, clear, golden motor oil of the right grade, Texaco.*

The Texas Company's refinery engineers for years sought to find methods which would remove everything from motor oil that was not lubricant

When this super-refining was perfected the resulting oil was of a pure golden color. To have made a motor oil of real body so pure was a real triumph. The results you see and experience today every time you are supplied with golden Texaco Motor Oil.

VOLUME 6 — CLANTON, ALABAMA, THURSDAY SEPTEMBER 20, 1928 — NUMBER 52

Eric Hart Elected Mayor of Clanton

Big Vote Cast In General Municipal Election Last Monday

The general municipal election held in Clanton last Monday for the purpose of electing a Mayor and five Councilmen, resulted in the election of Eric Hart as Mayor and H. S. Shaw, J. W. Franklin, Grady Broadhead, W. T. Baker and Reedie Taylor as Councilmen. Messrs Franklin and Broadhead were the only two successful candidates out of the four out for re-election.

While Eric Hart was the only announced candidate for Mayor, considerable opposition developed at the last and friends of Dr. V. J. Gragg wrote in his name and gave him what is considered a very complimentary vote, under the circumstances, though Hart was elected by more than three to one.

There were twelve names that appeared on the printed ballot, and though Messrs. W. W. Jones and Leonard Williams announced that they were not eligible to hold office if elected, several voted for them.

In the race for Councilmen H. S. Shaw lead the ticket with 383 votes; J. W. Franklin, was next with 303; Grady Broadhead was close to the latter with 302; Reedie Taylor picked up an even 300 while 250 were cast for Mr. W. T. Baker.

Below is the ticket showing votes polled by each individual:

FOR MAYOR

Eric Hart	342
V. J. Gragg	103

FOR COUNCILMEN
(Vote for Five)

W. T. Baker	250
Grady D. Broadhead	302
J. W. Franklin	303
W. W. (Bud) Jones	6
J. P. Lawrence	188
W. M. Polk	91
Jno. (Doctor) Robinson	170
A. C. Smith	67
H. S. Shaw	383
Reedy Taylor	300
Leonard Williams	23
D. A. Wingard	124

THORSBY INSTITUTE MAKES GOOD OFFER TO STUDENTS

In this issue of the News will be found the ad of the Thorsby Institute, in which they are making very attractive offers to boys and girls who have reached the eighth or ninth grade of a school in Chilton County.

Thorsby Institute offers to every ninth grade pupil who stands second in his or her class, a free tuition scholarship in the Institute for one semester of the year 1928-29.

These free scholarships will not be available to any pupil whose average grade for the school year falls below eighty-five or to any student who cannot conform to the conduct regulations of the Institute. The ad also states that of any school in the county does not do ninth grade work, then the pupils of the eighth grade of this school, whose marks are up to the requirements, may consider this offer made to them.

S. JACK JENNINGS OF CALERA DIED SEPTEMBER 12

After a lingering illness, Mr. S. Jack Jennings died at the Central Alabama Hospital here Wednesday, Sept. 12. Mr. Jennings was sixty years old at the time of his death.

The deceased was at one time a resident of Clanton, living here some twenty odd years ago. He was at one time a school teacher of prominence and will be remembered by many as an old insurance agent of this section.

Mr. Jennings was a familiar figure around Calera, and has many friends in this as well as other sections who will greatly miss him. His body was prepared for burial by J. Mell Martin local undertaker, and shipped to Talladega Springs, where interment took place.

DAUGHTER OF MR. AND MRS. E. M. ATCHISON DIED MONDAY

Lillie Mae, the five-year old daughter of Mr. and Mrs. E. M. Atchison died at the home of her parents, last Monday morning, September 10, following a short illness.

The little body was laid to rest in Macedonia cemetery last Monday afternoon. She will be greatly missed from among those who knew her.

Mr. and Mrs. Joe Calloway spent Sunday in Montgomery.

THORSBY INSTITUTE OPENED 1928-29 TERM SEPTEMBER 12

The Thorsby Institute at Thorsby, Ala., had its opening day on Wednesday, September 12, at ten o'clock in the morning.

The opening exercises were held in Helen Jenkins Hall, with a large attendance of pupils, parents and other friends of the school. Several new teachers and instructors were presented and several speeches made by the different members of the faculty of the institute.

A large attendance of students was evident on the opening day, however, we are informd that the Institute is not crowded and is in position to enroll quite a few more for boarding also. It is reported that enrollments are steadily coming in and another fine term is ahead for this splendid schoool.

CARL C. PETERSEN ELECTED MAYOR OF THORSBY

In the city election of Thorsby, Ala., which took place last Monday, Sept. 10, Mr. Carl C. Petersen was re-elected Mayor, having as his opponent on the ticket Mr. D. Gentry.

The following men were selected as Councilmen, for the coming term: S. M. Pate, W. J. Billingsley, J. M. Smith, M. J. Soberg and M. E. Willis.

CHILTON HIGH FOOTBALL TEAM SHOWING UP FINE

To Open Season On The 28th Of This Month With Isabella High School

The Chilton County High school foot ball team which proves annually to be one of the strongest high school teams in the state, is rapidly falling into fine shape for the coming season which will open here on the 28th of this month with a game against Isabella High School. The game is scheduled to be played on the local field and promises to be a dandy. Reports from Isabella are to the effect that they want action.

Coach O. V. Bruner has had the Chilton High boys on the practice field every afternoon, drilling them to the limit. A practice game was played last Friday afternoon between the two teams of the local high school, and some unusual points of many players were brought to light in this game. Bill Minor, the small flashy half-back of the reserve team, grabbed a forward pass and didn't stop until he had made an eighty-five yard dash down the field. He also made a snappy twenty-five yard dash with the pigskin during this practice game, which from an outsider would have appeared as a game between two bitter opposing teams.

Nelson and Melton, both full-backs, have proven themselves good line busters, being in the bunch classed as the hard-hitting, hard-driving backfield. Bruner and Simms, showed up exceptionally well on off-tackle plays. Simpson and Baker also showed up fine.

Brown, Wagner, Roberts, Retherford, have been showing up real well in scrimmages and other practices. Retherford plays center, and was in that position on the team last year.

Coach Bruner states that he is very well pleased with the outlook for his team this year, however, he states that each player could take a little more interest in the game and he believes would show up better. Bruner believes in making his players work to the best of their ability, and last year's team was proof that he is not wrong in his idea of making them work.

Following we give the games on schedule at the time of this writing: First game will be with Isabella High, Sept. 28, to be played here; Marbury on October 5th, here; Coosa County High on October 12th, here; Dadeville on October 19th, here, this game is pending at this time; Selma High on October 26th, at Selma; Lineville on November 2nd, here; Tuscaloosa High on November 16th, here; and Prattville on November 23rd, this game is also pending at this time.

Up until now, there has been no game scheduled for Thanksgiving Day and Coach Bruner stated that this date is now open to any strong team, and is to be played here.

It is nothing but right that the people of Clanton should turn out to these games, as practically all of them are to be played on the local field. Be there and boost your own home team. You will be proud of them once you see them in action.

EDITORIALS

The New City Officials

Now that the city election is over, and the voters of the town have expressed their wishes as to the men they wish the affairs of the town left with, it is the duty of those who did not support the winners, to give their co-operation in every way possible to help the able bunch of city officials in all of their undertakings for a bigger and better Clanton.

The News believes that the men elected as councilmen as well as the Mayor, are all men who are interested in the future well-fare of Clanton, and are men who can be depended upon to do their duty in a just and fair manner, and if they are given the co-operation of the citizenry of the town, there is no reason why Clanton will not continue to grow and thrive as she has in the past.

Aside from the regular routine of business that will confront the newly elected officials, careful consideration should be given to the erection of a city hall, which we believe could be built and arranged in a manner whereby the hall could be used to house the new fire engine, office of the Mayor and Clerk, with probably additional office space and an auditorium.

Then too, the water mains should be extended in the western part of town on Second Avenue as far as the residence of W. L. Popwell and on Third Avenue, to the home of J. Z. Mims, in as much as the voters have recently expressed a desire that the water works remain the property of the town. Additional storm sewerage should be looked after, and the consideration of a street sprinkling system should not be overlooked.

Now that the city owns one of the best pieces of fire fighting equipment found in any small town, the organization of a volunteer fire department should be perfected. This is another important matter that the new officials will be confronted with.

Clanton, we are proud to state, is no longer classed as a small village but has grown to such extent that the consideration of a children's playground should be selected and arranged for, as well as steps made to assist a Boy Scout organization in a permanent way. And then another item that is sure to confront the newly elected officials will be securing of a new cemetery site.

The above items will no doubt be some of the major projects which the new and re-elected officials will undertake in their efforts to make Clanton a bigger and better city, and if so, they will need the co-operation and assistance of everyone, in order to carry out these undertakings in a satisfactory manner.

The News congratulates the new and re-elected officials and assures them of its co-operation in all things for a bigger and better Clanton.

The Drainage Amendment

On November 6th, 1928, the voters of Alabama will vote on an amendment to the Constitution of Alabama permitting the Legislature of Alabama to provide for drainage of farm, wet, swamp and overflow lands in Alabama. This proposed amendment is of vital importance to the citizens of Chilton County, and we believe it should be adopted.

There is a large acreage of lands in the county that can be reclaimed and made very valuable by the formation of drainage districts by the owners of the lands, and the proper drainage of same.

The adoption of this amendment will not make it compulsory on the owners of swamp or overflow lands to drain the same, unless a majority of the property owners of a district shall consent to the formation of the district and the letting of the contract, for its drainage.

The cost of the drainage cannot exceed the increased value of the lands improved, by reason of the special benefits derived from the drainage thereof. The owners of lands in a district may issue and sell bonds to finance the cost and expense of maintaining of drainage district. This will enable the owners to have a period of several years to pay for the drainage of their lands and let the lands reclaimed produce and help pay the expenses.

Not only will the drainage of our swamps reclaim hundreds of acres of valuable lands, but it will eliminate unhealthful and unsanitary conditions in the county.

ATTENDANCE OFFICER MAKES APPEAL FOR HELP

Mrs. C. E. Stapp, attendance officer of Chilton County schools, is making an appeal to the people of the county to aid in the sending to school of children in the county whose parents are not able to furnish books, nor clothing necessary for them to have in school.

Elsewhere in this issue of the News will be found the signed appeal of the attendance officer asking anyone who can, to give clothes and books to the unfortunate children whose parents are not able to equip them with the necessary clothes and books. A little help will no doubt, go a long way in aiding this cause. For information phone 69, or see Mrs. C. E. Stapp at the office of the County Superintendent.

CLANTON QUARTETTE SINGS AT SHILOH LAST SUNDAY

The Clanton Quartette attended the singing at Shiloh Church in Beat 6, last Sunday afternoon. The building was crowded beyond capacity.

Singing was enjoyed by the crowd during the afternoon and several numbers were rendered by the Clanton Quartette which were highly appreciated.

E. A. ARLEDGE A SUICIDE VICTIM LAST SATURDAY

Ill Health And Grief Over Recent Death Of Wife Causes Fatal Act

Mr. E. A. Arledge, age 45, of Rocky Mount community, five miles northeast of Jemison, died last Saturday, September 15, at the Central Alabama Hospital here, following a self-inflicted wound, a cut on his throat with a [illegible] last Saturday morning.

The wife of Mr. Arledge died last Thursday and was buried the following Friday. This and despondency over ill health is said by friends to have been the cause of the act.

According to reports reaching us, Mr. Arledge was awake rather early last Saturday morning and was standing just inside the dining room of his home. He made the first slash with the razor on his throat before anyone could stop him. One of his sons sitting at the breakfast table jumped up just in time to prevent his father from making the second cut on his throat. This occurred about seven o'clock Saturday morning.

J. Mell Martin's ambulance was summoned and the wounded man was brought to the Central Alabama Hospital here, where he died about 12:30 the same day.

Funeral services were held for the deceased the following Sunday at Rocky Mount with the Rev. Davis officiating, J. Mell Martin in charge. Interment took place at Rocky Mount cemetery. The deceased is survived by two sons, Arnold and Armon.

COUNTY DEMOCRATIC EXECUTIVE COM. CALLED TO MEET

The Democratic Executive Committee of Chilton County has been called to meet in the Courthouse at Clanton, Friday, September 21st, at 2:00 P. M., for the purpose of nominating a candidate for Treasurer and totransact such other business as may come before the committee. All Democrats of the County are invited to attend this meeting of the committee.

ANOTHER CAKE SALE TO BE HELD NEXT SATURDAY

We have been requested to make another announcement this week that another cake sale will be held on next Saturday at Hill Grocery Company by the Study Club of Clanton.

The sale which was held there last Saturday was a success and it is expected that this next sale will be a greater success. Some of the best cake bakers of Clanton are to furnish cakes for the sale and they are sold at unusually low prices.

The proceeds go to the Clanton Library which the Study Club has been working to keep going. The library is located upstairs in the new Mullins building on Seventh Street, adjoining the Exchange Hotel. Go to Hill's Saturday and buy one of these delicious cakes and help a good cause. The ladies will appreciate it.

Mrs. Walter Bentley who has been visiting her parents, Dr. and Mrs. E. E. Upchurch, for some time has returned to her home in St. Louis.

County School Plans Are Among Highest

Chilton County Schools Are Chosen As One Of Ten To Get Special Study

The following letters received by the County Superintendent of Education, B. Lawrence, which are self explanatory will be read with much interest by citizens of Chilton County:

Mr. B. Lawrence, Supt.
Chilton County Schools,
Clanton, Ala.

Dear Supt. Lawrence:

Your system of schools has been chosen as one of ten in the state in which a special study of elementary education for white children will be made.

We consider ourselves fortunate to have the interest and guidance of Dr. Strayer, Dr. Hillegas and Dr. McGuaghy of Teachers College in making this survey. They have approved the plans which we have formulated and will from time to time make suggestions for the progress of the study which is designed to discover the present status of elementary education together with implications of needed improvement.

The plans include:

1. A testing program in grades two to six inclusive to be carried out the first two weeks in December. Random samplings of schools will be chosen for this program.

The testing will be done by local and state supervisors, the scoring of tests to be done by teachers under the direction of supervisors.

Will you please discuss this matter with your supervisory force with a view to securing their interest and co-operation in the plan?

2. Policies of governing the organization and inventory of teaching equipment which will also be supervisory responsibilities.

3. Age grade progress, time allotment and provision for individual differences studies will entail the filling of forms by teachers.

4. A survey of buildings which will be made by a committee appointed by the State Superintendent of Education.

5. Policies of governing the organization of elementary education in the various units which will be surveyed by inquiry from the local superintendent.

You have already indicated your intrest in co-operating in the study. If after further consideration, you still wish to have a part in the study, please supply us with a map showing the location of schools and indicating the number of elementary teachers in each school.

A representative of the supervisory of the State Department of Education will be assigned to complete the details of the plan with you.

Very truly yours,

R. E. TIDWELL, Supterintendent.

To The Supt. of Education:

We, the undersigned hereby express our thanks and appreciation to you, the County Board members, and to our great Staate for the Opportunity school which has been taught at Cane Creek, Pinedale community.

This school was taught by Mrs. Gertrude Calloway, and we feel like we have been greatly benefitted.

The majority of us are tax payers and we know of no other way in which we had rather our taxes would be spent than to help those who have not had an opportunity to get an education.

We humbly ask that you give us another school in the future.—Enoch Traywick, Essie Cleckler, Enoch Thompson, Hugh Headley, Davard Mims, Earnest Littleton, Alice Headley, Mollie Thompson, Otis Coggins, Dewey Hublin, Floyd Giles, Rose Bud Knox, Dink Heflin, Rosie Lee Cleckler, Alice Thompson, Clara Mae Rhodes, Rosia Knox, T. J. Mims, Victoria Thompson, Sallie Miner, Mirlean Connell, Lucille Headley, Lucille Thompson.

SINGING CONVENTION AT NEW HARMONY CHURCH

The first session of the Sacred Harp County Convention will be held at New Harmony Church at Lomax the Fourth Sunday in September, the 23rd. We invite all singers throughout the county to be with us. Bring your Sacred Harp Song Books.—J. H. Williams, Chairman; M. C. Jackson, vice-chairman; R. Scott, secretary.

A Proclamation

BY THE GOVERNOR

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out; and

Whereas, notice of such election, together with the proposed Amendment, is required by law to be given by proclamation of the Governor;

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice direct and proclaim that on Tuesday, the 6th day of November, 1928, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

Article XI. Section 216-A. In addition to the taxes which the City of Birmingham is authorized to levy and collect under the Constitution as heretofore amended, said city shall have the power and right to levy and collect in any year or years for any municipal purpose or purposes, any rate of tax, not in excess of one-half of one per centum, on property situated therein, based upon the valuation of such property as assessed for State taxation for the year next preceding the levy, which a majority of the qualified electors of such city voting at an election called and held as hereinafter prescribed, may authorize for such purpose or purposes. Said tax shall be used only for the purpos or purposes for which the same is authorized, levied and collected. Each election held under the provisions hereof shall be ordered, held, canvassed, and may be contested in the same manner as is or may be provided by law applicable to municipal corporations for elections to authorize the issuance of municipal bonds. The ballots used at such election shall contain the words: "For authorization of additional taxation at rate not to exceed ____ ____ ____ per cent for the year (or years) ____ ____ for the purpose or purposes of ____ ____ ____" and "Against authorization of additional taxation at rate not to exceed ____ ____ ____ per cent for the year (or ____ years) ____ ____ for the purpose or purposes of ____ ____ ____." The rate of taxation proposed shall be printed upon the ballot in the space indicated therefor, and the year or years in which the proposed rate is to apply, and the purpose or purposes for which such tax is to be used, shall be likewise printed in the respective spaces indicated therefor. The voter shall record his choice either for or against authorization of the proposed rate for the proposed purpose or purposes by placing a cross mark before or after the words expressing his choice. Nothing herein contained shall in any wise change or affect the rights of any holders of bonds of said municipal corporation heretofore issued. Elections in said municipality to authorize the levy of such special tax may be held as often as ordered by the governing body thereof, but when a proposition is submitted to the electors of said municipality for authorization to levy a special tax for a specific purpose and such proposition is defeated, no second election for the same purpose shall be held in such municipality within one year thereafter. This section shall be self-operative without any additional legislation."

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

BIBB GRAVES,
Governor.

JNO. BRANDON,
Secretary of State.

HIGH SCHOOL NEWS

The Senior Class of the Chilton County High School held its first business meeting on last Monday, Sept. 10, in the Senior room at the high school.

This meeting was held for the purpose of organizing the class and electing officers. Much interest was shown by the members of this class, and the following officers were elected: James Wade, President; Miss Kathryn Hayes, vice-president; Miss Gladys Williams, Secretary and Treasurer.

A Proclamation

BY THE GOVERNOR

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out; and

Whereas, notice of such election, together with the proposed Amendment, is required by law to be given by proclamation of the Governor;

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice direct and proclaim that on Tuesday, the 6th day of November, 1928, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

The Board of Revenue of Jefferson County or other governing body of said county, in addition to the taxes it is now authorized and empowered to levy and collect, shall levy and collect annually a tax of not more than one-tenth of one per centum upon the value of the property therein as fixed for State taxation, to be applied exclusively to the purchase, construction, equipment, repair, operation and maintenance of a charity hospital or hospitals for the care and treatment of indigent persons.

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

BIBB GRAVES,
Governor.

JNO. BRANDON,
Secretary of State.

POWER
EQUALIZER OF OPPORTUNITIES

WHEN the Creator dispensed the Earth's resources, with some regions He was lavish. With others He was sparing.

Even in Alabama, some sections of the State are more richly endowed in God-given resources than others.

But in Alabama every section, every community, has its compensations. Though Alabama's richest minerals abound in its hills, in its broad valleys lie its most fertile soils. Swift streams, traversing practically every section of the State, provide energy for vitalizing the State and a mode of transporting its commerce to the sea; while equable climate and abundant rainfall are state-wide advantages.

In man-made advantages, as in those God-given, we find the same superiorities and the same compensations.

But no resource or advantage, God-given or man-made, serves to equalize the opportunities of communities for social and economic advancement more than does Power.

Power gives to the small community the same opportunity for growth and development as it does to the larger towns and cities. It equalizes the opportunities of all to attract new industries, homeseekers and investors. To the home in the small town it brings the same convenience and relief from household drudgery as in the metropolis. And even on the farm, it gives to agriculture the same motive force at the command of industry and to the farm homemaker the same comforts and convenience of her city sisters.

For Power, the Key to the Cycle of Progress, is the Equalizer of Opportunities.

There's Varnish *and* VARNISH

There are about as many grades of varnish as a cat has lives—probably more. Unless you are a varnish expert what chance have you of judging varnish correctly?

PEE GEE
Floor Varnish

When you buy floor varnish you expect it to have the following qualities—toughness to withstand hard usage and at the same time a flintlike surface to withstand the usual wear and tear that a floor is subjected to—it must not crack, check or mar easily and it must not turn milky in color if water, hot or cold, is spilled on it.

These things and more you will find in Pee Gee Floor Varnish—and it's cheaper to use than the so-called cheap varnish.

Come in and let's talk about it.

NEGRO HOUSE DAMAGED BY FIRE WEDNESDAY MORNING

The home of Frank Dudley, negro preacher, in West End, was damaged by fire early Wednesday morning. The fire is said to have been caused from a defective flue. The roof caught on fire first.

Through the quick action of negro neighbors, the fire was soon extinguished, with only slight damage to the roof.

ARTHUR JOHNSON JR., ENTERS ALA. MILITARY INSTITUTE

Dr. and Mrs. Arthur Johnson and two sons, Arthur Jr., and Joe Hall, motored to Anniston on last Wednesday. Arthur, Jr., entered the Alabama Military Institute there, for the coming term. They were accompanied on the trip by Mrs. Sam Johnson of California.

ENGAGEMENT AND APPROACHING MARRIAGE ANNOUNCED

Mr. and Mrs. G. C. Armstrong announce the engagement and approaching marriage of their daughter, Jewel, of Selma, to Mr. Tom Ellis of Mobile, the wedding to take place in Selma the latter part of October. After the wedding the young couple will go to New Orleans, La., from where they will sail for Havana, Cuba.

SHADY GROVE

The health of this community is very good at the present time. Everyone is in a rush trying to get their cotton picked.

Mr. and Mrs. T. J. Mims and son Leroy visited at the home of Miss Janie Oden Sunday afternoon, near Mitchell Dam.

Among those who visited Mr. and Mrs. R. P. McKinney Sunday afternoon were Mr. Chester Culver and family of near Cooper.

Mr. Horace Anderson visited Mr. Jessie Jones Sunday afternoon.

Mr. and Mrs. Earl Parrish of Clanton spent the day with the latter's parents here Sunday.

Mr. and Mrs. T. L. Howard of Verbena, Mrs. R. E. Miller of Cooper, were the guests of their parents, Mr. and Mrs. W. T. Mims Sunday afternoon.

Mrs. O. L. Howard and children spent the day Sunday with her parents, Mr. and Mrs. N. J. Jones.

Mrs. Janie Anderson has been the guest of her son Mr. J. H. Anderson for the past few days.

Miss Celia Baker was the dinner guest of Mr. and Mrs. R. W. Baker Sunday.

Mr. and Mrs. A. J. Wilson had as their guests Sunday, relatives from Martin Dam.

SORE
Could Not Rest

Mrs. J. H. Nichols, who lives at 513 Elm Tree Lane, Lexington, Ky., says:

"Some few years ago, my health was bad. I had very severe pains in my sides. My nerves were in a terrible condition. I could not rest.

"The lower part of my body was very sore. I did not feel like eating, and did not sleep well at all at nights.

"A friend of mine recommended Cardui. I began taking it and saw quite an improvement in my condition. I kept it up until I felt strong and well."

About a year ago, Mrs. Nichols says, she found herself in a nervous, run-down condition. "I took Cardui again," she adds, "and it helped me wonderfully. It is a splendid tonic."

Cardui is a mild, medicinal tonic, made from purely vegetable ingredients.

At all druggists.

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice direct and proclaim that on Tuesday, the 6th day of November, 1928, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

Midland City School District No. 15 in Dale County, Ariton School District No. 50 in Dale County, shall each have the right and power by a majority vote of the qualified electors of such districts voting at an election held for that purpose to levy and collect for public school purposes including the payment of indebtedness a tax not to exceed ten mills any one year in addition to all other taxes now authorized by law. The election in such districts to determine whether or not such tax shall be levied shall be called, held and conducted as now provided by law for calling and conducting an election to determine whether or not the three mill district school tax shall be levied and collected, and the laws governing the handling and the expenditure of the proceeds of the ten mill tax herein provided for shall be in all respects in accordance with the law governing the handling and the expenditure of the three mill district school tax.

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

Farm Demonstration Dept.

(By C. E. Stapp, County Agent)

SEPTEMBER CROP PROSPECTS

With the exception of hay, apples and peaches, all minor crops, and peanuts, a major crop, all Alabama crops show a considerable decrease in indicated yield over 1927, according to an estimate for September made by F. W. Gist, state and federal statistician. In the case of cotton, each of the ten districts in Alabama shows a marked reduction over last year. The estimated crop for 1928 will be 970,000 bales, compared with 1,191,000 bales in 1927.

The Southern crop on September 1, showed a condition of 60.3 per cent and an indicated yield of 14,439,000 bales, or an average yield of 153.9 pounds of lint per acre.

Cotton production for 1923 was 10,140,000 bales; 1924, 13,628,000 bales; 1925, 16,104,000 bales; 1926, 17,977,000 bales (largest of record) and 1927, 12,955,000 bales. This year's crop promises to be an average crop of the past five years which was 14,160,800 bales.

The corn crop will be light and about 12 million bushels short of last year. Hay shows a slight increase of 40,000 tons and pastures are very good. Over 6 million bushels of peanuts are predicted, a great increase over last year, not all will be harvested and a part will be hogged off.

There will be nearly 2 gallons of sorghum and sugar cane sirup combined, per capita, which indicates a deficiency of sirup for human consumption.

Of the minor crops soybeans were about the same as last year, cowpeas slightly better, velvet beans, the same, pastures 12 per cent better, pears twice as plentiful and pecans 69 per cent as compared with 45 per cent for last year. The prospects for pecans are good.

FARM AND HOME FACTS

Soap sets many fruit stains.

Destroy all old plants as soon as harvest is over.

Repair outbuildings. Get tile for drainage work out of the way. Install water supply system in the home.

Use the cold frame and hotbed in producing out of season vegetables.

The use of wheat in the form of flour is increasing in the United States at the rate of about 6,000,000 bushels a year.

Many southern communities which recently completed the eradication of ticks are deriving early benefits from the introduction of improved cattle for breeding purposes.

Someone at the University of Florida opines that the hen that molted in August needs to be introduced to the chopping block and axe.

The Bureau of Immigration in Washington reported a decrease in immigration for the fiscal year ending June 30. The total for the year was 500,631, which was a decrease of 6.9 per cent compared with the previous year, the total for which was 538,001.

The Alabama Dairy Program is:

1. More purebred bulls from high-producing dams.
2. Weed out the boarder cows by keeping records and testing.
3. Raise the best calves from purebred bulls and high producing cows.
4. Feed cows more liberally on home grown feeds.
5. Produce dairy products of the highest quality in order to secure the highest prices.

NEWS IN BRIEF

In a recent address to members of the Society of Chemical Industry, Dr. F. E. Denny, of the Boyce Institute, said that chemical treatment of certain plants during their annual dormancy or rest period has almost the effect of an alarm clock upon a sleeping person, awakening them almost immediately to a vigorous growth.

Chemistry and chemical research were referred to September 4th by speakers at the annual general meeting of the Society of Chemical Industry as possible hopes for world peace, better health, longer life and greater wisdom in living out the increased span.

At the end of June world tonnage in existence totalled 68,954,659 gross tons, as compared with 65,192,910 gross tons on June 30, 1928, according to advices just received by Bankers Trust Company of New York. Steamers and motorships account for 65,159,413 tons of the total, while sailing vessels account for the balance of 1,795,246 tons.

Scoring the Year's Greatest Success

—because of Distinctive Beauty Thrilling Performance and Amazing Economy

Bigger and Better

Week after week and month after month the Bigger and Better Chevrolet has swept on to greater and greater heights of popularity—until today it stands acknowledged everywhere as first choice of the nation for 1928!

Never has any Chevrolet enjoyed such overwhelming public acceptance—for never has any low-priced car provided such an outstanding combination of distinctive beauty, thrilling performance and amazing economy!

Its beautiful bodies by Fisher—long, low and racy, and finished in colors that reveal to-day's mode for smartness and individuality—are far in advance of accepted standards in the field of low-priced cars. Inside and out they prove anew that Fisher craftsmanship is a thing apart.

But Chevrolet performance is no less impressive than Chevrolet beauty and style. Never before was a low-priced car so easy to handle—for the steering mechanism is fitted with ball bearings throughout . . . the clutch and gear-shift lever respond to the slightest touch . . . and big non-locking 4-wheel brakes give a measure of braking control that is more than equal to every occasion.

Come in and see the car that has won the approval of more than three-quarters of a million buyers since January 1st. Learn for yourself why it is scoring the greatest success of this great automotive year!

Moreover, there is no other practical way of keeping posted on the things being produced ... the ... ic ... problem ... trying to make life easier and happier.

SALESMANSHIP

Thousands of commercial and public schools will this fall offer courses in salesmanship. The art is vital in business.

You can go into the shops of many cities, and find salespeople who are dull, solent, and grouchy. Their attitude is: You can take it or leave it. If you leave it you are a piker, or the store buyer was not on his job. They can't be expected to sell anything on their low pay. Wish quittin' time would come. It never occurs to these folks to blame themselves for their poor results.

Then you will find in such places salespeople who talk too much. With eloquence they should be running for Congress. You can't get a chance to think. They ca'l one article the highest triumph of the creative art, and if you don't like it, they pick out something else and call that thing the best thereis. You feel inclined to hold onto your money and flee to the great open spaces.

The well trained salesperson is a human kind of fellow or girl, who likes people. The first thought is to make friends with the customer. If that is accomplshed, then goods can be sold to him, if not to-day, then to-morrow or soon. The wants of each new customer are as interesting as a new hand in the card game. It is a pleasure to haul down every article on the shelf, if thereby precisely the right thing can be found. And these people know something about their goods. Their advice has value. People come back to trade with folks like that, and they wait around to get a chance to deal with them.

Some stores in Clanton have that type of people behind their counters. That, and the fact that our busiest stores are consistent newspaper advertisers, is the reason so many people come from a distance to trade with the merchants here.

Have you, Mr. Reader, even known of a Clanton merchant going bankrupt who was a consistent newspaper advertiser? No, well the merchant who advertises consistently is appreciated by the buying public, for the day has long since passed when it was not a known fact that constant newspaper advertising was as import as the buying. Then too, the buying public realizes that if a merchant has something that is worthwhile, he wants it to be known far and wide, and that there is no better medium by which thii fact reaches the people, than through the columns of the newspaper. But on the other hand, should his stock be shoddy, he is not expected to want the buying public to know its condition, and therefore is not expected to use the newspapers for advertising this fact.

BIRTHDAYS

On the household calendar there is no more important event than birthday anniversaries of the children. Times and customs change and it is said the home s not what it used to be, but a child's birthday anniversary still remains a red-letter day.

Of course there are birthday presents and great confusion during the administerng of one spank or one tug of the ear for every year the little heir or heiress has been in the household. And sometimes the occasion is celebrated with a birthday party.

Every fond parent knows it is out of tune to punish Little Bobby on his birthday, so the day is inaugurated with solemn vows that no matter what he does there are to be no ... or whippings that day.

Unfortunately the juvenile hero of the day has more reasons for being naughty on his birthday than at other times. He is excited and full of energy. He cannot understand why he cannot have his own way since it is his birthday party. And he is quick to discover that the bars of parental discipline have been lowered for the day.

Youthful minds do not distinguish between liberty and license. Nor do they realize that there are other rewards for being good than security from punishment. If the parental vows of the morning are broken one usually knows where to place the responibility.

A birthday anniversary without temper or tears is ardently to be desired, but seldom realized. For though the honored one may have been a gift from the gods in his conduct is most human even on the anniversaries of his presentation.

Every man needs a few enemies to ss in an emergency.

...rrowing isn't a modern vice. The ... was known to the ancients.

umbr... really the tightwad you hate, ... ssier bulge in his pants but, the ... pockets.

Moscow ... They cannot get ... haven't leather ... cows.

The young aren't ... their curiosity just willing to satisfy ... at the cost of a blister.

Historical note, the ... Mussolini was a politician of ... who lived in the time of D...

Some of the people love Nat... much, they go out along the co... roads and pull up the flowers by ... roots, so Nature can't grow any mo... of them.

Investigation of campaign expenses is apt to show that large quantities of the dough have been received without anyone spending it.

No wonder the farmers have sur-plus crops they can't dispose of, with all the flappers denying themselves food while trying to reduce their weight.

This country has brain power enough to secure good government, but it needs more leg power to enable people to walk to the polls and vote.

Many of the men who find faulth because the women vote for the handsomest man, are themselves getting ready to vote next November for the smoothest talkers.

Fall Hat Day comes only once a year, but Pass Around the Hat Day seems to come about every week.

It is regretted that the good old custom of making calls is not popular, but anyway the people who are trying to sell us something keep it up

The home owenr is said to be the backbone of the nation, but he needs to bend that backbone over his lawn and garden and make it look like something.

Does advertising pay? That is not a question which advertisers ask. They know without having to inquire.

When you send away the dollars for purchases elsewhere, you send away some of your home town's hopes for progress and development.

Although people are said to take 19,000 steps daily, many of them are unable to step into the places of business where they owe money and settle those little accounts.

REGISTER'S SALE

In the Circuit Court of Chilton County, Alabama, in Equity.
Hattie M. Gerald, et al. Complainant
vs.
Guy H. Gerald, et al. Respondent.

By virtue of a decree in the above stated cause, rendered on the 8th. day of September, 1928, by the Circuit Court, in Equity, to satisfy said decree, I will sell to the highest and best bidder for cash, at public sale, at the Court House door of said County, between the hours of 11 o'clock A. M. and 4 o'clock P. M. on Wednesday, the 26th day of September, 1928, the following described property, viz:

The Northeast-quarter of the Northeast-quarter, of the Northwest-quarter of Section Six, Township Twenty-two, Range 14. Also 5 acres lying on and along the south end of the west half of the west half of the Southeast-quarter of the Southeast-quarter, and that part of the Southwest-quarter of the Southeast-quarter, lying east of the Louisville & Nashville Railroad, all in Section 36, Township Twenty-three, Range 13, the North line of said 5 acres being parallel with the South line of said sub-division, and said land is more particularly described, as follows:

Commence at the Southwest corner of the west-half of the west-half of the Southeast-quarter of the Southeast-quarter of Section 36, Township 23, Range, 13, and run thence North along the East line of said land the distance of 526 feet, thence run West at right angles a distance of 636.4 feet, more or less, to the East line of the right of way of the Birmingham & Montgomery Highway, thence run in a southerly direction on and along the East boundary line of said Highway the distance of 686.6 feet, more or less, to the point where the South line of the South half of the Southeast-quarter of Section 36, Township 23, Range 13, intersects said right of way, thence run in a Easterly direction the distance of 195 feet, more or less, to the point of beginning. It being the intention hereof to describe the 5 acres above referred to. All of said property situated in Chilton County, Alabama.

Sold for division among the joint owners thereof.

This the 11th day of September, 1928

Birmingham Auto Body Company, Inc., B'ham

With a progressive shop in Birmingham at 2008 2nd. Ave. S., is an automobile refinishing plant. In charge of is a capable manager, who knows the business from A to Z. Birmingham Auto Body Company specializes on anything pertaining to a damaged autom bile, such as bent fenders, a wrecked body, broken glasses, tops upho'stering and etc.

This establishment employs the latest methods and the most modern machinery in use, to accomplish results that are pleasing and satisfactory. Their experts look upon each job as a separate problem. They treat each color scheme with a careful thought, and ther highly skilled methods seem almost magical in the way they make an auto once more beautiful and new.

Their customers' cars are traveling advertisements of their work, of their judgement and sincerity. When you see a job turned out by this popular shop, it will remain a neat looking and workmanlike job for many months. Their customers do not have to demand high quality from this establishment. They get ot without asking.

We take pleasure in complimenting the management upon its efficiency, and the valuable service rendered to the people of the community and surrounding territorp.—Adv.

The crude oil in the tube on the extreme left is dark in color. Texaco refining removes *all* the dark residue (as in the middle tube), leaving the clear, golden Texaco Motor Oil in the last.

FINE CARS DESERVE FINE OIL

People who know their way about in the world, and whose lives prove it, have very simple solutions for motoring problems. They instinctively trust the leadership built by quality.

The clean, clear, golden Texaco is as natural a motor oil for them as the good lines of the cars they drive or the clothes they wear. By itself they might not give more than a passing thought to the color, but with a world-known name shining through it—they are content.

On the Road, or on the Avenue, they naturally roll up to the Texaco Red Star and Green T for lubrication service.

THE TEXAS COMPANY, 17 Battery Place, New York City
Texaco Petroleum Products

TEXACO
GOLDEN
MOTOR OIL

FULL BODY

IN ALL GRADES

A new gasoline experience—
actually—NEW MILES per gallon

IT is a fact that the *new* Texaco does give better results—measurably better. It has at once overcome the limitations of the older type of engine and enhanced the performance of the new.

You can't be mistaken. You see the record of actual miles rolling up on your speedometer. You notice the ample gasoline reserve and the fewer filling stops. Your car is the same, but the *new* and *better* Texaco is a different gasoline—more miles to the tankful.

That's the difference between dry gas and wet! The *new* and *better* Texaco, vaporizing to a dry gas, enters the cylinders and ignites instantly. It burns freely and delivers *all* its power in that split fraction of a second of the power-stroke.

Wherever you stop for gasoline, see to it that your car draws up beside the Texaco pump. Look for the Texaco Red Star and Green T.

Not WET . . . . . But DRY

A wet gas is an atomized mixture of gasoline vapor with liquid drops of raw gasoline. These drops, separating at every manifold bend, result in uneven distribution and loss of power.

A dry gas, the *new* and *better* Texaco, vaporizes completely. It is a perfect mixture of dry gasoline vapor and air which provides an even flow of fuel and power to every engine cylinder.

MILT TOLBERT SHOW DRAWING CROWDS EACH NIGHT

The Milt Tolbert Tent Theatre, which opened a week's engagement here Monday night, under the auspicies of the local post of the American Legion, is drawing large crowds.

The Milt Tolbert organization is by no means a new company to play here, for they have been making Clanton for the past several years, and have always conducted their shows in such a manner that they have the confidence and good will of the people.

The local post of the American Legion has been rendering them assistance in many ways, and it is believed that their visit to Clanton this year will be by far, the most successful in their history for this town.

CAPITOL CITY EMPLOYMENT BUREAU IS NEW CONCERN

The Capitol City Employment Bureau of Montgomery, Ala., has been in operation only a short while, but during that time they have helped hundreds of unemployed people to secure desired positions.

In a recent statement to a representative of the News, the manager of this concern stated that business has been much better than was expected, and they have placed at least 100 per cent more people with reliable concerns than anyone ever realized could be done in Montgomery.

Since opening their offices in the Capitol City, this employment bureau has had the pleasure of placing employees with some of the most reliable concerns in the city. The manager also stated that many Chilton County people have registered with them, and many are from Clanton.

The Capitol City Employment Bureal of Montgomery has listed with them, all kinds of help, they are securing work for the unemployed daily, and are placing those listed with them in reliable positions.

COUNTY AGENT STAPP WRITES TO STRAWBERRY GROWERS

Clanton, Ala., Sept. 17, 1928

Dear Sir:

The strawberry fields are looking pretty good now, but next Spring is when the pay check comes. Some of the experienced strawberry growers say that every day the grower spends with his berries when they need it is worth $10.00 to $20.00.

The growers who have kept their strawberries well cultivated and fertilized since harvesting should get good pay for the time spent with them. Some of the best growers are of the opinion that berries should hae an application of 400 pounds to 600 pounds of good complete fertilzer carrying at least 4 epr cent Nitrogen now. A good application of fertilizer now will stimulate good plant growth and put the plants in good condition to use the fertilizer that will be applied next spring for the berries.

Your Association is ready to take your order now and urges you to let your wants be known at once in order that you may get your fertilizer and make the needed application at an early date.

Yours for more and better berries, I am,

Yours truly,
C. E. STAPP, County Agent.

BAKER JR. HIGH SCHOOL TO OPEN ON OCTOBER 3

The Baker Junior High School will open on Wednesday, October 3, instead of Oct. 1, as announced in last week's paper. Rev. H. L. Tate and C. E. Stapp will be among the speakers. All parents are urgently requested to attend the opening exercises.

Little Lillian Smith Honored On Fifth Birthday

Mrs. J. Lee Smith honored the fifth birthday of her charming little daughter, Lillian, at her home on Seventh St. last Monday afternoon.

A color scheme of pink, blue and white was carried out in the attractive decorations of the large porch and rooms. Punch was served on the porch to the little guests by little Misses Nell Rockett, Theda Wyatt and Grace Ezell.

Numerous well planned and entertaining games and contests were enjoyed during the afternoon by the little guests and at a later hour, delicious ice cream and cake was served. In the cutting of the large cake, little Wilbur Prince drew the dime, little Pitts the ring, James Carl Martin the button and Olive Rainer Elmore drew the thimble.

The little folks who were guests at this affair were Jack Lawrence, Olive Rainer Elmore, Flem Higgins, Jr., Anne Ross, Wilbur Prince, Frances Smith, Anne Cordelia Smith, James Carl Martin, Dan Higgins, Bonnie Lowe, Edna Ruth Lowe, Juanita Miller, Joe Frank Higgins, Dan Alred, Pearl Henley, Nell Rockett, Joan Atkinson, Mary Frances Atkinson, Mae Polk, James Duke Heflin, Jimmie Wyatt, Jimmie Wyatt, Neal Paul Gowan, Aileen Popwell, Raymond Popwell, Eric Hart, Jr., Frances Bean, Grace Ezell, Edd Goodgame Jr., Lonelle Eubanks, Sally Eubanks, Billy Callen Pierce Pitts, Jr., Myrtle Pitts, Malinda Doris Elizabeth Dennis, Blanche Frances Frank Goodgame and Ardelia White.

Little James Jones Celebrates Ninth Birthday Anniversary

On last Saturday afternoon, Mrs. Claud Jones entertained a few little friends in honor of her son, James' ninth girthday anniversary. The punch bowl was decorated with ferns and fall flowers and was presided over by Miss [illegible]. The house was decorated in a profusion of garden flowers. A variety of interesting games were enjoyed, among them was a contest, in which Nell Ross Mullins and [illegible] Retherford were the lucky prize winners. Late in the afternoon the little guests were invited into the dining room, where the table covered with a lace cloth, was centered with a large white and pink birthday cake, holding nine twinkling candles. White ribbons extended from the cake to each place of the guests. Crystal candlesticks held pink and white candles. Pink streamers fell from the chandelier to the four corners of the table. In drawing the ribbons from the cake Margie Nell Jones drew the thimble, Ted Reynolds the button, Cecil Carter the ring and June Cox the dime. Baskets of mints and boxes of colors were given as favors. The hostess was assisted by her daughter Mary Sue in serving delicious cream and cake.

Those enjoyng this affair were Nell Ross Mullins, Jane Neighbors, Ruth Gowan, Jane Pitts, Eloise Rasberry, Gladys Martin, June Cox, Margie Nell Jones, Clara Mae Rogers, Annie Rea Wilson, Mary Jo Foshee, Billie Retherford, William Hodges, Ted Reynolds, Burnice Powell, Milton Diefenderfer and Cecil Carter.

Dorcas Class Met With Mrs. Andrew Jones

The Dorcas Class of the Baptist Church met at the home of Mrs. Andrew Jones on last Wednesday afternoon at four o'clock. Dahlias and zinnias were used to make the home more attarctive for the occasion.

Mrs. S. J. Ezell and Mrs. Grady Heflin had charge of the program for the afternoon, which was very interesting.

Mrs. Jones served delicious brick ice cream and cake to the following members: Mesdames Tom Parrish, J. E. Gowan, Renfroe Jones, Grady Heflin, S. J. Ezell, W. E. Martin, Milton Smith, Ben Sims, Joe Higgins, Grady Taylor, Turner Dennis, Oren Lynch and Jesse Jones.

Mrs. Milton Smith Hostess to Sewing Club

Mrs. Milton Smith was hostess to the Young Matrons Sewing Club at her home on last Tuesday afternoon at 4 o'clock. Baskets of daisies and other pretty flowers added to the attractiveness of the living and dining rooms.

Sewing was enjoyed during the afternoon and at a later hour, the hostess, assisted by Mrs. Joe Higgins served a most delicious salad course to the following: Mesdames Flem Higgins, Grady Taylor, Joe Higgins, Bill Murphy, Paul Ousely, Loren Smith and Grady Heflin.

"WHAT IS GOD LIKE?" TOPIC OF SERMON AT LOCAL CHURCH

Last Sunday morning at the Methodist Church, Mr. Green preached on "Can Modern Men Believe In God?" and in the evening on "May We Know God?"

On next Sunday he will discuss "What Is God Like?" and in the evening "Is the Judgment Consistent with A Father's Love?" will be the topic.

BILLINGSLEY

The Presiding Elder of this district, Dr. J. H. McNeil preached at the Methodist Church Sunday night and is continuing the services for a few days.

The School was opened here Monday A. M. at 8:30 o'clock. Quite a number of patrons and visitors were present. Dr. McNeil led an impressive and helpful Devotional. The teachers were welcomed in an appropriate speech by Prof. H. A. Askins. A piano solo by Odie Wilkins. The trustees were introduced and responded with short speeches. County Supt. W. H. McDaniel spoke at length on the working of a school in the community. Miss Rhoden, County Supervisor, in a few well chosen words told of her duties in the school. The faculty for the year is as follows: Prof. C. E. Upton, Misses Emmie Thompson, Minnie Jones, Mabel King and Mrs. N. H. Harrell.

The elections for the Town Officers was held Monday resulting as follows: Councilmen: Messrs C. A. Patillo, E. E. Overstreet, W. J. Patrick and Dr. E. H. Downs and Mayor: J. C. Hughes.

Miss Minnie Wade Corey of Prattville and a former teacher here, visited friends Sunday and Monday. She was enroute to Livingston, where she will attend the Normal there this session.

Mrs. J. F. Apperson and sons, Henry, Milton and Otto, motored to Jacksonville, Ala. Friday. Otto remained and will attend the Normal this session.

Misses Ruth and Mattie Lou Carter begun their school Monday. Miss Ruth is at the White City school and Mattie Lou at Stony Point in this county.

Mrs. Willis Lawrence and Josie Lee Oakley of Boline spent the week end with Dr. and Mrs. A. J. Marlar.

Mr. Collier Marlar of Birmingham spent Friday with his mother, Mrs. C. A. Marlar.

Mr. and Mrs. Basil Thompson of Tallassee are spending a part of their vacation with Mr. and Mrs. W. A. Cook.

Miss Ruth Dobyne of Prattville and Miss Dean of Auburn spent Monday here in the interest of the Home Demonstration Club work.

BEST STATE FAIR EVER OFFERED, OFFICIALS SAY

Every Feature Is Being Given Special Preparation—The Best Possible To Secure

Temple Tutwiler, one of the leading business men of Birmingham, and President of the Alabama State air, has placed his okeh on this year's show and announces without qualifications that It is far and away the best fair that has ever been put on in Birmingham.

R. H. McIntosh, veteran amusement man and general manager of the Fair, stated the other day that more money had gone into the making of the Alabama State Fair this year than had been placed into any amusement enterprise in Alabama in her history. "This year's show will be a revelation," said Mr. McIntosh.

Miss Bessie Gragassa, acting secretary of the Alabama State Fair which opens September 24 and closes Saturday night, September 29, has served for a good many years in the offices of the Georgia State Fair at Atlanta and in Jacksonville, where the Florida State Fair is held. She states that more and bigger preparations have gone into the making of the Alabama State Fair this year than any fair with which she has ever been connected.

Ralph Fies, head of the horse-racing department at the Fair in Birmingham, says the harness race events will eclipse anything ever attempted before. A. Brown Parkes, superintendent of admissions, says that all attendance records are sure to be broken because of the almost limitless amount of money the officials have expended in putting the show together.

In fact, every man and woman connected with the Fair this year predicts that it will surpass anything ever attempted before and each attache of the organization is getting ready to work night and day in handling the biggest crowds that have ever swarmed in from over the state to attend the annual gala week which will be gclaier than ever.

COLLEGE MEN ARE FCUND IN INDUSTRY

Auburn, Ala., Sept. 17.—In the industrial development of Alabama college men are taking a leading part; and young men educated in Alabama are being employed in large numbers by Alabama industrial concerns. This is revealed by a survey of the 5,000 employees of the Alabama Power Company and its subsidiary, the Dixie Construction Company.

The survey revealed that 479 of the 5,000 employees of the company are from colleges or universities. The Alabama Polytechnic Institute, Auburn, leads the list of colleges in representation with 156 graduates; the University of Alabama 2nd with 86. Two other Alabama schools are repersented. They are Birmingham-Southern College with six and Howard College with three. Outside of Alabama, Georgia-Tech., Atlanta, leads with 38, and Clemson College of South Carolina, is next with 17.

Schools in Germany, Austria, Holland, Czechoslovakia, Scotland, Norway, Switzerland, and Canada are represented by former students and graduates—a cosmopolitan gathering of men from every quarter of the globe.

A total of 96 colleges and universities are represented among the employees of this company. Most of them received their college training in one of the branches of engineering. However, students who took other courses are included in the list.

This large list of college employees is another fact in favor of college training for those who expect to engage in engineering as well as those who expect to follow other occupations, it is declared.

KNOW Your South
and be a Partner
... in its Growth

Knoxville
Rooftop City of the SOUTH

Knoxville, a city of approximately 140,000 people, is located at a natural gateway to the great Smoky Mountains National park, a Federal domain that is being established in the highland section between the States of Tennessee and North Carolina.

Being only thirty-five miles from the edge of the park area, Knoxville is the Mecca for tourists and nature lovers, who glory in the beauties of the Great Smokies. Excellent roads lead from Knoxville into the heart of the park area.

Seven majestic peaks in the Great Smokies rise to altitudes of more than six thousand feet, and from one of them, Mt. LeConte, the gasping climber looks out upon the summit of seven states. Eleven other peaks are almost that high. For a distance of twenty-five miles, in passing from summit to summit along one of the ranges, the altitude does not descend below 5,000 ft. This "rooftop of Eastern America" contains an amazing collection of flowers, shrubs, trees, and wild life.

Knoxville is the center of a territory that is rich in natural resources. In no other section of the United States is there to be found such a wide variety of minerals in commercial quantities as is found within 100 miles of Knoxville. Marble, coal, iron, and zinc are the chief products.

The manufacture of textiles represents Knoxville's largest industry. The annual output is valued at more than $19,000,000. Marble quarried annually in the vicinity of Knoxville has a value of approximately $6,000,000. The metal-working industry has an output of $9,000,000, while the wood-working industry has an output of $4,000,000.

Knoxville has the purest native born population of any city in the world, only 1.3% being foreign born. Negro population is 14.4%.

A Proclamation

BY THE GOVERNOR

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out; and

Whereas, notice of such election, together with the proposed Amendment, is required by law to be given by proclamation of the Governor;

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice direct and proclaim that on Tuesday, the 6th day of November, 1928, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

"The following municipal corporations, to-wit: Winfield, Marion, Bay Minette, Robertsdale, Foley, Prattville, York, Jackson, Collinsville, Ft. Payne, Luverne, Brantley, Glenwood, Red Bay, Tarrant City, Dadeville, Thomasville, Northport, Hartselle, Haleyville, Talladega, Daphne, Oneonta, Cullman, Leeds, Eutaw, Guin, Sylacauga, Millport and Sulligent, Ozark, Ariton, Midland City and Demopolis, through their respective constituted governing authorities, may levy and collect a rate of taxation in any one year on the property situated therein, not exceeding one per centum of the value of such property as assessed for State taxation during the preceding year; provided that the adoption of this amendment shall in no wise affect, limit, modify, abridge, or impair the power, authority or right of any of said municipal corporations to levy and collect special school taxes, now or hereafter vested in or conferred upon them under the Constitution or any amendment thereto, which said special school taxes shall be in excess of said one per centum herein provided for."

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

BIBB GRAVES,
Governor.

JNO. BRANDON,
Secretary of State.

PROMOTION DAY AND RALLY DAY TO BE OBSERVED SOON

Last Wednesday evening at the regular monthly meeting of the Worker's Council of the Methodist Sunday School, plans were projected for the observance of Promotion Day n Sept. 30 and Rally Day on October 7, also for the observance of Childhood and Youth Week in October.

Mr. L. C. Warr, the new superintendent was introduced. He took charge of the Sunday School on Sunday the 16th. The school passed resolutions of appreciation of the fine leadership of Mr. V. J. Elmore during the past eight years, accepted his resignation with regret, then pledged full cooperation to Mr. Warr.

Several of the public school teachers have agreed to teach Sunday School classes this year. Some new classes will be organized on Promotion Day.

PRAYER MEETINGS AT METHODIST CHURCH INTERESTING

The Prayer Meetings on Wednesday evenings at the local Methodist Church have grown in attendance since the evenings have turned cooler. The Sunday School lesson furnish the topics for discussion. Every body is cordially invited.

MRS. H. O. LYNCH NOW WITH SMITH'S READY-TO-WEAR

Mrs. H. O. Lynch has recently accepted a position with Smith's, one of Clanton's ladies ready-to-wear stores. Mrs. Lynch takes the place of Miss Juanita Connatser, who has taken up her work as a member of the faculty of Thomas Junior High.

Mrs. Lynch has not been a resident of Clanton but for only a short time, but during this time has made scores of friends, whom she invites to see her at Smith's.

STANTON

The Stanton Parent-Teachers Association held its regular meeting on Thursday evening at the home of Mrs. Warren Henry. This being a business meeting, lights and improving the school grounds was discussed. Among those present were Mrs. J. C. C. Woolley, Mrs. T. D. Parnell, Mrs. H. R. Schurter, Mrs. Joe Cox, Mrs. H. A. Harris, Mrs. Harold Long, Misses Vessels, Ackreage, Johnson, Mildred Schurter, Armour, Virginia and Lora Woolley. Ice cream and cake were served.

Mr. P H Cunell of Notasulga spent Saturday afternoon with his parents, Rev. and Mrs. W. H. Conneil.

Mrs. Alice Milian of Riderwood, Ala. has returned home after visiting her parents Rev. and Mrs. W. J. Ruddick.

Mr. and Mrs. H. R. Schurter, Jr., of Vredenburgh, Ala, spent the week end with their parents, Mr. and Mrs. H. R. Schurter.

Mrs. Jim Bearden, Misses Lula and Bertha Bearden, Mr. Lum Bearden and Douglass Burnett spent Sunday in Tuscaloosa, Ala.

Mr. and Mrs. Frank Ogelsby of Selma, visited Stanton Sunday.

Misses Mildred and Alma Schurter Virginia and Lora Woolley and Mr. Dyer Schurter spent Saturday in Selma

Mr. Joe Huff, Misses Addie and Annie Huff spent Saturday in Selma.

JOHN GREENLEAF, NEGRO FINED IN MAYOR'S COURT

John Greenleaf, negro boy, who was arrested last week on a charge of public drunkeness, was cited in Mayor's Court last Monday and fined $3.00 and costs.

LADIES GUILD OF THORSBY GIVE ANNUAL RECEPTION

The annual reception which is given by the Ladies Guild of Thorsby for the students, faculty and other friends of Thorsby Institute, was held last Friday evening at Helen Jenkins Hall of Thorsby Institute.

Two hours or more were thoroughly enjoyed by those present. Games, contests and other forms of amusement went to make up the program. This is always a very informal affair, and is looked forward to by all Thorsby.

The B. Y. P. U. meets each Sunday at seven P. M. at the church. You are invited to attend. Comeearly.

IT DRIVES OUT WORMS

The surest sign of worms in children is paleness, lack of interest in play, fretfulness, variable appetite, picking at the nose and sudden starting in sleep. When these symptoms appear it is time to give White's Cream Vermifuge. A few doses drives out the worms and puts the little one on the road to health again. White's Cream Vermifuge has a record of fifty years of successful use. Price35c. Sold by

M. D. FOSHEE, Manager

A good business man will not buy a farm or any property without first looking it over to see what it is worth.

However, some will buy or loan money on land without an abstract.

Isn't it equally as foolish to buy a farm without looking it over as to buy it and not know whether the titles are good or not? Without an abstract you do not know where you are getting the land you look at or not.

Before investing in land in any way have an abstract made and be safe.

FIVE MILLIONTH CHEVROLET PRODUCED AT FLINT, MICH.

Detroit, Mich., Sept. 17.—Marking, for the seecond time within eight months, the passing of a millionth milkstone, the Chevrolet Motor Company announced today that the five millionth Chevrolet was produced at Flint, Michigon plant, Seept. 8. The four millionth car was built Jan. 11, following quickly on the spectular nationwide response accorded the present "Bigger and Better" model.

The early arrival of the 5,000,000th car was in response to continued demand that has kept Chevrolet plants on a day and night basis since the first of the year and has resulted in the setting of new monthly production records every month this year.

Production for the year promises to go well beyond the million mark and will show more than a 1,000 per cent increase over 1923 when 77,565 cars were built.

The epochal five millionth car was a standard coach and came off the line amid the cheers of a vast arm of assembled mechanics who gathered momentarily to see the record making model glide off the line under its own power. Exacting schedule requirements did not permit of any ceremonies and a few seconds later the five millionth car became history, when number 5,000,001 was driven away.

It was pointed out that, whereas it had required a little more than 10 years for Chevrolet to build its million car; the last four million were produced in a little more than five years, an indication of the spectular march that the Cchevrolet Motor Company has made in recent years to attain its present position as the world's largest automobile manufacturer. It was shown too, that since January 13, 1927, when the 3,000,000th car was produced a little less than 20 months had been required for another two million.

This reecord-breaking production was in response to the greatest demand in the company's history. During the first six months of this year, 50 per cent of all automobiles sold in Chevrolet's price class were Chevrolets. This was an increase over 1927 when Chevrolet outdistanced all competitors by selling 40 per cent of all cars purchased in its price class.

In light of the fact that Chevrolet production is geared to meet the demand, ranking company officials viewed the recent production achievement as a tremendous popular tribute from the motoring public. W. S. Knudsedn, president and general manager, stressed the point that precision is the father of speed. He explained that to make such a record possible it was necessary to adhere even more closely to precision manufacturing methods and to make the limitations even more exacting. The slightest inaccuracy in workmanship or inspection would increase costs and slow production, he pointed out.

MEMBERS OF PLEASANT GROVE CHURCH TO MEET

We, the Committee of Pleasant Grove Church want every member to meet at this place the Fourth Sunday P. M. at 2 o'clock, September 23rd, for the purpose of making plans for building a new Church. Please come.—S. A. Findley, Grady Culp, Lara Headley, Mrs. Walter Jones and Mrs. Harmon Headley.

NINTH GRADE PUPILS

In Chilton County Schools, Take Notice!

A FREE TUITION IN

THORSBY INSTITUTE

for the full school year 1929-30 is offered to every Ninth grade pupil in any Chilton County school, who during the present school year makes the best grades or does the best work in his class (The cash value of this scholarship is $27.00)

To any Chilton County Ninth grade pupil who during the year stands second in his class, a tuition scholarship for One Semester of the year 1929-30 (value $13.50) is hereby offered.

These scholarships will not be available to any student whose average grade for the school year falls below 85 or to any student who cannot conform to the conduct regulations of Thorsby Institute.

WILL THE TEACHERS OF CHILTON COUNTY STUDENTS [illegible] Ninth grade pupils to this offer?

For any particulars or catalogue address Miss Helen Jenkins, Prin., or H. Rasco Maddox, Registrar.

THORSBY, ALABAMA

P. S.—If any school in the County does not do Ninth grade work, the Eighth grade pupils in that school may consider this offer made to them.—"THE BEST FOR THE BEST."

A Proclamation

BY THE GOVERNOR

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out; and

Whereas, notice of such election, together with the proposed Amendment, is required by law to be given by proclamation of the Governor;

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice direct and proclaim that on Tuesday, the 6th day of November, 1928, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

Article , Section 1: The Legislature may form or provide for the formation of drainage districts, for establishing and maintaining drainage systems; and provide for the assessment of the whole or part of the cost of such improvements against the lands and property in such district to the extent of the increased value thereof by reason of special benefits derived from such improvements and may provide for the issuance of bonds for such districts with or without an election.

Section 2: This amendment shall be retroactive and retrospective and shall operate to ratify, confirm and validate the Act of the Legislature of Alabama, which Act provided for the drainage of farm, wet, swamp and overflow lands in the State of Alabama and authorized the organization of drainage districts, conferred the right of eminent domain to the extent necessary to carry out the purpose of said Act, and provided for the raising of revenue by bond issues or otherwise to pay the cost and expense of maintaining drainage systems so as to promote the public health and general welfare and, which act was approved March 4, 1915; and this amendment shall operate to confirm and validate all corporate organizations under authority of such law, all procedure had, all acts done, all bonds issued, all contracts entered into and assessments made by such corporations under authority of such law.

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

BIBB GRAVES,
Governor.

JNO. BRANDON,
Secretary of State.

MRS. BILL MIMS DIES AT HOME NEAR MACEDONIA

Mrs. Bill Mims died at her home near Macedonia last Friday afternoon at three o'clock. Her death came after only a few days of serious illness.

She leaves her husband, and eight children and a host of friends and relatives to mourn her death. Mrs. Mims was about sixty-three years old, and was a member of the Macedonia church for many years. She was a faithful Christian and mother.

She told her family she was ready to go, and we know that another link has been added to that Golden Chain, where there is no pain and sorrow. May God bless her dear husband and children that they may be ready to meet her some sweet day in that world that shall never end, and we surely do thank the many friends of the sorrow stricken family for their kindness during her illness and death.

Mrs. Mims was laid to rest in the Macedonia cemetery, with the Rev M. J. Parrish officiating.

—A Friend.

INFANT WILLIS DIED ON LAST WEDNESDAY, SEPT. 1

The infant son of Reuben and Ora Mae Willis died last Wednesday September 12, at the home of the parents at Mitchell Dam. The little boy was laid to rest at Walnut Creek cemetery the following Thursday.

VOLUME 7 CLANTON, ALABAMA, THURSDAY SEPTEMBER 27, 1928 NUMBER 1

Sen. John Blaine Will Not Support Hoover

Says He Prefers Man Who "Is Loyal To One Party"

New York, Sept. 23.—United States Senator John J. Blaine, of Wisconsin, Republican, in a statement issued at his home, Boscobel, Wis., today and made public by Democratic National headquarters here, announced that he will not support nor vote for Herbert Hoover.

His staatement follows:

"No Republican owes any political allegiance to Mr. Hoover as presidential nominee. In the congressional campaign of 1918 he urged the election of a Democratic Congress. He said, "I am for President Wilson's leadership not only in the conduct of war, but also in the negotiations of peace, and afterwards in America's burden in the rehabilitation of the world."

"Mr. Hoover in 1920 sought and was willing to accept, the nomination for president on the Democratic ticket. After he was convinced that he could not receive the Democratic nomination he declared 'I must vote for the party that stands for the League of Nations.'

"Eight years ago when he assumed President Wilson's policies were popular, he was willing to captialize those policies if the Democratic party would nominate him.

"Mr. Hoover was a part of President Wilson's administration. He served as President Wilson's food administrator and as a member of his war trade council. During the war Mr. Hoover was chairman of the United Staates Grain Corporation, 'that beat down the price of the farmer's wheat. He was also chairman of the United States Sugar Equalization Board which boasted the price of sugar.

"I point out the fact in proof of his close association with President Wilson which no doubt led Mr. Hoover to believe he was the logical successor to the president as Democratic nominee to the president as Democrat'c nominee for president.

"The only difference between Gov. Smith and Mr. Hoover is a period of eight years. Gov. Smith has been constantly a Democrat. Mr. Hoover has been willing to embrace either party for the president'al nomination."

"Under these circumstances no one's republicanism can be questioned if he fails to vote for Mr. Hoover. From the party view, the Republicans have no candidate excepting a candidate by adoption.

"Senator Norbeck of South Dakota summed up the character of Mr. Hoover when he said on the floor of the senate these words:

"But he (Hoover) was 43 years old before he took any part in this country. He should not be elected. He was not sufficiently interested in political affairs to vote in a national election until after he was 43 years of age. His great fortune was amassed in British enterprises and in British territory. He was a member of the Democratic administration of President Wilson. He was unconvinced that there was anything in the Republican party until the landslide of 1920.'

"Mr. Hoover is opposed to practically all of the policies of the great mass of progressive Repuglicans and independent forward-thinking people of America. Hence, Mr. Hoover does not stand for the things for which I stand. I will not support him nor vote for him."

MARRIAGE LICENSES ISSUED IN MONTH OF SEPTEMBER

Following is a list of the marriage licenses issued from the office of the Judge of Probate in Chilton County from August 29 to September 22, 1928:

Albert Sayre Dunn van and Miss Dorothy Brooks.

Quitan Hand and Miss Lovie Scott.

Floyd Hollard and Miss Marie Giles

H. J. Rollan and Miss Alma Dismukes.

Commadore Dennis and Miss Flora Coker.

Bird Porter and Miss Alice Lowery.

R. A. Hardy and Miss M. V. Ellisor

Joseph Jesse Colvard and Miss Elizabeth Kimmerman.

Horace Hobson Lowery and Miss Elna Irene Stinson.

Audie Wyley Cowart and Miss Eunie Lee Brown.

E. E. Brown and Rosa B. Sayers.

Rudolph Moats and Miss Glennie Robinson.

Earnest Parker and Miss Gertie Giles.

S. F. Avery and Miss Manila Littlejohn.

MR. ERIC HART EXPRESSES APPRECIATION FOR VOTE

Through a very regretable error the following card of appreciation from Mr. Eric Hart was left out of the News of last weeks issue. We apologize to Mr. Hart for the omission and wish to say that it was deeply regretted.—The Editor.

To the Citizens of Clanton:

I wish to thank you for the splendid vote given me in the election Monday, and desire to express appreciation to everyone for the efforts put forth in my behalf.

I feel that the campaign has left no bitterness, and that we can all work together in order that Clanton may continue to grow and improve, and it shall be the ambition of the council and myself to do all that we can to keep Clanton a town we are all proud of.

Your cooperation to this end is earnestly requested.—ERIC HART.

SATURDAY IS WORK DAY FOR METHODIST ORPHANAGE

Saturday is to be Work Day for the Methodist Orphanage. Every Methodist in Alabama and West Florida is asked to bring in to Sunday School or Church on next Sunday an amount equal to the earnings of one day. This Work Day offering is one of the main sources of the maintenance fund of the orphanage at Selma. It is hoped that the Clanton church will make a worthy response to the appeal of the orphans.

Mr. Aldridge, the Superintendent of the Orphanage, requests farmers who make syrup to remember the pleasure they can give the children by sending some syrup this fall. It may seem a small thing to send a few gallons of syrup to the children in the Home, but it will not only help with the expenses, it will give genuine delight to the boys and girls, and that is worth while.

KIWANIS CLUB HEARS WELFARE WORKER

Miss Jean Langston, of Elba, Ala., Delivers Impressive Talk

Interest in the regular weekly luncheons of the Clanton Kiwanis Club is growing with each week, and if the program committee can arange to have more speakers that will hold the interest of those in attendance as did Miss Jean Langston, of Elba, Alabama, at the luncheon last Thursday, the weekly attendance is sure to increase.

Miss Langston, whose native home is in the state of New Mexico, is at present Supervisor of Juvenile Work in Coffee County, and is said to be one of the best informed and most capable welfare workers in the South. She is a lady of fine personality and is peculiarly fitted for the work she has undertaken.

During the World War, Miss Langston went overseas as an entertainer with the American Red Cross, and has filled numerous engagements with Redpath and Radcliffe Chautauquas as an entertainer. Miss Langston is also a gifted musician, which is a great asset to her in the work she is now following.

In her talk at the Kiwanis luncheon here last Thursday, Miss Langston handled her subject in such a manner that she easily won the endorsement of the local club to the idea, and from expressions heard after the luncheon, one cannot keep from being convinced that she would be the unamious choice of all the members of the Clanton Kiwanis Club for such work in Chilton County, should the welfare work be undertaken in this county.

While in Clanton, Miss Langston was the guest of Mrs. John B. Higgins at her home in Candler Terace.

Thousands of Dollars To Be Spent In Fireworks At The Alabama State Fair

Each night in front of the grandstand, beginning Monday, September and continuing throughout the week, the Alabama State Fair officials have contracted with the Thearle-Duffield Fireworks Company for the most costly display of fireworks ever brought to the South. The management takes pride in boasting that no state fair, anywhere during 1928, will be able to match the Alabama State Fair's display of fireworks and combustibles.

EDITORIAL

Why Not Protect Sane Drivers?

Now that the stretch of highway from Birmingham to Montgomery is a paved thoroughfare, traffic is increasing daily, and the State Highway Commission should take steps to see that the highway laws are more closely observed.

We do not mean to advocate the placing of fee-hunting cops on the highway, who will molest those who observe the rules of highway travel in a sane manner, but we do think that there should be traffic cops on duty who would protect those drivers who try to observe the rules.

Though the non-glare headlight law is now in effect, one only needs to go a short distance over any highway to learn how this important law is being disregarded. It will be found that there are numbers of cars being operated with blinding head lights, some with only one light, and very often one finds cars traveling the highways without any lights at all. And, then too, the horse drawn vehicles should take into consideration their own protection, and carry lights. Only recently, the editor of this paper narrowly averted crashing into a horse drawn wagon when meeting a car equipped with blinding headlights, the only thing preventing the crash being that he was compelled to stop his car as he found it unsafe to continue until the bright headlights had passed. It was impossible to see the wagon traveling just ahead, as it carried no light.

One can often find cars parked on the highway, sometimes making repairs, and sometimes merely for conversation. Some of the operators of these cars make no effort to pull to one side of the road, and quite often a car will be found parked on the highway with neither front nor rear lights burning, in spite of the fact that the car may be parked on a curve or on the peak of a hill.

Readers of the News quite often see accounts of serious wrecks along the Birmingham-Montgomery highway, and it in a great many instances the cause is attributed to carelessness on the part of the drivers of automobiles, and quite often the guilty party escapes without serious injury or damage to his car. Just a short time ago, there was a serious accident just south of Clanton, which resulted in the death of a young man from Montgomery, and according to accounts in the papers, this wreck was caused by the car in which the victim was riding colliding with a car parked on the peak of a hill at night, without lights burning.

The traffic on the main thoroughfares, as stated above, is rapidly increasing, and unless some steps are taken to protect those who observe the rules of the highways, accidents will continue to increase.

MULBERRY BAPTIST HAVE FINE YOUNG PEOPLES UNION

The Senior Young Peoples Union of the Mulberry Baptist Church elected new officers for the coming year, on last Sunday, September 15. For president, Mrs. J. A. Chambers, who is a member of the faculty of the Isabella school faculty, was elected. Miss Alma Sexton was elected vice-president and Miss Dorothy Manning was elected secretary-treasurer. Robert Lee Griffin is corresponding secretary, Miss Emma Louise Jones, pianist and Guin Williams, chorister. The following group captains were elected to serve as Group Captains: Group No. 1, Miss Lorene Lecroy; No. 2, Oliver Manning; and No. 3, Glynder Oden.

Group 2 had charge of the program on last Sunday evening, Sept. 22. The program was unusually well carried out, all members who were on the program were present and credit must be given to the Captain of this group and also the members who took part in this program.

At this meeting there were approximately thirty-five present, this including several small children and several elder people of that community. The members are to be commended for the amount of interest shown in the work of their B. Y. P. U.

Plans were discussed for a social to be held soon, and a Junior Union was also organized at th's meeting for the younger members who had been attending the Senior Union. Miss Alma Sexton was selected to act as leader of the newly organized Juniors.

A study course will be conducted for the members of the Union and Miss Mary Thweatt, a member of the Isabella high school faculty was appointed as chairman of a committee to push forward the work. This committee is composed of Miss Thweatt, Miss Bonnie Clyde Griffin and Miss Lorene Lecroy.

BOX SUPPER TO BE HELD AT LIBERTY HILL SEPT. 29

We have been requested to announce that a box supper will be held next Saturady night, September 29, at Liberty Hill church at 7 o'clock.

This box supper will be sponsored by the B. Y. P. U. of Liberty Hill. Proceeds will go toward paying for a new piano.

There will be a pretty girl contest also on that night at the church. A large cake will be given to the young lady who is voted the prettiest. All the girls are requested to bring boxes and the boys their money. A hearty invitation is extended to everyone.

Remember the date, and be sure to be there. You will enjoy a delightful evening, and at the same time contribute your part to a good cause.

CHILTON HIGH TO PLAY ISABELLA TOMORROW

Both Teams Said To Be In Good Shape For The Opening Game

The football season will open here Friday at three o'clock, when the Chilton County High School team meets the team from the Isabella school.

While this marks the opening game game of the season, a real game is predicted by those who have been watching the two teams in practice for the past few weeks.

The game here will be the first game ever staged on the local field between the two teams, and naturally each will go on the field with the determination to win.

Coach Bruner has an unusually strong team this year, there being eleven men fighting for regular positions in the back field, not mentioning the many candidates for positions on the line.

The line-up for the local team will probably be as follows: Jim Wade, L. E.; Jim Roberts, L. T.; Gowan, L. G.; Retherford, C.; Meeks, Johnson or Lindsey, R. G.; Wagoner, R. T.; Brown, R. E.; Sims, L. H.; Minor or Baker, R. H.; E. Bruner, Q. B.; and Nelson, F B. Melton, Harris, Nivens, Green, Jones and Wingard are sure of getting a chance to show their wares in the game also.

Supporters of the two teams are urged to turn out and give your choice a good start. Remember the game starts promptly at 3 o'clock tomorrow afternoon (Friday).

Mrs. Frank Scott arrived in Clanton last Monday from Huntsville and will spend some time with her parents, Mr. and Mrs. J. R. Mulins.

J. A. Nivens Is Nominated For Treasurer

Democrats Pick Man Well Qualified For Important Position

At a call meeting of the Democratic Executive Committee of Chilton County, held last Friday, many matters of importance were transacted.

Probably the most important transaction taking place at the meeting was the nominating of Mr J. A. Nivens as a Democratic candidate for the office of treasurer of Chilton County. This nomination was unanimous, and the Democrats of the county now have a full ticket, made up of men that are of the highest type to be found anywhere.

In the selection of Mr. Nivens a the Democratic candidate for the important office of treasurer, the committee made a move that can not be considered other than wise, for Mr. Nivens is a man of character and business integrity beyond reproach.

Mr. Nivens has been noted among Chilton County's most prominent business men for a number of years. For several years he was engaged in the mule business, being a member of the firm of Nivens & Shaw. For the past several years he has been successfully engaged in the grocery business in Clanton, being a member of the firm of Nivens & Broadhead.

Mr. Nivens is the type of man who readily makes friends, and his years of successful business experience adds to his qualifications for the position to which he now aspires.

Mr. Nivens is anxious for a chance to serve the people of the county, and we believe that should he be elected in the coming general election, the people of the county will never have reason to regret having elected him to the office of Treasurer of the county.

And, then too, Mr Nivens like the rest of the Democratic nominees, is the type of man who will conduct a campaign on a high plane

WHITE SCHOOLS IN COUNTY NOT OPENED WILL OPEN OCT 3

Many patrons are constantly asking when schools will open. The Teachers' Institute will be held on Monday and Tuesday, October 1 and 2, and all the white schools in the county, that have not already done so, will begin work Wednesday morning, October 3rd

I know that many people will have cotton to pick and will feel that they cannot send their children to school at the present. The new compulsory attendance law makes it necessary that all children between the ages of seven and sixteen attend school the entire term. Let me suggest that the trustees arrange with the teachers to open school as early as possible and have a minimum play period and close school as early in the afternoon as possible, in order that the children may get back home and pick as much cotton in the afternoon as possible. I believe that this arrangment will enable all of us to comply with the law and at the same time enable farmers to get the cotton picked.

In conclusion let me ask that every patron cooperate with us in an effort to make this school year the best we have had. Last year Alabama made greater progress educationally than any other state in the Union. Let us adopt that as our goal in Chilton County this year.

Yours for better schools,

B. LAWRENCE,
County Supt. of Education.

GRESHAM LOWERY GOES TO FORT WORTH, TEXAS

Mr. Gresham Lowery, son of the Rev. W. H. Lowery, left last Friday for Ft. Worth, Texas where he will enter the Seminary at Seminary Hill to take Lanceshaic courses in Evangelistic singing.

Mr. Lowery is one of Chilton County's most popular young singers and has conducted the singing for numerous revivals which were held in Chilton as well as adjoining counties. He expects to be gone for some time.

ALL-DAY SINGING AT PLEASANT GROVE CHURCH SEPT. 30

We have been requested to announce that there will be an all-day singing at Pleasant Grove, seven miles southwest of Clanton on next Sunday, September 30th.

Everybody is invited to attend and bring your 1928 song books.

MISSION FUNDS STOLEN

For several weeks the daily newspapers have carried amazing stories of the dishonesty of Clinton S. Carnes, for several years the trusted treasurer of the Southern Baptist Home Mission Board, who disappeared from the board's headquarter's in Atlanta leaving its funds short by an amount which may reach one million dollars, and possibly a million and a half.

How many organization's officials could permit any one person to so control its affairs as to get away with that much money is difficult to understand. Another startling discovery is that Carnes was an ex-convict before his employment by the Baptist Board.

As usual, in such cases, several women are involved in the Carnes embezzelment, at least to the extent of having received large gifts of money from him, supposedly for the purpose of enabling them to break into the limelight as movie stars.

The thievery of this wolf in sheep's clothing is a reminder that it is folly to permit anyone to have unlimited sway in handling large sums of money without a periodical checking up in the the most thorough manner. The honest man will not object to being so checked up, and the dishonest man might be detected before his thefts reach a large sum.

The loss of its funds will be a serious handicap to the Baptist board in carrying out its worthy Home Mission program, as it is said that Carnes was bonded for only $50.000. The whole affair is most deplorable from every angle.

Prisoners enjoy music and always listen eagerly for the opening bars.

A man who is clever enough to be boss at home is also wise enough not to brag about it.

If we ever try to learn parachute jumping it will be through a correspondence course.

This is the season when campaign managers kid themselves by claiming everything in sight.

A New Yorker was found living in a sewer. Probably a playwright looking for atmosphere.

It is said that comedians labor under a great strain when on the stage. But usually not as great as that experienced by the audience.

A poet in Peru was sent to prison for three years. Justice was probably tempered with mercy at that.

After getting fired it is natural to stroll by the place occasionally to see whether the firm is still in business.

Americans will have a special reason for observing Thanksgiving Day this year. The campaign will be over then.

A man, in Wisconsin, who came to America 79 years ago, has become naturalized. We hope he will like it over here.

Muckrackers, too, may find it somewhat difficult to adjust themselves to conditions in heaven.

A Pennsylania paper relates in connection with a larceny trial that "the accused came from very good people and was drunk when he came."

STATE CAPITOL NEWS

The state convict department is taking county convicts from road work and placing them on prisaon farms at Atmore and Prison Number Four, replacing them on road work with state convicts. This is done to allow the state convicts, who have longer terms to serve than the county prisoners, to be trained in operation of road machinery. With shrt-time count yprisoners the men frequently served their time and were discharged by the time they had enough experience to be good road men.

Hamp Drape, associate member of the board of administration, announced that the gravel road, 22 miles long, from Atmore to Uriah, which is being built entirely with convict labor will be finished by January 15th. The rapid fashion in whish this road is being pushed to completion and the high grade of work being done is regarded as puite a compliment to the efficiency already atained by th convict department in road building.

Some 200 acres wil be planted in strawberries next month, Mr. Draper announced, and about 25 acrs will be planted in fruit this winter. The convict department wil have a total of 2.000 acres cleared and in cultivation at the Escambia county farm next year which involves a large amount of clearing work, the cleared farming area orig nally being only 550 acres.

The convict department, on its various prison farms over the state, will produce around 1.200 bales of cotton this year, Mr. Draper said, on 2,200 acres. The crop is some 400 bales short of what was anticipated, the unfavorable, wet weather having curtailed production.

One of the busiest places in the State Capitol is the offic of the State Auditor, where all monies recived by the State are carfully checked in, and certified by the Auditor to the Treasury, and where State warrants or checks are issued by the Auditor for all money paid out by the State Treasurer.

The State's fiscal year runs from Octoberlst to Sept.30th, and therefore the total figures are not available for the year 1927-28, but it is safe to say that the amount of money handled will b large, a substantial increase over the year 1926-27. According to State Auditor, S. H. Blan, his office handled during the year 1926-27 in receipts over thirty-three million dollars, and then as separate business transactions, paid out over thirty-three million, making a business turn-over of nearly sixty-seven million dollars.

The State Auditor deals with every county official in the state who receives money for the State, from whatsoever cause. Likewise he deals also with every State official who receives money for the State, and as above stated, after carefully checking these monies to see that the State has the correct amountdue, certifies the monies to the Treasury. The Auditor also issues checks for all monies paid out by the state, after seeing that the claims are just and in proper form.

It is no unusual thing for the Auditors office to issue as many as a thousand checks in one day, in which are included highway pay rolls, contract work and maintenance, and all general pay rolls and expenses of every State department, including monies spent for education, etc., and other purposes.

The Auditors office issued last year over seventy- thousand highway and general warrants, and over thirty-two thousand pension warants. Pension warrants are paid quarterly on the first day of the quarter. For instance on January 1st, the pensioners are paid for January, February and March. On April 1st they are paid for April, May and June. On July 1st, they ar paid for July, August and September. And on October 1s, they are paid ofr October, November and December. The State is now paying Confederate veterans and their widows about two and quarter million dollars per year. The law does not authorize pensions to be paid to children of the veterans.

Auditor Blan has a splndid corps of trained workers in his office. The chief clerk is now, J. L. Purifoy, who has previously served as chief clerk in the Auditors office. He has also been at times clerk in the office of Secretary of State. Mr. Purifoy has served several years as an Assistant Examiner of Accounts, but recently returned to the chief clerkship in the Auditors office when Chas. Lee was appointed as an Assistant Examiner and resigned his work with the Auditor.

Other divisions heads in the Auditors office in addition to Mr. Purifoy, whose speoial work is having charge of receipts, are; L. C. Parker, head of the warant division; F. O. Hooten, who heads the land division; Roy Sanders, at the head of the book-keeping division; Miss Ila Ringstaff, chief clerk of the pension division.

Judge Chas. E. McCall, Chief Examiner of Acounts, makes his head quarters at the office of the State Auditor, as do the Assistant Examiners who are at work in the Capitol. Judge McCall details the force of Assistant Examiners to go to all parts of the State where the books of State and County officials and public institutions are examined and reports made on the condition of the same.

In addition to his work in the Auditors office, State Auditor Blan is a member of the Pardon Board, Board of Compromise, Board of Appointment for Registrars, on Building Commission, amember and secretary of the Budget Commission, a member and Secretary of the Governor's cabinet.

J. T. Quinn, state commissioner of game and fisheries, has returned from Seattle, where he recently attended the convention of the International Association of Game, Fish and Conservation Comissioners. Mr. Quinn was president of the association during the past year, his term expiring with the convention. He was chosen as a member of the executive committee for the coming eyar, and also one of five members from the country at large on the wild life legislation committee. The convention went on record as favoring sanctuaries as places of refuge for migatory wild fowl, and endorsed the principles embodied in the Norbeck bill which would provide such game sanctuaries.

Mr. Broadus Connatser arrived in Clanton last week and will be the guest of friends here for some time.

Mr. and Mrs. Robert Moris of Enterprise were in Clanton shopping last Monday.

Interesting News Items From Chilton County High School

Chilton County High School starts with a very promising outlook for a real live schol year. We have several interesting things to look forward to a successful year in, football is one. We fully believe in Chilton High when it comes to football. Another interesting feature that we are looking forward to is the organization of literary societies. This will help us in every way to develop a beter school. But we intend to crown the year with something new in the history of Chilton County High, something of which the mere mentionof, thrills us all. It is a High School Annual. So with the continuance of such a spirit as we now have, and the Co-operation of every pupil this year bids fair to be the most sucessful in the history of Chilton High.

Mr. H. C. Pannell and Mr. J. T. Riddle, two members of the State Board of Education visited the high school on Tuesday of last week. Mr. Riddle conducted the devotional exercises and Mr. Pannell wade a very interesting talk t the stndent body. They were with the school all day, visiting the different classes. Mr. Riddle also talked to the Senior class for a few minutes. It is hoped that they will be back soon.

Re. Green, pastor of the local Methodist church made us a isit last Thursday. He conducted the devotional exercises and talked a few minutes on the subject of, "Life". Everyone who heard him enjoyed having Mr. Green visit us, and we hope that he will come again soon.

Our chapel exercises are being made very interesting. The music department deserves some credit for this.

Several men holding important positions have spoken to the student body at chapel time.

The different classes are to take charge of chapel exercises at different times, so it is expected that they will become more interesting each day.

Clean-Up Day

Last Friday, the school held a Clean-Up Day. The last period of the day was devoted to cleaning the building and campus. The black boards were all cleaned, also the windows and desks. All the pupils were kept busy cleaning and really enjoyed the work. There was a very noticeable change in the building Monday morning.

Personals

Miss Berniece Williams, a member of the high school faculty, spent the past week-end in Montgomery.

Corrinne Polk, who was missed greatly last week on acount of illness, is back in school again.

John Ponder Lawrence was absent last week on acount of illness. We are glad to see him back at school.

Miss Nell Wells, a member of the faculty, spent the past week-end at her home in Jemison.

Dorothy Sessions is at school after several days absence.

The enrollment of Chilton County High is increasing daily. Several new pupils enroled Monday.

The pupils of the school are uniting in an effort to reduce the number of absences and tardies. Results are already seen in that the pupils are at school when the bell rings, and few are absent.

Supt. Lawrence, Mr. Roy Hickman of the Alabama Engraving Company and Mr. Spence of the Southern School Desk Company, were visitors to the school Saturday. They went through the building, judging all the rooms. The Senior room was passed on as being the most attractive, this maybe atributed to the beautiful ferns in the room. They also agreed that the Junior room was the cleanest and best kept. This was the Junir Two room.

Cheer Leaders Elected

Hurray for Pep meetings and cheer leaders! We had a real peppy meeting in the auditorium last Monday morning. The cheer leaderselected were Vera Jones and Tom Frank Teey. With the new cheer leaders on the stage, Chilton High rang out with songs and yells. We are sure that with the team we have, the cheer leaders and the bunch that they are to lead, that every game will be a victory for us this year.

ALABAMA'S AUTO TAGS YELLOW ON BLACK

The new color scheme for Alabama's license tags will be federal yellow letters on a black background, according to advices received by Leroy Hill, executive secretary of the Alabama Motorists Association affiliated with the A. A. A.

A bulletin from A. A. A. headquarters in Washington says that 39 states will change the color combination for automobile license plates in 1919 and 23 different motifs will be used, according to the survey by the American Motorist, official publication of the American Automobile Association.

There is a decided trend toward the darker colors, it is revealed, and the "brunette" in license plates has gained a small lead over the "blonde." Although varied hues will be represented in the color schemes, nine states in the Union and the District of Columbia will retain last year's combination, reversing them as to background and lettering.

No single color motif can be said to prevail, although six states and the District of Columbia will use yellow letters and numerals on a black background. This color scheme will therefore predominate in 1929, taking rank over the black on white motif which was used in five states in 1928.

Second honor will go to the orange on black combination which will be used in five states, as compared with four last year, says the A. A. A. publication. Four states will use a combination of white on black and the same number have adopted white on green.

A Proclamation

BY THE GOVERNOR

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out; and

Whereas, notice of such election, together with the proposed Amendment, is required by law to be given by proclamation of the Governor;

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice direct and proclaim that on Tuesday, the 6th day of November, 1928, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

Article XI. Section 216-A. In addition to the taxes which the City of Birmingham is authorized to levy and collect under the Constitution as heretofore amended, said city shall have the power and right to levy and collect in any year or years for any municipal purpose or purposes, any rate of tax, not in excess of one-half of one per centum, on property situated therein, based upon the valuation of such property as assessed for State taxation for the year next preceding the levy, which a majority of the qualified electors of such city voting at an election called and held as hereinafter prescribed, may authorize for such purpose or purposes. Said tax shall be used only for the purpose or purposes for which the same is authorized, levied and collected. Each election held under the provisions hereof shall be ordered, held, canvassed, and may be contested in the same manner as is or may be provided by law applicable to municipal corporations for elections to authorize the issuance of municipal bonds. The ballots used at such election shall contain the words: "For authorization of additional taxation at rate not to exceed _____ per cent for the year (or years)_____ for the purpose or purposes of_____ _____" and "Against authorization of additional taxation at rate not to exceed ... _____ per cent for the year (or... years) ... for the purpose or purposes of _____" The rate of taxation proposed shall be printed upon the ballot in the space indicated therefor, and the year or years in which the proposed rate is to apply, and the purpose or purposes for which such tax is to be used, shall be likewise printed in the respective spaces indicated therefor. The voter shall record his choice either for or against authorization of the proposed rate for the proposed purpose or purposes by placing a cross mark before or after the words expressing his choice. Nothing herein contained shall in any wise change or affect the rights of any holders of bonds of said municipal corporation heretofore issued. Elections in said municipality to authorize the levy of such special tax may be held as often as ordered by the governing body thereof, but when a proposition is submitted to the electors of said municipality for authorization to levy a special tax for a specific purpose and such proposition is defeated, no second election for the same purpose shall be held in such municipality within one year thereafter. This section shall be self-operative without any additional legislation."

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928

BIBB GRAVES,
Governor.

JNO. BRANDON,
Secretary of State.

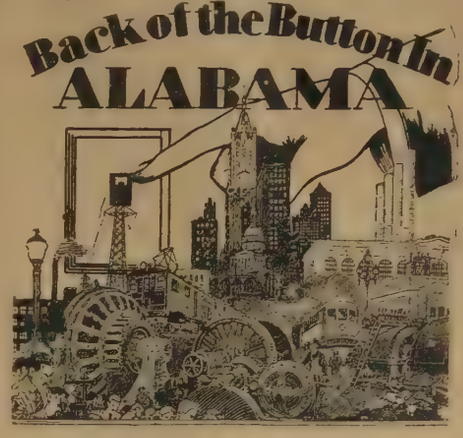
Mrs. John Childress of Thorsby was in Clanton last Monday afternoon shopping

Mr. and Mrs. L. V. McGilliad of Quinton, Alabama were visitors to Clanton last Monday.



WHEN you press a button—when you throw a switch—little do you think of the mighty forces which you command with that simple action.

At any one of 19 power plants scattered throughout Alabama, electricity is generated to meet your needs, whether a 25 watt lamp or 2500 horsepower motor. The force of water falling over a dam, or steam spending its energy against the blades of a turbine, is summoned to do your bidding. From the giant generators a silent force—the maid of all work in the home, the tireless worker of the factory, the mechanical chore-boy of the farm, rushes to you with the speed of sunlight. Traveling at 186,000 miles per second, its voltage is boosted in huge transformers to 1,000 times that of your light socket. Leaving the power plant, it rushes for miles along any one of scores of power lines—totalling 6,000 miles in length—into a primary substation, one of 30 such plants. Here its pressure is reduced in successive steps and radiating copper wires carry it to you, all in the fraction of a second.

So simple—you press a button, instantaneous service—you lose sight of the millions of dollars of apparatus, equipment, material, and the scores of men and women, which serve you. Generators, transformers, lightning arresters, circuit breakers, oil switches, miles of power lines, scores of workers—keepers of the light—serve day and night, for the service must not fail.

All of this—and more—is Back of the Button in Alabama. Think of it the next time you use our service.

MT. PISGAH NEWS

Everyone has a special invitation to come and hear Bro. N. H. Culp, next Sunday at the eleven o'clock hour.

The friends of Mr. Steve Holley will regret to learn that he is on the sick list this week, suffering with tonsilitis. We hope he will soon recover.

Mr. A. F. Bowen and [illegible] spent the week end in Birmingham.

Mr. and Mrs. I. B. Yeargen spent a few hours in the home of Steve Holley Sunday afternoon.

Mr. and Mrs. W. J. Rollan were the guests of Mr. Steve Holley Sunday.

Rev. F. A. Gibson filled his regular appointment here last Sunday.

SMITH FAMILY REUNION LAST SUNDAY

The children and grandchildren of Mr. T. P. Smith assembled at his home in the Littlejohn settlement last Sunday for a family reunion. There were a total of 33 persons present, who enjoyed the day immensely. At noon a special dinner was served. Mr. Smith is past 76 years of age. The gathering of relatives was at his request.

Those present were as follows: Mr. and Mrs. J. M. Smith and family of Thorsby; Mrs. F. C. Collins, Miss Willie B. Collins and Mr. and Mrs. Earl Collins, of Sylacauga; Frank Hayes of Clanton; Mr. and Mrs. Byron Atkinson of Jemison; Mr. and Mrs. E. E. Smith, of Clanton; Miss Claudie Smith of Jacksonville; Mr. and Mrs. J. W. Lowery and family; Mr. and Mrs. C. N. Smith; Mr. and Mrs. Glover Smith; Gresham Smith.

Midland City School District No. 15 in Dale County, Ariton School District No. 50 in Dale County, shall each have the right and power by a majority vote of the qualified electors of such districts voting at an election held for that purpose to levy and collect for public school purposes including the payment of indebtedness a tax not to exceed ten mills any one year in addition to all other taxes now authorized by law. The election in such districts to determine whether or not such tax shall be levied shall be called, held and conducted as now provided by law for calling and conducting an election to determine whether or not the three mill district school tax shall be levied and collected, and the laws governing the handling and the expenditure of the proceeds of the ten mill tax herein provided for shall be in all respects in accordance with the law governing the handling and the expenditure of the three mill district school tax.

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

EDWIN AND JOHN D. MULLINS ENTER SEWANEE UNIVERSITY

Mrs. J. Renfroe Mullins returned last Tuesday from Huntsville, where she spent the past week with her daughter, Mrs. Frank N. Scott. She was accompanied by her two sons, Edwin and John Durwood, who went from Huntsville via rail to Sewanee, Tenn., where they have entered the University of the South.

Mrs. Mullins was accompanied home by Mrs. Scott who will spend some time here.

MISS JESSIE HOLLEY WEDS MR. DANIEL LEO WHITFIELD

Mr. and Mrs. J. R. Holley, Sr., of Clanton, announce the marriage of their daughter, Jessie Colvin, of Birmingham to David Leo Whitfield, also of Birmingham.

The wedding was quietly solemnized at 9:00 o'clock Thursday evening at the home of Rev. J. A. Bryan, on Sycamore Street, in the presence of close relatives and friends.

The bride was attractively costumed in a beautiful gown of navy blue chiffon, with accessories and hat to match.

After the ceremony Mr. and Mrs. Whitfield left for a short wedding trip and will be at home upon their return at 417 Delta Avenue, Fairview.

The groom, for a number of years, has been an engineer for the Frisco Railroad Company.

Mrs. Taylor Hostess To Young Matrons Sewing Club

Mrs. Grady Taylor was hostess to the members of the Young Matrons Sewing Club on last Tuesday afternoon at her home on Second Avenue.

Yellow marigolds and zinnias were used in the decorations of the home for the occasion. Mrs. Taylor served a delicious salad course to the following: Mrs. Flem Higgins, Mrs. Loren Smith, Mrs. Joe Higgins, Mrs. Paul Ousley, Mrs. Bill Murphy and Mrs. Milton Smith.

Baptist W. M. U. Circle No. 4 Met With Mrs. Tom Parrish

Circle No. 4, of the Baptist W. M. U. met with Mrs. Tom Parrish last Monday afternoon. The devotional was conducted by Mrs. Arthur Willis, who used the topic "Why Give."

An interesting business session was held after which an ice course was served by the hostess, assisted by Mrs. Garrick, to the following guests:

Mesdames W. E. Martin, Loren Smith, V. J. Gragg, W. W. Wingard, H. C. Rountree, A. C. Smith, D. C. Wingard, Arthur Willis, E. E. Upchurch, Horsely White, J. H. Favor, Tom Parrish, Howard Glasscock, Bama Cox and Miss Lula Rasberry.

COOPER NEWS

Little Miss Rubye Vance was carried to Central Alabama Hospital last Thursday and operated on for appendicitis. She is improving at the time of this writing.

Mr. and Mrs. Vesteree Vance and sister Zetta of Elmore, are visiting their sister, Mrs. John Cooper.

Mr. and Mrs. Harrison Smith and children spent the week end with Mr. and Mrs. Joe Kelley.

Miss Lottie Vance of Birmingham, spent the most of last week at her home here on account of the illness of her sister, Rubye.

Mr. and Mrs. Joe Handlin of Birmingham were the guests of Misses Philie and Lottie Cooper the past week.

Mr. and Mrs. Bill Calloway and children visited Mr. and Mrs. J. T. Allen Sunday afternoon.

Quite a number from here attended the Milt Tolbert show in Clanton last week.

J. A. M. JACKS URGES VOTERS TO GO TO POLLS NOVEMBER 6

Editor Chilton County News:

Please allow me space in your paper to tell the voters of this county to be sure and see to it that their vote is counted as cast and be sure to cast for the man who is good enough to try to do his duty by all.

They have, in the past, hired men to mark votes for them when the voter did not want to vote for them. They go out and buy a man or woman's vote. The man who will sell his vote doesn't care anything for himself, nor for anyone else. He would do anything against you that would take your liberty away from you. They stump the country to mislead you. Don't go to hear such rot, but go to the polls on November 6th, and put better men all over the U. S. in office. They promise everything and do nothing but draw their salary regular. It doesn't do any good to beg them to fix your road because they care nothing for you except to count your vote in their favor.

Yours for good men in office,
J. A. M. JACKS.

A Proclamation

BY THE GOVERNOR

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out; and

Whereas, notice of such election, together with the proposed Amendment, is required by law to be given by proclamation of the Governor;

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice direct and proclaim that on Tuesday, the 6th day of November, 1928, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

Article , Section 1: The Legislature may form or provide for the formation of drainage districts, for establishing and maintaining drainage systems; and provide for the assessment of the whole or part of the cost of such improvements against the lands and property in such district to the extent of the increased value thereof by reason of special benefits derived from such improvements and may provide for the issuance of bonds for such districts with or without an election.

Section 2. This amendment shall be retroactive and retrospective and shall operate to ratify, confirm and validate the Act of the Legislature of Alabama, which Act provided for the drainage of farm, wet, swamp and overflow lands in the State of Alabama and authorized the organization of drainage districts, conferred the right of eminent domain to the extent necessary to carry out the purpose of said Act, and provided for the raising of revenue by bond issues or otherwise to pay the cost and expense of maintaining drainage systems so as to promote the public health and general welfare and, which act was approved March 4, 1915; and this amendment shall operate to confirm and validate all corporate organizations under authority of such law, all procedure had, all acts done, all bonds issued, all contracts entered into and assessments made by such corporations under authority of such law.

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

FOR SALE BY ALL GROCERS

Chilton County Abstract Co.
M. D. FOSHEE, Manager

A good business man will not buy a farm or any property without first looking it over to see what it is worth. However, some will buy or loan money on land without an abstract.

Isn't it equally as foolish to buy a farm without looking it over as to buy it and not know whether the titles are good or not? Without an abstract you do not know where you are getting the land you look at or not.

Before investing in land in any way have an abstract made and be safe.

BILLINGSLEY

Dr. Seymore filled his regular appointmeent at the Baptist Church last Sunday. His subject "Checking Up" at the eleven o'clock hour, and "The Gain of Going in Business With God" at the evening hour were enjoyed. Several matters of church business were attended to, as this closes the work for the Associational year.

The P. T. A. met at the school house Monday night. The officers for the year were elected. Parents are urged to cooperate in this, making this the most successful year of the association

Miss Gandy of Prattville was the guest of Miss Ida Mae Weathers the past week end.

Preston Patrick left Monday for Northport, Ala., where he will spend awhile with his sister, Mrs. Zack Pennington. He was accompanied by Ross Marlar, who expects to work at Tuscaloosa.

Mr. and Mrs. J. F. Baxter had as their guest Sunday, Mr. and Mrs. C. D. Gibson of Prattville, and Mr. and Mrs. Arnie Powell and little daughter, Dorothy of Verbena.

Mr. and Mrs. T. W. Willis and children, of Jones, spent the week-end with Mrs. A. J. Marlar.

Dr. A. J. Marlar has gone to Birmingham on a business trip.

Mrs. Harvey McCord and daughter of Decatur are visiting Mrs. McCord's brothers, Messrs J. N. and W. J. Carter

A Proclamation

BY THE GOVERNOR

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out; and

Whereas, notice of such election, together with the proposed Amendment, is required by law to be given by proclamation of the Governor;

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice direct and proclaim that on Tuesday, the 6th day of November, 1928, being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

"The following municipal corporations, to-wit: Winfield, Marion, Bay Minette, Robertsdale, Foley, Prattville, York, Jackson, Collinsville, Ft. Payne, Luverne, Brantley, Glenwood, Red Bay, Tarrant City, Dadeville, Thomasville, Northport, Hartselle, Haleyville, Talladega, Daphne, Oneonta, Cullman, Lanett, Eutaw, Guin, Sylacauga, Millport and Sulligent, Ozark, Ariton, Midland City and Demopolis, through their respective constituted governing authorities, may levy and collect a rate of taxation in any one year on the property situated therein, not exceeding one per centum of the value of such property as assessed for State taxation during the preceding year; provided that the adoption of this Amendment shall in no wise affect, limit, modify, abridge, or impair the power, authority or right of any of said municipal corporations to levy and collect special school taxes, now or hereafter vested in or conferred upon them under the Constitution or any amendment thereto, which said special school taxes shall be in excess of said one per centum herein provided for."

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

BIBB GRAVES.
Governor.

JNO. BRANDON,
Secretary of State.

NOTICE TO NON RESIDENT

The State of Alabama—Chilton County
CIRCUIT COURT IN EQUITY
Henry M. Hanbury, et al., Complainant
VS.
A. A. Hanbury, et al., Defendant.

In this cause it is made to appear to the Register by the Affidavit of J. B. Atkinson, that the Defendants are non-residents and that their place of residence and post-office address is Seattle, in the State of Washington, and, further, that, in the belief of said affiant, the Defendants are of the age of twenty-one years:

It is, therefore, ordered by the Register that publication be made in the Chilton County News, a newspaper published in the County of Chilton, once a week for four consecutive weeks, requiring them, the said Rosa Irene Branch and Mrs. Anna Mae Stone to plead, answer, or demur to the bill of complaint in this cause by the 28th. day of October, 1928, or, in thirty days thereafter, a decree pro confesso may be taken against them.

Done at office in Clanton, this 24th, day of September, 1928.

W. D. SPIGENER.
No. 53-Sept. 27-4 times. Register.

NOTICE

Notice is hereby given of petition filed with the Alabama Public Service Commission by Thorsby Telephone Company praying for authority to construct and operate a telephone exchange at Thorsby, Alabama.

The Commission will, on request, advise any interested party of the date and place set for the hearing of said petition.

LAMAR WILEY, Secretary.
Alabama Public Service Commission

Baptist Association Holds Meet at Pleasant Valley

Representatives from the various Sunday Schools in the Unity and Chilton County Baptist Associations met in annual session with Pleasant Valley Church, Sunday, September 23rd. While not as many schools were represented as should have been we feel sure that it was a day well spent and will result in increased interest in the Sunday school work in the schools which had representatives at this meeting.

After 30 minutes devoted to the study of the regular Sunday school lesson the first speaker was John Maguire, rural worker of the State Sunday School department. He very clearly outlined and explained the organizational plan of Sunday school organization. His recommendation, that a Sunday afternoon program be held in each district once every month, and quarterly meetings of all the Sunday Schools, was later adopted by the convention.

Brother W. J. Billingsley of Thorsby told how his school reached the Standard of Excellence and some of the benefits derived. Among the benefits mentioned, were increased enrollment and attendance, greater interest in the study of the Bible, more conversions.

In the few minutes given him, Bro. B. Lawrence gave us some very forceful discussion on "The Bible Authority for Sunday Schools."

A committee on nominations and recommendations was appointed by the president of the convention as follows: B. Lawrence, J. Z. Mims, S. M. Yates, T. S. Pyron, Mrs. W. J. Billingsley, and Mrs. J. Z. Mims.

At the noon hour refreshments were served by the good ladies of the community.

The afternoon devotional was conducted by W. E. Wallace.

The Sunday School's part in the Co-operative Program was discussed by Rev. J. D. Hughes and Rev. W. J. Ruddick.

The real need of a Sunday school in every community was next discussed by Prof. A. E. Davis. His talk was not only interesting but helpful.

The president of the convention made a report of the work in the two associations. Not having reports from all the schools, he could make no definite report as to what had been accomplished during the year.

The following officers were elected for the next year: H. A. Harris, President; W. J. Billingsley, Vice-President; G. F. Harris, Secretary-Treasurer; Mrs. J. Z. Mims, Elementary Supt.; Mrs. W. J. Billingsley, Intermediate Supt.; R. S. Chandler, W. H. Rayburn, J. W. P. Murphy, C. D. Hughes, J. E. Dennis, Trull Smith and A. E. Davis, District Presidents.

The next annual session will be held with Sardis Church near Maplesville.—G. F. Harris, Secty.

The B. Y. P. U. meets each Sunday at seven P. M. at the church. You are invited to attend. Comeearly.

IT DRIVES OUT WORMS

The surest sign of worms in children is paleness, lack of interest in play, fretfulness, variable appetite, picking at the nose and sudden starting in sleep. When these symptoms appear it is time to give White's Cream Vermifuge. A few doses drives out the worms and puts the little one on the road to health again. White's Cream Vermifuge has a record of fifty years of successful use. Price50c. Sold by

A new gasoline experience—
actually—NEW MILES per gallon

IT is a fact that the *new* Texaco does give better results—measurably better. It has at once overcome the limitations of the older type of engine and enhanced the performance of the new.

You can't be mistaken. You see the record of actual miles rolling up on your speedometer. You notice the ample gasoline reserve and the fewer filling stops. Your car is the same, but the *new* and *better* Texaco is a different gasoline—more miles to the tankful.

That's the difference between dry gas and wet! The *new* and *better* Texaco, vaporizing to a dry gas, enters the cylinders and ignites instantly. It burns freely and delivers *all* its power in that split fraction of a second of the power-stroke.

Wherever you stop for gasoline, see to it that your car draws up beside the Texaco pump. Look for the Texaco Red Star and Green T.

Not WET . . . . . But DRY

ATOMIZED

A wet gas is an atomized mixture of gasoline vapor with liquid drops of raw gasoline. These drops, separating at every manifold bend, result in uneven distribution and loss of power.

A dry gas, the *new* and *better* Texaco, vaporizes completely. It is a perfect mixture of dry gasoline vapor and air which provides an even flow of fuel and power to every engine cylinder.

VAPORIZED

THOSE WHO COULD BEST AFFORD TO BE CARELESS SELDOM ARE

IF carelessness about lubrication were merely a matter of wasted money there are plenty of well-to-do people who would never give the matter a second thought.

But to have a car's performance on the road spoilt! That's another story, and a sad one. Swift, comfortable, silent transportation; that is what you expect from your car today, and that is precisely the condition that Texaco Motor Oil facilitates to the maximum.

But the big point, after all, that one gains at the sign of the Texaco Red Star and Green T is —*absolute certitude of clean, clear, golden motor oil of the right grade, Texaco.*

The Texas Company's refinery engineers for years sought to find methods which would remove everything from motor oil that was not lubricant

When this super-refining was perfected the resulting oil was of a pure golden color. To have made a motor oil of real body so pure was a real triumph. The results you see and experience today every time you are supplied with golden Texaco Motor Oil.

VOLUME 7 CLANTON, ALABAMA, THURSDAY OCTOBER 4, 1928 NUMBER 2

New City Officials Assume Their Duties

Plier, Boockholdt and Wyatt Retained; Milton Smith Resigns

The city officials, who were elected in the General Municipal Election, held on September 17th, assumed their duties last Monday, one of their official acts bing to move the office of the Clerk and Mayor to the G. C. Walker Building.

No change was made in the city police force, Mr. J. A Boockholdt remaining as chief of police and Mr. T. E. Wyatt, being retained as night marshal. J. H. Plier will continue to serve as City Clerk.

Mr. Milton Smith, who has served for the past several years as superintendent of the local water works system, has resigned, and accepted a position at Montevallo, so we were informed. Just who will be selected to serve in the capacity has not yet been decided upon. However, an effort is being made to have Mr. Smith reconsider the local proposition, so we were told Monday morning, but no statement has been made by Mr. Smith at the time this article is being written, as to whether or not he would continue to serve as superintendent of this department. Mr. Smith's resignation is to go into effect October 10th, so we are informed.

The city officials are as follows: Eric Hart, Mayor; Grady Broadhead, J. W. Franklin, H. S. Shaw, Reedie Taylor, and W. T. Baker, Councilmen; Mr. J. W. Franklin was appointed as Acting Mayor, and the following committees were appointed: Committee on water works, Grady Broadhead and H. S. Shaw; committee on police and public safety, J. W. Franklin and Reedie Taylor; committee on public health and sanitation, W. T. Baker and Reedie Taylor; committee on streets and sidewalks, J. W. Franklin and H. S. Shaw; committee on building, W. T. Baker and H. S. Shaw.

Each of the above named committees were named at the first meeting of the new officers which was held last Monday.

There were no cases in Mayor's Court Monday.

The newly elected officials are anxious to receive the co-operation of everyone, and if this is received, they will surely strive to make Clanton even a bigger and better town.

Those who have served Clanton during the past term, were: J. B. Atkinson, Mayor, not a candidate for re-election; D. A. Wingard and J. P. Lawrence, defeated in election, Sept. 17th for re-election as councilmen; and Grady Broadhead and J. W. Franklin, re-elected in the September election as councilmen.

EXPERIMENTAL HEN LAYS 303 EGGS TO SET KENTUCKY MARK

A Barred Rock hen owned by the experiment station of the University of Kentucky has finished a year with a production of 303 eggs, a new official record for this breed in the entire South.

The former official high record for Kentucky was held by a White Leghorn which laid a total of 300 eggs in a year. She was a member of the experiment station flock. The former high record for Barred Rocks in the South was held by a hen in the experiment station flock, which laid 299 eggs in a year.

The new Kentucky champion was hatched in March, 1927, and laid her first egg Sept. 1 of that year. In the following 365 days she missed laying but 62 days. In addition to producing a record number of eggs, her eggs are extra large in size, averaging 26 ounces to the dozen.

The new record layer is the product of a long line of breeding for production. She traces back for five generations to 200-egg blood. All her ancestors were bred at the experiment station. Her great-great-great grandam laid 267 eggs in a year at the experiment station poultry plant seven years ago, which was a record for the breed at that time. Her sire is now at the head of one of the breeding pens at the station.—Birmingham News.

ICE CREAM SUPPER AT WHITE CITY SCHOOL OCTOBER 6TH.

There will be on Ice Cream Supper at the White City School on Saturday, night, October 6th. Every body come with a good spirit and plenty of money Proceeds will go for school improvements.—Miss Lila Greene, principal.

MABLE DAYE WEDS DUDLEY LEE POE THURSDAY, SEPT. 27

The following wedding was clipped from the Birmingham News of last Sunday, September 30. Miss Daye, with her parents, were at one time residents of Cooper, Ala., and have numerous friends who will be interested in knowing of the marriage of this popular young lady.

"A wedding of interest throughout the state was that of Miss Mable Daye, daughter of Mr. and Mrs. T. H. Daye, and Dudley Lee Poe, Jr.

The marriage was quietly solemnized at the home of the bride's parents, at 4 o'clock Thursday, with Dr. J. H. Bryant officiating.

The rooms were decorated with pastel flowers and an arrangement of ferns formed an altar in the living room

Preceding the entrance of the bridal party, Vernon Noals sang "At Dawning" and "All for You," accompanied by Mrs. Patrick McClendon, who played the wedding march.

Miss Lorieta Daye was her sister's only attendant. She wore a model of wood brown and carried an arm bouquet of dark red dahlias.

Thomas Poe served his brother as best man.

The bride entered with her father, wearing a model of pencil blue with harmonizing accessories, and carried a bouquet of bride's roses and valley lilies.

Mrs. Poe, as Miss Daye, has been a popular member of the younger set.

Mr. and Mrs. Poe left immediately for points in the east. Upon their return they will be at home in Bush Hills.

QUARTERLY COMMUNION DAY AT METHODIST CHURCH

Next Sunday is the Quarterly Communion Day at the Methodist Church. At 7:30 the Presiding Elder, Rev. D. H. McNeal, will preach, and at 8:30 he will hold the Fourth Quarterly Conference.

At this Conference Stewards, a School superintendent and a Lay Leader will be elected for next year. Four members will also be added to the Board of Trustees.

"PROMOTION DAY" IS OBSERVED BY CHURCH

Next Sunday, October 7th. To Be Observed As "Rally Day"

Last Sunday was "Promotion Day", at the local Methodist Sunday School. The certificats were given as the school assmbled in a body, after the departmental programs.

Next Sunday will be "Rally Day". Every teacher and pupil is expected to secure a full attendance of their classes. Several new teachers and classes will begin work and the school enters into the new academic year with the prospect of doing the best work of its history

The school has accepted the resignation of Mr. V. J. Elmore, with real regret. He has worked faithfully and well during the eight years of his superintendency. As a high private in the front rank he will continue to serve.

Mr. L. C. Warr, is the new superintendent. The school counts itself fortunate indeed to secure his services. Hopes are high.

If you are not due at some school, you are invited to meet with the Methodist Sunday School on Rally Day.

11:00 o'clock Sunday morning at the Methodist Church, following a special address, the new officers and teachers of the Sunday School will be publicly installed. A program of responses will be used. And this will be followed by the Communion Service.

OFFICIAL GINNERS REPORT SHOWS MANY BALES SHORT

According to the Department of Commerce, Bureau of the Census, Washington, D. C., there were 1,854 bales of cotton, counting round as half bales, ginned in Chilton County from the crop of 1928 prior to September 16, 1928, as compared with 7,702 bales ginned to September 16, 1927.

REV. L. B. GREEN ATTENDS UNVEILING OF MEMORIAL

Rev. Lemuel B. Green went to Birmingham last Wednesday to attend the unveiling of the J. S. Bridges Memorial at the Sixth Avenue Presbyterian Church. Mr. Bridges was a cousin of Rev. Green.

Mrs. J. E. Edgar and mother, Mrs. Gantt, spent Friday in Montgomery.

ISABELLA TEAM HAS MANY GAMES ON SCHEDULE

The schedule for Coach Chamber's Isabella Huskies for the present season is as follows:

October 5th—Centreville at Centreville.

October 12th—Marbury at Marbury.

October 19th—Plantersville at Plantersville.

October 26th—Pending.

Novmber 2nd—Open or pending.

November 9th—Open or pending.

November 16th—Marbury at Isabella.

November 23rd—Selma High at Isabella.

This is Isabella's second year to put out a football team, and in their game at Clanton last Friday, the Isabella huskies showed marked improvement over last year, and Coach Chambers is confident that his team will be victorious in many of the games to be played during the coming weeks.

EPWORTH LEAGUE OF M. E. CHURCH HOLDS SOCIAL MEET

The Epworth League, with Mrs. L. B. Green and Miss Morris in charge, held a social meeting in the church basement last Monday evening.

HARRIS FAMILY ENJOY RE-UNION AT MT. CREEK SUNDAY

On of the most enjoyable affairs of the season to the Harris family was the reunion held at Mountain Creek, Sunday at the home of the oldest sister, Mrs. George T. Guy.

The most attractive and enjoyable feature of the day was the delicious lunch which was spread picnic style underneath the shade trees. In the afternoon pictures were made, music enjoyed, and delicious ice cream served to the crowd, which included members of the immediate family and close relatives, who were:

Mr. and Mrs. E. C. Bonnett and family, of Birmingham; Mr. and Mrs. Harvey Barrett and family, Haynes, Ala., Mr. and Mrs. M. C. Wyatt and family, Clanton; Mr. and Mrs. W. B. Wyatt and family, Clanton; Mr. and Mrs. J. V. Harris and family, Clanton; Mrs. Tom Wyatt and daughter Eunice, of Clanton; Mr. and Mrs. R. C. Hudson, Piedmont, Ala.; Mr. and Mrs. Stanley Harris, Montgomery; Mr. Jim Harris, Birmingham; Mr. J. D. Harris and family, Clanton; Mr. and Mrs. W. A. Adams, Mt. Creek, Ala.; Mr. Curtis Guy, Birmingham, Ala.; and Mr. and Mrs. G. T. Guy and daughter, Zora, of Mountain Creek.

Teachers Institute Here On Last Monday And Tuesday

The Chilton County Teachers Institute which began here last Monday, ended Tuesday at noon. The Institute was held at the high school and according to information, there were approximately 160 teachers present each day.

Miss Danylu Belser of the State Department of Education conducted the institute. Miss Belser spent some time explaining the importance of the County Educational Survey which is to be conducted in Chilton County in the near future. Officials hope that it will begin in the first half of this school term and will be completed as soon as possible. We are informed that Miss Belser and Dr. A. F. Harmon of the State Department of Education will conduct this survey.

When this educational survey is finished, its result will be a complete layout of information concerning the educational condition in Chilton County. In other words, there will be a complete picture on file in the office of the county superintendent. Much interest and enthusiasm was shown after the purpose of this survey was explained by Miss Belser.

A very important resolution was adopted during this Teachers Institute, part of which reads as follows:

"Third, that this Board requests the County Superintendent and his entire staff, including principals and teachers to cooperate in every way possible with the members of the survey staff and that it requests also the cooperation of such other officers of this county as may be called into consultation from time to time by the said survey staff"

It is urgently requested that every one interested in educational welfare and progress of Chilton County, cooperate in this survey.

Another important feature of this institute was the demonstration work done by Miss Bessie Thomas and Miss Emma Sue Morris, both members of the Clanton Grammar School faculty. This was a study lesson in first grade reading. Miss Mary Clements of Jemison brought to the institute, working materials which she uses in her teaching, and explained in a wonderful way, how she used them in helping the beginners in their school work.

Reports showed that each teacher on the county faculties, is a member of the Alabama Educational Association. This is an outstanding feature and is not to be given any small amount of attention. Each member of the A. E. A. is also a subscriber to the Alabama Educational Journal.

Another important feature of the institute, according to those interested, but not directly connected, the best looking bunch of teachers ever attending an institute in Clanton.

Homegathering At Home Of Mr. and Mrs. Jim Nelson

On Sunday, September 21, 1928, Mr. Jim Nelson of Clanton, gave a home gathering. Many hearts were made to rejoice as the silver curtain of time unfolded and brought to view a delicious spread of food and radiant faces as are found at home gatherings.

Even tho the weather was a bit disagreeable, the old homestead shook again with laughter that once again another celebration had been added to its age.

As the noon hour approached cars were seen winding their way over the hills to the homestead in the grove. A homestead that had sheltered life, and placed its wooden arms around a lovely, happy old couple thru tears and laughter these number of years. A homestead that has echoed the babies' laugh and held up their stumbling feet.

From the cars under the staunch, steady oaks on the edge of the grove were seen happy children, grand children, and great grand children, pouring out joy and smiles from happy hearts as greetings were reciporated all up and down the lane. In the midst of the throng, of young and old, high above them all could be seen the white head tottering out to greet everyone with an overflowing heart. Life to him was young and gay again, even tho his age was ninety-seven; and time had crowned him with a snow white head and dimmed his vision. The happy peaceful circle listened just as intensely as children to a fairy story they had heard over and over again, as the master of age sat among them and carried them back into his childhood days. The house shook with one round of laughter after another as he related experienc after experience.

Among the eighty-eight children, grand children, and great grand children were:

Mrs. L. S. Coleman of Sylacauga, Ala.; Mr. and Mrs. S. N. Coleman and family of Sylacauga, Ala.; Mr. and Mrs. J. B. Porter and family of Rockford, Ala.; Mr. and Mrs. James Coleman and family of Sylacauga; Mr. and Mrs. Geo. McCain of Clanton; Mr. and Mrs. Jack Nelson of Fairfield, Ala.; Mr. and Mrs. Dock Nelson of Fairfield, Mr. and Mrs. John Colman and family of Rockford; Mr. and Mrs. J. M. Tant and family of Montevallo, Ala., Mr. and Mrs. B. V. Colman of Birmingham; Mr. and Mrs. E. F. Taylor of Clanton; Mr. and Mrs. Tate of Clanton; Mr. and Mrs. Monroe Nelson of Clanton; Mr. and Mrs. Marvin Nelson of Clanton; Mr. and Mrs. Littleton and family of Clanton; Mr. and Mrs. Jones of Weogulfka; Mr. and Mrs. Hendricks and family of Weogulfka; Mr. and Mrs. Hamilton of Weogulfka; Mr. Manor and daughters of Fairfield.

There were many other friends and relatives who also shared the bountiful spread. The table groaned under the heavy load of delicious piping hot food.

The evening found the aged couple smiling happily over the day of days in its soothing twilight as the evening shadows gathered on the lane leading from the grove into the winding road.

OATS WILL HELP MEET SPRING FEED SHORTAGE

(By C. E. Stapp, County Agent)

Feed will be at a premium on many Chilton County farms next spring. Reports from a number of farms indicate a smaller corn crop than usual. Fall-seeded oats can help meet the need for feed next spring. Ordinarily following a winter like we had last year it takes farmers about two or three years to get over the disappointment of an oat crop failure. But even last winter some farmers in this county who drilled their oats with a fertilizer distributor got good stands and made a good crop of oats. One year with another, I believe the safest thing for the farmers of this county would be to drill their oats in an open furrow at an early date, give them an application of complete fertilizer analyzing about 12 per cent phosphate, 4 per cent nitrogen and 4 per cent potash. In March an application of about 200 pounds of nitrate of soda per acre will prove profitable. You cannot be too careful in selecting your seed, however, this is true with most any crop. The Experiment Station finds that oats where good seed are used, planted early in order that they may get a good root system before cold weather, properly fertilized, give good returns per acre, especially when followed by soy beans or some other good hay crop. Oats should be a part of every farmer's feed mixture.

By the time this week's issue of the paper reaches you, you will likely be getting ready to plant your vetch and Austrian peas.

Experimental results indicate that we should plant vetch between the 1st and 15th of October, but we advise delaying the planting of vetch until you get sufficient moisture to bring the seed up.

Thorough innoculation is necessary and phosphate is profitable. If you sow your seed before you get through picking cotton you may delay putting out your phosphate until you get your cotton out, then sow your phosphate on top of the vetch.

The Farm Bureau has received its last shipment f vetch and Austrian peas for the season.

BIRMINGHAM-SOUTHERN STUDENT DIES IN CRASH

Four Companions Of 18-Year-Old Victim And Teacher Shaken Up

Tragedy that not even victory could dim stalked the Birmingham-Southern corps of rooters Friday night, Sept. 28, when a car bearing seven youths overturned six miles north of Clanton, instantly killing Henry Oliver, 18, Birmingham-Southern freshman, injuring another studen and badly shaking up the others.

Oliver and his companions were en route to Montgomery to see the foot ball game there Friday night, between the Birmingham Southern and Auburn.

Claude Young of Dadeville, Ala., was injured and Noble McEwin, driver of the car, was suffering from shock following the accident. McEwin, who is a graduate of Birmingham-Southern, class of 1927, is a teacher at Crestline Heights School.

Oliver's home is in Dadeville. He is said to be a cousin of James Oliver Pinkston, instructor in biology at the college.

Others in the car, none of whom sustained injuries other than shock were Robert McGregor, a senior, Birmingham; Ed Simmons, a sophomore of Mississippi; Francis Brunner, a freshman, Fairfield; and Harold Gassman, a freshman, West Birmingham.

Oliver's neck was broken, according to Dr. Vincent Gragg, of the Clanton Hospital, and his body was badly crushed and bruised when it was caught underneath the car. He is said to have been standing on the running board of the side of the car. Death was instantaneous.

Clanton officers said the boys told them a machine in front of theirs turned off at a side road without giving a signal, and in trying to avoid it their automobile swerved to the other side of the road and overturned on its right side, pinning Oliver beneath it.

Mrs. Jim Hall, Jr. of Cherokee Bluffs sister of Oliver, came to Clanton late Friday night and claimed the body. Funeral services were held in Dadeville, at 2:30 p. m., Sunday. Besides Mrs. Hall, Oliver is survived by two other sisters, Mrs. Steve Parks of Brewton, Ala., and Mrs. W. E. Martin, of Fairfax, Ala.; one brother, S. J. Oliver, of Dadeville, and an uncle, J. M. Herren, of North Birmingham.—Birmingham News.

Chilton High Defeated Isabella Last Friday

Isabella Huskies Snowed Under By Score Of 44 To Nothing Friday

The Chilton County High School Football Team, opened the season here last Friday with an ovrwhelming victory, defeating the Isabella huskies 44 to 0.

Soon after the signal had been sounded for the beginning of the game it was easily seen that the local aggregation would be victorious, as they immediately began to plow through the Isabella line and make long round end gains, and at the end of the first half the score stood 24 to 0.

Coach Bruner's lads showed mid-season form, and were seldom compelled to punt, making first down after first down all through the first period, while Isabella did not make a single first down until the first quarter, when they started an aerial attack that netted them one or two nice gains However, many of their attempted passes were broken up.

The Chilton High backs were consistent ground gainers, and on several occasions the local lads intercepted forward passes, turning them into nice gains. Dock Baker was probably the most effective in this particular department, he having leaped in the air on many ocasions to snare the ball headed for one of the Isabella boy's arms. Bruner also came in for honors in this particular department, and in the fourth quarter he pulled down one of Isabella's attempted forward passes and raced about forty yards for a touch down.

The aerial attack of the local boys was a big feature, and out of eleven attempts seven were completed as follows: Five to Sims, two completed; three to Wade, all completed; two to Brown, one completed; one to Retherford, completed; and while none of these receivers got away for a touchdown, they were instrumental in placing the oval in striking distance of the goal.

No one particular backfield man of the local team came in for outstanding honors, for consistent ground gainers, as each of them were about equal. However, they made many nice long runs.

The individual defensive stars for Isabella were Conway, Jacks, and Burnett. Jacks was by far the most effective his tackles being hard and properly administered. Conway came in for many tackles, most of which were high. However, if Conway learns to tackle lower, he will probably prove a very effective defensive man before the season closes.

From an offensive standpoint, for Isabella, Burnett was the only man to gain any amount of ground, he having received two forward passes from Griffin, which accounts for Isabella's only two first downs. Chilton's line was entirely too strong for the visitors, which accounts for the fact that only a very few yards were gained through the line during the entire game, by Isabella.

Chilton was not so effective in their attempts for points after touchdown, only making two out of seven attempts

Both teams played a clean game, one of the features being that Isabella did not receive a single penalty during the entire game. Chilton received two for offside, one for backfield in motion, and one for roughness.

Chilton's next opponent will be Marbury, and the game will be staged at the local park, tomorrow, Friday, at 3:00 o'clock.

MEETING OF THE UNITY BAPTIST ASSOCIATION

The Unity Baptist Association will meet in its regular annual session with the Mountain Creek Baptist Church, Tuesday and Wednesday, October 9th, and 10th, 1928. All the churches are urged to send delegates and their letters to the association.—J. Z. Mims, Moderator.

MR W. I. MULLINS IS ABLE TO BE OUT AGAIN

After a long illness, Mr. W. I. Mullins, one of Clanton's oldest and most prominent citizens, is able to be up and is convalescing.

Mr. Mullins became ill some time ago, and has been confined to his bed until a few days ago under the care of a trained nurse. The News, along with the many friends of Mr. Mullins, wish him a speedy recovery.

NIGHT SCHOOLS IN DAIRYING

The county agent and the vocational agriculture teachers are planning to put on some night dairy work in the county this winter.

Vocational teacher, Mr. J. P. Montgomery, of Jemison, had a splendid night school, at Pleasant Grove, west of Jemison, last winter and a goodly number of farmers are feeding and caring for their cows better and are getting good returns for their cream. Mr. Montgomery is running a school this winter at Oak Grove school on "Crops and Fertilizer," and some time even there will be spent in the interest of dairying.

Vocational teacher, Mr. Earle Thomas, of Isabella school, ran a splendid Crops and Fertilizer school at Fairview last winter, but plans are being made to have a big dairy school this year at Isabella under his direction. Mr. Stapp and Mr. Montgomery will assist him at Isabella, and if sufficient interest can be aroused around Clanton, Mr. Stapp with the assistance of Montgomery, Mr. Thomas and the [illegible] Auburn, will put on [illegible] at the Court House in Clanton.

[illegible] series of [illegible] meetings covering the various phases [illegible] or subjects under consideration. The meeting will be for about one hour and a half on designated evenings. The usual custom is to [illegible] two nights each week until [illegible] is finished.

Interested farmers in the Isabella and Maplesville districts are requested to get in touch with Mr. Earl Thomas. Those in Clanton district are requested to leave their names at Mr. Stapp's office.

FIRST NATIONAL BANK GIVES BANNERS TO SCHOOLS

The First National Bank of Clanton has presented to the County Superintendent of Education three school attendance banners. One of these banners is for the school truck that carries the largest number of children to school in thiscounty, on an average in one month. The other two are attendance banners for county schools having the largest monthly average attendance.

A Proclamation

BY THE GOVERNOR

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out; and

Whereas, notice of such election, together with the proposed Amendment, as required by law to be given by proclamation of the Governor:

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama, do hereby give notice and proclaim that on Tuesday, the 6th day of November, 1928, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

[illegible] Section 213-A. In addition to the taxes which the City of Birmingham is authorized to levy and collect under the Constitution as heretofore amended, said city shall have the power and right to levy and collect in any year or years for any municipal purpose or purposes, any rate of tax not in excess of one-half of one per centum, on property situated therein, based upon the valuation of such property as assessed for State taxation for the year next preceding the levy, which a majority of the qualified electors of such city voting at an election called and held as hereinafter prescribed, may authorize for such purpose or purposes. Said tax shall be used only for the purpos or purpos[illegible] for which the same is authorized, levied and collected. Each election held under the provisions hereof shall be ordered, held, canvassed, and may be contested in the same manner as is or may be provided by law applicable to municipal corporations for elections to authorize the issuance of municipa' bonds. The ballots used at such election shall contain the words: "For authorization of additional taxation at rate not to exceed _____ per cent for the year (or years) _____ for the purpose or purposes of _____" and "Against authorization of additional taxation at rate not to exceed _____ per cent for the year (or years) _____ for the purpose or purposes of _____." The rate of taxation proposed shall be printed upon the ballot in the space indicated therefor, and the year or years in which the proposed rate is to apply, and the purpose or purposes for which such tax is to be used, shall be likewise printed in the respective spaces indicated therefor. The voter shall record his choice either for or against authorization of the proposed rate for the proposed purpose or purposes by placing a cross mark before or after the words expressing his choice. Nothing herein contained shall in any wise change or affect the rights of any holders of bonds of said municipal corporation heretofore issued. Elections in said municipality to authorize the levy of such special tax may be held as often as ordered by the governing body thereof, but when a proposition is submitted to the electors of said municipality for authorization to levy a special tax for a specific purpose and such proposition is defeated, no second election for the same purpose shall be held in such municipality within one year thereafter. This section shall be self-operative without any additional legislation.

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspapor published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September A. D. 1928.

BIBB GRAVES,
Governor.

SORE
Could Not Rest

Mrs. J. H. Nichols, who lives at 513 Elm Tree Lane, Lexington, Ky., says:

"Some few years ago, my health was bad. I had very severe pains in my sides. My nerves were in a terrible condition. I could not rest.

"The lower part of my body was very sore. I did not feel like eating, and did not sleep well at all at nights.

"A friend of mine recommended Cardui. I began taking it and saw quite an improvement in my condition. I kept it up until I felt strong and well."

About a year ago, Mrs. Nichols says, she found herself in a nervous, run-down condition. "I took Cardui again," she adds, "and it helped me wonderfully. It is a splendid tonic."

Cardui is a mild, medicinal tonic, made from purely vegetable ingredients.

CALVIN LENOIR BUYS NEIGHBORS DRUG COMPANY

Elsewhere in this issue of the News will b found the ad of Calvin Lenoir who has recently purchased the Neighbors Drug Company which is located on the Birmingham-Montgomery highway next door to the Dixie Cafe.

Mr Lenoir was formerly connected with the Alred Drug Company, and success is predicted for him by his many friends.

Since the purchase, the firm will be known as Lenoir's Place, handling a complete line of tobacco, cigars, cigarettes, drug sundries and toiletries.

EXTRACTS FROM THE COMPULSORY ATTENDANCE LAW

Article XVI

AGE: Every child between the ages of seven and sixteen years shall be required to attend a school for the entire length of the school term in every scholastic year. (Sec. 301.)

PARENTS OBLIGATION: a.—The parent or guardian who fails to have child enroll or attend school regularly during the school term or fails to compel child to properly conduct himself as a pupil, shall be guilty of a misdemeanor and upon conviction shall be fined not more than $100.00 and may be also sentenced to 90 days hard labor. Sec. 305.)

b.—The parent or guardian shall as soon as practical explain the cause of any absence of the child which was without permission of the teacher and a failure to furnish such explanation shall be evidence of such child being a truant. (Sec 308).

c.—When no valid reason for non-enrollment or non-attendance is given, the attendance officer shall give written notice for attendance within three days. If the child is not enrolled or not attending school within three days, criminal prosecution shall be brought against parent, guardian or other person having control of the child. (Sec. 309.)

CHILD'S EXEMPTIONS: a.—A child whose physical or mental condition is such as to prevent or render inadvisable attendance at school or application to study, provided the county superintendent of education has issued a certificate of exemption. Before issuing such certificate of exemption, the county superintendent of education shall require a certificate from the child's practicing physician or health officer. (Sec. 304.)

b.—A child who has to walk over 2 1-2 miles to school or to the nearest public transportation. Sec. 304.)

c.—A child 14 years of age or over who has completed the eight grade. (Sec. 304.)

d.—If child holds Child Labor Law permit to work. (Sec. 304.)

PARENT'S EXEMPTION: a.—If principal teacher in charge gives child permission to be absent. (Sec. 306.)

b.—If parent or guardian is unable to buy books and clothes for the child and that such parent or guardian reported, prior to the opening of the school, such dependent condition to the Juvenile Court and offered to turn such dependent child over to the State Child Welfare Department. (Sec. 306.)

That parent or guardian has made a bona fide effort to control such child and is unable to do so and files a written statement on court files to that effect. (Sec. 306.)

d.—That there exists a good cause or valid excuse for such absence. (Sec. 306.)

e.—That parent has made a bona fide diligent effort to secure regular attendance and that absence was without his knowledge, connivance or consent. (Sec 306.)

f.—If child becomes a habitual truant or, because of irregular attendance or misconduct has become a menace to the best interests of the school, the parent or guardian should file written statement in court saying that he is unable to control said child. The Court then decides the case. (Sec. 307.)

NEW DURANT CARS ARE NOW ON DISPLAY HERE

Today, Durant Motors, Inc., announces new models of the Durant Four and Durant "60". This latter, replacing the Silver Anniversary model of the Durant "55".

These cars are improved throughout over the former models; having new advanced body lines, brilliant body colors, more roomy body interiors, and as in all Durant cars, perfect balance and unrivalled comfort and performance.

These new models for the first time make available to the purchasers of an inexpensive car, a car which has a body that is rattle proff and squeak-proof. It is no longer necessary to feel that in buying an inexpensive car you are getting a body that sounds like a menagerie, for the new model Durant, both Four's and "60" have bodies constructed on the same principle as that of the finest built car in America the Locomobile another Durant product.

These new models are already in production, but in view of the great demand which has been placed upon the Durant factories ever since the Silver Anniversary Durant models were introduced last January, it is suggested that orders be placed immediately to insure prompt delivery.

Mr. and Mrs. J. B. Atkinson and attractive daughters spent last Wednesday and Wednesday night in Birmingham.

BAKER JUNIOR HIGH SCHOOL OPENED LAST WEDNESDAY

The Baker Junior High School opened last Wednesday, October 3, with Rev. H. L. Tate and Mrs. C. E. Stapp as the principal speakers of the occasion.

The building was crowded beyond expectations. To date there are 157 pupils enrolled between the First and Ninth grades inclusive.

A Parent-Teacher Association was organized and the following officers were elected: Mrs. Geo. Tippett, president; Mrs. C. P. Littlejohn, vice-prsident; and Miss Gertie Baker, secretary and treasurer

Following is the faculty for the Baker Junior High School Mr. W. E. Martin, principal; Mrs. C. L. Cates, Miss Frances Lowery and Miss Gertie Baker.

Mr. Fleetwood Rasberry of Beat 14, was among the many visitors to Clanton last Monday.

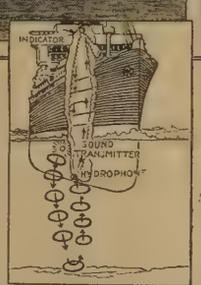
Picturesque Leadsman Yields to Echo Measuring Device

Route of New Ocean Cable Is Accurately Charted by Echo Depth Finder



Above—The cable steamer "Dominia," which has just surveyed a new cable route between the Azores and Newfoundland, using the newest sounding device developed by scientists. Below—How sound has been put to work to measure the depth of the ocean.

The hand of science is falling heavily upon the picturesque old leadsman, and before many years will have stifled his chanting call which for centuries has given the helmsman the ocean depth indicated by the leadline. The echo depth finder is already taking his job away from him, as evidenced by an unusual survey of the ocean bottom that has just been made by the British cable ship Dominia, over the route of a new Western Union cable between the Azores and Newfoundland.

Occasion for the survey was provided by the laying of the world's fastest duplex cable, over which it will be possible to send four messages in each direction simultaneously. The route selected represented cable pioneering, because of its departure from all prior cable routes. Therefore, the Telegraph Construction and Maintenance Company, owners of the Dominia, who had the contract for the making and the laying of the cable, had to make an accurate survey of the bed of the ocean over the route selected.

Works Day and Night

Beginning at Horta, in the Azores, the Dominia steamed steadily toward Bay Roberts, Newfoundland, for seven days. Through that time the echo depth finder was working steadily, day and night, registering accurately the varying depths over the thirteen hundred miles of sea traversed. This depth finder radiates into the water a sound which is produced by an electro-mechanically driven diaphragm. This sound travels to the bottom of the sea beneath the ship, and returns in the form of an echo, which is caught by a hydrophone. The echo is conducted electrically to the indicator on the ship's bridge where by suitable devices, it is possible easily to determine the time interval between the sound and its echo, and this time shows on the indicator in terms of fathoms of depth.

Accurate charting of the sea floor not only simplifies cable laying to a marked degree, but also makes it much easier to locate the position of a cable when searching for a break.

County Teachers Entertained At Home Of Mr. and Mrs. Wade

One of the most outstanding social events during the past few days in Clanton, was the lawn party given the school teachers of Chilton County at the home of Mr and Mrs. J. Q. Wade on Third Avenue last Monday evening October 1st, at seven-thirty.

Electric lights illuminated the large and beautiful lawn, and as the guests arrived they were met by young ladies who had divided into three groups, each having orange, yellow and black tags, according to the groupp. The group tagging the argest number of guests won a prize.

Many varied and interesting games and contests were enjoyed throughout the evening, some of which were an apple race between the three groups, and an Introduction game in which each teacher became acquainted with the other. Mr. L. B. Knox, a member of the High School faculty of Clanton, won the prize in the apple race. Miss Bonnie Clyde Griffin of Isabella High School won the prize in the balloon blowing contest. Many other prizes were awarded.

Miss Emma Sue Morris presided over the Registration Book, on which each guest registered as they arrived. Members of the faculties of the local schoo's assisted in the entertaining. Punch and cake were served as refreshments.

Those enjoying this delightful affair were Misses Ethel Gentry, Icie Bell Cobern, Girdie Baker, Mary Lou Gaines, Hazel Davis, Jessie Mims, Clara Vines, Ruth Martin, Cora Belle Maddox, Mary Thweatt, Bonnie Clyde Griffin, Emma Louise Jones, Annie Laurie Clay, Margaret Cottingham, Madge Scarborough, Sara Pollard, Lucile Sherwood, Avis Grantham, Gladys Watson, Bessie Thomas, Mary C. Hobbs, Louise Pack, Emma Sue Morris, Jewell Bean, Julie Reid, Leila Belle Smith, Vesta Lou Lette, Robbie Sawyer, Danylu Belser of the State Department of Education, Myra Moore, Mamie Sue Stewart, McMae McNeill, Kate McNeill.

Mesdames J. P. Montgomery, Maggie Bice, W. E. G. Sutton, L. C. Warr, O. C. Paulk, J. H. Williams, A. J. Lecroy, H. G Tabb, C. E. Stapp, O. V. Bruner, J. F. Apperson, and J. Q. Wade. Messrs. B. Johnson, J. O. Bice, Earl Thomas and J. Q. Wade.

WEBB-WILSON

A marriage that will be of great interest to a large number of people in Clanton and Chilton Chilton, is that of Mr O. M. (Ocie) Webb and Miss Ora Wilson, which took place at Jasper, Ala., last Sunday, September 30th.

The ceremony was performer by Dr. W. F. Yarborough, pastor of the First Baptist Church of Jasper, at the Baptist parsonage there.

The bride is the daughter of Mr. and Mrs. T. M. Wilson of Decatur, Ala., and is a popular member of the younger set and is a young lady of many charming personalities.

Ocie, is the son of Mr. and Mrs. J. W. M. Webb of Isabella, near Clanton, and was at one time manager of the V. J. Elmore 5c, 10c, & $1.00 Store here, and was transferred to Jasper, Ala., to take charge of a new store there. He was noted as one of the most prominent young business men of the city, and continues to hold that reputation in his new location.

Mr. and Mrs. Webb, after spending some time in Clanton, will make their home in Jasper.

MAPLESVILLE NEWS

The P. T. A. held its first meeting on last Thursday. Officers for the ensuing year were elected as follows: Mrs. C. M. Foshee, was elected president; Mrs. F. A. Shanks, vice-president; and Mrs. J. J. Hayes, secretary and treasurer. A meeting will be held each first and fourth Wednesdays.

Those attending the Teachers Institute in Clanton last Monday and Tuesday were: Mr. and Mrs. Owens, Mrs. Stanley Hayes, Mrs. R. J. Bumpers, Misses Nellie Brown, Sadie Oaks, Ethel Mize and Frances Brown.

The Order of the Eastern Star will give a "Measuring Party" at the Maplesville High School, Saturday, Oct. 6, for the benefit of the Order. Doors will be open at 7:30 p. m.

Misses Frances Brown, and Ethel Mize were joint hostess at a delightful party last Friday evening at the home of Mr. and Mrs. F. H. Brown. Numerous games, music and interesting contests were enjoyed during the evening. The home was beautifully decorated in pot flowers, the Hallowe'en color scheme being carried out. Those enjoying this social affair were Misses Bonnie Clyde Griffin, Mary Thweatt, Emma Louise Jones, Avoline Webb, Nettie Brown, Sadie Oaks, Estelle Davis, Flossie Shanks, Louise Foshee, Mrs. Annie Laurie Potts,. Messrs Zack and Bill Abney, J. C. Chambers, Charles Haggard, Hubert Foshee, Griffin, Paul Salter, E. E. Faber, Allen Mize, Menzzo Jeffcoat, Irvin Perry, Robert Foshee, and Mesdames Bill Abney and Aubrey Shanks assisted in the entertaining. A most delicious salad and ice course was served.

NEWS FROM ENTERPRISE

The health of this community is very good at present, except Samuel Burbhalter, the little son of Mr. and Mrs. Huff Burkhalter, who is very ill. We hope he will soon recover.

Mr. and Mrs. William Wheeler and family of Selma spent Sunday with Mr. and Mrs. Clyde Pierce.

Miss Fay Ray, who is teaching at Indian Grove school, was a week end visitor here.

Mr. and Mrs. Jace Johnson and children, Mr. and Mrs. Lawton Johnson and children, of Booth, Ala., spent Sunday with Mr. and Mrs. Henry Johnson.

Mr. and Mrs. J. N. Courtney and family and Mr. Andrew Kicker spent Sunday with Mr. and Mrs. G. L. Griffin.

Mr. and Mrs. Leo Taylor spent last Sunday with relatives at Cooper.

Messrs John Norrell, of Billingsley, J. N. Burkhalter of Selma, were visitors here Sunday.

Miss Elizabeth Griffin was the dinner guest of Miss Marie Sunday.

Mr. Oneal Stroud of Bessemer sfent the wek end with his parents here.

Messrs Ralph Barrett and Pinson Glenn of Verbena, were the guests of friends here Saturday evening.

Mr. Leon Pierce was the geust of friends here Sunday afternoon.

Mr. Charlie Johns and little daughter Charlsie Mae of this community spent Monday with Mr. and Mrs. Ocie DeLoach at Clanton.

Mr. and Mrs. Hubert Stroud and son Harold spent Sunday with relatives at Clanton.

Mr Andrew Kicker returned to his home in Montgomery Sunday after spending a few days with relatives and friends here. He was accompanied by Mr. J. C. Driver of Montgomery.

The picnic which was given by the B. Y. P. U. members of Euterprise and Pleasant Valley communities last Saturday night, was enjoyed by all who were present.

Mrs. L. C. Reynolds had as her guest for the week end Mrs. W. H. Thompson, of Decatur, Ala.

FARM FILLERS

Elastic goods will last longer if washed with a soft brush and soap, and rinsed thoroughly and hung to dry slowly at room temperature.

Home grown feed for the poultry flock will increase the amount of profit realized from the sales of eggs.

"Strawberries set during September will produce some berries next spring. If set later than September berries cannot be expected next spring. Set at least one row of strawberries across the home garden."—Julian Brown, Auburn.

Southern Railway System, Atlanta, Ga., offers a silver loving cup to be competed for annually for the best ten ears of any variety of field corn grown and exhibited by a corn grower in Alabama, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee or Virginia.

Production of major crops of Alabama in 1928 with the exceptions of apples, peaches, peanuts, and hay, will fall below 1927 productions, according to the latest official reports issued by F. W. Gist agricultural statistican at Montgomery.

Due to rain, excessive cloudiness, and unseasonably cool weather, the Alabama cotton crop deteriorated during the first ten days of September. Boll weevils and boll rot did much damage along with shedding due to unfavorable weather.

The Journal of Commerce for Sept. 7 states that Malayan rubber products look forward to a rubber trade war with the Dutch following the lifting of export restrictions and are making preparations to weather a very difficult period by reducing overhead cost through mergers and amalamagations.

NEW ELECTRIC RATES FILED WITH PUBLIC SERVICE COM.

Montgomery, Ala., Sept. 25.—If Alabama Public Service Commission approves new schedules of uniform domestic and commercial electric rates filed with it Tuesday by Alabama Power Company, a majority of the present lighting consumers of the Company would effect an aggregate saving of more than a quarter of a million dollars annually, the State would have the distinction of having as low, if not the lowest rate for this kind of service in general application in the United States, and every householder, both large and small, would enjoy equal opportunities to use additional service at the same low rates. The new rates would replace the present 9-cent net lighting rate with 4, 3 and 2 cent rate for all uses, after the first 5 kilowatt hours, and the entire service of an individual household would be measured thru one meter. The two-cent rate, according to the company, is designed to encourage the heating of water by electricity. It is understood that the Company also filed at the same time an application for revised commercial rates.

The new schedule probably will be considered imediately by the Commission and, if approved after a public hearing, will become effective on or before January 1, 1929. The following are the new net domestic rates proposed in the power company's petition.

$1.00 for the first 5 KWH consumed per month; plus 4 cents per KWH for the next 45 KWH consumed per month; plus 3 cents per KWH for the next 150 KWH consumed per month; plus 2 cents per KWH for all over 200 KWH consumed per month.

The above charge for the first 5 KWH is applicable to residences of three rooms or less, and will be increased as follows:

Fifteen cents per room for each of the next 7 rooms; plus $1.00 per HP of connected motor and refrigerator load (minimum 1 HP); plus $1.00 per KW in excess of 7 KW connected cooking and heating load.

Storks in Denmark, one of their favorite haunts, are said to be rapidly diminishing in numbers. The mythical stork seems to be holding his own however.

A Proclamation

BY THE GOVERNOR

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out; and

Whereas, notice of such election, together with the proposed Amendment, is required by law to be given by proclamation of the Governor;

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice direct and proclaim that on Tuesday, the 6th day of November, 1928, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

"The following municipal corporations, to-wit: Winfield, Marion, Bay Minette, Robertsdale, Foley, Prattville, York, Jackson, Collinsville, Ft. Payne, Luverne, Brantley, Glenwood, Red Bay, Tarrant City, Dadeville, Thomasville, Northport, Hartselle, Haleyville, Talladega, Daphne, Oneonta, Cullman, Leeds, Eutaw, Guin, Sylacauga, Millport and Sulligent, Ozark, Ariton, Midland City and Demopolis, through their respective constituted governing authorities, may levy and collect a rate of taxation in any one year on the property situated therein, not exceeding one per centum of the value of such property as assessed for State taxation during the preceding year; provided that the adoption of this amendment shall in no wise affect, limit, modify, abridge, or impair the power, authority or right of any of said municipal corporations to levy and collect special school taxes, now or hereafter vested in or conferred upon them under the Constitution or any amendment thereto, which said special school taxes shall be in excess of said one per centum herein provided for."

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

BIBB GRAVES.
Governor.

JNO. BRANDON,
Secretary of State.

NOW IS THE TIME TO BEGIN FATTENING HOLIDAY TURKEYS

County Demonstration Agents of Alabama are insisting that turkey growers of the state begin to make plans for fattening their turkeys for the Thanksgiving market. They point out that good-sized quick growing, well-fattened birds make a much better appearance when dressed and will bring a better price than thin ones.

"Penning up turkeys to fatten them is very unsatisfactory" according to a letter recently released by the county agents. "Most turkeys are raised on a free range and they may eat well for a few days when penned but after a short time they are likely to eat little and to lose rather than to gain in weight."

The letter has the following to say regarding "How to Fatten":

"On the average farm, range fattening is the most satisfactory. This should begin about three weeks or a month before the turkeys are to be marketed. Fattening should proceed gradually by feeding lightly on corn in the morning and again in the evening a short time before the turkeys go to roost. The amount of corn fed should be gradually increased until the birds are getting all they want. By this method the turkeys will become well-fattened with the least trouble. Care must be taken not to feed new corn too heavily until after the turkeys have become accustomed to it: otherwise digestive troubles may develop which will interfere with rapid and economical fatening or even cause deaths

"In sections where there are a great many acorns or small nuts on the range turkeys will often fatten satisfactorily without heavy corn feeding. Turkeys fatten more readily after the weather begins to get cold in the fall."

In 1927, 48,000 turkeys were sold through cooperative sales. In most cases, the turkeys brought a better price in the sale than they would have if sold otherwise. This being the case, it is recommended that farmers sell their turkeys cooperatively. The price derived, over a period of years, will average much higher through the cooperatives than outside prices.

Mr. and Mrs. Reuben Howe and Mrs. Turner Dennis motored to Montgomery Friday.

Al Smith—The Negro Lover

A VITAL MESSAGE

TO

Alabama Democracy

Smith's Record Against White Supremacy

The liquor daily press has repeatedly raised the negro question in its attempt to stem the tide of Democratic revolt against Al Smith.

With John J. Raskob, a lifelong Republican, as Chairman of the National Committee, and Al Smith, a tool of Tammany, as nominee, we must consider this question with care, and not accept the biased view of highly partisan papers.

Al Smith is today the worst foe of "White Supremacy" in public life in the United States.

Ferdinand Q. Morton, a negro, is one of three commissioners of New York City. As such, he has under him white girls, white women and white men, as well as colored people. He, along with two others, has charge of Tammany Hall patronage, and has charge of the employing and discharging of men and women in New York City.

The appointment of this negro was a reward for the constant support of Al Smith by the negro population of New York.

Negro women in large numbers have been appointed inspectors in New York. These negro inspectors go into white as well as colored homes and have authority thereover.

Negroes In Schools

White and black children are indiscriminately mixed in the public schools of New York. Little white children in schools where the majority of the pupils are colored have consistently been refused the right to transfer to white schools. Negro teachers in large numbers are employed. The negro teachers teach white as well as colored children.

Tammany Hall is directly responsible for this unspeakable condition. Al Smith owes his entire career to Tammany. He says of it: "No organization could live 139 years which wasn't good." He would not dare move one little white child. He is licking the boots of the negroes of New York.

The above is not half of the terrible story. It is ample to prove that Al Smith is a foe to "WHITE SUPREMACY." He is therefore no Democrat.

As A Negro Lover

Governor Alfred E. Smith's opposition to white supremacy was forcibly illustrated in the New York State Legislature in 1913 when Governor Smith, who was then Speaker of the House and as such virtually dictated the legislative enactments of that body, promptly gave his approval to bill No. 504 providing "equal rights in places of public accommodation, resort or amusement" and providing further that "any person violating this section, whether or not the reasons for denying such rights or accommodations are applicable alike to all citizens of every race, creed or color, shall be liable to a fine of not less than $100."

In the same year, with Al Smith still occupying the position of Speaker of the House, a bill amending the penal code and "prohibiting the inter-marriage or cohabitation of white persons and negroes" never saw the light of day. The bill was never reported out of committee and no action whatever was ever taken upon it.

This regrettable state of affairs existed when Tammany had two-thirds of both branches of the Legislature and Alfred E. Smith, the man who now seeks the presidency, was Speaker of the Assembly.

Is a man a Democrat who makes it a crime for the operator of a place of amusement to separate whites and negroes?

NOW READ THIS

United States Senator Royal S. Copeland, of New York, is quoted as follows on Smith's standing with the negroes:

"I have long known his strength with them (negroes) in New York State and find he is strong with them in Ohio, Indiana and Illinois where the colored people hold the balance of how these states will go this fall."

Senator Copeland, Democratic Senator from New York, issued a statement last Thursday in which he virtually acknowledged the Tammany-Democratic party to be the party of the negro for the present campaign.

Can Alabama Democracy sit idly by in the face of such facts as these? Facts proven by the records. Can full-blooded Southern men and women be led away from Jeffersonian Democracy by sheer sentimental oratory?

Play safe—repudiate Al Smith, an opponent of white supremacy and an exponent of inter-marriage of races.

These facts, painful as they are, challenge the most careful consideration of every true Alabama Democrat. The situation now confronting us is unparalled in the history of the nation. PLAY SAFE!

"Let Us Dare To Do Right"

GIVE US MORE OF IT!

(By Joe M. Holladaye)

Opponents to the industrial program that has been sponsored in no small way in Alabama, by the Alabama Power Company, have seen fit to criticize Dr. J. S. Thomas' activities in the interest of Alabama's progress.

If. Dr. Thomas was renumerated for rendering the service accused of, we think those who were responsible for the renumeration are entitled to applause,rather than to be censored. We have read many of his "talks" and fail to see where he has ever spread propaganda that favored only the Alabama Power Company. His work as an educator and his part in stirring appeals made in the interest of economic questions are of vital importance to the agricultural interest of the state as well as to the industrial program sponsored by the Alabama Power Company.

Alabama is the native state of Tom Martin, whom no one can accuse of being treacherous or as sinister, but on the contrary, he is a high type of man—a modern progressive industrialist—with a tested character.

Dr .Thomas was in no small way, instrumental in securing the twelve textile mills for Alabama, one of which is located in Clanton, and any citizen who has had the privilege of hearing Dr. Thomas' "message" delivered before civic bodies can, in our estimation, refute the charge that his activities have been in the interest of "utility propaganda." Instead of utility propaganda his speeches have dealt with the economic benefits that would be derived through the locating of more industries in our agricultural localities and thus increase the demands for the products of the farmers.

If this is "Utility Propaganda", we say, give us more of it.

ROALD AMUNDSEN

Of all the heroes who have perished in the Arctic and Antarctic, Roald Amundsen was the most distinguished, and while the date and manner of his death may never be known, he will be remembered not only as a great explorer, but as one who died in an effort to rescue his fellow-men, one of whom was a former enemy.

Amundsen's record is unique in that he discovered the South Pole and the magnectic pole, and also attained the North Pole. Having accomplished these feats of daring, he retired to his native Norway at the age of 56 to spend the remainder of his life in quiet.

But the plight of Nobile, his companion of the Norge flight across the North Pole, with whom he had a spirited controversy, roused the dauntless Amundsen, who immediately came from his seclusion to join in the search While Nobile was rescued by others, Amundsen perished. At any event he has not been heard of and a bit of wreckage from his plane, found weeks later apparently leaves no doubt as to his tragic fate.

His record as a polar explorer can never be duplicated, so far as pioneering is concerned. He is the only one to reach the three poles—North, South and magnectic—and although others may in future attain all three, Amundsen's priority will stand for all time.

The world mourns with Norway for the loss of her intrepid son.

SNAPPY STUFF

Charles O'Brien of Seattle, Wash., got a court order ejecting his mother-in-law from his home and forbidding her return.

Because her husband insisted that 21 of their relatives live with them in their three-room cotage, Mrs. Helen R. Moore of Millville, N. J. is suing for divorce.

Charging that their pet goose attacked her, Mrs. Amelia Facteau of Washington, D. C., has sued Mr. and Mrs John R. Ragland for $10,000.

A viciors horse snapped at George R. Galshon of Adrian, N. D., and bit f fhis right ear.

Pieces of bone from his leg were grafted into the spine of Albert Tampsett of London and he has completely recovered from the effects of an accident that had left him helpless.

Joseph Williams of Birmingam, Eng., went into the field on his 102nd birthday and pitched hay for several hours.

William Lawrence of Boston was awarded a divorce and $50 for the alienation of his wife.

Miss Miriam Gibson, 17,of Synenham Eng., was grantei court permission to marry when she testified that her mother disappeared 10 years ago.

Seven wives whose husbands had lost money to Warren V. Moore of Chicago secured his conviction.

Four men employed by St. Mary's Church of Torquay, Eng., have rung its bell for 50 years or more.

Aaron Solomons of San Francisco, caused the arrest of Miss Myra King for stealing his silk pajamas.

Sixty-four entries took part in a mouth-organ championship contest in Glasgow.

Thomas Mann, official scavenger for Litchfield, Eng., got a $50 verdict for libel against a citizen who called him "lazy."

A personal advertisement published in London reads: "A full moon, an Italian lake, and a broken heart." It is addressed to "B" and signed "A".

Miss Edna Dalben of Dover, was caught trying to smuggle diamonds into England from Holland in her hat.

A bodger weighing 60 pounds was caught in a trap by Niels Gorenson of Jamestown, N. D.

The Maharajah of Patiala has engaged a German band of 60 pieces to visit his capital in India.

The Wesleyan conference of Liverpool adopted a rsle that women ministrs must resign if they marry.

James Cowery of Winnetka, Ill., shot his cook because she served pancakes for dinner.

Charles W. Radden of Ramsey, Eng., refused to serve as a juror and went to jail instead.

Gustav Stobel, a Communist, was tarred and feathered by Barvarian women because he advocated free love.

Ernest Denton, who motored 70 miles to London daily to beg, has been ordered by the police to keep ont of the city.

Capt. Gug St. Barbem of London, who took to breeding cats as a cure for "war nerves" won the best prize at th Kennisgton show, heretofore captured by women.

Six bands played the funeral music for Karl Solcheim of Hull, Eng., as he directed in his will.

Signorita Adria Cassini of Palmero, Sicily, cut off the ear of a girl who had won her sweetheart's love.

After receiving the charity dole for two years James Hawtrey of Hull, Eng., found his wife had a bank account and paid back all he had received

Mrs. E. H. Waite of Chicago telephoned from Fox Lake and had the police recover her baggage, forgotten on the steps of an apartment house five hours before.

William Herman of St. Paul won a divorce on evidence he got by crawling through a window of his home when he was supposedly on a vacation trip.

John Muchannan, young handless artist of London, who holds his brush between the stumps of his arms, won a prize at the Imperial Institute recently.

Columbus, Ind., has an accommodating policeman. Ab Billings stopped him, admitted being drunk and asked to be kicked. The cop complied with pleasure.

OVER 50,000 ACRES ALA. SOILS TO BE COVERED WITH VETCH

(By L. O. Bracker)

Over 50,000 acres of Alabama soils will be covered with winter legumes this winter when the 1,043,000 pounds of winter legume seed shipped by the Alabama Farm Bureau Federation to farmers of Alabama are planted this fall. Under normal conditions this acreage will return the farmers a total sum of more than $1,000,000.00.

Farmers continue to place orders with the County Farm Bureaus for vetch and Austrian peas. All previous sale records have already been broken and present indications are that the amount of seed used this year will be at least 1 1-2 times the amount used last year. Already the amount shipped by the farm bureau this year has exceeded that of last year by 238,000 lbs.

With 80.000 pounds, including 35,000 pounds of vetch and 45,000 pounds of Austrian peas, Dallas County Farm Bureau leads all others of the state in the amount of seed ordered. Hale County, is second with 46.50 puonds; Calhoun, third, with 45,500 and Perry fourth with 41,000 pounds. Cullman, DeKalb, Etowah, Franklin, Limestone, Marengo, Marion, Pike, Sumter, Talladega, and Tuscaloosa have each ordered over 20,000 pounds of seed. Several other counties of the state have placed orders for between 10,000 and 20,000 pounds of seed.

Planting vetch is making big headway in north Alabama. However, planting is rather late in the southern part of the State. This being the case, north Alabama still leads other sections of the State in ordering winter legume seed.

INTESTINAL STASIS or Constipation in its various forms, is responsible for a majority of human ills—85%, is claimed by some eminent authorities. Symptoms warning of danger are, dizziness, coated tongue, bad taste of mornings, gas, bad breath, palpitation, shortness of breath, jaundice, pains in side and back, specks before the eyes, etc. A safe, reliable, speedy remedy is **DR. THACHER'S VEGETABLE SYRUP**, obtainable of all dealers, in 60c and $1.20 bottles.

HIGH SCHOOL NEWS

New Equipment

New equipment is being added to the building daily. A sink was installed in the laboratory and also materials were added for chemistry and physics. The sink eliminates quite a lot of trouble as the students have been having to go upstairs for all water used in the experiments.

Also a beautiful $90 machine was purchased for the benefit of the Home Economics Department.

The walls are being plastered over in a cream color. This will greatly improve the appearance of the rooms and halls.

Annual Staff Elected

Mr. Ed Wise, representing the Brown Printing Company of Montgomery, spoke to the school last Wednesday regarding a school annual. The school is very enthusiastic over the idea and everyone is willing to work to put out a good Annual and show people what a spirit Chilton really possesses. The staff was elected with Kathryn Hayes, editor-in-chief; Lanier Moore, business manager; Gladys Williams, associate business manager; Feryl Martin, photo editor and James Wade, athletics, and Frank Teel, joke editor.

MISS JANIE ODEN

"Death rides on every passing breeze and lurks in every flower."

"Dust to dust, earth to earth, was the divine hand written on all nature."

Shady Grove church and community and all who were in any way associated with Miss Janie Oden have sustained a great loss in her departure from earth Saturday evening, Sept. 29, at 7:30 o'clock.

She has gone to be with Jesus whom she loved. She ran the victor's race and has gone to receive the crown. Her conversation was about Heavenly things. Holiness was the theme of her life and the fullness of the Spirit her joy. It was a rare privilege to be in her Sunday School Class for truly she was one of God's noblewomen. Mere words cannot express the beauty of such radiant, consecrated, Christian character as Miss Janie.

Although she was a sufferer for several months, no words of complaint, no expressions of pain escaped her lips. Her fortitude was marvelous. She met the solicitous inquiries of friends as to her feelings with her characteristic happy laugh and the words, "Why I am just fine." She loved life and seemed to achieve a transcendent youth, rather than grow old, respite the fact that she was nearing seventy years of age.

Her passing was most triumphant. She was able to tell the friends around her bedside of her Heavenly flight, and the singing and visions of the other shore, which she was experiencing. Death was swallowed up in victory.

Bereaved ones lift up your broken hearts unto God who is the giver of all good and perfect gifts and to the sympathizing Jesus for help and comfort in bearing the great loss.

The funeral was conducted by Rev. J. H. Limbrick, a former pastor and her body interred in the family lot in Shady Grove cemetery.—Contributed.

STATE CAPITOL NEWS

Montgomery, Ala., Oct. 1.—The present price of cotton is far below cost of production, according to Judge C. E. Thomas, president of the Southwide Cotton Council, who in a recent interview gave an interesting outline of the work and plans of the Council in the interest of stabilization of cotton prices. Judge Thomas is State Superintendent of banks, and is widely known through his work as a leader in the fight for better prices for the cotton farmer. His election as president of the Southwide Cotton Council was regarded as a well-deserved tribute to his work along this line as well as appreciation of his qualifications as a leader in the movement to give the cotton producer a better return for his labors than he has received in the past.

In commenting upon the cotton situation and the aims of the Southwide Cotton Council, Judge Thomas said:

"The Southwide Cotton Council which is now functioning with offices in New Orleans is the outgrowth of the vision and thought of Governor Moody of Texas. It was practically a necessity that an organization of this magnitude should be organized for the purpose of stabilizing the price of cotton, creating new uses for cotton and encouraging those industries that are now using cotton bagging, thereby creating a demand for 1-2 to 1 million more bales than have been used in the past. This association up to date has done a large amount of publicity and educational work that will greatly aid in securing funds necessary to carry on this organization. They do not propose to interfere, but encourage the different organizations that are functioning successfully in the South.

"With cotton being sold and controlled through large growers or similar organizations to the farm bureau, and by handling a larger percentage of the produce they can at least name a minimum price for the staple. The plan is a simple and workable one and as soon as their finances will justify the expenses necessary to getting in touch with a large portion of the 2,700,000 cotton growers in the South, educating and bringing to their attention the importance of controlling and marketing the product which they produce, and which is the largest cash crop in the South, they can somewhat stabilize the price of cotton. Texas is to take the lead in raising the money for this important association and calling together on the 15th of October a dozen or more outstanding farmers and captialists that they may thoroughly present their plan with the idea of having them under-write the necessary finances to perfect the early organization.

"There are approximately 15,000,000 people depending upon farming and a good portion of these are relying upon cotton to sustain their families. The cotton producer has to contend with weather, speculations, and many other unfavorable interferences that the usual industry does not meet with and the masses of the people are apparently not interested in whether the cotton grower enjoys a fair profit for his returns or is losing money in trying to produce cotton.

"The current prices of cotton this season is 3 to 4 cents below the value of cotton and far below what is has cost to produce it.

"The consumption of American Cotton for the year ending July 31, 1928, was 15,407,000 bales, a little less than was consumed in 1927 and 1926 and as we are going to produce perhaps 14,000,000 bales of cotton in 1928 and the demands of American Cotton is going to exceed 15,000,000 bales we see no reason why cotton should not today bring 20 to 22 cents per pound.

"We are watching with interest the meeting of the Style Conference which is to be held in New York on October 8th, under the joint auspicies of the Cotton Textile Institute and the National Association of Manufacturers of Cottton Dresses. One of the leading features of the conference will be the display of new cotton fabrics made up in dresses and shown by models. These fabrics for the Spring Season will be shown by several large outstanding manufacturers whose lines include dresses, hose and other fabrics that they are attempting to encourage the use of cotton."

Confederate veterans of Alabama will gather in Montgomery for their annual reunion October 10-11-12, and this City, the Cradle of the Confederacy, is making extensive plans for entertaining the heroes of the Lost Cause. Sessions will be held at the Scottish Rite Temple on Dexter Avenue, just a block from the historic spot where Jefferson Davis was inaugurated president of the Confederacy.

Governor Bibb Graves, a veteran of the World War, will address the veterans of the Confederacy Thursday morning, October 11th. Friday, the closing day, will be featured with a parade through the streets of the City, in which members of the Montgomery Post of the American Legion will act as an escort of honor to the veterans. It is expected that 250 or more Confederate veterans will attend the reunion.

The regular October session of the State Board of Pardons will be held Wednesday, October 10. Sessions of the Board are held generally on the second Tuesday of each month, but due to the fact that Tuesday, October 9th, is Fraternal Day, and a legal holiday according to the Code, the Board postponed its meeting until Wednesday. The session will be held in the Senate Chamber at the Capitol beginning at 9:30 o'clock Wednesday morning.

NEW FOOTWEAR

SOLID LEATHER SHOES DO WEAR LONGER. LOOK AT THE SATISFACTION YOU GET. There's nothing else you buy that gives you as much for your money as a pair of STAR BRAND SHOES. There's a lot of workmanship from the green hide or hide to the finished shoe—and remember, your shoes are with you from morn til night, most of the time on the ground, getting the hardest kind of service. Chilton County Abstract Co.

M. D. FOSHEE, Manager

A good business man will not buy a farm or any property without first looking it over to see what it is worth.

However, some will buy or loan money on land without an abstract.

Isn't it equally as foolish to buy a farm without looking it over as to buy it and not know whether the titles are good or not? Without an abstract you do not know where you are getting the land you look at or not.

Before investing in land in any way have an abstract made and be safe.

M. D. Foshee Clanton, Ala.

THINK! HAVE MONEY!

Here is beauty and the beast, but in this instance, beauty represented by Miss Teresa Baron is on the long end, while the beast honors in the hands or, to be exact, the feet of "Little George" take the second count. Anyway, you can personally view both beauty and beasts when John Robinson's Circus comes to this vicinity for afternoon and night exhibitions in the near future.

"Little George" is one of the members of the juvenile zoo with the "pioneer circus of the world," while Miss Baron is one of the four Baron Girls, noted English aerialists. These girls are said to be without an equal in aerialistics, possessing abundant nerve and daring, as well as a goodly share of English beauty. The 104th edition of John Robinson's circus comes with many new and novel features, as well as the greatest of all trained wild animal displays.

SELMA, Tuesday, Oct. 16.
MONTGOMERY, Wednesday, October 17.

A Proclamation

BY THE GOVERNOR

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out; and

Whereas, notice of such election, together with the proposed Amendment, is required by law to be given by proclamation of the Governor;

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice direct and proclaim that on Tuesday, the 6th day of November, 1928, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

Midland City School District No. 15 in Dale County, Ariton School District No. 50 in Dale County, shall each have the right and power by a majority vote of the qualified electors of such districts voting at an election held for that purpose to levy and collect for public school purposes including the payment of indebtedness a tax not to exceed ten mills any one year in addition to all other taxes now authorized by law. The election in such districts to determine whether or not such tax shall be levied shall be called, held and conducted as now provided by law for calling and conducting an election to determine whether or not the three mill district school tax shall be levied and collected, and the laws governing the handling and the expenditure of the proceeds of the ten mill tax herein provided for shall be in all respects in accordance with the law governing the handling and the expenditure of the three mill district school tax.

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

BIBB GRAVES,
Governor.

JNO. BRANDON,
Secretary of State.

VAN SMITH SERIOUSLY INJURED IN FRIENDLY TUSSLE

Van Smith, prominent south Clanton merchant, who was painfully injured in a friendly wrestle last Wednesday evening, was carried to the Memorial Hospital in Montgomery last Thursday.

At the time Mr. Smith was injured, he and J. D. Wesson were wrestling, and Mr. Smith's neck was injured. Very little attention was paid the matter at first, but Thursday pneumonia set up, and he was rushed to Montgomery, where his condition was found to be serious, an examination revealing that the muscles of his neck had been torn loose.

Word from the hospital Wednesday, was to the effect that he was much improved. However, he will probably compelled to wear a brace for several months.

Mr. Jack Jones of Montgomery, has been spending some time in Clanton with his parents, Mr. and Mrs. L. Jones, returned to the Capitol last Sunday.

Alabama Power Company Applies For New Rates

Domestic electric consumers of Alabama Power Company will be interested in the following correspondence and the announcement that, beginning in an early issue, this newspaper will publish a series of explanatory advertisements on the subject of new electric rates for householders served on our system. The first of these advertisements will contain a statement of the proposed rates, and subsequent advertisements will discuss in detail how the new rates would operate, what they would mean to you, and how, together with a new schedule of commercial rates applied for, would reduce the Company's revenue $300,000 annually.

ALABAMA POWER COMPANY
BIRMINGHAM, ALABAMA

September 25, 1928.

Alabama Public Service Commission,
Montgomery, Alabama.

Gentlemen:

We have filed with you today a new Service Classification available for domestic residential electric service and intended to be generally applicable on the system of Alabama Power Company with the exceptions noted in our letter of transmittal.

The proposed new schedule of domestic rates differs in form from the usual block rates and is designed to extend equal opportunity to all customers—large and small—of making additional use of the service at very low rates. The new schedule, if approved by your Commission, will supersede a number of existing schedules and provides for all lighting and appliance service to be supplied through a single meter, thus simplifying our bookkeeping and making every outlet in each customer's home an appliance outlet.

We believe that the proposed new rates for domestic service are of such general interest to the public that it may be advisable to explain the new schedule in advance of the date of hearing. If agreeable to your Commission, we suggest publishing in all local newspapers a series of advertisements explaining the new rates.

We very much desire that the public take an active interest in the new rate schedules and if the suggestion meets with the approval of your Commission we are prepared to immediately begin the publishing of a series of advertisements explaining the proposed new rates.

Yours very truly,
ALABAMA POWER COMPANY,
Thos. W. Martin, President.

ALABAMA PUBLIC SERVICE COMMISSION
MONTGOMERY, ALABAMA

September 25, 1928.

Alabama Power Company,
Birmingham, Alabama.

Gentlemen:

We are in receipt of your letter of even date, suggesting to this Commission that an advertising campaign be conducted, explaining the new rate schedules which you have recently filed.

The Commission favors publicity being given to rate changes proposed by the utilities, in order that all rate payers affected may appear before the Commission, if they so desire, and offer any facts on the customer's side, which should be taken into consideration. The advertisements, in our opinion, should include a statement of the proposed rate, as filed with the Commission, together with explanation of the effect of the new rates as compared with the rates now in effect applicable to the same service.

Yours very truly,
ALABAMA PUBLIC SERVICE COMMISSION,
By Hugh White, President.

Alabama Power Company

THOS. W. MARTIN, President

Mr. Erlich Eiland, who is attending P. I., at Auburn, spent the past ck end at the home of his parents, r. and Mrs. R. J. Eiland of Cooper.

BILLINGSLEY

The Y. W. A. met at the home of Mrs. E. B. Mills Friday night, and an interesting program was carried out. Those present were: Misses Maude Lee Patrick, Mabel King, Inez Patrick, Lucille Dickinson, Thelma Baxter, and Mrs. E. B. Mills.

After the program Sunday night, the B. Y. P. U. elected new officers, viz: Prof. Upton, president; Mrs. George Dickinson, vice-president and secretary Miss Mabel King, Quiz Leader; Mr. Shepherd, chorister; Miss Inez Patrick, organist; Misses Maude Lee Patrick, and Lucille Dickinson, Group Leaders.

Miss Emmie Thompson spent the week end with her parents at Autaugaville.

Mr. and Mrs. J. F. King and Miss Mabel King motored to Birmingham Sunday and spent the day with relatives.

Miss Minnie Jones attended the Fair at Birmingham Friday night.

Misses Ruth and Mattie Lou Carter, spent the week end with their parents, Mr. and Mrs. J. N. Carter.

Mr. and Mrs. J. M. Robertson and Mr. and Mrs. Jenkins of Montgomery, were the guests of Mr. and Mrs. E. B. Mills Sunday.

Rev. and Mrs. W. G. Barnes visited friends at Orrville the past week end.

There will be a Fiddlers' Convention at the School auditorium Saturday night, October 6, for the benefit of the P. T. A. Everyone invited.

Mr. and Mrs. Evan Parrish and daughter Helen, and Mrs. W. T. Baker and Miss Exie Baker motored to Montgomery last Sunday and spent the day.

FARMERS TEACH PRACTICAL LESSONS AT OAK GROVE MEET

Farmers teach practical lessons at Oak Grove Evening School held by J. P. Montgomery. One-half acre in strawberries for each Oak Grove farmer objective adopted.

At recent meetings of the Oak Grove Evening School, Mr. George Littleton discussed the growth of dewberrie and Mr. J. D. Sutley discussed strawberries. Mr. Littleton is one of the few farmers in the county who has had experience growing dewberries. He made a splendid talk, going into detail as to methods of setting out the plants, cultivation, staking and harvesting. The Oak Grove farmers hope that the dewberry will prove a profitable truck crop on a commercial basis.

What Mr. Littleton gave for the dewberry, Mr. Sutley gave for the strawberry. Mr. Sutley with sixteen years' experience of successfully growing strawberries, gave especial emphasis to methods of cultivation. He urged the proper setting of plows so that the beds will remain as level as possible. He advocates deep plowing in the middle with a scooter plow in the fall of the year. Mr. Sutley uses three or four hundred pounds of mixed goods per acre in the fall and a ton of the special strawberry fertilizer each spring.

Mr. F. T. Satterwhite advised that every farmer in Oak Grove community should have one-half acre in strawberries and the school agreed to bend its efforts toward carrying out that objective this coming season.

Mr. Montgomery gives a regular lesson at each meeting and if possible has a farmer give a lesson also.

CHARLES A. YOAKUM TO TALK AT POWER MEETING

Atlanta, Ga., Sept. 3.—Charles O. Yoakum, prominent Southern investment banker and executive vice president of the General Securities Corporation of Birmingham and New York, has accepted an invitation to address the Southern Power Conference here October 8, 9, and 10, it was announced today by the executive committee of the conference.

Mr. Yoakum will address the conference on "The Industrial South As An Investment."

"Southern investments," said Mr. Yoakum in accepting the invitation, "are attarcting more and more people throughout the country every year. It is becoming generally realized that the South is showing a more rapid growth along industrial lines than any other given area has shown in the history of America.

"Prostrate and poverty stricken at the close of the Civil War, the South was delayed more than sixty years in its development, but during the last decade it has begun to assume its rightful place in the economic affairs of the nation. It is awakening to the full realization of the value of its naturel resources, its climate, its geographical position, and its many other advantages and it is courageously seeking to mold out of this material a great industrial empire. That it is succeeding is evidenced by many things, for instance the pronounced trend of the textile and other industries southward, and its increasing earnings as shown by the federal income taxes it is paying. Last year the South paid $475,275,000 into the Internal Revenue Department of the Federal Government, an increase of $38,000,000 over the previous year. Meanwhile, the rest of the country showed a decrease.

"It is generally accepted that there are four factors in economic growth, namely: abundant raw material, plentiful labor, availability of market and cheap electrical power. Although lastly enumerated, cheap electrical power is by no means the least of these. It is absolutely essential to industrial growth; and to my mind there is no better indication of the South's great future than the increasing interest in the further development of our great hydro-electric resources. We have raw materials in abundance; our labor is efficient, easily taught and to be had at reasonable cost, our market is growing about us, and improvement in transportation and good roads have brought other markets closer. We have these things and we have great undeveloped power resources. Add to them the intelligent development and administering of these power resources and the South will have an economic array that must be invincible.

"For this reason it behooves all of those interested in the industrial and economic betterment of the South to give the very closest atention to this growing problem of power development which will concern the Atlanta meeting of the Southern Appalachian Power Conference."

VARIOUS PLANS TO STEAL TIME AND MONEY FROM THE UNWARY

Bankers Association Official Tells How Young People Are Fleeced in "Hokum Pokum" Movie Schemes—The Investor Loses Savings by Listening to Messrs. Slick and Smooth.

By W. R. MOREHOUSE
Public Relations Commission, American Bankers Association

THE fabulous salaries paid stars of the first magnitude, and the publicity of the "movies" naturally create longing in the breasts of thousands of our young Americans to get into motion pictures. Because so many are ready to leave home, and risk everything on a fling at motion pictures, unscrupulous persons have devised ways of fleecing these ambitious young people out of their savings. "Hokum-pokum" schemes of various kinds are used with great success. Fake courses in the art of acting before the camera, fake courses on how to make-up, fake registration gags and screen tests, are among the schemes used to separate these thousands of young people from their cash.

W. R. MOREHOUSE

The pilgrimage to the motion pictures centers by thousands of novices usually ends disastrously for the pilgrims. Naturally a few are successful, but only a very, very few, the ninety and nine meeting with disappointment. The truth is, the number of persons who seek to "break into" the movies exceed the number of available positions by one hundred to one, while in the realm of popular stars it is thousands to one.

Don't be misled by the promises of promoters of hokum-pokum schemes that there is room for all, because this last year over 100,000 young people knocked at the door for admission and were turned away because there was no room on the inside for them. Consult your banker or address the National Better Business Bureau, New York City, for information or advice regarding any enterprise that seeks to gain possession of your money. They will give disinterested counsel before it is too late.

Also let every investor approached by either Mr. Slick or Mr. Smooth with a proposition yielding big dividends remember that such assurances always spell financial danger ahead. To every investor who is inexperienced in making investments, in other words perhaps just a little green and perhaps a little too easy, any offer coming from this source should be like a red flag warning to come to a complete stop.

Such investments as Mr. Slick or Mr. Smooth offer are too good to be true and therefore they are not true. Slick, Smooth and Company are not miracle workers although from their sales talk you would infer that they could make you rich as if by magic. No, they are not miracle workers—just slick and smooth.

The Estate Gag

Twenty-four "estates" representing 5½ billions of dollars have been used as bait to interest a lot of savers and finally bleed them of their savings. The scheme is built around a supposed search for the heirs to certain phantom estates. At all costs these heirs must be found. Every person who can by any hook or crook, figure it out that he is in anyway related to the deceased are urged by some shyster lawyer or genealogist to send in their names and their life history.

Soon they receive glad tidings telling them that their family tree can be traced back to the deceased, in fact, they are a direct descendant and an heir at law.

Like fake raffles everybody who responds to the search is found to be a winner—in other words an "heir." Here is where the rainbow chaser gets trimmed. Before his claim to the mythical thousands can be pressed so as to insure success a demand is made on him to advance attorney's fees and pay the expense of tracing through his genealogy.

Not surmising that he is being trapped and seeing only the big inheritance which he is led to believe he will soon receive, he draws the amount necessary from his savings account and sends it on, not knowing he is actually throwing it away. But he is for like thousands and thousands of other rainbow chasers, he parts with it for the last time.

So-called estate schemes which have produced thousands of "heirs" and at a

The Pilgrimage to the Movies

heavy loss to them have been worked under the following names:

Baker	$ 250,000,000
Chadwick	37,000,000
Edwards	90,000,000
Ingraham	500,000,000
Hyde	360,000,000
Jennings	400,000,000
Hedges	250,000,000
Kern	200,000,000
Leak	100,000,000
Shepherd	175,000,000
Trotter	200,000,000
Chase	1,300,000,000
Townley	500,000,000
Webber	50,000,000
Weiss	20,000,000

Again, before parting with your money in any scheme you do not know all about consult your banker or a Better Business Bureau.

EAST VIEW

Every body remember the first Saturday and Sunday is our regular preaching days at the Baptist Church, and as that is the day for us to select a new pastor for the coming year, we urge everyone who is interested to be present and especially all the church members.

FOREST FIRE STATISTICS NOT WIDELY COMPILED

Montgomery, Ala., Oct. 1.—There are no figures available indicating even approximately the extent of forest fires and the damage they cause in the United States, according to the Alabama Commission of Forestry. Occasionally statements are published purpoting to convey information on this subject, but investigation into the original sources of the data and the methods of their correlation only shows that the totals are so undependable as to be quite misleading.

It is a principle of statistics, points out the Commission, that the thing concerning which information is desired must be clearly defined. On a general basis there appears no uniform understanding of what is meant by a forest fire. In Alabama and in a few other sections there is a clearcut conception of the meaning of this term, but in general there is a great deal of haziness on the subject. Is a prairie fire a forest fire? If numerous lighted spots are started by a shower of sparks from a locomotive is each of these spots a separate fire or do they constitute one fire? Is a fire set by a turpentine operator to burn the debris from the ground a forest fire or not? Is a fire set intentionally and under proper authority by the owner of woodland and confined to his own holdings a forest fire? Is a brush fire a forest fire? These and various other questions must be determined before it is possible to compute statistical information in connection with woods burning.

The Alabama Commission of Frestry [illegible] it a matter of great importance that some central agency undertake to standarize the methods of compiling forest fire statistics. No federal bureau has a branch of forest protection, although various of the states have made considerable advance in this direction. The methods followed, however, differ so greatly as to soundness of principle and efficiency in operation that thus far no dependable source of nation wide forest fire statistics has been developed.

MINERAL SPRINGS

Well, as next Sunday evening is our singing date I want to invite all snigers to come and bring their books and feel welcome. It starts about 1:30 o'clock.

Our Sunday school is doing very well, but it could be a lot better, you know that there is a lot of young people who just haven't got time to stop long enough to have Sunday school and some parents who haven't time to go. And there is another class of young boys moatly who will go to Sunday school and gather up in a bunch in front of the house and never go inside. Now, I would like to ask a question, who is to blame about this class of boys and girls? I want to say right here that I think it is in the fault of their parents to a great extent. And now, about parents not going to Sunday school, my friends, they don't know the value of their time spent with their children in Sunday school. As the records of juvenile courts show that there is only one case out of every 10 that was raised to go to church and Sunday school.

Now, I think that is enough to show anybody where they ought to train their children to go on Sunday morning. Now, Mothers, and Fathers, let's get together and m our Sunday school a great deal ter than before. We can if we only try.—M. Gore, Supt.

These 25c sales are always looked forward to by customers of Hill's with no small amount of interest as they are always assured of many real bargains and there is no question as to whether this sale will go over in a big way.

A Proclamation

BY THE GOVERNOR

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out; and

Whereas, notice of such election, together with the proposed Amendment, is required by law to be given by proclamation of the Governor;

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice direct and proclaim that on Tuesday, the 6th day of November, 1928, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

The Board of Revenue of Jefferson County or other governing body of said county, in addition to the taxes it is now authorized and empowered to levy and collect, shall levy and collect annually a tax of not more than one-tenth of one per centum upon the value of the property therein as fixed for State taxation, to be applied exclusively to the purchase, construction, equipment, repair, operation and maintenance of a charity hospital or hospitals for the care and treatment of indigent persons.

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

BIBB GRAVES,
Governor.

JNO. BRANDON,
Secretary of State.

GRANDSON OF CHIEF OF POLICE VISITS IN CLANTON

Chief of Police, John Boockholdt has had an unusually happy look and air lately, and during a conversation with the Chief, a representative of the News found out what was causing all the happiness.

Last Monday, a very important person, according to Chief Boockholdt, was a visitor to Clanton. This person was none other than the infant son of Mr. and Mrs. Fred Williams of Enterprise, near Clanton. The younger Williams is the Chief's first and only grandson, and is just three weeks old, making his first visit with his parents to the city of which his grandfather acts as Chief of Police.

Chief Boockholdt states that his young grandson has already made application for a job on the police force of Clanton, with the idea in mind that he will some day be like his grandfather. We can't blame the Chief much, because the youngster is sure a fine little chap.

A Proclamation

BY THE GOVERNOR

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out; and

Whereas, notice of such election, together with the proposed Amendment, is required by law to be given by proclamation of the Governor;

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice direct and proclaim that on Tuesday, the 6th day of November, 1928, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

Article , Section 1: The Legislature may form or provide for the formation of drainage districts, for establishing and maintaining drainage systems; and provide for the assessment of the whole or part of the cost of such improvements against the lands and property in such district to the extent of the increased value thereof by reason of special benefits derived from such improvements and may provide for the issuance of bonds for such districts with or without an election.

Section 2: This amendment shall be retroactive and retrospective and shall operate to ratify, confirm and validate the Act of the Legislature of Alabama, which Act provided for the drainage of farm, wet, swamp and overflow lands in the State of Alabama and authorized the organization of drainage districts, conferred the right of eminent domain to the extent necessary to carry out the purpose of said Act, and provided for the raising of revenue by bond issues or otherwise to pay the cost and expense of maintaining drainage systems so as to promote the public health and general welfare and, which act was approved March 4, 1915; and this amendment shall operate to confirm and validate all corporate organizations under authority of such law, all procedure had, all acts done, all bonds issued, all contracts entered into and assessments made by such corporations under authority of such law.

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

BIBB GRAVES,
Governor.

JNO. BRANDON,
Secretary of State.

Buy oil by name
—TEXACO
Watch the color
—GOLDEN

The first thousand miles

This year . . . your choice of motor oils is second only in importance to your choice of cars.

For engines of 1928 are faster . . . they "turn over" more times in a given second. They run hotter . . . more explosions . . . higher compressions. Only a motor oil with full viscous body can "stand up" under this high-speed heat; only a motor oil as fine as golden Texaco can give your new engine the thorough lubrication it must have at all times . . . under all circumstances.

More than ever this year, the first 1,000 miles . . . and the oil you use . . . will determine your engine's performance during each of the thousands of miles to come.

From the first mile on, use Texaco Motor Oil. Free of tars, of paraffin wax and cylinder stock, Texaco flows in coldest winter . . . lubricates thoroughly and dependably at all temperatures.

Wherever you see the Red Star and Green T, ask to see the Texaco Lubrication Chart. It will specify the grade of Texaco Golden Motor Oil authorized for your new engine.

The Texas Company, 17 Battery Place, New York City
Texaco Petroleum Products

TEXACO
GOLDEN
MOTOR OIL

Not WET . . . . But DRY

A wet gas is an atomized mixture of gasoline vapor with liquid drops of raw gasoline. These drops, separating at every manifold bend, result in uneven distribution and flooded cylinders.

A dry gas, the new and better Texaco, vaporizes completely. It forms a dry gas—a perfect mixture of gasoline vapor and air, which provides an even flow of fuel and power to every cylinder.

You buy the LIQUID but you use the VAPOR

Faster . . Faster . . We Drive

Changed Motoring Conditions Demand a New Gasoline

60 . . . 70 . . . perhaps more miles per hour—mastery of the highest hills in high gear—quick-action power—all of this you and thousands of others demand when you buy a car. You may never use this excess power, yet you want it.

Faster and faster—each year a little faster—you drive over increasing miles of improved roads. Faster and faster moves the traffic of cities.

The *new* and *better* Texaco is an answer to these changed and changing conditions. In the tank, the *new* and *better* Texaco is a pure, non-doctored liquid; at the spark, a vapor that is so free of moisture that it can be truly described as *dry*. It is this dryness—this ability to form a dry gas—which, in your engine, results in increased power and responsiveness throughout its entire driving range.

Anywhere—wherever you see the Red Star and Green T, drive in for the *new* and *better* Texaco—the gasoline that forms a dry gas.

Machinery for Cotton Mill Arriving Fast

Sprinkler and Sewerage System at Mill and Village Completed

The machinery which is to be installed in the new cotton mill here, which is a unit of the Alabama Mills Company, is arriving daily by the carload. On last Monday, there were fifteen cars loaded with new machinery on the tracks at the mill, and according to information given us, the machinery and other equipment is arriving on an average of from three to five cars daily.

Already a large amount of the newly arrived equipment has been unloaded in fact this work was begun last Monday. According to information, all the looms, 169 in all, have arrived and have been placed in the main mill building and also 52 spinnning frames have arrived.

During the past few days, the automatic sprinkler system, which is the Grinnell System, has been installed completely. In the building also will be found fire hose reels, and on the grounds in the three hose houses erected at corners of the mill building, there will be found a thousand feet of fire hose in each house. The fire hydrant is also located in these houses. The water used in fighting fire at the mill comes directly from the bottom of the large stand pipe of the enormous tank erected on the grounds. The water pressure from this tank is tremendous.

The sewerage system of the mill village has been completed and all houses in the village have been furnished with water works, according to information given us. The wiring of the village has already been completed and also the main building has been wired, as much as can be done at present.

The office of the Superintendent, clerk and supply room, etc., is expected to be completed by the latter part of the week, according to Mr. A. R. Meeks, Superintendent, who has recently moved to the village. This office is located directly on the South side of the main building. About the biggest job on hand now, according to information, is the installation and setting up of the rapidly arriving machinery and other equipment.

According to Mr. G. M. Crusselle, resident engineer on the grounds, it will take approximately two months to install the machinery.

LITTLE E. J. SIMS DIED THURSDAY, OCTOBER 4TH.

The son of Mr. and Mrs. J. L. Sims little E. J. Sims, of the Alpine community, died last Thursday evening, October 4th.

The little boy was playing with his little brother, Thomas, on some cotton, and they dug a hole in the cotton. In their play little E. J. fell through the hole, breaking his neck.

Interment took place at Alpine cemetery and Rev. J. E. Moore, pastor, conducted the funeral services.

Weep not, dear father and mother, for we know God above all knowest best, and took his little soul to rest. Prepare to clasp his precious little hand some day.—Written by H. C. Gray.

ISABELLA LOSES TO STRONG CENTREVILLE HIGH TEAM

The Isabella football team lost its second game of the season last Friday when they met the strong Centreville team on the latter's field the score being: Centreville 46; Isabella, 0

The feature of the game was the fact that Isabella played through their second game without a single penalty having been called on them this year. Isabella was only able to make two first downs during the game, one through end runs and line plunges and the other by a forward pass.

Conway, the star backfield man for Isabella, suffered injuries which compelled him to leave the game. Up to the time that he was injured, Conway had been the most consistent ground gainer through the line and around end. Smith, lineman for Isabella was also injured and compelled to leave the game.

Isabella meets Marbury for the third game of the season, next Friday.

CHILTON HIGH-MARBURY GAME ENDS IN SQUABBLE

Marbury Lads Leave Field At End Of First Half Of Game

The football game scheduled to be played here last Friday between Clanton and Marbury school teams ended in a squabble, the Marbury lads leaving the field at the end of the first half, giving as their reason that the officials were "hogging" them out of the game.

The game was progressing in fine shape, and Marbury was showing a strong fight. The Chilton County Hi team had only managed to score two touchdowns during the first half, but were showing their superiority at the game by consistent ground gaining, and twice the local team lost a chance to score when Nelson fumbled right at the Marbury goal line.

The decision that caused the Marbury boys to leave the field was one made by the officials near the end of the first half, when a Marbury boy called for a forward pass, saw he could not make it, attempted to run the ball, and when tackled just before crossing the line of scrimmage fumbled and tried to throw the ball and a Chilton High player scooped it up back of the line of scrimmage and ran for a touchdown. The referee's decision was that it was a free ball and Chilton High was entitled to a touch down.

The fans were surprised to see the Marbury team leave the field when the whistle blew for the second half, and it is reported that the Marbury Coach stated that he did not instruct them to do so. Everyone wanted to see the game continue, and in our estimation, the Marbury boys should have continued the game, under protest, if they saw fit. If the referee was wrong in this decision, and we do not believe he was, Marbury could have gotten the athletic board to set aside the touchdown in question.

At the time the game ended Clanton score was 12, while the visitors had not accounted for a single mark.

The Chilton High team meets Rockford on the local field nert Friday in what promises to be one of the best games of the season.

Much Interest Is Shown At Farmers Meet In Sylacauga

FOURTH QUARTERLY CONFERENC EHELD AT M. E. CHURCH

The Fourth Quarterly Conference of the Clanton Methodist Church was held on Sunday night, following a sermon by the presiding Elder, Rev. D. H. McNeal.

Officers for the year are:

C. E. Stapp, Lay Leader; L. C. Warr, Sunday School Superintendent; J. D. Armstrong, V. J. Elmore, J. C. Jones; T. C McSwain, J C Page, P M Pitts, Evan Parrish, W. M. Polk, J. E. Teel and M. L. White, Stewards.

J B. Atkinson, F. J. Callen, Eric Hart J. C. Jones, W. A. Reynolds, W D Spigener, J Q. Wade and P. D. Wilson, Trustees.

Evan Parrish was selected Recording Steward and W. M. Polk was elected District Steward.

START ENFORCING NEW HIGHWAY TRAFFIC LAWS

Two representatives of the State Highway Department were in Clanton Tuesday, and with the assistance of Sheriff Collins, Chief of Police Bockholdt- and night marshall Wyatt, rounded up quite a number of the head light and tail light violators. Tuesday night they were stationed at the corner of Main Street where the highway crosses and where they stopped a large number of cars, and where it was found that the lights did not comply with the law, notified the drivers, and took the tag number, and we understand a second offense will very likely cause the offender to be arrested and given fines.

The new traffic law, which is now in effect is very strict and all vehicles must among other things, be properly lighted. This applies to wagons, buggies, automobiles and all other vehicles when traveling on any public road of the state after certain hours of the evening. Sheriff Collins and Chief Bockholdt stated that the traffic law would be strictly enforced, in the future, both in Clanton and on all public roads in Chilton County.

ONE CASE DISPOSED OF IN MAYOR'S COURT MONDAY

The case of F. L. Littleton, who was charged with violating the prohibition law, was the only one disposed of in Mayor's Court here last Monday morning.

Littleton was arrested last Saturday night near West End, according to information. He was found guilty and was fined $50.00 and costs, and then appealed the case.

The case of Mr. C. H. Roy was continued, after quite a bit of delliberation, until next Monday.

These two cases were the first to be tried before the new Mayor, Mr. Eric Hart, and the first to be tried in the new quarters of the city officials

OATS MAY BRIDGE SHORT FEED CROP

Auburn, Ala. ,Oct. 9.—Production of more oats on Alabama farms is being recommended by the experiment station of the Alabama Polytechnic Institute at Auburn, and farm demonstration agents throughout the state. For several years such a recommendation has been made annually each fall but is being emphasized at this time because of the small corn crop made this year

By planting oats this fall the county agents say that a good feed crop will be ready to harvest next May for use in making 1929 crops. As a result it will be necessary to buy less feed. Unless this is done Alabama farmers will be required to send out of the state millions of dollars for feed to be used before another harvest season.

J. C. Lowery ,extension agronomist at Auburn, says that each hour spent by farmers in making oats pay more than an hour spent in making cotton and corn. This statement is based upon surveys conducted in Alabama.

Results of experiments conducted at Auburn are in favor of planting oats in the fall rather than in the spring. Over a period of man yyears oats planted in the fall have yielded twice as much as oats planted in the spring. Occasionally severe winter kills fall-planted oats. Where oats are planted early and in furrows they usually survive Alabama winters without severe injury.

While county agents are insisting that farmers plant oats this fall they are also giving information as to varieties, soils, fertilizers, and other factors entering into the profitable production o foats.

Pledge To Support Co-operative Movement In State Of Alabama

Much interest was manifested at the meeting of farmers and farm leaders of Shelby, Chilton, Talladega, Clay and Coosa counties, Monday, October 1st, at 10 o'clock at Sylacauga.

About 35 attended the meeting which was presided over by J. P. Wilson district agent, of Auburn. County agents from each county were present and Edward O'Neal, president of the Alabama Farm Bureau Federation; W. D. Barton, director of field service, made brief talks.

At the meeting, farmers pledged thir support to the extension and cooperative movement among farmers of the state. The resolutions passed said:

1. That we pledge our unreserved support to the great Cooperative Movement among farmers of Alabama.

2. That we will use our full influence in our respective communities in the way of informing our neighbors inducing them to line up with us.

3. That we will give loyal and undivided support to the State Organization and its policies and to the Alabama Institute in all its parts.

4. That we will not give credence or support to rumors or underhand attacks that may have for their purpose the weakening of this movement.

5. That we accept the goals established for our several counties and pledge our untiring efforts to reach them.

Here is a list of the farmers and agricultural workers who were present at the meeting:

Shelby—A. A. Lauderdale, J. W. Heflin, W. E. Finley, G. A. Heaton and W. W. Clark.

Talladega—S. A. Burns, R. L. Mullins, G. N. Burns, R B. Kelley, W. L. Morris, W. W. Averett and W. T. Coker.

Clay—F. M. White and W. H. Garret.

Coosa—J. I. Ford, B. L. Livingston, J. W. Kerlin, and S M Day.

Chilton—C E. Stapp, O. C. Parik, J. P. Montgomery, Earle Thomas, T. Frank Patterson, Howard R. Oden, E. R. Piper and L. G. Posey.

OFFICERS AND TEACHERS INSTALLED AT M. E. SCHOOL

Sunday morning, following a sermon on "In the School of Christ" at the Methodist Church, the officers and teachers of the Church school were installed in a beautiful responsive service. They are Mr. L. C. Warr, Supt.; Mr. Evan Parrish, Secy.; Mrs. J. E. Teel, Supt. of the Cradle Roll; Mrs. V. J. Elmore, Supt. Beginners Department; Miss Madge Scarborough, Supt. of Primary Department; Mrs. C. E. Stapp and Mrs. H. G. Tabb, Primary teachers; Mrs. L. B. Green, Supt. Junior Dept.; Mrs. C. R Mullins, Miss Corrine Polk, Miss Sherwood, Mrs. E. R. Wilson and Mrs. S. J. Kicker, Junior teachers; Mrs M. F. Jones, Supt. Intermediate Department; Miss Emma Sue Morris, and Miss Sarah Pollard, Intermediate teachers; Mrs M. A. Gore Supt. Senior Young Peoples' Dept.; Mrs. L. E. Diefenderfer and Mrs. L. C. Warr, Young Peoples' teachers; C E. Stapp, Supt Adult Department... Mrs. J. Q. Wade, Mrs. Maggie F. Washington and Mr. Eric Hart, Adult teachers.

The Methodist Women's Council of the Mthodist S S. was held on Wednesday evening at the church. Plans were perfected for the observance of Children's Week, and routine business was transacted.

CLANTON QUARTETTE TO SING AT LIBERTY HILL SUNDAY

The celebrated Clanton Quartette is scheduled to sing at Liberty Hill on next Sunday, when the Liberty Hill Singing Society will meet.

A program has been arranged for the afternoon, that is said to be something new in the way of singing programs, from start to finish, and everyone is cordially invited to attend. Remember the date is next Sunday afternoon, October 14th.

NOTICE OF BOX SUPPER AT INDIAN GRAVE SCHOOL HOUSE

There will be a box supper at Indian Grave School House, Saturday night, October 13, 1928. All girls who wish are asked to bring boxes. A match basketball game is expected to be played also. Everyone is invited.—A Student.

SHERIFF'S FORCES MAKE SEVERAL ARRESTS LATELY

During the past few days, including the past week-end, Sheriff Collins and his forces have made several arrests.

Last Saturday night, Buster Darby, negro, was arrested out near Will Kennedy's house, another negro living just East of Clanton, and was charged with violating the prohibition law. Darby made bond and was released until court, according to information.

On last Tuesday night, the Sheriff and force arrested Ballard Headley and Jess Jordan. These two young men are alleged to have stolen some things from an automobile said to belong to Lee Mims, who lives near the river. The accused were brought to Clanton and placed in jail and at the time of this writing are still being held.

Mr. and Mrs. Joe Earl Robinson and little son Joe Earl, of Birmingham, were guests of Mr. and Mrs. C. B. Cox the past few days.

MONTGOMERY CITIZENS MAKE VISIT TO CLANTON

Assist Local Shriners In Organization Of Shrine Club

A delegation of Montgomery citizens and members of the Alcazar Temple, headed by Dr. M. B. Kirkpatrick, Potentate, O. C. Humphrey, Recorder and Jos. Seaman, Claud Hendrix, Tom Robinson, Roy Lifsey, Pope Lifsey, I. B. Smith and Frank Stephens, came to Clanton last Thursday and assisted a large number of Chilton County Shriners in organizing a Shrine Club, for this county.

The afternoon was spent in frolicing and sight-seeing around Clanton and points of interest near here, and from the expressions of our visitors, they were convinced that Chilton County is in fact the 'hub' of Alabama, and that we have a town and county with lots of good things to be proud of, and that Chilton County may always count on the co-operation of our many Montgomery friends to make further and bettter progress.

At seven o'clock in the evening, the visitors and local Shriners assembled at the Masonic Ladge, where the ladies of the Eastern Star had prepared a bountiful dinner, and after several talks and the enjoyment of the splendid repast, the meeting adjourned to the Lodge room and went into the organization of the club. After the objects and purposes of the club were explained by the visiting Nobles, the Chilton Club was organized with Nobles H. T. Pipes, as President; J. Renfroe Mullins, Secretary and H. G. Boyd, Treasurer; and a meeting for the adoption of by-laws and further organization work will be held soon, at the call of the president.

DR. J. E. EDGAR TO BE AWAY FOR SEVERAL DAYS

Dr. J. E. Edgar will leave some time next week for Butler, Ala., where he will spend Thursday, Friday and Saturday, October 18, 19 and20th, visiting friends and relatives.

Mrs. Edgar and little daughter, who have been visiting in Butler, will return with Dr. Edgar the latter part of next week.

Work On Grammar School Progressing

Contractor Hopes To Turn Finished Building Over By November 15th.

The brick work on the new Clanton Grammar School building has been practically finished this week. All the scaffolding which has been used by the workmen on the front of the building will all be torn away, leaving the stately substantial looking front of the school building with the inscription above the large front entrance, reading "Clanton Grammar School."

Work of putting on the heavy asbestos roof began last Monday and is rapidly going forward. The plastering of the walls of the interior of the Class rooms has been underway for several days, and in some of the rooms the first coat of plaster has been applied.

The plumbing in the school building has been only roughed in up to the time of this writing, according to Mr. Bearden, The contract for this plumbing was sublet to Mr. Mason F. Jones of Clanton. The electric wiring for the building has also been laid out through the building and is now being dressed in, as is the plumbing.

According to a statement made by Mr. A. B. Bearden, of Birmingham, who contracted for the job of building the school, he hopes to be able to turn over the finished building by the 15th of next November. That is, unless the work which is now progressing wonderfully is held up for the lack of material.

FIDDLER'S CONVENTION TO BE HELD AT THORSBY

There will be an old time Fiddler's Convention at Thorsby Public School on Saturday night, October 13th. The proceeds will go to the public school.

We have the promise of many of the best musicians in the country to be present. There will be a great variety of music given such as the old-time breakdown, string bands, banjo playing, piano playing, and comedy songs. Everyone is invited to attend. Admission 15 and 30 cents.

Very truly,
W. T. BEAN

COMMUNITY FAIR TO BE HELD AT ISABELLA, OCTOBER 26TH.

A Community Fair will be held at Isabella on next Friday, October 26. This will be for one day only. A splendid program has been arranged for the day.

Aside from the large and interesting community display which goes to make this fair a success, there will be many other interesting features.

Everyone is very cordially invited to attend this Community Fair. Remember the date, Friday, October 26th, one day only.

MR. A. G. CULP ACCEPTS EMLOYMENT WITH ALA. MILLS

Mr. G. W. Culp, who has been engaged in work at the Aldrich Mines, returned to Clanton last Wednesday to attend to some business matters. Mr. Culp stated that he will accept employment with the Alabama Mills Company at the new mill here. He will assist in the installing of the machinery.

C. Reese Mullins, Life-Time Democrat And Citizen of Chilton County, Writes

Clanton, Chilton County, Ala.
October 8th, 1928.

Editor Chilton County News:
Clanton, Alabama
My Dear Sir:

In this great national patriotic warfare I have been approached by a number of my friends to know what I thought of the situation. If you will be so kind as to permit me some space in your paper, and I am sure in the interest of fairness you will be, I will be glad to let the general public know just where I stand on the selection of our national leader and others.

There has been a great deal said pro and con for and against our Democratic nominee for President by our Democrats everywhere, and it must have been very confusing as many Democrats are bolting and declaring for Mr. Hoover, the Republican nominee. What does all this mean and why all this discord in the Democratic party? No doubt, the majority of these people are prompted from the best of intentions and motives but there may, perhaps be some prompted from other motives. There has been brought into this campaign all the issues of the past and now the religious issue is brought in. Why should we be alarmed over this when our Constitution guarantees to every man the right and privilege to worship his God under his own vine and fig tree, according to the dictates of his own conscience. I am sure the Methodist people would like for every body to belong to their Church, and the Baptist to theirs, and the Presbyterians and Catholics to theirs, and all the other denominations to theirs, but when will this ever be and when will ever any one denomination dictate to govern and rule this country. I say in my honest opinion this will never be, because in the first article of our national bill of rights, we find this: "Congress shall make no law, respecting an establishment of religion, or prohibiting the free exercise thereof."

Now it appears to me that the above quoted part of our national bill of rights, should be sufficient to satisfy

(Continued on last page)

Republican Editor Assails G. O. P. In Reply to Letter Asking Support

WASHINGTON.—The attitude of the intelligent Western farmer who has studied the causes of his present predicament, and who realizes what a continuance of the Coolidge policies would mean to him, is strikingly set forth in a letter received by Herbert N. Strause, of the Republican Business Men, Inc., from Willis A. Wells, Republican editor of the Webster (S. Dak.) Journal.

The South Dakota editor had been asked by Mr. Strause to support Herbert Hoover and to send a reply which could be published. Here is the reply:

"You request that I join the Republican Business Men, Inc., of your city, in promoting the election of Mr. Hoover upon the sole ground that 'he will carry out the Coolidge policies.' Your plea leaves me as cold as the ice fields of a polar sea.

"As a Republican I enthusiastically decline to do any such fool thing. I am for Hoover just about as far as you can throw our party elephant by the pin feathers with your arm broken in four places.

"Out in the West, where men are mortgaged up to the eyebrows and the farm work begins at sunrise, we are so opposed to a continuance of the Coolidge policies that if I wrote you what I think it wouldn't look good in print, and so I shall modify my expressions.

"Under the Coolidge policies, which Mr. Hoover is pledged to continue, we have had more farm bankruptcy and more rural distress than has existed since our pioneers came West in covered wagons and conquered the prairies.

"You really have no realization of what these Coolidge policies have done to a great and flourishing agricultural section of the country.

"Farm lands have depreciated $30,000,000,000 in value. Fifty thousand business men have gone broke. Four thousand rural banks have failed.

"While Coolidge was President, Congress, representing the people, passed farm relief bills twice and twice the man higher up vetoed them. That is the paramount Coolidge policy. We have been fooled twice. Don't think, my Wall St. friend, you can do it again.

"With kindest personal regards, you are at liberty to publish this and go to the devil."

You can buy this SAFE motor oil by the quart at any Pan-Am station; or in the handy five- and one-gallon tins shown here.

MOTOR OIL QUALITY
starts underground

CAREFUL refining is important, of course. But no motor oil can be tougher or longer-wearing than the crude petroleum from which it is refined.

That is why only pure paraffin-base crudes are used in making Pan-Am Motor Oil. For nature has given this kind of petroleum exceptional qualities. It produces a motor oil that no other type can equal in safety and long wear.

The qualities of Pan-Am are similar in all respects to those set up by the leading automotive engineers as the ideal lubricant for modern motors.

Fill up, today, at the first Pan-Am station you see. Every dealer has a scientifically prepared chart showing just the right grade of Pan-Am Motor Oil to protect *your* car.

The Pan-Am sign says "You can trade with confidence here." It is only issued to dealers of proved reliability.

Pan American Petroleum Corporation

Also distributors of KIP *insecticide,* SEMDAC *auto polish and* SUPERLA *candles*

A Proclamation

BY THE GOVERNOR

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out; and

Whereas, notice of such election, together with the proposed Amendment, is required by law to be given by proclamation of the Governor;

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice direct and proclaim that on Tuesday, the 6th day of November, 1928, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

"The following municipal corporations, to-wit: Winfield, Marion, Bay Minette, Robertsdale, Foley, Prattville, York, Jackson, Collinsville, Ft. Payne, Luverne, Brantley, Glenwood, Red Bay, Tarrant City, Dadeville, Thomasville, Northport, Hartselle, Haleyville, Talladega, Daphne, Oneonta, Cullman, Leeds, Eutaw, Guin, Sylacauga, Millport and Sulligent, Ozark, Ariton, Midland City and Demopolis, through their respective constituted governing authorities, may levy and collect a rate of taxation in any one year on the property situated therein, not exceeding one per centum of the value of such property as assessed for State taxation during the preceding year; provided that the adoption of this amendment shall in no wise affect, limit, modify, abridge, or impair the power, authority or right of any of said municipal corporations to levy and collect special school taxes, now or hereafter vested in or conferred upon them under the Constitution or any amendment thereto, which said special school taxes shall be in excess of said one per centum herein provided for."

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

BIBB GRAVES,
Governor.

JNO. BRANDON,
Secretary of State.

Plans making for special excursion over Mobile & Ohio Railroad this year to the National Dairy Show at Memphis, Tenn. ,October 13-20.

A Proclamation

BY THE GOVERNOR

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out; and

Whereas, notice of such election, together with the proposed Amendment, is required by law to be given by proclamation of the Governor;

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice direct and proclaim that on Tuesday, the 6th day of November, 1928, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

Article , Section 1: The Legislature may form or provide for the formation of drainage districts, for establishing and maintaining drainage systems; and provide for the assessment of the whole or part of the cost of such improvements against the lands and property in such district to the extent of the increased value thereof by reason of special benefits derived from such improvements and may provide for the issuance of bonds for such districts with or without an election.

Section 2: This amendment shall be retroactive and retrospective and shall operate to ratify, confirm and validate the Act of the Legislature of Alabama, which Act provided for the drainage of farm, wet, swamp and overflow lands in the State of Alabama and authorized the organization of drainage districts, conferred the right of eminent domain to the extent necessary to carry out the purpose of said Act, and provided for the raising of revenue by bond issues or otherwise to pay the cost and expense of maintaining drainage systems so as to promote the public health and general welfare and, which act was approved March 4, 1915; and this amendment shall operate to confirm and validate all corporate organizations under authority of such law, all procedure had, all acts done, all bonds issued, all contracts entered into and assessments made by such corporations under authority of such law.

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

CHEVROLET MOTOR CO. DELIVERS 10,000 CARS IN 9 MONTHS

Detroit, Mich., Oct. 8.—Keeping pace with the most insistent demand in its history, the Chevrolet Motor Company has delivered moe than one million cars into the hands of owners since the introduction of the popular "Bigger and Better" model last January first, it was announced at the company offices here today.

This sensational achievement of delivering one million cars in nine months is without a parallel in the history of the manufacture of gear-shift cars and is seen as a tribute to the manufacturing ability and far-sightedness of the company. It is regarded here as a further indication of Chevrolet's leadership as the world's largest automobile producer.

How Chevrolet marched to this height of popular acclaim may be noted in the fact that within ninety days after the introduction of the newcar more than a quarter million new Chevrolets were on the highways in the service of their owners. Two months later, or on June first, a half million cars were in use from Maine to California. Another two months saw 750,000 Chevrolets providing dependable transportation in every city, town and hamlet in the Union. And then came October when the full million mark was achieved.

In order to accomodate the demand, new plants and additions to present on s were made necessary in the many cities across the country where Chevrolet now maintains manufacturing or assembly operations. Foremost among these was the opening in the Spring of a mammoth assembly plant in Atlanta now the largest automobile establishment in the South.

Despite new plants and factory additions, Chevrolet has been working on a night and day basis since the first of the year, in an effort to keep pace with orders. More than 40,000 men, the greatest number ever on the Chevrolet payroll, were employed to assist in the production of the million "Bigger and Better" models now on the road.

FORESTY USES AIRPLANES SAYS COM. OF FORESTRY

Montgomery, Ala., Oct. 8.—Timber growing has use for air transportation just ts have agriculture and the other basic systems of production, says the Alabama Commission of Forestry. This is not only in connection with the genera uses that apply alike to all large undertakings but also involves specific operations that can be carried on better from the air than in any other way.

For a number of years the airplane has been used for locating timber areas and for mapping purposes. Aerial photography has been developed to a high dgree of efficiency and has contributed a great deal to the detailed knowledge of large timbered regions. During times of high fire hazard, air patrol has been used effectively in locating new fires and determining the progress of those already started. In carrying messages and in transporting emergency tools and supplies to woods workers in remote sections the airplane is developing still further usefulness. In the more populated communities the airplane is well adapted for certain kinds of educational work in connection with extending general infromation on forestry.

DR. J. S. THOMAS ACTIVE IN LOCATING NEW INDUSTRIES IN ALABAMA

For many years Dr. J. S. Thomas has been the head of the Extension Division of the Research Bureau of the University of Alabama

The work Dr. Thomas had been doing for Alabama Power Company, in addition to his duties as head of the University's extension department, consisted of making surveys of the economic conditions of the state with the view of interesting the citizens of the agricultural counties in bringing manufacturing plants to absorb surplus labor and consume farm products. One of the chief purposes of the survey was to bring about a balance between agriculture and industry in the poorer counties. This result was sought through educational work carried on by this department of the University under the supervision of Dr. Thomas and his staff and through the dissemination of facts and public addresses on this subject.

The extension bureau, with Dr. Thomas as its head, was only one of many agencies through which, and with which this company has worked consistently and aggressively to bring new enterprises into Alabama and thereby better the economic conditions of its citizenship. For several years, we have spent substantial sums in national advertising to tell the north and east of the advantages of Alabama. We have maintained a New Industries Division, with representatives in eastern centers who are constantly interesting executives of other industries in Alabama. We have given advice and the assistance of our staff in the financing plans of many enterprises. Dr. Thomas's work has consisted of co-ordinating the civic and other agencies through Alabama which share the interest of this company in the development of our resources.

It cannot be denied that every industry established in Alabama contributes to its welfare and prosperity. It brings work to the laborer, a market to the farmer and an opportunity to the investor.

If any one cause can be given for the recent location of textile mills in twelve sall communities in this state, involving an investment of over six million dollars and employing three thousand people in the immediate vicinity, this cause can be laid on Dr. Thomas, who in his very strong and impressive way succeeded in stirring the residents of the State to take advantage of the industrial opportunities lying before them.

During the period of this research Dr. Thomas received his compensation for the Extension Bureau of the University, to which our company has contributed $6,466.92. This is a very small part of the total of $111,173.96 which we have contributed during the period from 1924 to 1928 to various educational activities. Of this amount, $28,243.24 was given to maintain scholarships of boys and girls who were financially unable to secure their own education; $43,963.80 in cash and electrical equipment has been applied to the endowment funds of the University of Alabama, Alabama Polytechnic Institute, Alabama College for Women, Alabama School of Trades and Industries, Howard College and Birmingham Southern College; $38,966.92 has been contributed to the University of Alabama and Alabama Polytechnic Institute for research work and rural electrification experiments.

Any citizen who has had the privilege of hearing Dr. Thomas's constructive discussions before civic bodies, can refute the absurd charge that his activities have been in the interest of "utility propaganda." Regardless of how much, or out of what contributions, he was paid, it will be noted that the text of his discussions was: "The Relation of Industry to Agriculture," and that his speeches dealt with the economic benefits which would accrue to our people by industrializing our agricultural localities and thus increasing the consumption of the products of Alabama farms.

Dr. Thomas's efforts along these constructive lines conflicted in no way with his duties as a member of the Extension Deartment of the University of Alabama. In fact, it was the result of his investigations in the course of his extension work for the University of Alabama, which gave him a keen insight into Alabama's economic needs—an insight which made his voice one of authority, speaking with a sympathetic understanding of our people and their needs.

The productiveness of Dr. Thomas' efforts in behalf of Alabama's progress and prosperity prompted the Alabama Industrial Board, recently created by the State Legislature, to tender Dr. Thomas a responsible position with the Board, a position he is now occupying without conflict with his duties as head of the University's extension department.

The company intends to continue its efforts in behalf of Alabama's industrial and agricultural advancement and shall employ every legitimate and honorable means at its command to increase payrolls, establish home markets for farm products and give employment to our surplus labor. In this effort, it earnestly solicits the sympathetic cooperation of every patriotic citizen.

—Thomas W. Martin.

MISS LURLEEN MINOR LEAVES FOR NORTHWEST ALABAMA

Miss Lurleen Minor, daughter of Mr and Mrs. A N Minor, and one of the popular members of the younger set of Clanton, left last Sunday for Marion County, Alabama, where she will accept a position as a member of the faculty of the Byrd Junior High School

Miss Minor was accompanied as far as Birmingham by her father, Mr A N Minor, Miss Pat Murphy, Miss Pearl Minor and Miss Frances Moore.

HUNDRED BILLION FAGS

Of all "movements" for supposed uplift which have utterly failed, the anti-cigarette crusade of a few years ago was perhaps the most conspicuous example. At present the only organization against cigarettes listed in the World Almanac is the Anti-Cigarette League of New York.

At the beginning of the present century cigarette smokers were comparatively rare and persons who used tobacco in this form were not generally held in very high esteem. But the popularity of the "fag" or "coffin-nail", as the cigarette was sometimes called, grew rapidly from that time on so that by 1915 more than 16 billion cigarettes were consumed in the United States yearly. The war appears to have given an impetus to cigarette smoking, and by 1920 the number used in a year had risen to more than 50 billion. Since that time the increase in consumption has been amazing, the number of cigarettes smoked during the fiscal year of 1928 being more than 100 billion.

Strange to say, the decrease in cigar smoking was not very marked during the years in which cigarettes showed a great increase. Eight billion cigars were consumed in 1915 and in 1927 the number was more than seven billion. In 1915 the amount of smoking and chewing tobacco used was slightly over 400 million pounds, while in 1927 it was 361 million pounds.

Argument over the effects to be laid upon the human system has raged all these years, one side contending that it was seriously harmful, the other that its supposed injurious effects have been grossly exaggerated. Both sides disagree about it and the American people do not appear to take warning against cigarettes very seriously. Anyway they are smoking more than 100 billion of them every year.

CHICKEN HATCHERIES NOT AN INFANT INDUSTRY

Dayton, Ohio, Oct. 8.—Farmers and poultrymen who hold the belief that when the baby chicks from a modern hatchery they are patronizing an infant industry are due for a surprise. King Tut, so ancient records show, must have dined regularly on broilers raised from hatchery chicks, for incubators have been used for production of chicks by the Egyptians and Chinese from time immemorial.

The hatchery business, far from being of modern enterprise, was old when Columbus first landed in America. It has behind it the tradition of ages, and is probably the first farm industry to adopt economical mass production methods—long before modern industrial leaders "discovered" this means of reducing production costs.

The hatching and selling of baby chicks as a business enterprise has existed more than 2000 years in Egypt and China, ancient records show, while fifty years ago, when hatcheries were unknown in this country, there were at least 150 hatcheries in Egypt, each with a capacity of about 300,000 eggs a year. Thirty-four years ago the first shipment of chicks was made in this country, inaugurating what was to grow to one of agriculture's largest industries.

Although the hatcheries of the country have several organizations, and do millions of dollars worth of business each year, it was not until recently the some of the more progressive hatcherymen banded together to promote the sale of chicks on a purely business basis, with quality of product, and excellence of service to customers as their basic ideal. These hatcheries, operating under the slogan, "Hatchery Chicks For Greater Profits," are scattered from coast to coast. They come nearest to the ideal of the ancient Egyptian hatcheries, whose operators for generations handed their business down from father to son, to carry out the traditions of service when is a part of their industry.

AN ORDINANCE

To authorize and provide for the issuance of bonds of the Town of Clanton Alabama, in the sum of Eight Thousand Dollars, for the purpose of acquiring, providing or constructing school houses in the Town of Clanton, Alabama.

Whereas, under and pursuant to an ordinance adopted by the Town Council of the Town of Clanton, Alabama, on the 12th day of April, 1926, entitled "An Ordinance to order and provide for an election to be held in the Town of Clanton, Alabama on the 15th day of May, 1926, for the purpose of having the qualified voters of the said Town of Clanton, Alabama vote upon and decide the question as to whether or not the additional bonds of the said Town of Clanton, Alabama, shall be issued in the sum of $8,000.00, for the purpose of acquiring, providing or constructing school houses of the said Town of Clanton, Alabama, which said ordinance approved on the 12th day of April, 1926, and under and pursuant to said Ordinance and the law of Alabama, the election was held on the 15th day of May, 1926, in the said Town of Clanton, Alabama, at the various voting places in the various wards of the Town of Clanton, Alabama, for the purpose of the qualified electors of the said Town of Clanton, Alabama, voting upon and deciding the question as to whether or not the bonds of the said Town of Clanton, Alabama, should be issued in the sum of Twenty Thousand Dollars, for the purpose of acquiring, providing or constructing school houses in the said Town of Clanton, Alabama; and

Whereas, the voters at such election decided in favor of such bond issue, a majority of all legal votes cast at the said election having been, "FOR $20,000.000 for the purpose of acquiring, providing, or constructing school houses in the said Town of Clanton, Alabama, bond issue." Now, therefore,

Be it ordained by the Town Council of the Town of Clanton, Alabama, as follows:

SECTION ONE

That the Mayor of the Town of Clanton, Alabama, be, and he is hereby authorized and instructed to have ingraved or lithographed as many as Eight (8) coupon bonds of the Town of Clanton, Alabama, each of which of the said bonds shall be in the denomination of One Thousand Dollars, and shall have theerto attached Sixteen (16) coupons of the denomination of Thirty Dollars each; each of said bonds shall be dated Nov. 1, 1928, and payable Nov. 1, 1948, and shall bear interest at the rate of six per cent per annum, and the said interest to be paid semi-annually on the first days of June and Decemeber of each year, from the date of issue to maturity, each of said semi-annually interest installments being evidenced by one of the forty coupons attached to the said bonds, and both the bonds and coupons thereto attached shall be issued in the form of Negotiable Paper, payable to the bearer in go'd, at the Office of the HANOVER NATIONAL BANK, in the City and State of New York.

Said bonds shall be signed by the Mayor of the Town of Clanton, Alabama, and countersigned by the Treasurer of the Town of Clanton, Alabama, and the official corporate seal of the said Town shall be impressed upon the same. The coupons attached to the said bonds shall also be signed by the Mayor and countersigned by the Treasurer of the said Town of Clanton, Alabama, but if the signatures of the Mayor and Treasurer shall be lithographed in fac-simile on said coupons, such lithographic shall be deemed and held to have the same force and effect as original signatures.

SECTION TWO

That said bonds and coupons shall be in substantially the following form, to-wit:

No..... $1,000.00

UNITED STATES OF AMERICA
State of Alabama — Chilton County.
TOWN OF CLANTON
PUBLIC SCHOOL BOND

KNOW ALL MEN BY THESE PRESENTS: That the Town of Clanton, Alabama, a municipal corporation, created and organized under the Laws of the State of Alabama, acknowledges itself indebted and promises to pay to the bearer thereof the sum of One Thousand Dollars ($1,-000.00) in gold coin, of the United States of America, of the present standard of weight and fineness to be paid at the Office of the HANOVER NATIONAL BANK, in the City and State of New York, on the First day of Nov. 1, 1948, under the surrender thereto, with interest at the rate of six per cent per annum, payalbe semi-annually in like gold coin at the Office of the HANOVER NATIONAL BANK, in New York City and State of New York, on the First days of June and December of each year, on the surrender of the coupons hereto attached.

This bond is issued under and by virtue of an Act of the Legislature of Alabama, entitled "An Act to authorize the holding of elections by municipal corporations in the State of Alabama, for the purpose of obtaining authority to issue bonds for public purposes herein defined, and to provide for holding such elections, and Laws of the State of Alabama, and ordinances of the Town of Clanton, Ala-

Mobile has wonderful harbor facilities with $10,000.000 state docks completed and should become one of ranking ports of the country.

IT DRIVES OUT WORMS

The surest sign of worms in children is paleness, lack of interest in play, fretfulness, variable appetite, picking at the nose and sudden starting in sleep. When these symptoms appear it is time to give White's Cream Vermifuge. A few doses drives out the worms and puts the little one on the road to health again. White's Cream Vermifuge has a record of fifty years of successful use. Price35c. Sold by

(Continued from page 1)

DECARING the result thereof, and to authorize the issuing of such bonds." approved August 26, 1909, as amended by an Act approved February 20, 1915, and by an Act approved September 26, 1919, and of ordinance of the Town Council of Clanton, Alabama, duly passed and approved; and the issue hereof has been duly authorized by a majority of the qualified electors in the said Town of Clatnon, voting at an election duly called and held for the purpose. By the provisions of said Law, this bond and the interest Coupons thereto attached are exempt from State, County, and municipal taxation.

And it is hereby certified that the issue of this bond is made in strict conformity with the Constitution and bama, authorizing the same, and that all proceedings and things essential to the validity of this bond has duly happened and been performed, and that all requirements of the Constitution, Laws and Ordinances have been duly complied with by the proper officers in the issuance of this bnod, and that this bond is within every debt and other limit prescribed by the Constitution or Laws of the State of Alabama.

IN TESTIMONY WHEREOF, The said Town of Clanton, Alabama, has caused this bond to be signed by the Mayor and countersigned by the Treasurer of the said Town, and its official corporate seal is to be hereto affixed, and the coupons hereto attached to bear the engraved or lithographed signatures of said Mayor and Treasurer, on this the 1st. day of Nov. 1928.

INTEREST COUPON

No..... $30.00.

The Town of Clanton, Alabama will pay to the bearer Thirty Dollars in Gold, on the ..... day of ..... 19....., at the office of the HANOVER NATIONAL BANK, in the City and State of New York, being semi-annual interest on public school bond No. ..... for One Thousand Dollars, dated Nov. 1st, 1928.

Mayor.

Countersigned:

Treasurer.

SECTION THREE

That it shall be the duty of the Town Clerk of the Town of Clanton, Alabama, to record in a well bound book to be kept in his or her Office, the numbers, date and amount of issue of every bond issue under the terms of this Ordinance, and the name of the person to whom issued, and the number of coupons thereto attached at the time of such issue.

SECTION FOUR

That the money realized from the sale of the bonds herein provided for shall be and is hereby set apart as a separate fund for the purpose of acquiring, providing or constructing school houses of the Town of Clanton, Alabama.

Read and finally adopted on this the 8th day of October, 1928.

ERIC HART, Mayor.

Countersigned:
J. H. PLIER, Clerk.

..... Clerk.

$300,000 Annual Reduction In Revenue Proposed In New Rates

This is the first of a series of advertisements explaining the proposed new Domestic Electric Rates

IN ORDER that householders served by Alabama Power Company may be encouraged to use more electricity at a greatly reduced cost, the company has filed with Alabama Public Service Commission a new schedule of rates and has asked that these rates be approved.

That all consumers may have complete knowledge of how the new rates will operate and how they will benefit both small and large consumers, the company will explain through this newspaper the various phases of the proposal. This is the first of a series of advertisements prepared for this purpose.

The following is a complete reproduction of the company's proposed Service Classification as now on file in the Commission's office, and which would immediately reduce the Company's revenue $300,000 annually:

SERVICE CLASSIFICATION "A-1"
Residential Service
110, 120 Volts, Single Phase
AVAILABILITY

Available to any Consumer for domestic purposes when served over the retail distribution lines of the Company, except where another service classification has been approved by the Alabama Public Service Commission for such service.

DELIVERY VOLTAGE

The delivery voltage to the Consumer shall be determined by the voltage of the available local distribution lines of the Company, but the Company shall not be required to deliver service at a voltage of less than approximately 110 volts nor more than approximately 220 volts.

NET RATE

$1.00 for the first 5 KWH consumed per month; plus
4 cents per KWH for the next 45 KWH consumed per month; plus
3 cents per KWH for the next 150 KWH consumed per month: plus
2 cents per KWH for all over 200 KWH consumed per month.

The above charge for the first 5 KWH is applicable to residences of three rooms or less, and will be increased as follows:

15 cents per room for each of the next 7 rooms; plus
$1.00 per HP of connected motor and refrigerator load (minimum 1 HP); plus
$1.00 per KW in excess of 7 KW connected cooking and heating load.

DETERMINATION OF CONSUMER'S CAPACITY REQUIREMENTS

Residential lighting load, including lamp socket appliances not permanently connected and ranges and heaters not exceeding 7 KW of connected load, will not be counted in determining Consumer's capacity requirements. Where double throw switches are used, the maximum sum total of the Consumer's loads, which can be operated at one time, will determine the capacity to be charged for.

For the purpose of this Service Classification the number of rooms will be determined upon the customary real estate basis of rating. The tables following are illustrative of rooms to be counted, whether equipped for the use of electricity or not, and those not to be counted.

TO BE COUNTED

Ballroom	Living Room
Bedroom	Music Room
Billiard Room	Nursery
Conservatory	Observatory
Den	Office
Dining Room	Parlor
Drawing Room	Reception Room
Dressing Room	Reception Hall
Gymnasium	Servant's Room
Kitchen	Sewing Room
Kitchenette	Studio
Library	Sun Parlor

NOT TO BE COUNTED

Alcove	Laundry
Attic (unfinished)	Open Sleeping Porch
Bathroom	Pantry
Basement	Piazza
Breakfast Room	Porch
Butler's Pantry	Patio
Cellar	Reception Hall (120 Sq. Ft. or less)
Closet	Storage Room
Dressing Closet	Toilet
Garret (unfinished)	Unfinished Rooms
Hallways	

Each 100 watts in excess of the first 200 watts of connected load of yard, barn, garage, stable or other outhouse lighting will be counted as one room when no living quarters are included. Empty lamp sockets will be rated at 50 watts each. Where garage, barn or other outhouse is occupied as living quarters, rooms in the living quarters will be counted as a part of the residence and added to the residence count.

MINIMUM BILL

In consideration of the readiness of the Company to furnish such service, a monthly minimum charge equal to the total charge for the first 5 KWH will be made.

Service under this Classification is subject to rules and regulations approved or prescribed by the Alabama Public Service Commission.

Effective for service rendered between the November and December, 1928, meter readings and thereafter.

An early issue of this newspaper will contain the second of the series of detailed explanations. We earnestly hope every electric consumer will read the entire series and request any additional information desired.

Mr. Burt Higgins of Thorsby is spending several days here on business

Mrs. Guy Higgins and little daughter Louise, were visitors here Monday.

MODERN TRAFFIC MAKES A HEAVY DEMAND ON MOTOR OIL

Today's traffic conditions with the higher safe speeds, and frequent stops in congested areas put a heavier load on motor oil than ever before. The body or "viscosity" of the motor oil used by a car owner has a very important influence on the preservation of quite, smooth operation and the reduction of wear on engine parts. At the same time it is more than ever essential that the motor oil be pure and free from any tendency to form gums, tars and carbon which eventually will cause many internal troubles such as sticking valves, fould spark plugs and imperfect ring action.

The motorist who really cares for the best lubricating protection and the preservation of a fine car will give particular attention to the kind of motor oil he uses.

There are many different kinds of motor oils on the market, and there are many sold to the unwary motorist which are not at all suited to engine lubrication. It will pay the motorist well to satisfy himself that the oil he uses actually does stand up at engine temperatires and actually has the purity required to keep an engnie clean.

Such a motor oil as Texaco Gold en Motor Oil in the grade or "body" recommended by the service station attendant is ideal. This oil is sold everywhere throughout the country and it has the additional advantage of the clear golden color which immediately identifies it and gives visible assurance to the motorist, not only that he is getting Texaco but that the oil is pure.

The average speed of automobile travel between traffic signals and in the open country is higher today and the number of stops in city driving is higher. These conditions combined with the new engine designs tend to increase operating temperatures. These higher temperatures thin down an unsuitable oil to a dangerous degree. Not all so called "heavy" oil is actually heavy.

In order to standardize "body" the Society of Automotive Engineers has established what are called "viscosity grading" to which an oil should conform.

Texaco Golden Motor Oil is made to exact S. A. E. viscosities and every refinery run is carefully tested by experienced chemists before shipment to the filling station.

If the motorist is posted on body characteristics he will insist upon the right grade every time he stops for oil. The way an oil pours, whether quickly or slowly is one test he can make. Or he can make the bubble test. Take two bottles of the same shape and size. Fill one with the correct grade of Texaco Golden Motor Oil and the other with any oil suspected of being too light in body. Invert both at the same time and watch the rise of the bubbles in each. The more rapidly the bubbles rise the lower the viscosity of the oil.

Color has no bearing upon viscosity but it is a very vital quality as an indication of lubrication ability for it is a direct guide to the probable carbon residue contents of any oil. Texaco Golden Motor Oil for example shows but the very slightest fractional percentage of carbon residue. That is why Texaco lubricated engines are characteristic for clean, smooth action. It is distributed in this territory by Lane Service Station, Deatsville, Ala.; Triangle Garage, 6 miles South of Mt. Creek; Tourist Service Station, Calera, Ala.; Felix Eiland, Jemison, Ala.; Haynes Filling Station, South Calera; Miles Collins, 2 miles north of Calera; Gulledge Brothers, Verbena, Ala.; J. A. Duncan, Lomax, Ala.

A Proclamation

BY THE GOVERNOR

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out; and

Whereas, notice of such election, together with the proposed Amendment, is required by law to be given by proclamation of the Governor:

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice direct and proclaim that on Tuesday, the 6th day of November, 1923, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

Article XI. Section 216-A. In addition to the taxes which the City of Birmingham is authorized to levy and collect under the Constitution as heretofore amended, said city shall have the power and right to levy and collect in any year or years for any municipal purpose or purposes, any rate of tax, not in excess of one-half of one per centum, on property situated therein, based upon the valuation of such property as assessed for State taxation for the year next preceding the levy, which a majority of the qualified electors of such city voting at an election called and held as hereinafter prescribed, may authorize for such purpose or purposes. Said tax shall be used only for the purpose or purposes for which the same is authorized, levied and collected. Each election held under the provisions hereof shall be ordered, held, canvassed, and may be contested in the same manner as is or may be provided by law applicable to municipal corporations for elections to authorize the issuance of municipal bonds. The ballots used at such election shall contain the words. "For authorization of additional taxation at rate not to exceed _____ per cent for the year (or years) _____ for the purpose or purposes of _____" and "Against authorization of additional taxation at rate not to exceed _____ per cent for the year (or _____ years) _____ for the purpose or purposes for _____." The form of ballot proposed shall be printed upon the ballot in the space indicated therefor, and the year or years in which the proposed rate is to apply, and the purpose or purposes for which such tax is to be used, shall be likewise printed in the respective spaces indicated therefor. The voter shall record his choice either for or against authorization of the proposed rate for the proposed purpose or purposes by placing a cross mark before or after the words expressing his choice. Nothing herein contained shall in any wise change or effect the rights of any holders of bonds of said municipal corporation heretofore issued. Elections in said municipality to authorize the levy of such special tax may be held as often as ordered by the governing body thereof, but when a proposition is submitted to the electors of said municipality for authorization to levy a special tax for a specific purpose and such proposition is defeated, no second election for the same purpose shall be held in such municipality within one year thereafter. This section shall be self-operative without any additional legislation."

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1923, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

BIBB GRAVES,
Governor.

JNO. BRANDON,
Secretary of State.

Dr E. C Hyman was a visitor to Birmingham last wek-end. Dr. Hyman's family has been in Birmingham for some time where his two children, Euell and Tiny, are attending school.

Stenotype
"The Machine Way In Shorthand"

The fast, sure way of taking dictation—writes plain letters, averaging a word a stroke—it is easy to write — easy to read — easy to learn.

Here's What it Means to You:

It fits you for a class of work that is above lead pencil dictation and averaging pay.

It makes you faster, more accurate and enables you to take more dictation with less strain.

It gives you poise and confidence—a competent Stenotypist has no fear of the most rapid or technical dictation.

It takes all the guesswork out of transcribing your notes.

This new department, the most modern way for recording speech—the machine way—has just been added and we are proud to offer those interested an opportunity to learn. The opportunities at Wheeler are unlimited, as they are always up-to-date on any new methods offered students.

Enrollments are now being made, as classes begin October 15. Write for free information on STENOTYPY.

STATE CAPITOL NEWS

Bids, for fifteen toll bridges to be erected by the Alabama Bridge Corporation under authority of an act of the last Legislature will be opened on November 27, and on December 1 bids will be opened for bonds to cover the cost of construction. Plans for the fifteen big bridges are practically completed at the State Highway Department. The erection of these bridges will be a big forward step in the perfection of Alabama's public highway system, for no matter how good the roads are, without an adequate system of bridges over the large rivers of the State, highway transportation is at a serious handicap.

The establishment of the Alabama Bridge Corporation, composed of the State Highway Director, Judge Woolsey Finnell, Chairman of the State Tax Commission ,Henry S. Long, and Chairman of the State Board of Administration, Charles Moffett, was authorized by the 1927 Legislature in a bill of which Speaker J. Lee Long was the author. The corporation is authorized to issue bonds not to exceed $5,000,000. The bridges were located by the State Highway Department and will be built in accordance with its specifications. Tolls will be charged only in an amount and for a time sufficient to cover cost of construction and retire the bonds, after which the structures will be free public bridges. No one connected with the Alabama Bridge Corporation gets any salary for services, the State officials who compose the corporation handling the duties placed upon them without extra compensation.

Construction of these bridges will forestall the building of a system of privately owned bridges on the State highway system. Many of the fifteen bridges to be built by the bridge construction corporation would have been built by private capital, and their construction was already planned or construction was planned or contemplated. Great interest is being shown all over the United States in the erection of private toll bridges, as shown by the fact that some 200 permits for erection of toll bridges over navigable streams were granted by Congress at its last session. These toll bridge franchises are regarded as very valuable. The use of private capital in this way is naturally very profitable, where the State builds a highway to the river on either side and it is only necessary to fill in one gap in the system, by building the bridge, and by so doing get the benefit of all the traffic over the highway, built by the State. The establishment of the Alabama Bridge Corporation means that instead of a system of privately owned bridges and perpetual tolls for the traveling public on the State's highway system, the bridges will be built and tolls charged only for a sufficient time to pay for the bridges, without making a profit for anyone. Five of the bridges will be built over the Tombigbee River, three each over the Tennessee and the Coosa, two each over the Alabama and Black Warrior. Several other states have manifested interest in what Alabama has done to provide a bridge building program through the establishment of the Alabama Bridge Corporation, and a number of requests for information on its workings have been received.

Returns from the tax of 2 1-2 percent on gross interstate receipts of railroads yielded $548,417.65 in revenue to the State for the year 1927, according to information from the State Tax Commission. This tax is payable on October 1st., for business done during the preceding calendar year.

The 21-2 percent tax on gross receipts of railroads is one of the new revenue measures levied upon corporations by the last Legislature to provide for the increasing needs of education in the State. The tax applies to business done within the State of Alabama by all railroads whose gross annual income exceeds $300,000. All the revenue derived from this source goes into the education trust fund. The Louisville and Nashville Railroad was the largest taxpayer among the railroads on this 2 1-2 percent tax, $267,508.04 being paid by the L. & N.

The franchise tax levied upon all corporations doing business in Alabama showed an increase of approximatly 80 percent for the fiscal year just closed, over the preceding year. For the fiscal year ending September 30, 1928, franchise tax collectionc totalled $1,729,043.54, as compared with $987,612.98 for the preceding fiscal year. One tenth of this tax is paid to the counties on the basis of the amount of taxable property of the corporations doing business therein. Domestic corporations paying the tax during the period January 1 to October 1, 1928 numbered 5,008, as compared with 4,881 the year before, while for foreign corporations the figure was 1,367 as compared with 1,170 for the preceding year. Domestic corporations are required to pay at the rate of $2 per $1,000 of capital stock, and foreign corporations at the rate of $2 per $1,000 of capital actually employed in Alabama.

The sensational escape of Roy Dickerson, noted bank robber, from Kilby Prison, which was effected Tuesday night, Oct. 2, temporary suppplanted politics as a topic of discussion in the capital city. Dickerson, who is a Montgomery product, was serving a 25 year sentence for robbery of the Phenix-Girard Bank in 1920. He is not a criminal of the "killer" type, but as an escape artist he has established a record which bids fair to win him a place in history comparable with that of Rube Burroughs, Jesse James and other semi-legendary characters of past days. Dickerson's reputation is such that wagers have at times been offered and taken as to how long he would remain behind prison bars. In his latest escape, the noted convict was ably assisted from the outside by friends who overpowered a guard and brought a rope ladder into play to scale the formidable walls surrounding Kilby Prison. The guard has since been fired. Although Dickerson's pronounced aversion to prison life has caused him to be the recipient of especial attention while an inmate of the prison, it is evident that no mans has yet been devised which can assure his rentention. Two other convicts made their get-away along with him.

Alabama's biennial school census, tabulation of which has just been completed, shows that there are 824,634 children between the ages of 7 and 20 in the State. This figure represents an increase of 13,923 over the last census, in 1926. Virtually all the gain was in number of white children.

INSPECTION REVEAL FIRE HAZARDS

A warning in time is worth heeding. To some people there is "handwriting on the wall" in the warning in the report of fire hazards rendered by the Fire Prevention Bureau of a large midwestern city.

For the month of June, the Bureau made 4,401 inspections, finding fire hazrrds to the number of 1,365. Predominating in this tota were bad heating units and rubbish, divided as follows:

[illegible]	387
Furnace, stoves and hot plates	88
Heating Appliances	6
Stoves and smokepipes	29
Total heating units bad	480

Accumulations of straw, trash, rubbish and waste paper constituted fire hazards to the number of 545.

Since these two classifications contained the greatest number of fire hazards, it is very probable that they caused the majority of fires suffered by the city in the past, acording to The National Board of Fire Underwriters. It is also likely that a similar state of affairs exists in most communities.

Let all take heed, therefore, and correct such conditions. Rubbish, the largest item, requires attention continually; it should not be allowed to accumulate at any time or any place. This month, particularly, heating units should be inspected and unsafe conditions corrected. Soon cold weather will require the use of these units and if the warning is not heeded there will be many destructive fires.

Mobile—Plans making for extending paving on Cedar Point road to Cedar Point.

A Proclamation

BY THE GOVERNOR

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out; and

Whereas, notice of such election, together with the proposed Amendment, is required by law to be given by proclamation of the Governor;

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice and proclaim that on Tuesday, the 6th day of November, 1928, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

"The Legislature of Alabama may hereafter, from time to time by general or local laws, fix, regulate and alter the costs, charges of courts, fees, commissions, allowances to be charged or received by any County Officer of Mobile County, Alabama, including the sheriff, the judge of probate, tax assessor, tax collector, clerk of the Circuit Court, and registrar of the Circut and Chancery Courts, and the method and basis of their compensation."

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

BIBB GRAVES,
Governor.

JNO. BRANDON,
Secretary of State.

Mobile—Ballasting has been practically completed along all the main tracks of the state docks-terminal railway system here.

NOTICE

State of Alabama—Chilton County.

Notice is hereby given that the undersigned mortgagee will sell at public outcery to the highest bidder for cash during the legal hours of sale on Thursday, November 15th, 1928, in front of the courthouse door in the City of Clanton, State of Alabama, the following described real property, situated in Chilton County, Alabama, to-wit:

The East Half of the Northeast Quarter of Section 23, the West Half of the northwest Quarter of Section 24, the Southeast Quarter of the Northwest Quarter of Section 24; the Northwest Quarter of the Southwest Quarter of Section 24; the Southwest Quarter of the Northeast Quarter, less eight acres on the southside, Section 24; Sixteen acres in the Northwest corner of the Northeast Quarter of the Southwest Quarter of Section 24; all of the above described lands being in Township 24, Range 13, East.

Said sale is to be had under and by virtue of the power of sale contained in a certain mortgage given to Mrs. W. L. Wilson by Mrs. T. E. Sims and husband, Thos. E. Sims, and Itara Cobb, an unmarried woman, on to-wit the 30th day of June, 1927, and recorded in the office of the Judge of Probate Court of Chilton County, in Volume 218, Record of Deeds page 484, said mortgage having been given to secure the payment of a certain indebtedness mentioned therein, and said mortgagors being in default in the payment of said indebtedness.

The proceeds of said sale will be distributed in accordance with the provisions of said mortgage relating thereto.

MRS W. L. WILSON, as mortgagee

(Paid Pol. Adv. by W. M. Polk, Chairman Dem. Cam. Com., Clanton)

A. B. BAXLEY REPUBLICAN NOMINEE FOR CONGRESS

Mr. A. B. Baxley of Calera, Ala., the Nominee for Representative in Congress on the Republican ticket, was in Clanton last week in conference with local Republican officials in the interest of his candidacy. He stated to a representative of the News, that he felt he had good chances of going to Congress, and based his hopes on the grounds that he understood that some Democrats were not going to vote for Governor Smith, and that some would actually vote for Hoover for President, and that he would also benefit from this voting.

It will also be recalled that Mr. Baxley was at one time located in Chilton County and it is said that he assisted in organizing the Canning Factory, and that the Canning Factory never did function with any degree of efficiency and finally ceased operations, but not until many farmers and business men of the county had paid it good sums of money, and then after its ceasing of operation, many of those who purchased stock were sued for the unpaid subscriptions, and, that no dividend was ever paid to any of the stockholders.

Whether Mr.Baxley, if he should be elected wou'd be as successful with the matters of Congress, as he was with his undertaking in operating the Canning Factory, remains yet to be seen.

In looking over the nominees of the Republican party of the State, county and district, it appears that the place sought by Mr. Baxley, is one of the most important office to be elected this year. Whether Mr. Baxley will speak here in Chilton County, along with the local republican candidates, is a matter of surmise and conjecture, however, as the place he is nominated for is of so much importance and carrying with it so much weight and requiring so much ability it may be that Mr. Baxley will speak at the most important centers of the county, perhaps Clanton, Verbena, Thorsby, Jemison and Maplesville.

FRED CALLOWAY

THE WORLD'S BEST COAL

SAVE MONEY

by using the

World's Best Coal

ORIGINAL GENUINE MONTEVALLO

If Scotland could get this coal—none other could be sold there! Anyone who knows the facts on Original Genuine Montevallo Coal knows that this is one *sure* way to fuel economy.

When you shudder at the alarming rate ordinary coal disappears into the mouth of your furnace or heater or grate—then you're ready to listen to the story of Original Genuine Montevallo economy.

Even with ordinary coal, some grades last longer than others—but no ordinary coal gives so much heat or lasts as long as Original Genuine Montevallo.

You can save those dollars now escaping in large coal bills—by using Original Genuine Montevallo. Save 25% on your fuel bill this winter. Have your home better heated at far less expense. Avoid the clinker and ash nuisance, too—Original Genuine Montevallo does not clinker or coke. It is free from impurities and leaves just a few fluffy red ashes.

First in the South for seventy-two years—and still growing in popularity! That speaks *volumes* for the quality and economy of Original Genuine Montevallo.

Available in three sizes. Tell your authorized dealer below whether you want to burn it in furnace, heater or grate. He'll send you the size best suited—most economical for your purpose.

Now is the time to place your order. Don't delay any longer. Prices go up as Winter comes on. Add the savings on present low prices to your other Original Genuine Montevallo savings.

TELEPHONE MEETING AT COURTHOUSE SATURDAY

Everybody who is interested in the Peoples Telephone system is urged to attend a meeting at the courthouse at 10 o'clock next Saturday. All phone holders are especially urged to be present.—W. W. Fox.

THORSBY, ALA.

The Baptist Sunday School was well attended Sunday, 112 students present and four visitors. We gladly welcome all who come.

Mrs. Ludie Lenoir of Clanton, spent the week end with her sister, Mrs. B. L. Davenport.

Mr. and Mrs. McNeil of Montgomery spent Sunday afternoon with their aunt, Mrs. G. F. Harper.

The Singing Society met at the Baptist Church Sunday afternoon and the following officers were elected: Mr. Emmett Billingsley, president; Mr. Marcelle Wilder, vice-president; and Juanita Connatser, secretary. They will meet every first Sunday and all are invited.

Miss Mae Wood who has been visiting Mrs. Ed. R. Piper was called to her home in Blocton, on account of illness.

Mr. and Mrs. Geo. Grant and baby arrived in Thorsby last Friday from Cleveland, Ohio. Mr. Grant is a brother of Mrs. E. L. Fike and is a product of the Cleveland Indians, he is a pitcher and did some mighty good work during the season. They will spend the winter with Mr. Grant's parents, Mr. and Mrs. J. H. Grant at Marbury.

Miss Mary Sue Robinson spent the week end in Birmingh m.

Mr. and Mrs. Ralph Parker of Birmingham were guests of Mr. and Mrs E. N. Bentley the past week end.

Mrs T. W. Robinson made a business trip to Birmingham last week end.

Mr. and Mrs. E. L. Pate, and Mr. and Mrs R. R Franklin motored to Montgomery Sunday, returning via Wetumpka Sunday evening.

Miss Mamie Sue Stewart, a former teacher in the Thorsby Public school, but now teaching in Enterprise, was the guest of Misses Ruth and Jewel Martin during the week end. Miss Stewart has many friends here who are glad to see her back.

Rev. J. H. Roberts, who lately resigned the pastorate of Thorsby Baptist Church, and is now a resident of Blue Springs, Miss., was in town for awhile Monday.

Mr. Leckie, our new bank cashier, has been off duty for several days with an infected hand.

Mr. Willie Scott of Montgomery visited his mother, Mrs. R. W. Scott, Sunday. Mrs. Scott has been sick for some time and we are glad to learn that she is improving and hope to see her out again soon.

Mr. and Mrs. Bennie Price stopped in Thorsby awhile Sunday with friends and relatives. Mr. Price was on his way to Montgomery where he goes as manager of the Fuller Brush Company.

Mr. and Mrs. E. N. Bentley made a business trip to Birmingham last Wednesday.

Mr Earl Leary attended the ball game in Birmingham last Wednesday.

Mr. W. H. Wilson made a business trip to Birmingham last Thursday.

Mrs. Martha B. Goddard and Mrs. Cora Smith, accompanied Mrs. Maud Diefenderfer to Montgomery Tuesday.

Mr. Theron South of Birmingham visited friends in Thorsby Sunday.

Mr. and Mrs. Chas. A Peterson spent the week end with their children in Birmingham.

Mr. Arnie Barnett has moved his family to Thorsby and is working at the Planing Mill.

Mr Luther Davenport has moved in the building formerly occupied by the Bice Cafe where he expects to open up a cafe. Luther is a hustler and we predict for him a bright future.

Buy oil by name
—TEXACO
Watch the color
—GOLDEN

The first thousand miles

This year . . . your choice of motor oils is second only in importance to your choice of cars.

For engines of 1928 are faster . . . they "turn over" more times in a given second. They run hotter . . . more explosions . . . higher compressions. Only a motor oil with full viscous body can "stand up" under this high-speed heat; only a motor oil as fine as golden Texaco can give your new engine the thorough lubrication it must have at all times . . . under all circumstances.

More than ever this year, the first 1,000 miles . . . and the oil you use . . . will determine your engine's performance during each of the thousands of miles to come.

From the first mile on, use Texaco Motor Oil. Free of tars, of paraffin wax and cylinder stock, Texaco flows in coldest winter . . . lubricates thoroughly and dependably at all temperatures.

Wherever you see the Red Star and Green T, ask to see the Texaco Lubrication Chart. It will specify the grade of Texaco Golden Motor Oil authorized for your new engine.

The Texas Company, 17 Battery Place, New York City
Texaco Petroleum Products

TEXACO
GOLDEN
MOTOR OIL

ATOMIZED VAPORIZED

Not WET . . . . But DRY

A wet gas is an atomized mixture of gasoline vapor with liquid drops of raw gasoline. These drops, separating at every manifold bend, result in uneven distribution and flooded cylinders.

Add gas, the *new* and *better* Texaco, vaporizes completely. It forms a dry gas—a perfect mixture of gasoline vapor and air, which provides an even flow of fuel and power to every cylinder.

You buy the LIQUID but you use the VAPOR

Faster . . Faster . . We Drive

Changed Motoring Conditions Demand a New Gasoline

60 . . . 70 . . . perhaps more miles per hour—mastery of the highest hills in high gear—quick-action power—all of this you and thousands of others demand when you buy a car. You may never use this excess power, yet you want it.

Faster and faster—each year a little faster—you drive over increasing miles of improved roads. Faster and faster moves the traffic of cities.

The *new* and *better* Texaco is an answer to these changed and changing conditions. In the tank, the *new* and *better* Texaco is a pure, non-doctored liquid; at the spark, a vapor that is so free of moisture that it can be truly described as *dry*. It is this dryness—this ability to form a dry gas—which, in your engine, results in increased power and responsiveness throughout its entire driving range.

Anywhere—wherever you see the Red Star and Green T, drive in for the *new* and *better* Texaco—the gasoline that forms a dry gas.

News Items of Interest From Chilton County High School

School Begins Full Of Pep

School begins full of pep this week. The weather is very promising and naturally it makes everyone work well. We hope to keep things running like they have started. We also hope that few disturbances come over our way than three has been in the past few weeks.

Mr. Lawrence and the County Board have been kind enough to furnish sufficient equipment so that the school is able to care for sixteen pupils from Lock 12. The school welcomes them and wishes them a successful year.

It is the duty of Dick Kemp, the president of the Senior Class, to appoint a news reporter. This work has been done by Feryl Martin up until this week and now Gertie Fiquette is in charge until another reporter is appointed. We hope in this way to let the people of Chilton County know what is going on in the school each week. So watch both of our local papers.

Physical Education Program

Miss Jessie Garrison, of the State Department of Education visited the school Thursday with a splendid program for Physical Educational Training. Miss Garrison explained a point system for girls. In this system the pupil must conform to certain rules for health to gain so many points.

Physical Ed. Training has heretofore been given the ones who need it least. The program as now arranged by the State Department of Education plans to provide Physical training for all. At the regular recess period on Tuesday and Thursday, twenty minutes will be given to exercises. We hope to perfect some exercises and movements so as to be able to give an exhibition later on.

We may add that Miss Garrison put new pep in us all with her splendid talk and cheerful personality. When she visits here again every boy, and girl will be participating in some form of physical exercise.

More About the Annual

Mr. Griswold of the Roberts Printing Company of Birmingham, and Mr. Price of the Paragon Printing Company of Montgomery were at the school last week with propositions concerning our Annual. Three printing concerns of Alabama have made propositions, all very good. It is the duty of the Staff to decide which is the best contract with them and then begin work really in earnest.

P. T. A.

The P. T. A. of Chilton County High School has begun with a most promising future. Forty-one paid members have already enrolled for the new year and more are expected. The Association shows great interest in their work and will be a great help to the school this year.

New Teacher

Mr. Warr and the faculty have found that a new teacher is needed to conform with State regulations and also to keep us on the Southern Association. At present the school has a very high standard and by having a new teacher come in it will be raised. Our principal's wife, Mrs. Warr, is acting as teacher until the other arrives. We are glad that we have such a splendid teacher to call on in an emergency case, such as Mrs. Warr

Senior Class Entertains

The Senior Class entertained the football team of the High School Friday night, after the game with Isabella that afternoon.

Miss Gertie Fiquette acted as hostess to about forty girls and boys. Several of the teachers were also present. Games were played until a late hour when the hostess was assisted by Vivian Sanders, Myra Johnson and Feryl Martin, in serving delicious refreshments.

Personals

Mr. Knox, a teacher at C. C. H. S. attended the Alabama-Mississippi game at the University during the past week

Miss Bernice Williams, a member of the High School faculty, spent the week end in Montgomery.

Miss Nell Wells, a member of the faculty spent the week end in Birmingham.

Miss Sara Head who is the physical education teacher at the Chilton County High School, spent the week end in Montevallo with her parents.

Mr. Gaston Robinson a former student of C. C. H. S., who is nowattending Marion Institute, was a visitor to the school Friday.

The English Department of the High School has decided to give credit to those doing editorial work for two local papers. This credit will be applied to the English Composition work in the school.

Miss Robbie Sawyer, who is at the head of the English Department at the school, spent Saturday in Montgomery.

Mr. James Roberts is back in school after several days illness.

Mr. Edwin Bruner, who has also been on the sick list, is back in school this week.

MT. PISGAH NEWS

We regret to learn of so many of the citizens of this community being ill with influenza.

Mr. and Mrs. I. B. Yeargen and family were the dinner guests of Mr. and Mrs. Jake Henley.

Messrs I. B. Yeargen and J. L. Holley attended church at Pleasant Grove Sunday.

Miss Myra Nell Yeargen spent Sunday with Miss Mary Pearl Holley.

Mr. and Mrs. D. L. Holley visited Mr. and Mrs. Jim Smith of Mulberry Sunday.

Marian Tatum made a business trip to Birmingham last week end.

MAKE FARM ELECTRIFICATION PRACTICAL

One of the greatest benefits ever given the farmer is electricity. It is revolutionizing agricultural life and methods.

Old and inefficient equipment is passing out in favor of power-operated equipment that is cheaper to operate, and superior in many ways.

There are a number of important problems that must be met to make farm electrication general. If wrongly handled, electricity on the farm is a failure. If handled correctly it is a tremendous success. There must be operation between the farmer, the power company and the manufacturer of electric equipment.

The initial wiring installation should be heavy enough to carry an adequate load. Light wiring that is sufficient only for ilghting purposes is quickly out-moded. At the beginning provision must be made for increased future use.

Electricity can be used most economically by utilizing low-horse power motors and taking a little longer for the work, than by high-powered motors that hurry the work.

If farm power is employed scientifically, it will pay for itself in saving time and work. The modern farmer who understands its uses, is entering a new and greater period of agrarian prosperity.

A Proclamation

BY THE GOVERNOR

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out; and

Whereas, notice of such election, together with the proposed Amendment, is required by law to be given by proclamation of the Governor;

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice direct and proclaim that on Tuesday, the 6th day of November, 1928, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

Midland City School District No. 15 in Dale County, Ariton School District No. 50 in Dale County, shall each have the right and power by a majority vote of the qualified electors of such districts voting at an election held for that purpose to levy and collect for public school purposes including the payment of indebtedness a tax not to exceed ten mills any one year in addition to all other taxes now authorized by law. The election in such districts to determine whether or not such tax shall be levied shall be called, held and conducted as now provided by law for calling and conducting an election to determine whether or not the three mill district school tax shall be levied and collected, and the laws governing the handling and the expenditure of the proceeds of the ten mill tax herein provided for shall be in all respects in accordance with the law governing the handling and the expenditure of the three mill district school tax.

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

BIBB GRAVES,
Governor.

JNO. BRANDON,
Secretary of State.

Dairying is one of the South's Greatest Developments

In order that the readers of this publication may know something of the rapid development of this basic farm industry in the Southland, the Louisville & Nashville Railroad herewith sets forth some facts about the increased investment in dairy farming in the southern states.

When the boll weevil menace struck the South 20 years ago, agricultural agents of this railroad joined with other agencies in urging the farmers to turn to dairying and they have worked constantly for the building up of pastures for the production of necessary feed crops and have urged the improvement of herds by the acquisition of pure bred stock.

They have also put in much of their time with this individual farmer who is starting in the dairying business studying the milk supply of various sections in relation to the location of creameries and large milk consuming plants.

This railroad has, through its Immigration & Industrial Department, conducted for many years national advertising campaigns to acquaint the dairy farmers of other sections of this country with the advantages of the Southland, and during the last three years a wonderful growth of dairy farming has resulted all the way from the Ohio River to the Gulf.

Today dairy plants are finding locations along the lines of the Louisville & Nashville Railroad as fast as the necessary milk supply is to be had, and this Company's agricultural workers are urging greater milk production and finding more profitable markets for all the milk that can be produced.

Transporting passengers and freight are not the only duties of a great railroad system, and its obligations to the public it serves are fully recognized by the Louisville & Nashville Railroad.

C. Reese Mullins, Life-Time Democrat of County Writes

(Continued from first page)

the mind of any reasonable man or woman on this subject, but I will go further, and will say this to those who may be interested, and I take it that we all are: "That if you will read our National Constitution you will not find the word God or Christ contained therein. Why so, because our forefathers in writing this great document, not because they did not believe in God, but because this was a political document and not a religious one, a separation of Church and State was the idea. If you will refer to our Constitution and read the last paragraph under Article 6 you will find this: "but no religious test shall ever be required as a qualification to any office or public trust under the United States."

I believe if we all had just a little bit more religion and would say less about it, we would all be better off. What do we Methodist mean every Sunday morning in our Church when repeating the Apostles Creed and say among other things, that you are familiar with that "We believe in the Holy Catholic Church". I understand that the word Catholic means general and that the Roman Catholic Church that believes in the Pope is what we are shy of. I have been informed, but I don't think so, that the Catholic Church and the Roman Catholic Church are one and the same.

I believe in the separation of Church and State forever as the only solution of this great question as set forth by our forefathers in our Constitution.

There is just as good men and women in one Church as there is in another and just as good men and women in one party as in another. I believe in the principles of the Democratic Party, and as I see it, we should rally to our Democratic Nominee for President. I wonder if there is any of our good Methodist bolting the Democratic party, who stood against unification when we had this question up in the Church some two years ago.

What has the Republican party ever done for the South but on the hand what has the Democratic Party done. Many, many important things too numerous to mention and I will only take space and time here now to mention one of the greatest and best steps that has ever been taken to my mind for the South, was the creation of the Federal Reserve System, which was instituted and put into effect during the administration of the late and great president, Woodrow Wilson.

As I see it, I believe we would be more prosperous under a Democratic administration than under a Republican. I believe the Democratic Nominess is just as competent as the Republican and perhaps more so, and I do really believe that if the Democratic Party is victorious in November that there will some steps taken if passable for the relief of our farmers. The Republicans have promised the farmers relief but they have paid us off in promises.

The other great question involved consists of the Tariff question, the Immigration guestion, the Liquor question and the Negro question. On the Liquor and the Immigration questions I do not feel there is much difference, about fifty-fifty. The main issue is on the Tariff and Negro questions and on these I must say I am on the Democratic side one hundred per cent.

Now when it comes to local politics here in our County, and we have Republican candidates for office who are competent and who came out boldly and mauly, and let the people know just where they stand, I would not consider any Democrat a bolter for supporting such a Republican in case he saw fit to do so on account of family ties, life-time friendships or as above stated, from a standpoint of competency. This would be a personal privilege, though as yet I have never exercised this privilege. I think it nothing but fair to the whole people that any candidate for office should come out openly in the press and let all the people know just where he or she stands on the election of our National Leader. I regret very much that the Democratic Nominee for Probate Judge in this County, has failed so far to do this. The time is now up and I feel that he should do this in the next issue of this paper. The people want to know, and I insist that they are entitled to know. I would like to know myself.

I for one, would not be at all inclined to support any Democratic Nominee who was not for our National Democratic Nominee for President.

Now listen, I want to ask this question and would like to have an answer from somebody. 'Would it not be just as reasonable for any Democrat in the County to support some or all of the Republican candidates in this county, if he or she wished to do so, as it would be for the Democrats in this County who are bolting the Democratic Party and voting for Mr. Hoover? and especially when we don't know when voting for the Democratic Nominees of this county, but what we are voting for a bolter of the Democratic Party, for Mr. Hoover, they won't say and how can we know?'

I would like to call your attention to the article of Hugh Locke of Birmingham on the fifth page of our Chilton County News in last week's issue and ask you in all sincerity, what you think of such stuff, such tommyrot, don't you imagine that Mr. Locke is getting some of the Republican pie? All this negro stuff he is trying tp put up on Al Smith, and trying to blow it all the country in his political brain storm, is worse than folly. See what Ben C. Davis the Georgia negro leader says about Al Smith in the Advertiser of Oct. 5th, quoted from his paper published in Georgia, "The Independent". He says this: That Al Smith's record does not disclose a single favor that he has done for the negro in New York.

Now, Mr. Editor, if the Democratic candidates as announced in your paper are 'two timed', it is up to you to smoke them out. 'Run the Democratic candidate for Probate Judge on down, and see whether or not they are sailing under false colors. They are eating Democratic bread and they must declare themselves. When a man comes out as a leader of any party in his county, he should have the courage in him to declare himself, a man has got to have some guts in him to lead a party. I wonder if it is the hand of the Invisible Empire that is holding our candidate for Probate Judge back from declaring himself for Alfred E. Smith.

If I am rightfully informed 'of all people a Southerner should be the last to criticize Tammany Hall.' It was in Tammany Hall in 1868 that the Confederate brigadiers and Colonels representing Southern Democracy, assembled to hold their national Convention. No other place was open to them but Tammany received them with wide open arms. 'When Jefferson Davis was thrown in prison it was Tammany New York Democrats, who furnished him a lawyer and made his $100.000 bond.'

I have quite a number of very close Democratic friends on both sides, for and against Alfred E. Smith, for President. I shall continue to cherish and respect those of my friends of opposite opinions. I do hope from my heart, that this friction in our party may become reconciled if possible before November 6th, and give to our grand old party a great national victory.

In conclusion I wish to say that I love my county and its people. I cherish very much the principles of my party, and I shall never desert it until I am more convinced than now, that we are on the wrong road.

I am satisfied in my community, I feel sure that I am living in the very best section of the country on earth. I love my town, my country, my state, and my nation.

I believe that I can truthfully say that Clanton is the best Town in Chilton County. That Chilton County is the best County in the State, that Alabama is the best State in the Union and that these United States of ours is the greatest country in the world, and that Alfred E. Smith is the best man for President.

Yours most truly,

C. REESE MULLINS.

NOTICE TO NON RESIDENT

The State of Alabama—Chilton County

CIRCUIT COURT IN EQUITY

Henry M. Hanbury, et al., Complainant VS.

A. A. Hanbury, et al., Defendant.

In this cause it is made to appear to the Register by the Affidavit of J. B. Atkinson, that the Defendants are non-residents and that their place of residence and post-office address is Seattle, in the State of Washington, and, further, that, in the belief of said affiant, the Defendants are of the age of twenty-one years:

It is, therefore, ordered by the Register that publication be made in the Chilton County News, a newspaper published in the County of Chilton, once a week for four consecutive weeks, requiring them, the said Rosa Irene Branch and Mrs. Anna Mae Stone to plead, answer, or demur to the bill of complaint in this cause by the 28th. day of October, 1928, or, in thirty days thereafter, a decree pro confesso may be taken against them.

Done at office in Clanton, this 24th, day of September, 1928.

W. D. SPIGENER,
Register.

No. 53-Sept. 27-4 times.

COOPER NEWS

Mr. and Mrs. Bill Sandlin and brother, Monroe, were guests of Mr. and Mrs. J. T. Allen Sunday. They all motored to Leonard Sandlin's and spent the afternoon.

Mrs. L. C. Vance wishes to thank her many friends for their kindness during the illness of her daughter Rubye, in the Central Ala. Hospital at Clanton.

Mr. and Mrs. Persie Minor and son were guests of Mr. Minor's father Sunday.

Mr. Thad McSwain of Clanton was the dinner guest of Mr. and Mrs. J. T. Allen Tuesday.

Little Misses Ruth and Sara Wise visited Jannie Allen Saturday afternoon.

Chilton County Abstract Co.

M. D. FOSHEE, Manager

A good business man will not buy a farm or any property without first looking it over to see what it is worth. However, some will buy or loan money on land without an abstract.

Isn't it equally as foolish to buy a farm without looking it over as to buy it and not know whether the titles are good or not? Without an abstract you do not know where you are getting the land you look at or not.

Before investing in land in any way have an abstract made and be safe.

M. D. Foshee **Clanton. Ala.**

TAX NOTICE!

Collector's & Assessor's Round

We will attend at the following times and places for the purpose of Collecting the State and County Taxes for Chilton County for the year 1928 and assessing Taxes for the year 1929.

VOLUME 7 — CLANTON, ALABAMA, THURSDAY OCTOBER 18, 1928 — NUMBER 4

Amendment No. Five An Important Issue

Kiwanis Club and High Officials Waging Fight For Drainage Amendment

Proposed amendment No. 5, known as the Proposed Drainage Act, as set out and appearing the Governor's Proclamation in this paper has been instigated by many high officials of the State, and has the endorsement of such men as Col. Woolsey Finnell, Director of Highways; Dr. Dougias L. Cannon, Acting State Health Officer; Dr. Page S. Burkes, State Forester; Dr. Bradford Knapp, President A. P. I. Auburn, and S. M. Dunwoody, Commissioner of Agriculture and Industries.

They have found its adoption needful to the progress of the state in its development of agriculture health conditions, highway construction and improvement in the growth of timber. They also found that the proposed amendment is a non-political question and does not involve the state in any expenditure of funds in any form and is only an expression of the state's moral obligation to those citizens who are financially interested land owners in drainage districts.

The Clanton Kiwanis Club is waging a strong fight to see that this amendment is carried, as they believe that it means much for Chilton County and the rest of the state, and an earnest appeal to the voters to cast their vote in favor of this amendment is being made by everyone interested in the future welfare of the state.

Proposed Amendment No. 5

Section 1—The Legislature may form or provide for the formation of drainage districts for establishings and maintaining drainage systems; and provide for the assessment of the whole or part of the cost of such improvements against the land and property in such district to the extent of the increased value thereof by reason of special benefits derived from such improvements and may provide for the issuance of bonds for such districts with or without an election. Section 2—This amendment shall be retroactive and retrospective and shall operate to ratify, conform and validate the Act of the Legislature of Alabama, which Act provided for the drainage of farm, wet, swamp and overflow lands in the State of Alabama and authorized the organization of drainage districts, conferred the right of eminent domain to the extent necessary to carry out the purpose of said Act and provided for raising of revenues by bond issue or otherwise to pay the cost and expense of installing and maintaining drainage systems so as to promote the public health and general welfare and, which Act was approved March 4, 1915; and this amendment shall operate to confirm and validate all corporate organizations under authority of such law, all procedure had, all acts done, all bonds issued, contracts entered into and assessments made by such corporations under authority of such law.

ALA. METH. ORPHANAGE BOARD HOLDS MEETING

The Alabama Methodist Orphanage Board of directors held their semi-annual meeting at the Orphanage in Selma Wednesday morning. Mr. Green as a member of the board was in attendance. The Supt. of the Orphanage is Mr. F. L. Aldridge. His financial report for the year showed an increase in receipts. The institution is caring for about one hundred and fifty children.

JUNIOR HIGH SCHOOL PRINCIPAL'S MEETING

All the Junior High School principals of the County are requested to meet at the Courthouse on Saturday, Oct. 20th, to transact any business that may come before the association.

ATTEND MASONIC SCHOOL OF INSTRUCTION IN MONTGOMERY

Dr. T. J. Marcus and Mr. J. D. Armstrong attended the School of Instruction of the Commandery at the Masonic Temple in Montgomery last Thursday night.

Recently the State has been divided into several districts, and Clanton, Tuskegee, Montgomery, Troy and Ozark comprise the Fourth District.

These Schools of Instruction will be held with the several Commandery Organizations in the Districts from time to time and is proving very valuagle to members.

HOME OF MR. W. F. FRITH IS DESTROYED BY FIRE

The home of Mr. W. F. Frith, about four miles south of Clanton, on the Montgomery-Birmingham highway, was destroyed by fire, early last Friday morning. According to information given us, the fire originated in the rear of the house from a defective flue.

Mr. Frith had built a fire in the kitchen stove, according to reports, and had gone to get a bucket of water when he discovered the fire, which had gained considerable headway.

Mrs. Frith and three children were not awake at the time. Only a few articles of furniture were saved. According to information given us, a small amount of insurance was carried on the house. Mr. Frith and family are now occupying the home of Mr. and Mrs. C. B. Norrell, which is near where their home was.

LOCAL MEN ATTENDING DAIRY SHOW IN MEMPHIS, TENN.

Messrs C. E. Stapp, C. H. Williams, T. F. Patterson, Aaron Dennis, E. W. Miller and others, are attending the Dairy Show being conducted at Memphis, Tenn., this week.

Much interest is being taken in the Dairy business in Chilton County, at the present time, and no doubt this trip to the Dairy Show in the Tennessee city, will prove very valuable to the local people.

ISABELLA COMMUNITY FAIR SET FOR OCT. 26

Many Interesting Features Aside From Exhibits Being Arranged

As previously announced, the date for holding the Isabella Community Fair has been set for Friday, October 26th, one day.

The committee in charge of completing the arrangments for this big event, for the Isabella-Mulberry community, is busily engaged this week in finishing up their tasks.

This thriving community never fails to put over in a big way anything attempted, and there is no doubt but that the Community Fair to be held there next week will be a great success.

Isabella is located in one of the best agricultural sections of the county, and those who attend the fair are assured of seeing many things on display that will prove of much interest. Isabella community boasts of some of the most progressive farmers in the state, and the fact that a community fair is to be held there bears out the statement that it is a progressive community.

Aside from the exhibits to be found at the fair, other important features are being arranged, and all who attend are assured that their visit will be enjoyable as well as profitable.

PAGEANT AT METHODIST CHURCH SUNDAY P. M., OCT 28

Mrs. M. F. Jones, Mrs. M. A. Gore and Mrs. L. C Warr, committee on program, are announcing a Pageant at the Methodist Church on the evening of October 28th at 7:30 o'clock. "The Holiest Task" is the title of the Pageant. About fifteen characters will participate. This is the culimation of the observance of Childhood and Youth Week.

CLOTHING REPRESENTATIVE TO BE AT CALLEN'S THIS WEEK

Announcement will be found elsewhere in this issue of the News, to the effect that Phil Pointer, representing the Storrs Schaffer Co., men's fine clothing, will be at Callen's Store in Clanton October 18th and 19th, with a splendid line of samples for men's individually made garments.

FEATURE PICTURE "JESSE JAMES" HERE NEXT WEEK

The Wadesonian Theatre announces that they have secured the new picture, "Jesse James", for the theatre in Clanton. This picture offers movie patrons something new in the way of a "Jesse James" picture, and will be shown here Monday and Tuesday of next week.

Fred Thompson, the Western feature star, takes the lead in this version of "Jesse James."

PLAN TO ORGANIZE SENIOR MUSIC STUDY CLUB HERE

Anyone interested in the study of music is urged to meet in the music room of the High School Friday afternoon, October 19th, at 3:15 o'clock for the purpose of organizing a Senior Music Club. Mrs. Barney Roberts.

BAPTISTS WILL MAKE GOOD SHORTAGE IN HOME MISSION BOARD'S ACCOUNTS

Honor Day is Set for Sunday, November 11, When Churches Are Asked to Lay $953,000 in Cash on Altar for This Purpose

In order that the Home Mission Board of the Southern Baptist Convention may not suffer the permanent loss of a single dollar, through the reported shortage of its former treasurer, Baptist churches throughout the South are expected to lay a cash offering of $953,000 on their altars Sunday, November 11. This day has been designated Baptist Honor Day and the appeal for this offering made, by the Promotion Committee of the Convention, following a thorough canvass of the situation.

DR. ARCH C. CREE
Acting Executive Secretary of the Southern Baptist Home Mission Board.

At the meeting of this large committee October 3, Dr. Arch C. Cree, acting executive secretary of the Home Mission Board, reported that the auditors gave the sum of $963,000 as their best estimate at that time of the shortage in the treasurer's accounts. Of this amount approximately $350,000, was taken from the Church Building Loan Fund, the auditor found, while the remaindor of the shortage is accountad for chiefly through the sale of the notes of the Home Mission Board to banks in various Southern states. While the Church Building Loan Fund is the property of the denomination, it represents a trust fund created for aiding congregations in erecting houses of worship, and the committee feels that the obligation to restore the money taken from this source is just as binding upon Baptists as the repayment of the banks.

Need to Restore Full Amount

In his report to the Promotion Committee, Dr. Cree said the Home Board expected to realize $50,000 from the bonding company and possibly as much as $150,000 from the recent treasurer's estate ultimately. The bulk of this estate consists of real estate, however, and it may require a period of years for a full realization upon that. With all these considerations in mind, the committee felt the churches should be asked to restore the entire amount of the shortage immediately and the date for such offering was fixed for Sunday, November 11. In the case of rural or village churches not having preaching services on that day they are asked either to take this offering at the Sunday school hour on that day, or else take it on whatever preaching date falls nearest November 11. A goal of as many dollars as there are members is recommended to the churches.

Big Retrenchment Made

Drastic retrenchment has been in the work of the Home Mission Board, following its reorganization. Forty per cent of all current receipts are being applied to the reduction of the previous indebtedness of the board, making it necessary to cut the current operations to 60 per cent of the current receipts. All special offerings from whatever source are being applied to the reduction of the obligations at the banks. Dr. Cree has secured the consent of the banks carrying the bulk of the board's indebtedness to carry the present paper at a reduced rate of interest a little while longer in order to afford the churches an opportunity to make a cash offering for the relief of the board. The Promotion Committee has asked the Georgia Baptist Convention to continue its loan of Dr. Cree to the Home Board until the Southern Baptist Convention meets in May.

The demand for a special cash offering for making good the Home Board's shortage came from practically every section of the South, and Dr. George W. Truett, president of the Southern Baptist Convention and other officers expect to see the full amount raised in a cash offering November 11.

Local Team Victorious Over Rockford in One-Sided Affair

In a game that was a fight from start to finish, played on the local gridiron field, last Friday, the Chilton High team defeated the flashy team from Rockford with the score 53 to 7.

The seven points scored by the visitors came as the result of a fumble near the center of the field, and before even the side line realized just what had happened, a Rockford lad scooped up the ball and was on his way for Chilton's goal line in an open field. After making the touchdown, the visitors bucked the ball over for the extra point.

When Rockford scored the touch down, this marked about the only time the ball was ever in Chilton's territory except when the visitors would punt or kick-off, and then the Chilton Tigers would soon rush the ball back into Rockford's territory. Rockford made only one first down during the game and was successful with only one forward pass.

Though the Chilton line held like a brick wall, the visitors kept pounding at it even through the last period.

The local team made gain after gain, the feature of the gaining through the line being the way Melton and Nelson would plough through for long gains, while Bruner, Sims, Baker and Minor made many nice gains around end and occasionally through the line.

Bruner, Baker and Simms gave the side lines many a good thrill by their demonstration of broken field runs. Brown, Chilton's right end, played the best game of his career, and on one occasion, his block of Pruitt after Sims had apparently got loose for a touchdown, accounted for one of Chilton's counters. This blocking of Pruitt was one of the prettiest pieces of work ever seen on the local field. Brown was also a defensive star, nailing Rockford backs several times before they crossed the line of scrimmage.

Rutherford, center for Clanton, continued his fine work, his passing being barely short of perfect, while he, Wade Gowan, Wagner, Roberts and Finley, as well as the substitutes, demonstrated in no small way their value, both on defensive and offensive plays. In the last period, Coach Bruner sent in his second string men, who all but crossed the goal line for a marker.

For the visitors, Pruitt and Newberry were the outstanding stars, both offensive and defensive. These two men were deadlytacklers and did most of the ground gaining for the visitors, with the exception of the run made by No. 5 for the touchdown.

VERBENA BATTLES HOLTVILLE TO A 0-0 TIE GAME

The Verbena High School football team played Holtville to a scoreless tie at Holtville last Friday afternoon. Verbena outplayed Holtville but were unable to score. In the fourth quarter Verbena started a drive that looked like a sure touchdown only to be stopped by the final whistle on Holtville's 10- yard line.

Barrett, quarterback, and Davis, fullback were the outstanding, stars for Verbena, although all of the team played well. Davis' line plunging won for him a regular berth in the backfield, while Barrett's end runs were a feature of the game. On numerous occasions he clicked off from ten to thirty-five yards around the end.

Simmons, who was injured in the final quarter was easily the outstanding player for Holtville.

In the second quarter one of Holtville's men intercepted a pass and ran thirty yards before being stopped by Gibson on Verbena's twenty-five yard line. This was the only time Holtville threatened to score.

The game was played clean throughout by both teams, only three penalties were inflicted, one on Verbena for off sides, and two on Holtville for the same thing. Verbena made 8 first downs and Holtville 3.

Verbena meets Coosa County High at Verbena next Friday. This promises to be a good game as the teams seem to be pretty well matched.

W. M. U. QUARTERLY MEETING TO BE HELD AT INDIAN GRAVE

The quarterly meeting of the W. M. U. of Unity Association will be held with Indian Grave Church, October 24, at 10:00 A. M.

2:45—Talk—"S. B. C. Thank Offering at Christmas" by Miss Hagood.

Awarding of Banners.

Benediction.

CHILTON HIGH TO MEET STRONG TEAM FRIDAY

Promises To Be One Of Best Games Of Season On Local Field

On next Friday afternoon at 3 o'clock the Chilton County High School team will meet the strong team from Alexander City on the local grid iron field. This promises to be one of the best games to be played on the local field this season, as it is a known fact that the visitors have a strong aggregation.

Coach Bruner is putting the finishing touches to his team, and hopes to place on the field the strongest line-up he has yet started in a game.

Alexander City High is rated as one of the best high school teams in the State, and have already run up a number of victories with large scores against some of the strong teams of the state.

The management of the local school has gone to considerable expense in order to bring this strong team here, and an admission of 25 and 50 cents will be charged for this game.

NATE RAY RECOVERING FROM INJURIES RECEIVED IN WRECK

Prof. Nate Ray, who teaches at Verbena, is recovering from injuries received in an automobile accident south of Verbena several days ago.

According to information given us, Mr. Ray was injured when the car in which he was riding was wrecked by the driver to avoid striking a horse drawn vehicle. The wreck occurred just after dark and as the horse drawn vehicle carried no light the driver of the car was unable to see it until too close to miss it without wrecking the car.

SID WELDON GOES TO GEORGIA, FOR PURE BRED BULL

Mr. Sid Weldon went to Columbus, Ga., last week, where he purchased a purebred Jersey bull to replace the one he purchased there last year.

Mr. Weldon was accompanied by Mr. C. E. Stapp, local farm demonstration agent. Mr. Weldon is very much interested in the dairy business and is demonstrating his interest by purchasing pure bred Jerseys of the highest type.

ENTERTAINMENT AT ISABELLA HIGH SCHOOL OCTOBER 20TH

There will be an entertainment at the Isabella School auditorium October 20, at 7:00 o'clock. This entertainment is being given by the local talent of the Isabella community and nearby communities, for the benefit of the Church. The proceeds will be used in making a due payment on the piano. We urge you to come out for the evening program and assure you that something will be rendered for a pleasant gathering of our friends.

Come see "The Stages of Life" which will be one of the features on the program. Admission for the evening program will be 25 cents for adults and 15 cents for children.

Series of Dairy Meetings to be Held Here

Object Is To Promote Increased Interest In Dairying In County

C. E. Stapp, County Farm Demonstration Agent, announces that a series of meetings in the interest of better dairying for Chilton County will be held the latter part of the present month.

While no definite dates forholding the meetings, has yet been announced, plans are now to start as stated above, and those in attendance at the first meeting will determine the number and dates of future meetings. These meetings will be held at the Courthouse in Clanton.

While many important matters will come up for consideration during these series of meetings, breeding, feeding, and care and handling of dairy cattle will be dealt with in a manner that will give those interested in better dairying a thorough understanding of these important items

There are a number of good purebred bulls in the county, and farmers interested in raising the standard of their dairy cattle should arrange to breed to these, as past records prove this a splendid method by which to improve their herd.

Mr. Stapp is very anxious to aid in boosting Poultry, and the Dairying business in Chilton County, and to render such assistance as he can in our cotton, strawberry, melon and other crops. The above five money crops properly handled would prove very valuable to the county and would help place Chilton where she would take her proper position on the map.

SON IS NAMED FOR TOWN IN WHICH BORN

Mr. and Mrs. C. F. Nanney have announced the birth on last Thursday, October 11, of a baby boy, whom they have named Thomas Clanton.

Mr. and Mrs. Nanney moved here from Florida. Mr. Nanney with Mr. Thomas Benton, established a sign painting business here some time ago. Mr. Nanney states that he is very much pleased with the little city in which they have located. In fact, he says he is so well pleased that he named his son Clanton.

STAMPS ALL-STAR QUARTET TO APPEAR FRIDAY NIGHT

The Stamps All-Star Quartet will appear at the Chilton County High School auditorium next Friday night, October 19th.

These entertainers are too well known for us to make any effort to stress their ability as such. They have appeared here a number of times and on each occasion in the past their programs have been well received.

The program to be rendered here on Friday night, is under the auspices of the school, and an admission fee of 25 and 35 cents will be charged.

CLANTON PRODUCE COMPANY MOVES INTO NEW QUARTERS

The Clanton Produce Company will move this week into the Wade building which was formerly occupied by the Robinson Department store on Main Street, near the railroad.

Since coming to Clanton approximately a year ago, Mr. Ben R. Goltsman, proprietor of the Clanton Produce Company, states that his business has grown to such an extent that it has become necessary to move into larger quarters. The produce company has been located in the Roper building, across the railroad from Moatts I. G. A. Store.

The Wade building, new quarters for this progressive business, has been undergoing extensive remodeling and repairs for the past week, and is now ready for the new occupant.

Mr. Goltsman also stated that he will add to his already competent delivery service, another new truck, so that he will be better equipped to serve his customers. The Clanton Produce Co. are wholesale dealers only in produce, fruits, etc.

In the future, Mr. Goltsman will probably install an up-to-date cold cold storage plant.

BEGIN NOW TO FIGHT CORN WEEVIL SAYS STAPP

The corn weevil destroys several dollar's worth of your corn each year. He is easy to destroy. Get some High Life from the Farm Bureau and apply as directed and save your corn. NOW IS THE TIME TO KILL HIM!

NOTICE TO NON RESIDENT

The State of Alabama—Chilton County
CIRCUIT COURT IN EQUITY
Henry M. Hanbury, et al., Complainant
VS.
A. A. Hanbury, et al., Defendant.

In this cause it is made to appear to the Register by the Affidavit of J. B. Atkinson, that the Defendants are non-residents and that their place of residence and post-office address is Seattle, in the State of Washington, and, further, that, in the belief of said affiant, the Defendants are of the age of twenty-one years.

It is, therefore, ordered by the Register that publication be made in the Chilton County News, a newspaper published in the County of Chilton, once a week for four consecutive weeks, requiring them, the said Rosa Irene Branch and Mrs. Anna Mae Stone to plead, answer, or demur to the bill of complaint in this cause by the 28th. day of October, 1928, or, in thirty days thereafter, a decree pro confesso may be taken against them.

Done at office in Clanton, this 24th. day of September, 1928.

W. D. SPIGENER,
Register.

No. 53-Sept. 27-4 times.

NOTICE

State of Alabama—Chilton County.

Notice is hereby given that the undersigned mortgagee will sell at public outcry to the highest bidder for cash during the legal hours of sale on Thursday, November 15th, 1928, in front of the courthouse door in the City of Clanton, State of Alabama, the following described real property, situated in Chilton County, Alabama, to-wit:

The East Half of the Northeast Quarter of Section 23, the West Half of the northwest Quarter of Section 24, the Southeast Quarter of the Northwest Quarter of Section 24; the Northwest Quarter of the Southwest Quarter of Section 24; the Southwest Quarter of the Northeast Quarter, less eight acres on the southside, Section 24; Sixteen acres in the Northwest corner of the Northeast Quarter of the Southwest Quarter of Section 24; all of the above described lands being in Township 24, Range 13, East.

Said sale is to be had under and by virtue of the power of sale contained in a certain mortgage given to Mrs. W. L. Wilson by Mrs. T. E. Sims and husband, Thos. E. Sims, and Itara Cobb, an unmarried woman, on to-wit the 30th day of June, 1927, and recorded in the office of the Judge of Probate Court of Chilton County, in Volume 218, Record of Deeds page 484, said mortgage having been given to secure the payment of a certain indebtedness mentioned therein, and said mortgagors being in default in the payment of said indebtedness.

The proceeds of said sale will be distributed in accordance with the provisions of said mortgage relating thereto.

MRS. W. L. WILSON, as mortgagee.

IN MEMORY OF MR. THOMAS H. WILLIAMS, DECEASED

In memory of Mr. Thomas H. Williams, who died at his home four miles from Billingsley. He had been in failing health for some time and on a bright September morning, his Spirit suddenly took its flight to realms above. Mr. Williams was a Christian gentleman. He joined Shiloh Baptist Church in early life. His remains were laid to rest in the Shiloh cemetery. His widow, one daughter, two sons, one sister and three brothers are left to mourn his death, besides a host of other friends and relatives.

There is a vacant chair around the family circle that cannot be filled, but their loss is Heaven's gain. A friend.

EPWORTH LEAGUE TO HAVE SPECIAL PROGRAM SUNDAY

We have been requested to announce that the Epworth League of the local Methodist Church have planned for next Sunday evening, at their regular meeting a speciall program.

The program planned will be very interesting, and everyone is invited to attend this meeting of the Epworth League next Sunday evening at six forty-ifve o'clock.

NOTICE FOR APPLICATION FOR PAROLE OR PARDON

Notice is hereby given that the undersigned Thomas Littlefield who was convicted on the 8th day of April, 1927, in the Circuit Court of Chilton County, Alabama, for the offense of Manufacturing Liquors and possessing a still, and sentenced to the Penitentiary of the State of Alabama for an indeterminate term of eighteen months to two years, will make application to the Pardon Board and Governor of the State of Alabama for a parole of the remainder of said term which he has not served.

This the 15th day of October, 1928.

No. 4-3t. THOMAS LITTLEFIELD

A Proclamation

BY THE GOVERNOR

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out; and

Whereas, notice of such election, together with the proposed Amendment, is required by law to be given by proclamation of the Governor;

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice direct and proclaim that on Tuesday, the 6th day of November, 1928, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

"The following municipal corporations, to-wit: Winfield, Marion, Bay Minette, Robertsdale, Foley, Prattville, York, Jackson, Collinsville, Ft. Payne, Luverne, Brantley, Glenwood, Red Bay, Tarrant City, Dadeville, Thomasville, Northport, Hartselle, Haleyville, Talladega, Daphne, Oneonta, Cullman, Leeds, Eutaw, Guin, Sylacauga, Millport and Sulligent, Ozark, Ariton, Midland City and Demopolis, through their respective constituted governing authorities, may levy and collect a rate of taxation in any one year on the property situated therein, not exceeding one per centum of the value of such property as assessed for State taxation during the preceding year; provided that the adoption of this amendment shall in no wise affect, limit, modify, abridge, or impair the power, authority or right of any of said municipal corporations to levy and collect special school taxes, now or hereafter vested in or conferred upon them under the Constitution or any amendment thereto, which said special school taxes shall be in excess of said one per centum herein provided for."

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

BIBB GRAVES,
Governor.

JNO. BRANDON,
Secretary of State.

DOUBLE WEDDING SOLEMNIZED IN BIRMINGHAM OCT. 13

Of cordial interest throughout the state was the double wedding of Miss Willodean Reynolds, of Clanton, to Sam Box, of this city and Miss Annie Cox of Pine Hill, Ala., to Walter Brown of Cincinnatti, Ohio, which took place at the residence of Bishop Hoyt M. Dobbs, Saturday evening at 8 o'clock. The marriage vows were read in the presence of relatives and a few close friends of the bridal couples.

Miss Reynolds was attired in a gown of brown transparent velvet, with which she wore a smart hat and accessories to match.

Miss Cox was lovely in a brown velvet with hat and accessories of harmonizing color.

Miss Reynolds comes from a prominent Alabama family. Her parents, Mr. and Mrs. W. A. Reynolds, have resided in Clanton for a number of years Miss Reynolds, who possesses a lovely personality, has a host of friends in this city and ther sections of the South, where she has often visited. She was a student of Woman's College and Breneau and a member of the Zeta Tau Alpha Sorority.

Mr. Box is a native of Texas and is connected with a prominent firm of this city.

Mr. and Mrs. Box will be at home to their friends at, Gertrude Apartment, 2722 Tenth Avenue South.

Miss Cox, the daughter of Mr. and Mrs. J. B. Cox, of Pine Hill, Ala. is a graduate of Woman's College and has recently held a position in the high school of Notasulga, Ala. She is a popular girl throughout this section of the state.

Mr. Browne, a native of Ohio, is in the wholesale lumber business.

Immediately after the ceremony they left for Cincinnati, where they will make their home.

Present at the ceremony were Mr. and Mrs. Guy H. Roberts, Mr. and Mrs. Harry B Reynolds, Mrs J. B. Cox, Wyatt Vigileo.— Birmingham News, Sunday, Oct. 14 1928.

WINTER COVER CROPS NEEDED ON ALL FARMS

Auburn, Ala., Oct. 9.—For the sake of the soil, for the good of the stomachs of livestock, and for the pocketbook of farmers, each acre of farm land in Alabama should have a green crop on it this winter, according to officials of the college of agriculture at the Alabama Polytechnic Institute, Auburn. They prefer a winter legume but where this is not feasible they recommend a small grain. Among the small grainse oats rank first but rye is good.

These winter crops, they say, are a protection for land during winter, they provide grazing for livsetock, and the net result is that they will increase the farm incomes. By protecting the soil, and feeding livestock two sources of income are added because richer soil and fatted livestock are both important.

Reports from the Alabama Farm Bureau at Montgomery and from county agents throughout the state say that the winter legume acreage in Alabama will be exceptionally large this fall. It will be the largest on record. Hairy vetch is the leader among these winter legumes but Austrian peas were planted in large quantities. The winter legumes planting season will soon be over. Oats and rye should be planted immediately although they may be planted lataer. However, early planting is better.

In addition to winter protection and grazing for livestock, oats will make a feed crop which will be harvested next May in time for farmers to make another crop. With the small corn crop made this year a large supper crop should be planted this fall.

WANTED!

All the Y. W. A.; G A; R A and Sunbeam leaders to find the members of their organizations and bring them to the Young Peoples Council for Unity Association at the Billingsley Baptist Church Sunday afternoon at two o'cloc, October 21st. Your presence is needed.

SICKLY, PEEVISH CHILDREN

Children suffering from intestinal worms are cross, restless and unhealthy. There are other symptoms, however. If the child is pale, has dark rings under the eyes, bad breath and takes no interest in play, it is almost a certainty that worms are eating away its vitality. The surest remedy for worms is White's Cream Vermifuge. It is positive destruction to the worms but harmless to the child. Price 35c. Sold by

Chilton County Abstract Co.

M. D. FOSHEE, Manager

A good business man will not buy a farm or any property without first looking it over to see what it is worth. However, some will buy or loan money on land without an abstract.

Isn't it equally as foolish to buy a farm without looking it over as to buy it and not know whether the titles are good or not? Without an abstract you do not know where you are getting the land you look at or not.

Before investing in land in any way have an abstract made and be safe.

ATTENDANCE OFFICER MAKES APPEAL FOR MORE BOOKS

Mrs. C. E. Stapp, school attendance officer for Chilton County, states that those in charge of the work are still in need of more books to supply children who are not able to purchase them.

Some time ago, Mrs. Stapp made an appeal for books, and states that she received a wonderful response but she finds that she is especially short on First and Sixth Grade books and Junior One books. However she stated that she could use any books except those used in the third grade.

C. REESE MULLINS MAKES ANNOUNCEMENT TO PEOPLE

Clanton, Ala., October 16, 1928.
Editor Chilton County News
Clanton, Alabama.

My Dear Sir;

I will only ask you this week for just enough space to make the following announcement. I wish to announce to the blue Democrats and the Democratic candidates for office in Chilton County, that I have just received a full supply of Smith and Robinson campaign buttons and have the honor of wearing one of them on the lapel of my coat and I most earnestly request all of the above named gentlemen to please call at my office at once and get one of these buttons and wear it on your coat, in honor to these great men who are going over this country fighting our battle for white supremacy, with all their might, until great drops of prespiration are rolling off their brows.

It will be an honor to you, to your children, and too all your future prosperity as I see it to wear one of these buttons.

Yours to uphold Democracy in Chilton County, and white supremacy in our nation, I expect to stand flatfooted on this, until our Democratic paper in Chilton County cuts me off from free space on Democracy and I am sure this will never be.

Yours for Democracy,
C. REESE MULLINS.

MRS. N. J. JONES DOES NOT AGREE WITH C. R. MULLINS

Chilton County News:

I wish to say a few words in reply to Mr. Mullins in last week's issue about what the Democrats had done for our country. We agree with him and want to keep clean and dry so we can keep doing good. Sorry he said the Republican party had not done anything. We are glad of what they have done in making our nation what it is and are glad so many Democrats are going to vote with them this time on the Presidential candidate, since the Democrats have made the mistake of nominating a man who would undo so many of the good laws that we have. Sorry we have bosses who try to make us think we have to vote wet to be true to the Democratic party.

Mrs. N. J. JONES.

HOSPITAL NEWS

Mrs. Dr. Parrish who was operated on last week is doing well.

Mrs. E. Pounds was admitted Sunday.

Mr. F. A. Summerlin went home Friday.

Miss Martha Cleckler has been in the hospital several days.

Mr. J. R. Luster of Billingsley who was admitted some days ago is some better now.

Mrs. Oliver Dennis was operated on Monday.

Mrs. Beulah Hosey is doing nicely following an appendix operation.

RED MEN TO PUT ON DRIVE FOR NEW MEMBERS

The Great Council of the United States, Improved Order of Red Men, is behind a movement to secure 200 new members of the order in Alabama between now and December 5. This number will be initiated in one class at Birmingham on December 5th, when members of the Great Council of the United States will assist in the work, exemplifying some new degree work never before introduced in Alabama.

Waxahatchie Tribe No. 9 at Clanton is asked to furnish 10 of the 200 new members for this big class initiation in Birmingham. The tribe here has grown remarkably during the past two years, and it is certain that the 10 palefaces from Clanton will be ready when the curtain rises at Birmingham on December 5th.

PEOPLES TELEPHONE COMPANY

At a meeting of the phone-holders of the Peoples Telephone Company last Saturday it was found that the old company is dead with no hope of resurrection. The funds are exhausted and the central office is closed.

It was determined at the Saturday meeting that another meeting would be held at the courthouse next Friday at ten o'clock for the purpose of forming a new company to operate a rural telephone system. A new constitution and by-laws will be adopted, and a new plan of operation instituted.

Every person who is interested in securing rural telephone service is requested to attend this meeting next Friday.

WALTER ARNOLD, NEGRO, ARRESTED LAST MONDAY

Sheriff Collins and Deputy George Murrah arrested Walter Arnold, negro, last Monday on a charge of violating the prohibition law.

The negro was crossing a road with a sack in his hand according to reports, and when asked by the Sheriff's what he had in the sack, whiskey or homebrew, the negro ran. He was soon caught and lodged in the jail at Clanton and at the time of this writing, is still held. The arrest took place at Maplesville.

MISS PEARL WOOD DIED LAST SUNDAY, OCTOBER 14

Miss Pearl Wood, age 34, daughter of Mr. J. C. and Sallie Wood of the Liberty Hill community, died at her home last Sunday night, October 14th.

She was buried the following afternoon at 2:30 o'clock at Samaria, J. Mell Martin, undertaker in charge. The funeral was conducted at the Samaria Church with Rev. B. Lawrence and Dr. S. J. Ezell in charge of the services.

The large number of people and the large and beautiful floral offering were evidence of the high esteem in which she was held, and the great love those who knew her had for her. The deceased was a member of the Samaria Church and a very active member, taking part in all church affairs. She had been ill for only a short time, and her death was a great shock to the entire community in which she lived with her parents.

The deceased is survived by her parents Mr. J. C. and Sallie Wood, four sisters, Mrs. T. E. Williams of Decatur, Sallye Bee, Nora and Georgia Wander of Clanton and two brothers, Claude of Canton and Wallace of Lock 12.

Mrs. Smith and Mrs. Higgins Joint Hostess at Dorcas Meeting

Mrs. Milton Smith and Mrs. Joe Higgins were joint hostess at entertaining the Dorcas Class of the Clanton Baptist Church on last Wednesday afternoon at the home of Mrs. Higgins at three-thirty o'clock.

Mrs. S. J. Ezell presided over the business, after which delicious sandwiches and iced tea were served to the guests.

STANTON

The P. T. A. met Thursday night at the school house. Miss Margaret Woolley, president presided. The following program was rendered:

Song: "Onward Christian Soldiers."
Scripture Reading by Mrs. T. D. Parnell.
Prayer by Mr. H A Harris.
Secretary Report: by Miss Hazel Schurter.
Business.
Parent Creed: Mrs. Warren Henry.
Song: "Dont You Cry, My Honey" by Catherine Schurter.
Health Talk by Miss Lucy Mitchell
Solo by Linidean Dyer.
Health Talk by Mabel Harris.
Song by C Dell and Ida Lou Davis.
Health Talk by Odessa Johnson.

Following the program games were enjoyed. Ice tea and sandwiches were served.

The many friends of Mrs. W. H. Connell are glad to know that she is improving following an illness.

Dr. O. O. Connell, P. H. and H M Connell of Notasulga, spent Sunday with their parents, Rev and Mrs. W. H. Connell.

Mrs. John Parnell spent Monday in Selma.

Miss Una Shoults of Birmingham spent Thursday night with her parents Mr. and Mrs. J. C. Woolley.

Miss Elsie Schurter of Ensley spent Saturday and Sunday here.

Mr. Walter Ruddick of Cordova, Ala. spent Sunday with his parents Rev. and Mrs. W. J. Ruddick.

Miss Helma Ruddick of Birmingham spent Sunday here.

Miss Maudie Mae Ackrage spent the week end with Miss Will Nita Campbell at Burnsville.

Verbena News

Mrs. G C Golson of Prattville was the guest of her sister, Mrs. W A Powell last week end.

Mr. and Mrs. W A Gulledge visited friends and relatives in Benton and Hayneville Sunday.

Mr. and Mrs. S. L. Gibson entertained a group of the younger set of Verbena, on the river Saturday evening, at their camp.

Mr. and Mrs. W A Powell and Mrs C C Golson motored to Montevallo last Sunday.

Mr. E. B. Williamsn, who recently returned to Verbena from Birmingham is directing choir practice at the M. E. Church on Friday nights of each week.

Due to kindness of Mr. W. B. Oliver the Verbena Baptist Sunday School annex will soon be completed and ready for occupancy.

The Verbena P. T. A. met Monday afternoon and plans were discussed by which to get back the old members and also to add new ones.

Mrs. Frank Allen and grandchildren have moved to Verbena from Birmingham, and are living in what is known as the Community House.

MAPLE SPRINGS NEWS

The Maple Springs and Poplar Springs Singing Societies met last Sunday at 2 o'clock. Called to order by Mr. O. L. DeVaughn, who sang a few songs. Then a visitor from Clanton, Mr. Cleve Popwell,. Following him W. F. Gilliand and Mrs. Alma Wilson, the pianist were Mrs. Hubert DeVaughn and Miss Gracie Wilson. We did not have many directors, but the atendance and singing were good. Our Society meets on the Fourt Sunday afternoon at 2 o'clock. Everyone is invited to be with us. We are expecting to have a lot of new books.

Be sure and come and bring someone with you. We hope to have a good singing.

O. L. DeVaughn, Chairman, W. F. Gilliand, Secretary.

MT PISGAH NEWS

Everyone remember next Saturday night is the night for the Box Supper.

Next Saturday afternoon is our Singing evening. We invite each and everyone to come and be with us.

Mr. and Mrs. C F Partridge of Cooper, visited Mr. and Mrs. I B Yeargen Sunday.

Misses Myra Nell Yeargen, Eddie Lois Partridge and Ruby Taylor visited little Miss Marjorie Aldridge Sunday afternoon.

Miss Effie Mae Partridge was the guest of Miss Ethel Yeargen Sunday.

Mr. and Mrs.J. L. Holley were dinner guests of Mr. and Mrs. I B Yeargen Sunday.

SOYBEAN HAY IS TO BE STANDARIZED IN ALABAMA

Auburn, Ala., Oct. 15, 1928—Federal grades are to be established for soybean hay. The work is being done by the United States Department of Agriculture in cooperation with the agricultural experiment stations of the Land-Grant Colleges, county agents, organizations of farmers , growers, dealers and others who are interested.

Samples of soybean hay grown in Alabama have been collected and sent to the United States Department of Agriculture by the Experiment Station of the Alabama Polytechnic Institute at Auburn, under the direction of Prof. M. J. Funchess, director. The Alabama station has cooperated otherwise, because soybean hay is an important crop in Alabama. Without federal grades it cannot become an important commercial crop, experts say.

To obtain further information about this hay a public hearing will be held in the offices of the Alabama Farm Bureau Federation in Montgomery, November 2. At the time all those wishing to be heard will be given an opportunity, for it is the desire of those in charge to get all the facts about soybean hay.

After the grades are established the trade will receive them; buying and selling will be done accordingly. This should do for soybean hay what federal grades have done for cotton.

When the grades are established and become effective the State Department of Agriculture at Montgomery will provide regulations and inspection service for the benefit of the growers and also buyers of this hay. It is believed that this will result in making soybean hay an important cash crop in Alabama.

VOTE FOR

DR. P. T. HINKLE, for Judge of Probate.

UDAH CURLEE, for Clerk of the Circuit Court.

JUDSON STROCK and C. J. KLINNER, for members of the Board of Education.

ERNEST H. DAVIS, for Commissioner from 3rd. District.

GEORGE T. GUY, for Commissioner from 4th. District.

J. A. NIVENS, for Treasurer of Chilton County.

These men will be honest in their efforts to promote better schools, build and maintain good roads throughout the county and perform efficiently, any other duties that may come under their jurisdiction.

W. M. POLK

Chairman Democratic Campaign Committee, Clanton.

(Paid Pol. Adv. by W. M. Polk, Chairman Dem. Cam. Com., Clanton)

TAX NOTICE!

Collector's & Assessor's Round

We will attend at the following times and places for the purpose of Collecting the State and County Taxes for Chilton County for the year 1928 and assessing Taxes for the year 1929.

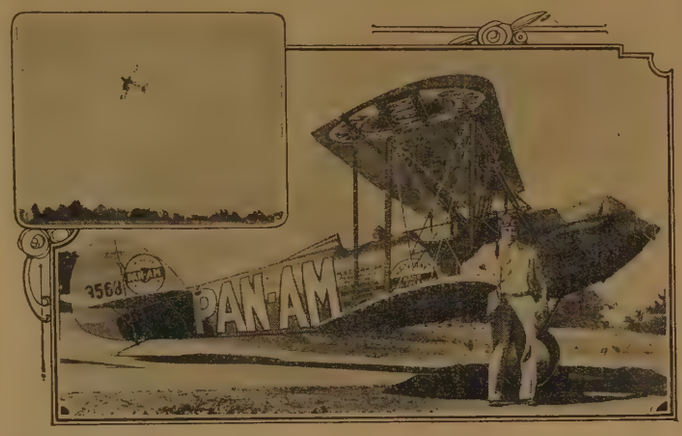
Macedonia, Beat 14	Oct. 18, 1928	Jemison, Beat 2	Oct. 26, 1928
Benson, Beat 3	Oct. 19, 1928	Coopers, Beat 10	Oct. 29, 1928
Mt. Creek, Beat 5	Oct. 22, 1928	Thorsby, Beat 9	Oct. 30, 1928
Cane Creek, Beat 11	Oct. 23, 1928	Verbena, Beat 5	Oct. 31, 1928
Culp Schoolhouse, Beat 15	Oct. 24, 1928		
Providence, Beat 13	Oct. 25, 1928	Clanton, Beat 4	Nov. 1, 1928

Take notice that under the 1923 Revenue Code it is the duty of every person in each Election Precinct to attend in person on the day of the appointment in your Precinct and then and there render to the Assessor a full and complete list of all the property of which he or she was owner on the first day of October of that year. All taxes and assessments are delinquent after December 31st, 1928.

J. T. ROCKETT, Tax Collector.

S. M. PATE, Tax Assessor.

PAN-AM AGENT HAS SPENT 4955 HOURS IN THE AIR



When it comes to flying, Mac Johnson, agent for the Pan American Petroleum Corporation at Augusta, Georgia, has a few records that make even the hardiest of the flying fraternity sit up and take notice.

Johnson started flying in November, 1917, enlisting in the army at Berkely, California. Since that time he has collected 4,955 flying hours to his credit—and is still going strong. For his Pan-Am plane is seen almost daily in the air around Augusta, where he finds it very useful in his work of distributing Pan-Am gasoline and motor oil.

Among Johnson's records to date are five cross-country flights from coast to coast; a world's record for landing and taking off in one day when he did the job 380 times at Dillingham Field, Asheville, N. C.; the second plane to fly below the rim of the Grand Canyon; service in the air mail; has flown approximately 396,400 miles, carrying over 14,000 passengers.

Based on a consumption of 10 gallons per hour, Johnson has used 49,500 gallons of gasoline in his plane, or approximately five tank cars.

If you ask Johnson what his biggest thrill is about flying he will probably tell you it comes from his record of having gone through all his experiences without a single accident to plane or person. And that's a real record.

CHICKEN CHATTER

(By C. A. Trollope, Auburn)

Keep tab on your hens.

Are worms keeping your egg basket empty?

Pullets in production now must be kept in good flesh.

Encouraging crop reports are causing feed prices to decline.

Clean up the poultry house and yards—vermin reduces profit.

A damp, crumbly mash fed daily will help to bring the molter back on the job.

A new method of killing lice by the use of Black Leaf 40 has been discovered.

The poultry show offers a genuine opportunity to exchange ideas and to compare notes.

Chickens are grazing animals—but have you provided any green feed for winter grazing.

Feeding freely for eggs during molting period is the best way to shorten the molt period.

An egg is about two-thirds water.—Production suffers when the flock is deprived of ample clean water.

Take a hand at culling. A little confidence and courage plus a knowledge of a few simple facts make it easy.

Beware of the use of artificial lights unless you know your business. This is primarily a feeding problem.

Colds, roup and bronchitis may be materially avoided by preventing drafts in the poultry house at this season.

Prevailing high prices of beef and pork may exert influence to keep egg prices at a good level the coming year.

If you were learning to cut diamonds you would start on a small one of little value. Yet some start in poultry business with enough hens to puzzle a patriot.

NEWS IN BRIEF

A press dispatch of October 8 says that the recent storm damaged the grapefruit industry in Porto Rico to the extent of $10,000,000. The Florida grapefruit and orange crop suffered also.

Great Britian is now planting trees at the rate of one million a week, according to the British Forestry Commission. Before the World War about three billion feet of timber were standing in Great Britian as compared with half this amount at present.

Sixty-two 4-H calf club boys and girls from four counties—Marion, Lawrence, Lamar, Pickens—staged a calf club show at the recent state fair in Birmingham. They and their calves attracted much attention and also favorable comment, according to J. W. Burns, Auburn.

The Alabama Polytechnic Institute at Auburn is offering correspondence courses again this year. Dr. B. R. Showalter, who is in charge, says that college credit towards degrees will be given those who complete the work satisfactorily. Courses in economics, history, mathematics, physics, foreign languages and home economics are being offered.

Demonstration farms are to be established at six of the secondary agricultural schools in Alabama this year. Plans for starting them were made at a recent conference of county agents, district agents, and teachers of vocational agriculture in Auburn. The schools at which these farms will be established are located at Hamilton, [illegible]ville, Jackson, Abbeville, [illegible] and Blountsville.

GREAT AIR DEMONSTRATION FEATURE AT LEGION CON.

San Antonio, Texas, Oct. 9. What it is hoped will be the greatest air demonstration and concentration in the history of the country will be one of the features of the American Legion national convention here, according to Phillip B. Stapp, general convention director.

Plans are being pushed forward rapidly by the Legion convention bureau in co-operation with the San Antonio chapter of the National Aeronautics Association, whose local vice president, E. A. Feille, is chairman of the convention aeronautics committee.

One thousand planes flying in a single formation over this city, seat of the army's new "West Point of the Air", is the committee's goal. Every prominent civilian pilot is being invited to attend, by personal letter and by invitation at the national air races at Los Angeles. The war department, which has already promised to send its best fliers to take part in the convention air circus, is being asked to order every war-time pilot still in service to San Antonio for a great war pilot reunion.

Allied governments are each being invited to send a squadron, made up so far as possible of World War aces. Squadrons are being invited from Mexico, Cuba and Canada.

On "air day" of convention week a new record for airmail shipments from one city in a single day will be sought. Colonel Charles A. Lindbergh, one of the convention's distinguished guests, and other noted pilots will be asked to fly the mail that day. Convention visitors and business houses will all be appealed to swell the volume of mail.

At the municipal airport at Winburn Field two big air shows will be held, displaying one ship of every type used in commercial and civilian flying in America. Kelly field will exhibit all army types.

Cities all over Texas are being marked to guide the aviators. Emergency fields at San Antonio are being added and adequate servicing of the planes will be provided at these and regular fields. Every available gas truck in the city is being requisitioned Six hundred airplane mechanics, army and civilian, will be on hand. Blue prints of all fields at San Antonio will be mailed to every pilot.

DEPUTY SHERIFFS MAKE ARREST LAST SUNDAY

Last Sunday morning, Deputy Sherifffs P. G. Robinson and P. L. Robinson arrested Jimmie Varden of near Mineral Springs on a charge of violating the prohibition law, according to information given us this week.

Varden, it was reported, was found with a quantity of liquor in his possession near his home. He made bond

MAY ESTABLISH NEW AUTOMOBILE AGENCY HERE

Mr. Henry W. Bailey who is connected with the Brownell Auto Company of Birmingham, Dodge automobile dealers, was in Clanton last Monday on business of locating a Dodge car agency here.

Mr. Bailey stated that he was very anxious to secure an agency here for this popular make of car. Just who will take the agency, is not yet known

EYES TROUBLE YOU?

I specialize in the examination of eyes and will tell you honestly whether glasses are needed or not. Protect yourself against defective vision. Attend to this matter at your first opportunity.

CROSS EYED CHILDREN!

Special attention will be given to children with cross eyes regardless of age and proper attention in time will avoid permanent crossing of the eyes. Bring your children for examination.

I WILL BE IN CLANTON THE LAST MONDAY IN EACH MONTH AT THE EXCHANGE HOTEL

DR. S. A. BARSON
Optometrist

404-6 First Nat'l Bank Bldg. Montgomery, Ala.

More time for LIVING

POWER and light . . . servants of civilization . . . are adding —in toil and time saved—hours to each day, months to each year, years to each life . . . giving to all in Alabama more time for culture, for enjoying the good things of life . . . more time for living.

In hundreds of factories in all sections of Alabama 800,000 odd horsepower in electric motors is now installed. About 8,000,000 workers would be required to produce this tremendous force. Each worker thus commands motor-driven mechanical workers of many times his own capacity, which shorten his hours, increase his output and wages, and lessen the burden of his toil.

On 6,000 Alabama farms 10,000 odd horsepower in electric motors and labor-saving devices enable the farmer to shift much of his labor to the tireless muscles of power, increase his production, and save time and energy.

In 165,000 Alabama homes thousands of electric servants hasten household tasks and save homemakers—for the care of the lives entrusted to them and other important duties—countless hours of time and labor. These mechanical maids-of-all-work have a capacity in all of something over 200,000 horsepower.

Everywhere—the factory, the home and the farm—there is light . . . speeding production, lightening arduous tasks, conserving eyesight, policing streets, adding hours for recreation, study and improvement of the mind, and spreading everywhere a glow of warmth and beauty.

So that when dark comes down on Alabama, when day is done, thousands know new leisure. For in the 16 years since 1912—Alabama's hydro power period—electricity has brought a new life to our State.

Van Smith Returns From Mtg. Hospital

Mr. Van Smith has returned to his home in South Clanton, after having been confined in a Montgomery hospital as the result of a friendly wrestle several weeks ago.

Mr. Smith was carried to the Memorial Hospital in a Martin ambulance several weeks ago, where it was found that several muscles in his neck had been torn loose.

At first it was considered that Mr. Smith's condition was serious, and now in fact, he will be confined to his bed for some time.

The News join with the many friends of Mr. Smith and his family in wishing for him a very speedy recovery.

CARD OF THANKS

Dear Editor:

Please give us space in the columns of your valuable paper to try, in our humble way, to express our great gratitude to our many friends and neighbors for the many acts of kindness and courtesy shown us during the recent illness and death of our daughter and sister, Pearl Wood.

We cannot command words to express our thanks and appreciation for the many acts of kindness but we pray God's choice blessings upon each and everyone and we feel sure that the great God of Heaven will bless you for we believe that in as much as you did it unto us, you did it unto God. We hope that we can in some God appointed way return the favors to you or at least to humanity for we cannot see yet how we could have born up under such strain if it had not been for our faith in God and the many words and deeds of kindness of our friends.

We especially thank Doctors Gragg, Marcus and the Doctor at the Old Soldiers Home, whose name we did not learn, for their pains taking efforts to save her life; Brethren Lawrence and Ezell for their many, many words of comfort, May God's richest blessings rest upon them; We also wish to especially thank Brother Martin for his promptness and good service rendered us.

We all join in invoking God's richest blessings upon each of you.

Mr. and Mrs. Jesse Wood and family.

Bring your friends to Isabella, an Agricultural center, the 26th of Oct., to see the year's reward of products, etc.

FORMER RESIDENT VISITS RELATIVES IN CLANTON

Mr. and Mrs. A. C. Wade and children of Birmingham were guests of Mr. and Mrs. J. Q. Wade during the past week end. Mr. and Mrs A C(Alva) Wade were at one time residents of Clanton, and have many friends here.

A Proclamation

BY THE GOVERNOR

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out: and

Whereas, notice of such election together with the proposed Amendment, is required by law to be given by proclamation of the Governor;

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice direct and proclaim that on Tuesday the 6th day of November, 1928, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

"The Legislature of Alabama may hereafter, from time to time by general or local laws, fix, regulate and alter the costs, charges of courts, fees commissions, allowances to be charged or received by any County Officer of Mobile County, Alabama, including the sheriff, the judge of probate, tax assessor, tax collector, clerk of the Circuit Court, and registrar of the Circuit and Chancery Courts, and the method and basis of their compensation."

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

BIBB GRAVES,
Governor.

JNO. BRANDON,
Secretary of State.

Interesting News From Thorsby

The Helen Keller Literary Society of Thorsby Institute will hold its first open meeting this week Friday at 7:30 in the afternoon in the auditorium. Every one is invited. Admission ten cents for those not members of the Society.

Last Saturday night the Boarding Department of Thorsby Institute had a picnic supper near Mr. Butler's home. The girls and lady teachers started at four o'clock with the lunch, and in about half an hour the boys and men teachers started to find the rest, they had been given directions, and it did not take long after they started to find the girls and the lunch. Everyone had a grand time.

Mr. and Mrs. George Grant and baby and Mr. Grant's mother, spent the day Sunday with Mrs. Fyke.

Miss Mary Lee Fike spent Friday night and Saturday evening visiting friends at Marbury.

Mr. E. Davenport and family spent Saturday night with Mr. Luther Davenport.

The Y. W. A. of the Baptist Church will meet next Tuesday with Mrs. Donald Merchant.

Dr. Sterling C. Wood made a professional trip to Birmingham Monday.

Mr. Clyde Robinson of Birmingham, spent Sunday with friends in Thorsby.

Mr. Lloyd Belter left for Ohio Sunday where he will take up new work; Mrs. Belter and son will follow him at a later date.

Miss Hattie Davenport spent the week end with her parents, Mr. and Mrs. B. L. Davenport.

Prof Lee Wilson of Birmingham, spent Saturday night with his brother, Mr. W. H. Wilson.

Mr. Willie Scott of Montgomery spent Sunday with his parents, Mr. and Mrs. R. W. Scott.

Mr William Each who is attending Business College in Montgomery spent Sunday at home with his parents, Rev. and Mrs. Joseph E. Each.

Mr. and Mrs. Emmett Billingsley visisted relatives in Birmingham and Bessemer, last week and reported a grand time.

The students of Thorsby Institute are enjoying a Bird Club which has been organized this past week. It's sole object is to learn to know our bird neighbors by sight and song. A chart is kept in the library on which each member records the names of the birds he sees and recognizes.

Mrs. Yancey Kelley and small daughter spent most of last week at the home of Mr. and Mrs. S. E. Norton. Kelley drove down from Birmingham Sunday and took them home.

Mrs. E. W. Butler entertained a few friends at her home Wednesday afternoon in honor of Mrs. Yancey Kelley.

Mr. and Mrs. T. L. Robinson spent the week end here with his parents, Mr and Mrs. T. W Robinson.

Miss Dovie Tatum had as her guest last week Miss Mamie Sue Stewart.

Mr. and Mrs. Astro Wright spent Tuesday night with his parents near Pleasant Grove Church.

Mrs. Flem Higgins and son Flem, Jr., spent Tuesday with Mrs. R. R. Franklin.

Mr and Mrs Lee Pate and Mrs R. R. Franklin motored to Montevallo Sunday afternoon.

Mrs. Leonard Hayes and daughter, Miss Lola Mae, Miss Hilma Collins and Jerome Wilson spent Saturday in Birmingham.

Mr. G. D. Collins went to Birmingham Tuesday on business.

FAKE PRIZE SCHEMES

A rather ancient scheme for separating the unwary from their money is being worked again, both in the United States and Canada, according to a leading business men's magazine.

The plan is to insert an advertisement containing a perfectly simple puzzle which anyone can easily solve, and offer prizes for correct solutions. A favorite prize is a "building lot."

Of course, anyone who sends in a solution of the puzzle wins a lot, but he is informed that he will be expected to remit a small sum—in one case $7.75—for the deed and other incidental expenses connected with the transfer of the property. The "lot" is very small and the $7.75 fees alone would net the seller around $200 an acre for some worthless land.

So, if the "winner" swallows the bait he is out just $7.75 for the privilege of working the puzzle, while his name is passed along to other swindlers as an easy mark.

There are many perfectly legitimate prize offers advertised in various periodicals, but those which require a payment of cash before the prize is delivered are generally fraudulent and should be shunned.

WATCH YOUR MACHINE

Every prudent person who owns and operates a piece of machinery is careful to see that it is kept in good condition. This is generally done through frequent inspections to detect unusual wear and tear, so as to have the necessary repairs made before the machine actually breaks down.

The most important piece of machinery, however, is often sadly neglected. We refer to the human body, the machine upon which all the joy of living depends.

It is well that people are more and more getting the habit of having periodical physical examinations, even tho they be apparently in good health. By these examinations incipient disease may often be detected long before the person examined would have felt any discomfort from it. This is particularly true of diseases which attack the internal organs such as the heart, lungs, liver and kidneys.

Every person, especially those getting along toward middle age, should have a thorough physical examination at least once a year, whether they feel any symptoms of disease or not. If no disease be found it is a great satisfaction to know that one is sound physically, while a warning of disease in its first stages enables one to obtain treatment which may check its progress and materially prolong his life.

Most large life insurance companies now afford their policy holders free medical examinations once a year and this privilege should be taken advantage of by all means. If no insurance policy be carried, the fee for such an examination is small and may save much suffering and expense in the future. Watch your human machine.

You are welcome to Isabella Friday, the 26th, to the Community Fair. It holds in store a treat for you, if you will only receive it.

A Proclamation

UPSET

With Stomach Spells

"I have taken Black-Draught ever since I was a child, and can recommend it as a splendid medicine for family use," says Mrs. Cora Mayberry, of Sageeyah, Okla. "My mother used it, in bringing up her family, and after I had a home of my own, I continued to use it, as I thought it was good to give the children.

"My children did not mind taking Black-Draught, and so when they got upset with stomach spells, or were constipated, I gave them Black-Draught tea.

"They are all grown now and have homes of their own, but I still keep Black-Draught in the house and use it myself when I wake up in the morning feeling dull and 'headachey', and have a bad taste in my mouth."

In use over 87 years. Price 25c. E-123

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out; and

Whereas, notice of such election, together with the proposed Amendment, is required by law to be given by proclamation of the Governor;

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice direct and proclaim that on Tuesday, the 6th day of November, 1928, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

The Board of Revenue of Jefferson County or other governing body of said county, in addition to the taxes it is now authorized and empowered to levy and collect, shall levy and collect annually a tax of not more than one-tenth of one per centum upon the value of the property therein as fixed for State taxation, to be applied exclusively to the purchase, construction, equipment, repair, operation and maintenance of a charity hospital or hospitals for the care and treatment of indigent persons.

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

BIBB GRAVES,
Governor.

JNO. BRANDON,
Secretary of State.

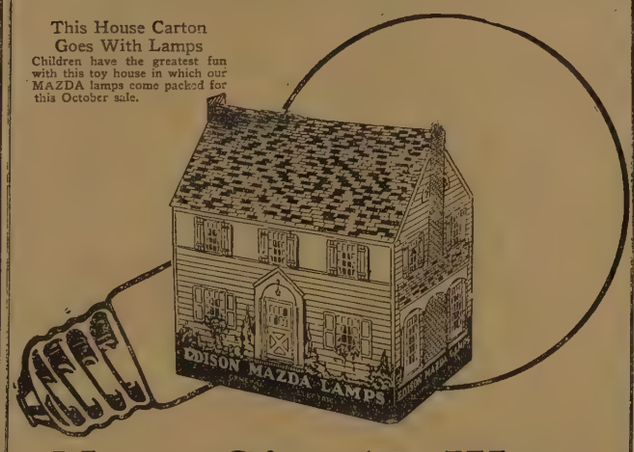
This House Carton Goes With Lamps

Children have the greatest fun with this toy house in which our MAZDA lamps come packed for this October sale.



Now—Six 60 Watt MAZDA Lamps For $1.32

YOU, no doubt, have some empty sockets, burned out or blackened lamps in your home. And sometimes have to change some of your lamps from room to room because you "simply can't remember to buy new ones." Why not have lamps on hand to replace burnouts, as they occur? This attractive toy house carton contains six 60 Watt Mazda lamps at the new low price of $1.32. The carton is a convenient container and, when emptied, a toy which will delight your children.

PAY NOTHING DOWN
CHARGED ON YOUR NEXT MONTHS LIGHT BILL

We are now offering wonderfully attractive terms in this lamp sale. You pay nothing down. The lamps are charged to you on your next month's light bill. Next time, when you are in town shopping, put our store on your list of calling places. Take a carton of these lamps home with you. Replace your blackened lamps which use up extra current. Fill up those empty sockets. Get a novel toy for your children with full instructions on the back for proper home lighting.

"SERVING FARM—FACTORY—FIRESIDE"

STATE CAPITOL NEWS

Montgomery, Ala., Oct. 15, 1928

Conservation has made rapid strides during recent years in the State of Alabama, and birds, game and fish are becoming more plentiful as result of better observance and enforcement of the laws enacted to protect wild life and insure a supply of game for future generations. In fact Alabama is today recognized as the greatest state in the Union for quail hunting, wild turkeys occur in 63 of the 67 counties of the state, deer are increasing in numbers, and favorable reports are received on the supply of doves, squirrels, 'possums and other game. Conservation work is under the direction of I. T. Quinn, State Commissioner of Game and Fisheries, who is carrying on an energectic and successful program of protecting and developing the state's resources in game and fish.

Favorable conditions in Alabama have been brought about by a vigorous campaign against law violators, thus preventing illegal destruction of wild life, by a broad restocking program and by educating the people to the value of our wild life. In carrying out this program 1402 convictions of game and fish law violators were had during last year. It is notable that it is almost unheard of that a man is found guilty of violating the law a second time. About 1100 convictions have been secured so far this year.

In the work of restocking the state with desirable forms of wild life, the Department of Game and Fisheries last year purchased 15,000 Mexican quail, which were liberated throughout the state during the nesting season. Reports indicate that there has been a very satisfactory increase from these birds, and that the crop this year will be exceptionally good. Alabama was fortunate in getting so large a numper of pirds last year, as it appears from present indications that few will be imported into the United States this year.

Native white tail deer were brought into Alabama and planted in the National Forest and in other sections of the State. The wild turkey situation in Alabama is becoming so favorable that last year when Hoyes Lloyd, Conservation Director of Canada, desired to observe the turkey in its haunts he chose Alabama as the best location.

Probably the greatest force in conservation today is the improved attitude of the public. More and more the public realizes that the law protects the true hunter and sportsman, and operates only against the game hog and the man who would take wild life during the breeding season. In its program of education the Department sent a representative to practically every 4-H Club held in the State during the past year to discuss the value of wild life, and a representatie made addresses before schools whenever an engagement can be arranged.

The Department also has charge of restocking the streams of the State and protecting fish life, and further is building up a large industry in sea food along our costal waters.

The open season on squirrels is November 1 to January 31, both dates inclusive; deer (male) November 1 to December 31; quail, Noember 20 to February 20; wild turkey gobbler, December 1 to March 31. There was a "split season" on doves this year, the season being opened for the month of September and will be opened again November 20 to January 31.

The hunting license for a county license allowing the sportman to hunt in the county of his residence is $1.00: State license, which is good in any part of the State $3.00; and non-resident license, for sportsman living outside of Alabama, $25. No fishing license is required of residents of Alabama, while the non-resident fishing license is $5.00.

The daily bag limit is fifteen quail; 25 doves and 10 squirrels; one deer and one turkey gobbler, with a bag limit for the season of five deer and ten turkey gobblers. Persons desiring further information concerning Alabama's game laws may obtain it by communicating with I. T. Quinn, Commissioner of Game and Fisheries, at the Capitol.

Alabama's tobacco tax attracted wide spread favorable attention at the recent conference of administrators of tobacco tax laws of various states, held at Memphis, Tenn. The Alabama law came in for commendation as largely eliminating the "nuisance" feature found in tobacco tax laws of other states, and was hailed as a model for other states to go by. Other states levy a "stamp tax" on smokes, while the Alabama law eliminates the stamp feature by providing for collection of the tax by wholesalers, the bulk of the tax being collected in this manner and remitted to the State by the wholesale dealers, who charges the tax to the retailer on his billing.

John C. Curry, general agent of the Alabama Tax Commission, addressed the convention and explained the workings of the Alabama law. The Memphis Commercial Appeal, in reporting the proceedings of the meeting, said:

"The tendency of the conference here semed toward adoption of the Alabama law as the model. It is generally understood that a bill will be presented to the next session of the Tennessee Legislature asking for changs in this state's tobacco law to conform generally to the Alabama law."

The State's general education fund, available for the fiscal year beginning October 1, amounted to $4,075,720 and increase of $144,018.88, over the preceding year, according to figures from the State Department of Education.

The general education fund is used for paying teachers' salaries, and is apportioned among the various counties on the basis of number of children of school age therein. This fund has been in exostence for many years, and is derived in large part from the three mill educational tax provided by the constitution of 1901. The increase in the amount of the fund is brought about by increased property values which result in an increase in the returns from the educational millage tax. In addition to funds derived from this general educational fund, there is available for educational work in Alabama revenue from a number of other sources, including the new and heavy apppropriations derived from taxes levied on corporations and tobacco by the last Legislature.

M. C. SMITH RETAINED AS SUPT. LOCAL WATER WORKS

We stated in a recent issue of the News that Mr. M. C. Smith had tendered his resignation as superintendent of the water works plant of the Town of Clanton, and after interviewing city employees, we have learned that Mr Smith has reconsidered his resignation and will continue to serve the city as water works superintendent.

Mr. Smith, as stated before, has served the town of Clanton as superintendent of water works for the past six or seven years, and during this time has rendered very efficient and commendable service to the city. The town of Clanton is very fortunate in retaining the services of Mr. Smith for this position.

It will be recalled that Mr. Smith recently received a very attractive offer to accept a position with the Warrior Water Company as superintendent of their plant at Montevallo.

Mr. O. O. Roper, who has served the Town of Clanton as Superintendent of Streets, resigned his position, his resignation taking effect October 1, of this year. Mr. Roper had been in this position for several years, serving the city in a very commendable way. After the resignation of Mr. Roper, Mr. Ress Driver who has been in the employ of the town of Clanton for the past several years, accepted the job as Street Superintendent, and his work so far is showing up remarkably well.

There is to be fun, heaps o' fun, on and about the school building, at Isabela, Friday, the 26th. Come see what this is all about. You will agree it is right when the races, contests and judging is done at the Community Fair

Mrs. J. H. Brown, Miss Edith Sims, Miss Hazel Krieder and Messrs Ruphus Brown and Courtland Rutherford motored to Montgomery last Saturday. Miss Krieder remained until Sunday with her parents.

MOATTS I. G. A. STORE FRONT IS NOW BEING REMODELED

The front of the Moatts I. G. A. Store, located near the L. & N. Depot, is undergoing repairs, and when completed will have a much better appearance. The old shed is being torn away, and will be replaced by a swinging shed on the order of the one at Matt's Lunch Shop.

Mr. E. I. Moatts announced last week the desolution of partnership in the business, and that in the future he would operate the business. Mr. Moats is well and favorably known to the trade here, and has enjoyed a splendid business, which continues to grow.

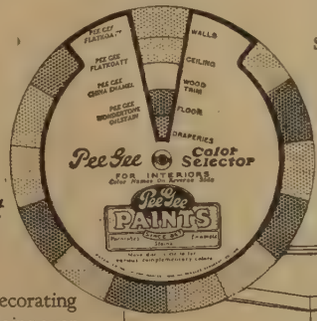
Color

Most important on your walls



It's time to think about decorating and this, of course, means doing over the walls. The first thing is to select a color which will harmonize with the furnishings in your room—a Pee Gee Color Selector will do that for you. Then buy or specify

PEE GEE *Flatkoatt*

in the chosen color and have the job done.

For lasting qualities, for prolonged beauty even after many washings and for downright economy there is nothing that can compare with Pee Gee Flatkoatt wall paint.

Come in and get a Pee Gee Color Selector. We will be glad to answer any questions you have on decorating.

PEE GEE COLOR SELECTORS FREE

When you use paint use a color that will harmonize with the other colors with which it will be seen. Pee Gee Color Selectors automatically solve this problem for you. There are two Selectors, one shows perfect color combinations for interior decorating, while the other is for exteriors. You can have both just for the asking.

Isabella High School News As Gathered by Reporter

Enrollment Increases

The enrollment for the Isabella High School is increasing yearly. Eight years ago there were only twelve students in high school, now there are one hundred and ten.

P. T. A. Meets

The Parent-Teachers Association held its first meeting at the home of Mrs. J. D. Griffin. The purpose of the meeting for organizing. The following officers weer elected: President, Miss Cora Belle Maddox; Vice-president, Mrs. D. O. Manning; Secretary-Treasurer, Mrs. W. G. DeShazo. After the election of officers, contests and games were enjoyed A delicious ice and salad course was served the matrons of Isabella.

Literary Societies Formed

The student body assembled for chapel and organized two Literary Societies. The names chosen for the Societies were Poe and Wilsonian. The officers for the former Society were elected as follows: Pres., Claude Conaway; V. pres., Robert Lee Griffin; Sec.-Treas., Mr. Earle Thomas The officers for the latter Society are: Pres., Imogene Griffin; V. Pres., Al Chambers; Sec.-Treas., Myrtle Durbin; Critic, Miss Cora Belle Maddox. The two Societies alternate in rendering programs; one conducting the program one Wednesday and the other the next.

Football Team Progressing

The football team under the direction of Coach Chambers is making a commendable record considering that this is the second year they have engaged in football. The student body, under the leadership of the cheer leaders, Gene Griffin and Kelly Seales, has shown its loyalty to the school by the splendid support they have given the team.

Senior Class Organizes

The Senior Class held a meeting last week for the purpose of organizing. The following officers were elected: Pres. Gene Griffin; V. Pres. Gwyn Williams; Sec.-Treas., Robert Lee Griffin.

Junior Class Organizes

The Junior Class met last week and organized their class. The officers elected were: Pres., Nina Fay Reinhardt; V. Pres., Vester Bice; Sec.-Treas., Claude Conaway.

Ball Team Entertained

Coach Chambers entertained the foot ball team and their guest at a picnic at Camp Canelia, Friday night, October 12. Games were enjoyed around the bonfire from 6:30 until 9:30. A picnic lunch was served to the following: Misses Mary Thweatt, Bonnie C and Gene Griffin, Emma L. Jones, Jeraldin Ratcliff Nina Fay Reinhardt, Mary Clay Turner, Dot Manning, Lorene Lecroy, Alma Sexton, Myrtle Durbin, Jewel Foshee and Rubye Cox. Messrs Bob and James W. Griffin, Claude Conaway, James Burnett, Hubert Foshee, Houston DeRamus, Clarence Smith, Renfro Veasey, Cato Roebuck, J. G. Haigler, Comer Durbin, Gwyn Williams, Buster Sexton, Oliver Manning, Hermon Lecroy, Kelly Seales, Alfred Penton and Coach Chambers.

Community Fair

A Community Fair is to be held Oct. 26. Interest is being shown by the number of prizes offered for the fattest woman, the best baby and the oldest couple. Dinner is to be served and games, races and stunts will add to the entertainment. A small admission fee will be charged. The funds will be used for the benefit of the school.

Entertainment At School House

There will be an entertainment at the High School auditorium, Saturday night, at 8:00 o'clock. An interesting feature will be a string band from Birmingham. There will be a small admission fee.

Leave your dinner at home and come prepared to spend the day. Enjoy our cafeteria eats. Wholesome food for everyone will be sold to suit your wants.

REGISTER'S SALE

The State of Alabama, Chilton County.
CIRCUIT COURT IN EQUITY
Hattie M. Gerald, et al. Complainant.
VS.
Lawrence F. Gerald, Defendant.

By virtue of a decree in the above stated cause rendered on the 13th. day of October, 1928, by the Circuit Court in Equity, to satisfy said decree, I will sell to the highest and best bidder for cash, at public sale, at the Courthouse door of said County, between the hours of 11 o'clock, A. M. and 4 o'clock P. M., ON WEDNESDAY, THE 31 DAY OF OCTOBER, 1928, the following described property, viz:

Commencing at the SE corner of the W 1-2 of the W 1-2 of the SE 1-4 of the SE 1-4 of Sec. 36, Twp. 23, Range 13, and run thence North 526 feet, thence run West at right angles a distance of 636.4 feet, more or less to the East line of the right of way of the Birmingham-Montgomery Highway, thence run in a Southerly direction on and along the East boundary line of said Highway a distance of 686.6 feet, more or less, to the point where the South line of the S 1-2 of the SE 1-4 of Sec. 36, Twp. 23, Range 13, intersects said East Boundary of said Highway, thence run East 195 feet, more or less to the point of beginning. It being the specific intention hereof, to describe a tract of land containing 5 acres, no more and no less, lying partly in the W 1-2 of W 1-2 of SE 1-4 of SE 1-4 and partly in the SW 1-4 of SE 1-4 both in Sec. 36, Twp. 23, Range 13, and being and lying on the South side of both of said sub-divisions of land and extending from the East boundary of said Highway to the East boundary line of said W 1-2 of W 1-2 of SE 1-4 of SE 1-4, in said Sec., Twp. and Range situated in Chilton County, Ala., sold for division among the joint owners and tenants in common thereof.

This the 16th. day of October, 1928.
W. D. SPIGENER, Register.

TO MANUFACTURE "ELECTRIC BELLE" RANGE IN ALABAMA

Huntsville, Alabama, Oct. 13.—G. A. Rogers, Huntsville contractor, has been awarded the general construction contract for the plant of the Rome Electric Range Company here, and announces that ground will be broken, weather permitting, within the next ten days.

The Rome Electric Range Company will manufacture at its plant, the "ELECTRIC BELLE" aiumimum electric range. This plant will be the only plant of its kind in the entire South, and Alabamians are pleased that this State was selected as the home for the new industry, state citizens.

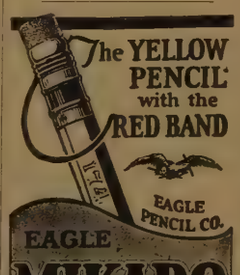
Officials of the Company together with its directors are business men of prominence and standing in this City and in Alabama. C. K. Porter, of Huntsville, is President, and among the direcors may be mentioned J. E. Pierce, editor and general manager of the Huntsville Daily Times, M. M. Hutchens, of the Hutchens Hardware Company, R. E. Smith, attorney, W. P. Dilworth, President of the Dilworth Lumber Company, P. S. Dunnavant, President of Dunnavant's Inc., and others.

The Company is already in receipt of orders from the Carolinas to California and from Canada to the Gulf, and its selling organization is gradually being perfected in such a way that distribution can be easily made when the plant is completed and in full production.

The efficiency and durability of the Company's product has been tested thoroughly and the oven feature of the range is covered by basic government patents.

It is understood that a program of welcome is being arranged to be given upon the breaking of ground for the new plant.

PECANS WILL HELP pay your debts and taxes. Learn how and why. Write J. B. WIGHT, CAIRO, GA. No. 4-4times-Pd.



A SPLENDID FEELING
That tired, half-sick, discouraged feeling caused by a torpid liver and constipated bowels can be gotten rid of with surprising promptness by using Herbine. Stenotype
"The Machine Way In Shorthand"

The fast, sure way of taking dictation—writes plain letters, averaging a word a stroke—it is easy to write — easy to read — easy to learn.

Here's What it Means to You:

It fits you for a class of work that is above lead pencil dictation and averaging pay.

It makes you faster, more accurate and enables you to take more dictation with less strain.

It gives you poise and confidence—a competent Stenotypist has no fear of the most rapid or technical dictation.

It takes all the guesswork out of transcribing your notes.

This new department, the most modern way for recording speech—the machine way—has just been added and we are proud to offer those interested an opportunity to learn. The opportunities at Wheeler are unlimited, as they are always up-to-date on any new methods offered students.

Enrollments are now being made, as classes begin October 15. Write for free information on STENOTYPY.

EXTENSION COURSE BEING OFFERED BY ALA. COLLEGE

Chilton County teachers, club women, and others who are interested will have the opportunity on next Saturday October 20 to take part in the extension courses being offered by Alabama College in Clanton and Maplesville.

Clanton classes will meet at the Courthouse at 9:00 o'clock A. M. A course in methods of teaching children how to study, and character development will be conducted by Dr. H. W. Jones. Dr Leah Dennis will conduct a class in English, at the same hour, and Prof E. H. Wills will conduct a history class.

Prof. Watson Selvage will conduct a class at the Maplesville grammar school beginning at 9:00 A. M., on methods of teaching children how to study, and character development.

A cordial welcome will be given to anyone who is interested in this phase of extension study.

ALABAMA BUTTER RANKS AMONG THE VERY BEST

Auburn, Ala., Oct. 15.—Butter properly made from cream produced on Alabama farms and in Alabama creameries ranks among he ery best butter in the country. This was revealed by a butter-scoring contest conducted at Nashville and reported by F. W. Burns, extension livestock specialist at Auburn.

A total of 53 entries of butter was scored in the contest. They came from eight southern states. The scoring was done by a representative of the United States Department of Agriculture and one of the University of Tennessee. When the scores had been recorded it was found that Alabama butter had both second and third places from the top.

The highest score was made by an entry from a Tennessee creamery, the score being 93.50. The Belle-Meade creamery of Montgomery was second with a score of 93.25, and the Robertsdale creamery was this with a score of 93.

In announcing these results Mr. Burns reiterated former statements that Alabama creamerymen are turning out excellent butter Steady improvement has been recorded during the last several years and further improvement is expected.

"Buyrs of butter", said he, "need not hesitate to place their orders with Alabama creamerymen. In the beginning of the creamery business in this state there may have been reason for complaints about quality but this is not true at present where creamerymen are taking advantage of the best information about making butter."

Mr. Burns was especially p'eased over the fact that Alabama won in competition with butter sent by seven other states. The experts who did the scoring were very complimentary of the quality.

AUBURN TO GIVE COURSES OF VARIOUS KIND BY MAIL

Auburn, Ala., Oct. 15.—To extend the services of professors of the Alabama Polytechnic Institute, Auburn, to those who do not have an opportunity to attend classes on the campus correspondence courese are being offered this year. Dr. B. R. Showalter, director of [illegible] teaching and professor of elementary education, has announced that eight courses are being offered in economics, seven in English, eight in foreign languages, eight in history, seven in mathematics, two in physics, eight in home economics, and thirteen in education.

Students may do as much as one-fourth of the work required for graduation at Auburn by correspondence he said. College cerdit will be given for all correspondence work satisfactorily completed.

Through these courses Dr. Showalter pointed out that the Alabama Polytechnic Institute is extending its service not only to no-resident students who are working toward a degree but also to business men, shop workers, housewives, school administrators and all others who are interested in study for the sake either of culture or of practical results.

When is it time to be happy and peppy, not at night when you are sleepy, but in the day time, especially on Friday the 26th.

Come To Isabella Community

FAIR Oct. 26th

For pleasure and see what our people are doing toward farm betterment, poultry raising, and in furthering home-making education in the school.

There is to be plenty of fun on and around the school grounds when the races, contests and judging is done, Friday, Oct 26.

No political speaking will be permitted at the Fair—Committee in Charge.

AN ORDINANCE

To authorize and provide for the issuance of bonds of the Town of Clanton Alabama, in the sum of Eight Thousand Dollars, for the purpose of acquiring, providing or constructing school houses in the Town of Clanton, Alabama.

Whereas, under and pursuant to an ordinance adopted by the Town Council of the Town of Clanton, Alabama, on the 12th day of April, 1926, entitled "An Ordinance to order and provide for an election to be held in the Town of Clanton, Alabama on the 15th day of May, 1926, for the purpose of having the qualified voters of the said Town of Clanton, Alabama vote upon and decide the question as to whether or not the additional bonds of the said Town of Clanton, Alabama, shall be issued in the sum of $8,000.00, for the purpose of acquiring, providing or constructing school houses of the said Town of Clanton, Alabama, which said ordinance approved on the 12th day of April, 1926, and under and pursuant to said Ordinance and the law of Alabama, the election was held on the 15th day of May, 1926, in the said Town of Clanton, Alabama, at the various voting places in the various wards of the Town of Clanton, Alabama, for the purpose of the qualified electors of the said Town of Clanton, Alabama, voting upon and deciding the question as to whether or not the bonds of the said Town of Clanton, Alabama, should be issued in the sum of Twenty Thousand Dollars, for the purpose of acquiring, providing or constructing school houses in the said Town of Clanton Alabama; and

Whereas, the voters at such election decided in favor of such bond issue, a majority of all legal votes cast at the said election having been, "FOR $20,000.000 for the purpose of acquiring, providing, or constructing school houses in the said Town of Clanton, Alabama, bond issue;" Now, therefore,

Be it ordained by the Town Council of the Town of Clanton, Alabama, as follows:

SECTION ONE

That the Mayor of the Town of Clanton, Alabama, be, and he is hereby authorized and instructed to have ingraved or lithographed as many as Eight (8) coupon bonds of the Town of Clanton, Alabama, each of which of the said bonds shall be in the denomination of One Thousand Dollars, and shall have theerto attached Sixteen (16) coupons of the denomination of Thirty Dollars each; each of said bonds shall be dated Nov. 1. 1928, and payable Nov. 1, 1948, and shall bear interest at the rate of six per cent per annum, and the said interest to be paid semi-annually on the first days of June and Decemeber of each year, from the date of issue to maturity, each of said semi-annually interest installments being evidenced by one of the forty coupons attached to the said bonds, and both the bonds and coupons thereto attached shall be issued in the form of Negotiable Paper, payable to the bearer in gold, at the Office of the HANOVER NATIONAL BANK, in the City and State of New York.

Said bonds shall be signed by the Mayor of the Town of Clanton, Alabama, and countersigned by the Treasurer of the Town of Clanton, Alabama, and the official corporate seal of the said Town shall be impressed upon the same. The coupons attached to the said bonds shall also be signed by the Mayor and countersigned by the Treasurer of the said Town of Clanton, Alabama, but if the signatures of the Mayor and Treasurer shall be lithographed in fac-simile on said coupons, such lithographic shall be deemed and held to have the same force and effect as original signatures.

SECTION TWO

That said bonds and coupons shall be in substantially the following form, to-wit:

No..... $1,000.00

UNITED STATES OF AMERICA
State of Alabama — Chilton County.
TOWN OF CLANTON
PUBLIC SCHOOL BOND

KNOW ALL MEN BY THESE PRESENTS: That the Town of Clanton, Alabama, a municipal corporation, created and organized under the Laws of the State of Alabama, acknowledges itself indebted and promises to pay to the bearer thereof the sum of One Thousand Dollars ($1,000.00) in gold coin, of the United States of America, of the present standard of weight and fineness to be paid at the Office of the HANOVER NATIONAL BANK, in the City and State of New York, on the First day of Nov. 1, 1948, under the surrender thereto, with interest at the rate of six per cent per annum, payalbe semi-annually in like gold coin at the Office of the HANOVER NATIONAL BANK, in New York City and State of New York, on the First days of June and December of each year, on the surrender of the coupons hereto attached.

This bond is issued under and by virtue of an Act of the Legislature of Alabama, entitled "An Act to authorize the holding of elections by municipal corporations in the State of Alabama, for the purpose of obtaining authority to issue bonds for public purposes herein defined, and to provide for holding such elections, and decaring the result thereof, and to authorize the issuing of such bonds." approved August 26, 1909, as amended by an Act approved February 20, 1915, and by an Act approved September 26, 1919, and of ordinance of the Town Council of Clanton, Alabama, duly passed and approved; and the issue hereof has been duly authorized by a majority of the qualified electors in the said Town of Clatnon, voting at an election duly called and held for the purpose. By the provisions of said Law, this bond and the interest Coupons thereto attached are exempt from State, County, and municipal taxation.

And it is hereby certiiied that the issue of this bond is made in strict conformity with the Constitution and Laws of the State of Alabama, and ordinances of the Town of Clanton, Alabama, authorizing the same, and that all proceedings and things essential to the validity of this bond has duly happened and been performed, and that all requirements of the Constitution, Laws and Ordinances have been duly complied with by the proper officers in the issuance of this bnod, and that this bond is within every debt and other limit prescribed by the Constitution or Laws of the State of Alabama.

IN TESTIMONY WHEREOF, The said Town of Clanton, Alabama, has caused this bond to be signed by the Mayor and countersigned by the Treasurer of the said Town, and its official corporate seal is to be hereto affixed, and the coupons hereto attached to bear the engraved or lithographed signatures of said Mayor and Treasurer, on this the 1st. day of Nov. 1928.

INTEREST COUPON

No..... $30.00.

The Town of Clanton, Alabama will pay to the bearer Thirty Dollars in Gold, on the ..... day of ....., 19..... at the office of the HANOVER NATIONAL BANK, in the City and State of New York, being semi-annual interest on public school bond No... ..... for One Thousand Dollars, dated Nov. 1st, 1928

..... Mayor.

Countersigned:

..... Treasurer.

SECTION THREE

That it shall be the duty of the Town Clerk of the Town of Clanton, Alabama, to record in a well bound book to be kept in his or her Office, the numbers, date and amount of issue of every bond issue under the terms of this Ordinance, and the name of the person to whom issued, and the number of coupons thereto attached at the time of such issue.

SECTION FOUR

That the money realized from the sale of the bonds herein provided for shall be and is hereby set apart as a separate fund for the purpose of acquiring, providing or constructing school houses of the Town of Clanton, Alabama.

Read and finally adopted on this the 8th day of October, 1928.

ERIC HART, Mayor.

Countersigned:

J. H. PLIER, Clerk.

..... Clerk.

Mr. B. F. Higgins and Mr. Flem Higgins, Sr., made a business trip to Birmingham last Monday.

Rev. T. M. Bakke and family of Thorsby were visitors to Clanton last Monday.

Mr. R. M. Roebuck and Mr. W. M. Roebuck of Maplesville were in Clanton last week on business.

Mr. J. E. Lett of Verbena was in Clanton one day last week attending to business.

Miss Mary Turner of Isabella was a visitor to Clanton last Wednesday.

Mr. O. C. Bird of Birmingham, who was at one time a resident of Clanton, was a visitor here last Friday.

Mrs. L. B. Green has been confined to her bed for several days, being ill with flu.

The friends of Miss Mollie Hannon will be glad to know that she is able to be out again after being ill for some time.

Mr. and Mrs. Evan Parrish and little daughter Helen, and Mrs. J. E. Evans motored to Coleanor last Friday and spent the day.

Dr. and Mrs. F. L. Jackson and son Jesse of Birmingham were week end guests of Mr and Mrs C E Stapp.

Misses Carlisle of Bessemer were in Clanton last Sunday visiting friends.

Mrs. Dora Jones is the guest of Mr. and Mrs. G. O. Foshee this week.

Hon. and Mrs. J. B. Atkinson and attractive daughters spent the past week end in Sylacauga visiting relatives and friends.

Mrs. Era Culver of Lomax was in Clanton last Monday shopping.

Miss Mary Thweatt and Miss Bonnie Clyde Griffin of the Isabella-Mulberry community were shopping in Clanton last Saturday.

Mrs. R. V. Jones of Cooper has accepted a position with the Leader, one of Clanton's popular dry goods stores.

Miss Ruth Easterling was a visitor to Montgomery last Sunday.

Mr. A. J. Deason of Waycross, Ga., is the guest of friends and relatives here for some time. Mr Deason was at one time a resident of the county.

COOPER NEWS

Mr. Ralph Grant of Birmingham spent the week end as the guest of relatives here.

Mr. and Mrs. Harrison Smith of near Wetumpka, spent the week end at the home of Mr. and Mrs. Joe Kelley.

Miss Lucille Calloway entertained a number of her friends at a birthday party at the home of her parents Friday night. Music was enjoyed until a late hour, and Miss Calloway, assisted by her mother served refreshments. Those enjoying this hospitality were Misses Inez Vance, Lucille Taylor, Gladys Hand, Rubye Vance, Gertrude Driver, Effie Dennis, Louanna Jones, Jannie Allen, Virgil Robinson, Lillie Mae Bupree, and Lane and Walker Allen, Lloyd Connell, Kermet Connell, Elzie Jones, Luke Calloway, Raymon Davenport, Charlie Moore and Mr. and Mrs. Bill Calloway and Mrs. Lizzie Vance.

Miss Bonnie Clyde Griffin spent last week end at her home at Isabella.

Mr. N. J. Robinson of Birmingham spent the week end as the guest of relatives here.

Mrs. Agnes Allen and four children of Verbena and Mrs. Agnes McNair spent Sunday afternoon and night with Mr. and Mrs. J. T. Allen.

Mr. Ben Day was the guest of friends here Sunday.

Mrs. Lula DeLoach and children of Wetumpka visited relatives here the past week end.

Buy oil by name
—TEXACO
Watch the color
—GOLDEN

The first thousand miles

This year . . . your choice of motor oils is second only in importance to your choice of cars.

For engines of 1928 are faster . . . they "turn over" more times in a given second. They run hotter . . . more explosions . . . higher compressions. Only a motor oil with full viscous body can "stand up" under this high-speed heat; only a motor oil as fine as golden Texaco can give your new engine the thorough lubrication it must have at all times . . . under all circumstances.

More than ever this year, the first 1,000 miles . . . and the oil you use . . . will determine your engine's performance during each of the thousands of miles to come.

From the first mile on, use Texaco Motor Oil. Free of tars, of paraffin wax and cylinder stock, Texaco flows in coldest winter . . . lubricates thoroughly and dependably at all temperatures.

Wherever you see the Red Star and Green T, ask to see the Texaco Lubrication Chart. It will specify the grade of Texaco Golden Motor Oil authorized for your new engine.

Texaco Petroleum Products

TEXACO
GOLDEN
MOTOR OIL

ATOMIZED
VAPORIZED
Not WET . . . But DRY
A wet gas is an atomized mixture of gasoline vapor with liquid drops of raw gasoline. These drops, separating at every manifold bend, result in uneven distribution and flooded cylinders.
A dry gas, the new and better Texaco, vaporizes completely. It forms a dry gas—a perfect mixture of gasoline vapor and air, which provides an even flow of fuel and power to every cylinder.
You buy the LIQUID but you use the VAPOR

Faster . . Faster . . We Drive

Changed Motoring Conditions Demand a New Gasoline

60 . . . 70 . . . perhaps more miles per hour—mastery of the highest hills in high gear—quick-action power—all of this you and thousands of others demand when you buy a car. You may never use this excess power, yet you want it.

Faster and faster—each year a little faster—you drive over increasing miles of improved roads. Faster and faster moves the traffic of cities.

The *new* and *better* Texaco is an answer to these changed and changing conditions. In the tank, the *new* and *better* Texaco is a pure, non-doctored liquid; at the spark, a vapor that is so free of moisture that it can be truly described as *dry*. It is this dryness—this ability to form a dry gas—which, in your engine, results in increased power and responsiveness throughout its entire driving range.

Anywhere—wherever you see the Red Star and Green T, drive in for the *new* and *better* Texaco—the gasoline that forms a dry gas.

J. S. Catts Sends In Letter Endorsing Alfred E. Smith

Editor Chilton County News,
Clanton, Alabama.
Dear Sir:

I would appreciate it if you will allow me space in your paper for publishing the attached letter from a former citizen of this county, which explains itself:

Yours very truly,
J. S. CATTS, Verbena, Ala.

NEW YORK, Aug. 10, 1928.

"Mr. Jack Dudley,
318 Charles Street, West End
Birmingham, Alabama.
Dear Cousin Jack:

I was glad to get your letter of August 8 asking what I thought of Governor Smith. You are correct in your impression that I was for his nomination. In fact I attended the Houston Convention as a member of the New York delegation.

I have now lived in the State for more than twenty-six years. Governor Smith has been the head of the State government continuously since January 1, 1919, except for two years. In the after-war campaign of 1920 he was defeated by seventy-four thousand votes, although he ran more than a million votes ahead of his ticket. He was thus been under public gaze and has been tested sufficiently for any citizen of this State to form a confident judgment about his qualifications.

Based upon my observations I tell you, without qualification or reservation, the following:

(1) He is a man of the highest character, both personally and officially.

(2) There is no better type of American.

(3) He is more skilled in the art of government than any public official of this State of whom I have known during my residence here.

(4) He has a high conception of the dignity and responsibility of his office, with the most scrupulous and conscientious regard for the sanctity of his oath of office.

(5) He is as completely courageous and independent in the conduct of his office as any official, either Federal or State, of whom I have ever known.

(6) He is intensely human and is devoted to the welfare of the masses of the people.

(7) He is an excellent business man, with an extraordinary capacity for the mastery of the details of public affairs for which he hs responsibility.

(8) He is a tremendously hard worker and is always on his job.

(9) While I have but slight personal acquaintance with him, I have frequently seen him on public occasions and from seeing him in that way only I have learned that he is a man of charming personality.

I am satisfied that if Governor Smith had had opportunity to make himself known in other States in the same way that he is known in New York, or if during the campaign there is time for him to go about the country generally, the petty talk now going on about him in sections where he is unknown and the misrepresentations about him would disappear and nothing could prevent his election. The chief objections to him, so far as I have heard them, centers about religion, liquor and Tammany.

He is a deeply religious man and adheres simply to the faith into which he was born precisely as you do. Since he has been tried out ever since 1919 as the head of the government of a State of twelve million people and has never during that period employed the governmental power entrusted to him for sectarian purposes, I am convinced he can be trusted to follow the same course if elected president. In five campaigns in which he has been the democratic nominee for Governor in this State, I have never even so much as heard the subject of his religion mentioned. He is so thorough an American and has such a high conception of his oath of office that there is, in my judgment, not the slightest basis for fear that if he were president he would favor his own church.

However much anyone may disagree with him as to the wisdom of the present form of the statute for carrying out the prohibition amendment, I think nobody can deny that he has been perfectly frank in stating his position. I think also that the conduct of his office as Governor has demonstrated that, irrespective of his personal views as to the policy of the statute, if entrusted with the duty to enforce it he will perform that duty to the best of his ability. No one who is candid and informed about the facts can truthfully say that during the past eight years there has been a vigorous and genuine effort on the part of the Federal government adequately to enforce the Volstead act. As I see it, one who favors a more vigorous enforcement of the Volstead act can confidently expect a real effort by Governor Smith to enforce it if he is elected and the statute continues in its present form.

As everybody who lives in New York knowns, Tammany has been grossly misrepresented in other parts of the country. Based upon experience of more than twenty-six years in this city, I tell you the standards of Tammany in this city are in my judgment better than those of the Republican organization in this city. If you will take careful note of anything authentic said by public speakers to the discredit of Tammany, usually the facts are drawn from some grave where they have been buried for some fifty years or more. There is one set of circumstances which ought to be considered in the South however about which there can be no dispute. Whenever in the various crises since the Civil War the Republican partisans have sought to impose onerous and detestable conditions upon the South, Tammany has loyally resisted and has contributed in great measure to the defeat of these measures.

I am as completely loyal today to the political ideas of the Black Belt of Alabama as when I resided in the State. From the standpoint of a Black Belt Democrat Governor Smith is not only acceptable to me but I am enthusiastically for him. I am for him because he is clean, he is honest, he is courageous, he is indepentdent, he is skilled in the conduct of government, he is intensely human and he is devoted to the public welfare.

I note with pleasure that you still stand firmly for your old political ideas. I hope what I have written may afford you additional assurance that you are right.

With kind regards to you and your family,

Sincerely yours,
FRANCES G. CAFFEY.

What is happening at Isabella, the 26th. A Community Fair, you bet Come, be on time, eat, drink and be sure to see the exhibits for the day.

A Proclamation

BY THE GOVERNOR

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out; and

Whereas, notice of such election, together with the proposed Amendment, is required by law to be given by proclamation of the Governor;

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice direct and proclaim that on Tuesday, the 6th day of November, 1928, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

Midland City School District No. 15 in Dale County, Ariton School District No. 50 in Dale County, shall each have the right and power by a majority vote of the qualified electors of such districts voting at an election held for that purpose to levy and collect for public school purposes including the payment of indebtedness a tax not to exceed ten mills any one year in addition to all other taxes now authorized by law. The election in such districts to determine whether or not such tax shall be levied shall be called, held and conducted as now provided by law for calling and conducting an election to determine whether or not the three mill district school tax shall be levied and collected, and the laws governing the handling and the expenditure of the proceeds of the ten mill tax herein provided for shall be in all respects in accordance with the law governing the handling and the expenditure of the three mill district school tax.

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

BIBB GRAVES,
Governor.

JNO. BRANDON,
Secretary of State.

Report Cards Sent Out

The pupils' monthly reports went out this week and the faculty will appreciate it if parents will check over them, sign, and return at once. A reoprt card will be issued for each pupil each month and the faculty is very anxious for them to be watched by parents and returned promptly.

Rockford Game

The school was well pleased with the football game with Rockford last Friday afternoon. It was said to be the cleanest, hardest and most spirited game of the season. But the big game is coming off tomorrow afternoon with Alexander City. We want to see a large crowd out, boosting "ole C. C. H. S."

The P. T. A. held its usual meeting last Tuesday afternoon at 3 o'clock. A general High School Course of Study was explained by Mr. Warr. A large crowd was out, but not as many parents as we'd like to see.

The Annual staff met in the office last week and gave the contract to the Paragon Printing Co. of Montgomery, for the printing of the Annual.

The Jr. II class entertained in chapel last Friday morning with a song. The words were original and were made to suit the action of this class. All the pupils are excellent students and Mrs. Warr and the whole school is very proud of them. The student body enjoyed the entertainment very much and would like more of such spirit.

There is much repairing going on at the high school this week. The walls are being mended where the plastering has broken loose. We all hope to have the building in a better condition within another month.

Mr. and Mrs. Warr feel deeply grateful to the P. T. A. for the splendid surprise shower given them last Thursday night. Different articles were given them, nothing overtapped. This is greatly due to Mrs. Washington's suggestion.

Mrs. Washington, who is at the head of the Music Department was called to her home last week on account of serious illness. We are all glad to have her back with us again.

The new teacher is expected to be able to take up her work here next Monday.

Mr. and Mrs. O. V. Bruner and several of the high school boys motored to Montgmery last Saturday night to witness the Camp Maxwell vs. Alex-City game.

Miss Louise Nichols, a former teacher of C. C. H. S. was a visitor here last Thursday.

Miss Annie Laurie Clay and Miss Bernice Williams spent Saturday in Birmingham.

Miss Nell Wells spent the week end at her home in Jemison.

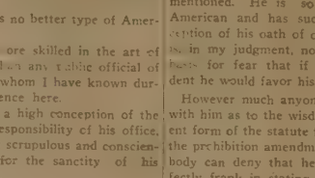
CLANTON, - - - - ALABAMA

OCTOBER 18-19

and will be pleased to show you the Newest Designs of Men's individually made Garments for this season.

Maybe you have been busy or for some other reason unable to select your suit for fall. If that is true, you still have time to make your selection. We're here to serve you. What's more important - your suit will be delivered on time.

To the 5000 who daily become owners of the new Ford car



THE service obligation of the Ford Motor Company and its dealer organization is now growing at the rate of 5000 cars a day. It is to these new car owners that this message is addressed.

The new Ford is a remarkably fine car for one that costs so little. It is simple in design, constructed of the finest materials, and built to unusually close measurements.

These are the reasons it performs so wonderfully. These are also the reasons its service requirements are so few and the up-keep cost so low.

When you receive your new car, the dealer will explain the simple little things that should be attended to at regular intervals to insure the best performance. He will also tell you something of his own facilities for doing this work promptly and at small cost.

With the purchase of your car, you are entitled to Free Inspection Service by your dealer at 500, 1000 and 1500 miles. This service is due you and we urge you to take full advantage of it. Proper care during this breaking-in period means a great deal to the life of your car.

Included in the Free Inspection Service is a check-up of the battery, the generator charging rate, the distributor, the carburetor adjustment, lights, brakes, shock absorbers, tire inflation and steering gear. The engine oil is also changed and chassis lubricated.

No charge whatever is made for labor or materials incidental to this inspection service, except where repairs are necessary because of accident, neglect, or misuse.

The labor of changing the engine oil and lubricating the chassis is also free, although a charge is made for the new oil.

We believe that when you see the good effects of this inspection you will continue to have it done regularly throughout the life of your car.

Wherever you live, you will find the Ford dealer very helpful in keeping your car in good running order for many thousands of miles at a minimum of trouble and expense.

He operates under close factory supervision and has been trained and equipped to do this work promptly, thoroughly and economically.

FORD MOTOR COMPANY

New Electric Rates Would Place All Consumers On Equal Basis

This is the second of a series of advertisements explaining the proposed new Domestic Electric Rates

AT PRESENT there are sixteen different rates for domestic service in effect on the lines of Alabama Power Company.

The new schedule filed with the Public Service Commission contains one set-up to replace thirteen of the present rates. Thus, except for service of a rural nature, where distribution costs are high, all residence customers, large and small, will be served on the same basis.

The new rate consists of energy charges of 4 cents, 3 cents and 2 cents per kilowatt hour with an initial charge for the first 5 kilowatt hours or less, which will vary with the customer's requirements. The low energy rates will enable all customers, large and small, to use electricity much more liberally in the home at much lower additional cost than is possible under the old rate forms.

The initial charge for the first 5 kilowatt hours provides for part of the costs of service resulting from the large investment in operation to supply electric service twenty-four hours a day. Since these costs are fixed in amount and do not vary with the number of kilowatt hours used, the size of the initial charge is based upon the size of the house or apartment, instead of upon the amount of electricity used.

The number of rooms is an approximate measure of the service requirements of the customer and the use of such a basis renders unnecessary the installation of costly demand meters.

If the room basis is not used, the charge for the first 5 KWH would be $1.45 for every customer. The room basis method brings the initial charge down to $1.00 for a 3-room house or apartment and thus puts 4-cent energy available for the smallest home.

The room basis enables the installation of the promotional type of rate with a maximum number of decreased bills, especially among the smaller homes.

For large houses with many rooms, of which the customer uses only two or three, an optional rate (D-2) would be available. This rate is:

For the first 5 KWH $1.50
For all additional energy, per KWH ..... .06
(No room charge)

We believe, however, that most of our customers will prefer the regular rate, with its 4 cent, 3 cent and 2 cent energy charge.

Further details of the proposed new rates will appear in an early issue of this newspaper.

VOLUME 7 — CLANTON, ALABAMA, THURSDAY OCTOBER 25, 1928 — NUMBER 5

Hon. Lamar Jeffers Issues Plain Statement

Explains Abolishment Of Segregation In Census Bureau

Mr. Jeffers statement in full follows.

During the course of the present campaign, I have received a great many inquiries from citizens of our district regarding the abolishment of segregation as between the white and black races in the Bureau of Census, which, as everyone knows, is a bureau in the Department of Commerce of which Mr Herbert Hoover, the Republican nominee for President, was the head, and, in order that our people may have the benefit of the evidence in this case, I beg to submit this letter which I trust you will be kind enough to bring to the attention of our people through the columns of your valuable paper.

I know that some people have tried to claim that the abolishing of segregation in the Census Bureau in Mr. Hoover's department was accomplished at the suggestion of President Coolidge. Such an "alibi" is nothing more nor less than a weak attempt to "pass the buck" to President Coolidge since he is not now the Republican candidate for President, and it seems the Republicans feel they can, therefore, safely put the blame on him.

Also, I know that it has been stated that this order abolishing segregation came about through the influence with President Coolidge of Ohio politicians in which State Mr. Hoover was contesting with a favorite son (Senator Willis) for the Ohio delegation to the National Convention. As everyone knows, Senator Willis has died since that time, so it seems that the Republicans are not only willing to try to throw the burden on President Coolidge, who is not now their candidate, but in their efforts to clear the skirts of Mr. Hoover in this matter, it appears that they are allowing themselves to actually stoop to the shameful proposition of trying to lay the blame at the door of a man who is now dead.

It has been stated by some of the Republicans that the abolishing of segregation in the Census Bureau affected only a few young negro men who were there only temporarily doing certain study work and research work. That is not a statement of facts as the evidence submitted below will prove.

Careful attention is invited to the following news item which appeared in the Washington Post at the time when segregation in the Census Bureau was abolished. As it is well known, the Washington Post is one of the principal daily newspapers in the city of Washington, D. C., and it is not necessary for me to state that the Washington Post would not have dared publish such an article involving Mr. Hoover, the Secretary of Commerce, one of the members of the President's Cabinet, without first verifying facts. From this article it will be seen that the races had been separated by wise and proper segregation in different sections "where they had worked for years." This article also shows very clearly who the Ohio politicians were, and why they were interested in having this proper and peaceful segregation in the Census Bureau done away with. It shows that Mr. Hoover, then Secretary of Commerce, destroyed segregation in the Census Bureau in his department "just in time to present to the view of E. W. B. Curry, negro editor of Springfield, Ohio, a satisfied group of negro clerks," and made it possible for this negro, E. W. B. Curry, who was at that time running in Ohio, as a Hoover delegate to the Republican National Convention," to return home to Ohio "satisfied that he could safely run as he had planned." Here is the article in full as it appeared in the Washington Post of March 31, 1928:

HOOVER CHANGES RACIAL POLICY IN CENSUS OFFICE; COLORED CLERKS NOW IN ALL DEPARTMENTS: ADMINISTRATIVE POSITION SOUGHT; NEGRO ELKS ARE ACTIVE.

Colored clerks in the Census Bureau yesterday sought to learn why they have been brought up from the basements and other segregated sections where they have worked for years and placed in all departments of the bureau on equal terms with other workers. It was learned that the order to abolish segregation and racial discrimination in the department came at the order of Herbert Hoover, Secretary of Commerce.

The Secretary was visited by Neval H. Thomas, president of the Association for Advancement of Colored People, and by Robert J. Nelson, executive director of the Civil Liberties Bureau of Colored Elks, who described conditions in the department to him. His order for removal of the alleged discrimination, following an investigation, came just in time to present to the view of E. W. B. Curry, negro editor of Springfield, Ohio, a satisfied group of negro clerks.

Curry, who made a trip here yesterday from Ohio because his candidacy as a Hoover delegate to the Republican national convention had been injured by charges that the Department of Commerce here was honeycombed with racial segregation, returned to the Buckeye State satisfied that he could safely run as he had planned.

It is understood that negro Elks encouraged by the situation at present, have asked Secretary Hoover for an administrative position in the department of vital statistics, in connection with their national health program.

In this connection it is interesting to know that when the election was held in Ohio on April 24, 1928, this same negro, E. W. B. Curry, was elected as a delegate at large from Ohio to go to the Republican National Convention at Kansas City.

So, we perceive that this bit of Republican strategy which abolished segregation in the Census Bureau here in Washington in order to assure the election in Ohio of a negro delegate as a Hoover delegate to the Republican National Convention" worked out successfully; that is, from the Hoover-Republican point of view.

In the Times-Herald, Washington, D. C. under date of April 1, 1928, the following statements were contained in a news item:

"Segregation of the colored clerks in the Census Bureau has been abolished by order of Secretary Hoover, and all these clerks have been placed on an equal basis with their white fellow workers.

This change came about as a result of a protest to Secretary Hoover by Neval H. Thomas, president of the Association for the Advancement of Colored People, and Robert J. Nelson, executive director of the Civil Liberties Bureau of the Negro Elks.

E. W. B. Curry, colored editor of Springfield, Ohio, came to Washington to see Secretary Hoover about the alleged discrimination, but found that Hoover's order had already abolished segregation.

He is running as a Hoover delegate in Ohio. The Negro Elks, it is said, encouraged by the situation, will ask Secretary Hoover for an administrative position in the vital statistics Bureau in connection with the national health program.

Will you permit me right here a little statement which I gave out at the time this happened? This may be of some interest at this time in view of

(Continued on last page)

HON. LAMAR JEFFERS

Congressman From Fourth District of Alabama, Candidate For Re-election In General Election of November 6th.

THOMPSON FAMILY REUNION AT JEMISON LAST SUNDAY

The Thompson family reunion was held last Sunday, October 21st, at the home of Mr. E. L. Thompson in Jemison, Alabama. This day was also the seventy-sixth birthday of Mrs. Mary Thompson.

The following were present at this enjoyable affair, from Clanton were: Mrs. John Thompson and family; J. A. Thompson and family; L. O. Zimmerman and family; Rev. P. A. Lynch and family; Charlie Eiland and family; Reuben Wright and family; H. L. Thompson and family, Mr. and Mrs. Geo. Tippin; Mrs. Eiland, and Mrs. Henry Smith.

From Birmingham there were: Mr. D. C. Thompson and family; Miss Leona Thompson and Mr. and Mrs. Bernie Thompson. Mr. Ebbins Thompson and family of Rockford; Arthur Thompson and Mrs. John Thompson of Weogufka and Mr. D. B. Thompson and family of Thorsby.

HALLOWE'EN PARTY AT COLLINS CHAPEL SCHOOL

The News has been requested to announce that there will be a Hallowe'en party at the Collins Chapel School next Saturday night, October 27th.

A small admission fee will be charged and the proceeds derived from the entertainment will go to the athletic association of the school.

An enjoyable program has been arranged, and everyone who can, is urged to be present.

Kiwanians Sponsor Fire-Prevention Week

Fire Prevention and Clean-Up Week Creating Much Interest in Clanton

The Clanton Kiwanis Club is this week sponsoring Clean-Up Week, and much interest has developed in the matter throughout the town.

The club will give a $10 Gold Piece as first prize; $5.00 Gold Piece as second prize. Work and win a prize. The judges will make their inspection on Saturday, October 27th.

There should be no closed season for Clean-Up Campaigns, health authorities now warn us. We should love cleanliness in December as we do in May. For the fall and winter months are the best breeding months of the germs of respiratory diseases that gain powerful impetus by the let-down in cleanliness standards. Closed windows, imprisoned crowding behind closed doors, and over-heated rooms contribute to bring this about. The problem is largely that of crowd, household, and personal cleanliness. An unclean towel, and unsterile eating dish or utesil, coughing and sneezing into nearby faces and hand-shaking may serve to communicate "colds" and similar ailments. Our best protection, therefore, is the habit of cleanliness, which often begins with the spring Clean-Up Campaign but which should be followed through the entire year.

The warning of Doctor W. W. Peter, internationally known health authority, which appeared in a recent bulletin of the American Public Health Association, is one that people individually and collectively would do well to heed at this season of the year.

"If streets and alleys are filthy," he states "the yards will be filthy. If the yards are filthy, houses will be filthy. If the houses are filthy, the people are filthy. If the people are filthy they will be sickly, and they won't care.

"Or reason in the other direction. If alleys, streets, yards, and houses are cleaned, these things show that the people care. Those who clean up do other things. One step leads to another It's like knocking over ten pins. It's part of the same psychology working when the people decide they want clean water clean milk—and they will give better support to a health department which tries to keep down sickness in the town."

W. A. KEMP TO MOVE INTO NEW BUILDING SOON

Mr. W. A. Kemp stated this week that he will move his dry goods business into the new Popwell building on Main Street, next to W. Z. Hodges' store some time near the first of next month.

The Popwell building which has been erected for some time, is now being prepared for Mr. Kemp.

Mr. Kemp stated that he will continue to handle his same line of goods after moving into his new location.

MUSIC STUDY CLUB TO MEET SATURDAY, NOV. 3

On Saturday afternoon, November 3, at three o'clock, Miss Madelyn Orr will act as hostess at the first meeting of the Music Study Club of Clanton. This meeting will mark the beginning of a movement to establish firmly, the Music Study Club in Clanton.

A very interesting program has been arranged for the afternoon with Mrs. Barney Roberts presiding. The program is as follows:

Business; enrollment of members.

Vocal solo by Mrs. L. C. Ross.

Opera Story by Miss Annie Laurie Clay.

Vocal solo by Miss Madelyn Orr.

Piano Solo by Miss Washington.

Vocal solo by Miss Della Latham.

Debate: "Resolved, That Bach did more for Music than did Handel." For Bash, Mrs. J. C. Jones, Mrs. Napoleon Johnson, and Mrs. L. F. Gerald. For Handel, Miss Sawyer, Mrs. Arthur Willis and Miss Mullins.

Chorus Practice.

Everyone who is interested in a club of this character is invited to attend this meeting. With as much good material in Clanton as there is, it is hoped that it will be possible to create a large mount of interest in the study of music nd assure the success of this club.

The public is especially urged to coboost this movement.

Alexander City Team Defeats Chilton High

Mose Simpson Continues To Star On Chilton High Team

Chilton High School suffered its first defeat of the season last Friday afternoon, when they met the fast and heavy team from Alexander City, the final score being Alexander City, 14; Chilton High, 2.

At the beginning of the game followers of the two teams thought that Clanton would emerge from the field of battle victorious, as the local lads outplayed the visitors throughout the first half making seven first downs to the Alexander City teams' one. However, Clanton seemed over-confident at the beginning, and when they tried a line plays on the fourth down in their own territory and failed, they opened the way for the visitors' first touch down.

Clanton backfield men made many costly fumbles, one of which was made over the goal line, and was recovered by an Alexander City player back of the goal line for Clanton's only counter, two points.

The local lads could work the ball to within striking distance of the visitors' goal line, but lacked the necessary punch to drive the ball over.

Alexander City presented a team that was fast and displayed plenty of fight, and when the game ended, they were holding their own.

In only three departments did the visitors have the local team outclassed, and that was in punting, passing and managing to cross the goal for touchdowns.

The individual stars for Clanton were Mose Simpson, Brown, Minor, Retherford, and Simms, while other members of the local team gave a good account of themselves. Very few gains were made by Alexander City through the Chilton High line.

Funderburk, Horton and Wilbanks were the individual stars for the visitors.

HALLOWE'EN PARTY AT WHITE CITY SCHOOL HOUSE

This "night of nights", will you be there, our fun and frolics gay to share? We have some ghosts, some witches too. Who'll be most glad to welcome you, at seven o'clock; and stay, you know, 'til crowing roosters bid you go. All stunts and charms, the oldest, best Come try, and all your future test, at the White City School on Saturday, October 27th, at 7:00 P. M. Admission 5 and 10 cents.

DORCAS S. S. CLASS TO MEET WITH MRS. V. J. GRAGG

We have been requested to announce that the Dorcas Sunday School Class of the Baptist Church will have a spend the day party at the home of Mrs. V. J. Gragg, on Tuesday, October 30th, and each member is urged to attend and bring their scissors and needles.

Democrats Commended On Clean Campaign

DR. P. T. HINKLE

Democratic Nominee for Judge of Probate for the County, who is waging a hard fight to have a clean campaign, in the coming election.

NEW FEED SERVICE IS BEING STARTED

Auburn, Ala., Oct. 2.—In the future Alabama dairymen and poultrymen will have an opportunity to buy feed mixed by a formula recommended by diarymen and poultrymen of the college of agriculture of the Alabama Polytechnic Institute, Auburn. The Alabama Farm Bureau Federation has announced that an arrangement has been made for having these feeds manufactured by the Auburn "formula" in order to supply dairymen and poultrymen with them. This service will become effective immediately.

With this service inaugurated a new feeding era is beginning in Alabama. It is the first time for a step of this kind to be taken. It means that those who feed this feed will be following recommendations of feeding experts who have studied it from every angle. The formula for each is based upon experiments at Auburn and elsewhere.

Prof. L. N. Duncan, director of the Extension Service, points out that each is an open formula: there is no secret about either; and anyone can get the formula and use it. The advantage in feeding the feed is that feeders are relieved of mixing. The ration will contain what they want and Farm Bureau members can get it through their organization.

Although the real objective is for dairymen and poultrymen to get the best feed, Farm Bureau officials say that there will be a sufficient saving in cost, due to cooperative buying in large quantities.

TO CELEBRATE CULMINATION CHILDHOOD AND YOUTH WEEK

The culmination of Childhood and Youth Week will be celebrated at the Methodist Church Sunday evening, at 7:30 o'clock by a program entitled "The Holiest Task". The following are taking parts:

Father, Bernie Teel; Mother, Hazel Krieder; Children, Herbert Neighbors, Olive Rainer Elmore and Helen Evans.

The Spirit of Childhood by Miss Emma Sue Morris.

School Workers: Mr. L. C. Warr, Mary McSwain, Douglas Green.

Community Officials: Mayor Eric Hart, Miss Scarborough and Ruth Prince.

Church Workers: Mr. Lemuel B. Green. Misses Sara Pollard and Corine Polk.

Assisted by the church choir, Mrs. Barney Roberts, organist.

The program is being sponsored by a committee composed of Mrs. M. F. Jones, Mrs. M. A. Gore, and Mrs. L. C. Warr.. The program is offered to all, but parents are invited with extra cordiality. The pageant is beautiful and appealing.

REV. L. B. GREEN TO FILL REGULAR APPOINTMENT

There was no preaching at the Methodist Church last Sunday as the pastor Rev. L. B. Green, is in Pensacola, Fla., teaching a course in "The Program of Christian Religion" in a standard training school. He will return Saturday and fill his regular appointment on Sunday morning. There will be a pageant Sunday evening at 7:30.

Party Nominees Shunning "Mud-Slinging" Controversies

"Want to congratulate you on the clean campaign that you have been waging" is the expression that the Democratic nominees of Chilton County are hearing on every hand These expressions come from voters of every political affiliation, and the general belief is that the fact that Democrats of Chilton County have shunned any "mud-slinging" controversies will be of great benefit in gaining a victory for the party of Chilton County.

It is often said on the streets and in public places that the Democratic nominees are demonstrating their ability by not allowing themselves to be swept off their feet at a time when excitement is at a high tide.

The Democratic nominees are well and favorably known to the people of this county. They have made a success of their own business affairs and although, they may not be learned in the art of political oratory and political wrangling, they have demonstrated that they possess business ability, sound judgement and wish to end the campaign with a record that they can look back upon and be able to tell the people that they waged a clean fight and did it Honorably.

INFORMATION FOR PECAN GROWERS OF COUNTY

Mr. C. E. Stapp, County Agent,
Clanton, Alabama.

Dear Mr. Stapp:

Your letter of October 5 along with the pecans has been on my desk several days during my absence. The nuts were badly dried, but it is very evident that they are affected with common pecan scab. This disease has caused much damage this year throughout the State due to an unusual amount of rain fall at certain periods. The Delmas, Stuart and Pabst are our worst varieties to scab.

The control of this disease is still somewhat in the experimental stage, but commercial growers are getting very good results in many sections. Dust is preferable among the large growers, due to the fact that it can be made more satisfactory control by the use of sprays and dusts. Bardeaux mixture applied as a spray has so far proved most effective as a control. A dust consisting of 20 pounds of cooper and 80 pounds of lime has also given good results and more thoroughly applied. Whether a man is going to spray or dust, it is necessary that he use a very high-powered outfit. Experimental results have shown that an ordinary orchard sprayer, such as the barrel sprayer, is not at all effective. You can see from this that unless a man has a planting of sufficient size to warrant buying one of these high-powered outfits it is not worth while to attempt to control scab. I think it can be said that scab has caused more damage this year than ever before.

If this man is interested in spraying or dusting his trees, I shall be very glad to go into detail with you relative to a definite schedule of applying these materials.

Yours very truly,
JULIAN BROWN, Extension Horticulturist.

CECIL ARMSTRONG INJURED LAST THURSDAY, OCT.

Cecil Armstrong, who is an employee of the Alabama Power Company at Lock 18, was painfully but not seriously injured last Thursday, Oct. 18, in an accident.

Cecil, who is well known in Clanton, and who has numerous friends here, received one fractured rib and one broken rib when an iron pipe fell on him, is the report reaching us.

According to the information given us, Cecil s resting as well as could be expected at this time, and is in the Hospital at Lock 18.

THE WHISPERING CAMPAIGN AGAINST GOVERNOR SMITH

(Greensboro, N. C. Daily Record)

No candidate in recent years has been attacked as viciously as Alfred E. Smith, and this despite the fact that his life is an open book. No man dares come in the open and charge Smith with being dishonest and there is no act in his life to which they can point and declare that he is not an upright man in every respect.

Yet Smith is being attacked from every angle in a whispering, underhanded manner. They say that he is not a fit man to enter the White House because he came up from the slums. They turn up their noses and lift their eyebrows at mention of his wife because she was a faithful wife who did her own washing in the days when Smith's income was small. They say she is not fit to be the First Lady. They charge that he is a drunkard and a sot because he disapproves of prohibition, and probably takes a drink now and then,—like millions of those who hold this against him.

Alfred E. Smith is not the first candidate for the presidency to be attacked in a vicious manner. Andrew Jackson, sterling Democrat that he was and representative of the people, was the victim of a slanderous campaign which was directed against a devoted wife. The accusations nearly broke Jackson's heart and, when by chance she heard of them, they killed his wife on the eve of his entrance into the White House. Thomas Jefferson was criticized because he stood for religious freedom and the right of every man to worship God according to the dictates of his conscience without being penalized in political matters. In every age there have been traducers of men in public life, traducers who dare not make in the open the cowardly, dastardly statements they circulate in an underhanded manner. In every age there have been those who attacked men because of their religion, but thank God they have been in the minority in America! Heaven be praised that red-blooded Americans resent such tactics and invariably turn against those who stoop so low as to employ them!

What if Smith did come up from the slums? Is it not to his credit that he was able to overcome the obstacles which lay in the path to fame? Is it not the very essence of the spirit of this republic and a realization of the dreams of its founders that the poorest boy in the land might rise by exhibiting his true worth to the highest office in the gift of the people? Are honest Americans going to discriminate against Smith because he epitomizes the Americanism of which we speak so proudly?

What if Mrs. Alfred E. Smith did wash her own clothes and do other menial tasks when her young husband was striving to place his feet on the lower rungs of the ladder of success? Isn't that to her credit? Wasn't she the kind of wife she should have been? Would these critics have had her refuse to aid her husband by cutting expenses at home? The blood of every honest American should boil at this exhibition of snobbishness on the part of a few women at a social gathering in a northern city. Parasites criticising a useful woman; drones talking about a worker. Are men in free America to be barred from holding high office because those who wish to consider themselves the socially elect do not think their wives are capable of presiding over the White House punch bowls? The vote of every real American who earns his living by hard work day after day should be cast for Alfred E. Smith in order to demonstrate to these miserable critics of an honorable woman that they resent the insinuation of social inferiority; for those who criticize Mrs. Smith are in reality criticising every young wife of the present day who washes dishes and baby clothes in order to hold expenses within income. The doctrine of these critics is that only the "elect" are fit to govern. Every mother in modest circumstances who has done the menial tasks about the house should express her resentment of and contempt for such a doctrine. Every mother in modest circumstances who hopes that her son may at some future date rise to the heights should cast her vote for Smith in order to forever still those who contend that humble origin is a bar to future greatness.

And what if Al Smith does disapprove of prohibition? He is honest about it. He is absolutely frank in dealing with the American people, and there are millions who share his views in the matter. Do we call these million sots and drunkards because they feel that prohibition has not been a wonderful success? If so, we would have to term as such some of our leading citizens, among them being thousands of churchmen every bit as sincere and honest in their beliefs as those churchmen who are thundering against Smith because he dares to express his belief that the Volstead act is not perfect in every particular.

And who are the critics? Heaven save us from being delivered into the hands of such a motley crew! The Ku Klux Klan which is filling the land with all manner of slanderous intolerance and singing a hymn of hate in the name of Americanism. The religious intolerants who are seeking to deny public office to a man who is steadfast in the faith which he learned at his mother's knee. The malicious whisperers who dare not speak openly but delight in spreading all manner of false reports concerning the probity and character of a man whose life is the surest refutation of their slanderous statements. The snobs who think they are too good to associate with Mrs. Smith because she did the family washing. Thank God all wealthy folks are not like these.

This is the crowd which is challenging the right of Smith to hold office. Of course there are others. There are millions who will vote the Republican ticket because they honestly feel that Hoover is the better of the two candidates. These men and women should be respected because they are voting their convictions rather than their prejudices. Whether they desire it or not however, they will be forced to accept the support of those about whom we have been talking. We are certain that thousands of them would repudiate this support if they could. They cannot except in one way, by voting the Democratic ticket to express their contempt for such methods and their belief in the principles which real Americans have held dear since the birth of this nation.

ONE OF AMERICA'S POSTMASTERS TAKES FIRST AUTO RIDE

Agness, Ore., Oct. 20.—Shades of the pony express, the air mail, and all those conveyancee, fast and faster, that from time to time have upheld the efficiency of the United States mails—the village postmaster here has just experienced his first ride in an automobile.

His name is George Rilea, he is 63 years old, and it has been 25 years since he set foot in an urban community. There is nothing backward about Mr. Rilea, and no mere superstition was responsible for his failure heretofore to ride in a motor vehicle. It's like this: There are no automobiles in Agness, and on the few occasions back 25 years ago when he saw "horseless" carriages in Chicago and Portland, no one had asked him to take a ride.

When there is such prenamenon as Mr. Rilea in existence, chances are that his identity and location will be discovered by somebody's "nose for news". So, sure enough, it was Edward M. Miller, automobile editor of the Portland Oregonian, who found out all about Mr. Rilea, and determined that if an automobile could be gotten to Agness Mr. Rilea should be induced to take a ride.

Now, this matter of getting to Agness in itself had never before been accomplished in company with a modern automobile. So Mr. Miller went into conference with a friend, Frank Perkins, who knew something of the difficulties of traversing Northern Oregon, and who knew a lot of Portland automobile men, who would be interested in the venture.

Perkins jumped at a chance to traverse the rushing Rogue river, and immediately got in touch with zone officials of the Chevrolet Motor Company. He was explicit in outlining the dangers of getting up the Rogue to Agness. There were rapids, he said, and no really adequate ferry.

Hazards or no hazards, the officials decided, there never had been a road too precarious for a Chevrolet. So it came about that on a morning in late September, Miller and Perkins set forth in a brand new Chevrolet roadster for the Rogue and Agness.

The next morning after a ferry ride across the northern slip of the Rogue, followed by a one mile drive to Gold Beach, the travellers found themselves at the gateway of their adventure. They were introduced to Frank Lowery, the champion boatman of the Rogue, and with him studied the chances of loading a Chevrolet roadster on a motor boat 26 feet long and six feet wide. Both the city chaps were apprehensive; but not so the bland Mr. Lowery.

Then followed a task by no means easy. With the aid of six men, planks were laid out leading from the bank to the boat. When the car was driven on, the front wheels dropped until the hub caps rested on the boat sides. Next the hind wheels were taken off and the brake bands permitted to rest on the prow. Would the boat run, now? And, if it did, would the car keep its balance? Nothing worried Mr. Lowery. Soon the party was "put-put-putin" up one of the most dangerous and beautiful streams in the Northwest.

Sunday morning at 9 a. m., the Chevrolet, its rear wheels and bumpers restored, had found the end of its quest. It stood resplendent before the postoffice at Rattlesnake avenue and Cougar street in Agness, and the genial gray haired Mr. Rilea was walking down his front steps to greet his visitors.

As we have said there is nothing backward about Mr. Rilea. First, he listened to Mr. Perkins tell of the riding virtues of the Chevrolet and then he asked to look under the hood. Five minutes had not passed before Mr. Rilea with Mr. Perkins at the wheel was riding up the length of Rattlesnake avenue at the rate of 15 miles an hour. The avenue is really only a long lane. The speedometer measured it at .3 of a mile. But it was long enough to get all of Agness out to see the sight of their postmaster riding over the road, his hands holding on tight to the sides of the roadster, while children ran back into their houses, screaming.

So it was that one of America's post masters, who had not ridden in an automobile, got his first ride. And now the modernization of Mr. Rilea is going to go a step further. "I'm going down to Portland with mother one of these days," he said, addressing his friends before their departure, "and see my first movie."

CARD OF THANKS

We wish to thank the people of Clanton and vicinity for their kindness to us in our recent automobile wreck, near Clanton, which resulted in the death of our friend, Henry Oliver.

Poultry is producing Big Profits in the Southland

In that part of the Central South from the Ohio River to the Gulf served by the Louisville & Nashville Railroad, the last five years have witnessed a poultry development which is simply wonderful. In counties where, three or four years ago, there were only small flocks of poultry, usually of mixed and nondescript birds, there are today large flocks, carefully bred, selected for their value as layers, or for the production of broilers and friers.

The market for both poultry and eggs has been extended, regular shipments being made to points as far away as New York City, and to the West Indies. In county after county, the annual returns from poultry and eggs sold and shipped to outside points amount to several hundred thousand dollars, there being carload movements of eggs as well as regular carload movements of poultry. Farmers and farmers' wives now understand better than ever the value of poultry raising, and the importance of careful selection and care of the flocks.

Louisville & Nashville farm representatives, under the supervision of the Immigration & Industrial Department, have been active in developing this business. Their work has been directly with the families of farmers and with farm organizations; they have steadily pointed out the value of high-grade poultry of distinct breeds and of the production and shipment of high-quality eggs; they have pointed out the value of proper feeding and of sanitary houses and surroundings for the flock; helped in solving the problems of combatting disease and of weeding out undesirable members of the flock; and have given their advice and assistance as to shipping and marketing in carlot movements.

The L. & N. is desirous of cooperating in every possible way in the advancement of this important industry.

News Items of Interest From Chilton County High School

This is the fourth week of the second month of school. Test week again Everyone is busy, hoping for the best grades.

The school is entering heartily in the cooperation with the Kiwanis Club in the Clean-Up Campaign this week. All the students are very interested in keeping the building and surroundings clean. Remember, cleanliness comes first! Every person should take it as their responsibility and help destroy all disease germs by keeping everything clean.

A letter was received from Mr. E. G. Fitzgerald, stating that he would arrive Monday or Tuesday for the purpose of taking care of the class rings.

The Stamps All-Star Quartet gave an interesting program here last Friday night. Twenty per cent of the proceeds went for the benefit of the athletic association.

The school was well pleased with the football game with Alexander City last Friday afternoon. It was the cleanest and hardest game of the season. Even though defeated the team put up a hard fight until the end. The cheer leaders with the help of the student body did not give up but proved that they still had the right kind of spirit and showed that they could be as good loosers as winners.

The Alex City team was carried into the homes of the local boys and girls for supper. The manager of the team deserves great credit for seeing that the visiting team was properly taken care of.

The team will play Selma High next Friday afternoon on Selma field. This will be the first game of the season to be played off their own field. Let's all go, if possible and back our own team.

A Weiner Roast was given for the Home Economics class last Friday night in the ball park. Several games were played and enjoyed by all whom were present. Mr. and Mrs. O. V. Bruner were chaperones.

The girls' basket ball team will start practicing Monday afternoon. We are hoping for the most successful year. Miss Head will coach the team.

A contract was received last week from the Paragon Printing Co. to be signed by the staff so that we might all get busy on our Annual. This will be the first Annual this school has published since 1917.

The P. T. A. has a committee working toward an entertainment for Hallowe'en. A Hallowe'en Festival has always been a success at C. C. H. S., because all work toward having a good time, dressed in costumes and wearing a mask is real spooky. We are all looking forward to the Festival.

A Proclamation

BY THE GOVERNOR

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out; and

Whereas, notice of such election, together with the proposed Amendment, is required by law to be given by proclamation of the Governor;

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice direct and proclaim that on Tuesday, the 6th day of November, 1928, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

"_____ Article XI. Section 216-A. In addition to the taxes which the City of Birmingham is authorized to levy and collect under the Constitution as heretofore amended, said city shall have the power and right to levy and collect in any year or years for any municipal purpose or purposes, any rate of tax, not in excess of one-half of one per centum, on property situated therein, based upon the valuation of such property as assessed for State taxation for the year next preceding the levy, which a majority of the qualified electors of such city voting at an election called and held as hereinafter prescribed, may authorize for such purpose or purposes. Said tax shall be used only for the purpose or purposes for which the same is authorized, levied and collected. Each election held under the provisions hereof shall be ordered, held, canvassed, and may be contested in the same manner as is or may be provided by law applicable to municipal corporations for elections to authorize the issuance of municipal bonds. The ballots used at such election shall contain the words: "For authorization of additional taxation at rate not to exceed _____ per cent for the year (or years)____ for the purpose or purposes of _____" and "Against authorization of additional taxation at rate not to exceed _____ per cent for the year (or__ years) _____for the purpose or purposes of _____." The rate of taxation proposed shall be printed upon the ballot in the space indicated therefor, and the year or years in which the proposed rate is to apply, and the purpose or purposes for which such tax is to be used, shall be likewise printed in the respective spaces indicated therefor. The voter shall record his choice either for or against authorization of the proposed rate for the proposed purpose or purposes by placing a cross mark before or after the words expressing his choice. Nothing herein contained shall in any wise change or affect the rights of any holders of bonds of said municipal corporation heretofore issued. Elections in said municipality to authorize the levy of such special tax may be held as often as ordered by the governing body thereof, but when a proposition is submitted to the electors of said municipality for authorization to levy a special tax for a specific purpose and such proposition is defeated, no second election for the same purpose shall be held in such municipality within one year thereafter. This section shall be self-operative without any additional legislation."

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

BIBB GRAVES.
Governor.

JNO. BRANDON,
Secretary of State.

Personals

Miss Nell Wells spent the week end at her home in Jemison. She came down Sunday to the Methodist Church and Sunday School, bringing with her Miss Stanley, a former teacher at the Grammar School.

Mr. and Mrs. Walter Sawyer and Clay motored to Montgomery last Saturday afternoon.

Miss Vera Jones is absent from school on account of illness.

Miss Pauline Lawrence is back in school after several days absence.

Miss Bernicee Williams, a teacher here spent the week end in Montgomery.

MAPLESVILLE NEWS

Dr. Salvage of Montevallo delivered a splendid lecture at the opening of the extension course here Saturday. Those taking the course are Prof. and Mrs. E. E. Owens, Mrs. R. J. Bumpers, Mrs. Stanley Hayes, Miss Sadie Oakes, Mrs. Bessie Middleton, Mrs. C. N. Parnell, Miss Ellen May, Vine Hill School; Miss Willie Barnes, Shoultes School.

Election of officers and teachers at the Baptist Church Sunday resulted as follows: Rev. Paul Oden, pastor, 1st and 3rd. Sundays; Dr. H. M. Nix, Secretary; J. E. Dennis, Treasurer; Mr. Jno. Foshee, Superintendent of Sunday School; Rube Bearden, assistant superintendent; J. E. Wallace, teacher of Men's Bible Class; Mrs. R. J. Bumpers, teacher of Ladies' class. Mrs. F. A. Shanks, president W. M. S. Mrs A. I. Osborn, Counselor of G. A.'s; Mrs. Wheeler Walker, leader Sunbeams; Miss Louise Pulliam, president B. Y. P. U.; Prof. Owens, leader of B Y P U.; Mrs. C. N. Parnell, pianist for Church; Misses Louise Pulliam and Lucy Parnell pianists for Sunday School.

The operetta "The Gypsy Rover" will be presented at Maplesville School auditorium October 27th at 8 o'clock. Admission will be 15 and 35 cents. Everybody come. Benefit of school.

Mr. T. D. Potts is the guest of his son, Dr. J. D. Potts, of Alexander City.

Several from the Maplesville W. M. U. will attend the Quarterly meeting of Unity W. M. U. at Indian Grave next Wednesday.

The B. Y. P. U. meets each Sunday

SICKLY, PEEVISH CHILDREN
Children suffering from intestinal worms are cross, restless and unhealthy. There are other symptoms, however. If the child is pale, has dark rings under the eyes, bad breath and takes no interest in play, it is almost a certainty that worms are eating away its vitality. The surest remedy for worms is White's Cream Vermifuge. It is positive destruction to the worms but harmless to the child. Price 35c. Sold by

Stenotype
"The Machine Way In Shorthand"

The fast, sure way of taking dictation—writes plain letters, averaging a word a stroke—it is easy to write — easy to read — easy to learn.

Here's What it Means to You:

It fits you for a class of work that is above lead pencil dictation and averaging pay.

It makes you faster, more accurate and enables you to take more dictation with less strain.

It gives you poise and confidence—a competent Stenotypist has no fear of the most rapid or technical dictation.

It takes all the guesswork out of transcribing your notes.

This new department, the most modern way for recording speech—the machine way—has just been added and we are proud to offer those interested an opportunity to learn. The opportunities at Wheeler are unlimited, as they are always up-to-date on any new methods offered students.

Enrollments are now being made, as classes begin October 15. Write for free information on STENOTYPY.

BILLINGSLEY

The Young Peoples Council of Unity Association was held at the Baptist Church here Sunday P. M. beginning at 2 30 o'c ock. An interesting program was carried out. The Billingsley B. Y. P. U. gave a Playlet, which was indeed very well as entertaining. The Young Peoples leader, Mrs. Harris Hudson of Mt. Creek had charge of the program. Five organizations were represented. A large crowd of Billingsley and people of surrounding communities attended.

A Stock Law election was held here Monday. It carried by seventeen votes. There were one hundred twenty three for and one hundred six against.

Tiger, the eighteen year old cat of Mr. and Mrs. J. C. Hughes died Monday night. He will be sadly missed.

Mrs. T. A. Overstreet of Evergreen community is visiting Miss Mary Alperson.

Mrs. A. J. Marlar is visiting her daughter, Mrs. Willis Lawrence at Eo'ine.

Mr. George Polk of Clanton was here Monday on business.

Mrs. Zack Pennington and Preston Patrick of Northport spent the week end with their parents, Mr. and Mrs. T. J. Patrick.

Mr. and Mrs. W. C. Patrick of Montgomery spent Sunday with relatives here.

Verbena News

Mrs. John Howard, who is in the Memorial Hospital in Montgomery is doing fine.

Misses LaDean DeSear and Elizabeth Hubbard, who are attending Alabama College at Montevallo, spent the week end with their parents here.

Mr. L. K. Benson a former teacher of Verbena was a visitor here Tuesday.

Mr. Gleeson, Howard, a student from Auburn, spent this week end with his parents Mr. and Mrs. Oscar Howard.

Miss Virginia Scott, who is attending school in Montevallo, is at home this week, suffering with a sprained ankle.

There will be an Officers and Teachers Meeting at the Verbena Baptist Church Thursday night at seven o'clock. All officers and teachers are urged to be present.

Don't forget there is to be a Hallowe'en party at the Verbena High School Friday night. Everyone is invited. Come and bring someone.

MT PISGAH NEWS

Our Sunday School is doing nicely at the present. We hope it will continue this way during the winter months.

Next Saturday and Sunday are our last meetings days on this conference year.

Mr. and Mrs. M. Yeargen and Leon Perry were visitors in the home of B. Yeargen Sunday.

All had an enjoyable time at the singing Saturday night. Miss Frances Brown won the cake for the greatest crowd.

Miss Ethel Yeargen is visiting this week with her uncle and aunt, Mr. and Mrs. A. J. Cain.

The friends of Miss Ruby Dare Yeargen will regret to learn that she is ill this week.

Mr. and Mrs. Steve Holley visited Mr. and Mrs. J. L. Holley Sunday.

STOP! LOOK!! READ!!

Next Wednesday at Concord School on Hallowe'en, if you want to see your fate, be there when the clock strikes eight. Great mysteries we will unfold. Great mysteries you will behold. We will stew for you some witches' brew, so come and bring a friend or two.

EXTRA STRENGTH, STAMINA and MILEAGE

One of the greatest achievements of Firestone engineers has been in the heavy duty tire field. Here, where stamina counts the most, amazing *durability* has been developed along with the most *flexible* construction for truck and bus tires.

In these heavy duty Tires there are 6 to 16 plies of cord fabric (depending upon size). Only the most thorough insulation of the many thousands of cords, strands and fibers in the tire (as shown above) can minimize the effects of the great heat and friction generated in a thick carcass.

Firestone dips the cords in a rubber solution which saturates and insulates every fiber of these cords with rubber. This is the only known method which carries the rubber to the innermost recesses of the cords, insulating each component part, and unifying the whole structure of the tire.

The same leadership which produced this great Tire, has developed a program of service to truck and bus operators, which goes far beyond anything ever before attempted in this field.

Let us go over your haulage problems with you. We are trained and equipped to save you money and serve you better.

MOST MILES PER DOLLAR

We change over Trucks, from Solids to Gum-Dipped Pneumatics without requiring new wheels.

Clanton Service Station G. M. WYATT, Mgr. Clanton, Alabama

NOTICE OF BOX SUPPER AT EAST VIEW OCT. 27TH

Come! Where? To East View. When? Saturday night October 27th. At the Box Supper given by the ladies and school. The proceeds to go to the church. Boys bring money and girls bring boxes or cake.—Mrs. A. C. Nelson, Teacher.

BOX SUPPER AND PROGRAM AT PLEASANT GROVE

There will be a Box Supper and short program at Pleasant Grove Church, seven miles west of Clanton. Everyone is invited. Girls are requested to bring boxes, and the boys to bring money. Proceeds to go for the benefit of the church.

BIDS WANTED

Sealed proposals will be received by the Town Council of the Town of Clanton, Alabama, until seven o'clock P. M., Thursday, November 8th, 1928, at the office of the Town Clerk, the regular meeting place of the Town Council for the purchase of $6,000.00 of Public School Bonds of the said Town of Clanton, Alabama. Said bonds will be coupon bonds and will be dated November 1st, 1928, bearing interest at the rate of six per cent per annum, p ayable semi-annually at the office of the Hanover National Bank, in the City and State of New York. The bonds will mature on November 1st, 1948, and will also be payable at the said Hanover National Bank. Said bonds being issued for the purpose of acquiring, providing, or constructing school houses of the Town of Clanton, Alabama, and were authorized by an election held in said Town on the 15th. day of May, 1926.

The bonds will be delivered to the purchasers at a point to be designated by the Town Council of said Town, of Clanton, together with the final approving opinion of Messrs Storey, Thorndike, Palmer & Dodge, Attorneys, of Boston, Mass.

A certified check for 5 per cent of the amounts of the bonds must accompany each bid.

The Town Council of the Town of Clanton reserves the right to reject any or all bids.

J. H. PLIER, Town Treasurer
Oct. 25th. and Nov. 1st., 1928.

STATEMENT OF OWNERSHIP, MANAGEMENT, CIRCULATION, ETC., REQUIRED BY THE ACT OF CONGRESS OF AUG. 24, 1912.

Of the Chilton County News, published weekly at Clanton, Alabama for October, 1928. State of Alabama,—County of Chilton.

Before me, a Notary Public in and for the State and county aforesaid, personally appeared J. B. Atkinson, who, having been duly sworn according to law, deposes and says that he is the owner of the Chilton County News,, and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management (and if a daily paper, the circulation), etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 411, Postal Laws and Regulations, printed on the reverse of this form, to wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are:

Publisher, J. B. Atkinson, Clanton, Ala.,

Editor, Joe M. Holladaye, Clanton, Ala.

Business Managers—Joe M. Holladays and Billy Smith, Clanton, Ala.

2. That the owner is J. B. Atkinson, Clanton, Alabama.

3. That the known bondhouders, mortagees, and other security holders owning or holding 1 per cent or more of the total amount of bonds, mortgages, or other securities are:

First National Bank, Clanton, Ala.
Southeastern Printers Supply Co., Atlanta, Ga.

4. That the two paragraphs next above, giving the names of the owners, stockholders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also in cases where the stockholder or security holder appears upon the books of the company as a trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affiant full knowledge and belief ts to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fida owner; and this affiant has no reason to believe that any other person, association, or corporation, has any interest direct or indirect in the said stock, bonds, or other securities than as so stated by him.

J. B. ATKINSON, Owner.

Sworn to and subscribed before me this the 24th day of October, 1928.
(Seal) C. O. Jones.
(My commission expires April 30, 1931)

keeping
ALABAMA BRAINS
at home

FOR years the relatively slow rate of industrial development in Alabama limited the opportunity for profitable employment at home and forced many of Alabama's young men and women to seek opportunity in foreign fields.

Alabama's youth of today—her citizens of tomorrow—were in many cases educated in State schools at great public expense. Their removal to other States has been a vast economic loss to Alabama.

But today the accelerated rate of industrial development in Alabama opens new opportunities to the product of her schools and colleges. No longer is it necessary for the young men and women of Alabama to seek employment outside her borders. The many industrial plants being established in Alabama, in the small communities as well as the large cities, are creating thousands of new jobs each year—new opportunities at home for tomorrow's lieutenants and captains of industry. The new payrolls which these industries are distributing are creating occupations in numerous other lines of endeavor for additional thousands of native sons and daughters.

As the key to the new industrial development in Alabama, a dependable and practically unlimited supply of low cost power, available in practically all sections of the State, is a primary factor in keeping Alabama brains at home.

ALABAMA POWER COMPANY
-SERVING FARM- -FACTORY- -FIRESIDE-

By far the majority of the employees of Alabama Power Company and associated companies are natives of Alabama. Two hundred and fifty-one are graduates of Alabama colleges and universities.

COOPER NEWS

Mr. Edlic Eiland, a student at Auburn spent the past week end at home with his parents, Dr. and Mrs. R. J. Eiland.

Mr. Ralph Grant visited relatives here the past week end.

Mr. and Mrs. Arden Allen of Birmingham were guests of relatives here and at Verbena Sunday.

Mrs. Agnes McNair and children and Mrs. Agnes Allen were guests of relatives here Sunday afternoon.

Miss Lottie Vance of Birmingham visited relatives here Sunday.

Mr. Edd Connell who has been employed at Gorgas is at home for awhile.

Mr. Ben Day was the guest of Miss Mary Wise, Sunday.

Mrs. Joana Wise spent Friday with Mrs. F. J. Allen who has bee ill.

Mr. and Mrs. Harison Smith and children, of near Eclectic, motored home and spent the week with Mr. and Mrs. Joe Kelley.

CRAP GAME IS BROKEN UP BY LOCAL OFFICERS

After complaints had been by parties concerning quite a bit of gambling which was going on just west of town, City officers made it a point to be uninvited guests at one of the meetings of the crap shooters, at their meeting place in a secluded spot in the woods just outside the edge of town.

Last Thursday, October 18, approximately twelve negro men and three white men were gathered at this particular spot, according to information given us, and on account of not having been furnished the specific directions as to how to get to the meeting place of the above mentioned group, City officers were compelled to let a late member of the crapshooters lead them, according to reports.

Following this member, who was tardy at the meeting, or who was not due to be present at the beginning, the officers, paid an unexpected call upon the group of negroes and white men who were gathered together there in the solitude of a Chilton County forest, possibly not having been disturbed in their pastime, except by the irksome buzzing of a wayward mosquito now and then, as the group formed a complete circle.

Upon being disturbed by the officers the said group of men who were so enthusiastically interested in the pastime in which they were engaged, and who vanished like a covey of scared quail, were very particular not to leave the certain amount of money which was in the center of the human circle, there in the solitude of the forest, which had no doubt, aided them in many instances to be hid from the strong arm of the law. But as to who made away with the said amount of money, could not be ascertained at the time, according to information given us.

The officers, not being forewarned of the planned escape, were somewhat taken back at the sudden outbreak. Those members of the group who had not been so frightened by the appearance of the officers and who were confronted by a wire fence, were corraled by the officers, but the ones who were lucky enough to start in the opposite direction of the wire fence, headed for the wide open spaces, as if they had heard "the call of the wild."

The men who were captured were scheduled to appear in Mayor's Court last Monday. Most of the cases were continued until a later date, according to information given us.

LIBERAL REWARD OFFERED

I will pay a liberal reward for the return or information leading to recovery of black and white setter dog that disappeared several days ago.—LONZO PARRISH, Clanton, Ala.

FOR SALE

One 1924 model Maxwell Touring car. In excellent condition, with new tires all round. Good paint. Must be seen to be appreciated. See MR. FRED HOWARD, at Thorsby, Ala.

A Proclamation

BY THE GOVERNOR

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out; and

Whereas, notice of such election, together with the proposed Amendment, is required by law to be given by proclamation of the Governor;

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice direct and proclaim that on Tuesday, the 6th day of November, 1928, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

Article . Section 1: The Legislature may form or provide for the formation of drainage districts, for establishing and maintaining drainage systems; and provide for the assessment of the whole or part of the cost of such improvements against the lands and property in such district to the extent of the increased value thereof by reason of special benefits derived from such improvements and may provide for the issuance of bonds for such districts with or without an election.

Section 2: This amendment shall be retroactive and retrospective and shall operate to ratify, confirm and validate the Act of the Legislature of Alabama, which Act provided for the drainage of farm, wet, swamp and overflow lands in the State of Alabama and authorized the organization of drainage districts, conferred the right of eminent domain to the extent necessary to carry out the purpose of said Act, and provided for the raising of revenue by bond issues or otherwise to pay the cost and expense of maintaining drainage systems so as to promote the public health and general welfare and, which act was approved March 4, 1915; and this amendment shall operate to confirm and validate all corporate organizations under authority of such law, all procedure had, all acts done, all bonds issued, all contracts entered into and assessments made by such corporations under authority of such law.

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

BIBB GRAVES,
Governor.

JNO. BRANDON,
Secretary of State.

Isabella School News Items

The Wilsonian Literary Society held it's regular meeting last Wednesday, with the following program:

Song—"Star Spangled Banner" by the two Societies.

Devotional by Herbert Foshee.

Early Life of Woodrow Wilson by Ruth Roebuck.

Reading by Ruth Oden.

Quartet by Gwyn Williams, Ralph Mims, Avaleen Webb and Myrtle Durbin.

Wilson as President by Ralph Mims.

Wilson's Ideals of Democracy by Luther Mims.

Song: "Work For the Night is Coming" by the two Societies.

The P. T. A. held its regular meeting last Wednesday, Oct. 17th, in the school building.

Topic for discussion—"Child Training in Home and School".

Parent's Creed by Dorothy Manning.

Parent's Responsibility in Child Training by Gene Griffin.

Piano Solo by Mrs. C. N. Parnell.

Training in Child Development and Character. Old and new methods. Which? by Mrs. Griffin.

Vocal Solo "Mother" by Miss Emma L. Jones.

Song by entire group "Home Sweet Home."

A delightful plate lunch was served the following: Misses Mary Thweatt, Ethel Mize, Cora B. Maddox, Alma Sexton and Emma Louise Jones, Mesdames Manning, Lecroy, Griffin, Williams, Peters, Parnell, White and Daveport, Messsr. E. Thomas, O. F. Davenport, T. L. Lecroy and J. D. Griffin.

The best football game played by Isabella, so far this season, was that played last Friday afternoon, Oct. 19, Isabella vs. Dallas County High at Plantersville.

Neither team scored in the first quarter but the ball was within Isabella's goal. In the second quarter, Dallas scored but failed to kick goal. Dallas scored again in the fourth quarter making the score 12-0. The teams were well matched. Mims and Conaway were the two outstanding players for Isabella.

The entertainment given in the High School auditorium Saturday night was an overwhelming success. Interesting features on the program were: String Band, Stages of Life, District School of '89, Old Fashioned Spelling Match, Mock Literary Society.

Much interest was taken in the cake selling contest, which was run between Jewel Foshee and Alma Sexton. The former, received the highest number of votes and was awarded the cake. It won't be long now! I wonder why? Because the Fair is Friday. Everybody come to Isabella, Friday, Oct.

A SPLENDID FEELING

That tired, half-sick, discouraged feeling caused by a torpid liver and constipated bowels can be gotten rid of with surprising promptness by using Herbine. You feel its beneficial effect with the first dose as its purifying and regulating effect is thorough and complete. It not only drives out bile and impurities but it imparts a splendid feeling of exhilaration, strength, vim, and buoyancy of spirits. Price 60c. Sold by

A Proclamation

BY THE GOVERNOR

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out; and

Whereas, notice of such election, together with the proposed Amendment, is required by law to be given by proclamation of the Governor;

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice direct and proclaim that on Tuesday, the 6th day of November, 1928, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

Midland City School District No. 15 in Dale County, Arlton School District No. 50 in Dale County, shall each have the right and power by a majority vote of the qualified electors of such districts voting at an election held for that purpose to levy and collect for public school purposes including the payment of indebtedness a tax not to exceed ten mills any one year in addition to all other taxes now authorized by law. The election in such districts to determine whether or not such tax shall be levied shall be called, held and conducted as now provided by law for calling and conducting an election to determine whether or not the three mill district school tax shall be levied and collected, and the laws governing the handling and the expenditure of the proceeds of the ten mill tax herein provided for shall be in all respects in accordance with the law governing the handling and the expenditure of the three mill district school tax.

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

BIBB GRAVES,
Governor.

JNO. BRANDON,
Secretary of State.

Never Before Have We Offered Such Values on Reconditioned Cars
—Small Down Payment—Easy Terms!

Never before in our history have we delivered as many new Chevrolets as we have this year. Naturally a large part of this increased business involved the trade-in of the Chevrolet owner's previous car. This enables us to offer some exceptionally fine used cars that have been thoroughly inspected and reconditioned and carry the official red "O. K. That Counts" tag. This tag shows you exactly what has been done to put the car in mechanical condition for thousands of miles of satisfactory service. In buying these reconditioned cars from us you get definite assurance of quality and value—and this week you can buy them at very low prices that make them the greatest values we have ever offered. Make a small down payment and drive away the car of your choice—easy terms for the balance. See these cars today!

A few of our exceptional Used Car values "with an OK that counts"

CHEVROLET SEDAN: Good mechanical condition, good tires, fully equipped and a wonderful bargain for $250.00.

CHEVROLET COACH: 1928 model. This car used about 30 days as demonstrator and is just broken in good. If you want a real bargain, see this one.

CHEVROLET TOURING: Model V. In good mechanical condition with good rubber. Down payment only $90.00.

CHEVROLET TOURING: 1927 model. Thoroughly reconditioned, new Duco paint, good tires, looks and runs good as new. Down payment $140.00.

FORD COUPE: Model T. In perfect condition in eery respect and good rubber. Just the car for winter use, $150.00.

CHEVROLET ROADSTER: 1927 model. A dandy car in good mechanical condition with new Duco in two tone colors. A bargain for $350.00.

WE WILL PAY 20c PER POUND FOR MIDDLING COTTON AS DOWN PAYMENT ON ANY OF THE ABOVE CARS.

Polk Brothers Motor Co., Inc.

Dependability, Satisfaction and Honest Value

The new Buick *is the new* Style

Nowhere such beauty and luxury ---- nowhere such pleasing lines and contours ---- nowhere Bodies that equal these new Masterpiece Bodies by Fisher--The entire country is saying, "*That's the Style*"

Setting an entirely new, a revolutionary, style—introducing what will unquestionably be the trend of smart body-design during the next several years—the new Bodies of the Silver Anniversary Buick are enjoying universal acclaim as the most original and distinctive, as well as the finest and most beautiful ever created by the world-famous Fisher organization!

Here is not only a new car but a new vogue—a vogue of symmetry, born of graceful contours instead of straight lines—a vogue of distinction, dressed from sparkling colors, luxurious chrome-plating and interesting new roof, radiator and fender design—a vogue of tasteful luxury, composed of finest mohair velvet upholstery, artistic hardware and fitments and new appointments of comfort and convenience.

The entire country is hailing the Silver Anniversary Buick. The entire country is saying, "That's the style!"

The Silver Anniversary BUICK

C. Reese Mullins Writes Again

Editor Chilton County News
Clanton, Alabama.

My Dear Sir:

I note the silent contempt to my article in your paper of the 11th and my annoucement in your paper last week by all of the Democratic candidates and committees in this county, but I wish to inform you that there has been a satisfactory number of true blue Democrats in this county that have rallied to my anuoncement in your last week's paper that I had a supply of Smith and Robinson Campaign buttons on hand and have called by to get them. I am at a loss to understand what our Democratic Executive Committee with J. B. Atkinson as chairman and our Campaign Committee with W. M. Polk as Chairman and our Democratic Candidates mean for not having put up a fight in this county during this entire campaign, for Alfred E. Smith and Democracy, unless they are fishing for the K. K. K. and Republican vote. This evidently must be their game, and thereby get into office regardless of political principal. I understand that the oath that Dr. Hinkle took with the K. K. K. will not permit him to vote for Alfred E. Smith and that this is why he has refused to come out in the open and declare himself for true blue Democracy in this county. I also understand when Dr. Hinkle first began to groom himself to run for Probate Judge, he was depending mostly on the K. K. K. vote to put him in office. I am informed that Dr. Hinkle is now declaring himself not to be a K. K. and far from such a hooded organization. So it seems that nobody knows where Dr. Hinkle stands about anything, except that he would like to have the Probate office, improve the schools and roads, and treat everybody mighty nice, be a real man hereafter and let everybody know where he stands.

Why has this fight for Democracy in Chilton County been so shamefully neglected by our leaders? Why have they sit quietly and allowed our national leaders to be villified and the minds of the people all over this county to be embittered against them when they are exerting every effort within their power. Working, traveling, and speaking day and night, in our behalf until they almost became totally exhausted, helping us to fight the batle for white supremacy. And again, what about our Democratic candidates in this county running with and our committees permitting men to run on our Democratic ticket in this county, who say openly they will not support Alfred E. Smith for President, and one of them declaring openly that he [illegible] Herbert Hoover, the Republican candidate, who was nominated in Kansas City, in a Republican Convention with more than one hundred negro delegates. What on earth has become of your true blue Democracy. In the name of white supremacy, in the name of common sense, in the name of common decency, in the name of our sisters, in the name of our wives, and in the name of Almighty God, and our old gray-haired mothers who rocked us with their lily white hands in a Democratic cradle, are you willing to lay down the fight for white supremacy in this county, and let this grand old State of ours drift back into Republicanism, with negroes holding office here again? There is no middle ground or compromise with me on my political convictions.

I want to say just here that this is not a Religious fight, not a Fraternal fight, not a Personal fight, but is a Political fight. So what does the silence of the Democratic leaders in this county mean on the great question of white supremacy. If I was the leading Democratic candidate of this county, or either one of his associates, I would dislike very much to be branded as a political coward and not entitled to any consideration at the hands of any true blue Democrat.

Alfred E. Smith is, today, to my mind, one of the broadest and most competent men in these United States, and what about Senator Joe Robinson, a man whose integrity and ability is beyond question, and a Southern man right here at our door and no fight put up at all for them in Chilton County by our would be leaders. Shame on Chilton County Democracy for all time to come. How many Republicans in this county have failed in the fight for their national leader? Not a one that I know of, and how many of them do you suppose will fail to support Mr. Hoover for President? Not a one that I know of.

Why have our Democratic leaders in this county failed to come out openly in behalf of our national leader? It looks to a number of us true blue Democrats that it is because Dr. Hinkle, the leading candidate on the Democratic ticket of this county has denounced the K. K. K. and that he is expecting a large Republican vote. It seems that he is trying to hold everything back in the dark and his associated candidates are permitting him to make monkeys out of the whole bunch.

What about these little preachers that some of them have played out to where they haven't got any churches at all to serve, and the majority of the balance of them loosing out by going over this county talking and preaching against Al Smith because he happens to be a Catholic. I am of the opinion that Al has more religion than this whole bunch put together.

And what about this big preacher, John R. Straton from New York, coming down here in the South speaking against Al Smith, and being accused of getting $1,500.00 from the Republican party for every speech he makes. This is the big preacher, that preaches in New York every Sunday morning to a large audience and I am informed the majority of them are negroes.

The would be leaders of the Democratic Party in this county remind me of one of these striped-legged Jack mules, working in shalves to a Ford trailer dodging every step at true blue Democracy, with all the Democratic Executie and Campaign Committees riding and driving.

I can see them detouring around true blue Democracy, stalled in the mud of wilful neglect, and saying to themselves, how on earth can we ever pull back under the limelight of true blue Democracy in Chilton County.

I see the Chilton County Campaign Committee, and I suppose endorsed by the Executive Committee, has come out at last with a great fight for Democracy in this county by putting Dr. Hinkle's picture out in last week's issue of this paper with the great declarations made for him under it that he would favor better roads better schools, give everybody a square deal and be courteous. I wonder if Dr. Hinkle and his Campaign Committee thought there was one smeh man or woman in this county that was fool enough not to stand for these things. Some fight for Democracy, I say. This is old time stuff. Its a wonder they did not go a little further and tell us that Dr. Hinkle would favor us all turning on our lights every night after dark, and getting up every morning before breakfast. Now Mr. Campaign Committee, what the people want to hear from Dr. Hinkle and you Campaign Committee, is how he stands on Alfred E. Smith, our National Democratic leader for President. You forgot this last week, but you can let us have it in next week's issue. Thanks, please don't remain silent on this any longer, now Mr. Campaign Committee.

We true blue Democrats would like for you to let us have in next week's issue of the Chilton County News, the picture of Judson Strock, with his ideas on the great reforms that should be looked after in this county, and his political reason for supporting Herbert Hoover, the Republican nominee for President, and your reason for letting him run on the Democratic ticket in this county. Will you do this? Thanks, and why you are allowing another man, Mr. George T. Guy, to run on the Democratic ticket in this county, who openly says, as I am informed, that he will not support Alfred E. Smith, our National Democratic nominee for President, and I don't know, I can't find out how many more Hooverites you may have on the Chilton County Democratic ticket. Now suppose you let us have Judson's picture on the front page of your paper in next week's issue and don't hide him out away over on the seventh page like you did Dr. Hinkle's, for everybody wants to see Judson. If I was selected as one of the Democratic managers of our election to be held on Nov. 6th, I would refuse to serve with a Hooverite on the Democratic County ticket.

I will say to Mrs. N. J. Jones of Verbena just here, that I don't recall that I have ever had the pleasure of meeting her, and I am quite sure that I have never known Mrs. Jones to be interested in any of the fights for Democracy in Chilton County. I wish to thank her very much for her name and address which gave me an opportunity to mail her the life record of Alfred E. Smith, and also a clipping from The Montgomery Advertiser of Oct. 19th where Governor Bilbo of Mississippi informs us that Herbert Hoover has been dancing with a negro woman.

I had a Democrat to tell me a few days ago, that another Democrat told him (but he would not tell me his name) that I had sold out to the Republican party. This is not true, and a more infamous and wilful falsehood has never been hatched out. I was rocked in a Democratic cradle, I am a Democrat by heredity and convictions, and my principals are not on the market. This so-called Democrat just got this thing turned around. It is the would-be Democratic leaders of this county that have not sold out but have just given out to the Republican party of this county simply by lying down on their job and hallooing to the disgruntled Republicans and K. K. to say nothing about who we are going to support for President, but for God's sake run here quick and help us.

I have never voted anything in my life but a straight Democratic ticket, but I have never had to vote for a candidate that I did not know where he stood unless I change my mind I will never vote for any pussy footed Democrat that will not come out and let all the people know where he stands. Now, in conclusion, I want to repeat that this is not a religious fight, not a Fraternal fight, and not a personal fight, but a political one. There is not another county in this state that has not put up a hard fight for Democracy. The Democratic candidates refuse to even let the people know where they stand and our committees are playing shut mouth. This causes me to bow my head in shame, and to my way of thinking, is very detrimental indeed to the cause and I am very much dissatisfied about it.

Yours for true blue Democracy and White Supremacy,

C. REESE MULLINS.

NOTICE OF MORTGAGE FORECLOSURE SALE

Default having been made in the payment of the indebtedness secured by that certain mortgage executed by J. H. Shoults, and wife, Ellen Shoults, on the 28th day of October 1915, to R. W. Little, and recorded in the office of the Judge of Probate of Chilton County, Alabama, in book 151, at page 327, and which mortgage and the indebtedness secured thereby has been transferred to the undersigned, who will, on Monday the 26th day of November, 1928, during the legal hours of sale, in the Town of Maplesville, Alabama, accordin g to the terms of said mortgage, offer for sale, to the highest and best bidder for cash, the following described real property, conveyed in said mortgage, to-wit:

The North Half (N 1-2) of the Northwest Quarter (NW 1-4) Section Sixteen (S-16), Township Twenty One (T-21) Range Eleven (R-11) Chilton County, Alabama, and containing eighty acres.

The proceeds of said sale will be applied in accordance with the provisions of said mortgage, as follows: (a) To pay the expenses incident to said sale, including a reasonable attorney's fee, (b) the payment of the indebtedness secured by said mortgage and (c) the balance, if any, to be turned over to the said mortgagors.

This the 24th day of October, 1928.

New Simplified Rates Permit Use Of Appliances At Low Cost

This is the third of a series of advertisements explaining the proposed new Domestic Electric Rates

IN THE past the consumption of electricity in the home, commonly termed "Domestic Service", was not large enough to have a direct bearing on rate making. The advent of what are called "heavy duty" appliances, such as electric refrigerators, ranges, washing machines, etc., all of which are now standard home equipment, domestic consumption has increased to such an extent as to play an important part in determining rates. Too, under the existing scale of rates, there is seemingly a discrimination between the large and small householder. The new rate proposal was designed to correct this condition and place the small consumer on a parity with the large one in the matter of enjoying electric conveniences at the same low rates.

The smaller users are at present being served at less than cost. To offset this, the existing rate form with its high rates for additional use penalizes the average and larger users for their increased use and retards the sale of electricity to all customers.

In other words, some of the customers are paying a part of the cost of giving service to the others. This condition will not exist under the new rate proposal.

Those customers who will be asked, under the new rate, to more nearly pay their own way should remember two things:

1. The increases will not go into the cash box of the company, but to the community through decreased bills to other customers.
2. Even those customers whose bills are increased can benefit through the use of additional electricity at 4, 3 and 2 cents per kilowatt hour.

The new rate is of especial advantage to the small customer, in that it is the only form of rate which offers him a low price per kilowatt hour for additional use.

Many of these small customers own electrical appliances, particular the smaller appliances such as irons, percolators, toasters, vacuum sweepers, fans, etc., but find little encouragement to make daily use of these conveniences on account of fearing to increase their bills. To this class of consumers additional use of the service under the new rate would be paid for at 1-2 or 1-3 the existing rate for such additional service. Large lighting customers who do not have any major appliances installed will also materially benefit by the proposed rate.

Further discussion of the proposed new rates will appear in an early issue of this newspaper.

A Proclamation

BY THE GOVERNOR

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out; and

Whereas, notice of such election, together with the proposed Amendment, is required by law to be given by proclamation of the Governor;

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice and proclaim that on Tuesday, the 6th day of November, 1928, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

"The Legislature of Alabama may hereafter, from time to time by general or local laws, fix, regulate and alter the costs, charges of courts, fees, commissions, allowances to be charged or received by any County Officer of Mobile County, Alabama, including the sheriff, the judge of probate, tax assessor, tax collector, clerk of the Circuit Court, and registrar of the Circuit and Chancery Courts, and the method and basis of their compensation."

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

BIBB GRAVES,
Governor.

JNO. BRANDON,
Secretary of State.

G. O. P. Nominee For Congress Under Quiet Campaign

Mr. A. B. Baxley of Calera, Alabama, who is the Republican nominee for Congress for this, the Fourth District of Alabama, does not, it seems, choose to make an agressive and active campaign among the farmers of Chilton County in behalf of his candidacy. And if publicity and activity would furnish a criterion by which to judge the attitude of the Republican leaders in this section, they are not very enthusiastic on the subject of Mr. Baxley. The Republican nominee has not himself taken the stump in this county, nor has there been any noticeable publicity of his nomination and candidacy, although he is running for one of the most important offices to be filled, on November 6th, 1928, by the electorate of this county and district, and many are wondering why the silence as to the Republican nominee for Congress and at the same time, the demand for the Democrats to wage a howling campaign.

During the year of 1923 a corporation was formed in this county, and named the UNITED FARMERS CANNING COMPANY, with Prof. W. T. Bean, as president. Mr. Baxley, the Republican nominee for Congress and who is opposing Congressman Jeffers, was, it is said interested in aiding the farmers of this county, and that he took an interest in the CANNING FACTORY at Clanton, which was owned by said organization. The farmers of this county are more familiar with his connection with the organization than we are, and remember the results obtained by the CANNING FACTORY. However, the UNITED FARMERS CANNING FACTORY, shortly after its organization ceased to function and the machinery, land and equipment was sold and purchased by Mr. Tom Rockett, Republican Tax Collector of this county, and the stock holders in this corporation never did receive any dividends on their stock, and although the property of the corporation was sold, we are informed by stock holders, that they did not then and have not since been paid any money for that which they paid into the corporation for their stock. After the Corporation ceased to operate a number of farmers of this county were sued for unpaid subscriptions to the organization.

Congressman Lamar Jeffers has served the people of this District since his election, very satisfactorily. During the World War, his address was [illegible] MAN'S LAND" "OVER THERE". He volunteered immediately upon the American entry into the War. He has given account of his stewardship. On November 6th, 1928, the qualified voters of this county have an opportunity to reward a true and tried servant.

Personal News

Mrs. [illegible] M. C. McSwain and family and Mr. M. F. Jones have returned from a visit to Columbus, Ga. On their return the party stopped for a visit with relatives at Auburn.

Mrs. T. C. McSwain and Mr. and Mrs. M. F. Jones were visitors to Birmingham Monday of this week.

We have several other cars that can be bought from $25.00 up.

We have a lot of Ford Cars and Trucks which range in price from $25 up.

Hon. Lamar Jeffers Issues Plain Statement

(Continued from first page)

the contentions now being made concerning this matter:

HOOVER'S NEGRO ORDER IS SCORED BY JEFFERS.

"Mr. Jeffers said, "conditions at the Census Bureau were peaceful. The negroes were working in one section to themselves. Now, just so Hoover may have a chance to get a single delegate from Ohio these conditions are upset and the negroes are scattered throughout the entire census bureau to work side by side with white clerks. The salaries of the negro clerks are not increased, they give no more service to the government than they did before, but the desire of a negro candidate for a delegate up in Ohio to enhance his chances to go to the convention and vote for Hoover has resulted in this political order by Secretary Hoover, which embarrasses hundreds of white clerks in the Census Bureau. It is a disgraceful exhibition of what a man will do to attempt to realize a political ambition."

As further proof on t his subject, let me quote briefly from the testimony before a United States Senate investigating committee of one Mr. Rush of Holland, who had been working through the Southern States in Mr. Hoover's interest, as it appeared in the Evening Star, Washington, D. C., May 16, 1928:

"The examination brought out that Gen W Davis of Georgia is Colored. Holland said he gave the $2,000 to Davis in Washington. He did not know what Davis did with it. The committeeman, he said, "paid the traveling expenses of a number of gentlemen down there in their campaigning."

Segregation

"Did you ever discuss with Secretary Hoover the order of whites and negroes in the Census Bureau?"

"He brought the order to me and showed it to me."

Asked if the Howard headquarters here had been used as a Hoover adjunct, Holland said:

"Not exactly. Of course Howard came out for Hoover some months ago. Some time after that I paid Howard $2,000."

"Do you know whether the segregation order was issued before Secretary Hoover became a candidate?"

"I don't know anything about it."

"What's the color of Oliver D. Street?"

"He's white."

"Did you give him $1,000 in Alabama or here?"

"I gave it to him here. They are holding their convention in Alabama today, I believe."

We see from the above testimony that Mr. Holland very definitely states that Secretary Hoover had brought the segregation order to him and showed it to him.

As a comment on the above extract from Mr. Holland's tesimony, we may say that it looks like they considered the Alabama Republicans a good deal cheaper than the Mississippi and Georgia Republicans from the fact that Mr. Hoover's personal representative had high enough esteem for the services of the negro, Perry Howard, republican leader in Mississippi, to hand out $2,000 to him, and the same amount to the negro, Ben Davis, republican leader in Georgia, whereas it appears that he gave Mr. Oliver Street of Alabama only one-half as much.

Let me insert here an extract from a letter received by Senator Blease of South Carolina from one white woman who was working in the Bureau of Census at the time:

"Senator Cole Blease,
Senate Office Bldg., Washing, D. C
Dear Governor Blease: I know you are a southern gentleman and not unfriendly to the colored people, but do no believe in mixing them with the white people, especially women.

Mr. Hoover, the head of our department, got many of the colored delegates in the South when he gave them Red Cross hams and bacon during the flood. That was probably alright; but now because he has a fight in Ohio and Indiana and wants the colored votes there he has listened to nigger politicians and has put these colored people among the white girls in the department for the first time.

They have always been in a section to themselves on the first floor and had a toilet set aside for them. Now we have to use the same ones they use, which is not very pleasant.

None of us want Mr. Hoover to get any delegates from any place, since he has acted this way just to help himself politically without considering the feelings of the girls in the department, who cannot defend themselves. But if you can do anything, you do as you think best.

Senator, you must really do something to help us. The white girls in every department in Washington are all wrought up about this. Of course they won't say anything, because they are afraid of losing their jobs, and they can't afford to do that.

I don't want to lose my job, so please don't use my name. I am going to sign the letter and you can cut it off if you want to.

Mr. Hoover may think this is smart politics to bring his chocolates in with white girls and women, but if he only knew what the white women all over Washington say about it he wouldn't be so sure of carrying Ohio and Indiana with colored votes.

Thanking you for anything you do personally, and I know I speak for thousands of white women working in Washington, I remain,
Very sincerely,

Let me mention, too, that just a short while ago I noticed an item in the editorial column of the Clebrune News, published right there in Heflin, Ala., wherein it was stated that an Alabama young lady (from Huntsville) was forced to accept the new conditions in the Census Bureau, after segregation was abolished, or else give up her position, and the new condition was so obnoxious to her that she was really forced to resign, and this editorial stated that she had returned to her home in Alabama.

I am sure everyone has heard of the speech of Dr. John R. Hawkins, a negro delegate from Washington, D. C., to the Republican Convention at Kansas City, who seconded the nomination of Herbert Hoover for President. That same Dr. Hawkins has been rewarded for that service rendered when he seconded Mr. Hoover's nomination at Kansas City, by having been made chief of the extensive colored division of the Republican National Campaign Headquarters here in Washington. The Republican National Headquarters has the largest and most extensive negro division this year than it has ever had. We find the name of this same Dr. Hawkins mentioned in the following news item which appeared in the Washington Times just a few days ago, October 11, 1928. This news item is self-explanatory:

COLORED G. O. P. STAGES RALLY HERE.

"A 'grand Republican rally', in which all the important colored G. O. P. organizations of the city will join, is to be held at Mt. Carmel Baptist Church, Third and I Sts. northwest, tomorrow night.

Thomas L. Jones will be master of ceremonies and the speakers will include Dean William Pickens, of New York; E. F. Colladay, Republican national committeeman from the district; Dr. John R. Hawkins, in charge of the colored division of the national committee; Mrs. Mary Church Terrell, and Mrs. Virginia White Speel.

The Blaine Invincible Republican Club, the Anacostia Republican Club, the Deanwood Republican Club, and others will take part in the rally. The Hoover and Curtis Republican League of which Dr. Charles H. Marshall is president, is in charge of arrangements."

I trust this statement will not be too lengthy for you to publish. As above stated, I have received numerous inquiries about the abolishment of segregation in the Bureau of Census, which is in the Department of Commerce, which, the record shows, won for Mr. Hoover the election in Ohio of E. W. B. Curry, as a Hoover delegate to the Republican National Convention and in answer to all such inquiries I submit the foregoing evidences of the facts in the case.

I want to say that it is my feeling and sincere belief that our people of our great State of Alabama, in the heart of our beloved Southland, should continue to stand solidly under the banner of the Democratic Party, and it is my earnest hope that all of our people will so express themselves by coming together under that banner and giving loyal and undivided support to the ticket of our Party when they go to the polls on November 6th.

Respectfully,
LAMAR JEFFERS.

TWO NEGRO BOYS ARRESTED BY LOCAL OFFICERS OCT 17

George Jeter and James Harris, negro boys, were arrested last Wednesday, October 17th, by city officers. The two boys were charged with assault and battery, and the case was nol prossed in Mayor's Court, on an agreement, according to reports.

STATE CAPITOL NEWS

Montgomery, Ala., Oct. 2p—An increase of approximately $40,000,000 in the assessed valuation of taxable property in the State of Alabama for 1928 as compared with 1927 is shown in figures announced by Henry S. Long, Chairman of the State Tax Commission. The figures indicate a healthy increase in the State's wealth as evidenced by its steadily growing tax values.

For 1927, assessments totalled $1,159,224,588. For 1928 the total is $1,196,105,699, a gain of $36,881,111. The figures for 1928, however, do not allow for any increase in the assessment on motor vehicles, on which return have not yet been made. For 1927, the tax value of motor vehicles was $33,194,372, and in computing the grand total assessments for 1928, motor vehicles were listed at the same figure as in 1927. As a matter of fact, however, the 1927 assessment on motor vehicles showed an increase of $5,632,205 over 1926, and it is expected that 1928 will likewise show an increase, bringing total assessments for 1928 up to approximately $1,200,000,000, a gain of $40,000000 over the preceding year.

A detailed statement of valuations of various classes of property for 1928 as compared with 1927 shows an increase in every class, the only falling off being in penalties, the figures showing that taxpayers paid less in penalties in 1928 than in the preceding year. Real estate assessments for 1927 were $726,254,317 and for 1928 $754,363,213, an increase of $28,108,896. On personal property, the figure for 1927 was $183,201,683, and for 1928, $184,596,799 a gain of $1,395,116. Assessments of public utilities showed a substantial increase, from $214,307,659 for 1927 to $220,911,305 in 1928 an increase of $7,603,646. For motor vehicles, the assessment in 1927 was $33,194,372 while as explained above the 1928 figure on this class of property is not yet available since assessment of motor vehicles does not begin until Oct. 1st, of each year. Penalties assessed for 1927 totalled $3,266,557, and for 1928 $3,040,010 a decrease of $226,547

Striking evidence of the manner in which the wealth of Alabama is increasing, as the development of the State's resources goes ahead is shown in comparing tax values for 1928 with the figures of five years ago. In 1923, assessments reached a grand total of $985,731,350, while for 1928 the total will be approximately $1,200,000,000, showing a gain of over $200,000,000 in tax values in five years' time. This gain, it is pointed out, represents a solid and permanent growth in values and is not the result of any artificial boom or inflation of values such as some other states have experienced.

The figures of $1,200,000,000 for 1928 huge as it is, falls far short of representing the actual value of taxable property in the State. The figures given represent the valuation as assessed for taxes, and the Alabama law provides that property shall be assessed for taxes at only 60 per cent of its actual value.

L. C. Lewis of Tuskegee was elected president of the State Board of Pharmacy at a recent meeting of the board held in Montgomery. He succeeds H. E. Duncan of Birmingham. W. E. Bingham of Tuscaloosa, was reelected secretary and W. P. Thomason of Guntersville was reelected treasurer. Examinations were given to 18 candidates for State certificates.

Governor Bibb Graves has fixed Friday, October 26, for a hearing on applications for appointment to the office of Sheriff of Jeferson County, made vacant by the recent death of Sheriff Chris Hartsfield. There is a long list of applicants after the job. The appointment will be for the balance of the unexpired term, or until January 1931.

PAN-AM MADE 100% FROM PURE PARAFFIN BASE OIL MOTOR OIL

SAFE

PAN-AM Motor Oil gives unfailing lubrication to your car because it is refined from pure paraffin-base crudes.

As you know, nature has endowed this type of petroleum with exceptional qualities. It produces the *toughest*, sturdiest motor oil in the world. No other kinds can equal paraffin-base oils in safety and long wear.

Moreover, Pan-Am Motor Oil is refined with unusual care. Its qualities are similar in all respects to those set up by the leading automotive engineers as the ideal lubricant for modern motors.

Fill up, today, at the first Pan-Am station you see. Every dealer has a scientifically prepared chart showing just the right grade of this *safe* motor oil to protect *your* car.

The Pan-Am franchise is given to dealers of proved business character. You can trade with confidence at any Pan-Am station.

Pan American Petroleum Corporation

Also distributors of KIP *insecticide,* SEMDAC *auto polish and* SUPERLA *candles*

CHILTON COUNTY NEWS

VOLUME 7 — CLANTON, ALABAMA, THURSDAY NOVEMBER 1, 1928 — NUMBER 6

Interesting Pageant Put On By Methodists

Appreciative Congregation Witnesses "The Holiest Task"

The pageant "The Holiest Task" at the Methodist Church Sunday evening was witnessed by an appreciative congregation. It carried a home telling message. The opening scene showed the father, Mr. Venie Teel, and mother, Miss Hazel Krieder, engaged in a puzzled consideration of the problems arising out of the responsibility for their children. Herbert Neighbors, Olive Rainer Elmore and Helen Parrish. They agree in placing the blame upon the school, the community, and the church. Then (Scene II) upon the s tage came school workers, Mr. L. C. Warr, Miss Mary McSwain and Douglas Green, community workers, Mayor Eric Hartz Miss Madge Scarborough and Miss Ruth Prince, and church workers, Mr. Lemuel B. Green, Miss Sarah Pollard and Miss Corrine Polk. Each of t he groups, in turn, made a showing of their interest in, and contribution to the highest welfare of the children, but reminded the parents that school, civic organization and church are aids to, and not substitutes for the home. They each chose their address to t he parents with the words "The children are yours."

The Spirit of Childhood, Miss Emma Sue Morris, enters singing "Jesus, Friend of Little Children, Be a Friend to Me."

The parents see that they have been unconsciously shirking. This they gladly acknowledge. They assume their full responsibility, and implore to the school, community and church workers for guidance and assistance in their difficult task. The spokesman for the three groups, Miss Scarborough, eagerly pledges cooperation. The workers supported by a hidden choir, Mrs. J. D. Armstrong, Mrs. Washington, and Mr. Evan Parrish with Mrs. Barney Roberts at the organ, sang a hymn of dedication.

The mother then supplicates the Spirit of Childhood for aid for teaching and the spirit of humility. The Spirit of Chilhood moves between the parents and leads them in singing "We would be true for those who trust us." Following which, the workers, supported by the hidden choir, sing: "These things shall be," with which the scene closes.

Scene III presents the family group at home, with a visitor for the evening, Helen Roberts. All testify to a happy day on a family picnic. The family ends the day with family devotion, closing with the hymn "Father, We Thank Thee For the Night."

At the close of the pageant, Mr. Warr, Sunday School Superintendent, presiding, called for the report of the Forward Step Committee. Miss Morris, chairman, reported the following recommendations, which was adopted by the congregation:

1. To begin the Sunday School session at 9:30 A. M. instead of at 9:45.
2. To organize the classes above the Junior Department and register them as Wesley classes, and
3. To have two leadership training courses during the school year.

Credit for the production of the effective pageant is due to the committee on arrangments: Mrs. M. F. Jones, chm.; Mrs. H. G Tabb, Mrs L. C Warr, and Mrs M A Gore, as well as to the participants in the presentation.

BOX SUPPER AT MT. PLEASANT JUNIOR HIGH SCHOOL

Don't forget t he big Box Supper at Mt. Pleasant Junior High School on next Saturday night, November 3.

Everyone is cordially invited to attend. Big cracker-eating contest, box cake, pretty gril's contest, and numerous other contests to give fun for all. Proceeds for the school. Remember date and be there. —Rbt. B. Johnson, principal.

COTTON GINNERS REPORT OF CHILTON COUNTY TO OCT 18

There were 10,862 bales of cotton, counting round as half bales, ginned in Chilton County, from the crop of 1928 prior to October 18, 1928, as compared with 14,913 bales ginned to Oct. 18, 1927.

John Durwood and Edwin Mullins, who are attending Sewanee University spent several days at home with their parents, Mr. and Mrs. J. Renfroe Mullins the past week. They also attended the Alabama-Sewanee game at Birmingham Saturday.

HOW TO VOTE

1. If you want to vote a straight party ticket, make a cross mark (X) IN THE CIRCLE RIGHT UNDER THE PARTY EMBLEM.

2. If you want to vote a split ticket make a cross mark (X) in front of the candidate or candidates for whom you wish to vote, no matter what ticket he is on.

3. If you want to vote blank as to any one candidate you can vote the straight party ticket and run a line through the name of the candidate for whom you do not desire to vote. This is a vote for every one on the party ticket except the candidate whom you strike out.

4. Any voter requiring assistance to mark his ballot may call upon any person that he desires to help him.

5. If you vote a straight party ticket and run a line through the name of one candidate you may make a mark in front of the candidate for the office in the other party and thus vote for him.

CHILTON HIGH MEETS LINEVILLE HERE FRIDAY

On next Friday afternoon the Chilton County High football team will meet what is supposed to be the strongest team on their schedule this year, when they play Lineville on the local grid iron field.

Lineville bears the distinction of not having been defeated in a single game during the past three seasons, and all who attend the game here Friday afternoon are assured of witnessing a real battle from start to finish, as Coach Bruner now has his team in the best shape it has been in for some time. Go out and see this battle next Friday afternoon.

BOB JONES SPEAKS TO LARGE CROWD HERE

Court House Overflows With Crowd To Hear Anti-Smith Speech

Rev. Bob Jones, noted evangelist, who has been makign speeches through out the State of Alabama in the interest of Herbert Hoover's candidacy, for President of the United States, on the Republican ticket, spoke to a large crowd at the court house last Saturday afternoon.

Long before the speaker entered the court house, the building was filled His talk was interrupted many times by outbursts of applause, and when he asked for an expression from the crowd by asking those in favor of Hoover's election to stand, a large mapority signified their choice of the national Republican nominee by doing so.

Rev. Jones while making a determined effort to defeat the national Democratic nominee for president, has stated that he is heartily in favor of the Democratic nominees of the state and county. Rev. Jones stated that Smith was a big man, but that he was opposed to him because of his religion, so we were informed.

MARRIAGE L ICENCES ISSUED DURING MONTH OF OCTOBER

Following are marriage licenses issued from the office of the Judge of Probate in Chilton County during the month of October, 1928.

N. L. Owen and Miss Anna Mae Friday.

E. O. Allen and Miss Doshia Porter.

Herbert Collins and Miss Nora Mims.

Madison Davis and Miss Alfa Mae Waters.

Wm. Chaner and Miss Alice Williams

Clarence Marcus and Miss Eldridge Wright.

Mr and Mrs. N. O. Roebuck and children of Maplesville were visitors in Clanton last Saturday.

EDITORIAL

Chilton Democratic Nominees Deserve Victory; Ability Already Demonstrated

On next Tuesday, the qualified voters of Chilton County will elect, for the next ensuing term, a Judge of Probate, Clerk of the Circuit Court, Treasurer, and members of the Board of Education, and two Commissioners, one from the Third a nd one from the Fourth District. The Democratic Party has nominated Dr. P. T. Hinkle for Judge of Probate, Udah Curlee for Clerk o f the Circuit Court, J. A. Nivens for, Treasurer Judson Strock and C. J. Klinner for members of the School Board and George T. Guy for Commissioner from the Fourth District and Ernest H. Davis for Commissioner from the Third District.

The Chilton County News believes that the election of the Democratic nominees will mean progress for Chilton County, and we commend them to the voters o f this county, for their honesty, high standing and clean records as citizens and tax payers, who have an abiding faith in the progress of the county and who are qualified to fill the places for which they have been nominated.

These candidates have waged a campaign free of the so-called "mud slinging" and have each sought the support of the people of this county on their own merits and qualifications and without stooping to the low level of a cheap critic. Each of these nominees are taxpayers of the county and from every line of reasoning have an interest in it's future progress. They have pledged the people that they would advocate good roads, good schools and efficient ad ministration of the county affairs, and that the roads would be worked without discrimination on account of the political standing of any person or community, and that they would see to it that every citizen, regardless of political affiliation, receives a fair and square deal in transacting business with the county.

The Democratic nominees of Chilton County have demonstrated t hat they cannot be swept from their feet by waves of political propoganda; that they have judgement and wisdom to interpret current events with accuracy enough not to be dragged to the political slaughter by the demands of some, whose purposes and intentions are self evident.

The News further believes that the people can perceive the issues of this campaign through the smoke screen that has been adroitly laid by the professional politicians, who are a lways on the job seeking office. That there are issues of fundamental importance to the v oters of this county, no one will deny. We believe that the records of the county expenditures for the five and one half, years January 1st, 1923 to June 30th, 1928, a nd of the Commissioners Court, will tell the people something that they should know before casting their ballots next Tuesday.

In t he minutes of the Commissioners Court of Chilton County, vol. 5, at page 327, the following certificate, which is self explanatory, is found, to-wit:

"STATE OF ALABAMA,

CHILTON COUNTY.

I, L. H, Reynolds, Judge of Probate in and for said county, in said state, do hereby certify that the present total outstanding indebtedness of said county of every description and character is $190,242.95.

I further certify that the proceeds from the $200,000.00 bonds voted by said county on April 16th, are to be used for paying the said indebtedness.

I do further certify that the assessed valuation of real and personal property of said county, according to the last assessment was $5,661,296.00.

Witness my hand and seal of office this the 27th. day of April, 1917.

L. H. Reynolds, J of P."

The assessed valuation of this county for year of 1927, was $15,081,629.00, which shows that our taxable property has jumped in a period of ten years approximately ten million dollars.

According to the report of the Treasurer on June 30th, 1928, the outstanding indebtedness of the county was $210,897.28, or approximately over $20,000.00 more than it was in April, 1917.

During the time from January 1st, 1923, to June

(Continued on Editorial Page.)

PRAISE DEMOCRATIC RULE

Six years ago the Democrats won the election in Shelby county with a promise of better government. As is right and proper the people this year require them to give an account of how their promises have been kept. The Reporter believes in all sincerity that the past six years have been the best years in the history of Shelby county. We believe too a large prta of the credit for the progress that has been made, and is being made today, belongs to the men who were elected six years, four years and two years ago. The Deporter believes that the promises made six years ago have been kept, and we feel that it is not unreasonable to ask of the people of Shelby county that they endorse this record of progress by their votes on November 6th.

The above article taken from the Shelby County Reporter will be read with great interest by the voters in Chilton County.

HALLOWE'EN PARTY AT THOMAS JUNIOR HI SCHOOL

The News has been requested to announce that a Hallowe'en party will be given at Thomas Junior High School, next Friday night, Novemger 2.

The committee in charge of arranging the program state that all who attend are assured of an enjoyable time; as a varied line of amusement will be very much in evidence.

While no admission charge will be made, those who attend are urged to bring a few nickles and dimes, as numerous concessions will be arranged to gather up the surplus coins.

NEW MILL TO SOUND FIRST WHISTLE NOV. 3

Date For Starting Operation Has Not Yet Been Announced

On next Saturday at noon, the first whistle to be sounded from the new cotton mill at Clanton will be heard. This announcement was made Tuesday morning.

The fct that the whistle will be heard does not mean that the cotton mill is now ready for operation. The workmen who are installing the machinery will test out the different machines which have been installed, and the whistle will be blown as a celebration of the fact that the mill is ready for testing.

No date has yet been announced for the beginning of regular operation at the mill. However, it is expected that this announcement will be made within a very short period now, as all work of installing machinery, etc., is expected to be completed at an early date.

The local plant is an unit of the Alabama Mills Company, and the location of one of the plants in Clanton was made possible by the industrial agents of the Alabama Power Company and by the cooperation of the people of Clanton and vicinity. When the mill begins actual operation, it will mean much to the entire section, as hundreds of people will move into the village which has already been completed, and the weekly payroll will likely be a big aid to the entire section.

FUNERAL SERVICES HELD FOR ACCIDENT VICTIM

Funeral services for Kermit Ward, age 18, son of Mr. and Mrs. C. C. Ward of Clanton, Route 7, were held last Sunday morning, Oct. 28, at the Liberty Hill church with the Rev. A. E. Trice officiating, assisted by Rev. W. S. Cox and Albert Foshee. Interment took place in the Liberty Hill cemetery.

Death came as the result of injuries received last Thursday afternoon, Oct. 25th, when the Chevrolet truck which the young man was driving overturned on the Maplesville road about seven miles from Clanton, pinning him underneath, and rendering him helpless.

The truck caught fire with the boy underneath, burning him severely on the legs and lower part of the body, before aid reached him. He was rushed to the Central Alabama Hospital by young men friends, who came to the scene after being notified by passing motorists, who did not stop to aid the victim.

Miss Cleo Roebuck spent the past week end with her parents at Maplesville.

Chilton Runs Rough Shod Over Selma

Piles Up 48 Points While Selma Lads Make No Counters

Chilton County High football team ran rough shod over the light Selma High School team last Friday, the game being staged at S elma, and when the whistle was sounded at the end of the game, Clanton had made 48 points, while the Selma lads had not made a single counter, and were only credited with three first downs during the entire game, two of which came as the result of penalties imposed on the Clanton lads.

At the beginning of the game, it was seen that the Chilton team had the Selma boys outclassed in every department, and after Coach Bruner's first string men had piled up a safe margin to insure victory, he began sending in the second string men, who continued to m arch down the field time and time again for counter

There was something like one hundred and fifty Clanton rooters who accompanied the local team to Selma, and they were given many thrills by the way in which Bill Minor, Dock Baker, Mose Simpson, Edwin Bruner, Nelson and Benson Sims ran rough shod over the light Selma team while Retherford, Wagner, Meeks, Melton, Hodgson, Gowan, Harris and [illegible] were also [illegible] to the highest by the Selma rooters.

Bill Minor and Edwin Bruner were probably the greatest ground gainers, Minor running wild through the line, while Bruner got loose for a run of about 50 yards to return a punt across the goal line. Bruner also made one of the prettiest plays ever seen on any grid field when he leaped high into the air and intercepted one of Selma's attempts at a forward pass. On this occasion, Bruner juggled the ball with one hand for some distance, and when he finally got possession of it, ran the ball down the field for a nice gain.

Benson Sims, Brown, Retherford, Baker, Bruner and Mose Simpson gave the side lines a glimpse of real clean hard cut tackling and quite often threw the Selma team for a loss.

R. H. HARRIS WITH POLK BROS., CHEVROLET DEALERS

Mr. R. H. Harris of Bessemer, has accepted a position with Polk Bros., local Chevrolet dealers, and has already assumed his duties.

Mr. Harris comes to Clanton from Bessemer, where he has been employed for several years with the Warren-Shepherd Chevrolet Company. For the three and one-half years, Mr. Harris was connected with the Bessemer concern he established a record that is to be envied by any salesman, being among the few who were awarded membership in the "72 Car Club" of the Chevrolet Motor Company.

Mr. Harris' family consisting of a wife and one small child will arrive in Clanton at on early date, and they will become permanently identified with the religious and civic organizations of the city.

Anyone interested in the purchase of any of the Chevrolet products, or as for that matter everyone in the county, is extended a cordial invitation to call and meet Mr. Harris, as he is very anxious to meet and become acquainted with the people of this section.

ERIC HANSON DIES AT THORSBY, ALA., OCTOBER 27

Mr. Eric Hanson, age 81, died at the home of his daughter, Mrs. J. O. Johnson at Thorsby, Alabama, last Saturday morning, Oct. 27. Funeral services were held at the Lutheran Church in Thorsby the following Sunday afternoon, with the Rev. J. E. Each officiating, assisted by Rev. E. W. Butler.

The deceased is survived by one daughter, Mrs J. O. Johnson, and one son, Eric Hanson, both of Thorsby.

Mr. Hanson moved to Thorsby from Kewanee, Ill., in 1900 and has been a resident there since.

MISS ROSA LEE THORNTON DIED SATURDAY AFTERNOON

Miss Rosa Lee Thornton, age 74, died at her home in Clanton last Saturday afternoon, following a lingering illness. Funeral services were held at the local cemetery Sunday, Oct. 28 with Rev. L. B. Green officiating, assisted by Dr. S. J. Ezell. Interment took place in the Clanton cemetery.

John Raskob Writes James J. Davis On Immigration

October 27, 1928.

Hon. James J. Davis.
Secretary of Labor,
Washington, D. C.
My Dear Mr. Davis:

I have your letter of the 16th, which I have carefully read, in answer to the telegram I sent you relative to the subject of immigration. I am answering this letter in as frank and accurate a manner as I can so that you may know in full the views of Governor Smith on this important question.

First—The present Immigration Law is not a Republican Law. You know as well as I that members of both parties in the House of Representatives and in the United States Senate voted for its passage. Further, the bill was framed under Committees which contained both Democrats and Republicans. You will also recall that Congressman Box of Texas, a Democrat, was one of the leading advocates of immigration restriction, and an analysis of the vote by both houses of Congress shows that both parties united in the passage of the bill. Therefore, to label this as a Republican measure, thereby carrying the inference that Democrats were opposed to it, is not only unfair but untrue. It was a non-partisan, or rather a bi-partisan measure. So much for the history of the present Immigration Law.

Second—As you yourself are an immigrant boy who came to this country and have achieved success, so we can leave the history of immigration for the moment and deal with it in its present form. Let us see what Governor Smith says in his acceptance speech on this question. I quote from his remarks:

"While I stand squarely on our platform declaration that the laws which limit immigration must be preserved in full force and effect, I am heartily in favor of removing from the immigration law the harsh provision which separates families, and I am opposed to the principle of restriction based on the figures of a census thirty-eight years old. It is in no way essential to a continuance of the restriction advocated in our platform."

You can see at once from the above that Governor Smith in his acceptance speech stated first that "The Laws which limit immigration must be preserved," and further that in advocating a more humane policy Gov. Smith has clearly stated that when immigrants are to be admitted under the law their relatives of families already here should receive the preference; and he uses the words of the Democratic convention which [illegible] stating that [illegible] are admitted [illegible] already here should [illegible] who have no relatives here, as was the practice under the law.

Third—Now let us go still further and see what Gov. Smith has said upon this subject on the stump. I quote from his speech delivered in Tennessee on Oct. 12th at Nashville:

"Let me call your attention to something else. In Tennessee the Republican candidate stated, 'I do not favor an increase in immigration.'

"Why does he say that? What is the necessity for saying that, unless it is to try to put into somebody's mind that I do. (Laughter) If he tries to plant that in anybody's mind he is making a very great mistake, because I do not favor any let-down at all—not in the slightest degree—in the present restrictive clause in the United States Immigration Act, and it was not too sensible to try to make anybody believe that, because the Democratic platform declares against letting down the bars. (Applause)

As to the hardships that are worked by the separation of families through the operation of the Act, I am with him again, or—I don't know—perhaps he is with me. (Laughter and applause.)

Whichever way it is, you can be sure of one thing—there was no reason for making that statement in Tennessee (Applause). It smacks a little bit too much of the old time legal practice that they used to tell about, when the lawyer wanted to get the witness in and by saying "When did you stop beating your wife?" So much for that.

Frankly, Mr. Secretary, in view of that speech made by the Governor himself on an American platform, in the course of this campaign, before an audience of American people, how can you or anyone say that Gov. Smith is opposed to our present policy of restrictive immigration. It certainly cannot be done by any honest or intelligent person, unless that person wants to deliberately misrepresent the Governor's position.

In your letter to me you have drawn an entirely erroneous conclusion. Governor Smith stated in his acceptance speech that he was "opposed to the principle of restriction based upon the figures of immigrant population contained in a census thirty-eight years old." This does not mean that the number of immigrants to be admitted would be enlarged if the last census instead of one thirty-eight years old were the basis for admitting new citizens to this country.

Let me say that if you assume that Gov. Smith is in favor of increasing the number of immigrants now permitted under the law you are running counter to both his acceptance speech and the Democratic platform, as well as the Governor's speech at Nashville and the votes of a majority of the Democrats in both houses of Congress; and that the conclusions you have drawn in your letter are directly opposed to every utterance of Governor Smith on this question.

In conclusion, I cannot resist the statement that Republican speakers all over this land are continually misrepresenting the plain honest statements made by Governor Smith dealing with this question. It is regrettable that this campaign of misrepresentation persists, but whether it persists or not, the fact is that at Nashville in the last utterance on this subject by Governor Smith he used these exact words, "I do not favor any let-down at all—not in the slightest degree—in the present restrictive clause in the United States Immigration Act." In what other words could he have more strongly stated his position?

I sincerely trust that this letter containing as it does so much of fact that cannot be disputed, will set at rest for all times the real position of Governor Smith on this important question.

Very truly yours.
JOHN J. RASKOB, Chairman
Democratic National Committee.

FARM FOR SALE

Eighty (80) acres of well improved farm land about eight miles south of Clanton, near Enterprise Junior High School. Five room house, large barn, outhouses, apple orchard and stream trees. If interested, get in touch with S. P. SMITH, VERBENA, ALA., Rt. 1 No. 6-3t.-paid

STATE HAS 3,225,000 ACRES OF SWAMP LAND

Drainage Of Alabama's Undeveloped Land Would Place It Among Most Valuable In State

Among the great undeveloped natural resources of Alabama are its 3,225,000 acres of wet, swamp and overflowed lands. If collected in one place, these lands would have an area more than three times greater than the area of the state of Rhode Island. Such lands are found in every county in tracts varying in size from a few acres to several thousand acres. The proper drainage of some of these lands would place them among the most valuable lands of the state.

It has been found by health authorities that some of this wet land is not only an idle waste in its present condition, but forms a serious menace to the health of the people. The landowners in no less than thirty-five different sections of the state have expressed their desires to improve the drainage conditions of their lands for the purpose of eliminating malaria, improving production and other economic benefits. In these desires, they are entirely dependent upon the drainage district plan.

A drainage district plan is similar to the plan used by municipalities in the building of sidewalks and streets. Under this plan the assessment of costs to the landowners is based upon benefits to be derived. This plan was legally established by an act of the legislature of 1915, which was latter made inoperative by a decision of the courts.

The desire and need for this drainage district work are fully evidenced by the fact that more than $500.00u worth of drainage improvements were in progress at the time the Drainage Act was declared invalid. In order that this work may be completed and other desired projects may go forward, the adoption of this Proposed Amendment No. 5 is necessary. A vote for Proposed Amendment No. 5 at the general election, Tuesday, November 6, is a vote to restore the drainage improvements already undertaken and to enable other landowners to make similar improvements, if they so desire.

Montgomery, Ala.,

TO THE VOTERS OF ALABAMA:

The PROPOSED AMENDMENT NUMBER 5, to the Constitution concerning drainage districts, to be voted on in the general election, November 6, 1928, is a non-political question. This amendment does not involve the State financially in any way, nor the tax payers outside the drainage districts. It is an expression of the State's moral obligation to some of its citizens and the investing public who became involved in drainage district work under the drainage act of 1915 before the said act was declared unconstitutional by the Supreme Court, and to those citizens who may desire in the future to organize drainage districts.

In 1915 the legislature passed an act authorizing the formation of drainage districts. Under this act several drainage districts were formed and was done to the extent of about one-half million dollars. One district sold its bonds, used the money and drained the lands as originally planned. During the time this work was going on, other districts were formed and two friendly suits were instituted to test the validity of the 1915 acts. The Supreme Court held the act constitutional in the first suit, but later ruled on questions not raised in the first case that this act was unconstitutional. Investors are holding $410,000 worth of bonds, the money from the sale of which has been used by the landowners of the drainage districts. Other drainage districts are carrying the expense of drainage surveys, plans and organizations.

In 1923 an amendment to the constitution, intended to make the drainage acts of 1915 valid, was submitted to the voters of the state. This was carried by a large majority in the election of November, 1924.

This 1924 amendment puts the laws in proper shape so that future drainage work can legally progress. However, it did not fully validate the 1915 laws under which the half million dollars worth of work had been done.

The purpose of this amendment is to legalize the work that was done under the drainage act of 1915, so that honest and just debts can be paid and the districts not fully completed can go forward.

The State has the moral obligation to so validate these acts that its citizens can legally pay their honest debts to the bond holders and those who have in good faith advanced their money. Unless this is done, the drainage district bond market will continue to lack confidence in Alabama drainage bonds even though the 1924 constitutional amendment fully authorizes the formation of new drainage districts.

In other words, while the present law permits the formation of districts and the progress of the state thereby, the lack of a bond market through the loss of confidence practically nullifies the hope of drainage district work in Alabama.

This amendment is designed for the sole purpose of correcting these conditions. In view of the above stated facts, and the relation of drainage district work to the success of many of our undertakings, respectively, we, the undersigned officials of the State of Alabama, feel justified in asking the voters of Alabama to vote for the adoption of the said AMENDMENT NUMBER 5.

To The Voters Of Chilton County

On next Tuesday, November 6th., 1928, you will elect your Judge of Probate, to serve for the next six years. I want to be the man elected. The office carries with it an Honor that I will appreciate having bestowed upon me. I have a desire to serve the people of this county in that office, because I believe that I can manage the affairs of Chilton County economically and at the same time bring to it progress, without placing any additional indebtedness against us. If elected I promise that the county will not be put in debt; that I will conduct the county affairs so that you will not have cause to regret having elected me and I will discharge the duties of the office courteously and to the very best of my ability. I promise every one a fair and square deal, in all matters they may have with the county.

Knowing the hardships and burdens that the farmers have in making a living and educating their children, I believe that I can render them a service in the office, that will be of great benefit. With the amount of road and gasoline tax, I feel that the farmers should not be required to pay a road tax, and I believe that the county could share a portion of the expenses of the schools and that the incidental fees should be eliminated. I believe that with rigid economy in the county expenditures, for road machinery, road maintenance and for the supplies for the several county departments, that enough can be saved that will go a long ways in accomplishing this, without hampering due progress with our roads and county affairs.

Some one has stated that last year I went to Montgomery and tried to get a bill through the Legislature that would legislate officers elected by the people of this county, out of office. I desire to publicly state to the people of this county that I have never advocated any such law and I will pay $100.00 cash to the person that produces proof that I did.

I have waged this campaign with the idea in mind that the people of the county would give consideration to the man for the office, who they believe will render them and their county the best service during the next six years. I want the voters of the county to go to the polls next Tuesday and vote accordingly and without prejudice or passion. If I am your choice you may rest assured that I will be your Judge and that you will not have cause to regret having elected me.

Thanking each and every citizen for the consideration shown me in the campaign and again asking for your support and influence and assuring you that I join with my opponent in asking the people to see that this election is conducted on a high plane and according to law, I am,

P. T. HINKLE.

Yours respectfully,

(Paid Political Advertisement by P. T. Hinkle, Clanton, Ala.)

Interesting News From Thorsby

Miss Jennye Robinson attended the Alabama-Sewanee football game in Birmingham Saturday.

Miss Elizabeth Johnson of Clanton was the guest of Miss Mary Sue Robinson the past week end.

Mrs. W. H. Wilson visited her brother, C. D. Collins, of Mineral Springs Wednesday.

Rev. Mr. Pery of Louisville, Ky., preached at the Baptist Church on last Wednesday night also on Sunday evening. Very large crowds were out at both services.

The Y. W. A. met with Mrs. Clyde Meade Tuesday afternoon, a very interesting program being carried out.

Miss Ruth Mize was hostess at six o'clock Saturday. Those who enjoyed this hospitality were Misses Frances Brown, Elizabeth Tatum, Cora Maddox, Ethel Mize, Elizabeth Phelps.

Mr. Wilson Kanipe of Selma is off on a few days vacation and is the guest of his parents, Mr. and Mrs. C. L. Kanipe.

Mr. and Mrs. W. A Powell and daughter, Sarah Lee of Troy, were the week end guests of Mr and Mrs G A Coleman.

Miss Ellie Coleman, Mr. Fred McCarty of Birmingham spent Sunday with their parents, Mr. and Mrs. Coleman.

Miss Elizabeth Phelps of Brierfield, was the week end guest of her aunt, Mrs. C. L. Kanipe.

SECRET OF BIGGER PROFITS FROM FARM POULTRY

Dayton, Ohio, Oct. 20.—The time when the farm poultry flock was a "pin money" pastime for the farmer's wife is gone. The farmer who does not make his chickens contribute liberally to his yearly profit is overlooking one of his surest sources of income, in the opinion of authorities interested in bettering farm conditions.

The whole secret of bigger profits from farm poultry is contained in three simple things—better stock, more hens and better methods. It is just about as easy to handle several hundred hens as it is a few. Good layers eat no more feed than low producers, while the former return a good profit for the care they get.

Farm bureau and state agricultural experiment stations have recently been stressing the need of better farm flocks for several years past. Now comes the hatcheryman himself, joining the battle to eliminate the 'scrubs' from the farms of the country by pledging himself to improved quality of his chicks.

Leading hatcheries recently united ing large numbers of eggs is going to reap the greatest profit.

Farm families have been too prone to look upon the poultry flock as a minor side line instead of one of their most reliable sources of income. Particularly in winter, when egg prices are high, and other farm operations are at a standstill, can the farm home secure a steady and lucrative profit if its flocks are of the kind which are capable of turning out a steady supply of eggs.

under the slogan "Hatchery Chicks For Greater Profits," promising fair dealing, cooperation with the farmer in raising the chicks purchased, and better quality stock to increase the profits from the farmer's flock

The United States Agricultural Department reports indicate good egg prices for the coming year, as well as a profitable market for poultry as meat. Nearly all students of market trends agree with this forecast. With a favorable season just ahead the farmer with the largest flocks produc-

Miss Cleo Broadhead spent last Sunday with her father, Mr. L. B. Broadhead in Maplesville.

MR. C. C. HAYS DIES AT HOME NEAR THORSBY LAST FRIDAY

Mr. C. C. Hayes died at his home near Thorsby last Friday. He was buried at Cedar Grove cemetery Saturday, Rev. W. P. Lowery officiating. Mr. Hayes leaves a widow and several children to mourn his loss.

Miss Dorothy Manning and Miss Avalon Webb of the Isabella community were among the visitors to Clanton last Saturday.

Vote for Proposed Amendment Number 5, Tuesday, November 6

The Drainage District Act of 1915 was designed to enable owners of wet, swamp and overflowed lands to rid their farm lands of the scourge of malaria, increase producetion from one normal crop in every three to five years to a normal crop every year, improve pasture lands and the growth of timber, to provide for more economic building and conservation of public roads and to eliminate wet, overflow areas around the cities and towns for the location of new industrial plants and residential subdivisions, by the organization of drainage districts. This act was declared unconstitutional by the Court.

Proposed Amendment No. 5 is for the sole purpose of restoring to value the drainage organizations, surveys and work begun under the Drainage Act of 1915, so that the same may be saved from loss, and that drainage district work organized hereafter may proceed wherever and whenever the landowners desire to make drainage improvements of their lands.

Proposed Amendment No. 5 does not assess or authorize any taxes and does not involve the state financially in any way, nor any citizen outside of the drainage district. It only furnishes an opportunity to landowners desiring drainage of a body of land to proceed at their own expense in the most practical and economical way.

Chilton County Abstract Co.

M. D. FOSHEE, Manager

A good business man will not buy a farm or any property without first looking it over to see what it is worth. However, some will buy or loan money on land without an abstract.

Isn't it equally as foolish to buy a farm without looking it over as to buy it and not know whether the titles are good or not? Without an abstract you do not know where you are getting the land you look at or not.

Before investing in land in any way have an abstract made and be safe.

PRESERVING COMMUNITY RIGHTS

The rights of communities to protect themselves through zoning laws has evolved from theory to fact. The courts sustain the zoning laws, and time has justified the zoning method as the right of the community to protect itself from harmful invasion of buildings and uses of them. Hundreds of cities and villages throughout the country have protected their residential districts against the invasions of manufacturing institutions, and the erection of buildings that would destroy the harmony of particular sections of these cities. A recent statement concerning the zoning situation in the United States says that city officials are confronted with a multitude of practical questions in farming, amending and administering zoning ordinances. Among such questions are: Can front yards be required and how deep? Must both sides of a street be zoned alike. Must hospitals, hotels and mortuaries be permitted in residence districts? Can an amendment prohibit a building already begun? Can a board of appeals impose conditions of an aesthetic character? Can country districts be zoned, and how? The statement says that the questions involved legal as well as constitutional rights. The Regional Plan of New York and its Environs of which Colonel Fredic A. Delano, is president has issued a bulletin covering 600 important cases in 38 states. In it are listed zoning cases under 42 headings, including: outdoor advertising, aesthetics, billboards, boards of appeals building lines, and private restrictions. So far as is known this is the first publication that has been issued that covers the subject as it has been determined by the courts. The United States Supreme Court upheld the right of State legislatures to make or authorize zoning for business and residential purposes in a decision rendered by it in November, 1926.

SEEING THE COUNTRY

Nearly a quarter of a million more people visited the national parks and national monuments this summer than in 1927. The official figures show close to 3,000,000 visitors. While the claim of the Interior Department at Washington is a great record it must be admitted as a still greater fact that New England, Canada, and the East, West, North, and South also had many extra thousands of tourists. Travel by auto mobile is no longer a matter that can be traced to communities as the "travel bug" has apparently bit the whole population. And as the summer wanes and motoring becomes less popular the flying men are beginning to boom their goods, and pa and ma, and Susie and Jimmie, are also yielding to the temptation to "go up."

CHILTON DEMOCRATIC NOMINEES DESERVE VICTORY; ABILITY DEMONSTRATED

(Continued from first page)

30th, 1928, acording to the Treasurers report of this county, Judge Reynolds, and the Commissioners have expended the following amounts, to-wit:

1923	$ 81591.76
1924	$115,018.20
1925	$181,421.23
1926	$156,928.99
1927	$160,542.30
Jan. 1 to June 30, 1928	$ 68,064.19
Total	$763,566.67

These amounts represent the expenditure from the General, Special Road and Gasoline funds, and do not include the amount expended by the School Board, nor is there included in these figures the expenditure out of the Fine and Forfeiture fund.

These figures readily show that over three quarters of a million dollars have been spent during these five and one half years.

We believe that a large per cent of this expenditure was made toward roads and expenses for their maintenance and upkeep. Then we find that Dr. Hinkle and the candidates for Commissioners, Guy and Davis, are pledging to the people that they will continue to give them good roads all over the county, without discrimination on account of politics, and see to it that when a dollar of the county's tax money is expended that there is returned to the county, a dollar's worth of labor or material.

The qualified voters of this county are the ones to judge whether the expenditure of $763,566.67 has been made wisely, judicially and whether it has accomplished anything permanent for them.

The cause of education has not received very much consideration out of the above expenditures, as investigation will disclose that only a small per cent of the above amount was expended for schools. A more liberal attitude towards the school on the part of the county administration ought to be brought about and the Democratic nominees of the county promise the people that they will aid and assist the schools and the cause of education to the best of their ability.

The Democratic nominees of Chilton County, for Probate Judge and Commissioners, will, at the earliest date possible, abolish the $5.00 road tax which has been levied upon men between 18 and 45 years old. Also relieve them from the payment of the FIFTY CENTS FEE that has heretofore gone into the pockets of the Judge of Probate for issuing the receipt for said tax. We have known farmers in the past to have to borrow the $5.50 to avoid having to work the required number of days on the roads, and have known men to have to pay this tax when they were hard pressed to make ends meet, due perhaps to this supposed prosperity that seems to pervade the country at present and which some claim has existed for some several years.

The election of the Democatic nominees of this county will mean that the present outstanding indebtedness will be paid as fast as money is available to retire same and that the bonded indebtedness will be taken care of by setting aside a sinking fund, which will itself, draw sufficient interest to prevent the county from further carrying the debt. Our nominees promise the people that the county will not be one cent more indebted at the end of their terms, than when they assume office, and that there will be in the treasury as much cash at the end of their terms as when they take office.

The News believes that the people of the county desire a change in officers and that they have faith and confidence in the ability, integrity and honesty of the Democratic nominees and that on next Tuesday, the people of this county will give the Democratic nominees a handsome majority of the votes cast, which will accomplish for our county, great good.

We desire to take this opportunity to thank the people of the county for the consideration given, and courtesies shown our nominees, in their efforts to lay before the people their claims for the offices which they each aspire to fill. We feel sure that the people appreciate the clean campaign that the Democratic nominees have waged, and as stated that they will, on next Tuesday, receive the endorsement of the people of the County.

STATE CAPITOL NEWS

During the first year of its operation the fifteen percent sales tax levied on cigars and cigarettes by the last legislature brought in revenue considerably in excess if the sum of one million dollars which it had been estimated that the tax would produce. Figures announced by the State Tax Commission show that for the fiscal year ending September 30, 1928, tobacco tax collections totalled $1,195,302.56, this being the amount paid into the State Treasury after deducting the commissions paid to wholesalers who collect the tax for the State. This revenue will be increased by some $11,000 when audits of accounts now in progress is completed.

The tobacco tax is one of the new sources of revenue provided by the 1927 Legislature to make possible the great advances in public education now being made in this State. Proceeds from this tax, after deducting expenses of collection, go to the schools of the State. Alabama's tobacco tax law eliminates the stamp feature found in similar laws in other States, and which has proven elsewhere to be the most objectionable feature of the tax. Already the Alabama law has been studied and approved by experts as a model for other states in levying tax upon "smokes."

Alabama farmers are appreciating as never before the value of winter cover crops for adding nitrogen and vegetagle matter to their soils as shown by the heavy acreage planted in legumes this fall. A total of 1,127,096 pounds of vetch and Austrian winter peas, sufficient to plant about 60,000 acres, have been bought by farmers through the Farm Bureau for fall planting. Dallas County is first, in this progressive farming movement, using over 100,000 pounds of seed, Hale County is second, Calhoun third and Perry Fourth.

Roy Dickerson's recent uncermonious depart from Kilby Prison has been followed by the institution of a number of members of the official staff of the prison. Kilby was supposed to be about as near escape proof as a prison can be, and the failure to retain Dickerson, Ivanhoe Silva and Frank Cook among its inmates resulted in censure of those in charge of the famous bastile, and a number of changes in the prison force. The State Board of Administration, in an official report to the Governor, declared that carelessness of those in charge at the prison was r esponsible for the escape of the noted bank robber and his two fellow convicts. The escaping criminals had outside aid and blame was placed for the i ndiscriminate admittance of outsiders to the prison.

G. B. Johnson, deputy warden at Kilby at the time of the escape, has been transferred to the position of inspector of State convict road camps, and has been succeeded by Frank A. Boswell as deputy warden. Three prison guards have been fired, and the chief clerk and dog warden at the prison suspended. In the meanwhile, Dickerson and his comrades have vanished as completely as though they had disappeared into the atmosphere.

Business of the Alabama Public Service Commission mhich has charge of the regulation of public utilities in the State, showed a marked increase during the fiscal year ending September 30,1928, as compared with the preceding year. During the year just closed the commission heard and determined 476 formal docket cases and 1,020 informal cases and complaints, a total of 1,496 cases. This compared with 181 formal cases and 918 informal cases, a total of 1,099 for the fiscal year.

An appeal to voters of the State to support ahe proposed amendment number 5 to the Constitution, concerning drainage districts, as a nonpartisan and non-political issue has been issued in a statemet signed by Judge Woollsey Finnell, State Highway Director, S. M. Dunwoody, Commission of Agriculture, Dr. Douglas Cannon, acting Health Officer, Page S. Bunker, State forester, and Dr. Bradford Knapp, President at Auburn.

The purpose of the amendment is to legalize work already done in draining wet lands in certain districts of the State, under authority of an act of the 1915 Legislature, which was later declared unconstitutional. In 1924, an amendment to the constitution was ratified by a large majority, which puts the laws in proper shape so that future drainage work can be carried on, but failed to fully validate the 1915 law under which worb had already been done. The purpose of the amendment now pending is to make valid the act of 1915, in which defects were found by the Supreme Court, so that bond holders and others who have advanced money for the work already done can be protected. While the present law, adopted in the amendment of 1924, permits the formation of drainage districts and the carrying on of future work, the lack of a bond market due to loss of confidence following the court decision against the old 1915 act practically nullifies the hope of drainage district work in the State, it is said. The establishment of drainage districts for reclamation of wet lands is regarded as a progressive movement in the development of the State, both in making available for agriculture

Growing Use Of Large Appliances Makes Lower Rates Necessary

This is the fourth of a series of advertisements explaining the proposed new Domestic Electric Rates

IN THE past electric service was used in Alabama homes principally for lighting purposes. For such service the present method of charging at practically flat rates per kilowatt hour is only fairly satisfactory.

The growing demand for electric refrigerators, water heaters, washing machines, ranges and many smaller appliances, has brought about a necessity for changes in the rate forms in order to permit customers to use these appliances at reasonable total cost.

The introduction of special rates for cooking, heating and refrigeration has been a partial remedy, but these rates do not give every customer the same opportunity to use additional service at a lower rate. In addition, such special rates have often necessitated duplicate meter installations. Under the new proposal only one meter would be used to measure all of the electricity used in your home. Under present conditions some installations require as many as three meters.

Refrigerators now installed on the lines of the company are served either on the regular straight rates of the company or on special rates.

For example, the special refrigerator rate now is $1.50 per month plus 3 cents per KWH. Under the new rate a lighting customer will pay $1.00 plus 4, 3 and 2 cents for refrigerator service, which in nearly every case will mean a reduction.

Refrigerator motors cause heavy starting currents that do not register on the meter, and require more plant capacity and larger distribution wires than other equipment of similar capacity.

The collection of the dollar charge for refrigerators helps keep the minimum charge down to $1.00 for those in small homes who cannot now afford this form of refrigeration.

Frances Caffey Replies To Statement of R. N. Wilkins

New York, Oct. 24, 1928.
Editor Chilton County News.
Clanton, Ala.
Dear Sir:

I have today seen the letter of Mr. R. N. Wilkins in a recent issue of the Union-Banner. He says the New York delegates to the Houston convention were foreigners and includes me in the list. I was on the delegation and am a fair sample of its members. The facts about me are as follows:

Every drop of my blood is from ancestors who came to America long before the Revolutionary War. My father's family settled in Montgomery County in 1817 and my mother's family in Lowndes County in 1840. On my father's side my great-great-grandfather, my great-grandfather and my grandfather are buried in Montgomery County. On my mother's side my great grandfather is buried in St. Clair County and my grandfather in Lowndes County. My parents and all their children were born in Lowndes County. The family moved to Verbena in 1886. My father died in 1919 and my mother in 1921. Both are buried there.

My family have been Baptists since Colonial days. I belonged to the Baptist Church at Verbena until after the death of my parents. I then moved my letter to the Park Avenue Baptist Church, New York City, of which I am still a member.

Mr. Wilkins thinks that, if the Democrats carry the election, the country will be run by atheists, negroes and Catholics. If Governor Smith becomes President, as it now seems probable he will, I assure your readers that what Mr. Wilkins fears will not happen. I removed from Montgomery to New York in 1902. I have lived here ever since. I have never hearr of an atheist holding office in the State. Governor Smith has never appointed a negro to an important position. There may have been a few janitors or others in minor places under him in the Capitol at Albany who are negroes. But it is certain that there are more negroes around the Capitol at Montgomery. Governor Smith has never favored his church in the conduct of his office. The great majority of the people appointed by him during his 8 years as Governor are not Catholics.

Governor Smith is honest, conscientious and a fine official.

He is the best Gvoernor this State has had during the 26 years I have known about it. If Mr. Wilkins would come to this city, he would find New York people very much like those in Chilton County. He would also find them very proud of their Governor.

FRANCES G. CAFFEY

A Proclamation

BY THE GOVERNOR

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out; and

Whereas, notice of such election, together with the proposed Amendment, is required by law to be given by proclamation of the Governor;

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice direct and proclaim that on Tuesday, the 6th day of November, 1928, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

Article XI. Section 216-A. In addition to the taxes which the City of Birmingham is authoribed to levy and collect under the Constitution as heretofore amended, said city shall have the power and right to levy and collect in any year or years for any municipal purpose or purposes, any rate of tax, not in excess of one-half of one per centum, on property situated therein, based upon the valuation of such property as assessed for State taxation for the year next preceding the levy, which a majority of the qualified electors of such city voting at an election called and held as hereinafter prescribed, may authorize for such purpose or purposes. Said tax shall be used only for the purpos or purposes for which the same is authorized, levied and collected. Each election held under the provisions hereof shall be ordered, held, canvassed, and may be contested in the same manner as is or may be provided by law applicable to municipal corporations for elections to authorize the issuance of municipal bonds. The ballots used at such election shall contain the words: "For authorization of additional taxation at rate not to exceed ..... ¬ per cent for the year (or years).... ¬ for the purpose or purposes of ¬ ..... ¬" and "Against authorization of additional taxation at rate not to exceed ..... ¬ per cent for the year (or.... years).... ¬ for the purpose or purposes of ¬ ..... ¬" The rate of taxation proposed shall be printed upon the ballot in the space indicated therefor, and the year or years in which the proposed rate is to apply, and the purpose or purposes for which such tax is to be used, shall be likewise printed in the respective spaces indicated therefor. The voter shall record his choice either for or against authorization of the proposed rate for the proposed purpose or purposes by placing a cross mark before or after the words expressing his choice. Nothing herein contained shall in any wise change or affect the rights of any holders of bonds of said municipal corporation heretofore issued. Elections in said municipality to authorize the levy of such special tax may be held as often as ordered by the governing body thereof, but when a proposition is submitted to the electors of said municipality for authorization to levy a special tax for a specific purpose and such proposition is defeated, no second election for the same purpose shall be held in such municipality within one year thereafter. This section shall be self-operative without any additional legislation."

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

BIBB GRAVES,
Governor.

JNO. BRANDON,
Secretary of State.

Stenotype
"The Machine Way In Shorthand"

The fast, sure way of taking dictation—writes plain letters, averaging a word a stroke—it is easy to write — easy to read — easy to learn.

Here's What it Means to You:

It fits you for a class of work that is above lead pencil dictation and averaging pay.

It makes you faster, more accurate and enables you to take more dictation with less strain.

It gives you poise and confidence—a competent Stenotypist has no fear of the most rapid or technical dictation.

It takes all the guesswork out of transcribing your notes.

This new department, the most modern way for recording speech—the machine way—has just been added and we are proud to offer those interested an opportunity to learn. The opportunities at Wheeler are unlimited, as they are always up-to-date on any new methods offered students.

Enrollments are now being made, as classes begin October 15. Write for free information on STENOTYPY.

Isabella School News Items

The Poe Literary Society held its regular meeting Wednesday, Oct. 22. A miscellaneous program was given.

Devotional by Lorene LeCroy, Reading by Pauline Durbin; Jokes by Louise Cox; Essay on Friendship by Robert Lee Griffin; Piano Solo by Miss E. L. Jones.

Judging from the number present Friday, the fair was indeed successful. At 11 A. M. Dr. J. S. Thomas of the University of Alabama lectured on "Community Development". In his lecture he pointed out the great need of improvement of agriculture in the south. He dwelt upon the need of nearby markets, where the farmer could dispose of all surplus products.

His address was appreciated and it is hoped that he will be prevailed upon to deliver the commencement address this year.

The exhibits that won blue ribbons will be taken to the State Fair next week at Montgomery.

Friendly rivalry has begun between the two Literary Societies. An interesting football game was played between the two Friday afternoon. Poe being defeated by Wilsonian 12-0. The Wilsonian line-up was as follows: L. Mims, Chambers, S. Griffin, Martin, Deramus Veasey, Roebuck, G. Williams The Poe line up: R. Griffin, Foshee, Conaway, White, V. Williams, J. D. Williams, B. Lecroy and C. Lecroy.

Referees were O. C. Paulk and Thomas Woolley.

Thursday night October 24, the following were delightfully entertained on an Opossum Hunt given by Mr. Earl Thomas: Misses Mary Thweatt, E. L. Jones, Mary Turner, Bazolean Williams, Myrtle Durbin, Jewel Foshee, Mildred Durbin, Jeraldine Ratcliff, Nina Faye Reinhardt Climmie Haigler, Gene Griffin, and Messrs Gwyn Williams, Claude Conaway, Ralph Mims, Renfro Veasey, Quinton White, Herman Lecroy, Oliver Manning, Robert Foshee, J. A. Chambers, Bob and James W. Griffin and Earl Thomas.

The many friends of Buster Sexton are very sorry to hear of his illness and wish for him a speedy recovery.

MOTHERS

Watch for symptoms of worms in your children. These parasites are the great destroyers of child life. If you have reason to think your child has worms, act quickly. (Paid Pol. Adv. by W. M. Polk, Chairman Dem. Cam. Com., Clanton)

Every purchaser of a new Ford is entitled to Free Inspection Service for the first 1500 miles

THE modern automobile is a finely built piece of machinery and it will stand a lot of abuse. Considering the work it does, it gives surprisingly little trouble. But there isn't a car made that will not run better and longer if given proper care.

The first few hundred miles are especially important because that is when the mechanism of your car is being broken in.

Proper attention during this period will lengthen its life and prevent unnecessary trouble later on.

We are particularly interested in this matter because we believe it is our duty not only to make a good automobile, but to help the owner get the greatest possible use over the longest period of time at a minimum of trouble and expense.

With this in view, the entire Ford dealer organization has been specially trained and equipped to service the new Model A car.

Furthermore, we have instructed every Ford dealer to give the following Free Inspection Service at 500, 1000 and 1500 miles:

Check battery
Check generator charging rate
Check distributor adjustment
Check carburetor adjustment
Check lights

A Proclamation

BY THE GOVERNOR

Whereas, at the regular session held at the State Capitol in 1927 the Legislature of Alabama ordered that an election by the qualified electors of the State of Alabama be held at the next regular election upon a certain proposed Amendment to the Constitution of the State of Alabama, which proposed Amendment is hereinafter set out; and

Whereas, notice of such election, together with the proposed Amendment, is required by law to be given by proclamation of the Governor;

Now, therefore, I, BIBB GRAVES, Governor of the State of Alabama do hereby give notice direct and proclaim that on Tuesday, the 6th day of November, 1928, the same being the time for holding the next general election, an election will be held at the several polling places within the State of Alabama for a vote by the qualified electors of the State of Alabama in the manner and form and at the places as required by law upon the following Amendment to the Constitution of the State of Alabama, namely:

Midland City School District No. 15 in Dale County, Ariton School District No. 50 in Dale County, shall each have the right and power by a majority vote of the qualified electors of such districts voting at an election held for that purpose to levy and collect for public school purposes including the payment of indebtedness a tax not to exceed ten mills any one year in addition to all other taxes now authorized by law. The election in such districts to determine whether or not such tax shall be levied shall be called, held and conducted as now provided by law for calling and conducting an election to determine whether or not the three mill district school tax shall be levied and collected, and the laws governing the handling and the expenditure of the proceeds of the ten mill tax herein provided for shall be in all respects in accordance with the law governing the handling and the expenditure of the three mill district school tax.

I further direct and proclaim that notice of the election upon the above set forth Amendment to the Constitution of the State of Alabama be given by publishing the same once a week for eight successive weeks next prior to the 6th day of November, 1928, in each County of the State of Alabama in a newspaper published in said County.

IN WITNESS whereof I have hereunto set my hand and have caused the Great Seal of the State of Alabama to be affixed at the Capitol in the City of Montgomery on this the first day of September, 1928.

BIBB GRAVES,
Governor.

JNO. BRANDON,
Secretary of State.

NOTICE

State of Alabama—Chilton County.

Notice is hereby given that the undersigned mortgagee will sell at public outcry to the highest bidder for cash during the legal hours of sale on Thursday, November 15th, 1928, in front of the courthouse door in the City of Clanton, State of Alabama, the following described real property, situated in Chilton County, Alabama, to-wit:

The East Half of the Northeast Quarter of Section 23, the West Half of the northwest Quarter of Section 24, the Southeast Quarter of the Northwest Quarter of Section 24; the Northwest Quarter of the Southwest Quarter of Section 24; the Southwest Quarter of the Northeast Quarter, less eight acres on the southside, Section 24; Sixteen acres in the Northwest corner of the Northeast Quarter of the Southwest Quarter of Section 24; all of the above described lands being in Township 24, Range 13, East.

Said sale is to be had under and by virtue of the power of sale contained in a certain mortgage given to Mrs. W. L. Wilson by Mrs. T. E. Sims and husband, Thos. E. Sims, and Itara Cobb, an unmarried woman, on to-wit the 30th day of June, 1927, and recorded in the office of the Judge of Probate Court of Chilton County, in Volume 218, Record of Deeds page 484, said mortgage having been given to secure the payment of a certain indebtedness mentioned therein, and said mortgagors being in default in the payment of said indebtedness.

The proceeds of said sale will be distributed in accordance with the provisions of said mortgage relating thereto.

MRS. W. L. WILSON, as mortgagee

POPLAR SPRINGS

Wi[illegible] your paper this [illegible] that last [illegible] and [illegible] another preaching [illegible] was called to conduct a funeral, so he sent Rev. Ellison in his stead. Rev. Ellison delivered a wonderful sermon. We were glad to have him

We had a good Sunday [illegible] last Sunday morning. Rev. Lowery preached another good sermon at the eleven o'clock hour. We had as our visitors Sunday, three of our lady school teachers, Misses Connatser, Cobern and Stubblefield. We were glad to have them with us.

At two o'clock in the afternoon the Maple Springs and the Poplar Springs Singing Society met and were called to order by the chairman, Mr. O. L. DeVaughn. After singing several songs, he was followed by Mr. L. F. Grant, Mr. Newton Gilliand, Mr. Grover Gilliand, and Misses Gracie Wilson, and Myrtle McDowell. The pianists for the afternoon were Grover Gilliand and Miss Gracie Wilson. We had a good singing and our Society meets on the Fourth Sunday at two o'clock at Maple Springs We invite all who will to be with us.—O. L. DeVaugh, chairman; W. F. Gilliand, Secretary

The home of Mr. W. F. Gilliand and Mrs. Tempie Gilliand was made happy Sunday when their three sons, Grover, Newton and Leslie Gilliand were their guests at dinner. The boys were once residents of the Poplar Springs community but are now residing in Sylacauga. Mrs. Gilliand's mother and two sisters, Mrs. Onie Gray and Mrs. Earsley Bowls and Mr. Earsley Bowls were her guests Sunday afternoon.

Miss Grace Gray, Mr. Thomas Correll, Miss Hattie Lee Gilliand and Mr. Ocie Hudson, all motored to the Sunday Singing.

Miss Hercie Ree Jones was the dinner guest of Miss Libbie Dykes Sunday.

The B. Y. P. U. is doing fine at this place. A large crowd was present last Sunday.

HOUSE AND LOT FOR SALE

At a bargain, my house and lot in the Gowan addition, Clanton. Will take $..50.00 less than I paid for same, if sold immediately. For further information see W. L. POWELL, Clanton, or write E. C. POWELL, 1201, 4th Ave., So. Decatur, Ala.

McNeill, of Jemison, Ala , and won first place among the Opportunity Schools in the county in attendance and punctuality. Mrs. McNeill is on the extreme right standing.

C. Reece Mullins Still Fighting For Alfred E. Smith and "True Blue Democracy"

Clanton, Ala., October 29, 1298

Editor Chilton County News:

My Dear Sir:

I note as yet there has not been an defense at all put up in this county for the Democratic Party and its national Leader by the would-be leaders of the Democratic party. What do you think of the Republican party criticizing the first highway that was ever built in this county, which was done by a Democrat Probate Judge E. B. Deason, a man whose honesty has never been questioned, and the road that was built under his administration worth twice what it cost the county, and nobody saying one word in his defense, or the Democratic cause in this county. I resent this for the Deason and Strock families, and every true blue Democrat in this county, and what do you think of the Republican Party having the big Bob Jones up here last Saturday to villify and run down our national leader, Alfred E. Smith with none of the would be leaders of the Democratic party in this county to raise their voice or say one word in his defense. I wish to say for him that the great Presbyterian preacher of New York, Dr. Henry Van Dyke, says for him in a pamphlet scattered all over this country, that he is a man of unusual ability and his integrity beyond question, and that he indorses him for President. It has been said that when Bob Jones has got the most religion is when the meeting is going on and the money coming in.

What has become of the Democratic leaders in Chilton County. Have they all hid out? They all must be gone off or at least part of them, to a Hoover and K. K. Convention with Judson Strock as chairman, to reinstate Dr. Hinkle and to pass on and condemn Alfred E. Smith in secret session. I have no patience or political respect for any would-be leader of any party who will not come out and fight for his national leader.

Bob Jones and a bunch of other preachers all over this country would have you believe that Alfred E. Smith is a demon out of Hell and that he stands for liquor and everything else that is bad. I say he does not. This liquor question has never been settled since Christ turned water to wine and any man with one thimble full of sense or one ounce of intelligence knows that it never will be settled until Gabriel shall place one foot on land and the other on the sea, and declare that time shall be no more. Then the only question left is what is best to be done about it. This is Alfred E. Smith's attitude on this question. If after all these years of slaughtering and murdering all over this country, trying to enforce the prohibition laws by the Republican party, at Washington, who I am informed is making and distilling more liquor than all the balance of the world, put together, I think it is high time that something be done, and I believe that Alfred E. Smith is the man to show them where to get off, and either enforce the law or amend it, and quit playing with it, which is causing so much discord and murder.

Oh, there is a certain class of preachers like Bob Jones who say Hell is going to break loose in these United States of ours, if Governor Smith is elected President. They seem to be judging him to be a demon. This is indirect contradiction to their Bibles, which teach us all to judge not. Well, I expect that Hell will be broke loose some day and no telling how many of these Bob Jones class is going to be swallowed up for going over the country and making political speeches and the presumption is getting money for these speeches from the opposite party.

This week closes that great patriotic warfare and notwithstanding that the Democratic party has been fired on by the enemy in Chilton County from every angle yet the would be leaders has not fired back one single gun but have left Democracy in this county to stand alone, bleed and suffer who is to blame? The echo comes back and says the would-be leaders of the Democratic party in this county. Do you think such leaders are entitled to any consideration at the hands of the true blue Democrats of this county? I do not. Pussy foots. Anybody that knows anything about political history knows that if the solid South is broken that our national party will be greatly crippled The South is the backbone of the Democratic party, and when this backbone is broken we will then have to suffer the consequence.

What encouragement are we offering the other States that are in minority, when we lie down and submit to the very backbone of Democracy to be broken here in the South. What kind of a Democrat will do this? What kind of stuff is he made out of? If the Democratic party had no other value than its presentation of White Supremacy in the South against the numerous assaults of the northern Republican party, this would richly justify its dominance in the South.

As to how I shall vote on Nov. 6th, I will say, I expect to start right under the rooster and come right on down voting the national and state ticket, until I get to the Chilton County ticket, and there I expect to stop with the exception of one man, Mr. J. A. Nivens, for Treasurer, who got in this race too late to be held responsible for not making a fight in this county for the Democratic party. The other candidates I shall not support on the grounds that some of them are Hooverites, and the balance if any, for not coming out in the open and putting up a fight for Alfred E. Smith and white Supremacy in Chilton County. Have you ever stoped to think that when you cross right under the rooster which is supposed to vote for Democrats only, that in this election you can not do this without voting for at least some Hooverites, who are on the Democratic ticket? If you are a true blue Democrat, you can't and will not do this. It's a pity that the candidates and committees of the Democratic Party in Chilton County have gotten themselves and the party in such a predicament.

Now, in conclusion, I want to say I have said in my feeble and scattering manner what I could in behalf of our national leader and true blue Democracy, and I now come to the close of this campaign with a free conscience.

Yours for true blue Democracy and White Supremacy.

C. REESE MULLINS.

HALF-HEARTED
Never Felt Well

"I don't see why women will drag around, in a half-hearted way, never feeling well, barely able to drag, when Cardui might help put them on their feet, as it did me," says Mrs. Geo. S. Hunter, of Columbus, Ga.

"I suffered with dreadful pains in my sides. I had to go to bed and stay sometimes two weeks.

"I could not work, and just dragged around the house.

"I got very thin. I went from a hundred and twenty-six pounds down to less than a hundred.

"I sent to the store for Cardui, and before I had taken the first bottle I began to improve. My side hurt less, and I began to mend in health.

"Cardui acted as a fine tonic. I do not feel like the same person. I am well now, and still gaining."

MR. LEMUEL B. GREEN RETURNS FROM FLORIDA

Mr. Lemuel B. Green returned last Saturday from Pensacola, Florida, where he taught the Program of the Christian Religion (a course in Christian citizenship) in the Standard Training School.

The Pensacola Standard Training School has been in operation for one week a year for eight years. Hitherto it has been conducted by the Methodist Sunday Schools, but this year the Presbyterian schools of Pensacola and vicinity joined in. The instructors for the school had to be selected from those who had previously been approved to teach in Standard Schools of both the Methodist and the Presbyterian churches. This approval is based on education, experience, teaching ability, special preparation for teaching the particular courses, etc., etc., and approval is not granted until a teaching plan has been submitted and accepted. The Methodist and Presbyterian Sunday School Boards do not approve instructors of other boards, because no others approach their academic standards as yet.

In the Pensacola Standard Training School, four courese were given.

1. Old Testament by Dr. C. H. Nagers, Pastor First Presbyterian Church, Pensacola.

2. New Testament by Dr. H. A. Love, President of Palmer College, DeFuniak Springs, Fla. (Presbyterian)

3. The Principles of Religious Teaching, by Dr. T. H. Schutte, Prof. of Education and Psychology, Woman's College, Montgomery.

4. The Program of the Christian Religion by Mr. L. B. Green.

About 130 credit certificates were issued, based upon daily written ments.

Mrs. Owen Says No Quakers Are In American Legion

If Herbert Hoover, the Quaker, is elected President of the United States, he can not, without repudiating his religion, take the oath of office upon the Holy Bible. It is against the law of the Quaker Church, for any members to take any oath. From the time of Geo. Washington until the present day every President of the U. S., when sworn into office by the Chief Justice of the United States, has laid his hand upon the Holy Bible and taken the solemn oath to faithfully perform his duties. If Mr. Hoover is elected, the Bible will be passed as the visible symbol of the word of God in assuming the responsibilities belonging to the office.

The Quaker Church to which Mr. Hoover belongs, is opposed to war. Mr. Hoover, if elected, President will either violate his religious belief or fail the Nation utterly as the head of the Navy and Army in case the U. S. should become involved in war during his administration.

It was through Mr. Hoover's efforts that all Quakers of the U. S. subject to military duties, were exempt by Congressional enactment during the period of the World War. Of those 50,000 American soldiers who made the supreme sacrifice not one was a Quaker.

There are only two classes of American men who are ineligible to membership in the American Legion, traitors and conscientious objectors. The Quakers were conscientious objectors during the World War.

The Quaker Church has no creed.

The Quaker Church has no ministry. The American ensyclopedia says in its articles under "Friends", which is one of the names of the Quakers, that Barkley a Quaker, writing of his church says "All true and acceptable worship to God is offered in the inward and immediate moving and drawing of his own spirit. All other worship priests, prayers and preachings, which man sets about in his own will, at his own appointment, and can begin and end at his pleasure are but superstitious will-worship."

The Quaker Church does not administer the Holy Sacrament.

The Quaker Church has no form of Baptism.

The Quaker Church formerly expelled any member of its Society who intermarried with any but a Quaker. They believe that marriage is the Lord's joining of man and woman, and therefore the ceremony is not performed in a ministerial sense but merely witnessed by men.

Quakers refuse to take oaths in civil courts or elsewhere.

The Quakers have quarreled amongst themselves as to doctrine and are organized in various groups under the title of Orthodox, Hicksites, Wilburites, Primitive Friends and Progressives.

The Hicksite branch of the Quakers deny the contention of the divinity of Jesus Christ, the doctrine of atonement and the inspiration and authority of the Bible.

Quaker meetings have no presiding officer and no questions are settled by a majority. No vote is taken. Any one who is moved by the spirit can speak and make any kind of a statement they feel urged to make by what they call the "inner light."

The Quakers were leaders in the abolition movement and had charge in many places of the so-called underground railway which was the name given for the route taken by runaway slaves with regular stations where they were housed, fed and supplied with money to make their way to the non-slave holding states.

Inasmuch as so many persons have concerned themselves about the church to which Governor Alfred E. Smith belongs, it is right and proper that the religious doctrines to which Herbert Hoover susscribes should be explained to the people who will select the Chief Executive of the Nation for the next four years, on November 6th.

The above statements about Quakers are taken from the New International Yearbook, the Americana, and the Encyclopedia Britannica.

Respectfully,
Montgomery, Ala., Oct. 23, 1928.
Mrs. Marie Bankhead Owen.

Night Bridge Club Entertains at Dinner.—

One of the prettiest parties of the Hallowe'en season was given by the night bridge club at the home of Mr. and Mrs. Hance Alred Friday evening when they entertained the Mitchell Dam and Lock Twelve bridge clubs. The home was beautifully decorated with Hallowe'en decorations, ferns and cut flowers. Ghosts, witches and black cats were aloof in all dark corners.

As the guests arrived each was presented masks and unique hats which lent merriment to the occasion.

A delightful course dinner was carried out in the colors and suggestion of Hallowe'en.

Callen Alred and Sam Johnson, dressed as clowns then passed tallies after which several games of bridge were enjoyed. Mrs. Hansen of Lock 12 was presented a water set as the high score prize, Mrs. Sam Johnson a flower bowl, second high score. Mrs. Newton of Mitchell Dam, a refrigerator set, cut prize, and Mrs. Benziger, a minature pumpkin, as booby prize.

The gentleman high score was won by Mr. Deal of Lock 12 who was presented with a tie. Mr. Woodson won second, a pair of socks. Mr. Hollis of Mitchell Dam, two handmade handkerchiefs, the cut prize. Mr. Clifford Mullins, a Hallowe'en novelty as booby. The guests were: Mr. and Mrs. Woodson, Mr. and Mrs. Deal, Mr. and Mrs. Hansen, Mr. and Mrs. Mack Wyatt, Mr. and Mrs. Sam Powers, Mr. and Mrs. John Hollis, Mr. and Mrs. Clifford Mullins, Mr. and Mrs. Frank Porch, Mrs. and Mrs. Newton, Mr. and Mrs. Steve Stanley, Mrs. Benziger, and Mrs. Sam Johnson, Misses Lakeman, Gwin and Wamm, Messrs. Thompson, O'Neal and Herbert Neighbors, The hosts were Dr. and Mrs. N. S. Johnson, Mr. and Mrs. Fenn Jones, Mr. and Mrs. Lawrence Gerald, Mr. and Mrs. Glenn Boyd, Mr. and Mrs. Grady Reynolds, Mr. and Mrs. Victor Heard, Mr. and Mrs. Hosea Downs, Mr. and Mrs. Hance Alred.

EDMOND HOMER LOWE DIED LAST TUESDAY

Edmond Homer Lowe, age 81, died at his home one mile north of Clanton last Tuesday, Oct. 30, at six o'clock in the morning. Death came suddenly.

Funeral services were held at his home the following Wednesday morning, at 11 o'clock, Rev. S. J. Ezell officiating. Interment took place in the Clanton cemetery, with J. Mell Martin local undertaker in charge.

The deceased was a member of the Baptist church in Birmingham, where he had lived for some time. Surviving is his widow, four sisters, Mesdames F. R. Woodyard of Clanton, A. J. Marlar of Billlingsley, J. B. Marlar of Clanton and Ed Bruce of Clanton. Three brothers Butler of Clanton, Tom and Henry of Bay City, Texas.

Three daughters, Mrs. Mattie Pruitt and Mrs. Bob Sims of Birmingham, and Mrs. Consule Lawrence of Maplesville. Four sons, Edmund of Ensley, Tom of Montgmery, Cleveland of California and Bill Wright Lowe of Birmingham.

ALL THE COLORS OF THE RAINBOW

In America we have our automobile shows during the Winter months. To make us think they are still two jumps ahead on fashions, including the matter of colors in cars, Paris and London have what they call the "Automobile Salon" in October, when they show off colors manufactured from United States grown cotton into United States manufactured pyroxylin lacquers. The first cable report coming from the big Paris show brings the news that "cars are being shown here from all the important countries in Europe," and then the admission follows that "European manufacturers have taken a leaf out of American book and have followed the lead which they have received from us in the application of colors in finish." Dispatches from Paris state that although "all the range of the rainbow" is to be seen while walking through the automobile salon, the predominating colors in vogue seem to be the greys and beiges, while an attempt is being made to launch green. Besides these ranges of color black seems to be fashionable for towns cars with a color belt relieving the somberness of the ensembles".

A note in the arrangement of car colors in the United States is indicated in the fact that car manufacturers are making an effort this year to insist upon their own special ducoed motifs, which they are having prepared exclusively for their particular manufacturer of cars. As the manufacturers of duco have several thousand different shades and colors there will be no difficulty in their meeting the new spread of color decoration in the United States even though it does match up to "all the range of the rainbow." Further notes on the Paris show, indicate that the new car interiors are mostly upholstered in fabrics with designs matching the colors of the cars. Disk wheels are more and more in evidence, and they are sometimes finished with one of the colors used on the car, and sometimes showing a plain white metal appearance.

Mrs. Heflin Hostess To Young Matrons Sewing Club

Mrs. Grady Heflin was hostess to the Young Matrons Sewing Club on last Thursday afternoon at 4 o'clock at her home on South Sixth Street. The Hallowe'en idea and colors were carried out in the decorations of the living and dining rooms. Sewing was enjoyed during the afternoon. The hostess, assisted by Mrs. L. C. Ross, served a delicious salad course to the following: Mesdames Paul Ousley, J. E. Gowan, Jno. Vanderveer, Loren Smith, Flem Higgins, Luther Foshee, Macey Jones, L. C. Ross, Joe Higgins and Grady Taylor.

Miss Nolen Meroney of Verbena was a visitor to Clanton last Saturday.

SOUTH CLANTON

A new gasoline experience—
actually—NEW MILES per gallon

IT is a fact that the *new* Texaco does give better results—measurably better. It has at once overcome the limitations of the older type of engine and enhanced the performance of the new.

You can't be mistaken. You see the record of actual miles rolling up on your speedometer. You notice the ample gasoline reserve and the fewer filling stops. Your car is the same, but the *new* and *better* Texaco is a different gasoline—more miles to the tankful.

That's the difference between dry gas and wet! The *new* and *better* Texaco, vaporizing to a dry gas, enters the cylinders and ignites instantly. It burns freely and delivers *all* its power in that split fraction of a second of the power-stroke.

Wherever you stop for gasoline, see to it that your car draws up beside the Texaco pump. Look for the Texaco Red Star and Green T.

Not WET . . . . . But DRY

ATOMIZED

A wet gas is an atomized mixture of gasoline vapor with liquid drops of raw gasoline. These drops, separating at every manifold bend, result in uneven distribution and loss of power.

A dry gas, the *new* and *better* Texaco, vaporizes completely. It is a perfect mixture of dry gasoline vapor and air which provides an even flow of fuel and power to every engine cylinder.

The crude oil in the tube on the extreme left is dark in color. Texaco refining removes *all* the dark residues [as in the middle tube], leaving the clear, golden Texaco Motor Oil in the last.

THOSE WHO COULD BEST AFFORD TO BE CARELESS SELDOM ARE

IF carelessness about lubrication were merely a matter of wasted money there are plenty of well-to-do people who would never give the matter a second thought.

But to have a car's performance on the road spoilt! That's another story, and a sad one. Swift, comfortable, silent transportation; that is what you expect from your car today, and that is precisely the condition that Texaco Motor Oil facilitates to the maximum.

But the big point, after all, that one gains at the sign of the Texaco Red Star and Green T is —*absolute certitude of clean, clear, golden motor oil of the right grade, Texaco.*

The Texas Company's refinery engineers for years sought to find methods which would remove everything from motor oil that was not lubricant

When this super-refining was perfected the resulting oil was of a pure golden color. To have made a motor oil of real body so pure was a real triumph. The results you see and experience today every time you are supplied with golden Texaco Motor Oil.

VOLUME 7 — CLANTON, ALABAMA, THURSDAY NOVEMBER 8, 1928 — NUMBER 7

REPUBLICANS ARE NOW IN LEAD

Hoover Sweeps Country; Baxley Is Leading Jeffers

Jeffers' Lead in Other Counties Indicate His Election. Hinkle Has Not Yet Conceded Defeat

The unofficial returns of the general election over the country has apparently thrown a boom into the Democratic strongholds, and while nothing has been officially announced, returns indicate that Hoover has swept the country and on the face of tabulations of the county election, Reynolds appears to be leading Hinkle by better than 350 votes.

One of the big surprises in the election is the apparent victory of A. B. Baxley over Lamar Jeffers in the county. The unofficial returns give Baxley a majority of 64 votes in Chilton County.

While the tabulations show that Judge Reynolds is leading Dr. Hinkle by something over 350, Dr. Hinkle has not yet conceded the re-election of the Republican candidate for Judge of Probate. No formal statement has been made by Dr. Hinkle, and probably will not be made until the official count of the votes has been announced.

Tabulations showing the unofficial returns on the several candidates of the county will be found in this issue of the News.

Returns from the entire Fourt District were piling up for Lamar Jeffers an enormous lead over Baxley. The unreported distiicts would have to go more than two to one to overcome Jeffers' lead.

REYNOLDS AND HINKLE

With Beat 13 not reported at noon Wednesday the vote in the Probate race stood, Reynolds 2,475, Hinkle 2109. The majority for Reynolds is 366 with the probability that it will be reduced to 350 when the vote in Beat 13 comes in. These figures are unofficial. Following is the vote by Beats:

	Reynolds	Hinkle
Beat 1	51—	37
Beat 2, Box 1	185—	91
Beat 2, Box 2	47—	42
Beat 3	35—	75

MARTIN J. FRANKLIN DIED LAST FRIDAY, NOVEMBER 3

Martin J. Franklin, age 74, died at the home of Mr. Ben Childress on last Friday, November 2, near Thorsby. He was buried the following Saturday afternoon at Pleasant Grove with the Rev. W. P. Lowery in charge of the funeral services. J. Mell Martin, undertaker, was in charge of the body.

B. MARLAR BRINGS IN EXTRA LARGE POTATOES

Mr. J. B. Marlar who lives on Rt. 1, brought to the News Office several days ago, four extra large sweet potatoes and made the News force a present of them.

The largest potatoe weighed approximately four pounds, while the others were close to that.

M. U. OF M. E. CHURCH OBSERVING WEEK OF PRAYER

The Womans Missionary Society of the Methodist Church is observing the Church-wide Week of Prayer. All ladies are invited to join with them in the prayer meetings at 3:30 o'clock each afternoon of the week.

ENOCH MIMS NOW WITH EXCHANGE BARBER SHOP

Mr. Enoch Mims, who has been with the Service Barber Shop on Maint St., is now with the Exchange Barber Shop located on Seventh Street. The change taking place last Monday.

Mr. Mims will have charge of the third chair in the Exchange. Just who will succeed Mr. Mims at the Service Barber Shop could not be learned at the time of this writing.

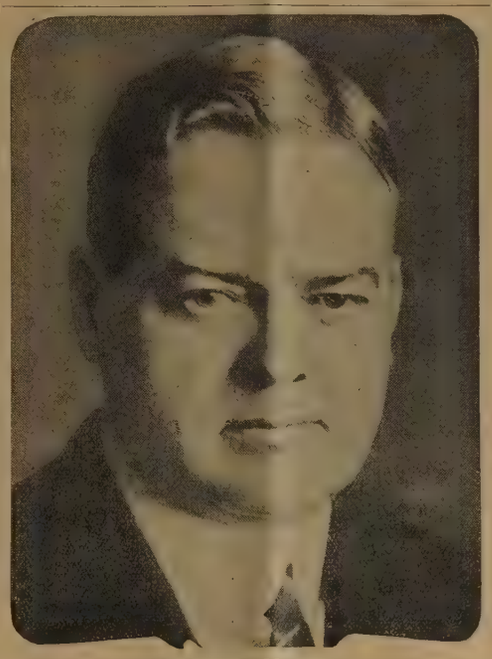
JAMES W. ANDERSON DIED LAST FRIDAY, NOVEMBER 2

James W. Anderson, age 66, died at his home in the Shady Grove community, five miles east of Verbena, last Friday, November 2.

Funeral services were held the following Saturday afternoon at Shady Grove church with Rev. J. H. Limbrick, officiating, and J. Mell Martin, in charge of the body.

We have been requested to announce that there will be a box supper at the Vermont Junior High School on next Saturday night, November 10.

Proceeds will go for the benefit of the school. Everyone is invited to come.



Herbert C. Hoover

Chilton Holds Strong Lineville Team To Tie

Visitors Get Away With Lone Touchdown In Early Part of Game

The Chilton County High School football team upset the dope in the game played here last Friday afternoon when they held the highly rated Lineville team to a 6 to 6 tie.

At the beginning of the game, many were predicting that the visitors would win by at least 25 points, but when the local team received the kickoff and began a steady march up the field through the splendid line plunging of Bill Minor, the lightest man on either team, it was seen then that the game would be a battle royal.

After Chilton received the kick-off, they soon caried the ball into Lineville territory, and within striking distance of the goal wheih they were finally held for downs. Lineville lost about 10 yards on the first play, but on their second play, their star back field man dashed around end evading the Chilton Tigers and ran about 75 yards for the only counter made by the visitors.

From the time that the visitors made their first touch down on through the first half, the Chilton boys outplayed them and kept the ball in the visitor's territory practically the remainder of the half, but were not able to make a touchdown until the beginning of the second half. After working the ball far into the visitor's territory, Bruner threw a long pass to Brown, who was downed on the two yard line from where Bruner bucked the ball over trial for, goal.

Lineville's team came to Clanton with a reported undefeatd record for the past three years, and met resistance that proved baffling to them. The visitors were unable to make any consistents gains through the much lighter Chilton line, and when the game ended, they had diverted all their attempts to gain at forward passing. The local boys went in and broke up many of these.

Wagoner, Retherford, / Roberts, Mecks, on the line and Nelson who was backing up the line were always on their guard, and these players put up the greatest fight they have ever displayed in the game last Friday.

Bill Minor, Bruner, Simms, Nelson and Simpson were the best ground gainers through the line for Chilton. Minor, Bruner and Nelson deserving special mention for the manner in which they ploughed through the heavy Lineville line.

Brown and Dock Baker accounted for considerable yardage for Chilton where they were on the receiving end of forward passes. Baker made one especially pretty snare of a pass that appeared as though it would fall dead.

In our estimation, Lineville has by far one of the strongest visiting teams seen on the local field this season. Their players fought with a determination to win, and just before the final quarter ended, they had worked the ball to within one yard of the local lad's goal line, but failed to score when the Chilton boys held and a penalty for off-side prevented them from making the necessary yardage for another touchdown.

Rudolph Scarbrough Injured In Accident

Car Overturns Going Over Embankment After Striking Another

Rudolph Scarborough, age about 23 years, was seriously injured late last Saturday afternoon, November 3, when the Ford cut-down which he was driving collided with another car and then overturned down an embankment. The accident occured just south of the main business section of town, on the Birmingham-Montgomery highway.

Scarborough, it is reported, was going south, when the accident occurred, and in dodging a car in front of him, swerved too far and his car and another collided. The Scarborough cut-down was badly damaged, while the other car received only slight damage, according to information.

Scarborough was rushed to the Central Alabama hospital in a Martin ambulance, and according to hospital authorities, sustained a fractured skull, numerous cuts and bruises and possibly internal injuries. He was unconscious from the time of the accident until early Sunday morning, it is reported. According to the last reports from the hospital, he was resting as well as could be expected.

Rudolph is the son of Mr. and Mrs. Gene Scarborough who live about four miles south of Clanton, on the Birmingham-Montgomery highway. Mrs. Rudolph's mother, was visiting down below Montgomery, but was sent for immediately after the accident and arrived at the bedside of her son early Sunday morning.

Smith is Unofficially Reported to Have A Lead of Over 15,000 In State At 5 P. M. Wednesday

Just as we go to press at 5 P. M. Wednesday afternoon, unofficial reports state that Smith has a lead of over 15,000 votes in Alabama. This is supposed to be the report after all counties in the state had been heard from, with only a very few boxes unheard from. It is stated that the result of these boxes would not likely throw any material difference in the lead of the Democratic nominee.

Wtih a substantial bloc of returns tabulated in every state, the republican national ticket was leading at 11 a. m. in 40 states, casting a collective total of 444 electoral votes.

The eight states held by Smith were Alabama, Arkansas, Georgia, Louisiana, Mississippi, South Carolina, Massachusetts and Rhode Island, having among them 87 electoral votes.

The state majorities established in these two groups were, with a few exceptions, steadily growing. Massachusetts in the Smith group, however, and Texas and North Carolina in the Hoover group, continued to swing near an even decision. Many votes were still to be counted.

HOOVER AND SMITH

With figures not obtained from eleven boxes the vote between Hoover and Smith for President in Chilton County stand, Hoover 1993, Smith 994. Hoover's majority in these figures is 999, which will be increased in the final count.

B. LAWRENCE THANKS PEOPLE

More interest has been manifested in the county educational program this year than ever before. Last year the enrollment for October was 4364 while this year's enrollment shows 5082 or a gain of 714 over the previous year. The average daily attendance for October of last year was 3630 while the average daily attendance for the present year shows 4322 or a gain of 692. The average daily attendance for the state last year was 70 per cent of the enrollment while Chilton County shows an average daily attendance this time of 85 per cent plus.

I do not hesitate to say that the teachers are doing much better work this year than in any previous year that I have knowledge of. Every one of them is taking at least one educational journal and some are taking more than one. On the whole they are showing a splendid professional spirit.

The increased enrollment and attendance, I feel, has been brought about through the untiring efforts of Mrs. C. E. Stapp, as attendance officer. One of the remarkable facts about the large enrollment and attendance is the fact that this increase has happened in the face of one of the latest Falls we have had in some time. The cotton crop was nothing like gathered when school opened.

For a long time the teachers have felt the need of a trained Elementary Supervisor. Many times the teacher is faced with problems, the solution of which calls for the very best talent. Miss Scarborough, our elementary supervisor, has been to every school in the county at least once and more than once to many of them. In many instances she has helped teachers find a better method and her work along this line has meant much in the way of improving the class room work.

Another illustration of the interest teachers are taking in the work is to be found in their efforts to keep a clean school room. We have been able to get the special school price on floor oil for those schools wishing to oil the floors. Pates Chapel, Oak Grove, Esterrorise, and the Mullins schools have availed themselves of the opportunity [illegible] and purchased enough oil to [illegible] of these schools. In [illegible] and room odds [illegible] as well as other [illegible] diseases being kept down in the schools [illegible] purchased, [illegible] to do so. [illegible] the [illegible] Baker, Lodge, Chapel, Lakeview, [illegible] and West Chilton.

We [illegible] the [illegible] and I trust that every patron will co-operate with the teachers in securing certain information needed for this work. The survey will show, among other things, the number of children that will become of school age for the next six years and the 40 acres of land on which these and all other children in the county live. This information will be of great value to school officials in properly administering the school affairs of the cunty.

I am taking the opportunity to express my appreciation to the people of the county for their cooperation in working out a better school system.

Yours for better schools,
B. LAWRENCE,
County Superintendent Education

Report Of County Attendance Officer for October

Total white enrollment	5082
Average daily attendancee	4323
Per cent of attendance	85
Visits to schools	54
Visits to families	18
Children helped with books	20
Talks an attendance	70
Letters written	310

Although the harvesting of crops is a few weeks later this year than last, there are 718 more children enrolled in Chilton County's schools this year than at this same time last year. This gain shows an increase of interest in education but what about those children who are kept out of school for a day or two because of sickness and unexcused absences? With a total enrollment of 5082 and a daily average attendance of 4323, think of the loss caused by those 759 who were out daily.

Money spent in schools is a good investment but a very extravagant expense when the children do not attend. With 178 teachers and 39 truck drivers employed, the average monthly expenditure is $79.46 per capita for each truck driver and teacher employed. This amount is spent monthly regardless of those 759 who were absent daily last month. With 85 per cent average daily attendance which means an asset to the county, what about the 15 per cent average daily absence which is a liability to the tax payers of Chilton County? The tax payers of the county lost $11.91 per employee on account of those absentees.

Sickness, poverty and gathering of crops have caused many absences but the indifference of parents is the greatest cause. Parents please send your children to school every day for no pains should be spared to establish and fix in the minds of children the importance of promptness and regularity in attending school, for punctuality and regularity in attending to any task are virtues of the greatest merit. Attendance is one vital point at which this type of training should begin.

It is held now that at least the equivalent of an eighth grade education is required [illegible] intelligent citizenship. Individuals who have not taken advantage of the schools of the nation not only have handicapped themselves but have lowered the average standard of efficiency for the nation.

The child who is irregular in attendance at school has been found by teachers to be one of the most serious hindrances to the teaching of the school. Nothing is more discouraging to the teacher than to have a class nicely organized and thoroughly interested, and then have o ne or two pupils drop out for a day or two at a time. Not only the pupils who drop out lose much but the whole class is handicapped. A double effort must be put forth by the teacher to get those pupils back into the proper attitude when they return. Such a condition may cause the unfortunate pupils to so lose interest that they will drop out of school and never return.

The greatest effects of irregular attendance can be summed up as: Lack of interest, on the part of the pupils concerned; failures and lack of promotion, dropping out of school permanently, the giving of extra time on the part of the teacher, and retarding other pupils.

Every child in Chilton County should and must have an equal chance. Parents, see that your child has and help him to attend school every day.

MRS. LILLIE SEAY STAPP,
Chilton County Attendance Officer.

NEWS IN BRIEF

Television is now considered a certainty for the near future. In fact, it is already in operation on a small scale It is claimed that there are 2000 television receiving sets in New York City alone.

F. W. Gist, agricultural statistican Montgomery, estimates that the Alabama corn crop of 1928 will be 75 per cent of that made in 1927. County agents are advising farmers to plant oats this fall to make feed for livestock next spring.

Based upon the last official estimate the supply of American cotton this year is 1,000,000 bales under that of a year ago. At the same time the price is considerably below the average for the 1927 crop.

In 1914 there were only 897 automobiles in Japan. In 1920 the number had increased to 9,648, and seven years later, 1927, the total registration was 45,632. By 1929 the total is expected to be 100,000.

The Alabama Polytechnic Institute, Auburn, is now conducting courses by mail. Each course is conducted by a member of the faculty, and college credit leading to a degree is given to those who complete these courses satisfactorily. Dr. B. R. Showalter is in

FARM NEWS

Despite the movement from farms to cities, the United States Department of Agriculture reports that the total acreage of crops to be harvested in 1928 exceeds by 2 per cent that of 1927.

Leon M. Eastbrook of the International Institute of Agriculture, Rome, has announced that arrangements are practically complete for a world agricultural census in 1930. It will be the first attempt to make a world-wide census of agriculture.

The 10th. annual convention of the Alabama Beekeepers Association will be held in Montgomery and Andalusia on November 14 and 15, according to announcement made by Prof. J. M. Robinson of Auburn who is secretary of the association.

The Florida Citrus Exchange estimates Florida's 1928 citrus crop at 17,782,000 boxes or 4,000,000 over that of last year. Oranges will total 9,712,000 boxes, tangerines 843,574 boxes, and grapefruit 7,186,107 boxes, according to the exchange estimate.

During the first eight months of 1928 imports of crude rubber into the United States totaled approximately 256,800 long tons. This is a major item in the world's rubber consumption which will probably be 55,000 in excess of the plantation production this year.

Farmers' cooperative associations transacted business to the amount of $2,300,000,000 in the 1927 marketing season, according to a preliminary report by the division of cooperative marketing of the Department of Agriculture, for the 11,400 active associations listed by the Department.

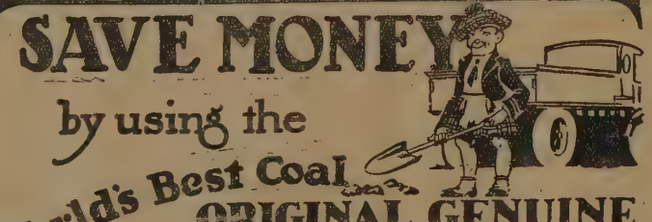
THE WORLD'S BEST COAL
SAVE MONEY
by using the
World's Best Coal
ORIGINAL GENUINE
MONTEVALLO



If Scotland could get this coal—none other could be sold there! Anyone who knows the facts on Original Genuine Montevallo Coal knows that this is one *sure* way to fuel economy.

When you shudder at the alarming rate ordinary coal disappears into the mouth of your furnace or heater or grate—then you're ready to listen to the story of Original Genuine Montevallo economy.

Even with ordinary coal, some grades last longer than others—but no ordinary coal gives so much heat or lasts as long as Original Genuine Montevallo.

You can save those dollars now escaping in large coal bills—by using Original Genuine Montevallo. Save 25% on your fuel bill this winter. Have your home better heated at far less expense. Avoid the clinker and ash nuisance, too—Original Genuine Montevallo does not clinker or coke. It is free from impurities and leaves just a few fluffy red ashes.

First in the South for seventy-two years—and still growing in popularity! That speaks *volumes* for the quality and economy of Original Genuine Montevallo.

Available in three sizes. Tell your authorized dealer below whether you want to burn it in furnace, heater or grate. He'll send you the size best suited—most economical for your purpose.

Now is the time to place your order. Don't delay any longer. Prices go up as Winter comes on. Add the savings on present low prices to your other Original Genuine Montevallo savings.

Isabella High School News

The Wilsonian Literary Society held its regular meeting Wednesday, Oct. 31 The f ollowing program was rendered: The m eaning of Hallowe'en by Virgie Henley; Ghost Story by Nellie Hayes; Musical Contest by Delos Culp, Vester Bice a nd Bill Jones; Reading by R. C. Veasey. In the musical contest the judges rendered their decision in favor of Bill Jones.

One of the dirtiest deals ever handed a football team was that given the Isabella boys at Verbena Friday afternoon. From the time the whistle blew until the end of the game, the fighting spirit of both teams was aroused. The referee gave many unwise decisions. Neither team scored in the first quarter In the second quarter Verbena made a touch down but failed to kick goal. In the third quarter Verbena scored again, by the completion of a forward pass. In the last quarter neither team scored but Conaway got the ball and ran for 50 yards towards Isabella's goal. The final score was 0-13.

The Junior Class of Isabella High was delightfully entertained with a Hallowe'en party at the home of Mr. and Mrs. S. J. M. Webb, Saturday night November 3.

Games and contests were enjoyed by all from seven until eleven o'clock.

Delightful refreshments were served the members of the class.

The Community Fair made such a commendable record with its great variety of products on exhibit; it was suggested that it be taken to the State Fair in Montgomery this week. The following motored there Saturday morning to prepare the booth: Misses Maddox, Mize, Foshee, Manning, Griffin and Messrs. Thomas, Oden, White, and Haggard.

NOTICE TO CONTRACTORS

S-304 COOSA-CHILTON COUNTIES

Sealed bids will be received by the State Highway Commission of Alabama at the office of the State Highway Department, Montgomery, Ala., until 10:00 o'clock A. M. December 5th, 1928, and at that time publicly opened for the construction of culverts on the road between Rockford and Verbena in Coosa-Chilton Counties.

The principal items of work are approximately as follows:

295 Cu. Yds. Class "A" Concrete.
52 Cu. Yds. Class "B" Concrete.
27000 Pounds Reinforcing Steel.
50 R. O. W. Markers.
500 Cu. Yds. Culvert Excavation.

Plans and specifications are on file in the office of the State Highway Department at Montgomery, Alabama. Any additional information may be secured from the Highway Director, Montgomery, Alabama.

The right to reject any or all bids is reserved.

Certified check for One Thousand ($1,000.00) Dollars made payable to the Highway Director of Alabama must accompany each bid as evidence of good faith and as a guarantee that it awarded contract the bidder will execute the contract and give bond as required.

Woolsey Finnell,
No. 6-3t. HIGHWAY DIRECTOR

PORK AT LOW COST IS MADE IN ALABAMA

Auburn, Ala., Oct. 20.—At a price below what the market reaches at the lowest points pork can be produced in Alabama. This was revealed when the ton-litter demonstrators reported their cost figures at the recent ton-litter show in Montgomery.

When the county agents and F. W. Burns, extension livestock specialist at Auburn, checked these records it was found that S. H. Morgan, of Jacksonville, had made one litter of 10 Duroc-Jersey pigs weigh 2908 pounds in 180 days at a cost of 5.8 cents per pound, which was lower than the price has been in a long time. Second prize went to R. B. Ingram, of Colurbiana, whose litter of 10 Poland-China pigs weighed 2045 pounds, the cost per lb. being 6.2 cents.

Mr. Morgan fed corn, shorts, pig chow, tankage, and skimmilk with a pasture of Bermuda grass and lespedeza. Mr. Ingram fed corn, shorts, tankage, skimmilk and hogged-down soybeans a nd corn.

J. W. Payne, of Ozark, had a litter of 11 Duroc-Jerseys which weighed 2353 pounds, winning third prize. His production cost was 7.7 cents per pound. They were fed c o rn, shortts, and tankage and grazed on a Bermuda pasture.

In studying these results Mr. Burns observed that the lowest costs were made by those who had good pastures or hogged-down corn and soybeans. These are big factors in producing pork at a low cost, he said.

FOR TRADE—I have well improved farm consisting of 103 acres near Jemison, that I will trade for house and lot and small acreage in Clanton, Calera, or Columbiana. See me for particulars. Also have several other improved farms ranging from 10 acres to 500 acres that can be purchased at reasonable prices. This property is all located near Jemison in Chilton County. See me for further particulars.—W. H. WHEATLEY, Jemison, Ala., Box 98. No. 3-3t. pd.

CHEVROLET

CONSTANT EXPANSION

—to serve Chevrolet owners better

SINCE January 1st more than a million new Chevrolets have been delivered to owners—making the Chevrolet Motor Company, for the second consecutive year, the world's largest builder of automobiles!

This outstanding achievement has been attained not only because of the quality and value of Chevrolet cars—but also because there has been a constant expansion of Chevrolet service facilities.

In order to bring these mammoth facilities of the Chevrolet factories to Chevrolet dealers and owners everywhere, there have been erected 26 huge parts warehouses in the principal centers of distribution. This expansion program is continually going on—for four great additional warehouses will be in operation by January first and seven more by the summer of 1929.

Into the service departments of all Chevrolet dealers, Chevrolet has brought special tools and shop equipment—designed under the supervision of Chevrolet engineers. This equipment definitely assures maximum speed and precision and the lowest possible cost in the performance of every Chevrolet service and repair operation—which are charged for on a flat rate basis.

Furthermore, all of these tremendous facilities have been made available to 15,000 authorized service stations manned by skilled mechanics, over 25,000 of whom have been factory trained to efficiently handle every repair operation on a Chevrolet car. In addition, there are over 4,000 other points where genuine Chevrolet parts may be obtained.

Uniformly efficient, uniformly reliable and within easy reach of everybody everywhere—this great service organization is maintaining at peak efficiency the fine performance for which Chevrolet cars have always been renowned.

We cordially invite you to come in and see how our service facilities reflect the influence of this great national service program.

QUALITY AT LOW COST

What Your Monthly Bill Would Be Under The New Electric Rates

This is the fifth of a series of advertisements explaining the proposed new Domestic Electric Rates

WE HAVE explained in preceding advertisements our purpose in filing the new domestic service rates and the application of the new rates. The general introduction of labor-saving appliances in the homes of Alabama has brought about the necessity for a change in the form of rates for domestic service. We now come to the concluding advertisement and the one of most interest to you. It is natural that you should ask

"WHAT WILL BE MY BILL UNDER THESE NEW RATES?"

The table below gives a simple method for computing your lighting bills under the new rates. If you consume 30 KWH a month, find this figure in the first column of the table, then find at the top the figure that corresponds to the number of rooms in your home and the figure in this column on a line with the kilowatt hours consumed will be the billing on the new rate for lighting only. In our first advertisement we showed you the method of rating your home. Only the active rooms are counted. If you have an electric refrigerator or a large electric range over 7 KW rating, there will be an addition to the figures shown in the table below in estimating your bill. For instance, suppose you use 30 KWH per month for lighting only and you occupy a 5-room house, the table shows that your bill under these conditions would be $2.30. If in addition to lighting you have an electric refrigerator the bill would be $3.30. The usual size of electric range is 5, 6 or 7 KW rating.

If you are not one of those who have already discovered the advantages of labor-saving appliances in the home, it is reasonable to assume that the proposed new rates will not only encourage, but will actually prompt you to install such home equipment because of the fact that all additional electricity used will come at the low rates of 4, 3 and 2 cents per kilowatt hour. It will not be necessary to install expensive wiring for additional meters as all service in the home will be supplied through a single meter at one low rate.

If you already own labor-saving electric appliances, the new rates will enable you to make greater use of your installation at small additional cost. If you have an electric range and are not enjoying the luxury of continuous hot water in your home you will be interested in a storage water heater which additional consumption would come on the very lowest rate of 2 cents per kilowatt hour.

Remember—a greater use of the service entitles you to a lower rate and the new rates are designed for your benefit and extend to every consumer of electricity the same opportunity to make additional use of the service at low rates.

(See previous advertisement No. 1 for Room Rating)

KWH per MONTH	3 Rooms	4 Rooms	5 Rooms	6 Rooms	7 Rooms	8 Rooms	9 Rooms	10 Rooms
5	$ 1.00	$ 1.15	$ 1.30	$ 1.45	$ 1.60	$ 1.75	$ 1.90	$ 2.05
10	1.20	1.35	1.50	1.65	1.80	1.95	2.10	2.25
15	1.40	1.55	1.70	1.85	2.00	2.15	2.30	2.45
20	1.60	1.75	1.90	2.05	2.20	2.35	2.50	2.65
25	1.80	1.95	2.10	2.25	2.40	2.55	2.70	2.85
30	2.00	2.15	2.30	2.45	2.60	2.75	2.90	3.05
40	2.40	2.55	2.70	2.85	3.00	3.15	3.30	3.45
50	2.80	2.95	3.10	3.25	3.40	3.55	3.70	3.85
60	3.10	3.25	3.40	3.55	3.70	3.85	4.00	4.15
70	3.40	3.55	3.70	3.85	4.00	4.15	4.30	4.45
80	3.70	3.85	4.00	4.15	4.30	4.45	4.60	4.75
100	4.30	4.45	4.60	4.75	4.90	5.05	5.20	5.35
150	5.80	5.95	6.10	6.25	6.40	6.55	6.70	6.85
250	8.30	8.45	8.60	8.75	8.90	9.05	9.20	9.35
350	10.30	10.45	10.60	10.75	10.90	11.05	11.20	11.35

Add $1.00 per H. P. of connected motor and refrigerator load (minimum 1 H. P.); plus $1.00 per KW in excess of 7 KW of connected range and heating load.

The usual rating for electric ranges is 7 KW or less—the convenience outlet on your range is not included in our rating. There are comparatively few domestic ranges on our system in excess of 7 KW rating. Water heaters where not on a double throw switch may bring the total rating above 7 KW, in which case only the excess is charged for. This feature of the new rate is identical with the present cooking and heating rate in effect.

If we have failed to make clear to you any point involved in the proposed new rates, or if there is any additional information desired, please let us know and we shall be glad to make further explanation.

ALABAMA POWER COMPANY
THOMAS W. MARTIN, President

REGISTER'S SALE

The State of Alabama, Chilton County.
CIRCUIT COURT IN EQUITY
Hattie M. Gerald, et al. Complainant.
VS.
Lawrence F. Gerald, Defendant.

By virtue of a decree in the above stated cause rendered on the 13th. day of October, 1928, by the Circuit Court in Equity, to satisfy said decree, I will sell to the highest and best bidder for cash, at public sale, at the Courthouse door of said County, between the hours of 11 o'clock, A. M. and 4 o'clock P. M., ON WEDNESDAY, THE 31 DAY OF OCTOBER, 1928, the following described property, viz:

Commencing at the SE corner of the W 1-2 of the W 1-2 of the SE 1-4 of the SE 1-4 of Sec. 36, Twp. 23, Range 13, and run thence North 526 feet, thence run West at right angles a distance of 636.4 feet, more or less to the East line of the right of way of the Birmingham-Montgomery Highway, thence run in a Southerly direction on and along the East boundary line of said Highway a distance of 686.6 feet, more or less, to the point where the South line of the S 1-2 of the SE 1-4 of Sec. 36, Twp. 23, Range 13, intersects said East Boundary of said Highway, thence run East 195 feet, more or less to the point of beginning. It being the specific intention hereof, to describe a tract of land containing 5 acres, no more and no less, lying partly in the W 1-2 of W 1-2 of SE 1-4 of SE 1-4 and partly in the SW 1-4 of SE 1-4 both in Sec. 36, Twp. 23, Range 13, and being and lying on the South side of both of said sub-divisions of land and extending from the East boundary of said Highway to the East boundary line of said W 1-2 of W 1-2 of SE 1-4 of SE 1-4, in said Sec., Twp. and Range situated in Chilton County, Ala., sold for division among the joint owners and tenants in common thereof.

This the 16th. day of October, 1928.

W. D. SPIGENER, Register.
No. 4-2 times.

PIZARRO'S SEARCH FOR GOLD AFFECTS TODAY'S FOOD COST

When Pizarro and those adventuring conquistadores who followed him into the mountain fastnesses of Peru and Bolivia forced their thousands of captives to labor in the gold and silver mines of the Andes, their acts were destined to play a part in the price of corn and beans to the housewives of the United States in 1928, according to a bulletin just issued by the American Business Research bureau. It is a story of romance.

"Pizarro and those who followed him wanted only gold and silver and precious jewels," says the bulletin. "They found the silver mines of the high Andes rich in tin as well. To get out the silver they were forced to take out the tin also. But the tin went into the discard, into tailings.

"During the centuries these hills of discarded tailings, rich in tin, grew almost mountain high. Centuries passed. The tin mines of Cornwall, in England, whose richness lured the Romans to the conquest of England, played out. The tin mines in the Malay Straits Settlements began to fail. Tin went from a few cents a pound to, at one time, seventy cents a pound.

"Then the mine dumps of Bolivia, growing since the days of Pizarro, were remembered. For years England had controlled the tin market. Now Americans entered the field. The Golden Center Mines, Inc., acquired vast tin holdings in Bolivia. They include besides the mine dumps of Pizarro, both lodes and river-bed deposits.

"Tin has dropped back to fifty-five cents a pound and the British tin trust is losing its grip. American can manufacturers are getting their tin cheaper. The American housewife is being freed of 'British control' when she buys a can of peas, beans, or corn."

One of the reasons that prompted American Industrialists to enter the tin industry was the fact that America, consuming over 70% of the world's supply of tin, produced less than 2% of it.

The World War naturally caused tremendous economic changes. Prices of useful metals advanced generally along with everything else, but notwithstanding the fact that it is now ten years since the war ended most of the useful metals are selling at or near the prices which ruled before the war.

The one exception is tin, which has risen so much in market value within recent years that it is sometimes referred to as the most precious of the base metals. This is not particularly surprising when the fact is taken into consideration that the mines which produced the greatest amount of tin during the past are either worked out or are rapidly being exhausted.

The mines of Cornwall, Wales, one of the world's largest producers of tin in the past, were exhausted almost fifteen years ago; the placer stream bed and gravel deposits of the Malay peninsula, at present the greatest source of supply, are going fast. When these are exhausted in the near future it will remove about one-third of the world's present possible output of tin per annum. Production has been declining constantly and it is reasonable to believe that it will not be many years before this supply will be exhausted.

While the tin deposits in the mountains of Bolivia have been long known, it was not until the development work of American industry that the value of these deposits was fully realized. With American methods and modern machinery, this country is expected to be one of the important tin producing countries of the world for some years to come.

The Golden Center Mines, Inc., has also acquired valuable properties near San Diego, California. Engineers report that on this property there is a vein outcrop varying in width from 50 to 100 feet and exposed on the surface for a long distance.

All in all, there is every indication that while gold and silver have in the past been considered the "romantic" metals, it is evident that the average American housewife is just as much, if not more, interested in tin in which many of the articles of her daily use are brought to her.

PRIZES AWARDED BY KIWANIS IN CLEAN UP CAMPAIGN

In the Clean-Up and Fire Prevention campaign sponsored by the local Kiwanis Club the week of October 22-27 the winners were announced at the last meeting of the club are as follows.

First prize— $10.00 GoldPiece, went to Mrs. Laura White; Second prize—$5.00 Gold Piece, went to Mrs. Joe Franklin.

Much interest was manifested by the citizens of the town and competition was so keen that it was necessary for the judges to make the third survey before the final decisions were made.

J. Mell Martin, who was active in this campaign issued the above information, and states that the Clanton Kiwanis Club wishes to express their thanks for co-operation and assistance rendered the club by the citizens of Clanton.

ARMISTICE DAY PROGRAM AT METHODIST CHURCH

Armistice Day comes on Sunday this year. This is the tenth anniversary of the close of the great war. Moreover a great forward step to world peace has recently been taken in the adoption of the Pact of Paris. Our worship this year should express itself under the three motifs of Remembrance Rejoising and Loyalty.

Sunday morning at eleven o'clock, a special Armistice Day worship program will be followed at the Methodist church. The program, prepared by Dr. Charles Clayton Morrison, celebrates the memory of those who made the supreme sacrifice in the effort to end all wars. It then gives expression to our dedication to the achievement of World Peace and it closes with heart-cheering promises, from the ancient prophets.

The program is as follows:
Voluntary.
Hymn 702 "America."
Prayer.
Memorial words.
Responsive reading.
Hymn No. 430.
Offertory.
Short sermon.
Hymn.
Introduction to Peace Treaty.
Reading of the Treaty to Congregation.
Pledge of Allegiance by the Congregation.
Music.
Scripture Promises.
Benediction.

POULTRY SPECIALIST GIVES POINTERS IN BUYING CHICKS

(By A. S. Stanford, poultry specialist)

In buying chickens care should be taken to examine each individual bird for disease.

The external indications of diseases that makes birds unfit for food are: Cold feet, discharge from eyes, nostrils mouth and vent. The color of the meat and the condition of the skin should also be taken into consideration.

Cold feet are caused by poor circulation. This can be caused by a number of different things. The discharge from the eyes, nostrils and mouth, are caused by Simple Catarrh (Colds), Contagious Catarrh (Roup), Chicken Pox, (Diptheria) Infectious Bronchitis, Aspergillosis (Brooder Pneumonia). These diseases will cause sickness in birds that range from indigestion to pneumonia. Birds that are slightly cooked, that have colds or roup, will usually cause boils in people. One drop of the mucus discharge of roup, if injected into a guinea pig, will cause boils and death. Often within 24 hours.

To examine the flesh raise the wing and observe the color of the flesh on the breast. If it is bluish green in color, it is high in acid. 5 per cent acidity in poultry meat will cause indigestion.

The skin should also be examined. If there is a scaly dandruff condition present it is an indication of fever. Do not confuse the dandruff to scales caused by moulting.

Some of the internal indications are to look for are yellowish colored tumors of various sizes, they are observed on the liver spleen, and intestines. These are usually caused by tuberculosis or Aspergellosis.

If upon examination the liver shows abnormal size or color or small holes, that look like the skin had been pierced with a small needle, the liver if used, is liable to cause ptomaine poisoning.

EAST VIEW NEWS ITEMS

There are several on the sick list this week.

Mrs. Gertie Taylor was carried to Hill's Infirmary last Saturday. We hope for her a rapid recovery.

Little Johnnie Bryant, who has been in a Birmingham hospital, is able to be at home again.

[illegible] to Sunday School next Sunday. [illegible] of Sylacauga will preach at East View Church next Saturday night and Sunday. There will be Christian Endeavor and preaching Sunday night.

It is better to bring the little fellows to Church than to let them go rabbit hunting on the Lord's Sabbath. 90 per cent of the folks in prison were not church folks. Be not deceived, God is not mocked, whatsoever a man soweth, that shall he reap. Come to Church next Sunday.

G. D. RETHERFORD PURCHASES NEW CAFE FROM EASTERLING

Mr. G. D. Retherford, former owner of the Chero-Cola Bottling Cmpany, has purchased the New Cafe, located on Seventh Street, from Mr. J. L. Easterling.

Mr. Retherford assumed possession of the cafe on the first of the month, and states that he will continue to operate under the name of The New Cafe. The cafe has undergone a thorough cleaning throughout, and a part of the forse has been changed.

Mr. Retherford invites all his friends to drop around to see him at his new place and states that it will be his aim to give absolute satisfaction to all customers.

CLANTON CASH STORE TO BECOME I. G. A. STORE

The Clanton Cash Store, operated by Messrs O. B. DeLoach and Jesse Baker, is this week undergoing extensive remodeling in the grocery department, which occupies one half of the business.

This remodeling is being done in accordance with the plans of the Independent Grocers' Alliance, of which the Clanton Cash Store has become a member.

Beginning at an early date, the grocery department of this store will be operated on the I. G. A. plan, but the exact date has not yet been announced.

Chilton County Abstract Co.
M. D. FOSHEE, Manager
A good business man will not buy a farm or any property without first looking it over to se° what it is worth. However, some will buy or loan money on land without an abstract.
Isn't it equally as foolish to buy a farm without looking it over as to buy it and not know whether the titles are good or not? Without an abstract you do not know where you are getting the land you look at or not.
Before investing in land in any way have an abstract made and be safe.

News Happenings From Jemison

The student body of the Jemison Hi School has been organized into two Literary Societies. Dody Wells was elected president of the "Excelsiors" and Pauline Bean of the "Invincibles". These societies are putting on some very interesting programs, using the Friday chapel periods.

The Jr. III Class of Jemison High School was entertained Friday afternoon for having the highest per cent of attendance during the month.

As we are unable to have a football team this year, practice has started on a basketball team. A few of our old stars are not with us, but we have the material to develop new ones to take the place of them.

A Hallowe'en party was given Wednesday night, Oct. 31, in the High School Auditorium, under the auspices of the P. T. A. A short program was given. Refreshments were sold which netted a good profit. A grand march wasplayed for those who were in costumes. Marian Adams received first prize, and Geraldine Bean second. TheJunior prizes were awarded to Annie Ruth Pate and Morgan Adams. The P. T. A. meets the second Wednesday in each month. All parents are especially urged to be present.

A beautiful climax to the week was the Surprise Party given Miss Dody Wells on her birthday, Nov. 3 at the home of her parents, Mr. and Mrs. A.C. Wells. The home was attractively decorated with a profusion of Autumn flowers, carrying out the color scheme of pink and green. Punch was served to the guests as they arrived by Miss Rubye Gulley. Games and contests were enjoyed. Miss Leona Stanley, Mr. Arthur Chandler and Mr. Lloyd Veazy won the prizes. Late in the eveing a delicious salad plate was served to Misses Tommie Lee Sims, Allese Washburn, Muriel Washburn, Sarah Haynes, Leona Stanley, Beulah Naive, Nell Wells, Rubye Gulley, Margie Murphy and the honoree. Messrs Hollis Merchant, Henry Hayes, Arthur Chandler, Leo Langston, Carl Glass, Edward Glass, Lloyd Veazy, Eemeral Davis and Zane Turner.

Miss Nell Wells popular teacher at Chilton County High School, spent the week end with her parents, Mr. and Mrs. A. C. Wells.

Mr. Leo Langston, principal of Antioch school, spent the week end with his parents, Mr. and Mrs. J. M. Langston.

Miss Theresa Mae Sims has returned home after a two-weeks' visit in Birmingham with relatives and friends.

Mr. Henry Hayes, student of Howard College, spent the week end with his parents, Mr. and Mrs. H. H. Hayes.

Mr. Fred Sims spent the week end with his family here

Messrs Seymour Reynolds and Paul Kincaid of Birmingham were visitors in our town Sunday.

Miss Grace Salter visited friends and relatives in Birmingham during the week end.

Miss Linnie Cline spent the week end in Birmingham with her brother, who is convalescent at Woodlawn hospital.

Mr. Bass Washburn and daughter Muriel, spent the week end at home.

Mr. Frank Glasgow of Washington, D. C., spent Monday with friends.

Mr. Zane Turner spent Saturday in Birmingham shopping.

Mr. Happy Conaway and Bill Simpson motored to Jemison Sunday afternoon.

Mr. Emmett Smitherman spent the week end with his parents in Lawley.

Mr. Grelious Long of Warrior visited his cousin, Carl Glass, Sunday.

Mr. Udah Curlee was in town Monday shaking hands with old friends.

Mr. Charles Glass of Birmingham was a visitor here Sunday.

We are glad to have Mr. and Mrs. Arthur Bratton move back into our town.

Friends of Mr. J. F. Wells are glad to know that he is able to be out again after a recent illness.

Mr. Arthur Chandler of Birmingham spent Sunday with his parents.

Mr. Albert Sims spent Sunday in Birmingham.

LEE TRAYWICK FOUND IN UNCONSCIOUS CONDITION

Mr. Lee Traywick age about thirty years, of Lomax, Alabama, was foud in an unconscious condition in the center of a byroad about one ile suth of Clanton early last Wednesday morning.

Pasersby who found Mr. Traywick, immediately notified J. Mell Martin who sent his ambulance to the scene from where the unconscious man was rushed to the Central Alabama Hospital, where he, at the time of this writing isti ll unconscious.

Hospital authorities stated late Wednesday afternoon that Traywicks condition is considered critical and little hope held for his recovery.

V. J. Elmore Opens Store In Wetumpka

Announcement was made this week by the managership of the local V. J. more 5 and 10c & $1.00 store that they will open another store in Wetumpka about November 15th. This new store will bear the name of the local store, as does the one operated by Mr. Elmore in Jasper, Ala., of which Mr. O. M. Webb a Chilton County and former Clanton young man, ismanager.

In the interview with a News representative the manager ofthe local store stated that the store in Wetumpka will open with a complete layout of Christmas goods and decorations, on the opening day. The fixtures of the Wetumpka store are of the most up-todaate in this line of business, and the stock will be approximately as large as is carried by the Clanton store, which is as large as will be found in any store in a town the size of Clanton.

There will not be anything carried in the new store that will sell for over one dollar. The assistants in the store will be of Wetumpka, and during the Christmas holidays there will be employed approximately thirty girls in the store, according to the manager.

Mr. Dewey Smith, who succeeded Mr. Ocie Webb as manager of the local store, will be transferred to the Wetumpka store to act as manager.

Mr. Webb who was manager of the local store was transferred to Jasper, Ala., to take charge of the store there some time ago. Mr. Smith has been with the local store for something like eighteen months and will go to Wetumpka during this week to complete arrangements for the opening day, November 15th, of the new store.

Mr. Ira Smith, who has been with the local store for the past several months and who is a brother of the former manager, has succeeded his brother here.

The Wetumpka V. J. Elmore 5c,and 10c & $1.00 Store is located in what is known as the old Woodfin Hardware and Furniture Store building. It has been undergoing extensive remodeling throughout, and is said to be approximately as large as the Clanton store This is the third store which is operated by Mr. V. J. Elmore of Clanton

IN MEMORY OF MY GRANDFATHER, J. W. ANDERSON

The death of my dear grandfather, Mr. J. W. Anderson, was an awful loss to me. Seems tho if his face is gone, his kind spirit is still lingering. Tho he suffered many pains, he was always cheerful and loving.

Never will I forget the sweet look on his face when the Angels came to take him home to Heaven. It seemed that the smile he wore was a token to his children to meet him inHeaven.

He is gone but not forgotten,
Never will his memory fade.
Sweetest thoughts will ever linger,
Around the grave where he was laid.

Gulma Anderson

CARD OF THANKS

We wish to thank the people of this community for their sweet kindness and assistance shown us during the illness and death of our beloved husband and father. We also thank them for the beautiful floral offerings May God bless each and everyone, is our prayers.

Mrs. J. W. Anderson and children

EVANGELISTIC SERVICES NOW ON AT TEMPLE CHURCH

Rev. W. E. Thurmond of Cairo, Ill., began a series of Evangelistic services at old Temple Church, 3 miles east of Clanton last Friday night.

Rev. Thurmond was in Clanton Tuesday morning and stated that he was highly pleased with the interest being taken in the meeting and that a number of names had already been added to the membership of the church.

Rev. Thurmond is a preacher of no little means, having conducted evangelistic services in a number of the states over the U. S. and is rateh as a scholar of proven ability.

It will be remembered that Rev. Thurmond was in this section some four or five years ago, where he conducted a series of meetings at this same church.

on next Sunday and Sunday night will

The topic of eRv. Thurmond's sermbe on "The Fulfillment of the Bible Prophecy", and no doubt, the church will be crowded to capacity to hear this able speaker.

MR. R. C. HAND BRINGS IN LARGE POTATO TO NEWS

Mr. R. C. Hand, who resides on Rt. 5, brought to the News office last Tuesday, some extra large sweet potatoes. The largest of the potatoes weighed 8 3-4 pounds, while the others were close to that.

The Clanton Trade Day, sponsored by the Kiwanis Club on last Wednesday, October 31, was in spite of the somewhat disagreeable weather on that day, a success. Many valuable prizes were given away later in the afternoon. The prizes being offered by merchants of Clanton, tickets being given during the day to those who made a purchase of one dollar or more.

The merchants giving the prizes, the prizes and the winners were as follows:

Smith, Bates Motor Co., one can auto polish to Earl Thomas; Wadesonian Theatre, 45 tickets to J. J. Jones and 45 tickets to Jno. VanDerveer.

Bill Hodges Entertained On Eighth Birthday Anniversary

Among the witches and hobgoblins making merry of the season was featured when Bill Hodges celebrated his eight birthday anniversary Friday afternoon.

The little guests were met at the door by Bill, who received them graciously with smiles a nd glee as the many useful and dainty presents were opened and admired. The entire lower floor of the home was transformed into a bower of beauty with the Hallowe'en idea.

Outdoor games were enjoyed by the happy little folks until late in the afternoon, when they entered the dining room, where a beautiful'y decorated table, centered with a huge birthday cake with eight lighted candles with emblems of the season added to the effective scene.

The cutting of the cake afforded much fun as the little ones were anxious to know who drew the prize.

Delightful refreshments consisting of an ice course, and Angel food cake, further carrying out the Hallowe'en spirit was served to the following guests: Jane Neighbors, Frances Foshee, Mary Armstrong, Olive Rainer Elmore, Nell Rockett, Margie Nell Jones, Eloike Rasberry, Elizabeth Lawrence, Jane Cox, Dorothy Dowling, Marzelle Taylor, James Jones, Guy Alred, Harry Lawrence, Harvie Armstrong, Callen Alred, Ted Reynolds and Bill Hodges.

Mr. Curtis Guy of Birmingham was among the many visitors to Clanton last Tuesday. He was visited his parents, Mr. and Mrs. G. T. Guy, at Mt. Creek.

The GINNING Season

Will soon be over, and I wish to express my thanks to my many loyal customers for their patronage & aid

By keeping our gins and cleaners in first class condition we have been able to give our patrons the best service possible for them to receive. They have received the highest prices paid for cotton and have profited by same.

I keep meal and hulls for the convenience of customers and appreciate your patronage if you have only one bale or if you have several bales.

If you have cotton to gin or seed to sell, come to see us.

J. N. DENNIS

Clanton, Alabama

PAY CENTRAL FEES NOT LATER THAN NOVEMBER 15

Announcement is made that the Peoples Telephone Co. has employed Mr. Lomer Giles to operate the central office in Clanton and the service will be reinstated as quickly as possible. All phone holders are asked to pay their central fees not later than November 15. The fees are set at $5 for phone holders on lines that run out into the rural districts, and $6 for phone holders on lines in town. Where a party has two phones on the same line he will be required to pay $7.00 which will entitle him to service on both phones.

Receipt books are now ready and Mr. G. O. Foshee is ready to receive the central dues. Mr. Foshee can be found most of the time at The Union-Banner office.

Officials of the company say that absolutely no central service will be given to anyone who is not paid up after November 15th.

If the people are going to have phone service they must put their shoulders to the wheel and push. The dead timber must be cut out. This concern can be made a success if the folks want it enough to support it.

CHILTON P. T. A. TO MEET ON NOVEMBER 13TH

The regular meeting of the Chilton High P. T. A. wil be held at the High school auditorium on Tuesday, November 13th at three o'clock in the afternoon.

The members, and especially parents of children who are attending school, are urged to attend this meeting. A very interesting program from the several organizations on the campus will be rendered by pupils of the school.

HALLOWE'EN PARTY AT C. C. H. S. A BIG SUCCESS

The Hallowe'en party at the Chilton County High School last Friday evening was a great sucess

The party was held in the lower portion of the building from seven o'clock until nine, and was sponsored by the Parent Teachers Association of the school

Each of the several teachers of the school conducted a booth or department and the program by raising funds for the P. T. A. served from delicious eats to various lines of amusements. The most popular booth was the Punch and Judy show conducted by Mesdames Ezell and [illegible]

At the close of the [illegible] was found that somethin[illegible] had been realized from the entertainment.

Prizes were awarded to Miss Corrine Polk for the prettiest costume, while the cake was awarded to Arthur Wilks.

The faculty and P. T. A. wish to express their sincere thanks for the donations made by the business men, and for the co-operation and interest that the general public gave in helping make the affair a success

News Items of Interest From Chilton County High School

The school is getting along fine in its third month of this school year, and everyone is doing their best to make our school the best in the State.

The football team had a hard fight Friday afternoon in the game, tieing the Lineville team 6-6. Our boys were in fine shape making several good plays and showing fine spirit. The game was attended by a good crowd, who thoroughly enjoyed it to the end.

Tuesday, October 30, the school organized two Literary Societies, a very important item in school work, naming them the Lanierians and the Tutwilers. The two societies have begun active work and we are sure they will have good results.

The P. T. A.'s Hallowe'en Festival was a great success as it has always been. A largecrowd attended, all dressed in costumes and having a grand time. There were several novel entertainments and everyone enjoyed the splendid refreshments.

The Annual staff with the cooperation of the school to its fullest extent is getting along fast toward a wonderful 1929 Annual. The contract for the photographs was given to Mr. Roy Hickman of Birmingham, who will come to the school November 13th, to do his work.

There will be a football game tomorrow between the Chilton County High and Tuscaloosa County High, and everyone be sure and go out as it will be worth your while.

Music Club Organized

A Music Club of the Chilton County High was organized from the Junior II and the Junior I classes, Oct. 31, 1928.

A meeting was held last Wednesday afternoon for the purpose of electing officers. The club was called to order by Mrs. Washington, the music instructor at the school. The members of the class elected as president, Dorothy Sessions and Hilda Hart as the secretaary. The colors for the class were chosen, being silver and purple. The name has not yet been decided, at the meeting next Wednesday it will be decided upon. The ones who enjoy these meetings are: Dorothy Sessions, Hilda Hart, Potsy Polk, Elizabeth Harris, and Lois Miller. The club will meet each Wednesday afternoon.

KNOW Your South
and be a Partner in its Growth

St. Louis
Western Frontier of the Southland

The Nation's "shopping center" might well be the characterization given metropolitan St. Louis. With more than 4,000 industries producing approximately $1,300,000,000 in manufactured commodities annually, and numerous distributing and jobbing houses located in the district, "Greater St. Louis" is one of the foremost commercial and industrial centers in the country.

More than 218 diversified lines of products, running virtually the whole gamut of industrial productivity, are being produced in the district, which comprises generally the territory within a radius of approximately 50 miles around the City of St. Louis.

With twenty-eight railroads radiating to all sections of the country, and an exemplary package-car system, the city is "twenty-four hours from anywhere" in the country.

In a cultural way, St. Louis has made equally wise provision. The magnificent Municipal Opera, located in vast and expansive Forest Park, one of the largest parks west of the Mississippi, is the largest municipally owned outdoor theatre in the world. Jefferson Memorial is the home of the City's historical archives, and the display place for the famous collection of Col. Charles A. Lindbergh, famous Atlantic flier.

(Signed)
ST. LOUIS CHAMBER OF COMMERCE

What the "OLD RELIABLE" means to St. LOUIS.

St. Louis is the sixth city in size in the United States, the Northwestern terminus of the Louisville & Nashville Railroad, and the most populous city on its rails. It is one of the largest primary grain markets in the United States, as well as one of the largest live-stock markets.

The Louisville & Nashville Railroad has an average of 450 employes in the St. Louis terminal district with an annual payroll in excess of $750,000.00. It operates eight scheduled passenger trains and fourteen freight trains into and out of St. Louis daily, with numerous extra sections as needed. It is the only strictly Southeastern line having its own station in St. Louis for the receipt and delivery of freight, handling cotton goods, lumber, and other raw materials produced in the South, and finished products moving from St. Louis.

BIDS WANTED

Sealed proposals will be received by the Town Council of the Town of Clanton, Alabama, until seven o'clock P. M., Thursday November 8th, 1928, at the office of the Town Clerk, the regular meeting place of the Town Council for the purchase of $8,000.00 of Public School Bonds of the said Town of Clanton, Alabama. Said bonds will be coupon bonds and will be dated November 1st, 1928, bearing interest at the rate of six per cent per annum, p ayable semi-annually at the office of the Hanover National Bank, in the City and State of New York. The bonds will mature on November 1st, 1948, and will also be payable at the said Hanover National Bank. Said bonds being issued for the purpose of acquiring, providing, or constructing school houses of the Town of Clanton, Alabama, and were authorized by an election held in said Town on the 15th. day of May, 1926.

The bonds will be delivered to the purchasers at a point to be designated by the Town Council of said Town of Clanton, together with the final approving opinion of Messrs Storey, Thorndike, Palmer & Dodge, Attorneys, of Boston, Mass.

A certified check for 5 per cent of the amounts of the bonds must accompany each bid.

The Town Council of the Town of Clanton reserves the right to reject any or all bids.

J. H. PLIER, Town Treasurer
Oct. 25th, and Nov. 1st., 1928.

NOTICE

State of Alabama—Chilton County.

Notice is hereby given that the undersigned mortgagee will sell at public outcry to the highest bidder for cash during the legal hours of sale on Thursday, November 15th, 1928, in front of the courthouse door in the City of Clanton, State of Alabama, the following described real property, situated in Chilton County, Alabama, to-wit:

The East Half of the Northeast Quarter of Section 23, the West Half of the northwest Quarter of Section 24, the Southeast Quarter of the Northwest Quarter of Section 24; the Northwest Quarter of the Southwest Quarter of Section 24; the Southwest Quarter of the Northeast Quarter, less eight acres on the southside, Section 24; Sixteen acres in the Northwest corner of the Northeast Quarter of the Southwest Quarter of Section 24; all of the above described lands being in Township 24, Range 13, East.

Said sale is to be had under and by virtue of the power of sale contained in a certain mortgage given to Mrs. W. L. Wilson by Mrs. T. E. Sims and husband, Thos. E. Sims, and Itara Cobb, an unmarried woman, on to-wit the 30th day of June, 1927, and recorded in the office of the Judge of Probate Court of Chilton County, in Volume 218, Record of Deeds page 484, said mortgage having been given to secure the payment of a certain indebtedness mentioned therein, and said mortgagors being in default in the payment of said indebtedness.

The proceeds of said sale will be distributed in accordance with the provisions of said mortgage relating thereto.

MRS. W. L. WILSON, as mortgagee
SIMS, DEEDMEYER AND HARRISON, Attorneys for Mortgagee.
First National Bank Building, Birmingham, Alabama.
Oct. 11-No. 3-3 times

NOTICE OF MORTGAGE FORECLOSURE SALE

Default having been made in the payment of the indebtedness secured by that certain mortgage executed by J. H. Shoults, and wife, Ellen Shoults, on the 28th day of October 1915, to R. W. Little, and recorded in the office of the Judge of Probate of Chilton County, Alabama, in b ook 151, at page 327, and which mortgage and the indebtedness secured thereby has been transferred to the undersigned, who will, on Monday the 26th day of November, 1928, during the legal hours of sale, in the Town of Maplesville, Alabama, accordin t o the terms of said mortgage, offer for sale, to the highest and best bidder for cash, the following described real property, conveyed in said mortgage, to-wit:

The North Half (N 1-2) of the Northwest Quarter (NW 1-4) Section Sixteen (S-16), Township Twenty One (T-21) Range Eleven (R-11) Chilton County, Alabama, and containing eighty acres.

The proceeds of said sale will be applied in accordance with the provisions of said mortgage, as follows: (a) To pay the expenses incident to said sale, including a reasonable attorney's fee, (b) the payment of the indebtedness secured by said mortgage and (c) the balance, if any, to be tufned over to the said mortgagors.

This the 24th day of October, 1928.

BUSH SHOULTS, T ransferee of said mortgage.
J. B. ATKINSON, Clanton, Ala., Attorney for Transferee of said Mortgage. No. 5-4 times.

NOTICE OF APPLICATION FOR PAROLE OR PARDON

Notice is hereby given that the undersigned Thomas Littlefield who was convicted on the 8th day of April, 1927, in the Circuit Court of Chilton County, Alabama, for the offense of Manufacturing Liquors and possessing a still, and sentenced to the Penitentiary of the State of Alabama for an indeterminate term of eighteen months to two years, will make application to the Pardon Board and Governor of the State of Alabama for a parole of the remainder of said term which he has not served.

This the 15th day of October, 1928.
No. 4-3t. THOMAS LITTLEFIELD

BREADS THAT ARE DIFFERENT

HAVE you ever come to the point when it bored you to face your breakfast roll? Perhaps the trouble isn't with you, but with the roll.

There are breads and rolls that are different and will give just the proper tang to start the day off right with a new taste in your mouth. One of the most delightful ways to vary your quick breads is to add pineapple, crushed pineapple as it comes from the can, to your batter.

The following recipes have been worked out by a housewife in her own kitchen and so are thoroughly tested.

Something New

Pineapple Muffins: Sift together two cups flour, three tablespoons sugar, four teaspoons baking powder, and one-half teaspoon salt; add two well beaten eggs and one cup milk. Add three tablespoons melted butter and three-fourths cup of well-drained crushed pineapple. Bake in greased muffin tins in a hot oven, 400° F., for twenty to twenty-five minutes.

Pineapple Nut Bread: Sift together two cups flour, four teaspoons baking powder, one teaspoon salt, one-fourth cup sugar. Beat one egg well and add one cup milk; add to dry ingredients. Add three tablespoons melted shortening, one-half cup of crushed pineapple very well drained and one-half cup of nuts. Bake in a greased loaf pan in a moderate oven, 350° F., for one hour or until done.

Pineapple Bran Muffins: Cream three tablespoons butter and one-fourth cup sugar and add one well-beaten egg. Add one and one-fourth cups bran and one cup sour milk. Sift one cup flour, one-half teaspoon soda, one teaspoon baking powder, and one-half teaspoon salt and add to the liquid. Add three-fourths cup well-drained, crushed pineapple and pour into greased muffin tins. Bake in a moderate oven, 375° F., for twenty to twenty-five minutes.

For Tea Time, Too

Pineapple Popovers: Drain syrup from two cups of crushed Hawaiian pineapple and add enough milk to make two cups of liquid. Mix, and sift two cups of flour and one teaspoon salt. Add liquid gradually. Beat with egg beater until smooth. Add four unbeaten eggs and stir just enough to mix batter thoroughly. Bake forty-five minutes in greased muffin pans in hot oven (425° F). Break open and put a spoonful of crushed pineapple in each half, and serve immediately.

French Toast with Pineapple: Sift together one cup flour, one-half teaspoon salt, one teaspoon baking powder. Add one cup milk and two well-beaten eggs; beat well. Dip round slices of white bread into batter and fry in hot fat. Lay on plate, dust with sugar and top with a slice of Hawaiian pineapple. In center of pineapple put one-half teaspoon red jelly.

Two SOUND VALUES

Star-Rite Waffle Iron

63c DOWN

$1.00 PER MONTH

HERE'S an offer you simply MUST take advantage of: a genuine Star-Rite waffle iron for only 63c down, balance only $1.00 per month on your service bill. STATE CAPITOL NEWS

Montgomery, Ala., Nov. 5.—Alabama's insane hospital at Tuscaloosa has since the beginning of the Graves administration had its capacity increased according to figures available here, to an extent sufficient to take care of the normal increase in its population until beyond the end of the present administration, or for three years. Authorities of the institution have been carrying on a huge program of expansion, buying large acreages of farm lands, erecting buildings, etc., out of funds appropriated to the hospital for maintenance, but which have been used in part for a building program. Continuation of this policy would mean an almost endless expansion of the institution's scope and would encourage the growing tendency to solve the problem of the weak-minded or senile pauper by sending them to Tuscaloosa or Mt. Vernon and thereby shifting the burden of their support from relatives or local authorities to the State.

The recent outcry in certain quarters over the situation at Tuscaloosa resulted from the refusal of Governor Graves to approve the continued use of money appropriated by the Legislature for maintenance, into a building program. In order that the situation may be understood, it should be pointed out that the law provides a weekly maintenance allowance for each inmate of not less than $3.50 or more than $5.00, the amount available, within these limits, being left in the discretion of the governor, in order that it might be properly fixed to take care of fluctuations in prices over a period of years. Under Governor Kilby, the maintenance allowance was fixed at $5.00 weekly, this being at a time when prices were at their peak during the period of inflation immediately following the war. Since then, prices have dropped greatly and consequently the cost of supporting inmates of the hospital has been reduced. Governor Graves fixed the maintenance allowance at $4.25 weekly, in view of the proven fact that $5.00 was not needed. During the period that the $5.00 allowance was in force, many thousands of dollars were "saved" on the maintenance outlay and used for erecting buildings and buying lands.

At Tuscaloosa since Governor Graves assumed office, out of the surplus of the maintenance fund authorities have erected a building with a capacity of 225 patients and bought 2,300 acres of farming land and two dwelling houses the farm project having a capacity of 150 persons or a total increase in the capacity of the institution of 375. The normal increase in hospital population is given at 117 per annum, so that increased facilities already provided will more than care for the normal increase for three years. At Mt. Vernon, where the insane hospital for negroes is located, accomodations have been provided for 200 additional patients. While the population of the State of Alabama has increased less than one percent a year, since Governor Graves became Governor the facilities at the State Insane Hospitals have increased at least 15 percent.

There are in the State of Alabama a number of poor persons who are burdens on relatives or on the various counties. Such persons undoubtedly, in many instances might be scientifically described as mentally defective or at least feeble-minded. Sending such persons to the insane hospitals relieves the county, or their relatives, of a burden, and places it on the State even though in many cases they might well be taken care of in county almshouses or in homes. The growing latitude which is being given to the definition of insane and feeble-minded, if carried to the extent that some would apparently like to see it carried, would impose upon the State a burden of such proportions as would be difficult to estimate.

State convict farms share in the short cotton crops experienced by the State generally this year, according to Hamp Draper, Associate Member of the State Board, of Administration. Even with production curtailed by unfavorable weather during the growing season, the cotton crop on State farms averages close to half a bale per acre, which is well above the average yield for the State. The convict department's cotton crop will approximate 1,100 bales, grown on 2300 acres. A yield of 1,500 bales was expected, before the unfavorable, rainy weather cut the crop down. The corn crop on convict farms is good, and the yield will be abut 45,000 bushels on 1,600 acres. Hay, sugar cane and sweet potatoes will all yield well. About 8,000 gallons of syrup, or one-third the total consumption at the various prisons will be produced.

Next year the State will have some 3,000 acres in cotton, the increased acreage being due to expansion of farming activities of the convict department since the convicts were taken from the mines. The new State prison farm near Atmore is in a good fruit section and it is planned to plant there this season 200 acres in strawberries, 200 acres in peaches and 25 acres in pears.

Gov. Bibb Graves in a proclamation has destined the week beginning Nov. 11, and ending Nov. 17 as "National Legion Week", and urged persons eligible to membership in the American Legion or the Legion Auxiliary to enroll in these organizations during the period set aside. The American Legion has fixed Nov. 11-17 as the dates of its membership campaign and the Governor in his proclamation urges all citizens to cooperate with the veteran's organization.

Membership in theAmerican Legion is open to any white World War Veteran who served at any time during the period from thedeclaration of war, April 6,1917 to Armistice Day November 11, 1918 and who has an honorable discharge from any branch of the armed forces of the United States. The American Legion Auxiliary membership is made up of wives, mothers, sisters and daughters of members of the American Legion. The American Legion has had a very successful year in the State in 1928, and closed its fiscal year with the biggest membership ever recorded.

John Schneider has been appointed State Purchasing Agent, effective Nov. 1, succeeding W. L. Waters. Mrs. Waters, who has been purchasng agent since the beginning of the Graves administration has been assigned to special work for the Board of Administration. Mr. Schneider has been Assistant Purchasing Agen since March of this year, and has been connected with the Board of Administration some six years.

Total number of motor vehicles in the State of Alabama, as disclosed by compilation of records of the State Tax Commission through October was 275,348. Of this number, 233,335 are private automobiles and 34,467 motor vehicles. The total number of hearses and ambulances is 372, while taxicabs and jitney busses totalled 1,390. Licensed chauffeurs total 1,079, and 1,952 licenses havebeen paid on trailers.

HOW TO GO BROKE FARMING

1. Grow only one crop.
2. Keep no livestock.
3. Regard chickens and a garden as nuisances.
4. Take everything from the soil and return nothing.
5. Don't stop gullies or grow cover crops—let the top soil wash away, then you will have "bottom" land.
6. Don't plan your farm operations It's hard work thinking—trust to luck
7. Regard your woodland as you would a coal mine, cut every tree, sell the timber and wear the cleared land out cultivating it in corn.
8. Hold fast to the idea that the methods of farming employed by your grandfather are good enough for you
9. Be independent—don't join with your neighbors in any form of co operation.
10. Mortgage your farm for every dollar it will stand to buy things you would have the cash to buy if you followed a good system of farming.—Division of Extension, University of Tennessee.

FARM AND HOME FACTS

Always see that the water is boiling before putting in the vegetables.

It's the wise farmer who knows what insects destroy his crops and takes measures against them.

Teaching a child fear does not make him more cautious but hampers his development.

Do not dry wooden kitchen utensils over a stove, because the strong heat may crack them.

The Ohio Experiment Station has veloped "Smuttox" as a control for oat smut. The Ohio Station developed it and a commercial concern is manufacturing it.

Grease stains which do not respond to soap and water should be treated with carbon tetrachloride, gasoline, or some other grease solvent and then washed.

HALF-HEARTED
Never Felt Well

"I don't see why women will drag around, in a half-hearted way, never feeling well, barely able to drag, when Cardui might help put them on their feet, as it did me," says Mrs. Geo. S. Hunter, of Columbus, Ga.

"I suffered with dreadful pains in my sides. I had to go to bed and stay sometimes two weeks.

"I could not work, and just dragged around the house.

"I got very thin. I went from a hundred and twenty-six pounds down to less than a hundred.

"I sent to the store for Cardui, and before I had taken the first bottle I began to improve. My side hurt less, and I began to mend in health.

"Cardui acted as a fine tonic. I do not feel like the same person. I am well now, and still gaining."

For sale by druggists, everywhere. Give it a trial.

Stenotype
"The Machine Way In Shorthand"

The fast, sure way of taking dictation—writes plain letters, averaging a word a stroke—it is easy to write — easy to read — easy to learn.

Here's What it Means to You:

It fits you for a class of work that is above lead pencil dictation and averaging pay.

It makes you faster, more accurate and enables you to take more dictation with less strain.

It gives you poise and confidence—a competent Stenotypist has no fear of the most rapid or technical dictation.

It takes all the guesswork out of transcribing your notes.

This new department, the most modern way for recording speech—the machine way—has just been added and we are proud to offer those interested an opportunity to learn. The opportunities at Wheeler are unlimited, as they are always up-to-date on any new methods offered students.

Enrollments are now being made, as classes begin October 15. Write for free information on STENOTYPY.

CLANTON MUSIC STUDY CLUB

On Saturday afternoon, Nov. 3, a large gathering of ladies was held in the parlor of the Exchange hotel with Miss Madelyn Orr as hostess. This meeting was held to perfect the organization of the Clanton Music Study Club.

The following were elected as officers for the coming year: Mrs. B. M. Roberts, President; Miss Kathleen Mullins, Vice-President; Miss Madelyn Orr, Federation Secretary; Mrs. John VenDerveer, Recording Secretary; Mrs. L. F. Gerald, Treasurer; Miss Della Latham, Choral Diestrector; Mrs. Percy Pitts, Accompanist. The following were appointed to act on the program committee: Mrs. Washington, Mrs. W. A. Willis, Mrs. N. S. Johnson, Mrs. J. C. Jones, Miss Morris.

The following program was carried out:

Vocal solo, Mrs. Ross.

Summary of the Opera, Il Trovature, Miss Clay.

Piano Silo, Mrs. Washington.

Discussion.

Johann Sebastian Box, By Mrs. J. C. Jones.

George Friedrich Handel, by Miss Sawyer, Mrs. Willis and Miss Kathleen Mullins.

The club is to meet on the third Tuesday of each month. Dues are $1.00 per year.

The next meeting will be held on November 23, 3 o'clock, at the home of Mrs. J. B. Atkinson.

Anyone desiring to join can either see any of the officers, or be present at the next meeting.

FOR SALE—About 60 thousand feet short leaf pine timber. Short distance south Schroder bridge, right on Jemison and Shelby road, $2.50 on lumber cut and sold.—JNO. T. ELLIS.

SIGNS YOU CAN BELIEVE IN

If your breath is bad and you have spells of swimming in the head, poor appetite, constipation and a general no-account feeling, it is a sign your liver is torpid. The one really dependable remedy for all disorders in the liver, stomach and bowels is Herbine. It acts powerfully on the liver, strengthens digestion, purifies the bowels and restores a fine feeling of energy, vim and cheerfulness. Price 60c. Sold by

VOLUME 7 — CLANTON, ALABAMA, THURSDAY NOVEMBER 15, 1928 — NUMBER 8

Alabama Student Is Shot At Jemison

Hubbard Glass Charged With Assault to Murder After Alleged Attack

Hubbard Glass, proprietor of a filling station near Jemison, Alabama, is charged with assault and inteent to kill and George Barth, of Louisville, Ky., student of the University of Alabama, is in St. Margarets Hospital with a bullet wound in his leg as a result of a volley of shots fired through the door of Glass filling station early last Friday night.

The state law enforcement department made an investigation Saturday morning following a report that no arrest had been made and the Sheriff's department of Chilton County advised that a warant charging assault with intent to murder had been preferred against Glass and he would be arrested during the day.

On Way To Montgomery

Six students traveling in two automobiles enroute to Montgomery for the Alabama-Kentucky game stopped at Glass' filling station to obtain water for one of the cars, according to the story they told in Montgomery Satrday morning. They first attempted to get water from a well nearby but found it to be dry. Then they visited the filling station.

They said they caled the proprietor and received no answer. They knocked on his door and it was replied to with a volley of shots. A bullet in the first volley took effect in Barth's leg. The students picked up their wounded companion and sought refuge in their cars. When they thought it safe to move, they went to Jemison and reported the shooting. Failing to get assistance at that place, they said by telephne d Clanton for Sheriff D. Collins and Deputy Culp. The officers arived and went to Glass' place. Before entering, the sheriff, they said, called for Will Northcutt, neighbor of Glass, so that the filling station proprietor would know he was being approached by friends.

The students waited for the officers with their automobiles, the lights of which had been turned off. During the sheriff's absence, Glass is said to have again opened fire but none of the shots took effect.

The students sought refuge in a nearby cornfield, bullets passing by them as they ran. Milton Wells, of Portland, Ore., fell as he fled and sustained a bruised knee. Wells said he heard a bullet whiz by as he struck the ground.

The officers returned with Northcutt and called to Glass. He answered and came to the front door, it is said, firing a rifle.

Glass was not arrested by the sheriff, the students said, the officer contending that he was powerless to do anything as he had no warrant. He is said to have told the students that they could take action against the filling station proprietor Saturday. One of the students said Sheriff Collins told Glass to go to Clanton Saturday.

The party came to Montgomery after the affray and sought medical assistance for Barth, who was later placed in St.Margaret's hospital.

None of the cars were Joe Stone, Clanton, Fla., and William Wilson, of Pasadena, Calif. The other was owned by D'v Engel of Jersey City, N. J. James Lawson of Scranton, Penn. Wells and Barth.

Glass Makes Statement

Glass' statement to the sheriff was that he had been robbed several times before and had moved to his filling station to protect his property. He said he heard a knock on the door after an automobile had stopped in front of his ther on the side. He believed the attempt at robbery was being made according to his statement. He returned the volley through the door without striking Barth.

Glass confirmed the report that he fired another volley after they left with the students to make investigation. No arrest was made last night, according to the law enforcement department, because no warrant had been sworn out and the man which wounded Barth had not been served in the presence of an officer. Officials contended that they had the authority to make an arrest without a warrant when the offense committed was not committed in the presence of an officer.

George Sargent, state worker Clanton, was the guest of Mr. and Mrs. E. Stapp lasa Tuesday.

Chilton High Team Again Upsets "Dope"

Battles Tuscaloosa County High Huskies To A 0-0 Tie

The Chilton County High School team again upset the "dope" and held the Tuscaloosa County High School team to a nothing and nothing tie on the local field last Friday afternoon in what is said to have been the best game ever staged on the local field.

At the beginning of the game, Chilton High received the kick off, and after making one first down, were held and compelled to kick, and when Sims got off a poor punt, the ball remained in Chilton's territory. The visitors got away with one or two nice gains via an aerial attack, but were unable to complete to punt. Chilton worked the ball back up the field again, but for only a few yards were, they were compelled to punt, and when the first quarter ended Tuscaloosa had the ball within three or four yards of Chilton's goal line.

At the beginning of the second quarter, with the ball almost to Chilton's goal line, Tuscaloosa drew a penalty for on sides after failing to gain on the first play, and on the second attempt, the visitors fumbled and Chilton recovered on her own twelve yard line.

At this stage of the game, the flashy Chilton backfield man Bill Minor, was ushered into the game, and on his first two plays he gained more than thirty yards through the line, and with the assistance of Bruner, Sims and Nelson the ball was carried into the visitors territory.

While the visitors were unable to make any great amount of yardage through Chilton's line, they made several nice gains, on end plays, but most of their gains were made as the result of forward passes. They made a wonderful impression on those present in the way they would work their aerial attacks, and a majority of their attempts were successful, only two of them being intercepted.

Chilton High only completed three forward passes in the entire game. Aside from punting and forward passing the two teams appeared equal. First downs made by both teams were about the same, as were yardage gains.

The visitors were off with each punt and seldom did a Chilton man return either a kickoff or punt but a few yards before being downed. However, the visitors were much more successful in returning both kickoff and punts

One of the features of the game was the manner in which the Chilton High line withstood the onslaught of the heavy visitors. While the entire line made a great impression on the fans, Jim Meeks was the main star especially on defensive playing, while Meeks Retherford, Gowan and Wagoner were always in there making a great fight.

Nelson again gave a good demonstration of his ability to back up the line While Simpson and Baker did not play the entire game, they gave a good account of themselves while they were playing

Fans on the side lines were high in their praise for the sportsmanlike manner nn which both teams played and many were heard to make the remark that they hoped Coach Bruner would be able to schedule more games of the high type of sportmanship displayed by the team from Tuscaloosa county. Their entire team and the fans who accompanied them made a great impression on the people of this section.

Case Against Montebaro Kin Dropped

Man Charged Jointly With Blake Freed; Settles Long Court Action

Talladega, Ala., Nov. 13.—The final chapter in the shooting of Miss Louise Montebaro, 23 year old saleswoman of Berlin, Ala., which precipitated the longest criminal proceeding in the history of the state and which was climaxed with an attack on Henry F. Blake, former Calera police chief, by Mrs. Mabel Montebarro and Miss Cecil Tubbs, mother and aunt of the girl, was written today with the announcement that charges against the woman had been nol prossed.

At the same time it was announced that charges of first degree murder against W. D. Farmer, motorcycle officer, who with Blake was charged with the girls' death, had been nol prossed.

Assistant Attorney General John J. Haynes, representing the attorney general's department, reached an agreement with county and prosecuting attorneys that the cases would be dropped, thus bringing to a close the case upon which the eyes of the state and south were focused.

NEW FORD BELONGING TO CAREY ROBINSON DAMAGED

Last Saturday night, while a box supper was in progress at the Providence School House, east of Clanton, some one cut all the tires on a new Ford car belonging to Mr. Carey Robinson, who lives near the school house.

According to information, Mr. Robinson's car was parked in front of his home, with several other cars belonging to parties who were attending the box supper. All the tires, including the spare on the rear, were cut, long gashes being cut in the sides, and the spare tire had one long gash in it. The top and the back curtain were also cut, and the cushion of the rear seat was badly damaged by the vandals. The tires were damaged beyond repair.

It appeared that after the first slashes were made, the culprit's knife or instrument used in disfiguring the car, became dull, as some of the cuts were not as deep nor long as others.

Mr. Robinson stated that he could see no reason for anyone doing this, and was very much taken back at the thought of anyone trying to injure him or his property. The crime was not discovered until Mr. Robinson and some friends had returned from the box supper. Mr. Robinson stated also, that he had already secured several clues that may lead to an arrest in the matter, and that he would leave no stone unturned in his search for the guilty party or parties.

The damage to Mr. Robinson's car, according to information, is estimated at approximately $100.00 or more.

OCE POWELL AND PARTY INJURED IN AUTO ACCIDENT

A party composed of Mr. and Mrs. Oce Powell and little daughter, and Mr. and Mrs. Lonz Parrish and little son, Wendel, were injured last Sunday afternoon, when the car in which they were riding was overturned on the Birmingham-Montgomery highway, just below Cooper, Ala.

Mr. Powell received several cuts and bruises about the face, while others of the party received minor cuts and bruises.

Mr. Powell stated that in attempting to pass another car, which was going in the same direction he was, the other car, a Ford touring, was gradually moving over to the side of the road he was on. In doing this the front bumper on the Ford caught in the rear bumper of the Chevrolet sedan which Mr. Powell was driving, causing the Chevrolet to become unmanageable.

According to witnesses the Chevrolet turned over three times before stopping. The party occupying the Ford car stopped long enough to render a small amount of assistance, according to information, and then went on their way.

The estimated damage to Mr. Powells car, according to information, is around $200.00.

C. B. COX STATES THAT HE HAS JUST STARTED PARTY FIGHT

Mr. C. B. Cox, told a representative of the News the other day just after the election that he had just started to fight for the Democratic party of this county. He also stated that he appreciated the showing made by the party in the recent election and that if the work that has been done for the past year is continued that there is no question but that the party will in the near future bring Chilton County in the Democratic column. Mr. Cox always looks on the bright side of life and takes defeat with a smile and goes on with his business affairs and keeps on for the Democratic party. Well, we're with you Charlie, to the end.

BASKET BALL GAME AT MT. PLEASANT JR HIGH SCHOOL

There will be one of the keenest fought games of basket ball on the Mt. Pleasant court on next Friday afternoon, Nov. 16, when the Baker Jr. High quintet meets the Mt. Pleasant team. This is the first game on schedule for each team, and as a keen spirit of friendly rivalry exists between the two schools, a game replete with thrills and action is assurd. The game is called at 3:30 P. M.

FIRE DESTROYS TWO MONTEVALLO BUILDINGS

Clanton Fire Truck Starts On Trip to Scene But Fails To Reach Destination

Montevallo, Ala., Nov. 13.—Officers are investigating the fire which early this morning destroyed the store of the Wilson Drug Store and the Montevallo post office. Both buildings were of brick construction. For a time the Merchants and Planters Bank was endangered but persistent work saved this building.

Assistant Postmaster C. E. Hoskins was the first to reach the scene of the blaze and states that the rear door and basement door to the drug store were both open when he arrived. The entire inside of the drug store was ablaze at this time and the building, together with the entire stock was destroyed. Practically everything was saved from the post office before the flames broke through the walls from the adjoining drug store. The post office fixtures, except a few typewriters and adding machines were burned, according to F. F. Crow, postmaster and his assistant Mr. Hoskins.

Evidence that the store had been robbed and fired is based on the fact that the safe, which was pulled from the embers later in the day, showed that the right half of the outer door was blown or removed entirely from the safe and the right half of the inner door was open. The half of the door which was found off the hinges showed no signs of breakage. The left outer

(Continued on last page)

Nettles Grocery Co. To Open Store Here

Formal Opening Day Set For Saturday, November Seventeenth

Elsewhere in this issue of the News will be found the ad of the Nettle's Grocery Company, who has opened one of their widely know grocery stores in Clanton with the home office in Montgomery, Ala.

This store is located in the building formerly occupied by W. A. Kemp on Main treet, next door to Elmore's. It is owned by an Alabama concern, handling numerous Alabama products. It will be operated by one of our local citizens, Mr. T. L. McKee, who is well and favorably known throughout this and other counties.

Mr. W. B. Howard, of Montgomery, president of the Nettle's Grocery Co., has been in Clanton this week seeing that arrangements for the opening of the store here, which is scheduled for next Saturday, November 17th, at nine o'clock, are completed in good form, which is characteristic in the opening of the Nettle's Grocery Company stores.

Mr. Howard stated to a representative of the News that all the stock in the Nettle's Grocery Company is in Alabama and that it has always been their policy to employ as much local help in their stores as possible.

The Nettle's Grocery Company chain stores are operated on the "wait-on-yourself" plan. Mr. Howard stated that there will be, on the opening day, plenty of experienced clerks to assist the customers. Souvenirs will be given the children visiting this store on this occasion, and demonstrations of National Biscuit Company cakes and crackers, Cudahy's Puritan hams, and Montala Coffee, a coffee roasted fresh in Montgomery, will be one of the features. Each of the above named concerns will have a representative at the store on next Saturday, Nov. 17, and invite everyone to attend these demonstrations.

The building in which the new grocery concern is located has, for the past week or so, been undergoing extensive repairs and remodeling on the inside. Last Monday several trucks from the home office and warehouse of the company in Montgomery, arrived with the large stock of groceries and other items carried by these stores and since then the manager and other experienced men have been arranging the fixtures of the store and making ready for the opening day, Saturday, November 17th.

A. S. STANFORD, POULTRY SPECIALIST IN TOWN AGAIN

Mr. A. S. Stanford, poultry specialist of the Central Feed Mills, is in Clanton again this week. He can be located at J. C. Jones. Call on him with your poultry problems.

MUSIC STUDY CLUB TO MEET NOVEMBER 23RD

The Clanton Music Study Club will meet on Friday afternoon November 23rd at the home of Mrs. J. B. Atkinson. The program for the afternoon is as follows:

Roll Call—Answer with current event in music.

Minutes—Business.

Paper "Shubert As A Song Writer" by Mrs. John C. Page.

Vocal Duet by Mrs. Arthur Willis and Mrs. L. C Ross.

All members are urgently requested to be present.

Mr. and Mrs. George Trotter were visitors to Mr. and Mrs. M. L. White last Tuesday.

TRAINING SCHOOLS FOR FORD GARAGE MECHANICS

Absolute uniformity of service on the new Ford Model "A" cars and Model "AA" trucks is being maintained by the Ford Motor Company through a plan which involves the training, in the Ford plants, of ten thousand garage mechanics. The Ford branch plants and the Detroit factories have assumed the character of a gigantic training school, to which every Ford dealer in the United States is sending one or more representatives.

This school for service men began with the training of superintendents and foremen of the thirty-six branch plants of the company in the U. S. Before the Model "A" Ford car was introduced, these men from the branch plants were being schooled in the Ford factories near Detroit in the manufacture and assembly of the new car. They returned to the thirty-six Ford branches and immediately began the training of men for dealers in their respective territories.

The men come in relays each group as large as the branch plant can handle conveniently. The groups are purposely kept small, in order that the most intensive training can ge given. Each man is put through the same course given the branch men at Detroit, and upon its completion is given a rigorous examination. This examination includes many points about the car which might not be considered essential from the service man's viewpoint. However, the Ford Company, is requiring complete knowledge of the car on the part of every dealer's service men. Failure to make a passing grade means that the man has to take the entire course again. If he fails a second time, he is sent back to the dealer with the suggestion that he is not considered qualified to give Ford service; wherepupon the dealer sends another man for the next training school session.

This requirement for trained service men extends to every Ford dealer no matter how small his establishment may be. Many dealers have sent two or more men to the branch for training. Upon passing the factory examination, these men return to the dealers' shops and pass on to the entire shop organizations the same careful instruction given at thebranches.

CHANGES ARE MADE FOR BETTER FARMING IN ALA.

Auburn Ala., Nov. 5.—Preparatory to bigger and better farming in Alabama next year, J. B. Wilson, extension agricultural engineer, Auburn, is now promoting—in cooperation with the county agents throughout the state—field improvements, including terracing, enlargement of fields, and the removal of stumps, trees and other things detrimental to successful farming.

"With these changes made," Mr. Wilson said, "farmers can use improved machinery to better advantage, resulting in larger production per man. And larger production per man is equivalent to larger profits per man. This is in line with general trends among farmers throughout the United States. Economic factors are forcing it and farmers who make money cannot fail to observe these forces."

Terracing, enlargement of fields, and removal of trees, stumps and racks, are all essential Mr. Wilson said. Fields are enlarged by combining two or more by the removal of hedgerows, by filling ditches and doing other things to enable operation on a larger unit basis.

Terracing not only protects fields against washing but also places land in condition to use improved implements. When trees, stumps and rocks are removed they are out of the way and the space occupied by them is usel in production without interference.

This work is being emphasized by Mr. Wilson and the county agents during the winter season when other farm work is not pressing.

SNAPPY STUFF

Joseph Moore of East Dulwich, Eng., died at the age of 100, although when only two years old physicians said he could not outlive infancy.

Thomas Hussey of Batavia, N. Y. has worn the same hat for half a century.

Geoffrey Gildans of London declared his son a "snob" and left his estate of $150,000 to nephews and nieces.

When Charles Thurstin of Chicago, was found praying on State street, he said he was "awfully drunk."

In a surburban bank in Chicago, a mouse nest made of $250 bills was found.

George Crisp, fourteen year old boy of Evanston, Ill., swam out and rescued his mother from drowning in Lake Michigan.

A titled artist of London and her husband have separated because he objected to her painting unclothed men.

Triplets were born to Mrs. Ada Farwell, aged 52, of London, her first children.

David Gleanz of Duluth lost his right ear diving through a window to escape arrest.

Mrs. Jane Mandeville of Port Crane, N. Y., will cast her first vote on her 99th birthday, thereby laying claim to being the oldest new voter in the country.

A blanket was stolen from the bed of Mrs. H. A. Gunn of Grand Rapids, while she was sleeping.

Debs Hatch, 86, of Fond Du Las, Wis., tends a garden by day and embroiders by night. He has done more than 400 pieces in colors.

Frances Burdette 63 years old, of Wayne, N. J., totally blind for 15 years, has built an eight room house for himself.

Bennett Skow, a clothier in Soldier, Iowa, who has been robbed 12 times since 1924, is quitting business.

Three postmen actually tried to deliver a letter marked "personal" and addressed to "William Shakespeare, Stratford-on-Avon, England, Europe" and a fourth marked it, "Deceased 23 April 1616," and returned it to the sender in Springfield, Mass.

Robert Berkey of Wichita, Kan., after pleading guilty to stealing a car was freed because he had a perfect Sunday School attendance for 10 years.

The will of Percy Goodban of Chiswick, Eng., contained the following provision: "As I have always had the reputation for being late for my appointments, my joke will be to be late at my funeral—and hope my friends will enjoy the joke. Make me ten minutes late." The body was carried in ten minutes after ahe funeral rites started.

Charles Parkhill of Glasgow, who annoyed Miss Ruth Evans by telephone for three years, was finally caught and adjudged insane.

Six white girls of London were married to Chinese in a single week.

Miss Cecile Cailans of Paris jilted a banker worth $10,000,000 and eloped with a chauffeur.

Henry, Elsen of Chicago asked the police to arrest his wife because she had driven him to attempt suicide twice.

Mrs. Robert Bell of Glasgow gave a party for her dog Billie on its 22nd birthday.

Mrs. Elsie Graham of Chicago was granted a divorce on offering as evidence a letter from her husband saying that "one wife means monotony."

Recovering from a broken leg, Mrs. William Finch of Evanston, Ill., fell on slippery steps and fractured the same limb.

Alderman William Gull of Blean, Eng., was fined for stealing rabbits.

Henry Rawson of Chicago testified that his breaking a chair over his wife's head was an accident.

Rather than take out life insurance policies to protect his employees F. R. Brown of Enniskillen, Ireland, elected to go to prison.

Mrs. Kate Lorsen of St. Paul asked a policemtn to carry her home because crocodiles were following hed. She was arrested for being drunk.

Blasted out of solid rock, a new "strong room" covering an area of two and a half acres has been constructed 150 feet below the Bank of Paris, in Paris.

MAPLE SPRING NEWS

Just a few lines about our Singing Society. The Maple Spring and the Poplar Spring Singing Societies met at 2:30 Sunday afternoon. The singing was called to order by the chairman, O. L. DeVaughn. After singing a few songs, he was followed by Messrs Grant, Gilliland, Yates and a visitor from Georgia. The pianists were Miss Gracie Wilson, Mrs. Toy DeVaughn and Mr. Grant. There were not many directors present, but we had a good singing and a large crowd. Our Society meets at Poplar Springs the Fourt Sunday afternoon at two o'clock. We invite everyone to come and be with us.

Mrs. Tempie Gilliand was the guest of her son Mr. Mcinley Gilliand of Birmingham, last week, returning home last Sunday.

Mr. and Mrs. Jim Berry and Miss Gantt of Elmore were the guests of Mr. W. F. Gilliand last week.

Isabella High School News

The Poe Literary Society held its regular meeting, Wednesday, Nov. 7.

The following Armistice program was effectively rendered:

Song—"Star Spangled Banner".

Prayer by Mr. Chambers.

The Meaning of Armistice by Oliver Manning.

Reading "The Flag" by Dorothy Manning.

Horrors of World War by Mr. Earl Thomas.

Patriotic Inovations by Ruth Cox.

Song—"Keep the Home Fires Burning".

The Isabella boys were outmatched by Autauga County's huskies in Prattville, Friday, Nov. 9. Both teams showed splendid sportsmanship.

Smyly Jones starred for Prattville and Penton and Griffin for Isabella.

Miss Emma Louise Jones accompanied by Misses Mary Thweatt and Gene Griffin spent the paast week end in Prattville.

Miss Emma Louise Jones delightfully entertained the Isabella football team at the home of her parents, Mr. and Mrs. J. D. Jones of Prattville.

After many games were enjoyed delicious refreshments were served.

The first game to be played on the day. Isabella vs. Marbury. It will be well worth your time to see it. Come!

ONE IN TEN

Neglecting a little wound, cut or abrasion of the flesh may in nine cases out of ten cause no great suffering or inconvenience, but it is the one case in ten that causes blood poisoning, lockjaw or a chronic festering sore. The cheapest, safest and best course is to disinfect the wound with liquid Borozone and apply the Borozone Powder to complete the healing process. Price (liquid) 30c, 60c and $1.20. Powder 30c and 60c. Sold by

A new gasoline experience—
actually—NEW MILES per gallon

IT is a fact that the *new* Texaco does give better results—measurably better. It has at once overcome the limitations of the older type of engine and enhanced the performance of the new.

You can't be mistaken. You see the record of actual miles rolling up on your speedometer. You notice the ample gasoline reserve and the fewer filling stops. Your car is the same, but the *new* and *better* Texaco is a different gasoline—more miles to the tankful.

That's the difference between dry gas and wet! The *new* and *better* Texaco, vaporizing to a dry gas, enters the cylinders and ignites instantly. It burns freely and delivers *all* its power in that split fraction of a second of the power-stroke.

Wherever you stop for gasoline, see to it that your car draws up beside the Texaco pump. Look for the Texaco Red Star and Green T.

Not WET . . . . . But DRY

ATOMIZED

A wet gas is an atomized mixture of gasoline vapor with liquid drops of raw gasoline. These drops, separating at every manifold bend, result in uneven distribution and loss of power.

A dry gas, the *new* and *better* Texaco, vaporizes completely. It is a perfect mixture of dry gasoline vapor and air which provides an even flow of fuel and power to every engine cylinder.

VAPORIZED

The crude oil in the tube on the extreme left is dark in color. Texaco refining removes *all* the dark residues (as in the middle tube), leaving the clear, golden Texaco Motor Oil in the last.

THOSE WHO COULD BEST AFFORD TO BE CARELESS SELDOM ARE

IF carelessness about lubrication were merely a matter of wasted money there are plenty of well-to-do people who would never give the matter a second thought.

But to have a car's performance on the road spoilt! That's another story, and a sad one. Swift, comfortable, silent transportation; that is what you expect from your car today, and that is precisely the condition that Texaco Motor Oil facilitates to the maximum.

But the big point, after all, that one gains at the sign of the Texaco Red Star and Green T is *—absolute certitude of clean, clear, golden motor oil of the right grade, Texaco.*

The Texas Company's refinery engineers for years sought to find methods which would remove everything from motor oil that was not lubricant.

When this super-refining was perfected the resulting oil was of a pure golden color. To have made a motor oil of real body so pure was a real triumph. The results you see and experience today every time you are supplied with golden Texaco Motor Oil.

A TRIUMPHANT DEFEAT

When we analyze the results of the election on November 6th, 1928, and reflect over the campaign and take into consideration the issues injected by the national campaign, and the strategy [illegible] were made," teach the conclusion that there is some truth in the aphorism that "There are some defeats more triumphant than victories," and especially so when we understand the full meaning of what transpired in and around the court house of this county on the evening after the polls were closed and the results of the election were coming in.

The tyrade that took place in our court house,-the Temple of Justice, if you please-on this occasion, we feel sure is no recommendation to party or its leaders, for whose benefit the affair was staged.

The Democratic nominees of our county entered the race with clean records and they waged their fights on a high plane. They emerged without blurring their records, and can today, look the world in the face and not flinch from remorse of conscience. We are proud of them and the fight they made. They made a creditable showing.

Dr. Hinkle and the other Democratic nominees offered their services to the people of the county. A majority accepted the opposition. Dr Hinkle wanted to do something for the cause of education and build good roads, and run the county on an economical basis. Those elected to the offices have an opportunity to bring to the people of the county some real progress. It is hoped that we may have more co-operation on the part of the county in building our educational system. And that competent men may be employed to take charge of the roads and the equipment for their maintenance, which will insure something in permanent road building.

The Democrats of the county have an opportunity to take their place in the affairs of the state and county and do something for their party and their government. If we corectly understand history, Chilton County has never elected a State or Federal official since its organization except a State Senator. We have men in the Democratic party of the county who are honest, capable and fitted in every respect to bring some of these honors to our county. They cannot accomplish this without the cooperation of every Democrat of the county and its going to take cooperation to put it over, but we will do it.

POULTRY SITUATION IN ALABAMA SAID TO BE GOOD

The poultry situation in Alabama, for the coming year is the best that we have had for a number of years. There is a shortage of eggs in cold storage of over a million cases, there was about 50 per cent less baby chicks sold the past spring. The U. S. Department of Agriculture tells us that there are about 10 per cent less old hens in the United States than for the past five years. This means fewer cases in storage, fifty per cent less pullets, and less hens carried over, which means high price eggs, for the coming winter.

Cull your hens, to save housing space, and to cut the feed bill. House them properly, and put them on a good laying mash. This mash should be properly balanced to give the maximum amount of eggs, without forcing for egg production, at the expense of the birds' body. The mash should have a sufficient amount of minerals to keep the birds in good health.

Minerals affect the birds in several ways:

1. Produce a permanent stiff skeleton.
2. It is an essential part of the solids
3. It is a portion of the muscular and [illegible]
4. It regulates the internal body fluids.
5. It increases the vitality and appetite of the animal.
6. It is essential and aids digestion.
7. It makes the protein in the feeds more available.
8. It lessens and prevents disease.

In selecting a laying mash care should be taken in selecting a feed that contains no milling byproducts, such as ground grain screenings. The statements ground grain screenings is often misleading as it does not mean just the screenings from the whole mill. In other words, the mill does not buy any grain screenings to add to their mashes. Screenings are indigestible fiber that the hen cannot accomodate.

A. S. Stanford, poultry specialist, Central Feed Mills.

R. T. ROBINSON THINKS PROSPECTS BRIGHT FOR PARTY

Mr. R. T. Robinson of Beat Twelve, was in Clanton this week attending to business matters. He states that the Democrats made some good gains in his beat and that if the work that has been done is continued that there is bright prospects for the future success of theparty. We are with you, Brother Robinson, let's go.

COTTON GINNED IN CHILTON COUNTY TO NOVEMBER 1

There were 13,458 bales of cotton, counting round as half bales, ginned in Chilton County, from the crop of 1928 prior to November 1, 1928, as compared with 15,548 bales ginned to November 1, 1927.

EVAN PARRISH OPENS STORE IN SYLACAUGA

Mr. Evan Parrish, who owns and operates the Southern Coal and Transfer Company here and who also operates a large fruit business here, stated this week that he had opened a fruit business in Sylacauga, Alabama.

The fruit store of Mr. Parrish in Sylacauga was opened for business last Friday, November 9. Mr. Howard Parrish who has for some time been employed in his brothers fruit store in Clanton will have charge of the store in Sylacauga.

PARTY FROM HERE ATTEND KIWANIS CONVENTION

A party from Clanton composed of Mr. and Mrs. C. E. Stapp, Mr. and Mrs. Ben Goltsman, Mr. Glenn Boyd and Mr. Percy Pitts motored to Birmingham last Friday to attend the State Convention of the Kiwanis clubs.

The Convention was held in Birmingham during last Wednesday, Thursday and Friday, at the Hollywood Country Club.

Mrs. Frank Callen Honors Husband With Stag Dinner

Mrs. Frank J. Callen honored her husband on last Tuesday evening with a stag party at their home on Fifth Street. The tables on which places were laid for twenty guests were centered with yellow chrysantheums. A four course dinner was served to the following.

Messrs Hance Alred, J. C. Page, L. F. Gerald, Napoleon Johnson, Hugh Jones Hugh Simpson, Watts Moore, Renfroe Mullins, Glenn Boyd, M. A. Gore, Eric Hart, J. C. Jones and Reedie Taylor. Messrs Jim Dunlap, Mack Broadhead, G. C. Walker, Jno. Vanderveer, John Browder and F. J. Callen

At the close of the dinner the guests presented Mr. Callen with a handsome Gladstone traveling bag.

Mrs. Armstrong and Mrs. Simpson are Joint Hostess

Mrs. Jno. Armstrong and Mrs. Hugh Simpson were joint hostess to members of the two Wednesday Bridge clubs of Clanton at the home of Mrs. Armstrong on Eight Street.

A color scheme of yellow was carried out in the decoration for the occasion. Mrs. C. Fenn Jones won high score prize ,a pretty vase. Mrs. J. C. Page won a vase as second high score prize. Mrs. V. J. Heard won the cut prize, while Mrs. Arthur Johnson was awarded the low score prize. A delicious salad plate was served the guests.

Mrs. J. Hance Alred Hostess to Circle Four of Local Church

Mrs. J. Hance Alred was hostess to Circle No. 4 last Monday afternoon at four o'clock. Baskets of various kinds of winter flowers were used in the decorations of the reception room for the occasion.

Mrs. M. B. Arant presided over the meeting, which was very interesting and enjoyable. The hostess served an three course to the following: Mesdames Grady Taylor, E. E. Upchurch, A. C. Smith, Arthur Willis, Powell, D. A. Gingard, Donally V. J. Gragg, J. H. Favor, Tom Parrish, Bama Cox, White and M. B. Arant.

Mr. and Mrs. S. J. Davenport spent Sunday and Monday with their sister, Mrs. J. S. Williams.

The Y. W. A. met with Miss Kate and McMae McNeil at the Public School auditorium Tuesday P. M. An interesting program was rendered.

Rev. Jones of Dora preachd a very interesting sermon at the Baptist church Sunday night.

NOTICE OF MORTGAGE FORECLOSURE SALE

Default having been made in the payment of the indebtedness secured by that certain mortgage executed by J. H. Shoults, and wife, Ellen Shoults, on the 28th day of October 1915, to R. W. Little, and recorded in the office of the Judge of Probate of Chilton County, Alabama, in b ook 151, at page 327, and which mortgage and the indebtedness secured thereby has been transferred to the undersigned, who will, on Monday the 26th day of November, 1928, during the legal hours of sale, in the Town of Maplesville, Alabama, acocrding t o the terms of said mortgage, offer for sale, to the highest and best bidder for cash, the following described real property, conveyed in said mortgage, to-wit:

The North Half (N 1-2) of the Northwest Quarter (NW 1-4) Section Sixteen (S-16), Township Twenty One (T-21) Range Eleven (R-11) Chilton County, Alabama, and containing eighty acres.

The proceeds of said sale will be applied in accordance with the provisions of said mortgage, as follows: (a) To pay the expenses incident to said sale, including a reasonable attorney's fee, (b) the payment of the indebtedness secured by said mortgage and (c) the balance, if any, to be turned over to the said mortgagors.

This the 24th day of October, 1928.

BUSH SHOULTS, T ransferee of said mortgage.
J. B. ATKINSON, Clanton, Ala.,
Attorney for Transferee of said Mortgage. No. 5-4 times.

NOTICE TO CONTRACTORS
S-304 COOSA-CHILTON COUNTIES

Sealed bids will be received by the State Highway Commission of Alabama at the office of the State Highway Department, Montgomery, Ala., until 10:00 o'clock A. M. December 5th, 1928, and at that time publicly opened for the construction of culverts on the road between Rockford and Verbena in Coosa-Chilton Counties.

The principal items of work are approximately as follows:

295 Cu. Yds. Class "A" Concrete.
52 Cu. Yds. Class "B" Concrete.
27000 Pounds Reinforcing Steel.
50 R. O. W. Markers.
500 Cu. Yds. Culvert Excavation.

Plans and specifications are on file in the office of the State Highway Department at Montgomery, Alabama. Any additional information may be secured from the Highway Director, Montgomery, Alabama.

The right to reject any or all bids is reserved.

Certified check for One Thousand ($1,000.00) Dollars made payable to the Highway Director of Alabama must accompany each bid as evidence of good faith and as a guarantee that if awarded contract the bidder will execute the contract and give bond as required.

Woolsey Finnell,
No. 6-3t. HIGHWAY DIRECTOR

NOTICE TO PROPERTY OWNERS

Notice is hereby given that the assessment roll or book containing the description of property and subjects of taxation located in the Town of Clanton, Alabama, for Town or Municipal taxes for the tax year of 1928, have been made by the Town Clerk of Clanton, Ala., and returned to the Town Council as provided by Sec. 2124 of the Code of Alabama, 1923, and an ordinance duly adopted by the Town Council of the Town of Clanton, Ala., on the 16th. day of October, 1928, levying a tax of five mills on each dollar's worth of taxable property in said Town for said year that the assessment of said tax has been completed, in accordance with the requirements of said Sec. and ordinance and that the Mayor and Council of the Town of Clanton, Alabama, will meet in the office of the Clerk of the Town of Clanton, Ala., on the 13th day of November at 3 o'clock P. M., 1928, to hear and determine objeections to the assessment of said tax and finally determine and pass the Assessment of said taxes.

Witness our hands this the 5th. day of November, 1928.

ERIC HART, Mayor.
J. H. PLIER, Clerk. Nov. 15-3t.

PRESERVATIVE TREATMENT HELPS TO PRESERVE TIMBER

Montgomery, Ala., Nov. 12.—One of the beneficial results of development of the preservative treatment of timber by creosoting and other methods is the complete use that can be made of smaller size material, points out the Alabama Commission of Forestry. This is especially noticeable in the decreased size of poles used for power transmission, telephone and telegraph lines.

Formerly, on account of the rapid decay of the sapwood portion of the wood, timber selected for substantial telephone and telegraph poles usually averaged from fourteen to twenty inches in diameter, at the butt. In such cases, making allowance for the quick rotting away of the sapwood, there was still a core of fairly resistant heartwood remaining. Since the general adoption of wood preserving processes, however, it has been practicable to reduce the required diameter to from eight to fourteen inches for most lines. This is because the entire thickness of the pole is given a long life by the chemical preservatives used, these preventing early decay. Not only is the amount of timber used on the line greatly reduced, but freight and installation costs are also much lower.

Mr. Clark Polk spent Saturday in Montgomery.

To the first half-million new Ford owners

TO THE half-million men and women who have received new Fords in the last eleven months, there is no need to dwell on the performance of the car.

You have tested its speed on the open road. In traffic you have noted its quick acceleration and the safety of its brakes. You know how it climbs the hills. On long trips and over rough stretches you have come to appreciate its easy-riding comfort. Continuous driving has proved its economy of operation and low cost of up-keep.

This is an invitation to you to take full advantage of the service facilities of the Ford dealer organization so that you may continue to enjoy many thousands of miles of carefree, economical motoring.

The point is this. You have a great car in the new Ford. It is simple in design, constructed of the best materials and machined with unusual accuracy. It is so well-made, in fact, that it requires surprisingly little attention. Yet that doesn't mean it should be neglected. Like every other fine piece of machinery, it will serve you better and longer if given proper care.

One of the best ways to do this is to take your car to the Ford dealer every 500 miles for oiling and greasing and a checking-up of the little things that have such a great bearing on long life and continuously good performance.

Such an inspection may mean a great deal to your car. To you it means thousands upon thousands of miles of motoring without a care—without ever lifting the hood.

Ford dealers everywhere have been specially trained and equipped to service the new Ford. You will find them prompt and reliable in their work, fair in their charges, and sincerely eager to help you get the greatest possible use from your car for the longest period at a minimum of trouble and expense. That is the true meaning of *Ford Service.*

Ford

FORD MOTOR COMPANY

"We guarantee Gold Dust and Ca-Mi-Co Flours to be Equal to, or Better than any other Flours sold in America, regardless of price"

You'll Make A Mistake

if you try to get results form other flours that you have learned to expect from Cadick's Gold Dust (It's White!) and Cadick's Ca-Mi-Co (It's White!) It just can't be done.

Stick to these flours and you're sure of "good luck" all the time in all your baking. It's a mistake to take chances.

STATE CAPITOL NEWS

Only eighteen of the 67 counties in Alabama have failed to provide protection for the health of their population through the latest figures on county health service according to the latest figures on county health organization work in the State. Alabama leads all States in public health work, and the establishment of county health units has made great strides in recent years. Today, 47 counties have health units in operation; and two others have taken the necessary steps and will begin the work in the near future—Cherokee County about December 1st, and Winston County, about Jonuary 1st The 49 organized counties embrace within their borders 80 percent of the total population of the State, and 76 per cent of the rural population. In proportion of rural population served, Alabama is well ahead of her nearest rival Ohio, the latest figures from Ohio showing 61 percent of the rural population of that State with full time county health service.

Evidence of the remarkable progress made in public health work in Alabama is shown by a comparison of present conditions with figures for only eight years ago. In 1920, Alabama had only 14 organized counties, against 49 today and in 1920 only 40 percent of the State's total population, and 28 percent of the rural population, was in counties with organized public health service.

In the establishment of county health units, a plan has been devised whereby appropriations necessary from the counties are made according to their ability to pay, thereby enabling health work to be launched without undue burden to the county. The State Board of Health gives each County making an appropriation for a county health unit a minimum sum of $2,500 annually. The Rockfeller Foundation is lending active financial aid in county health organization work in Alabam.

The eighteen counties which have not yet provided county health service are: Autauga, Bibb, Butler, Chilton, Choctaw, Clay, Coosa, Fayette, Geneva, Hale ,Henry, Marion ,Perry ,Randolph, Russell, Shelby, and St. Clair.

Some highly interesting data on Alabama's progress in wafrare against disease was given by Governor Bibb Graves, in a recent address broadcasted by radio from Chicago, Ill. There are forty States whose vital statistics are admitted to our national government registration, Alabama being one of the number. Of these forty states, only six have as low a death rate among the white population as Alabama and every one of these six states are in the sparsely populated and recently settled area west of the Missouri River. The Governor pointed out that in these newly settled states of the West, most of the inhabitants are in the meridian of life, with comparatively few infants or very old people, which accounts for their lowed death rate. "Hence our boast that for normal population there are relatively fewer deaths in Alabama from all causes among the whites, than in any other State in America and probably fewer than anywhere else in the world" the Governor stated. Gov. Graves compared the death rate of Illinois, in which State his address was delivered, with Alabama. The statistics show that Alabama has a death rate among white population of 9.4 per thousand, as compared with 11.1 for Illinois. An even greater difference in favor of Alabama is shown in the that the negro enjoys far better health in Alabama than in the colder climates to which some members of the race have migrated.

In outlining Alabama's progresss along various lines, the Governor pointed out that for the four years period of his administration, appropriations by the State for education, public negro death rate, which is 15.6 for Alobama and 24.6 for Illinois. This shows health, eleemosynary and reformatory institutions are nearly three times as great as for the preceling quadrenium, or to be exact, 288.4 percent of the similar appropriations four years ago.

"The outstanding progress we have made in education during the past year was well summarized by Commissioner Ernest W. Butterfield of New Hampshire, when he stated before the administrative section of the Department of Superintendence, at the last meeting of the National Education Association in Boston, that 'Alabama, Vermont and North Carolina had made the most significant progress educationally of any States in the Union.'

The week end followin; the national election found inhabitants of the capital city, in common with other citizens of Alabama, slowly recovering from the shock induced by the election returns. The fact that the Republicans won as usual was not much of a surprise, but the sweeping nature of their victory and particularly the smashing of the Solid South was received with profound sadness by Democrats and great glee by the Hooverites. The fact that Alabama was one of the handful of States remaining in the Democrat column gave consolation to Democrats while Republicans were elated by their crushing victory in the nation, and the good showing which thei- ticke- made in Alabama. There were many expressions and much discussion as to what effeect this election would have on the future politics in Alabama, but at this writing no one in the capitol city appears to have recuperated sufficiently to make definite prognostications. Although the Democrats lost the election, they were reported to have won most of the money bet in this State. This was due to the fact that few bets were made on the outcome of the election nationally, while Alabama was known to be close and a number of wagers on how this State would go were reported made.

MORE MILLIONS FOR IMPROVEMENT

Louisville, Ky., Nov. 7.—Our Company has just appropriated more than ten and a half millions of dollars for the acquisition of new equipment and new rail for next year.

Of this appropriation $7,800,000 represents the purchase of new equipment Included in the equipment order will be 24 heavy locomotives, 1,450 coal cars of 50 and 70 ton capacity, 750 automobile cars, 300 box cars, 12 passenger coaches, 6 baggage cars and 4 all-steel dining cars. All of this equipment will be modern design and standard capacity.

In addition to the equipment, orders have been placed for the purchase of nearly 65,000 tons of 100-pound rail at a cost of $2,700,000. Delivery of the rail is to begin at once.

During this present rather depressed period of business activity, when naturally expenditures for new investments are being curtailed in all classes of industrial activity, it is rather encouraging to know that our Company is going right along in making improvements to its property in substantially the same degree as in the past. This confidence is further accentuated by the fact that during the first eight months of 1928 the Company actually expended for new improvements a total of $7,751,000 and at that time had an unexpended balance on work already authorized and being prosecuted aggregating a total of $8,300,000.

The recent appropriation of $10,500,000 therefore makes the aggregate amount of work authorized and outstanding nearly $18,800,000.

—L. & N. Employees Magazine.

SORE Could Not Rest

Mrs. J. H. Nichols, who lives at 513 Elm Tree Lane, Lexington, Ky., says:

"Some few years ago, my health was bad. I had very severe pains in my sides. My nerves were in a terrible condition. I could not rest.

"The lower part of my body was very sore. I did not feel like eating, and did not sleep well at all at nights.

"A friend of mine recommended Cardui. I began taking it and saw quite an improvement in my condition. I kept it up until I felt strong and well."

About a year ago, Mrs. Nichols says, she found herself in a nervous, run-down condition. "I took Cardui again," she adds, "and it helped me wonderfully. It is a splendid tonic."

Cardui is a mild, medicinal tonic, made from purely vegetable ingredients.

At all druggists.

FARMERS AWAKENING TO THE FACT THAT COOPERATION PAYS

(By L. O. Brackeen)

Farmers of this county are awakening to the fact that cooperation pays, according to an announcement from the county farm bureau office here today Farmers are calling by the office as never before asking about the materials which they have to sell and to buy

Those in charge of the cooperative work have given a number of farm materials which are being handled cooperatively. Among these they mentioned fertilizer, including acid phosphate, the nitrates and potash to be home mixed according to the Auburn recommendations; basic slag for soy beans, vetch, Austrian peas and other legume crops; Ground limestone for alfalfa; dairy and poultry feeds, manufactured according to recommendations of the Alabama Polytechnic Institute; fruit trees including all sizes and varieties of apples, peaches anl pecans; shrubbery and vines for every yard and estate; spraying equipments for spraying orchards, poultry houses, cellars, truck crops, flowers and whitewash; all weights and heights of woven wire; barb wire for cattle and hog fencing; staples, nails, and wire stretchers; farm explosives, especially designed for clearing, ditching and stumping; all varieties of soy bean, hairy vetch, Austrian peas, seed oats and other miscellaneous seeds; insecticides, in cluding calcium arsenate, carbon disulphide, lime sulphur solution and black leaf 40; tankage; cooperative marketing of cotton, live stock, poultry and poultry products, hay and miscellaneous farm products.

The local agricultural workers, including the county agents, county farm bureau officials and directors, have recently agreed that farmers should not overlook an opportunity to cheapen production by securing the most economical purchases of materials that go into production of crops and live stock on farms as well as to put forth every effort possible to get higher prices.

Each nation favors disarmament provided all the others disarm first.

What FACTORIES Mean to Farmers

Alabama's farmers, more than any other group, should be interested in the industrialization of the State.

Each family in Birmingham consumes an average of approximately $800 of food products each year, according to statistics of the U. S. Department of Labor. Of these, foods to the value of $450 are or could be produced in Alabama.

Out of every dollar of average family income in Huntsville, 40c is spent for food products, the Department of Labor estimates, or 30c for those grown in Alabama.

Thus the establishment of a new industrial plant, employing say 500 new workers and creating an annual payroll of about $500,000, establishes an annual potential market for $150,000 of agricultural products that are or could be grown by the farmers of that vicinity.

Plants using farm products as raw materials are of even greater benefit to agriculture. Tuscaloosa's new condensary will purchase approximately $1,000,000 of milk each year, a sum equal to the value of a 10,000 bale crop of 20c cotton. The new kraft paper mill at Tuscaloosa will afford an annual market for something like 100,000 cords of pine wood, giving a cash value to the wood lot and making worth while reforestation and the conservation of timber on the farm.

The farmers of Alabama can assist in the industrialization of our State, and thus aid in establishing new markets for food products at home, by giving support to efforts to attract new industries to their localities.

News Happenings From Jemison

The Excelsior Literary Society of Jemison High School gave a very interesting Armistice Day program Friday morning, November 9.

Jemison High School played its first basketball game with Antioch Friday afternoon. Jemison was victorious with a score of 27 to 8.

Miss Madge Scarborough, county supervisor, visited our school this week.

The Jr. III class of Jemison High School was entertained at the home of Osteen Lenoir Saturday night, Nov. 10. Guests were received by his mother, Mrs. Lenoir, assisted by Miss Ottis Merchant. The house was beautifully decorated for the occasion with potted flowers. Games and contests were enjoyed, the prize being awarded to Miss Vonzell Atkinson, the consolation to Osteen Lenoir. At a late hour delicious refreshments were served to the following guests: Misses Marion and Josephine Adams, Irene and Vonzell Atkinson, Ottis Merchant, Ruby Abbott, Beulah Naive, Sarah Haynes, Gwendolyn and Mary Clements. Messrs Ensely Atkinson, Clyde Clements, Wilson Clements, Fred Merchant, and Reuben White.

The Jr. B. Y. P. U. was entertained with a delightful social at the home of Mary Allison Sims Saturday evening. Many games were played, being led by Miss Mary Clements, the Junior leader. Delicious refreshments were served to Misses Lola and Lois Ervin, Mary Glass, Sarah Mae Glass, Willie C. Clements, Winnie B. Davis, Charles Francis Glass, Marie Frazier, Mary Helen Hayes, Mary Nell Pate, Dulcie Hayes, Florene Robinson, Mary Allison Sims and Mary Clements. Messrs Jack Sims Joyce Howard, Murray Glass, Earl Pate, Charles Durbin, and Morris

Rev. Jones of Dora preached at the Baptist Church Monday evening.

Mrs. Dykes died at the home of her son W. H. Dykes, Friday morning. Interment was made in Mt. Olive cemetery in Shelby County.

Mr. Shelton Akers of Gorgas, Ala. visited friends here Monday night.

Mrs. Herman Peach of Birmingham visited relatives and friends here Wednesday and Thursday.

Mr. and Mrs. Paul Ousley and little son Neil, of Clanton, spent Sunday with her parents, Mr. and Mrs. A. M. Attaway.

Mr. R. M. Hubbard is improving from an illness of several days.

Mr. and Mrs. Fulton Lenoir of Bessemer spent Sunday with his parents, Mr. and Mrs. W. L. Lenoir, in the Pleasant Grove community.

Miss Nell Wells spent the week end in Birmingham with relatives and friends. She was accompanied home by Miss Audrey McCertney of Fairfield.

Misses Margie Murphy and Rubye Gulley motored to Tuscaloosa and Bellamy, to spent the week end with Miss Gulley's relatives and friends.

Mr. Arthur Chandler of Birmingham spent the week end with his parents.

Mr. and Mrs. Ben Franklin of Thorsby were in town Monday.

Miss Linnie Cline spent the week end in Birmingham with friends.

Misses Lecna Stanley and Dody Wells spent the week end in Montgomery. They attended the State Fair.

Miss Grace Salter spent the week end with her parents at Powhatan.

Mr. Leo Langston spent Sunday night in Jemison with his parents, Mr. and Mrs. J. M. Langston.

Mr. and Mrs. Herbert Wright and Herbert Jr., of Birmingham visited relatives and friends here during the week end.

Miss Muriel Washburn, who is working in Birmingham, spent the week end with her mother, Mrs. B. Washburn.

Mr. Albert Sims has accepted a position with a local firm in Birmingham.

Mr. and Mrs. J. A. Sims, Mr. and Mrs. Fred. Sims and little son, Mrs. Collum and Mary Allison Sims motored to Birmingham Sunday.

Misses Lois and Lola Erwin spent Sunday in Clanton with their grandmother, Mrs. W. F. Culpepper.

Mr. and Mrs. Raymond Hubbard and son Raymond Jr., and Mr. and Mrs. Fred Smith and daughter Dot, of Birmingham spent the week end with relatives and friends.

MAPLESVILLE NEWS

Mr. A. N. Greene of Knightston, N. C., and Mrs. Ada Potter of Maplesville were married in Clanton last Saturday at four P. M. at the home of Dr. S. J. Ezell. Only a few friends and relatives were present. Mrs. Potter has made a wide circle of friends, and Mr. Greene is a popular concrete inspector for the State Highway Dept.

James Haggard, age 14, son of Mr. J. D. Haggard, was carried to the Baptist hospital in Selma Saturday, seriously ill. We hope he will soon recover.

Miss Clennie Hagler was hostess Saturday night for the B. Y. P. U. About thirty five were present A splendid time, and delicious refreshments were enjoyed.

Mr. W. T. Cogswell Jr., of Tallassee Florida, spent last week as the guest of Mr. Worth Foshee.

Mr. and Mrs. W. B. Bankhead of Birmingham were the guests of Miss Blossom Crumpton Sunday.

Mr. H. L. Smith spent the week end in Pell City with his father.

Dr. and Mrs. Laten Parnell are the guests of Dr. and Mrs. Parnell and Mr. and Mrs. C. M. Foshee.

Dr. McNeil, presiding elder, preached a splendid sermon at the Methodist Church Sunday. Rev. G. W. Carpenter the regular pastor, preached Sunday night.

Mrs. C. N. Parnell and family motored to Montgomery Saturday.

Mrs. T. R. Williams visited friends in Georgia last week.

MULES FOR SALE

One pair mules, two-horse wagon for sale, Anyone intersted see or write W. A. FOSHEE, Clanton, Ala., Rt. 2. Nov. 15-No. 8- 2t-Pd.

MISS GERTYE MAE FOSHEE WITH ELMORE'S 5c & 10c STORE

Miss Gertye Mae Foshee, daughter of Mr. and Mrs. J. W. Foshee of Clanton, has accepted a position with V. J. Elmore's 5c, 10c, & $1.00 Store of Clanton, and assumed her duties last Monday morning, November 5.

Miss Foshee's duties will be confined to the business office of the store. According to information received in an interview with the manager of the local store, the securing of another assistant in the business was made necessary on account of the handling through the Clanton store of orders from and for the V. J. Elmore 5 and 10c & $1.00 stores located at Jasper and Wetumpka. The store at Wetumpka will open in November about the 15th, according to information.

RIFLE STOLEN

During the last few days a 22 rifle was taken from Lenoir's Drug Store in Clanton. If the party who took this gun will send it back, no questions will be asked. If it is not returned promptly the proper legal action will be taken.

TWO MONTEVALLO BUILDINGS BURNED

(Continued from first page)

and inner portions of the door were locked.

The two buildings were situated on the corner of Main Street and the street leading to the depot in Montevallo, and were completely destroyed. The fire, of unknown origin, was discovered at about 2 o'clock this morning.

According to a report of C. E. Hoskins assistant postmaster, he was awakened about 2 o'clock Tuesday morning by Miss Mabel Peters, a student at Alabama College who occupies a room facing the front of his residence, and told of the fire. Miss Peters had been awakened by the glare from the fire in the drug store, which was about 300 feet across an open block, in front of the Hoskins residence.

Clanton and Birmingham Respond

Both Clanton and Birmingham fire departments were summoned but could not arrive in time to be of aid.

P. C. Wilson, operator of the drug store, sustained a total loss. His stock and fixtures, he stated were covered by insurance up to about one-third of their value.

Chilton County Abstract Co.

M. D. FOSHEE, Manager

A good business man will not buy a farm or any property without first looking it over to see what it is worth. However, some will buy or loan money on land without an abstract.

Isn't it equally as foolish to buy a farm without looking it over as to buy it and not know whether the titles are good or not? Without an abstract you do not know where you are getting the land you look at or not.

Before investing in land in any way have an abstract made and be safe.

PROPOSED CORRECTION OF JEMISON STUDENT SHOOTING

Last Monday we received by mail from Jemison, a proposed correction of the story of the shooting of the University student by Mr. Hubbard Glass, which iccurred November 9 at Jemison.

On account of the writer failing to sign his or her name to the letter, we are unable to publish same.

All communications to this paper for publication MUST be signed. However, at the request of the writer, their name will be withheld from publication.

TWO CHAIN STORES OPEN HERE SAME DAY

Hills, Nettles, And Two I. G. A. Stores Give Clanton Four Chain Stores

Last Saturday, November 17th, marked the opening day of two widely advertised chain stores in Clanton. These stores are the Nettles Grocery Store located on Main Street, next door to Elmore's and The Clanton Cash Store, the grocery department of which has become a member of the I. G. A. stores.

Hill Grocery Store was the first chain store to open in Clanton and has been in business here approximately three years. During that time it has enjoyed a good business under the efficient management of Mr. J. W. McEachern, who has had charge since the opening of the store.

Moatts Market, a member of the I. G. A. stores owned and operated by Mr. E. I. Moatts, opened its I. G. A. grocery department some time ago However the Moatts Market is also a well established firm in Clanton, having been in operation here for several years. This store also operates a meat market.

The Nettles Grocery Company store here is under the competent management of Mr. T. L. McKee who is widely known throughout this section as a "square dealer."

The grocery department of the Clanton Cash Store, is an old and well established concern here and is owned and operated by Messrs Obie D. DeLoach and Jesse Baker. This store also has a large dry goods and ready-to-wear department.

All these chain stores reported a record-breaking crowd on last Saturday and state that business was far beyond expectations.

Mr Hubbard Griffin of Birmingham spent last Sunday with his parents, Mr. and Mrs. G. L. Griffin in the Enterprise community.

DEMOCRATS CARRY ALABAMA BY 7,021, LAST COUNT SHOWS

Montgomery, Ala., Nov. 16.—Official count shows that the Democracy carried Alabama by a majority of 7,021 votes, instead of in the neighborhood of 15,000, as had first been estimated. The first elector on each ticket was tabulated for the count. The result shows 127,796 voted for Smith and 120,725 for Hoover.

Proposed amendment No. 5, known as the drainage act, was carried by 371 votes. The official vote is given as 41,460 for the amendment and 41,089 against. All other proposed amendments were defeated.

A majority of 172 is given Judge Steele over his opponent. The official count was Steele, 6,780 and Johnson 6,608.

DR. ALLEN G. LOEHR TO SPEAK AT M. E. CHURCH

In the absence of Mr. Green, on Sunday morning, Nov. 25, Prof. Allen G. Loehr, will speak at the Methodist Church. Dr. Loehr was born in the Orient, the son of a missionary. He, himself, is a world traveler and a scholar. For several years he was a teacher in the Birmingham-Southern College, and is now engaged in editorial work. Dr. Loehr will well repay those who hear his message on conditions in the Near East.

Mr. J. H. Martin was among the visitors to Clanton last Saturday.

People Of Atlanta Praise Lamar Jeffers

Georgia Citizens Give Alabama Congressman Warm Reception

Those of us who live in Anniston and other places in this section of the state appreciate our Congressman, Major Lamar Jeffers, and prize him for his sterling qualities and worth. So it is with satisfaction that we are reminded again that he is appreciated abroad.

Major Jeffers delivered the Armistice Day address in Atlanta Sunday and made a very favorable impression on his audience. In connection with his appearance in that city, The Atlanta Constitution made the following editorial comment Monday:

"At lanta was honored in having as a guest Sunday Congressman Lamar Jeffers of Alabama, who was the main speaker of the Armistice Day exercises in this city.

"This distingushed young member of the House of Representatives, who is, by the way, one of the youngest men in that body, is a speaker of great force and charc, and is particularly fitted to speak on such a patriotic occasion by reason of his own record for distinguished services during the world war.

"He entered the late war as a captain and after being commissioned he was assigned to the 326th infantry, of the 82nd division, which was mabilized at Camp Gordon, Atlanta.

"He was wounded at St. Juring France, during the great Argonne struggle, and only one month to a day before the Armistice. He was a major at the time of his discharge from ersvice in July, 1920. He was decorated with the American Distinguished Service Cross.

"In 1921 Congressman Jeffers was elected to the unexpired term of Congressman Blackmon, who died shortly after his reelection at the fall elction of 1920. He has been reelected for each succeeding term since.

"He is the son of a Confederate veteran, and was elected in 1916 to a court clerkship in Anniston from which position he resigned in order to center the services of his country on th battle field.

"In the recent campaign Congressman Jeffers stood loyally and millitantly by the Democratic party.

"He is a splendid Southernee and is already a power in congress. A great deal more will be heard from him."—Anniston Star, Nov. 14, 1928.

MUSIC CLUB MEMBERS URGED PRESENT AT MEETING

As announced in last week's issue of the News the Music Study Club will meet on next Friday afternoon, November 23rd, at three fiftetn at the home of Mrs. J. B. Atkinson.

All members are urged to be present. A most interesting program for the afternoon has been planned.

"PARSON JACK" AND PARTY TO CONDUCT REVIVAL HERE

Clanton and Chilton County is booked for one of the largest Evangelistic Campaigns they have known for many a day according to Mr. Edward P. Fendley, advance man for the "Parson Jack" Evangelistic Campaign. Mr. Fendley was in Clanton Wednesday preparing for the opening date which is set for November 25th, and will run for two weeks. The Campaign will be run as a Union Meeting. No specific denomination will be promulgation. "This is a campaign for lost souls and reviving of Christians in general" states Mr. Fendley and he further wishes to inform all Evengelical denominations that they are urged to take part in a personal way that all candidates who present themselves for church membership will be turned over to the pastor of the church of their choosing.

The Maddox warehouse, located on the Birmingha-Montgomery highway will be used as an auditorium. Seating capacity for 100 as a choir and over 1200 in the entire house will be provided. Two pianos will be used by two gifted musicians. Mr. Winters who plays eight different instrument will be in the party. Mr. Atkins of Tennessee, known as the "sweet mountaineer singer" will be in charge of the congregational singing.

The choir will be a volunteer choir and every singer in the county who will occupy one of the chairs is urged to send their names in to Mr. Fendley, mailed to Clanton, Ala.

Burns Is Appointed Head of Kilby Prison

Shirley Will Become Candidate for Sheriff of Jefferson County

Montgomery, Ala., Nov. 19.—Governor Graves issued an order Saturday combining the positions of warden of Kilby prison and physican-inspector of convicts. Dr. R. A. Burns, who has been physical-inspector since Governor Graves took office, will also become warden of Kilby, succeding T. J. Shirley, of Birmingham, who will become a candidate for sheriff of Jefferson County in the democratic primary in 1930.

The changes will become effective on December 1. Pending the opening of the campaign for sheriff Mr. Shirley will hold a position in the office of the Jefferson county license inspector.

The changes in the prison system will be made after an investigation which has been carried on since Roy Dickerson, Ivanhoe Silva and Frank, state convicts scaled the walls of Kilby prison. Since the escapes it has been known that some changes would take place at Kilby.

Change Is Surprise

No one suspected that Governor Graves had in mind the consolidation of the positions of warden and physician-inspector's duties now keep him at ported at the capitol Saturday that the decision was logical since the physician-nspector's duties now keep him at Kilby prison. When Alabama convicts were worked under the lease system the physician-inspector visited all prison camps where he classified the men and determined what positions they were physically able to fill. In recent years all state convicts have been concentrated at Kilby prison where they have been examined and given their assignments. Dr. Burns will, therefore, be in position to supervise Kilby prison and, at the same time, carry on his work as physician-inspector.

Dr. Burns has been active in the work of the convict department since his appointment. Prior to his appointment he was mayor of Alabama City. He served in the world war as a major in the medical corps.

Former Sheriff

Warden Shirley was sheriff of Jefferson county during the four years ending in January 1927, Prior to that time he was chief of police of Jeffer-

JUDGE REYNOLDS CONFINED TO MONTGOMERY HOSPITAL

For the past several days, Judge L. H. Reynolds has been confined to the Methodist Hospital in Montgomery for treatment of a carbuncle.

At the time of this writing he is expected to return about the middle of the week.

Mr. Leonard Lowery of Thorsby, was in Clanton last Monday.

State Report Of Cotton Gins to Nov. 1

NEW POWER LINES TO SERVE AERIAL BEACONS APPROVED

Birmingham, Ala., November 22.—Construction of power lines to serve 8 aerial beacons and 3 emergency landing fields on the Atlanta-Birmingham-New Orleans air mail route was announced here today by Alabama Power Company.

The beacons to be lighted by the Power Company are located on Daviesville Mountain, in Clebourne County; on Brock Mountain, near Oxford; at Jackson Shoals, near Talladega; at Leeds, near Grant's Mill on Shades Mountain; near Hale's Spring on Shades Mountain; at Helena; and at Selma. The Ruth Elder Field, near Anniston; at Cropwell, near Pell City; and at Dogwood, near Montevallo, are the emergency fields to be lighted.

Each beacon will consist of a 1,000 watt lamp revolved by motor and two 500 watt lamps which will flash alternately in the direction of the course. The installation at the emergency landing fields will consisa of a standard beacon and about 800 watts in lights marking the confines of the field. All lights will burn from dusk to dawn and will be in charge of attendants employed by the Airways Division of the Bureau of Lighthouses, Department of Commerce.

Power Company engineers see aerial lighting as a boon to rural electrification, as many rural customers who would probably not be served for years will obtain service from the lines now under construction, and others built for this purpose in the future.

LEON SANFORD WITH SERVICE BARBER SHOP

Mr. Leon Sanford, who has, up until last Monday, been connected with the Exchange Barber Shop on Seventh Street, is now with Service Barber shop on Main Street, next door to Moore's.

Leon had charge of the fourth chair in the Exchange Barber Shop, and will now operate the fourth chair in the Service Shop. He is the son of one of the oldest active barbers in the city, and is probably the youngest barber in Clanton.

CLANTON STORE CELEBRATES ANNIVERSARY

Celebrates Each Year With Many Special New Bargains

This week, the Robinson Department Store, one of Clanton's most popular dry goods and ready-to-wear establishments, located on Main Street, is celebrating the first anniversary of their new location.

Mrs. W. C. Robinson, proprietor of the Robinson Department Store, states that one year ago they moved from their former location to their present place of business, and in viw of this fact, they are putting on a sale which is now in progress, offering to the people goods at reduced prices.

Elsewhere in this issue of the News will be found the large ad of this store calling attention to the special bargains they are offering in new coats and dresses during this sale. This sale is an annual event of this popular store.

CLANTON FIRE TRUCK REPAIRED IN RECORD TIME

Early Tuesday morning, November 13th Montevallo called for aid from Clanton when fire destroyed the Wilson Drug Store and the Post Office, and threatened the entire business district of the town.

Clanton rsponded by sending their fire truck with fire fighting apparatus. Before reaching Montevallo, the truck, a new American LaFrance truck burnt out one of its connecting rods, causing it not to reach the scene of the fire. This was caused, according to information, by the oiling system of the truck failing to function properly.

However, with immediate attention, and quick work on the part of M. C. Smith, superintendent of the local water works and Mayor Eric Hart; the fire truck was repaired and in working order soon after being disabled.

According to reports, Birmingham was also called on for aid, but did not respond.

MADISON COUNTY LEADS IN GINNINGS

Chilton Ginned 15,548 Bales Last Year; And 13,458 This Year

Madison County continues to lead in cotton ginnings in the state, according to Nov. 1 report, Department of Commerce. Industrial Jefferson County ranks lowest. Figures for the two counties are 33,532 and 600 bales respectively.

The state to Nov. 1, ginned 817,337 bales, exclusive of linters, compared with 1,085,807, same date in 1927.

Ginnings by counties and comparative figures for 1927 follow:

FOUR HONORED WITH BIRTHDAY DINNER SUNDAY

Mr. and Mrs. George Murrah were hosts on last Sunday, November 17th, at a birthday dinner, at their home on Fifth Street. The dinner was in celebration of the birthdays of Mr. George Murrah, Mr. and Mrs. Herbert W. Lowery, and Mrs. J. Eugene Gore, whose birthdays occurred within the three days of November 17th to 19th.

A bountiful dinner was served at the noon hour, and those enjoying this event were: Mr. and Mrs. J. M. (Doc) Robinson, Mr. and Mrs. Joe Mims, Mr and Mrs. George Murah and family; Mr. and Mrs. H. W Lowery and family and Mr. and Mrs. J. E. Gore and family.

Mr. Verge Klinner of Maplesville was a visitor here last Saturday.

MRS. ROMIE MILLER, CLANTON WIDOW, TAKES OWN LIFE

Kissing her father good-bye, as has been her custom when leaving the house, Mrs. Romie Miller, 36, walked to the rear porch of the home, a mile south of Clanton about 5:30 last Thursday afternoon, Nov. 15, and fired a pistol bullet into her mouth and ended her life, according to evidence obtained following the tragedy. She leaves a little daughter, 7 years old.

According to the best information obtainable, Mrs. Miller, daughter of Wiley Smith, retired business man of Clanton, fired the bullet into her brain without giving any one the slightest intimination as to the cause of her act. Attention of neighbors was attracted by the report of the pistol and upon investigation the limp body of the young widow was found on the back porch of her father's home where she has lived since the death of her husband about three years ago.

Besides her father and little daughter, Juanita, Mrs. Miller is survived by one sister, Mrs. Reuben Lowe of Clanton and four brothers, J. Lee Smith, wholesale merchant of Clanton; E. V. Smith, merchant of Clanton; Fred Smith, Elmore, Ala., and Dewey Smith of Columbiana, Ala.

Funeral services and interment took place Friday afternoon, Nov. 16th, with J. Mell Martin, local funeral director, in charge.

Next Chevrolet Will be a Six

Passing on to the motoring public the benefits of economies arising out of tremendous volume production, the Chevrolet Motor Company, today announces the "Outstanding Chevrolet of Chevrolet History—A Six in the Price Range of the Four."

In making this important announcement, W. S. Knudsen, president and general manager, points out that the sensational public reception accorded the car in recent years has enabled Chevrolet at this time to offer the added power, speed and smoothness of six cylinder performance at practically the same prices that contributed so much to the world-wide popularity of the four.

Preparations for the greatest year in its history are now being made by the Chevrolet Motor Company. Production of the new car was started last week and the company's fifteen giant factories across the country will be turning out cars to be shipped to dealers by December 15. Deliveries to the public will start January first.

Although no definite schedule has been set for 1929, Mr. Knudsen declared that production of the new car would probably exceed 1,250,000 units thereby surpassing all former records.

In its new offering Chevrolet has retained the highly successful valve-in-head principle. The motor is of the high compression type with a non-detonating head and develops 32 per cent more power than its famous predecessor; its acceleration is measurably greater and its speed has been stepped up to satisfy maximum requirements. The piston displacement is 194 cubic inches.

Despite this greatly improved performance standard, thousands of miles of testing under every road and weather conditions at the General Motors Proving ground in addition to many cross country runs, have shown that the new Chevrolet engine will operate with an economy better than 20 miles to a gallon of gasoline.

This is practically the same fuel economy enjoyed by the owners of the previous four cylinder model.

The motor develops 46 horse power at low engine speed as das a result of the automatic lubrication of the valve mechanism the motor is exceptionally quiet throughout the entire speed range.

Seven models of passenger cars and three commercial types comprise the line, which according to General Motors officials, embodies the greatest dollar value ever offered in an automobile. Included in the passenger car line are five closed and two open models. All bodies this year carry the famous Fisher stamp of craftsmanship. The commercial car line embraces a new and larger utility truck of one and one half tons capacity, a new light delivery chassis and the Sedan Delivery.

From an appearance standpoint as well as from inherent design, the car is completely new with a wide range of attractive colors and fine car appointments formerly found only on the more expensive makes.

Despite the score of advanced features, prices remain practically the same, chiefly as a result of the influence of tremendous volume production. The passenger car range is from $525 to $725, f.o.b., Flint, Mich. The prices, according to models, are as follows: Roadster, $525; phaeton $525; coach $595; coupe $595; sedan $675; sport cabriolet $695; convertible landau $725. The commercial car prices are: light delivery chassis $400; one and one half ton utility truck chassis, $545; one and one half ton utility truck chassis with cab $650 and the sedan delivery is $595. All prices are f.o.b., Flint, Michigan.

Advance showings of the new line will be held in leading cities strategically located throughout the country beginning November 24 and continuing until December 22. First deliveries to purchases will start January first. No deliveries will be made prior to that time, officials stated.

Dates and places of the special advance showings are as follows: Detroit, November 24-29; Auditorium General Motors Building; New York, November 24-29, Waldorf-Astoria Hotel; and Chevrolet Retail Store, Broadway at 57th Street; Washington, D. C., December 1-4, Mayflower Hotel; Chicago, December 1-6, Pure Oil Building, Wacker Drive and Wabash Avenue; Los Angeles, December 1-6, Auditorium Ambassador Hotel; Cincinnati, December, 8-14, Sinton Hotel; San Francisco, December, 8-13, Civic Auditorium—Larking Hall; St. Louis, December 8-14, Arcadia Ballroom, 3515 Olive Street; Atlanta, December 18-22, Auditorium—Armory; Dallas, December 18-22, Adolphus Hotel; Portland, Ore., December 18-22, Public Auditorium. All of the fregoing dates are inclusive.

In each of these places the complete passenger car line will be displayed in automobile show style. Elaborate entertainment features have been arranged for the display in each city and in every case provision will be made to accomodate the hundreds of thousands of visitors who will view the new Chevrolet line between November 24 and December 22.

Advance orders will be taken immediately following the announcement with delivery starting January first, officials stated. They also pointed out that to insure delivery early next year it would be advisable to place orders as soon as possible.

The plan of introductory showings with deliveries to follow after January first was adopted for two reasons, it was explained. In the first place, officials pointed out approximately five weeks will be required to change over the production line from the four to the six in the motor plant at Flint, Mich. Added to this was the necessity for inventory taking, which is customary at this time each year.

At the same time, R. H. Grant, vice-president of the Chevrolet Motor Company, in charge of sales, saw in this necessary five week interval an opportunity to provide the sales organization of some 30,000 dealers and salesmen with a means of profitable activity during this period when otherwise they would be comparatively idle.

The new Chevrolet, which on its debut November 24, promises to write a new chapter in motor car history, is in every sense a proved product. Four years ago Chevrolet engineers began their research work, engineering, planning and General Motors Proving Ground testing. Associated with the Chevrolet engineers were the specialized engineers of the General Motors Research Laboratories.

Night and day, in doors and out, in good weather and bad, they designed, built and tested every modern type of motor so that no opportunity would be overlooked—so that every desirable feature might be harmoniously incorporated in the new product. Perhaps a thousand ideas were considered and discussed. More than 100 different motors were built up and given exhaustive test block and road tests before the cabinet of expert engineers, presided over by O. E. Hunt, Chief Engineer of the Chevrolet Motor Company, finally approved the new Chevrolet valve-in-head six cylinder motor.

Speed, acceleration, power and smoothness, to an unusual degree, are offered in the new motor. It is of the high compression type, fully enclosed and with a non-detonating head. It has a three and five sixteenths bore and a three and three quarters inch stroke with a 194 cubic inch piston displacement.

The motor develops 32 per cent more horse power than its famous predecessor and has an abundant source of reserve power for fast getaway, heavy roads and steep grades. New features that contribute to this added power are an improved combustion chamber; a newly designed cam-shaft and four exhaust and three intake ports.

The speed has been stepped up to satisfy maximum requirements and in acceleration the new motor is vastly superior to any previous Chevrolet model. This remarkable acceleration is due partly to the use of a new accelerating pump. When the accelerator is suddenly depressed this pump forces a small quantity of gasoline into the manifold of the carburetor, giving the car the instant power and get-away so necessary in modern traffic. On actual dynamometer tests the new engine develops 46 horsepower at low engine speed. At all ordinary speeds it develops from three to four times the amount of power required to drive the car.

Tortional vibration is imperceptible at any speed through the use of a heavy 46 pound crank shaft which is perfectly balanced statically and dunamically. A further contribution to the exceptional quietness of the motor is the automatic lubrication of the entire rocker arm mechanism and of all valve operating parts, which in addition are completely enclosed.

Another advanced feature is the fuel pump which insures a positive and uniform supply of gasoline to the carburetor under all driving conditions, regardless of engine speed, load or road grade. A gasoline filter, built in as part of the fuel pump insures only clean gasoline reaching the carburetor and engine. The carburetor is further protected by a new type AC air cleaner which prevents grit and dust from entering.

There is a combustion splash and wick flow method of lubrication with the oil supplied thriugh an oil filter at the bottom of the crankcase by means of a newly designed vane type pump. There is an oil pressure guage incoporated in the new instrument panel.

Assuring maximum cooling efficiency there is a large chromium-plated Harrison honeycomb radiator with water pump and fan.

The clutch is of the single plate dry disc type and requires no lubrication.

The new rear axle is simlar in design to that used on the most expensive cars. It is of the semi-floating type with a strong, one piece, banjo-type, pressed steel housing. Six heavy duty New Departure annualar ball-bearings and extra heavy cut spiral bevel gears make for smooth driving operation.

The steering gear is semi-reversible of the ball bearing full worm and gear type. The new shaft is solid, replacing the tubular type formerly used. It is mounted in a bracket securely riveted to the frame. The beautiful seventeen inch black finish stering wheel has a rubber covered spider.

Dependable non-locking four wheel brakes with rear service brakes in two self-alingning segments contribute to the quiet, safe operating features of the car.

The service brakes on the 11-inch drums on the rear wheels are of the external contracting type and those on the front of the internal expanding style. The emergecy brake lever is conveniently located on the driver's right and operates a braking system independent of the service brakes.

Long chrome vanadium shock absorber steel springs of the semi-elliptic type are one of the factors accounting for the easy riding qualities of the new car. The springs are set parallel to the frame, assuring safety as well as comfort at all speeds. The front springs are each 36 inches in length and the rear springs 54 inches. The wheelbase is 107 inches.

Attractive new colors and a new order of beauty in Fisher body design characterizes the entire passenger car line. The high flattened hood and the gleaming chromium radiator shell supply the keynote of unusual smartness and grace. The rakish unbroken lines, emphasized by distinctively grouped louvres suggest speed and alertness. The divided body moulding and the concave front pillars reflect the vogue so widely favored by leading custom builders, while the larger, longer, lower bodies stand out as tributes to the latest advance in Fisher craftsmanship.

Appointments are the richest and most luxurious ever offered by Chevrolet. The seats are wider and more restful. The driver's seat in all the closed models is easily adjustable, forward or back, a feature recently introduced on a few of the higa-priced cars. The redesigned dash carries an attractive grouping of all control instruments indirectly lighted including the new motor temperature indicator. Rich, long-wearing upholsteries and specially designed Ternstedt hardware contribute to the enviroment of distinction.

Added safety in night driving has been accomplished through the use of a light control switch at the left of the clutch pedal. Instead of dimming the lights the same effect is attained by changing the angle of the new two-beam head lamps by pressing the floor button with the foot. Both hands meanwhile may remain on the wheel directing the course of the car.

A new body style takes its place in the new Chevrolet line, supplanting the Imperial Landau. It is the convertible landau sedan on which the rear quarter may be completely folded down. The car is finished in Crockett brown with Mistino gray belt and striped in Shalimar orange. Window mouldings are in Mistino gray with upholstering in rich mohair.

The new coach is finished in Norse gray with Helmet gray belt and is striped in Tusk ivory. Window mouldings are Helmet gray and upholstering in blue corduroy. Smart Coolie blue with Budda blue belt has been selected as the finish for the coupe. It is striped in Mountsin ash scarlet and has window mouldings in Budda blue. It is upholstered in taupe corduroy.

The sedan is finished in Huntington green with Como green belt and striped in Odyssey ivory. Window mouldings are in Como green and upholstering in green corduroy. The convertible cabriolet is finished in Trianon blue with Delphine blue belt and striping in Tusk ivory. Window mouldings are Delphine blue. The cabriolet is quickly convertible into a sport roadster by lowering the top.

The new phaeton, which has taken the place of the touring car is finished in Lush green with Zanzibar green belt. It is striped in Tusk ivory and has mouldings in Zanzabar green. The roadster is finished in Mistino gray with Estes Park gray belt. Striped in Vincinnes red, its mouldings are in Estes Park gary. The top is easily and quickly lowered. A boot for the top is provided.

All models are equipped with parabolic type headlamps, with parking bulbs, operating from the lighting swithch. A theft proof electro lock is also standard. There is a storage battery with composition case; motor driven Klaxon horn; complete tool kit; weatherproof pedal enclosure; automatic spotlight and rear vision mirror.

Both open cars have curtains that open with the doors, and a full vision windshield with weather strip and wiper. Coach, coupe, sedan, cabriolet and convertible landau are equipped with military sun visors, a Fisher VV type windshield with automatic type wiper and narrow windshield posts which eliminate blind spots. There are adjustable driver's seats in all closed models and cowl lamps on the cabriolet and convertible landau. Balloon tires, 4.50 by 20 are standard on all passenger models.

HOUSE FOR SALE

One nine-room, two-story house for sale. Two blocks from depot in Thorsby, Ala. This includes one and two-fifths acres of good land. Also varied orchard, vineyard, etc. One story partly rented. CHILTON FIGURES IN ANOTHER TIE GAME

The Chilton County High School figured in their third consecutive tie game last Friday when they battled the Centreville team to a 19-19 tie on the latters' field.

Those who attended the game from here state that the local eleven under ordinary circumstances would have easily defeated the Centreville team by at least three touchdowns.

CLANTON LODGE 423, A. F. & A. M. HOLDS MEETING

Clanton Lodge Number 423, A. F. & A. M., held a very enthusiastic meeting last Tuesday evening. The Master's degree was conferred on Charles Moore, son of Mr. and Mrs. J. Watts Moore of Clanton. Many out of town visitors were present, among them being J. S. Hubbard, S. D. Williams, and C. D. Bullard, of Verbena; Dr. F. H. Downs, C. D. Foshee, J. L. Penton and W. J. Moatts of Billingsley.

The Lodge under the leadership of Dr. A. L. Farley, Worshipful Master, is doing good work and making substantial progress. Dr. J. E. Edgar, who is one of the hard workers in the blue lodge work, conferred the Master's degree on Mr. Moore in a very proficient manner.

The Lodge meets on the first Saturday and Third Tuesday of each month, at 7:30 P. M., and visiting Masons are invited to visit the Lodge.

CHILTON HIGH TO PLAY PRATTVILLE HERE FRIDAY

On next Friday afternoon the local High School foot ball team will meet the team from Prattville on the local field.

Prattville is reported to have an unusually fast team and a real game is the prediction for the afternoon.

MRS. MARTHA COTTON

God in His great wisdom called from us Mrs. Martha Cotton, age 28, wife of Mr. Jim Cotton, on Sunday, Nov. 11, at seven ten P. M. She leaves a husband and three daughters, Myrtle, Margaret and little baby Louise, age three months, and a host of friends to mourn her loss.

Weep not, dear ones, for she is at rest. She was buried at New Salem cemetery, Monday afternoon, with Rev Hand officiating and J. Mell Martin in charge.

We loved her yes, we loved her,
But the Angels loved her more.
They have sweetly called her,
To yonder shining shore.
The Golden Gates were opened,
A gentle voice said come
And with farewells unspoken,
She calmly entered home.

A loving friend, Dolly Barrett.

NOTICE OF FILING OF REPORT OF COMMISSIONERS

The State of Alabama,
Chilton County.
PROBATE COURT, November Term, 1928.

IN THE MATTER OF THE ESTATE OF G. W. FOX, Deceased.

TO Thomas J. Smitherman, West Point, Miss., in care of Dixie Con-Construction Company;

Pearlie Mae Higgins, 5719 E. Grande Ave., Dallas, Texas.

Mary Louise Smitherman, 5719 E. Grande Ave., Dallas, Texas.

C. Corrine Foley, a non-resident of the State of Aalbama.

You are hereby notified that the commissioners appointed to appraise the estate of G. W. FOX, deceased, and to set apart and allot exemptions to the widow and minor child or children, or either, of said decendent, have filed their report in the Probate Court of said County and that the Court has appointed the 12th day of December, 1928 for hearing said report and any objections or exceptions that may be filed thereto, and to notify you that you may appear in court on that day and contest the same if you see proper

Witness my hand this 17th day of November, 1928.

No. 9-3t. L. H. REYNOLDS, Judge of Probate.

Fidelis Class Of Baptist Church Holds Meeting Tuesday

On Tuesday, Nov. 13, the Fidelis Class of the local Baptist Church met at the home of Mrs. J. R. Mullins at 7:30 o'clock.

The meeting was presided over by Pat Murphy, and was opened by singing "Happy Birthday To You", it being the president's birthday. The business was then attended to and reports from the first, second, and third vice president and from committees received.

The sick committee was instructed to find all the people in town who need help. It was decided to carry flowers, fruit and literature to Mr. and Mrs. Frank Jones.

Mrs. Ezell gave a suggestion concerning a chart for the class room. Pat was then told that she was being given a surprise party for her birthday. All members present presented a prop-ers to her.

The following members were served delicious Jello and Cake: Gertie Fig-ett, Bess Gilmore, Frances Moore, Alma Allen, Erin Danforth, Ethel Powell, Cleo Broadhead, Gladys Willis, Lillian Thompson, Cleo Roebuck, Mildred Danforth, Jewel Minor, Exie Baker, Pat Murphy and Mrs. Mullins. The visitors were Mrs. Ezell, Miss Key, Miss Pollard, Barney Burnett, Leon Sanford, Douglas Nelson, Aaron Dennis, Dock Harris, Edwin Bruner, Wallace Cox, Rucker Sims, Mitch Williams and Alvin Hinchel.

Mrs. Sam Box, Honoree At Miscellaneous Shower

One of the prettiest courtesies extended Mrs. Sam Box of Birmingham, who was before her marriage, Miss Dee Dee Reynolds of Clanton, was the Miscellaneous Shower given on last Thursday afternoon at the home of Mrs. L. H. Reynolds on Eighth Street. The entire lower floor was thrown open and was lavishly decorated with chrysantheums in which shades of yellow predominated and autumn foliage.

The guests were met at the door by Mrs. E. E. Upchurch and carried by Mrs. V. J. Elmore to the receiving line which was composed of the hostess and honoree, Mrs. W. A. Reynolds, mother of the bride, Mrs. W. W. Fox, aunt of the bride, Mrs. Percy Pitts, a sister of the bride, Miss Betty Box, of Birmingham sister-in-law of the bride and Mrs. Harry Reynolds of Birmingham.

Mrs. Claude Reynolds served punch from a beautifully appointed bowl, and Mrs. Grady Heflin presided over the bride's book. Assisting with other amenities of the occasion were Mrs. Edwin Phillips, Mrs. Guy Roberts of Birmingham and Mrs. L. C. Ross. The many lovely gifts which attested to the popularity of the bride, were beautifully displayed in the dining room where a dainty ice course was served to a large number of guests.

Mrs. L. H. Reynolds, Mr. Omar Reynolds, Mr. and Mrs. L. C. Reynolds and children spent last Sunday in Montgomery with Judge L. H. Reynolds, who is quite ill in the Memorial hospital there.

Mr. J. C. Patillo of Verbena was among the prominent visitors to Clanton last Monday.

Mr. W. T. Hand of Jemison was a business visitor to Clanton last Monday.

Mr. and Mrs. J. F. Bates and Mr. W. T. Darnell of Vincent, and Mrs. A. T. Darnell of Anniston, were the guests of Mr. and Mrs. J. B. Atkinson last Sunday.

Mr. and Mrs. Eli Gore of near Clanton were among the visitors here last Monday.

Misses Margaret Cottingham and Sara Maud Patillo of Verbena were visitors to Clanton last Saturday.

Mr. Leon Mullins of Gorgas was the guest of friends and relatives here last Sunday.

Mr. J. D. Clay of Birmingham was among the business visitors to Clanton last Monday.

Mr. and Mrs. E. E. Smith motored to Montgomery last Friday. They were accompanied by Mrs. M. Grantz, who went from Montgomery to her home in New Orleans.

Mr. E. Robinson of Verbena was among the visitors to Clanton last Saturady.

Mr. L. B Broadhead of Maplesville, was in Clanton last Saturday on business.

Mr. Leonard Nelson of Tuscaloosa visited Mr. and Mrs. T. J. Baker and family last Sunday.

Mrs Theodore Crow of Lawley was among the visitors to Clanton last Monday.

Mrs. Tip Roper and Mrs. Deramus of Maplesville were in Clanton shopping last Monday.

Miss Sadie Campbell and Miss Ruth Owen of Ft. Payne, Ala., were guests of Miss Carrie Foshee last Sunday.

Mr. Arthur Burnett, who has been located in Montgomery for some time, arrived in Clanton last Saturday and will spend some time here.

Mr. and Mrs. J. L. Webb and Mr. and Mrs Vesta Cleckler of Birmingham were guests of Mr. and Mrs. E. E. Smith last Sunday.

Mr. and Mrs A D Jones and family of Birmingham were guests of Mr. and Mrs. J. C. Jones last Sunday at their home on Eighth Street.

PIERCE-GRIFFIN

A marriage of much interest was that of Mr. Leon Pierce to Miss Essie Griffin which took place on last Sunday, November 11, at the home of Rev. S. D. DeLoach, who performed the ceremony.

The bride is the daughter of Mr. and Mrs. G. L. Griffin of the Enterprise community, and is a very popular young lady of that community.

The groom is the son of Mr. and Mrs. Clyde Pierce, also of the Enterprise community near Clanton. Only a few relatives and intimate friends of the couple were present.

COOPER P. T. A. HAS FIRST MEETING LAST THURSDAY

The Cooper Parent Teacher Association met last Thursday afternoon for its first regular meeting after organization. The attendance was good, but let's make it better. The program for the meeting was a discussion of parents and teachers on "What Parent Should Look For When They Visit School."

The next meeting will be held Wednesday, November 28, at two o'clock. Parents, your children have arranged a fine Thanksgiving program for you. Do not disappoint them. Every parent, older brothers and sisters are urged to be present.

CURIOUS CUSTOMS

Among the peculiar customs which have influenced mankind, one of the most interesting as well as amusing, is that system of religious prohibitions known as taboo. This system attained its fullest and most complicated development among the native island inhabitants of Polynesia, from Hawaii to New Zealand, but its traces may be discovered in most parts of the world, even among civilized peoples.

The word "taboo" in its ordinary sense means set apart or sacred, and the person or things so set apart were usually designated by kings, chiefs and priests. A taboo might be general or special, permanent or temporary. For example, in Hawaii, the flesh of hogs, fowls, turtle and certain kinds of fish were taboo in favor of gods and men, but were not to be eaten by women, except in special cases.

Certain periods of religious ceremonies were marked by strict taboos, during which all fires and lights were extinguished, no canoe was launched, no one bathed, no dog might bark, no pig grunt, no cock crow. The animals were caused to observe the taboo by having their mouths tied up.

In New Zealand the places where great chiefs had rested were taboo or sacred, and fences were placed around the spots, so that no one might tread thereon.

It was believed that as a penalty for the violation of certain taboos the offender would swell up and die, but the priests were able to prevent such dire consequences by performing certain mystical ceremonies for a suitable fee. Violations of a taboo were often punished by death, or at least by a sort of judicial robbery, whereby the unlucky violator was despoiled of all his property.

These are only a few of the strange customs associated with taboo and its attendant superstitions. But if we will but look around us we may discover beliefs and customs in vogue today which are not far removed from those of the native Polynesians, so far as rationaality is concerned.

UNCLE SAM PRINTER

Uncle Sam's Post Office Department which it is estimated will have a deficit of $100,000,000 during the present fiscal year, will continue in the business of competing with local printers in the furnishing of printed envelopes, having recently awarded a contract involving more than $15,000,000 in this connection.

This means that one concern will have a monopoly of this amount of gross business, a large portion of which will be diverted from country printers, who are practically the only class of business men with whom the government competes in this manner.

The injustice of this practice is all the more marked because the printing is done for an additional charge of only a few cents a thousand over the cost of the plain envelopes—a charge so small that it covers only a fraction of the cost. The envelopes alone are priced higher than necessary in order to cover a portion of the loss on printing, but the customer thinks he is getting a bargain because of this juggling of price quotations.

Having been victims of this unfair competition for half a century, it is little wonder that country editors are practically a unit in opposition to government operation of business enterprises. All fair-minded business men should assist the National Editorial Association in its effort to eliminate this Socialistic and un-American practice.

There would be as much justification for the operation of a chain of retail stores by the government as there is for the retail sale of printed envelopes in competition with local printers.

JOIN THE RED CROSS

The annual roll call of the American Red Cross is now going on. The people are familiar with the splendid work of this organization. They should be glad to be associated in such a work of mercy. The cost of annual membership is only $1 and it seems that every adult could spare two cents a week in order to keep alive an agency that does such fine work in time of disaster.

To look at the situation from a purely selfish standpoint, Clanton would look to the Red Cross for relief, if a great natural calamity should befall it. Throughout the nation other communities do the same. Year in and year out this organization responds to numerous calls for relief and only in rare cases, does it apply to the public for national assistance. In cases like the recent hurricane and the Mississippi flood, where disaster causes such wide spread suffering, the importance of a national collecting agency is invaluable.

The News urges every citizen to join the Red Cross.

STATE CAPITOL NEWS

Montgomery, Ala., Nov. 15.—Among other duties of the Governor of Alabama is that of auctioneer, the Governor acting in that role in disposing of State Bonds to bidders representing various interests in the financial world. Governor Graves filled this position in a manner which provoked keenest competition among bond buyers on Tuesday, November 13, when $7,500,000 worth of Staate Highway Bonds bearing interest at four and one-half percent were disposed of at a premium of $154,000. The sale came only after long and spirited bidding on the partt of representatives of various interests in the financial world, and was regarded as a tribut both to the high standing of Alabama securities and to the ability of the chief executive as an auctioneer. The First National Bank of Montgomery, representing an eastern financial syndicate, was the successful bidder.

Bids will be opened November 27 for the fifteen toll bridges to be erected by the Alabama Bridge Corporation under authority of an act of the last Legislature. These birdges are located on State highways and will be used as toll bridges for a sufficient time to retire bonds issued for their construction, after which they will be free public bridges. The bridges will be located at or nearing the following points: Over the Tombigbee River, five, Gainsville, Epes, Butler Jackson and the fifth in Pickens County; Tennessee River, three, Scottsboro, Guntersville, Whiteburg; Coosa three, Childersburg, Cedar Bluff and Riverside; Black Warrior, two, Demopolis and Eutaw; and Alabama, two, Camden and Claiborne.

Some highly interesting data on the work that is being done in Alabama to provide vocational training for cripples and to correct the disabilities of crippled children, was given recently by Terry C. Foster, who is secretary of the Alabama Society of crippled children, and State Supervisor of Civilian Rehabilitation. The work of saving from lives of misery children who are crippled and deformed, and of giving useful trainng to adult cripples, has been carried on in a quiet and efficient manner, with results which mean a tremendous saving to the economic welfare of the State, in addition to the benefit to the individual. The work has attracted widespread interest amnog citizens of Alabama who are interested in this humanitarian program, and many prominent Alabamians are giving active assistance in the work.

There are approximately 15,000 men, women and children in Alabama who Foster said 8,000 are children under 16 years of age; 7,000 are adults under 45. There is slightly over 1 dependent upon each adult cripple, thereby doubling the number of persons rendered economically dependent because of crippling conditions. The average earnings of adult cripples have been found to be $25.00 per month, less than enough to maintain a minimum standard of living even without dependents.

Through the cooperation of the Federal Government, Alabama and forty other states maintain a vocational training and employment service for cripples. Persons over 16 years of age, whose mental and physical capacities will permit of it are given special training in occupations at which they can work wth least handicap. 1100 have been trained in 132 different occupations during the last 6 years. Average wage after training is $75.00 per month.

Branch offices of the service are located at School Administration Building 2015-7th Avenue, Birmingham; Barton Academy, Mobile; Central High School Building, Decatur. The main office is in the State Department of Education, 501 Dexter Avenue, Montgomery.

Hundreds of those over 16 years of age could have been made practically normal and many others could have had their disabilities reduced a great deal if they could have been given surgical and corrective treatment at the time their disabilities occurred. A large number were given corrective treatment before traning. Thus a sentiment was built up in favor of physical restoration for children and adults. One of the main objects of the physical restoration program as set up under provisions of Section 25 of the Vocational Education Act was to provide preventive as well as corrective measures for cripples—adults and children. In order to bring this service to as many persons as possible diagnostic and follow up clinics have been established in 23 cities and towns covering the entire state. Clinics are conducted every six months in each center. Orthopedic surgeons who have had specialized training in bone, joint and muscle surgery make the examinations for treatment. County health units and child welfare workers cooperate. Patients are required to pay as much as they are able toward their treatment and hospital expenses. Agents of the Rehabilitation service follow up the cases in their homes and assist in securing funds for getting treatment where patient is able to pay only a part of the cost. 2026 were admitted during the last two years, 413 were operated on and 750 are under observation for prevention of deformities due to disease and other causes. The clinics are held under the auspicies of the Alabama Society for crippled children, this being an organization that serves the various State agencies and the public. Most of the funds for providing treatment are raised through membership in the society. Its membership is now about 10,000. The average cost of treatment is $100.00 per case.

NOTICE TO CAR OWNERS

You are hereby notified that unless you place new tags on your car you are liable to a fine. The fact that you have purchased the tag does not exempt you from fine unless the tag is properly displayed on your car according to law. After this date all violators of the law in regard to placing of tags on cars, will be prosecuted.—J. S. Catts, License Inspector. No. 9-1t.

KNOW Your South
and be a Partner ... in its Growth ...

Lexington
Heart of The Bluegrass

When one thinks of Kentucky, Lexington naturally comes to mind at one and the same time. For it is known wherever civilized people meet as one of the most unique and picturesque cities of the world.

And yet Lexington, with all its quaint, historic, romantic, and traditional interest, is an up-to-the-minute, modern city of 60,000 population, with exceptional industrial, commercial, and investment opportunities.

It is located in what is undoubtedly America's greatest potential manufacturing region; it is surrounded by a rich agricultural and live-stock section, and is recognized as a cultural and educational center.

The Blue Grass Region is noted for its rare scenic beauty, its luxurious country estates, its great Thoroughbred Horse-breeding establishments, its huge production of light Burley Tobacco and Blue Grass Seed.

It has been truly said that in the Blue Grass Country one may find the peaceful beauty of England, the rustic scenery of Scotland, the verdure of Ireland, the color of Spain, the sunshine of Italy, and the blue skies of Southern France. At any rate, one finds the climate ideal, the highways perfect, hotels of the best, and a friendly spirit of the people which is refreshing and very much worth while.

(Signed)
LEXINGTON BOARD OF COMMERCE

What the "OLD RELIABLE" means to LEXINGTON

Lexington enjoys the distinction of having been one terminus of the first railroad in the West—the Lexington & Ohio, chartered on January 27, 1830. This road was opened for service August 15, 1832, and the people of Lexington have enjoyed practically uninterrupted service since, or for over 96 years.

This early railroad is now a part of the L. & N.; and, through constant cooperation and the tremendous expansion of its facilities in Eastern Kentucky, the L. & N. feels it has been a very definite factor in the progress and prosperity of this thriving Blue Grass section. Over 300 citizens of Lexington are now employed by the L.&N., earning an income of over one-half million dollars yearly. The L. & N. operates 15 passenger trains into and out of Lexington each day and approximately 10 freight trains, thus affording prompt and reliable transportation service for this community.

OLD RELIABLE L&N (LOUISVILLE & NASHVILLE R.R.) M-12

The new Ford has a very simple and effective lubrication system

THE lubrication system for the engine of the new Ford is as simple in principle as water running down-hill.

A gear pump in the bottom of the oil pan raises the oil to the valve chamber reservoir. From here it flows on to the main crankshaft bearings and the front camshaft bearing. Overflow oil drops into the oil pan tray and runs into troughs through which the connecting rods pass.

As the ends of these rods strike the oil they scoop up a supply for the connecting rod bearing. At the same time they set up a fine spray that lubricates the pistons and other moving parts.

From the tray the oil runs into the bottom of the pan, and is again drawn up through a fine mesh screen and pumped to the valve chamber.

This system is so effective that the five-quart contents of the oil pan pass through the pump *twice* in every mile when you are traveling at only 30 miles an hour. Yet there is only one movable part — the oil pump.

As a matter of fact, the lubrication system for the new Ford is so simple in design and so carefully made that it requires practically no service attention.

There is just one thing for you to do, but it is a very important thing . . . *watch the oil!* Change the oil every 500 miles and be sure the indicator rod never registers below low (L).

If the oil level is allowed to fall below low, the supply becomes insufficient to oil all parts as they should be oiled.

To insure best performance it is also advisable to have the chassis of your car lubricated every 500 miles. This has been made easy in the new Ford through the use of the high pressure grease gun system.

Proper oiling and greasing mean so much to the life of your car that they should not be neglected or carelessly done.

See your Ford dealer regularly. He is especially well-fitted to lubricate the new Ford and he will do a good, thorough job at a fair price.

Williams, Cecil McKee, Conner and Woodrow Durbin, Clemon Henley.

Mr. and Mrs. Reuben Robinson spent the past week with their sister, Mrs. Susan Wagner.

Mr. and Mrs. Matthew Wagner accompanied Mr. and Mrs. Ruben Robinson home Sunday.

Mr. and Mrs. William Gilliand were guests of Mr. and Mrs. Joe Gilliand last Sunday.

Mr ad Mrs R. M. Maddox tf Birmingham motored to Fairview Saturday afternoon and were guests of Mr. and Mrs. Vaughn McKee.

MT. SPRINGS NEWS

Rev. A. C. Nelson of Eastview filled his regular appointment at Mt. Springs Saturday Saturday night and Sunday. The services were well attended We invite you to attend our Sunday School each Sunday at 2:30 P. M. and preaching each Third Saturday and Sunday. We are repairing our house of worship, and the cost is estimated at $800.00. We hope to have the building completed and painted at an early date.

There will be a working at the Church Wednesday, Thursday and Friday next. You are invited to come and help on the building. We wish to express our thanks to all who have cooperated with us in the work and have given of their money and time for the up-building of the Church.

Rev. Joseph Each of Thorsby will preach at Mt. Springs the second Sunday in December at 3 P. M. You are invited to be present at this service.

Rev. A. C. Nelson and family were guests of J. W. Coggins and family last Sunday.

Mr and Mrs. J. W. Retherford were guests of Mrs. Kilgo Sunday.

Mr. Will Giles and wife were guests of Mr Amos Moatts and family Sunday.

MT. PLEASANT NEWS ITEMS

Mr. R. B. Johnson spent a very pleasant week end with his parents, Mr. and Mrs. Johnson at Jemison.

Miss Olys Bean spent the week end with her parents, Mr. and Mrs. J. P. Bean.

The Lanierian club presented a very attractive program Friday afternoon, November 16th. Many visitors were present.

Mr. Walter Benson and family spent the week end with relatives, Mr. and Mrs. D. I. Melton and family.

Mrs. Ernest Melton and Miss Lucille Price spent a pleasant week with their mother, Mrs. Kollie Price.

Mr. Napoleon Jones spent last Sunday at Sylacauga.

A very interesting basket ball game was witnessed at Mt. Pelasant on last Friday afternoon. A large crowd was present. Baker scored six points in the first half and not any in the second. The final score was 39 and 6 infavor of Mt. Pleasant.

CARLTON AND BRAND INSTALL ELECTRIC WELDING APARATUS

Carlton and Brand, local blacksmith and repair shop operators, have recently added to their equipment a new electric portable welding outfit.

Mr. Carlton and Mr. Brand went to Birmingham last Thursday and purchased the outfit. As stated above it is portable and Mr. Carlton states that it will be much handier now to carry his equipment to a welding job, than it was before he purchased this new outfit.

LIBERAL REWARD OFFERED

I will pay a liberal reward for the return or information leading to recovery of black and white setter dog that disappeared several days ago.—LONZO PARRISH, Clanton, Ala.

MT. PLEASANT JR. HIGH DEFEATS BAKER JR. HIGH

On last Saturday afternoon, Nov. 16, the Mt. Pleasant Jr. High School basket ball team opened the season by defeating the Baker Jr. High quintet by the one-sided score of 38 to 6.

Due to the strong rivalry between the two schools, the game proved a thriller.

The Baker team fought gamely and with much confidence, but their defense could not break the nifty passwork of the Mt. Pleasant team.

Duke, the husky center, Hodgens and Edwards, forwards for Mt. Pleasant, starred on the offense, the former looping 6 field goals, Hodgens and Edwards 7 and 5 field goals respectively.

The two Cooper brothers, guards for the winning team, restricted their opponents to only a few difficult shots.

Thornton, G; Littlejohn, C, and Rich, F; for Baker registered 1 field goal each.

A large crowd witnessed the game, declaring it one of where real true sportsmanship was manifested by both teams.

Mt. Pleasant will play the Maplesville team on Wednesday afternoon, Nov. 28; on the latters court.

REQUEST FOR CHAIRS FOR REVIVAL MEETING

Who has chairs? Straw bottom chairs or any kind of old chairs that you will lend to the Revival meeting. Each chair will be tagged and you will be given a receipt for the return of same, after the meeting. Maybe you have only one. Thursday a truck will call by your home to borrow these chairs.

BAPTIST YOUNG PEOPLE TO MEET AT VERBENA, DEC. 2

The following program will be carried out at the Unity Associational B. Y. P. U. Convention, which will meet at Verbena Baptist Church, the 1st Sunday in December:

Theme—Denominational loyalty.

Sunday School.

10:30—Praise Service by Ralph Grant, Howard College.

10:40—Devotional by Ethel Traywick.

10:50—"Loyalty to My Church" by Judson Lyon of Birmingham.

11:10—"Loyalty to Christ" by Miss Clyde Merrell of Alabama College.

11:30—Music.

11:35—Convention Sermon by Dr. J. T. Williams.

12:30—Lunch.

1:30—Praise Service by Mr. Grant.

1:40—Business.

1:50—Devotional by Ralph Hughes.

2:00—Music.

2:05—"The Supreme Task of Southern Baptists" by Batson Culver.

2:15—"Loyalty to Baptist World Program," by Mr D. F. Green of Montgomery.

2:45—Dismission.

DR. EDGAR TO BE OUT OF OFFICE THANKSGIVING DAY

Dr. J. E. Edgar wishes to announce to his patrons that he will not be in his office on Thanksgiving Day, and advises you to make your appointments for dental work accordingly.

Dr. Edgar also wishes to state that he has moved his place of residence from Third Avenue north, to North Ninth Street. He is now living in the house next to that of Mr. Spurgeon Calloway. However, his home telephone number will remain the same.

SAW MILL BOILER EXPLODES; ONE KILLED; FIVE INJURED

One man was almost instantly killed and five others painfully injured last Thursday morning about eleven o'colck when the boiler of the sawmill belonging to Messrs Doug Kennedy of near Verbena and Oliver Headley of Mountain Creek, bursted.

The sawmill is located about one-half mile north of Deatsville, on the L. & N. Railroad.

The dead man is Lloyd Deavers, age 42, a mill hand. The injured are Doug Kenney, Oliver Headley, John Fuller, a sawyer, a Mr. Brown, a lumber grader and Will Holloman, fireman of the sawmill.

Holloman, the fireman, stated, according to reports that he knew of no source of the cause of the bursting of the boiler. According to information given us, there was a noise just before the accident, of steam or water escaping from the boiler, and before this could be located the boiler burst. The mill was in operation at the time of the accident.

According to information given us, hardly a piece of the boiler could be located anywhere near the saw mill, and other parts of the mill were badly damaged, if not completely destroyed.

Besides his wife, Deavers is survived also by three children, and three brothers, A. T. of near Clanton; Hubert of Deatsville and Jack of Pletcher. Also three sisters. Funeral arrangements are to be announced later.

NOTICE OF APPLICATION FOR PARDON OR PAROLE

Notice is hereby given that an application will be made for the pardon or parole of Calvin Smith, convicted in the Circuit Court of Chilton County, Alabama of Manufacturing Liquor and Possession of a Still, and sentenced on November 11th, 1927 to an indeterminate term of one year and one day to thirteen months in the penitentiary of Alabama.

No. 9-3t. CALVIN SMITH.

LOST—CAR TOOLS

Tuesday A. M., November 13th, between Verbena and Marbury. Anyone having found them please let me know.

JUDSON STROCK

CAR STOLEN

Ford car stolen. 1925 model Ford Roadster. Motor number 11603100. Tag number 95641, new tag. Stolen from Clanton on last Monday night, November 19th, between the hours of 7:30 P. M. and 10:00 P. M.

Liberal reward offered for information leading to recovery of car, or conviction of guilty party.—

LEONARD GENTRY.

No. 9-tf. Clanton, Ala.

COOPER NEWS

Mr. J. T. Allen and Miss Joanna Wise and children motored to Montgomery Sunday to visit Dr. Wise, who is in Hill's Infirmary.

Mr. Archie Taylor and sister, Miss Lucille Taylor, visited Mrs. Taylor and little son at Hills' Infirmary in Montgomery Friday.

Jannie Allen was the guest of Lucille Taylor and Bonnie Clyde Griffin Monday night.

Mr. Charlie Moore and Miss Jannie Allen motored to Wetumpka Sunday afternoon.

Mr. Alvin Mooney visited in Birmingham most of last week.

Mrs. Agnes Allen, Mr. J. T. Allen and daughter motored to Clanton Thursday afternoon.

Miss Bonnie Clyde Griffin was in Clanton on business Saturday afternoon.

Mr. and Mrs. Harrison Smith and children spent the week end at home with her mother.

Miss Carmel Smith spent Saturday night as the guest of relatives in Clanton.

BILLINGSLEY

The B. Y. P. U. Social was held at the home of Mr. and Mrs. J. C. Hughes Friday evening. Games and contests were enjoyed. Fruit punch and orange sherbert was served for refreshments. Every feature of the evening was enjoyed. The social was successfully planned by Miss Inez Patrick, chairman of the social committee.

Miss Mattie Lou Carter, who is teaching at Stony Point school, spent the week end with her parents.

Messrs Collier Marlar, Dickson and McGee of Birmingham spent two days on a hunting trip near here.

Mr. and Mrs. W. C. Wilson of Birmingham visited her parents Mr. and Mrs. J. J Traywick the past week end.

Mr. and Mrs. W. A. Gandy had as their guest Sunday, Mr and Mrs Harwell, Mrs. Ruby Harwell and sons of Plantersville.

Mrs. W. A. Powell and little daughter Dorothy, of Verbena, are visiting Mr. and Mrs. J. F. Baxter.

Dr. A. J Marlar is spending several days in Tuscaloosa with his daughter, Mrs John Pondeer and son M. C. Marlar.

Mrs. Irving Golson and children visited relatives in Birmingham last week.

MAPLESVILLE NEWS

Rev. Paul Oden filled his regular appointment at the Baptist Church Sunday.

The W. M. S. held its regular monthly meeting Monday afternoon. Mrs. J. B. in charge of the program. Mrs. Hughes of Billingsley was the guest of the W M S. She made a splendid talk in behalf of the work and the Ruby Anniversary pledge and club. This W M S hopes to send in their Ruby Club, one hundred dollars, by November 30. We are having a hen party next Monday. Those who cannot give a hen, are to give $1.00.

The president of the ladies Bible Class, Mrs. H. L. Smith, had a call meeting at the Bank, Monday afternoon, perfecting the plans for the Silver Tea Thursday afternoon at the home of Mrs. H. M. Nix.

The State Supervisor, Miss Smith, of Montgomery, and the County Supervisor of Clanton, visited the Maplesville school last Friday. We are always glad to have them visit our school.

Don't forget to come to Maplesville to the Fiddler's Convention on Thanksgiving night, November 29, all fiddlers are invited to contest.

Miss Edna Reeder of Wilton was the week end guest of Miss Lucy Parnell.

Miss Ethel Mize of Isabella was the week end guest of her parents, Mr. adn Mrs. J. O. Mize.

Miss Lucy Parnell was hostess in honor of her guest, Miss Edna Reeder, Saturday evening. The home was bautifully decorated with cut flowers for the occasion. Music and games were enjoyed throughout the evening. About fifteen guests enjoyed Miss Parnell's hospitality. Delicious refreshments were served.

The many friends of Miss Louise Pulliam will be glad to learn that she is able to attend school again, after a few days illness.

THORSBY, ALA.

"The P. T. A." of Thorsby school will meet this week, Friday afternoon, with Mrs. E. S. Howard.

Miss Mary Findul of Montgomery spent the week end with Mr. and Mrs. S. J. Davenport.

Miss Mary Sue Robinson has returned from South Highland Infirmary, where she underwent an operation.

All members of the Thorsby Baptist Church are requested to be at Sunday School next Sunday. We want to call a pastor.

Mr. and Mrs. Thomas L. Robinson spent the week with Mrs. R. M. Smith

Miss Jennye Robinson spent the week end in Birmingham.

Miss Bertha Littleton spent the week end with Mr. and Mrs. Emmett Billingsley.

Miss Jennye Robinson left Wednesday for Pensacola, Fla., and will later visit in Jacksonville, Fla., and Palatka.

Mrs. E. L. Fike, who has been sick for several days is able to be out again.

Mr. E. N. Bentley and W. L. Leary spent last week fishing.

Isabella High School News

The following miscellaneous program was presented by the Wilsonian Literary Society, Wednesday, November 15th.

Devotional by Lloyd Culp.

Imaginary trip to the Holyland by Nellie Hayes.

Life of Clara Barton by Eubie Hanrick.

Jokes by Mary Hayes.

Reading by Glynder Oden.

The only game played on the home field was played Friday, Isabella vs. Marbury. The home team was defeated with the score of 18-0. The sensational play of the afternoon was a touchdown made when Isabella fumbled and lost ball which was recovered by Dennis, who ran 50 yards for a touchdown.

The boys starring for Isabella were: Veasey, Burnette and Conaway.

From the side line the boys were cheered by peppy spirit exhibited throughout the game by the student body showing their co-operation with the team.

Saturday evening at seven-thirty the young people of Isabella assembled at the home of Mr. Buster Sexton, who was delightfully surprised with the party planned in honor of his birthday. Games and contests were enjoyed throughout the evening. Delilicious refreshments were served. After wishing Buster many happy birthdays the guests departed.

Sunday Mr. and Mrs. W. F. Deshazo entertained the younger members of the school faculty at a dinner party. Those enjoying this hospitality were: Misses Cora Belle Maddox, Alma Sexton, Ethel Mize, Mary Thweatt, Emma Louise Jones and Lucille Pope of Greenville. Messrs Albert Chambers and Lloyd Tubbs of Birmingham.

A few weeks ago an article appeared in the Isabella High News concerning the game between Verbena and Isabella. Due to thoughtlesness on the part of some this article was unwisely written and the ones who sent it in wish to retract statements made and render their apology to Verbena.

STROUD-GRIFFIN

A marriage of much inteest in this county was that of Mr. O'Neal Stroud to Miss Mavis Griffin, which took place on last Thursday afternoon, November 15th, at the home of Rev. S. D. DeLoach.

The bride is the daughter of Mr. and Mrs. G. L. Griffin of the Enterprise community near Clanton. She is a very popular member of the younger set of that community.

The groom is the son of Mr. C. B. Stroud of near Clanton.

There were only a few close friends and relatives were present at the ceremony. The happy couple will make their home in Birmingham. The News join with the many friends of the young couple in extending heartiest congratulations and best wishes.

UPSET

With Stomach Spells

"I have taken Black-Draught ever since I was a child, and can recommend it as a splendid medicine for family use," says Mrs. Cora Maberry, of Sageeyah, Okla. "My mother used it, in bringing up her family, and after I had a home of my own, I continued to use it, as I thought it was good to give the children.

"My children did not mind taking Black-Draught, and so when they got upset with stomach spells, or were constipated, I gave them Black-Draught tea.

"They are all grown now and have homes of their own, but I still keep Black-Draught in the house and use it myself when I wake up in the morning feeling dull and 'headachey', and have a bad taste in my mouth."

In use over 87 years. Price 25c.

A new gasoline experience—
actually—NEW MILES per gallon

IT is a fact that the *new* Texaco does give better results—measurably better. It has at once overcome the limitations of the older type of engine and enhanced the performance of the new.

You can't be mistaken. You see the record of actual miles rolling up on your speedometer. You notice the ample gasoline reserve and the fewer filling stops. Your car is the same, but the *new* and *better* Texaco is a different gasoline—more miles to the tankful.

That's the difference between dry gas and wet! The *new* and *better* Texaco, vaporizing to a dry gas, enters the cylinders and ignites instantly. It burns freely and delivers *all* its power in that split fraction of a second of the power-stroke.

Wherever you stop for gasoline, see to it that your car draws up beside the Texaco pump. Look for the Texaco Red Star and Green T.

Not WET . . . . . But DRY

ATOMIZED

A wet gas is an atomized mixture of gasoline vapor with liquid drops of raw gasoline. These drops, separating at every manifold bend, result in uneven distribution and loss of power.

A dry gas, the *new* and *better* Texaco, vaporizes completely. It is a perfect mixture of dry gasoline vapor and air which provides an even flow of fuel and power to every engine cylinder.

The crude oil in the tube on the extreme left is dark in color. Texaco refining removes *all* the dark residues (as in the middle tube), leaving the clear, golden Texaco Motor Oil in the last.

THOSE WHO COULD BEST AFFORD TO BE CARELESS SELDOM ARE

IF carelessness about lubrication were merely a matter of wasted money there are plenty of well-to-do people who would never give the matter a second thought.

But to have a car's performance on the road spoilt! That's another story, and a sad one. Swift, comfortable, silent transportation; that is what you expect from your car today, and that is precisely the condition that Texaco Motor Oil facilitates to the maximum.

But the big point, after all, that one gains at the sign of the Texaco Red Star and Green T is *—absolute certitude of clean, clear, golden motor oil of the right grade, Texaco.*

The Texas Company's refinery engineers for years sought to find methods which would remove everything from motor oil that was not lubricant

When this super-refining was perfected the resulting oil was of a pure golden color. To have made a motor oil of real body so pure was a real triumph. The results you see and experience today every time you are supplied with golden Texaco Motor Oil.

DIVERSIFICATION PAYS—Do it with pecan trees. You can learn how to succeed with them by writing J. B. WIGHT, Cairo, Ga.

STATE BAPTIST END 105TH ANNUAL CONVENTION

Dothan, Ala., Nov. 16.—Alabama Baptists concluded their 105th annual convention here Friday with reception of reports from special committees, an address by Bibb Mills, superintendent of the Alabama Anti-Saloon League, and devotional services conducted by Dr. John W. Phillips, of Mobile, president of the convention.

Under the promptings of Dr. Phillips the convention adjourned well in advance of its schedule. Delegates were agreed it was the most harmonious convention held by the state denomination in a decade. The 1929 convention was awarded Thursday to the First Baptist Church of Gadsden.

The convention opened Friday's session by filling several vacancies, caused by deaths, resignations and expirations of terms, on the boards of trustees of Howard College, Judson College, Alabama Baptist Hospital and Newton Institute.

ALABAMA CONFERENCE OF M. E. CHURCH SOUTH, IN SESSION

The Alabama Conference of the M. E. Church, South, is in session, Nov. 21-26, at Phenix City with Bishop Hoyt M. Dobbs presiding. Bishop Dobbs is a son of Alabama. His father, Dr. S. L. Dobbs, has for many years been an outstanding member of the North Alabama Conference. Bishop Dobbs is a graduate of the Southern University and Vanderbilt University. He holds honorary degrees from several colleges. He has held large pastorates in Anniston, Birmingham, Kansas City, and Ft. Worth. He was for several years dean of the School of Theology of the Southern Methodist University at Dallas, Texas. In 1922 he was elected bishop. For four years he had supervision of the three conferences in Brazil. Since May, 1926, he has presided over the Alabama, the north Alabama and the Florida conferences. As an administrator he is the soul of courtesy. As a preacher few are so eloquent.

NOTICE TO PROPERTY OWNERS

Notice is hereby given that the assessment roll or book containing the description of property and subjects of taxation located in the Town of Clanton, Alabama, for Town or Municipal taxes for the tax year of 1928, have been made by the Town Clerk of Clanton, Ala., and returned to the Town Council as provided by Sec. 2124 of the Code of Alabama, 1923, and an ordinance duly adopted by the Town Council of the Town of Clanton, Ala., on the 16th. day of October, 1928, levying a tax of five mills on each dollar's worth of taxable property in said Town for said year that the assessment of said tax has been completed, in accordance with the requirements of said Sec. and ordinance and that the Mayor and Council of the Town of Clanton, Alabama, will meet in the office of the Clerk of the Town of Clanton, Ala., on the 30th day of November at 3 o'clock P. M., 1928, to hear and determine objections to the assessment of said tax and finally determine and pass the Assessment of said taxes.

Witness our hands this the 5th. day of November, 1928.

ERIC HART, Mayor.
J. H. PLIER, Clerk. Nov. 15-3t.

BURNS IS APPOINTED HEAD OF KILBY PRISON

(Continued from first page)

son county. He had been regarded as one of the active applicants for the office of sheriff of Jeferson vacated by the death of Chris Hartsfield, until the attorney general ruled that the constitution prohibited him from holding the office during the term following his service in office.

Governor Graves issued the following statement regarding the transfer of Warden Shirley to the license inspecters department in Jefferson county:

"Mr. Shirley informs me that he contemplates becoming a candidate for sheriff of Jefferson county, that it would benefit his candidacy to be located at home and in view of his desires I have arranged for him a place in the license inspector's office in Birmingham.

"The fact that for his accomodation I am changing his position in the administration at his request conclusively shows that his services have been entirely satisfactory to me.

"This change is made at Mr. Shirley's instance entirely."

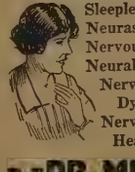
FIDDLER'S CONVENTION

What? When? Where?

A Fiddler's Convention at the White City school, Saturday night, Nov. 24th.

There wil lalso be boxes sold during the intervals. Cheer up, boys! Fill your pocket books and come along. There will be "three old maid school teachers" and others with their boxes filled to the brim.

NERVOUSNESS



Sleeplessness, Neurasthenia, Nervousness, Neuralgia Nervous Dyspepsia, Nervous Headache,

DR. MILES' NERVINE

Graves Proposes Radios For Schools

Every Courthouse In State Would Provide Public Reception of News

Montgomery, Ala., Nov. 24.—Installation of a system of radio receiving sets throughout Alabama so that all the people may receive and profit by the crop, farm, and home economics news, data, and information generally which will be broadcast over the State - Auburn-Montgomery-Birmingham radio hookup that is to go into active operation Christmas Day is sponsored by Gov. Graves, originator of this plan which he proposes to put into efefct as soon as necessary arrangements can be completed.

The governor's proposal which will be presented for action at once to the local authorities concerned is the making of needed appropriations by county commissioners or boards of revenue and county school boards in every county in Alabama for the purchase of radio sets to be placed in every county courthouse and every high school and consolidated school. These sets will transmit to the public the state's broadcast service.

Service For All

The governor stresses the point that this service is to be of, by and for the people of Alabama, to give them timely and profitable information and to tell the world the opportunity and advantages that Alabama has to offer.

P. O. Davis, of the Apburn Polytechnic Institute agricultural extension service, will undertake, through farm demonstration and home economics workers and all other interested citizens in every county, to get county governing bodies to purchase receiving sets to be placed at courthouses, where farmers, merchants, and housewives can hear the programs o be broadcast and benefit by them.

The governor himself through State Educational Department authorities will seek to have county boards of education buy receiving sets to be placed in high schools and consolidated school for the reception of these and other educational programs that will go on the air from Birmingham, Montgomery and Auburn regularly.

First With Plan

Alabama is the first state in the nation to organize a service of this kind for its citizens. One of the immediate results is expected to be the attraction of experienced farmers from other sections to this state, where they can obtain free of charge, information on crop and market quotations, which is vital to successful farming in these modern times, when the first crops and farm produce to reach the market get the top prices. The new service, it is estimated, will save Alabama hundreds of thousands of dollars annually by keeping them posted on what to grow, what they should get for it, what thebest market is to ship to and when.

Governor Enthusiastic

Gov. Graves is enthusiastic over the prospects of the tremendous good that will result from the new radio service. Not only will farmers be accurately informed concerning crops and soils, fertilization, choosing of seed, cultivation rotation of crops for best results, markets and market prices, dairying, the raising and marketing of livestock and poultry, and all others matters in which they are interested, but they will also receive up to date farm news. Warning of approaching freezes, storms and high waters will be given so that loss of property and even of life may be prevented.

The whole idea of establishing a state radio broadcasting service for all the people of Alabama originated with Gov. Graves, who in spite of many disappointments, handicaps and delays while the plan was in its formative stages, preserved until the goal was reached. Now that he has won the fight and all arrangments for the service have been completed, he urged all Alabamians to avail themselves of it for their own good as well as in the interests of the progress and development of the state as a whole.

Urges Public Sets

The reason Gov. Graves has sponsored the establishment of system of receiving sets in courthouses and in schools is because he wants every Alabamian alike to derive equal profit from the radio broadcasting of information of vital importance to them. "If a farmer is able to have a receiving set in his home, so much the better," Gov. Graves said. "But those who cannot afford sets of their own ought not

MISS CLYDE MERRELL OF ALABAMA COLLEGE

Miss Merrell is one of the principal speakers of the B. Y. P. U. Convention at Verbena, Dec. 2. She is one of the leaders of Baptist Young People's work in Alabama College. Miss Merrell recently spoke at the Baptist State Convention at Dothan, Alabama.

PAUL D. PORTER DIED SUDDENLY HERE NOV. 21

Paul D. Porter, age about 60, a representative of the Aerial Headlight Company of Chicago, Ill., died suddenly last Wednesday night, Nov. 21, while here on business.

Mr. Porter, who came to Clanton to establish headquarters for a special reflector for automobile headlights, was demonstrating the light at M. M. Pugh's Woco-Pep Service Station on that night. At about eight-thirty o'clock while at the service station, Mr. Porter had an atack of cramping around his heart, according to information. A doctor was summoned and the man was rushed to the Central Alabama Hospital where he died a short time afterwards.

Before death came, Mr. Porter stated that he had been having the spells for several years.

NEW PASTOR ASSIGNED HERE BY METHODISTS

Rev. E. A. Childs To Succeed Rev. L. B. Green At Local Church

PHENIX CITY, Nov. 26.—Appointments of presiding elders and pastors for 1929 were made Monday morning at the closing sesion of the Alabama conference Methodist Episcopal Church South.

The conference wil have one new presiding elder, N. B. McLeond, who was pastor of the Troy Methodist church last year. He was sent to the Selma district. Dr. J. M. Dannelly, completing four years as presiding elder of the Selma district, was transferred to the Troy district.

Prattville district: D. H. McNeal, presiding elder; Autaugaville, J. B. Trotter; Centerville, I. W. May; Clanton, E. A. Childs; Deatsville, Caleb Bates; East Tallassee, W. F. Floyd; Eclectic, E. M. Hohman; Fort Deposit, H. W. Williamson; Lowndsboro, H. S. Ellison; Plantersville, E. E. Stafford; Pratville, B. F. Marshall; Randolph, L. W. Tubb; Sandy Ridge, George W. Jones, supply; Tallassee, S. R. Twitty; Titus, E. H. Brown; Verbena, J. M. Metcalf; Wetumpka, J. W. Horn.

DR. S. A. BARSON FILLS REGULAR APPOINTMENT HERE

Dr. S. A. Barson, eyesight specialist of Montgomery, filled his regular appointment in Clanton last Monday. Dr. Barson stated that he has been well pleased with the patronage of the people of this section, during the time he has been coming here.

Dr. Barson has many friends in this section, who are always glad to see him. He is at the Exchange Hotel here the last Monday in each month.

Come in and see if we can help you with your next year's fertilizers.

Chilton County Farm Bureau

Chilton Wins Closing Game From Prattville

With Four Minutes to Play Local Lads Appeared Defeated But They Began To Fight and Scored Twice

The Chilton High team closed the local football schedule last Friday afternoon with a victory over the strong Prattville team, the score being 19 to 18

The game was one of nip and tuck until the last period when the visitors got away for two touchdowns, giving them a lead of twelve points. After Prattville had scored two touchdowns in the fourth period in quick running, many of the fans began leaving the field, as defeat appeared certain for Chilton, but the local lads would not accept defeat, and began life anew and turned what looked like defeat into victory.

At the beginning of the game, Chilton received the kick off, and worked the ball well into Prattville's territory, only to loose it on downs. At this stage of the game, Chilton High drew five consecutive penalties for offsides, and with a few yards gained around end, Prattville soon carried the ball into Chilton's territory, but was held for downs, and the two teams settled down to working the ball back and forth, neither getting within anything like close to the goal line in the first period.

In the second period, Chilton High made their first touchdown. This counter came as the result of long gains off tackle by Harvey Melton. This lad furnished many a thrill by his manner of hitting the line. His toating of the ball was nothing short of superb.

After Chilton made their first touchdown, Sims failed at trial for the extra point, and the half ended with the local team leading 6 to 0.

At the beginning of the second half, Prattville began an aerial attack and soon crossed the goal for their extra touchdown, but failed at their attempt for the extra point, and thus the game stood at a tie.

Early in the fourth period the visitors accounted for two more touchdowns. Chilton again drawing penalties that were great aid to them. When Bruner was knocked out, after Chilton had held Prattville where they attempted to punt, Mose Simpson came in and took Bruner's place, but when he failed to report to the referee, Chilton was penalized 15 yards, giving the visitors a first down, from where they made a pass that was turned into a touch down.

The visitors came back and made another counter in quick form, after intercepting a pass, and this gave them a lead of 12 points.

The Chilton team began a real fight for victory at this stage of the game, and worked the ball down to within two yards of the visitors goal line, but Prattville held them for downs, and when Prattville attempted to punt out of danger, Jim Roberts broke through, blocked the punt and Brown fell on the ball back of the goal line. Sims kicked goal, leaving the score 13-18, with only a few minutes to play.

Chilton received the kick off and began an aerial attack that was successful. Brown and Baker were on the receiving end of two long passes, the one Baker received being one of the prettiest plays ever seen on the local court, he having took the ball with his back to the passer, and going for a nice gain. Jim Roberts also figured in a fumbled pass that proved to be of great importance, when he recovered a fumbled pass Prattville had attempted.

Prattville presented one of the strongest defensive teams seen on the local field this season. Their backfield men were deadly tacklers.

Chilton's whole line functioned as one piece of machinery, with Retherford, Roberts, Wagner and Brown being the outstanding stars on the line.

Harvey Melton was the individual star backfield man for Chilton, though Sims, Bruner, Minor and Nelson gave a good account of themselves. Nelson was especially good on backing of the line on defensive plays, and intercepted one of Prattville's attempted passes and turned it into a nice gain for Chilton High.

The game Friday closed the schedule for Chilton, giving them a record of five victories, three ties and one defeat for the season.

DR. WILLIAM T. WISE DIED LAST SUNDAY NIGHT

Dr. William T. Wise, age 61, of Cooper, Alabama, died last Sunday night November 25th, at Hill's Infirmary in Montgomery where he had been for some time undergoing treatment. His death came following a very delicate operation.

Funeral services were held the following Tuesday morning, interment taking place in the Chestnut Creek cemetery near Cooper, with Martin in charge

Dr. Wise, who was known throughout Chilton County for his honesty, trustworthiness and reliability, has been been a resident of Cooper all of his life. He was well thought of by all who knew him. Surviving is his wife, Mrs. Joanna Levinsky Wise, and three daughters, Mary, Sarah and Ruth and also three sons, John, Bill and Jack.

CASES DISPOSED OF IN MAYOR'S COURT MONDAY

Last Monday morning, November 26, several cases were disposed of in Mayor's Court here, among them being the cases against Carlee Cleckley, charged with having stolen property in his possession. He was fined $10.00 and costs.

Ross E. Beason, age 19, giving his address as Albany, Colorado, was arrested last week, and charged with having stolen property in his possession. He was fined $10.0 and costs by Mayor Hart, and being unable to pay the fine, was sentenced to 23 days hard labor on the streets.

Beason, along with another man, giving his name as Edgar Thrasher of Ohio, were arrested, having been charged with petty larceny, following the stealing of automobile tires or tire from the car belonging to D. Y. Johnston.

Thrasher was one of the two men who escaped from the county jail here last Thursday afternoon. Beason, it is reported, refused to make his escape with his partner, and remained behind.

FIRST "DEMONSTRATION DAY" HELD IN COUNTY, NOV. 22

The first "Demonstration Day", in this county was held at the Verbena Elementary School last Thursday. The teachers of all elementary schools in this part of the county met at the school at eight o'clock. The visiting teachers saw classes taught by all of the Verbena elementary teachers.

In the afternoon a discussional meeting was held. Many valuable suggestions were given, and it is believed that every teacher was greatly benefitted. Short talks were made by our superintendent Mr. Lawrence and our supervisor Miss Scarborough.

This "Demonstration Day" is the result of the work of our very capable and efficient supervisor Miss Scarborough, who is doing some wonderful work in this county. Her fitness, helpfulness, willingness and kindness have won the admiration and respect of not only the teachers of this county, but the school children as well.

MARY JANE PATTERSON DIED LAST MONDAY NOV. 26

Mrs. Mary Jane Patterson, age 84, died at the home of her son James R. Patterson, five miles west of Verbena, last Monday November 26th.

The funeral was held the following Tuesday, interment taking place in the Bethel cemetery, with Martin in charge. The deceased is survived by several children.

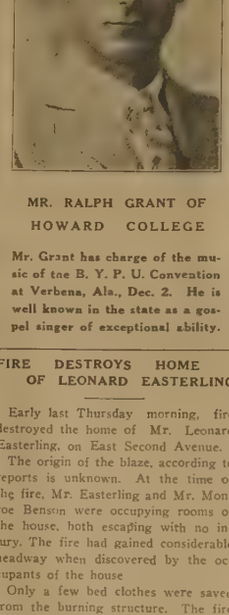
What?—Box Supper.

Everyone is invited and boys bring plenty of money and buy you a good box. There will also be a pretty girl contest. Proceeds to go for the school. No. 10-2times.



MR. RALPH GRANT OF HOWARD COLLEGE

Mr. Grant has charge of the music of the B. Y. P. U. Convention at Verbena, Ala., Dec. 2. He is well known in the state as a gospel singer of exceptional ability.

FIRE DESTROYS HOME OF LEONARD EASTERLING

Early last Thursday morning, fire destroyed the home of Mr. Leonard Easterling, on East Second Avenue.

The origin of the blaze, according to reports is unknown. At the time of the fire, Mr. Easterling and Mr. Monroe Benson were occupying rooms of the house, both escaping with no injury. The fire had gained considerable headway when discovered by the occupants of the house

Only a few bed clothes were saved from the burning structure. The fire truck answered the alarm, but was unable to do anything with the blaze which had by that time completely covered the house.

A church, of frame structure, near the Easterling house, was damaged considerably by the heat, and by fast work of volunteer firemen, the church was saved. The house was partially covered by insurance, according to information.

PIONEER CITIZEN OF CHILTON COUNTY DIES

W. T. Franklin of New Cedron Community Buried At Shiloh Cemetery Nov. 24

Mr. William Thomas Franklin, age 77, died last Friday morning, November 23rd, at his home twelve miles west of Clanton in the New Cedron community, following a lingering illness.

Funeral services were held the following Saturday morning at ten-thirty o'clock in the Shiloh Church with the Rev. M. J. Parrish conducting the services. Interment took place in the Shiloh cemetery. Active pall bearers were his four sons, J. W., W. A., J. E. and John, his grandson J. D. Weldon and one son-in-law, J. B. Coe.

The deceased was a man of sterling worth, a member of the Missionary Baptist Church for approximately fifty years. He was very active in church affairs as long as he was able, and afterwards until his death. He was a God fearing man, always thinking of the noble things of life. He had lived in the New Cedron community for approximately 70 years and had been a resident of Chilton County all of his life. He was a very progressive farmer.

Mr. Franklin had been married three times. His first wife, whom he wedded in his younger life, was before her marriage, Miss Elizabeth Mims, his second wife was Miss Allee Cox and his third wife, was before her marriage some two years ago, Mrs. Ellis Mims.

Surviving is his widow, four daughters, Mrs. Mary Price of Lomax, Ala.; Mrs. Johnnie Baker of Clanton Rt. 3; Mrs. J. B. Coe of Billingsley, Rt. 1 and Mrs. Lillie Weldon of Clanton.

Four sons, J. W. of Clanton; W. A. of Clanton; J. E. of Plantersville and John of Clanton, Route 3, besides other relatives.

MAPLESVILLE CAFE TO CHANGE HANDS NEXT MONTH

Mrs. R. R. Seals will assume charge of the City Cafe at Maplesville, next Saturday, December 1st, according to information received by us.

Mrs Seals has purchased the cafe from Mrs. R. T. Edmondson, who has been operating it for the past three years.

Kiwanians Sponsor Second Trade Day

Many Valuable Premiums Offered By Clanton Merchants

In this issue of the News will be found a large double page ad announcing the ing the second Trade Day for Clanton.

This event is the second to be sponsored by the Clanton Kiwanis Club in recent weeks, the first one having been held the latter part of last month.

The Trade Day held in October was a success beyond all expectations, and the merchants and business men were so well pleased that they are even going one better on this occasion for next week.

With anything like favorable weather, the largest crowd ever to attend a like affair is expected next Wednesday and the city officials are now preparing to care for the crowded traffic conditions expected.

Every reader of the newspapers published in Clanton is urged to read the double page ad in this issue, which gives full particulars in regard to the big event set for next Wednesday.

Merchants and business houses have been supplied with tickets, which will permit all who trade with them to participate in the awarding of the premiums next Wednesday, and these premiums are astounding, varied and valuable.

Ask the business men and merchants for your tickets when trading in Clanton.

WOMAN RECEIVES FATAL BURNS IN OPEN FIREPLACE

Birmingham, Ala., Nov. 27.—Miss Sarah McKinnon, 65, of 2301 North Thirty-Second Avenue, died early Monday as the result of burns received when she fell with a stroke of paralysis into an open fire. Miss McKinnon was reading a newspaper, standing on the hearth, when she fell, unconscious. Her clothes and the paper ignited, and she was so severely burned that death followed within a few hours.

Funeral services were to be held at 3 p. m. Monday at the Dillon chapel, with burial to follow in Elmwood Cemetery. Surviving is a brother, Dr. H. A. McKinnon, Birmingham physician, who rendered his sister medical aid after the accident Sunday.

Dr. McKinnon realized instantly that his sister was so dreadfully burned that there was no chance of recovery, so she was not removed to the hospital.

Besides Dr. McKinnon, the deceased is survived by Mr. and Mrs. W. C. Buckalew, also of Birmingham.

TWO PRISONERS ESCAPE FROM COUNTY JAIL HERE

Two prisoners, Paul Robinson and Edgar Thrasher, made their escape from the county jail here last Thursday afternoon about 3 o'clock, according to reports.

Robinson is alleged to have stolen some cotton recently and was charged with grand larcey. Thrasher, who gave his address as Ohio, wa scharged with petty larceny.

According to information given us, the two men gained escape through the two iron bar doors in the jail and from there went out through one corner of the roof of the jail, reaching the ground with the aid of an iron stand pipes beside the jail.

It is reported that several persons were witnesses to this act, and immediately notified the police who gave chase. Some few miles east of Clanton, the officers came in sight of one of the escaped prisoners, it is reported, and is believed to have wounded him, when he ailed to stop when demanded to do so by an officer. However, at th time of this writing, neither of the escapes have been caught.

Y. W. A. OF BAPTIST CHURCH HOLDS REGULAR MEETING

The Y. W. A.'s of the Clanton Baptist Church held their regular business meeting at the church on last Wednesday, Nov. 21, at five-thirty o'clock.

The meeting was opened by sentence prayer then reports were heard from all the committees, and then a scripture from the Bible was read by Miss Pat Murphy. Talks were heard from other members of the class. Delicious refreshments were served by Circle No. 5 to the following:

Misses Pat Murphy, Mary Lee Pyron, Alma Allen, Exie Baker, Erin Danforth, Bettie Mullins and Bessie Gilmore. The meeting was closed by sentence prayer.

Isabella High School News

The following program was rendered by the Poe Literary Society on last Wednesday, November 21st.

Chaplain.

"Nine From Eight Leaves Nothing," Pauline Durbin.

Spice of Life, Robert Foshee.

Debate—Resolved, That Knives are more useful than forks. Aff. Bazolean Williams and Clarence Smith, Neg. Rubye Cox and Hermon Lecroy.

The P. T. A. held it's regular meeting last Thursday, November 22nd The folowing program was rendered, Miss Cora Bele Maddox, presiding.

Thanksgiving readings, songs and stories—Elementary Grade.

Quartette—Messrs E. Thomas, Kelly Seales, Miss Emma Louise Jones and Mrs. C. N. Parnell.

Topics for discussion were Lrrd ww

Topic for discussion was, Compulsory Atendance.

Importance of Regular Attendance—Mr. J. D. Griffin.

Home Responsibility—Mrs. D. O. Manning.

Teacher's Responsibility—Mrs. A. J. Lecroy.

Delicious refreshments were served to those present.

The final football game of the season here, was played last Friday when Isabella played Selma High at Selma. Isabella was defeated by 7to 0. It was a very close game and a hard fought one. The wonderful hospitality of the Selma people was greatly appreciated.

The members of the football team have closed a very successful season, and have shown wonderful co-operation with one another. The student body also has shown wonderful co-operation in boosting the team. Coach Chambers predicts great things for the Isabella boys in the way of football, after a few more years of training It will be remembered that this is only the second year that Isabella has turned out a football team.

Miss Olivia Latham of Melville, was the week-end guest of Miss Ethel Mize and other friends at Isabla.

Miss Ruth Mize of Maplesville was the week-end guest of Miss Gene Griffin.

A six o'clock dinner was given last Saturday by Mr. and Mrs. J. D. Griffin honoring Miss Olivia Latham and Ruth Mize. Those enjoying the hospitality were: Misses Olivia Latham, Ruth Mize, Cora Belle Maddox, Ethel Mize, Lucile Pope of Greenville, Mary Thweatt, Emma Louise Jones, Gene Griffin and Messrs Robert Lee and James W. Griffin.

Mrs. A. J. Lecroy was hostess at a delightful and bountiful Sunday dinner last Sunday, honoring Miss Olivia Latham. Those enjoying this affair were; Misses Ruth Mize, Ethel Mize, Cora Belle Maddox, Emma Louise Jones, Mary Thweatt, Gene Griffin, Miss Olivia Latham and Mr. Harmon Lecroy.

MT. PLEASANT JR. HIGH IS VICTOR OVER CONCORD JR HI

The Mt. Pleasant Junior High School basketball team defeated the Concord Junior High team last Friday by the score of 19 to 9, on the former's court.

Both teams staged a clean fight for the honor of winning, but the Concord team was unable to make their shots count.

Duke, center and Hodgens, forward, starred for the winners, the former ringing up 4 and the latter 3 field goals.

The Cooper brothers and Edwards starred on the defensive for Mt. Pleasant. Concord presented a strong team, showing some nice pass work, but they were lacking in the ability to net the ball. Baker, center; Minor and Wyatt, guards for Concord, played well. Baker getting 2 field goals.

The game was a "nip and tuck' affair the first half, with Concord leading 5 to 4, but Mt. Pleasant started a rally the last half whichsent them far in the lead.

A large and cheering group of people witnessed the game.

REV. J. M. PARRISH RECEIVES MINOR INJURIES MONDAY

When attempting to ascend some steps in the rear of the Upchurch Drug Company, Rev. J. M. (Preacher) Parrish fell, causing his left arm to become dislocated.

Several scartches were received, by Rev. Parrish in the fall. He was assisted by one of the drug clerks of the store to a nearby doctor where he received attention.

Mrs. S. E. Malone and Mr. and Mrs. Joe Malone of Selma were guests of Mrs. Ludie Lenoir last Sunday.

Mr. J. E. Lett of Verbena was among the visitors to Clanton last Monday.

Mr. and Mrs. Joe M. Holladaye and two children, Mrs. Clyde Jones and Misses Mary Goodwin and Clyde Elizabeth Jones motored to Columbiana last Sunday afternoon.

Mr. and Mrs. Marcus Polk, Jr., motored to Columbiana last Sunday.

Mrs. Fannie Burkalter of Verbena was in town shopping last Monday.

MT, PLEASANT NEWS

Mr. and Mrs. David White, Mr. Almond and Napoleon Jones were guests of Mr. and Mrs. C. E. Jones this week end. Mr. Almond and Napoleon Jones returned to Sylacauga Sunday evening and Mr. and Mrs. White remained for several days with Mr. and Mrs. Jones.

A very exciting basketball game was witnessed on Mt. Pleasant's court last Friday, Nov. 23rd. Both teams fought hard, but the final score left the victory again at home. The opposing team was from Concord.

Miss Ida Bell White and Mrs. Mattie White spent a very pleasant week end in Birmingham.

The Shakespearian Club presented a very attractive Thanksgiving program at the Mt. Pleasant Junior High school on Friday, Nov. 23rd.

Mr. Tom Franklin died last Friday. The funeral services were held in Shiloh cemetery.

Miss Mary Heinige will spent Tuesday night at the home of Mr. and Mrs. J. P. Bean, enroute to her home for the Thanksgiving holidays.

Miss Ethel Gentry will spend Thanks giving at her home in Mt. Creek.

Mr. R. B. Johnson will spend the Thanksgiving holidays with his parents in Jemison.

BILLINGSLEY

Dr. W. R. Seymore delivered two splendid sermons at the Baptist Church Sunday. The 11:00 o'clock hour was a Thanksgiving service, which was indeed impressive. At 3 o'clock his subject was "Those Who Do Not Care".

Mrs. L. C Harrell returned to her home in Barnesville, Ga., after a visit with her parents, Mr. and Mrs. J. W. Patillo. Her father accompanied her.

Mr. and Mrs. K. F Downs motored to Birmingham Friday and spent the day shopping.

Mr. and Mrs. T. W. Willis and family of Jones, were the guests of relatives here the past week end.

Mrs. J. F. Apperson spent Sunday afternoon with her mother, Mrs. Roper in Clanton.

Mr. and Mrs. U. S. Nnnmy and children of Birmingham spent the past week end here.

"The Sweet Family" will be at the school auditorium Saturday night, Dec. 8th. An evening of wholesome fun awaits you. Auspicies of W. M. U.

MULES FOR SALE

One pair mules, two-horse wagon for sale. Anyone interested see or write W. A. FOSHEE, Clanton, Ala., Rt. 2. Nov. 15-No. 8- 2t-Pd.

NORRIS-GLENN MARRIAGE IS OF MUCH INTEREST

The marriage of Mr. Perry Norris of Verbena to Miss Thelma Glenn of Mt. Creek, which took place last Sunday, afternoon, November 25th is of wide interest as both the bride and groom are well known throughout this section.

The ceremony was performed at the home of the bride's parents, Mr. and Mrs. C. G. Glenn by the Rev. Arthur DeLoach of Verbena, Alabama, with only a few relatives and intimate friends present.

The bride is the charming daughter of Mr. and Mrs. C. G. Glenn of Mt. Creek, Alabama, and is one of the most popular members of the younger set of that section of the county.

The groom is the son of Rev. and Mrs. Ephriam Norris of Verbena, and holds a responsible position with the L. & N. Railroad. The happy young couple left for Birmingham immediately after the ceremony. They will return shortly to Verbena.

REPORT OF R. F. MIMS, MAPLESVILLE, RT. 2, TO COUNTY AGENT OF VALUE OF MAGNESIUM ARSENATE SPRAY AS CONTROLLING AGENT FOR BEAN BEETLE.

Mr. Mims reports that he had three fourths acres in Fall bunch beans and through the use of three pounds of Magnesium Arsenate to one hundred gallons of water as was recommended by the County Agent, he was able to completely control the bettle, and sold $90.00 worth of beans from three-

GRAVES ISSUES THANKSGIVING DAY PROCLAMATION

Montgomery, Ala., Nov. 27.— By proclamation of Gov. Bibb Graves, issued yesterday, Thursday will be observed throughout Alabama as Thanksgiving Day. On that day, the governor urges that all citizens offer up reverent thanks to the Almighty God for the many blessings that have come to this Statae and its people during the past year. Following is the text of his proclamation:

"Following the custom of our fathers and in accordance with the law of this state, I, Bibb Graves, governor, do here by appoint and set apart Thursday, the 29th day of November 1928, as a day of public thanksgiving and prayer.

"Let us on that day in our churches, our schools and our homes, give thanks to Almighty God for our manifold blessings, our harvests, freedom from epidemic, serious strife and other calamities within our borders. Holding in grateful remembrance all these mercies, and many more unexpressed, let us face the future with a broader vision and a clearer faith, sensible of the opportunities and responsibilities awaiting us as a state and nation, and let us dedicate ourselves anew to unselfish, wholehearted, consecrated service."

CARD OF THANKS

We want to heartily thank our many friends for their kindness and sympathy shown us at the death of our daughter and sister, especially do we thank Rev. Ezell and Mr. Martin for their services.—J. W. Smith and family

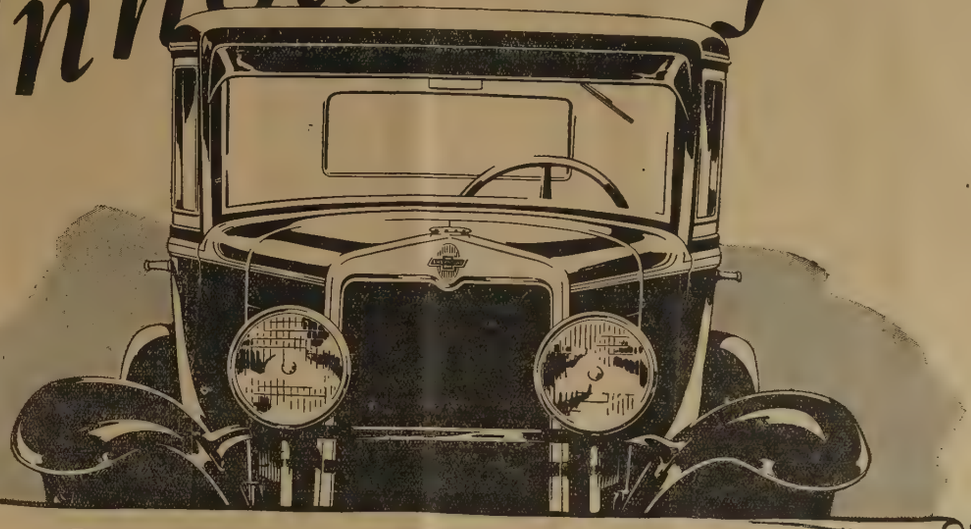
Announcing –



The Outstanding Chevrolet of Chevrolet History

– a Six in the price range of the four!

The Chevrolet Motor Company announces The Outstanding Chevrolet of Chevrolet History . . . a Six in the price range of the four!

Spectacular as Chevrolet's achievements have been in the past . . . notable as its engineering triumphs have proved themselves to be—this remarkable new car dwarfs every previous Chevrolet accomplishment. Not only does it introduce into the low-priced field an entirely new measure of performance, comfort, beauty and style—but it is sold at prices so low as to alter every previous conception of motor car value.

The new six-cylinder valve-in-head engine—developed from more than a hundred motors designed especially for this sensational car—stands out as an engineering masterpiece. With a power increase of approximately 32% over the previous Chevrolet motor, with sensationally greater speed, and faster acceleration—it offers a type of performance that is literally astounding . . . even to those who have been driving cars costing hundreds of dollars more.

Throughout the entire speed range, it performs with a smoothness and quietness of operation that have never before been approached in a low-priced automobile. At the slower speeds of city traffic it idles along with wonderful silence and ease. On boulevards and country roads it responds with an eagerness that is a constant delight. It takes the longest and steepest hills with an abundant reserve of power that is a source of pride to the driver. And its economy of operation averages *better than 20 miles to the gallon of gasoline!*

This revolutionary performance has been achieved as a result of the greatest array of engineering advancements that Chevrolet has ever announced. A high compression, non-detonating cylinder head . . . a new heavier crankshaft, statically and dynamically balanced . . . automatic lubrication of the entire rocker arm mechanism . . . semi-automatic spark control . . . hot-spot manifold . . . gasoline pump and filter . . . new and larger carburetor, with automatic acceleration pump and improved venturi choke . . . fabric camshaft gear . . . heavier driving gears . . . heavier differential gears . . . improved crankcase breathing system . . . improved lubrication . . . new 4-wheel brakes that are powerful, safe and quiet under all conditions—these indicate the importance of a group of engineering advancements that embrace every major unit of the entire chassis.

In appearance, this Outstanding Chevrolet is destined to become an automotive sensation—so smart, so stylish and so distinctively appointed that it rivals the costliest custom creations. The new Fisher bodies are longer, lower and roomier with an adjustable driver's seat in all closed models—and reveal the matchless artistry of Fisher designers. With their modish new colors, their smart dual mouldings and their distinctive concave pillars, they achieve a degree of original beauty that has seldom been equalled in motor car design.

You are cordially invited to visit our showroom and secure complete and detailed information on this sensational new car which will be ready for delivery beginning January 1st.

47 TIMES TO THE MOON

Every package of cigarettes, which sells for fifteen cents, pays a tax of six cents to the federal government. The interesting part of this statemnt is the fact that few smokers realize the tax is there.

For example, a man who smokes "a pack a day" is contributing almost $22 to the federal government in indirect unfelt and unobjectionable taxation. It illustrates again the efficicy of indirect taxation. In some states, where an additional tax, in the form of stamps, has been placed on cigarettes, the howls raised have been all out of proportion to the amount involved.

It is said that 105 billion cigarettes will be made this year. An astute statistican figures out that these fags, placed end to end, would make 47 rows to the moon, with enough left over to circle the globe twice.

RADIO PRAISED AS BOON TO FARMERS OF COUNTRY

Radio has cut the bonds that formerly tied the farmer to the isolation so long proverbial, and placed all events of the world at his fingertips, declares W. A. Young in charge of Station WAPI, which commence operations in Birmingham soon.

This is the powerful radio station being installed by Alabama Polytechnic Institute and the City of Birmihgham.

In speaking of the manner in which radio, automobiles, good roads and telephones are keeping farmers in touch with the world Mr. Young said radio is one of the most important steps.

"The air", said Mr. Young, "is filled with programs for enterainment and economic purposes. And WAPI is going to have the very best programs obtainable. The new station which will be atop a mountain near Birmingham, will be one of the most powerful in the South. The station will give clear receptions in all parts of the state during the most unfavorable weather and farm and market news will be given throughout the day. Besides the musical and other entertainment features, there will be valuable information regarding farming, market reports and weather forecasts There will be both day and night programs."

MOBILE TO GET NEW POWER HOUSE FOR PAPER PLANT

Mobile, Ala., November 22—Southeastern Production Company has begun construction here of a plant to supply steam and electric power to the International Paper Company, officials of Alabama Power Company have announced.

The first unit of the new plant will have a capacity of 10.000 horsepower and 135,000 pounds of steam per hour. It will be located at Hog Bayou, a tributary of Chickasaw Bogue, and accessible to both rail and water transportation. Tentative plans call for the completion of the first unit on or about October 1, 1929, at a cost estimated at $1,300,000.

While Alabama Power Company is now serving Mobile from its high-tension hydro system it was not in position to supply steam, which is one of the most important items necessary in the operation of the paper mill. The combination steam and power plant will, however, be connected to the hydro system of the Power Company.

SNAPPY STUFF

The sale of a dozen cold storage eggs as fresh products cost Carl Bergman of Madison, Wis., $4.16 per egg.

Testimony given by Mrs. L. R. Maier, of Chicago convicted her son of burglary.

Dr. Bedjet Sabit Bey a noted surgeon of Constantinople, has performed monkey gland operations on two Turks more than 70 years old.

George Saunders of Chicago boarded a train for his honeymoon thinking his bride was aboard, but she was in the station and they were not reunited until 14 hours later.

Henri Derapierre, a banker of Bordeaux, France, converted to Socialism, gave up his wealth and now works in a factory.

Benjamin Calder of Perth, Scotland, killed 30 wildcats in one day on an Invernesshire estate.

Mrs. Louise Sexton of London was granted a legal separation from her husband because he only allowed her a penny a week.

George Clayton of St. Louis was fined $50 for stealing a 15-cent package of cigarettes.

Sir William Cockerline of Hull, Eng., escaped trial for tax fraud by paying $2,000.000.

A new club for women organized in London requires that candidates for membership be able to smoke a pipe properly.

Two men entered the home of Mrs. E. Smith of Ann Harbor, Mich., disconnected the bathtub and walked off with it.

Held up by a bandit Karl Droschen of Berlin walloped the highwayman with his wooden leg and put him to flight.

Because Henry Preston of Chicago called the policeman who arrested him for speeding a liar, his fine of $35 was doubled.

Mrs. Frances Taylor of Cheltenham, Eng., widowed 82 years ago, died in her sleep at the age of 83.

When flood waters covered an island near Clarksville, Ga., a cow that had been marooned there started swimming, and was later found at North Bend, 20 miles away.

JEMISON, ALA.

The basket ball game Friday afternoon between Siluria and Jemison ended in a very unusual way, close to the end of the fourth period the score was 14-14. The Siluria coach misunderstood a decision of the referee and called his team off the court. Siluria forfeited the game to Jemison 2-0. The boys of both teams displayed excellent sportsmanship. We regret very much that the misunderstanding occurred.

The Excelsior Literary Society gave a very interesting chapel program Friday morning.

Bible Reading by Johnnie Mae Watson; Vocal Solo by Edward Glass; Reading by Minnie Elois Williams.

Human Portraits: Reynolds Age of Innocence—Virginia Hubbard; Sully's Torn Hat—Jack Sims.

P. T. A. entertainment last Saturday night was one of the most enjoyable events of the season. A large crowd was present enjoying the good things to eat also the programs on stage. The fourth, fifth and sixth grades won the prize for having the best 15 minute program.

Miss Madge Scarborough, county supervisor, spent Monday and Tuesday at the Jemison High School.

Dr. Kincaid and sons of Birmingham visited his mother, Mrs. Willams, last Sunday.

Mr. Albert Sims is attending the annual Allison Deer Hunt at Bellamy, Ala.

Mr. Seymour Reynolds spent Sunday with his parents, Mr. and Mrs. S. J. Reynolds.

Mr. Comer Lenoir spent the week end with his parents, Mr. and Mrs. E. L. Lenoir.

Mr. Henry Hayes of Howard College spent the week end at home.

Mr. John Leslie of Birmingham spent the week end with relatives and friends here.

Mrs. Luther Foshee of Clanton visited her parents, Mr. and Mrs. John Webb, during the week end.

Mr. and Mrs. Herbert Wright of Birmingham visited relatives and friends here this week end.

Mr. Charles Glass of Birmingham spent the week end with his parents, Mr. and Mrs. A. H. Glass.

Miss Neil Wells spent Sunday night with his parents, Mr. and Mrs. A. C. Wells.

Rev. Smith of Calera preached Sunday and Sunday night at the Baptist Church.

Miss Mildred Raney spent the week end with Miss Lesta Cobb in the Oak Grove community.

The Intermediate-Senior class of the Presbyterian Sunday School was delightfully entertained at the home of Marion and Josephine Adams Friday night, Nov. 23. After a pleasant evening of fun delicious refreshments were served to a large number of guests.

PROBATE COURT

In the matter of the estate of Mack Morris, deceased.

To Alex Bullard, whose residence is unknown; to the unknown heirs of Mack Norris, and of Alex Bullard; and to the unknown parties in interest in the estate of Mack Norris, deceased:

This day comes the Commissioners heretofore appointed by this Court to set apart to the widow and minor child or children, or either of them, the exemptions allowed by law, and file their report in writing, and the same has been set down for hearing on the 18th day of December, 1928, and for hearing any objections or exceptions that may be filed thereto, and you are hereby notified that you may appear in said court on that day and contest the same if you think proper.

This the 26th day of November, 1928.

L. H. REYNOLDS,
Judge of Probate.

No. 10

Fire Damages Hayes Building

Just as the News was going to press with the last forms, Tuesday evening, fire was discovered in the loft of the Hayes building on Seventh Street.

The new fire fighting apparatus of the city was soon on the scene of the conflagration, and the blaze was promptly checked, with the damage to the building undetermined.

Happening at about 7:30 p. m., an unusually large crowd was attracted to the scene. The flames lept high into the air soon after the alarm was sounded and this caused much excitement.

While the damage done by the blaze, has not been determined, Matt's Lunch Shop, the Exchange Barber Shop, and the offices of C. B. Cox, contractor; V. J. Heard, attorney, and Crawford's Tailor Shop, were drenched with water, and considerable damage was caused in moving fixtures out of the places mentioned.

The origin of the fire is unknown as we write this. The fire was first discovered by passersby on the streets, and at that time it is said the flames seemed to have started near the center of the building in the loft.

Mr. and Mrs. J. B. Atkinson and children spent last week end in Vincent, Ala., as guests of friends and relatives.

CARD OF THANKS

I want to thank my friends and neighbors for their kindness to me in the recent tragic death of my husband and for the beautiful floral offerings. I wish to also thank Dr. Gragg and the nurses of the Central Alabama hospital May God's richest blessings rest upon each one is my prayer.—Mrs. Mattie Traywick.

Back to the Small Town
Industry Follows Power

"Where power is," says industry, "there is my home."

Today the man who starts out to seek his fortune in the great city is likely to meet his job traveling the other way.

Today, power—electric power—is pretty nearly everywhere in Alabama. Every year, the long stride of the giant transmission line opens fresh territory.

To 381 communities in Alabama, these humming wires bring equal industrial opportunities in so far as power is concerned, new payrolls, new prosperity for all. . . . To the manufacturer, they spell new opportunities outside congested industrial centers, new efficiency, relief from high taxes and cramped quarters. . . . To the worker, they mean that new jobs are marching to the man and a higher standard of living. . . . And to the farmer, they bring to his door a market for his products and the spare time labor of himself and his family, and the benefits of rural electrification.

Decentralization of our industrial system is transforming Alabama. And it is the electric generator, the electric transmission line, the electric motor and the electric light that is making decentralization possible.

A new gasoline experience—
actually—NEW MILES per gallon

IT is a fact that the *new* Texaco does give better results—measurably better. It has at once overcome the limitations of the older type of engine and enhanced the performance of the new.

You can't be mistaken. You see the record of actual miles rolling up on your speedometer. You notice the ample gasoline reserve and the fewer filling stops. Your car is the same, but the *new* and *better* Texaco is a different gasoline—more miles to the tankful.

That's the difference between dry gas and wet! The *new* and *better* Texaco, vaporizing to a dry gas, enters the cylinders and ignites instantly. It burns freely and delivers *all* its power in that split fraction of a second of the power-stroke.

Wherever you stop for gasoline, see to it that your car draws up beside the Texaco pump. Look for the Texaco Red Star and Green T.

Not WET . . . . . But DRY

ATOMIZED — A wet gas is an atomized mixture of gasoline vapor with liquid drops of raw gasoline. These drops, separating at every manifold bend, result in uneven distribution and loss of power.

A dry gas, the *new* and *better* Texaco, vaporizes completely. It is a perfect mixture of dry gasoline vapor and air which provides an even flow of fuel and power to every engine cylinder. — VAPORIZED

The crude oil in the tube on the extreme left is dark in color. Texaco refining removes *all* the dark residues (as in the middle tube), leaving the clear, golden Texaco Motor Oil in the last.

THOSE WHO COULD BEST AFFORD TO BE CARELESS SELDOM ARE

IF carelessness about lubrication were merely a matter of wasted money there are plenty of well-to-do people who would never give the matter a second thought.

But to have a car's performance on the road spoilt! That's another story, and a sad one. Swift, comfortable, silent transportation; that is what you expect from your car today, and that is precisely the condition that Texaco Motor Oil facilitates to the maximum.

But the big point, after all, that one gains at the sign of the Texaco Red Star and Green T is *—absolute certitude of clean, clear, golden motor oil of the right grade, Texaco.*

The Texas Company's refinery engineers for years sought to find methods which would remove everything from motor oil that was not lubricant

When this super-refining was perfected the resulting oil was of a pure golden color. To have made a motor oil of real body so pure was a real triumph. The results you see and experience today every time you are supplied with golden Texaco Motor Oil.

GRAVES PROPOSES INSTALLING RADIO SETS

(Continued from first page)

to suffer thereby. I want them to be able to go to their courthouse and get this information over a receiving apparatus installed there for their use and profit."

Two events in the govenor's life which occurred some years ago are responsible for this broadcasting plan. One was his witnessing in a certain Alabama locality the sale of watermelons for $25 a carload for the reason that the only known available market at that time was flooded and the owners of the melons were forced to take what they could get for their crop. The other incident was the sight of many bushels of potatoes rotting in the field because the best price obtainable for them would not pay the cost of handling and shipping. It is pointed out that with a thoroughly organized and efficient markets information radio service in operation, these products could have been dsposed of at a profit.

Entertainment Included

While the broadcasting service is primarily for the dissemination of farm and crop information and news, when ths information is not going on the air, entertainment programs will be sent over the hookup of stations at Birmingham, Montgomery and Auburn, Alabama musical artists will be heard, and musical organizations well known throughout the state will render programs. One entertainment feature that is being planned is a program about once a week by a chorus of picked negro singers selected from the prisoners at Kilby prison. Already it is understood this chorus has begun practice on such favorite negro spirituals as "Deep River", "Swing Low, Sweet Chariot," "I Couldn't Hear Nobody Pray" and "Roll, Jordan, Roll."

The hookup it is stated, has already been assigned a wave length of 1,140 kilocycles by the Federal Radio Commission. The only other station on this same wave length is located at Tulsa, Okla., and a division of time with this station is to be arranged.

NOTICE TO PROPERTY OWNERS

Notice is hereby given that the assessment roll or book containing the description of property and subjects of taxation located in the Town of Clanton, Alabama, for Town or Municipal taxes for the tax year of 1928, have been made by the Town Clerk of Clanton, Ala., and returned to the Town Council as provided by Sec. 2124 of the Code of Alabama, 1923, and an ordinance duly adopted by the Town Council of the Town of Clanton, Ala., on the 16th. day of October, 1928, levying a tax of five mills on each dollar's worth of taxable property in said Town for said year that the assessment of said tax has been completed, in accordance with the requirements of said Sec. and ordinance and that the Mayor and Council of the Town of Clanton, Alabama, will meet in the office of the Clerk of the Town of Clanton, Ala., on the 30th day of November at 3 o'clock P. M., 1928, to hear and determine objeections to the assessment of said tax and finally determine and pass the Assessment of said taxes.

Witness our hands this the 5th. day of November, 1928.

ERIC HART, Mayor.

J. H. PLIER, Clerk. Nov. 15-3t.

HALF-HEARTED

Never Felt Well

"I don't see why women will drag around, in a half-hearted way, never feeling well, barely able to drag, when Cardui might help put them on their feet, as it did me," says Mrs. Geo. S. Hunter, of Columbus, Ga.

"I suffered with dreadful pains in my sides. I had to go to bed and stay sometimes two weeks.

"I could not work, and just dragged around the house.

"I got very thin. I went from a hundred and twenty-six pounds down to less than a hundred.

"I sent to the store for Cardui, and before I had taken the first bottle I began to improve. My side hurt less, and I began to mend in health.

"Cardui acted as a fine tonic. I do not feel like the same person. I am well now, and still gaining."

Chilton County Abstract Co.

M. D. FOSHEE, Manager

A good business man will not buy a farm or any property without first looking it over to see what it is worth.

However, some will buy or loan money on land without an abstract.

Isn't it equally as foolish to buy a farm without looking it over as to buy it and not know whether the titles are good or not? Without an abstract you do not know where you are getting the land you look at or not.

Before investing in land in any way have an abstract made and be safe.

VOLUME 7 CLANTON, ALABAMA, THURSDAY DECEMBER 6, 1928 NUMBER 11

Seniors Honor Local High Football Team

Banquet Given In Dining Room Of New Wilson Hotel

Members of the Senior Class of the Chilton County High School gave an elaborate banquet, honoring the players on the high school football team, on last Tuesday evening at eight-fifteen o'clock in the large dining room of the New Wilson Hotel.

The dining room of the hotel was beautifully decorated with the school colors, blue and gold. The table around which the guests were seated, was in the form of an F, symbolizing football.

Mr. Dick Kemp acted as toastmaster for the evening, and toasts were given by the following: Edwin Bruner, whose toast was to the manager, Joe Erle Gowan; Jesse Sam Gowan gave a very commendable toast honoring Coach O. V. Bruner; Miss Mary Nell Goodgame honored the cheer leader, Tom Frank Teel; Francis Massey gave a toast to Miss Vera Jones, another cheer leader; Ernest Meeks honored his sweetheart; Vernon Baker honored the fathers and mothers, and Miss Nell Wells, a member of the high school faculty, honored the entire asembly with a highly comlendable toast.

Mr. C. E. Stapp, the County Farm Agent, was present and gave a very splendid talk. Mr. O. V. Bruner and Prof. L. C. Warr were also speakers.

The following were present at this outstanding social afair

Misses Feryl Martin, Gladys Williams, Mary Nell Goodgame, Lottie Scarborough, Mary McSwain, Pauline Lawrence, Flora Harris, Clara Mae Popwell, Gertrude Blalock, Mittice Duncan, Sawyer, Sara Head, Berniece Williams Annie auriLe Clay, Nell Wells, Vera Jones Vivian Sanders Corinne Polk, Myra Johnson, Grtie Fiquette, Kathryn Hayes and Mrs. Washington, Mrs. L. C. Warr and Mrs. O. V Bruner.

Messrs Douglas Nelson, Ruphus Brown, Dick Kemp, O. V. Bruner, C. E. Stapp, Grover Harris, Earnest Meeks, Chester Wingard, Edwin Wagoner Francis Massey, A. I. Massey, L. T. Taylor, Lanier Moore, Hollis Moore Paul Cox. Tom Frank Teel, Vernon Baker, Hubert Ellison, L. C. Warr, Knox, William Simpson, Samuel Martin, Jo Erle Gowan, Jesse Sam Gowan, Bill Minor, Amon Jones, Benson Simms, Edwin Bruner, Courtland Retherford, Moses Simpson, James Roberts and James Wade.

The banquet was followed by a dance at the home of Miss Feryl Martin on East Second Avenue.

ISABELLA HAS GOOD PROSPECTS FOR BASKETBALL

Announcement was made by Coach Chambers that prospects were bright for a real strong basketball team at Isabella High school, during the coming season.

A new enclosed court is being put into readiness and those who expect to play on the team began practice this week, and the first game of the season is scheduled for next Friday at Centerville, when two games will be played, one by the boys and one by the the girls from each school. Miss Jones is coaching the girls team.

Among the boys of Isabella who will likely make the team are; Conway, Mimms, Foshee, Seals, DeRamus and Owens. Most of these players were on last year's team and are considered material seldom found on a high school team.

BOOCKHOLDT ON DUTY DURING ILLNESS OF MR. WYATT

For the past several days, City Officer Thos. E. Wyatt has been considerably ill, and at the time of this writing, he is somewhat improved.

During the illness of Officer Wyatt, Mr. C. C. Boockholdt is filling his place on night duty.

RAYMOND SMITH SPENDS HOLIDAYS IN CLANTON

Mr. Raymond Smith, son of Hon. A. C. Smith, spent the past week-end here visiting friends and relatives. Raymond will receive his degree of Bachelor of Laws from the University of Alabama next January.

Mr. and Mrs. W. T. White of Isabella were visitors to Clanton last Wednesday, November 28.

BIG FEATURE PICTURE TO BE AT WADESONIAN

"Old Ironsides" Scheduled To Appear Next Monday And Tuesday

Embracing many photographic and technical innovations, James Cruze's ical and romantic sea story which comes to the Wadesonian Theatre next Monday and Tuesday, December 10 and 11, brings to the screen one of the most startling photoplays ever presented.

Among the unusual features introduced in the picture are the following:

The villain of "Old Ironsides," the Bashaw of Tripoli, appears in but one reel of the photoplay.

The hero of the story is a battleship, the frigate, "Constitution."

Anentirely new type of camera, constructed so that it would photograph the rolling motion of a ship without itself being subject to any movement was invented for "Old Ironsides." This was necessary because more than half of the picture was photographed upon the ocean with storms raging much of the time.

Each player possesses his or her own name in the story. Thus, Esther Ralston is known as "Esther," Wallace Beery is "Wallace Beery and George Bancroft is simply "George Bancroft." The only exceptions to this case are the historical characters.

DORCAS CLASS TO SELL XMAS GIFTS AT BAZAAR

Buy your Christmas presents at the Dorcas Class Bazaar—fancy work, children's dresses, potted bulbs and cakes. Something to suit the taste and pocketbook of everyone. Bazaar will be held in the new Mullins building, Saturday, December 15, 1928. 2t

BUS DRIVERS BARRED FROM SMOKING WHILE AT WHEEL

MONTGOMERY, ALA., Dec. 1.—Following complaints, the Public Service Commission yesterday issued a bulletin making effective immediately an order that no driver of a motor bus o rtruck operating under a state certificate shall smoke cigarettes, cigars, or pipe while actually driving their vehicle.

The order followed complaints of patrons that the operators were allowing drivers peering and [illegible] operating vehicles [illegible] places that bus drivers [illegible] WAS hands off the steering wheel [illegible] "lighted up."

Inspectors and other members of the staff were instructed yesterday to see that the bulletin was fully complied with in all case.

SOUTHERN BAPTISTS PLAN TO RAISE $2,000,000 AS CHRISTMAS OFFERING

Proceeds Will Be Applied Toward Liquidation of the Indebtedness of Home and Foreign Mission Boards and Other Institutions—Sacrificial Giving Is Sought

In probably the largest single extra Christmas cash offering that has ever been sought by any denomination in America, the Southern Baptist Convention is asking the churches affiliated with it to provide a cash thank offering at the approaching Christmas season of $2,000,000. The proceeds will be applied toward the retirement of heavy debts upon the Home and Foreign Mission Boards and several other agencies of the Convention.

Combined debts of approximately $5,750,000 are now owed by the various Southern Baptist Convention boards and institutions, these debts having accumulated over a period of several years because the regular receipts from the churches have not been sufficient to maintain the work of the various institutions as expanded a few years ago when the churches were supporting missions and benevolences more generously than they are today. A portion of the total indebtedness is bonded

DR. GEORGE W. TRUETT
of Dallas
President Southern Baptist Convention

and does not have to be paid this year, but $2,000,000 represents immediate demands upon the boards and institutions, hence the call of the Convention to the churches to provide this large cash sum through a sacrificial Christmas Thank Offering. Over against these debts, however, are combined assets of $24,000,000.

Heading the call for the large Christmas gift are Dr. George W. Truett of Dallas, president of the Southern Baptist Convention, and members of the large Executive and Promotion Committees of that body.

Business Men Give Liberally

Indicating the manner in which the Baptist business men of the South are responding to the call for the Thank Offering, a layman in one state has agreed to add $100,000 to the fund if the Baptists of the South generally respond to the effort, while another business man in another state has announced an unconditional gift of $50,000. Under the leadership of Dr. J. T. Henderson of Knoxville, secretary of the Southern Baptist Brotherhood, an effort is being made to enlist all the large Baptist business men of the South in making big gifts to this effort. From this source several hundred thousand dollars is expected.

In its appeal for the success of this cash offering, the Executive Committee of the Southern Convention is asking individual Baptists throughout the South to join in giving sacrificially to this purpose through the elimination of unnecessary giving to one another and making their Christmas gifts to Christ and his causes instead.

The proceeds of the offering will be distributed among the several Convention objects upon the following basis:

Foreign Missions	50 %
Home Missions	22½ %
Relief and Annuity Board	9 %
Education Board	2 %
Southern Baptist Theological Seminary	5 %
Southwestern Seminary	4½ %
Baptist Bible Institute	3½ %
New Orleans Hospital	3 %
W. M. U. Training School	1 %
American Baptist Theol. Seminary	½ %
TOTAL	100 %

Will Wipe Out Foreign Board Debt

The raising of the full $2,000,000 objective, it will be seen, will provide $1,000,000 for the Foreign Mission Board. This, according to Secretary Ray, will make it possible for that board to pay its entire indebtedness, reinforce its American missionary staff to its former standard, restore the 600 native missionaries who were dismissed a few years ago for lack of funds, re-open two hospitals and 235 mission schools, rebuild the Christian literature program and send out 150 trained young people who are anxiously awaiting an opportunity to engage in mission service.

Similar advances will be made in every other department of Southern Baptist work in the event the full amount of the offering is raised.

ONE MINISTER SENTENCED FOR CIRCULATING BOGUS OATH

SAVANNAH, GA., Nov. 30.—Rev. W. F. Larowe was sentenced in City Court today to serve three months in jail on conviction with circulation of a false oath of the Knights of Columbus, but on recommendation of the jury for extreme mercy, his sentence was probated

Charges of criminal libel were brought against the minister and Mrs. Ed C. Alumbaugh by Thomas F Walsh Savannah attorney and members of the Knights of Columbus.

The prosecutor caled attention of the court to the jury's recommendation for mercy and to the fact that the Rev. Mr. Larowe had spent [illegible] time in jail."

Contending that he had not ureuared circulars containing the oath, did not know of their contents and that he was distributing them for Mrs. Alumbaugh, the minister conducted his own defense. Mrs. Alumbaugh is out on bond pending trial.

NEWARK, N. J., Nov. 30.—Charged with having circulated leaflets containing a false oath of the Knights of Columbus, the Rev. Elmo L. Bateman, pastor of the Hilton Christian church, has been indicted for criminal libel by the Essex County Grand Jury. The indictment was learned today when Judge Walted D. Van Piper announced the minister would be arraigned Monday.

Officials said Mr. Bateman circulated the leaflet, along with two alleged anti-Catholic magazines during the recent political campaign.

CHRISTMAS GIFT AUCTION SALE TO BE HELD DEC. 11

The Fidelis Class of the Clanton Baptist church will have an auction sale of Christmas gifts at the home of Mrs. Renfro Mullins on Tuesday afternoon, December 11, at four-thirty o'clock.

Every one is cordially invited, be sure to be there with plenty of money. The prices will range anywhere from five cents to twenty-five cents. Don't forget the time and date and place.

BRIDGE BONDS ARE SOLD AT CAPITOL LAST SATURDAY

MONTGOMERY, ALA., Dec. 1.—Convening at the capitol this morning at ten o'clock, the Alabama State Bridge Corporation will sell a sufficient amount of bonds to cover the cost of construction of the 15 highway toll bridges to be built in the state under the coporation's direction and supervision.

The amount of bonds provided for this purpose is limited to $5,000,000. Low bids for the bridges total well under that amount. Enough bonds will be disposed of to cover the expense to be incurred.

Letting of contracts for the bridge structures will take place next week, probably Tuesday.

LETTER FROM FORMER CLANTON METHODIST PASTOR

Moundville, Ala., Nov 29, 1928

Hon. J. B. Atkinson,
Clanton, Alabama.

My dear J. B;

We are getting off to Chipley, Fla., next week. Allow me to thank you for the Chilton County News. It has enabled me to keep tab on my friends.

You have a real preacher for another year. Childs is a live wire, and a fine fellow. I heard him preach last Sunday. It was one of the most able sermons I have ever heard.

We would like to have gone to Clanton to see our friends again.

With regards to all our friends I am,

Most sincerely your friend,
C. C. Wilkerson

MRS. HOLLADAYE AND CHILDREN ON VISIT IN FLORIDA

Mrs Joe M. Holladaye and two children, Bill and Pat, left last Trursday for Munson, Fla. where they will visit Mrs. Holladaye's parents, Mr. and Mrs. O. R. Lowery.

Mrs. Lowery was injured in an automobile accident several months ago and is still confined to her room.

ISABELLA CLOSES FOOTBALL SEASON WITH A DEFEAT

The Isabella football team closed the season last Thursday with a game at Selma, where they were defeated seven to 0.

This marks the second season that the Isabella team has played without registering a single score. However, they have played some real teams, and the people of that section are not down on them by no means.

The game last Thursday was a real fight from start to finish, and those who saw it were high in their praise of the way the Isabella team battled against their more experienced opponents. Isabella held their own with Selma until the third period, when Selma was successful with a long pass that placed the ball on the ten yard line, from there they bucked the ball over for the only touchdown of the game. First downs were about equal.

STATE ROAD BONDS ARE DELIVERED BY BROOKS

MONTGOMERY, ALA., Dec. 1—W. W. Brooks, assistant to the state treasurer, returned yesterday from New York, where he delivered to the American Exchange Irving Trust Company the $7,500,000 of Alabama highway improvement bonds sold recently by the State Bond Commission.

Mr. Brooks was accompanied on the trip by W. C. Bowman, vice president and trust officer of the First National Bank of Montgomery, which with associated financial institutions, purchased the bonds.

EVANGELISTIC MEETING DRAWS LARGE CROWDS

Meeting Being Conducted In Maddox Warehouse; Sermons Are Instructive

The series of meetings being conducted by "Parson Jack" and his evangelistic party in the Maddox Warehouse here, has well entered the second week.

Th interest of the people, slowly but surely is being awakened. Last Sunday afternoon, there were approximately four hundred people in atendance at the three o'clock services. Monday night and Tuesday night of this week, saw over twice as many i the tabernacle for the 7:15 service, thon were present one week previously.

The general opinion that this is the wrong time of year for a revival has been flustrated. "This season we are now in, is the most important season of the year," declared Mr. Fendley associate evangelist of 'Parson Jack'. Continuing, he reaseoned," this is the mid-season of the three greatest days in the year, Thanksgiving is the day of prayer, Christmas, the gift day, and New Years, the day of resolutions and faith. We are throwing off the old, preparing for the new, it is the best season of the year for a revival."

The music as furnished by Mr. and Mrs. Charles Winter is decalred superior to any that has been offered to Clanton. "Their rendations are conspiciously competitive to the best of the artist on the air," has been the opinion of most of the listeners interviewed.

The most noticeable feature of the attendance in these meetings is the continuity of the same faces in the crowd. This bears evidence of the soundness of the preacher and his party

'Parson Jack,' who belongs to six secret fraternities, has chosen for his discussion for Thursday evening, "What Attitude Did Jesus tave toward Secret Fraternities?" This is one of the best of the Parson's collection. Every member of any lodge, fraternity or sorority that is secretive should hear this sermon.

The only reason why the tabernacle is not filed ti it's capacity, is that enough diferent people have not attended as evidenced by the ones who have attended, continue to do so.

Time pases fast. Soon this party wil lbe gone and many will not have

REV. GREEN TRANSFERRED TO MONROEVILLE, ALABAMA

Rev. L. B. Green, pastor of the local Methodist church, will be transferred to Monroeville, Alabama to become pastor of the Methodist church there.

Rev. Green will be succeeded by Rev. E. A. Childs, from Opp, Ala.

Fire Damaged Hayes Building Last Week

Value Of New Fire Truck Is Again Brought Before The People

In last weeks issue of the News, we gave a brief account of the fire which damaged the Hayes Building on Seventh Street last Tuesday night about seven-thirty o'clock. We were just going to press with our last forms when the fire broke out, an did not give in detail, the story.

The fire, it is reported, originated from a defective flue in the second story of the building, in the office room just over Matt's Lunch Shoppe which occupies a part of the first floor of the building. The flue is connected directly with the flue from the lunch room, and from appearances, the object which was used to close the flue in the upper story of the building became ignited from the fire in the stove in the lunch shoppe, and fell to the floor of the room causing the floor and walls to catch fire.

The room where the fire started is in the northwest corner of the building on the second floor

As stated last week, the fire was soon extinguished, after the fire fighting apparatus arrived. The largest part of the damage was done to the section of the building where the fire originated, and to the office of Victor J. Heard lawyer, whose office is just across the hall from the room in which the fire started.

The office of C. B. Cox, contractor, was slightly damaged by smoke and the heat. The room ocupied by Crawford's Tailor Shop was slightly damaged by water and smoke. All the above named, constitute the occupants of the second floor of the building.

The damage to Matt's Lunch Shoppe is estimeatd at about $250.00, according to information. The damage resulting mostly from the water and from the moving of the fixtures from the building into the street, by volunteer firemen.

The damage to the Exchange Barber Shop, which ocupies a part of the first floor was confined mostly to the mirrors and glasses in the doors. Most of the damage will be covered by insurance, it is rumored.

This fire is another piece of concrete evidence in showing and proving the value of the American-aFranLce fire truck which was recently purchased by the Town of Clanton. A statement from those who have reason to know, says that without the fire truck, in all probability, the entire city block in which the Hayes building is located, would have been more or less damaged or maybe destroyed.

BIRMINGHAM FIRE CHIEF COMPLIMENTS FIRE FIGHTERS

Chief Akins of the Birmingham Fire Department was a visitor to Clanton last Wednesday, the day folowing the fire which damaged the Hayes building and the origin of the fire, he stated that it was a fine piece of work on the part of the volunteer firemen here in preventing the fire from doing more damage.

MOTHER WILL FORCE ONLY SON TO MARRY CLODHOPPER

The wealthy Mrs Chiggerson-Boggs, St. Louis society leader, plans to force her only son George, to marrya clodhopper from the poor house. George is reported deeply and desperately in love with Charmain Carter, a promising young actress.

Mrs. Boggs refuses to tell reporters what her plans for forcing a match between he son and a poor, ragged girl, but she said yesterday that Judy the little ragamuffin from the poor house has recently inherited a large fortune from her father who has been gone since Judy was a baby.

"Judy does not know ttat she and George are mortal enemies but Mrs. Chiggerson-Boggs insists that they must be married by Sunday morning. Charmain is brokenhearted; she thinks Mrs. Boggs will succeed with her scheme.

It is rumored that Septimus Green, a fresh book agent, wil attempt to foil Mrs. Boggs' plans. Will he?

We donot know. See for yourself Saturday night, December 8, at eight oclock at the high school auditoriuth of Verbena, Alabama. "A Little Clodhopper" is a rollicking good comedy. Don't miss it. Admission will be fifteen and twenty-five cents.

Farm Demonstration Dept.

(By C. E. Stapp, County Agent)

TURKEY SALES NET $75,000 FOR GROWERS

For the Thanksgiving trade 18 carloads of turkeys raised in the Black Belt of Central Alabama and also in south Alabama were sold by the Extension Service of the Albama Polytechnic Institute cooperating with the county farm bureaus and State farm bureau of Montgomery, through which organization the sales were cleared.

In reporting this third series of Thanksgiving sales for Alabama turkeys, J. D. Moore and J. B. Sylvest, extension marketing specialists, Auburn, said that the 18 carloads returned to the growers $75,000. Twenty-five thousand turkeys weighing 244,000 pounds were marketed. The growers were paid 32 cents per pound at the car door.

With three cars weighing 47,694 pounds, Lowndes County led all others in the state in sales this season. Perry County with 35,000 pounds was second, Bullock, approximately 22,395 pounds, third, and Montgomery, shipping 17,063 pounds, was fourth.

Other counties participating in the shipping and sales includede Geneva, Russell, Marengo, Clarke, Dallas, Hale, Barbour, Wilcox, Houston, Pike and Covington.

Cooperative marketing of turkeys began in Alabama in 1926. Prior to that date turkeys sold for 12 to 18 cents per pound. Through cooperative sales the average has been about 30 cents per pound.

To the county agents and the county farm bureaus full credit for the success of the sales is given by Mr. Moore and Mr. Sylvest.

NEWS IN BRIEF

Present indications are that the Alabama cotton crop of 1928 will be 1,100,000 bales. The November 1 estimste was 1,000,000.

Chemists have found how to make a good water-proof glue from the oil cake of soy beans and it is being manufactured and used in large quantities by the furniture industry.

Last year American people spent two billion dollars for education. Economists say that educational expenditures are a barometer of business and progress of a nation. They accept this as indicative of the two—progress and condition of the United States.

A press report says that Senator McNary, chairman of the Senate committee on agriculture, has completed a farm relief bill which meets the approval of the President. It provides among other things a federal board for agriculture similar to the Federal Reserve Board for banking.

At the laboratory in Anniston, Ala., a special study is being made by the Bureau of Standards at Washington to discover new products feasible to manufacture from cottonseed hulls and peanut hulls. The work is being done at the suggestion of the Alabama Board of Industries of which Thad Holt, Birmingham, is manager.

Thanksgiving turkey sales conducted in the Black Belt of Alabama by the Extension Service of the Alabama Polytechnic Institute in cooperation with the county and State farm bureaus resulted in 18 carloads being sold for $75,000 for the Thanksgiving market. Others will be sold for the Christmas market.

GOOD PASTURES IN ALABAMA WANTED

Auburn, Ala., Dec. 5.—Special—In order to reduce productio costs and make livestock more profitable on Alabama farms, county demstration agents are launching a better pasture campaign. Meetings, conferences and demonstrations will be used. Newspapers—both daily and weekly— will cooperate.

Plans for the work are being prepared by J. C. Lowery extension agronomist at Auburn. He said that there are several splendid pasture plants for Alabama and that good permanent pastures can be made at a small cost.

A combination of Bermuda and lespedeza is the foundation for most permanent pastures in Alabams. These two plants grow together and do well on a large variety of Alabama soils. Although they do not succeed on dry sandy and they will beat other pasture plants on upland.

The best permanent pastures in Alabama are found on lowlands such as land along streams of water and in valleys. For the southern haly of the Dalli grass is a splendid combination. For the northern half Dallis grass and lespedeza and redtop are favorites. For the Back Belt there are several excellent pasture plants, Black medic being a favorite. Centipede grass is a new pasture plant which is very promising.

This pasture work is being emphasized at this time because winter and early spring is the time to start be cleared during the winter and seed planted during February or March. Clearing is necessary to enable mowing after pasture is started to get rid of bitterweed and other noxious plants.

FARM AND HOME FACTS

"The owner as well as the house is helped when his house is painted." —L. N. Duncan, Auburn.

"The main reason why land should be cleared for permanent pasture is to prepare for mowing when needed to kill bitterweeds and other noxous plants."—J. C. Lowery, Auburn.

Mrs. G. H. Davis of Eufaula has established a business of her own by making and selling canned goods and preserves. She has many customers.

The farm woman who makes an article that will sell for what it is worth is making possible a larger income for her family.

Alabama will have one of the best systems of agricultural research when the new branch stations are strated at five different points in the State.

One pound of cottonseed meal for feed is worth one and seven-tenths pounds of cotton seed. Therefore, cotton seed should be exchanged for meal.

The Alabama farmer who is making cotton with plenty of power and machinery plus high yields per acre because of rich land and correct fertilizing is not worried about Texas competition.

Good permanent pastures are strated in winter by fencing and clearing land. Provision should be made for mowing when needed to kill bitterweeds and other noxious plants.

Substances recommeded for taking grease out of a carpet are amonia, saltpeter, ox gall, chloroform, ether, gasoline, fuller's earth, potter's clay and various combinations of these.

Rapid developments of the fur industry during and immediately following the war have placed the United States ahead of the United Kingdom as a fur country. Figures for the two countries during 1927 show that the United States had a total of $135,573,530 against $80,905,298 for the United Kingdom.

"Terracing in Alabama" is the title of a bulletin published by the Extension Service of the Alabama Polytechnic Institute, Auburn, for free distribution. It tells of the value of terraces and how to construct them. Drawings are used in order to make construction clear enough for the layman to understand.

Alabama farmers who applied all of their nitrate of soda when they planted their cotton seed last spring suffered heavy losses because rains were excessive and much of it washed away. Many made this mistake, although the county agents and experiment station at Auburn insist on applying one-fourth at time of planting seed and three-fourths immediately after chopping.

Watch for an important announcement by Foshee-Calloway Motor Company, Willys-Knight and Whippett dealers.

NOTICE TO NON-RESIDENTS

The State of Alabama—Chilton County

ARMSTRNG-GILMORE WEDDING SOLEMNIZED TUESDAY

Mr. Stewart Armstrong and Miss Bessie Gilmore surprised their many friends last Tuesday evening by slipping off and getting married, the ceremony being performed by Rev. M. J. Parrish, grandfather of the groom, at the home of Mr. J. M. Parrish.

The bride is the daughter of Mr. W. W. Gilmore of Hurtsboro, Ala., but has been making her home in Clanton for some time, and was employed in the office of C. B. Cox, contractor, up to the first of this month. She is a young lady of many charming personalities, and readily makes friends with all her acquaintances and has many friends here who are showering them with congratulations.

Mr. Armstrong is the son of Mrs. Will Armstrong, and has been a resident of this city since childhood. He is at present employed in the composing rooms of the News office. The groom is a young man of sterling qualities and is well and favorably known throughout this section.

HAYS-HAND

Mr. Mxwell Hays and Miss Omie Hand were quietly married last Sunday afternoon at four o'clock.

Mrs. Hays is the daughter of Mr. N. C. Hand, and has been a resident of this section for several years. She was employed by the Robinson Department Store. She is among the most popular young ladies of her set, and her many friends are showering them with congatulations.

The groom was at one time aresident of Clanton, having been employed by a local store until he accepted a position in Birmingham.

Mrs. Eric Hart Hostess To Wednesday Bridge Club

Mrs. Eric Hart was hostess to the Wednesday Bridge Club on last Wednesday afternoon at two-thirty o'clock at her home on Fourth Avenue. Carnations were used in the decorations, and a delicious salad course was served to the folowing:

Mesdames Fenn Jones, Glenn Boyd, Jack Bowen, J. P. Hayes, H. F Downs, and Misses Louise and Madelyn Orr.

Ne invited guests for the afternoon were: Mesdames Percy Pitts, Mack Wyatt, John VanDerveer, John Armstrong, John Page, Goss and J. Lee Smith.

Mrs. C. Fenn Jones was awarded the high score prize and Mrs Mack Wyatt received the guest high score prize.

Holcombe- Sanders Marriage Announced

The following marriage announcement was taken from the Birmingham News of last Sunday, Dec. 2:

Mr. and Mrs. E. Sanders announce the marriage of their daughter, Nona, to John Alfred Holcombe, son of Mr. and Mrs. J. H. Holcombe, of Norwood, the wedding ceremony having taken place Thursday afternoon, Nov. 29, at half after five o'clock at the home of the Rev. Allen W. Moore. After a short wedding trip, Mr. and Mrs. Holcombe will be at home in their apartment in Norwood.

Mrs. Holcombe (Nona Sanders) was at one time a resident of Clanton, and has many friends here.

Mrs. Eric Hart Is Hostess To Friday Evening Bridge Club

On last Tuesday evening, November 27th, Mrs. Eric Hart was hostess to the Friday Evening Bridge Club at her home on Fourth Avenue So.

Beautiful carnations were used in the decorations of the attractive living and dining rooms, where tables were arranged fo bridge.

A delicious salad course was served to the following: Mesdames o. T. [illegible] the following: Mr. and Mrs. [illegible]en Boyd, Mr. and Mrs. C Fenn Jones, Mr and Mrs. V. J. Heard, Mr. and Mrs. J Hance Alred, Mr. and Mrs. F. Gerald, Mr and Mrs. Napoleon [illegible]nson an Miss Kathleen Mullins.

Mrs. J. Hance Alred received the ladies high score prize, and Mr. V. J. Heard received the gentlemen's high score prize.

MR. AND MRS. TURNER ANNOUNCE BIRTH OF BABY GIRL

The following announcement was taken from the Birming ham News last Sunday, December 2.

Mr and Mrs. A. P. Turner (Celia McMillan) announce the birth of a daughter, Nov. 27, whom they have named Mary Helen. Mrs Turner and baby are at St. Vincents Hospital.

Mrs. Turner, who before her marriage was Miss Celia McMillan, was a graduate of the grammar school faculty here several years ago, and has a large circle of friends in Clanton.

Mr. andMrs. W. S. Wilbrey of Talladega, Alabama spent last Sunday in Clanton visiting their daughter, Mrs. White.

Suffering With SICK HEADACHES

Mr. Charles F. Todd, of Estesburg near Waynesburg, Ky., says: "I was suffering with nervous headaches. About once a week I would have these headaches, and have to quit work, and go to bed for about twenty-four hours. I would have pains in my neck, and right behind my right ear.

"A merchant at Estesburg told me to try taking Black-Draught, which I did.

"It relieved me. From that time on, I would take Black-Draught as soon as I felt like I was going to have one of these headaches—and they wouldn't come on.

"Every few weeks, I take three or four doses of Black-Draught, and I feel so well, and do my work, and don't lose any more time with headache."

Ten years ago, many a doughboy was anxious to get home and see his sweetie; now quite a number of them are anxious to get away from home in order not to see the same sweetie.

SNAPPY STUFF

Mrs. Clare Edwards of San Francisco has filed suit for divorce because her husband forced her to eat a package of cigarettes when he found her smoking.

Louis Hart of St. Louis, escaped from his burning home with the tail of his nightshirt in flames.

"My ear has been worn out by my wife pulling it," testified Richard Tobin of Chicago in his divorce suit.

Mrs. Agnes Crosbie of Boston was arrested for stealing a ring which she pawned to buy food for her adopted baby.

William Fisher of Ionia, Mich., was sentenced to a year in a reformatory for the theft of a bushel of potatoes valued at forty cents.

Capt. Fred Myers aged 70, employee of a railroad in Fort Myers, Fla., has refused to retire from active service because he is "too young to quit."

A burglar who entered the home of C. V. Graham in Philadelphia took no loot, but left a note saying that he enjoyed reading the Bible.

James Carragh of St. Louis got a warrant for Mrs. Louise Chapin, a 270-pound widow woman who knocked him down with one punch.

Anton Sharzysck, aged 76, of Budapest, the father of 44 children by two wives, has taken a third bride.

Miss Vera Radden of Buffalo, refused to have two decayed teeth extracted and was discharged by her employer.

Miss Georgia Dodd of Baltimore has given up her work as manicurist to become a bootblack because it offers "more profits and excitement."

Given a night's lodging in the jail at Omaha, Clyde Muzzle, tramp, disappeared the next morning with a sack of valves which had been stored there.

Deciding to keep in step with the times Mrs. Sara Green, 112, of Perry, Okla., had her hair bobbed.

Mrs. Morelle Brayton of Lansing, Mich., has a trained goldfish that responds to her call and eats out of her hand.

Herman Gosling of Manitou, Colo., has been an engineer for the cog railroad that runs between Manitou and the summit of Pike's Peak for 33 yrs.

Mrs. Genevieve Gordon of London had three complete winter costumes of different colors made for her Pomeranian dog, Peggy.

Mrs. Louise May of St. Louis was ejected from her daughter's wedding when she went to the bridegroom's home without an invitation.

Arthur Byrne and his family of Glasgow, were evicted from a hen coop in which they had established their home.

Charles Farnham of Cincinnati was arrested for hanging his hat on the extended hand of a traffic policeman.

Twins were born to Mrs. J. V. Lurborrow of Duluth, Minn., at a neighbor's house, while her own home was burning.

Robert Marxon of Cardiff, Wales, admitted that he paid his wife $635 to quit him and go away with a man who loved her.

Louis and Jackues Zarrines, twins, of Brussels, were married to Mlles. Margaret and Helene Barister, also twins.

William Davy aged 88, of Spilsby, Eng., walked 500 miles to complain about an error in his pension payment.

Mrs. Millie Reynolds of Chicago, asked police if she couldn't "have a vacation from her husband," whom she married 33 years ago.

Fraulein Christine Landern of Berlin was acquitted of theft when she pleaded that her uncle had hypnotized her.

Two cats, owned by R. C. Bligh, of Hammond, Ind., were routed and badly bitten when they attacked a squirrel.

Mrs. Arthur Kateon of Bath, Me., has a parrot that sings one stanza of "America".

Seventy men and women found in an unlicensed dance hall in Belfast were sentenced to attend church for a year.

Fifty years ago J. H. Lewis of Ontario, Cal., made a vow with classmates in the University of Minnesota to meet them in Minneapolis in 1928 for a reunion. After making the trip recently Mr. Lewis found that all his classmates are now dead.

STATE CAPITOL NEWS

Expenditures of State Funds for the Alabama National Guard during the fiscal year ending September 30, 1928 was more than $20,000 below the appropriation for this purpose, as shown by a detailed statement recently compiled The legislature gave the military department an appropriation for the year of $94,000 while expenditures were $73,014.07, leaving a balance of $20,985.83, which reverts to the general fund of the state. This saving is atributed to the economic and efficient handling of the affairs of the department, eliminating and avoiding any unnecesary expenditures. While the military department has operated well below it's budget, however, the various National Guard units have not suffered; on the contrary the quarterly allowances to the various units have been increased and they have received more money than ever before. Quarterly allowances are funds alloted the National Guard organizations for providing drill rooms, armories and places for storing government property, and for defraying expenses incident to the upkeep and morale of the troops.

During the past year in the operation of the military department, economics have been afected in purchase of office supplies, physical examination fo officers, emergency clerical help, telephone and telegraph charges and many other items. As one example of the manner in which money has been saved, during the fiscal year ending September 30, 1927, the sum of $2,283.07 was spent for physical examination of officers. These annual physical examinations are required by the federal government. During the fiscal year ending September 30, 1928, only $923.48 was expended for this purpose. This saving was due to inauguration of a system whereby the majority of the National Guard officers are given the required physical examination by medical officers at their annual field encampment, thus saving the payments formerly made to civilian physicians for this purpose.

As a result of the economic administration of affairs of the military department, the per capita cost to the state of maintenance of the Alabama National Guard was reduced from $27.77 in 1927 to $26.21 in 1928, while at the same time the quarterly allowances to the various organizations were increased.

Another direction in which progress has been made is in protecting the health of the men in the National Guard. The entire Guard has been inoculated and immunized against smallpox and typhoid fever, as result of an arrangement made by the Adjutant-Geneal with the State Health Department whereby this service was rendered free of cost by county health officers.

Evidence of the high standard of efficiency to which the Alabama National Guard hase been raised is shown in letters received by General F. E. Butler, the Adjutant-general of the National Guard, from several high officials of the regular army. One such communication has been received from Colonel Duncan K. Major, Jr., an officer of the general staff who is chief of staff of the Fourth Corps Area, the military district which embraces a number of southeastern states, with headquarters at Atlanta. Colonel Majors inspected the Alabama troops in the field at Camp McClellan. In a letter to General Butler, he stated:

"I think your camp was the most efficiently run of all the National Guard camps I visited this summer, and I believe that you have worked out the best scheme for the training of the National Guard at summer camps that I have ever seen."

A similar letter has been received by General Butler from Major-general Richmond P. Davis, commanding general of the Fourth Corps Area. General Davis congratulated the Adjutant-general on the "the very efficient results obtained" in the training of the National Guard o this State. He referred to the thorough preparation prior to the opening of the action prior to th opening of the encampment, the high standard of discipline and excellent morale of the troops, and the high standard conditions of mess halls, kitchen and camp.

An interesting fact for the taxpayers of Alabama, and one which is perhaps not generally known, is that the Federal Government spends several times as much toward the maintenance and instruction of the Alabama National Guard as does the State. While expenditures for the past year of State funds was a little over $73,000, the Federal Government spent over half a million dolars. Federal expenditures through the office of the U. S. Property and Disbursing Officer, at Montgomery, totalled $216,244.42. This money went for expenses of summer training camps, pay of Federal caretakers and mechanics, forage, gasoline and other items. In addition other federal expenditures, made through offices in Atlanta or Washington, included the following approximate amounts:- armory drill pay, $155,000; replacement of uniforms and equipment, $75,000; transportation to training camps, $75,000; and for regular army officers and non-commissioned officers on duty as instructors with the Alabama National Guard, $65,000.

Friends of the late Dr. Samuel Wallace Welch, State Health Officer of Alabama have organized a memorial scholarship fund to bear his name The purpose of the schloarship is to commemorate the memory of Dr. Welch, who was for eleven years State Health Officer, and who brought Alabama from a low rating to the top of the list among the states of the Union in public health work. The annual income from the scholarship fund will be used to provide scholarships and loans to deserving students to equip them for the practice of medicine.

The Board of Trustees coosen for life and serving without compensation, which will administer the fund, is composed of the following; Judge S. C. Oliver Talladega, Chairman; W. H. Boynton Talladega, Dr. Henry Green, Dothan; Judge Walter B. Jones Montgomery; Dr. Charles A. Mohr, Mobile; Dr. J. S McLester, Birmingham; Dr. A. W. Ralls, Gadsden; Erskine Ramsay, Birmingham; Dr. C. L. Salter, Talladega; Dr. Charles A. Thigpen, Montgomery; and Dr. E. V. Caldwell Huntsville The President of the State Medical Association is ex-officio a member of the Board. Subscriptions to the should be made payable to S. C. Oliver Chairman, Talladega. It is expected that many donations wil lbe received from all parts of Alabama, from persons who appreciate the work which Dr. Welch did and who wish to pay tribute to his memory and at the same time give practical assistance to medical students who are in need of aid.

Much interest is being manifested n the plan sponsored by Governor Graves for State-wide radio service in Alabama, to receive reports on crop and farm matters, and information generally, which will be broadcasted over the State's Auburn-Montgomery Birminghamimuf mfw FF MF Frrr Birmingham hook-up which will get into active operation on Christmas Day.

The plan calls for placing of radio receiving sets in every county courthouse and also in high schools and consolidated schools over the State. Such service will be of practical advantage to the farmers of Alabama by giving them data on crop and market conditions, warnings of approaching freezes, storms and high water, and also accurate information concerning crops and soils fertilization of soils.etc. It is also planned to put on educational programs for the benefit of pupils in high schools and consolidated schools Carrying into effect of this radio program calls for action on the part of local authorities in the various counties, in providing the local receiving sets. This matter will be presented to local boards at an early date.

AN EXHILARATING EFFECT

A bottle of Herbine on the shelf at home is like having a doctor in the house all the time. It gives instant relief when the digestion gets out of order or the bowels fail to act. One or two doses is all that is necessary to start things moving and restore that fine feeling of exhilaration and buoyancy of spirits which belongs only to perfect health. Price 60c. Sold by

.....An All Important Stimulus to Business

The railroads of the U. S. expended the enormous sum of $2,168,000,000.00 last year for materials, supplies, new equipment, and roadway investments. This money found its way into practically every channel of industry, was an important stimulus to all business activities, and provided employment all along the line from the production of the raw materials to the delivery of the finished articles.

By purchasing $176,000,000.00 worth of forest products, the railroads paid one-fifth of all wages in the lumber industry; by spending $439,000,000.00 for coal, they provided one out of every four dollars earned by the coal miners; and the $500,000,000.00 spent by the steam transportation systems for iron and steel requirements furnished one-fifth of the income of employees in that industry.

Thus the railroads make a tremendous contribution to the general prosperity and living standards of the country. There is no other single industry in all America that so vitally affects the immediate welfare of all classes of people, because, when the actual number of railroad employees is supplemented by the workers in industries largely dependent on the carriers, the great business of transportation becomes the backbone of our industrial life.

Railroad progress means business progress, whereas railroad retrenchment has a depressing effect on many basic industries employing millions of wage earners.

The good health of the railroads—which can result only from a reasonable return on invested capital—insures the industrial prosperity of the entire nation.

Miss Ethel Mize spent Thanksgiving with her parents in Maplesville.

Several of the Alumnae of Isabella High school spent the Thanksgiving holidays at home. Among these were: Messrs John D. Martin, Hermon White, Thomas Lecroy and Clarence Lecroy, of Auburn.

"PATTY MAKES THINGS HUM" PRESENTED BY ISABELLA

Laugh and the world laughs with you. Come laugh and grow fat when you see the play, "Patty Makes Things Hum," a delightful three act comedy to be presented Saturday evening December 15 at eight o'clock at the high school auditorium.

Patty, the pretty harum scarum girl is expelled from boarding school. She returns home in the midst of a dinner party given by her sister, honoring Miss Braithwhite, who is about to marry an American officer. She finds herself an unwelcome visitor. Patty becomes involved in a very exciting role as a waitress and from the time of her arrival she indeed makes things hum.

She bewitches all the guests with her pranks. Come see how a young British officer can make love to an American girl.

The cast of characters for this play is as follows:

Captain Braithwaite, who wasn't so slow after all—Robert Foshee.

Captain Little, who had a little misunderstanding—Gwin Williams.

MOTORING AMERICA VIEWS NEW CHEVROLET NOV. 24

Detroit, Nov. 24.—Motoring America was on its tip-toes tonight as two of its large metropolitan centers were viewing for the first time the sensational new valve-in-head six cylinder Chevrolet, which was announced November 16. Interest was keyed to a high pitch in New York and Detroit as the financial and motor capitols of the country respectively, prepared to greet this most advanced offering of the world's largest automobile producer for 1928.

The two advance showings opened simultaneously at noon Saturday, Nov. 24th, the New York premiere taking place in a brilliant setting in the Waldorf-Astoria Hotel and the Detroit debut in the Auditorium of the General Motors building. Both showings are to continue up to and including Thursday, Nov. 29th.

Chevrolet's dealers are in readiness to take care of a deluge of advance orders. For several days prior to the announcement the sales division of the company, under direction of R. H. Grant, vice-persident in charge of sales, made use of every information medium available in preparing dealers and salesmen for the advent of the new six

Tons of literature were mailed from Detroit, fully descriptive of the new product. Lighted shadow boxes with full color illustrations of the new model and slide films for projection on the screen or wall of a darkened room, proved invaluable assets in disseminating the facts. Special talking records, so timed as to synchronize with the slide film pictures and descriptions were also used and proved to be just another instance of the ingenuity the sales division exemplified in getting all the facts to its dealers and salesmen for use during this announcement period.

In the company's announcement last week of "a six in the price range of the four," there was indicated a smashing triumph for quantity production. It pointed out that the new car with the advanced features it embodies, was made possible at its price chiefly through the influence of great volume production. W. S. Knudsen, president and general manager, stated on the announcement that only volume production made possible by the tremendous popular reception accorded Chevrolet in recent years enabled the company to offer a car with the speed, acceleration, power and smoothness of six cylinder performance at practically the same price that contributed so much to the world-wide popularity of the four.

So the entire country might have an opportunity of seeing the new car before it goes on the road, January 1st, the Chevrolet Motor Company arranged a esries of eleven advance showings in as many leading cities stategically located throughout the country. The showings now under way will take form of an elaborate miniature automobile show with attractive settings and suitable entertainment features. Provision has been made to accomodate more than a million people who are expected to attend one or other of the showings that will take place from coast to coast from now until December 22. Included in the legion of automobile enthusiasts who will be in attendance during the course of the showings will be 30,000 Chevrolet dealers and salesmen, many of whom will travel 300 miles or more to be present at the various premiere showings of the new Chevrolet.

Immediately following the advance showing in New York and Detroit, there will be three other important showings. The New York cars will go to Washington for a gala opening at the Mayflower Hotel in the Capitol City, December first. This showing will continue up to and including December 4.

Meanwhile the Detroit display will be moved to Chicago, where the midwestern metropolis will see the new Chevrolet line December 1-6 inclusive. This particularly elaborate exhibit will take place in the Pure Oil Building at Wacker Drive and Wabash Avenue.

The Pacific Coast will get its first glimpse of the new line on the same day with Washington and Chicago, when the Los Angeles display is opened in the Auditorium of the Ambassador Hotel. The time required to ship cars from the Flint, Mich., factory to the coast accounts for the fact that the initial showing on the western seaboard will be seven days behind the New York and Detroit premieres. The Los Angeles showing will continue from December 1-6.

Following the showing in the Capitol city, the Washington cars will go to Cincinnati, where a similar display will be staged in the Sinton Hotel, December 8 to 14, and then to Atlanta, where the Capitol city of the old South and the home of a new Chevrolet assembly plant, will greet the cars from December 18 to 22 in the Auditorium-Armory.

At the conclusion of its six day run, the Chicago exhibit will be moved to St. Louis for a seven day showing in the Arcadia Ballroom, beginning December 8. Dallas in the center of the Lone Star staate, will be next in line, receiving the St. Louis show cars on December 18, when the display will open at the Adolphus Hotel and continue until December 22.

San Francisco will claim the Los Angeles cars on December 8 when the Pacific Northwest will view the exhibition in the Public Auditorium from run closing December 13. From San Francisco the west coast show cars will be shipped to Portland, Ore., where the Golden Gate display opens in the Civic Auditorium-Larkin Hall for a six day December 18 to 22.

THE WORLD'S BEST COAL

You Cant Fool People for 72 YEARS!

To adapt the old proverb to our purpose: you can fool some of the people all of the time, and all of the people some of the time—but you can't fool Southern people year after year for almost three-quarters of a century!

Which is just another way of saying that the constant growth, for seventy-two years, of preference for Original Genuine Montevallo Coal—first in the South since 1856—is proof positive that this really is "The World's Best Coal."

FIRST—Original Genuine Montevallo

When we say first we mean just that—the first coal mined in Alabama ever shipped by railroad—the first coal to become known and liked by *name* throughout the South. Our grandfathers burned it in their grates—and even then it was known as "The World's Best Coal," and it still is today.

Better—More Economical

This long burning, densely packed, carefully mine-inspected, impurity-free coal won leadership because it saved money and gave better satisfaction. You can actually save 25% on your fuel bill by using Montevallo Coal.

You can do more than that by ordering now when prices are way down. Save from 10 to 15% *more*. A cellar full of Original Genuine Montevallo Coal is a wonderful investment at any time—doubly so *now*.

Original Genuine MONTEVALLO Dealers Are Authorized

We carefully select our dealers. They are trustworthy firms, who will render you the service you have the right to expect in ordering the "World's Best Coal."

Order your Original Genuine Montevallo Coal from the nearest authorized dealer below. That's the ONLY way you can get Original Genuine Montevallo Coal, mined by the Montevallo Coal Mining Company, Aldrich, Alabama—and it pays to make sure you get this economical coal, not something "just as good."

AUTHORIZED MONTEVALLO DEALERS of the Montevallo Coal Mining Co. Aldrich, Ala.

EVAN PARRISH

ENGINE LUBRICATION SYSTEM OF FORD SUITED TO TYPE

The engine lubrication system of the new model A Ford car is a combination of pump splash and gravity feed which is an exclusive Ford development.

In design and in operation it is simple and positive and repeated tests have shown it to be ideally suited to this somewhat revolutionary type of four cylinder, medium-speed, medium-compression motor.

The oil pump is located in the bottom of the crankcase and is run off a gear on the camshaft. It is enclosed in a fine mesh wire screen through which the oil filters before it is pumped up into the valve chamber. The screen is surrounded by a shield so that the oil is pulled through it, rather than flowing in by gavity. The oil flows into the valve chamber in a continuous stream whenever the engine is running, but is in no sense a "forced" feed. It is rather the full load of the pump being delivered in a smooth, flowing stream. The principal purpose of delivering the oil to the valve chamber is to provide direct gravity feed lubrication to the bearings of the crankshaft. However, it also supplies exceptional lubrication for the valves, giving better and quieter action, and by gravity to the front end camshaft bearing.

Small pipe openings lead down from the valve chamber to the crankshaft main bearings and oil flowing down these by gravity provides an abundance of lubrication. The bottom of the valve chamber is so arranged, through the use of small, inbuilt dams to provide reservoirs of oil for each main bearing pipe opening.

This rather unique system of engine lubrication is responsible in large measure for the excellent performance of the motor at a wide range of speeds and under all climatic conditions. When the Model A car was in its experimental stages much of the road test work was done in midsummer, yet there never was a single instance of engine overheating.

Interesting News From Thorsby

The Thanksgiving services at the Baptist church was rendered nicely, good singing and a goo sermon was enjoyed by all.

The Thompson Brothers gave thanks by living out the admonition that it is more blessed to give than to receive. They made Thanksgiving offerings of $21.87 to Rev. W. P. Lowery and to each of the churches in Thorsby.

There will be a B. Y. P. U. Convention at the Thorsby Baptist church on Sunday, December 9th, at 9:45 o'clock A. M. All interested in this work ad especially the members of this society are urged to attend.

Miss Jessie Hester of Haynes, Ala., was the guest of Mr. and Mrs. M. E. Willis last week.

Mr. and Mrs. E. L. Fike and family motored to Birmingham last Thursday, where they spent the day with friends and relatives.

Miss Mary Lee Fike spent Thanksgiving in Prattville visiting friends, returning, she stopped in Marbury and spent the week-end with her grandmother, Mrs. J. H. Grant.

Mrs. Maggie Foshee spent the day with Mrs. Donald Merchant, last Monday.

Mr and Mrs. Fred Goddard an son Doyle, of Ohio, spent last week with their granfather, Mr. J. H. Goddord, their grandfather, Mr. J. H. Goddard, J. E. Each and Mrs. Bakke are visiting in Florida this week.

Mr. A. N. Laurell of Birmingham has bought the Eardahl place and moved in Monday. Mr. Laurell, we all bid you a happy welcome.

The Christmas program of the Helen Keller Literary Sosity will be given on Friday evning, December 14 at 7:30 in the auditorium of the Helen Jenkins Hall. It will be a pageant entitled "The Light of the World," inwhich the entire school will take part Admission will be ten cnts.

NOTICE OF APPLICATION FOR PARDON OR PAROLE

Notice is hereby given that the undersigned Virgil Headley, who was convicted on Nov. 11, 1927, in the Circuit Court of Chilton County, Alabama, for the offense of second degree forgery and sentenced to the penitentiary of the State of Alabama for an indeterminate term of two to four years, will make application to the Pardon Board and Governor of the State of Alabama, for a parole of the remainder of said term which he has not served.

This the 10th day of November, 1928.

Nov. 15-4t.-pd. Virgil Headley.

MR. AND MRS. HOLLADAYE GO TO COLUMBIANA, ALA.

Mr and Mrs. Joe M. Holladaye, who have been connected with the News, for the greater portion of the past two years, in the capacity of Editor and Linotype operator, respectively, will not be with this paper after this week.

These two good people will go from here to Columbiana, Alabama, where they have accepted more lucrative positions with the Shelby County Reporter, which is one of the best weekly papers in the state.

While Mr. and Mrs. Holladaye have been with this paper, they have rendered efficient and satisfactory service and the owner and other employees of the paper wish for them in their new place, much success and happiness. The News, under the Editorship of Mr. Holladaye, has been clean, readable and contained matters of interest to our subscribers.

In the future, Mr. Billy Smith, who has been with the paper since the present owner took over the plant, will be Editor. Billy Smith is a home product and a deserving young man. He is well and favorably known throughout this section, and with his experience already obtained, is considered capable in every respect to fill the position he assumes next week.

The management of the paper assures the subscribers and patrons that the paper will continue on a high plane and improvements will be made from time to time, to keep it up to the standard of a high class weekly paper.

COLOR IN A CAN

WE don't mean paint, but pineapple. For the pineapple also comes to you in cans and may be combined in many dishes to which it lends the piquancy of color just as surely as if an artist had taken his skilful brush to provide the charming golden hue.

Of course, every housewife is more or less of an artist in color when she plans her meal, for a meal lacking in color-emphasis will lack just that much in interest. Pineapple is an invaluable asset in carrying out the color scheme for a yellow and white luncheon and would be equally appropriate at a golden wedding feast.

Stuffed Mutton Chops

For the luncheon, Hawaiian pineapple stuffed mutton chops would be good and unusual. Wipe six French chops cut one and one-half inches thick, and make slit in the meat, cutting to the bone. Melt two tablespoons butter, add one tablespoon chopped onion, one tablespoon finely minced parsley and cook five minutes. Add two tablespoons flour, one-half teaspoon salt and one cup of well-drained crushed pineapple. Cook five minutes longer. Press this mixture into slits made in chops and hold together with tooth picks. Lay chops in shallow pan, bake in hot oven (450° F.) twenty-five to thirty minutes. When partly done, sprinkle with salt and pepper. If chops do not brown sufficiently in oven, place under broiling flame for few minutes. Garnish with parsley.

Pineapple and endive salad is appropriate for a luncheon, too. To make it, separate stalks of two heads of French endive. Slip two or three endive stalks through the center of each of six slices of canned pineapple and arrange around the outer edge of a plate covered with lettuce leaves. Combine one three-ounce cake of cream cheese, one tablespoon Roquefort cheese, a pinch of salt, dash of pepper and paprika. Press through coarse sieve or ricer and arrange in tiny lettuce leaves in center of salad. Pour French dressing over it.

A Golden Cake

For the golden wedding, what could be more appropriate than a fancy cake made with the golden pineapple? Cream one cup butter and one cup confectioner's sugar and add two and one-fourth cups flour sifted with three and one-half teaspoons baking powder. Fold in eight stiffly beaten egg whites and bake in two layers in a slow oven, 325° F., for twenty to twenty-five minutes. Put the following filling between the layers: beat six egg yolks, three-fourths cup sugar and three-fourths cup butter in the top of the double boiler until thick and creamy. Add three-fourths cup each of chopped nuts, dates and crushed, drained pineapple, and cook again until thick. Cool before spreading between the layers. For icing, mix three tablespoons pineapple syrup, two and one-fourth cups confectioner's sugar and two tablespoons butter. Cover top and sides of cake; decorate as desired.

News Items of Interest From Chilton County High School

Banquet given Football Team by Senior Class.—

On last Tuesday evening the Senior class entertained the football players of Chilton County High School with a banquet at eight-fifteen o'clock at the Wilson Hotel.

The dining room was nery beautifully decorated in the school colors, blue and gold. The table was in the shape of an F, attractively decorated with yellow chrysanthemums and gold colored place cards in the shape of a basket. At each end of the F table was standing the football goals with a football resting at the top of the goal as if being kicked over.

Toastmaster for the evening was Jack Kemp, president of the Senior class, who made the program quite a success with witty introductions. Speeches from Captain James Roberts, Coach O. V. Bruner, Mr. C. E. Stapp, and Prof. L. C. Warr were commendable and encouraging.

Various toasts were given by Tom Frank Teel, Vernon Baker, Francis Massey, Bill Minor, Ernest Meeks, Mary Nell Goodgame, Edwin Bruner, Courtland Retherford and Miss Nell Wells, a member of the high school faculty.

At the close of Coach Bruner's talk Courtland Retherford was elected as Captain of the football team for 1929. Benson Simms was elected as assistant Captain.

A four course dinner was served to the following;

Misses Robbie Sawyer, Annie Laurie Clay, McKey, Nell Wells, Sara Head Bernice Williams, Corine Polk, Francis Massey, Gladys Williams, Myra Johnson, Catherine Hayes, Mary McSwain, Mildred Duncan, Vivian Sanders, Feryl Martin, Gertie Fiquette, Clara Mae Popwell, Mary Nell Goodgame, Vera Jones, Gertrude Blalock, Lottie Scarbrough, Mrs. Washington, Mr. and Mrs. L. C. Warr, Mr. and Mrs. O. V. Bruner, Mr. C. E. Stapp, Mr. L. Knox. Messrs. Jim Roberts, Edwin Bruner, Jim Wade, Courtland Retherford, Benson Sims, Rufus Brown, Ralph Johnston, A. J. Massey, Dick Kemp, Tom Frank Teel, Hollis Moore, Lanier Moore, Ernest Meeks, Edwin Wagoner, Vernon Baker, Douglas Nelson, Bill Miner, Stanley Nivens, Chester Wingard, Amon Jones, Joe Earl Gowan, Jesse Sam Gowan, Moses and William Simpson, Samuel Martin.

We are glad to have Miss Mary Sue Robinson back in school after being out several days on account of sickness.

We are glad to have Miss Charlott Martin back in school being out several days.

Miss Bernice Williams spent the Thanksgiving holidays in Birmingham and Luverne, Alabama.

Miss Annie Lauria Clay spent the holidays at Fulton, Alabama.

Miss Sarah Head spent the holidays at Montevallo, Ala.

Miss McKey spent the holidays at Russellville, Alabama.

Miss Nell Wells spent the holidays in Birmingham and Jemison, Ala.

Mr. and Mrs. O. V. Bruner motored to Birmingham Thursday.

Mr. Knox motored to Birmingham Thursday.

Mrs. Maggie F. Washington spent Thanksgiving holidays in Montgomery.

Judge and Mrs. Eastinger of Fairfield, Ala., visited Mr. and Mrs. L. C. Warr during the Tanksgiving holidays.

Miss Josephine Martin of Greenville, Alabama visited Mr. and Mrs. L. C. Warr during the Thanksgiving holidays.

The boys of Chilton County High school will start practicing basket ball this week.

The two literary societies met last Wednesday at twelve - forty - five o'clock. Both societies had an interesting program.

The Lanierian program follows:

Scripture reading, Gertie Mae Fiquette.

Prayer, Mr. Knox.

Song, Thanksgiving Song.

"The First Thanksgiving," Feryl Martin.

Thanksgiving Proclamation, Joe VanDerveer.

Piano Solo, Sallie Mahan.

Thanksgiving Poem, Jane Roberts.

Thanksgiving Dream, Charlsie Pyron.

Tutwiler Program:

Devotional exercises, Vera Will Johnson.

Resolved: "Which was more beneficial a spendthrift or a miser, Georgie Wood, Ernest Meeks, Jesse Sam Gowan and Vivian Grey.

A reading, Cornelia Taylor.

Song, "Old Kentucky Home."

Adjourn.

Circuit Court Convened Here Dec. 3-4

The Civil and Criminal Non-jury term of te Circuit Court was held last Monday and Tuesday, with Judge Smoot presiding and Hon. Winston Huddleston prosecuting for the State.

A number of civil cases were disposed of Monday and the Court recessed until Tuesday when a docket containing over sixty cases was called and a majority of the cases were disposed of, as pleas of guilty. Several cases were tried and convictions had. The majority of the cases were for violating the prohibition law. None of the cases tried, were of major importance, and the majority of these convicted, received fines.

DR. ARTHUR JOHNSON RETURNS FROM NEW ORLEANS

Dr. Arthur Johnson returned last week from New Orleans where he had been fo some time taking a general course in medicine.

Dr. Johnson is now at his office on Second Avenue.

MAPLESVILLE NEWS

James Haggard, age 17, son of Mr. and Mrs. J. D. Hagard died last Sunay afternoon at the Baptist Hospital in Selma after an illness of only a few weeks. Funeral services were held at the Baptist church of Maplesville, with the Rev. Paul Oden, officiating. The beautiful floral offerings attested to his popularity.

Miss Blosom Crumpton and Miss Louise Foshee spent last week-end in Jasper, Alabama as guests of Mr. and Mrs. Bankhead.

The fact that there are three construction crews in Maplesville now, is evidence that undoubtedly, we are slated for some substantial growth within the near future. The crews consist of one from the Alabama Power Company, one from the Highway department, and the Aviation Light Crew.

The Fiddler's Convention last Thursday night was well represented from many different places. A nice sum was realized for the P.-T. A.

Miss Frances Brown spent the past week-end with home folks.

The many friends of Mrs. Sallie Shanks regret to learn that she emains quite ill at her daughters home, Mrs. D. L. Moorer, at Selma.

The O. E. S. will stage a play, "Union Depot," on December 15th, at Maplesville school auditorium. Laughter from begining to end.

Miss Ethel Mize was the guest of home folks the past week-end.

BOX SUPPER TO BE HELD AT UNION GROVE SCHOOL

W have been requestes to announce that there will be a box supper at Union Grov School house on next Saturday night, December 8. Everyone is urged to come. Proceeds are for needs of the school.

MRS. EHRMAN PRICE DIED WEDNESDAY AFTERNOON

Mrs. Effie Arilla Price, age 40, wife of Ehrman Price, died at her home in North Clanton last Wednesday Afternoon. The remains were buried at Liberty Hill Thursday, Rev. A. L. Foshee preaching the funeral. The body was in charge of Martin.

Mrs. Price is the daughter of W. R. Taylor of Liberty Hill. She is survived by her mother and father, as well as her husband and one child. Raymond Price, of Clanton.

BUICK MOTOR CO. RALLIES TO SUPPORT OF NEW MEASURE

E. T. STRONG
President and General Manager BUICK MOTOR CO.

Believing that the model municipal traffic ordinance recently adopted by the National Conference on Street and Highway Safety under the direction of President-elect Hoover, represents a forward step in motor transportation, E. T. Strong, president, and other executives of the Buick Motor Company have rallied to the support of the new measure.

"This new ordinance, it seems to me, is certain to result in a saving of human life," Strong declared, " as well as prove of great benefit to the traveling public in bringing about uniformity and clarity in traffic regulatons."

The twenty-five points of the new ordinance follow:

1. Recommends the creation of an official traffic body in each city to coordinate all municipal agencies in matters of traffic regulation, control and enforcement.

2. Recommends establishment of a division of traffic engineering and employment of a city traffic engineering and employment of a city traffic engineer in cities where there is a serious traffic problem.

3. Recommends adoption of uniform official traffic signs and signals.

4. Recommends the installation of traffic control signals on streets where traffic is heavy in order to speed up the movement of vehicles and safeguard pedestrians.

5. Provides that where traffic signals are used the movement of traffic shall be directed by the words "Stop", "Go" or "Caution or Wait" or by the use of colored lights.

6. Where colored lights are used "Red" shall indicate "Stop", "Green" shall indicate "Go" and "Yellow" shall indicate 'Caution or "Wait".

7. Provides that pedestrians shall be given the right-of-way over vehicles at all crossings, except where traffic is regulated by an officer or signals.

8. Provides that pedestrians shall yield right-of-way to all vehicles at all places other than crossings, but drivers of vehicles must always exercise due care for safety of pedestrians.

9. Provides that where traffic is controlled pedestrians must yield the right of-way to vehicle preceding under a 'Go" signal, while vehicels must yield to pedestrians who are crossing or have started to cross under a "Go" signal.

10. Provides rules regarding past street cars and provides that vehicles must not remain on street car tarcks after the street car has signalled.

11. Provides that railway trains and street cars shall not block the streets.

12. Provides that vehicles shall not stop in certain specified places on the streets.

13. Provides for the establishment of unloading zones for pasenger and freight vehicles.

14. Busses and taxi cabs are prohibited from parking places other than designated stands or zones, except that they may be permitted to stop at other places to take on or let offpassengers.

15. Provides that parking shall be entirely prohibited in certain places and that parking time shall be limited in certain designated places.

16. Provides that no vehicle be permitted to park in such a manner that less than 10 feet of the width of the roadway is left available for the free movement of traffic.

17. Provides that all-night parking be prohibited.

18. Provides that the use of a vehicle on the streets for the primary purposes of displaying advertising shall be prohbiited.

19. Provides that all vehicles shall keep on the right side of the street, and that slow moving vehicles keep as closely as possible to the right curb except when conditions make it impracticable.

20. Provides that right turns shall be made from the right hand curb and left turns shall be from the traffic lane nearest the center of the street. In making left turn vehicle shall pass to the right of the center of the intersection, unless otherwise directed.

21. Provides that left turns shall be made on the "Go" signal, unless otherwise directed by a police officer.

21. Provides that turning around shall be prohibited unless movement can be made in safety and without backing or interference with other traffic.

23. Provides that vehicles emerging from alleys or private driveways shall stop before proceeding across sidewalk.

24. Provides that vehicles left unattended on street shall have brakes set and engine stopped, and that parked vehicles shall be equipped with proper lights at night.

LITTLE BILLY RETHERFORD UNDERGOES OPERATION

The many friends of Mr. and Mrs. Green Retherford and family will be pleased to learn that their little son, Billy, who underwent an operation for tumor on the brain, is doing as well as could be expected at the time we go to press.

This little felow recently lost his eye-sight, and was caried to a specialist in Atlanta, this week, where the operaton was performed. While the little chap s said to be resting well, it is not yet known whether the operation will restore his eyesight or not.

MEMBERS OF DORCAS CLASS URGED PRESENT AT MEETING

Every member of the Dorcas Sunday School Class is urged to attend the monthly business meeting which will be held at the home of Mrs. Horsly White, 401 Sixth Street, on Wednesday, December 12th, at three o'clock.

CARD OF THANKS

We wish to express our sincerest thanks to those who aided us in the fire which damaged the building we occupy last week.

We are again back in business at the same location, and with the assistance rendered by volunteers, our loss was held to minimal

Thanking you again we are yours truly,

Chilton County Abstract Co.

M. D. FOSHEE, Manager

A good business man will not buy a farm or any property without first looking it over to see what it is worth. However, some will buy or loan money on land without an abstract.

Isn't it equally as foolish to buy a farm without looking it over as to buy it and not know whether the titles are good or not? Without an abstract you do not know where you are getting the land you look at or not.

Before investing in land in any way have an abstract made and be safe.

CHILTON COUNTY NEWS

VOLUME 7 — CLANTON, ALABAMA, THURSDAY — DECEMBER 13, 1928 — NUMBER 12

Fiddlers Convention At Verbena Dec. 20

Cash Prizes Are Offered Hog Callers Contest Included

Advance information from fiddlers and hog callers of Central Alabama indicates that the Annual Fiddlers' Convention to be held at Verbena High School auditorium on Thursday night December 20, will easily be the biggest and best event of its kind ever held in Chilton county, according to reports from the Verbena P. T. A., sponsors of the affair. Verbena, it will be recalled, started fiddlers' convention in Chilton county in 1921, and from the first they have been highly successful, as to number of fiddlers, quality of fiddling, attendence, and general good feeling that goes hand-in-hand with fiddlin'. This year fiddling' is featured, as usual, but an innovation for this section is included in this year's program. A $5.00 prize will be given to the best hog caller. All farmers of Chilton, Coosa, Autauga and other near by counties are warned to put all their hogs in tight pens for the night of December 20, as there will be some powerful hog callers out exercising. In case you miss your hogs you may find them headed for Verbena.

The Verbena P. T. A. informs us that ample provision is made for all fiddlers who may attend. As for the auditorium, that of Verbena High school is possibly as large and convenient as any to be found in the county. It is a part of the handsome stone high school building, seated with comfortable, movable opera chairs amply heated and lighted. The comfort of the audience is assured,

All fiddlers who are contemplating participation in the event are urged to write the President of the P. T. A., Verbena, Ala., or the W. E. G. Sutton, Principal of Verbena High School. The committee in charge wishes to stage the affair as much as possible according to the wishes of the fiddlers. Fiddlers are urged especially to send in nominations for judges, from whom three will be selected. If sufficient number of nominations are received, the editors of the two newspapers of Clanton will be asked to select one each, and then agree on the third. In the event this cannot be done, the fiddlers will be asked to agree on three before the Convention starts.

Fiddlers will be allowed accompaniment, if they wish it. Stringed orchestra's may also compete, if there are two or more, for an orchestra prize. The big cash prize of the evening, however will go to the best fiddler.

S. C. COX IS AWARDED TWO IMPORTANT CONTRACTS

Mr. S. C. Cox, of Clanton, Alabama, according to reports from the State Highway Department of Alabama, was awarded two important road contracts last Thursday. One of the contracts calls for the building of culverts on road in Bibb and Tuscaloosa counties amountnig to $23,671.50, and the other for bridge in Jackson county for $8,633.

Mr. Cox has been engaged in road contracting for several years and has completed many large road contracts for the state and several of the counties as well as municipalities.

Work on the Chilton and Coosa road from near Clanton to Rockford, will soon be under way, according to reports. It is said that surveys have been made and that the actual construction will begin soon. The opening of this road to Rockford will mean much for Chilton County and its merchants and businesses, as a new trade teritory will then be opened and Coosa County, which has been far removed from this county, due to the circuitous route compelled to be travelled.

ALABAMIAN IS GIVEN LIFE IMPRISONMENT TERM

Jeffersonville, Ind., Dec.6— Claude Lanham 25, af Speigner, Alabama, was sentenced to life imprisonment in the penintentiary at Michigan City, Ind., by Judge George C. Kopp, in Circuit Court here Thursday for the murder of Dennis Hefferman, 26, Louisville taxicab driver. Lanham changed his plea of not guilty to first degree murder, to one of guilty to second degree murder.

Lanham admitted the shooting in a confession to Sheriff Hal K. Hughes, saying he did it when he was "crazy drunk."

PARSON JACK MEETING CLOSED SUNDAY NIGHT

The revival meeting, conducted by Parson Jack and his Associated Crusaders of Righteousness, closed here last Sunday night. The meeting was conducted in the Maddox warehouse on the Montgomery and Birmingham highway.

Parson Jack preached every night for two weeks and while the congregations were not large, there was much interest manifested in the effort and it is calculated that much and lasting good was accomplished by the party while in Clanton. Parson Jack, as he is favorably known throughout the country, is a very successful evangelist, having held meetings in sixteen of the States and is now making an effort to bring to the people safe and sane evangelism, and while he is yet under forty years of age, it is believed that he is destined to become one of the outstanding evangelists of the country, at least this seems to be the desire of the evangelist and he established for himself a clean record in Clanton and made many friends for himself and party.

The music which was heard with delight by those who attended the recent meeting in Clanton, was conducted by Dr. and Mrs. Charles H. Winter of Birmingham, Ala. Mr. and Mrs. Winter proved themselves to be musicians of the highest type and Christians who were desirious of doing good, and their music will be long remembered by the people of Clanton.

At the close of the meeting in the Warehouse last Sunday night a vote was taken by the congregation present and they registered their desire to see the evangelistic party return to Clanton at a season that would be more pleasent. Mr. Maddox asked that all who were interested in the return of Parson Jack and his party to Clanton to come to the front at the close of the service and thus assure him of this desire in order that the platform or choir loft which was erected for the recent meetings be retained for use at Parson's return. Many came forward and pledged their support and it is stated that the desired amount was pledged, thus underwriting the cost of the lumber for this purpose. The time of the next meeting is not definitely known, but the month of July has been suggested and this date will very likely be settled on in the next few weeks.

Parson Jack Goes to Jemison

Parson Jack and Mr. and Mrs. Winter will be engaged in a ten days meeting at Jemison (in the Baptist Church), which opened there Monday night, December 10th. Friends of the party are invited to these services for next ten days. The meetings will be held nightly, beginning at 7:15.

JOSEPH A. HESTER, JR., IS APPOINTED SECOND LIEUTENANT

Among the thiry-nine applicants from the Fourth Corps Area that have been appointed officers in the Organized Reserved Corps, acording to a Bulletin isued by the War Department, is Joseph A. Hester, Jr., who received appointment as Second Lieutenant in the Field Artiilery.

Young Mr. Hester is one out of five applicants according to the bulletin, from Alabama to receive appointment. According to the announcement of the War Deuartment only thirty-nine applicants were successful from the states of Alabama, Florida, Georgia, Louisiana, North Carolina, South Carolina, and Tennessee.

Joseph A. Hester, Jr., is the son of Mr. and Mrs. J. A. Hester of Clanton, and has shown marked ability in his studies both in the local schools and at Auburn, where he is at present attending the Alabama Polytechnic Institute.

The people of Clanton and Chilton County are justly proud of the record that Joseph has made and we congratulate him for the success he has attained.

COLLINS CHAPEL JR. TEAM DEFEATS JEMISON JUNIORS

The Collins Chapel Junior High School basketball Team defeated the team from the Junior Department of the Jemison High School on last Friday.

The game was played on the Collins Chapel court, and ended with a score of 11 to 9.

MUSIC STUDY CLUB TO MEET WITH MRS. PAGE, TUESDAY

The Ladies Music Study Club will meet at the home of Mrs. John C. Page on next Tuesday afternoon, December 18 at three-thirty. All members are urged to be present.

SECOND TRADE DAY HERE SPONSORED BY KIWANIANS

The Trade Day which was held in Clanton last Wednesday, December 5 was the second trade day to be held here and was reportd to be a success in every way.

Many varied and valuable prizes were awarded on that day.

Both Trade Days were sponsored by the Kiwanis Club of Clanton.

REV. E. A CHILDS ARRIVES TO ASSUME DUTIES HERE

Rev. E. A. Childs, who succeeds Rev. B. L. Green as pastor of the Methodist Episcopal Church here, arrived last week to assume his duties here. Rev. Childs comes highly recommended.

Rev. B L. Green was transferred to Monroeville, Alabama as pastor of the Methodist church there.

RECITAL TO BE PRESENTED BY MUSIC PUPILS HERE

Pupils of the music class of Mrs. M F. Washington will give a recital in the auditorium of the Chilton County High School on next Friday, December 14th at seven o'clock p. m.

Everyone is most cordially invited to attend this recital.

TWO YOUNG TRUANTS MEET CO. ATTENDANCE OFFICER

Recently, Mrs. C. E. Stapp, who is the County School Attendance Officer, was traveling along one of the roads near a school and noticed two young husky boys—those typical of American boy who some times plays hookey—playing, and she stopped her car and engaged them in a conversation, whereupon they soon confidentially conveyed to her the joke they were enjoying, telling her that their teacher did not know of their whereabouts. Mrs. Stapp enjoyed the joke with them for some time and then the real fun began, when she informed them who she was and that it would be necessary for them to accompany her to the school and then the plea for mercy was in order, by the two truants.

THREE ACT COMEDY TO BE STAGED AT ISABELLA

'Patty Makes Things Hum,' Presented by Local Talent Saturday, Dec. 15.

If you planned a dinner party for a young girl who was engaged,
If you suddenly found out that you didn't have a maid:
If you called up the fish market for lobsters and they didn't have any,
What would you do, when the guests invited were many?
If a young girl expelled from school appeared on the scene,
Right in the midst of the dinner party prepared by Mrs. Green:
If there was no place card for her, wou'd you give up in despair?
Or would you continue with the party for those who were coming there?
If you wish to know he answer to these questions, then come.
To the auditorium at Isabella Hi and see our play, Patty Makes Things Hum."
Saturday, December 15th. is the date.
The time is 8 p. m. so don't dare be late.
Admission is only 15c and 25c and for this price
You'll see things that'le make you laugh not once but twice.
Are you anxious to know the characters in our play?
Then I shall tell you who they are, without further delay.
Captain Braithwaite, the British officer is played by Marvin Durbin,
Captain Little, American officer is Mr. Williams, better known as Gwin
Myrtle Durbin, is Helen Braithwaite, who is engaged to the American Officer.
Come see how well Gwin can make love to her.
Robert Lee Griffin, as Mr. Green, makes a charming host;
Rubin Cox as Hyacinth, makes a colored maid of whom anyone could boast.
Ralph Mims, as Mr. Smith, is the neighbor worth while;
Gene Griffin, as Patty Little, makes things hum and makes you smile,
Mrs. Green, the delightful hostess, is played by Nina Fay Reinhart;
Avoleen Webb, is Hope Dunbar, who almost gets a broken heart.
There's one other character Mrs. Smith, played by Jewel Foshee,
You'll laugh and grow young when our play you'll see.

B.Y.P.U. CONVENTION HELD AT THORSBY LAST SUNDAY

B. Y. P. U. Convention was held last Sunday, December 9, at the Thorsby Baptist church at Thorsby, Alabama at ten-thirty a. m., immediately following Sunday Schol.

The speakers for the day were, Miss Clyde Merrill of Alabama College, Miss Cobern of Alabama College who gave an inspirational address to the convention, Miss Evelyn Barrett of Verbena who spoke on "What My Church expects of Me As A Junior." Mr. Hunter of Birmingham, who spoke on "personal Consecration", and Mr. Joseph Heacock of Birmingham who spoke on "Reaching Chilton County's Goal".

Mr. Ralph Grant was in charge of the singing during the convention. Several business matters were attended to and disposed of. Lunch at noon was served by the Thorsby B. Y. P. U.

The convention was closed with a most able sermon by Dr. S. J. Ezell pastor of the Clanton Baptist church.

During the meeting, it was stated that the Convention hoped to visit churches where there was no B. Y. P. U. organized, and assist in organizing a B. Y. P. U. That is in the Chilton County Association. This will be done, according to information, in order to reach the goal adopted for the new year.

REEDIE TAYLOR BECOMES OWNER OF MEN'S STORE

Announcement was made last week to the effect that Mr. Reedie Taylor had purchased the entire stock of "Callen's", the Outfitters for men.

In a statement to a representative of the News, Mr. Taylor stated that the store, which is one of the popular men's furnishing stores of Clanton, would continue to operate under it's present name and in the same location.

Mr. Taylor also stated that he intended enlarging the already complete stock of goods. Mr. Taylor was a joint owner of the store with Mr. Frank J. Callen before the recent purchase of Mr. Callen's share.

S. S. CONVENTION TO BE HELD AT SARDIS

Many Sunday Schools Are Asked To Send Their Delegates

The following is the program of the Third District Sunday School convention of the Unity-Chilton Association to be held at Sardis next Sunday December the 16th.

2:15 p. m.—Devotional, by G. W. Sansom.

2:30 Sunday School as a Community builder.—Rev. T. J. Deason.

2:50 the place and use of the Bible in the Sunday School.—Rev. Paul Oden.

3:10. The necessity of a definite program (or objective) for Sunday school. —Prof. H. A. Harris.

3:25 Methods of enlarging the Sunday school and its influence.—Rev. J. D. Deason.

3:10 Business session and adjournment.

The following Sunday Schools are asked to send delegates to this convention, Maplesville, Mt. Carmel, Pleasant Grove, Ebenezer Alpine, Pilgrim Rest and Mulberry. The Superintendants of each Sunday School are urged to be present

J. E. Dennis, Dis. Pres.

NOW IS A GOOD TIME TO PAY YOUR POLL TAX

While poll tax may be paid until midnight of February 1st, 1929, it would be better to make payment now while property taxes are being paid, and attach both receipts together and place them in safe place, so that if needed in the future they will be available.

Many people pay their poll tax just before the time is out, and then place the receipt in their pocket and expect to put it with their other receipts when they get to their home, and forget to do so, and lose it. Many people have been put to considerable trouble in voting by being careless with their poll tax receipts.

Now is a good time to pay your poll tax and be ready to vote next year, when the election is called. There will no doubt, be some important matters submitted to the people of this county next year for their decision, and then those who fail to pay, will wish they had.

MOUNT PLEASANT DEFEATS THE UNION GROVE TEAM

The Mt. Pleasant Jr. High School Basketball team hung up its third victory of the year by trouncing the fast Union Grove team by the score of 45 to 8.

The Grove was loosely placed and the Union boys were no match for the faster and heavier Mt. Pleasant boys.

At the end of the first half the score was 35 to 1, but the Mount Pleasant defense lighened up its strong-hold during the last half, allowing the Union boys three field goals and 1 foul goal.

Dukes, star center for the winnners, played the first 3 quarters with a swollen hand, but he succeeded in looping 10 field goals. Edwards, his teammate netted the ball for 14 points.

Chandler for Union Grove was credited with 6 of their 8-points.

Mount Pleasant plays the Maplesville team on Friday afternoon December 21 on the former's court. These two teams are evenly matched and a game of thrills will be played.

BUTLER ASPIRES TO SUCCEED TIDWELL AS SUPT.

Huntsville, Ala.,—S. R. Butler, superintendent of schools of Madison County, has announced that he contemplates becoming a candidate for the office of state superintendent of education to succeed Dr. R. E. Tidwell, present state head, who cannot become a candidate to succeed himself.

Mr. Butler would be a candidate at the primary election a little less than two years hence. He has said that he will make legal announcement at the proper time.

His announcemer' indicated that he had been urged to become a candidate by friends of his home county and by co-workers in education in other parts of the state.

Friends here point to Mr. Butler's record as teacher and school administrator as one of progress and efficiency. Since his graduation from college he has been engaged continuously in educational work in Madison County. His experience ranges from teacher in rural schools, through the principalship of standard high schools, superintendent of city schools of Huntsville for 13 years and superintendent of Madison County schools, the position he now holds.

Mr. Butler is known as a pioneer in the work of consolidating schools Madison County was among the first in the state to consolidate small rural schools and provide transportation for children as is now being recommended in surveys through the state.

TO ERECT BRANCH PARTS DEPOT IN BIRMINGHAM

Work on construction of a building for the Chevrolet Company at Ninth Avenue, North, and Twenty-Sixth Street in Birmingham, Alabama will be started in a few days, it was announced at a sales meeting of the company at the Hotel Tutwiler Tuesday. The building will be 100 by 240 feet two stories high in front and one in the rear.

The building will be used as a distributing warehouse for Alabama and Western Florida and is estimated will cost approximately $100,000.

The land on which the building is to be constructed was purchased from the Central of Georgia Railway sometime ago and that road, the Illinois Central and the Frisco will have tracks to the plant.

HENRY T. McDANIEL OF CALIFORNIA VISITOR HERE

Mr. Henry T. McDaniel of El Centro, California, an an uncle of Prof. L. C. Warr, principal of the Chilton County High School was visiting Prof. Warr during this week, and while in town was a pleasant caller at the News office.

Mr. McDaniel left the state of Alabama during the Spanish-American War, having enlisted in the Company F., 29th Inf. and served during the entire time of th hostilities; and upon being mustered out of the service located in th valleys of California, near the Colorado river, and he tells us many intresting things about his adopted state. He is very much interested in the passage of the Boulder Dam Act which he says will mean much to develop his state and furnish the country in general with many products heretofore not so easily obtainable.

Mr. Mc Daniel, before enlisting in the United States Army, during the Spanish American War, was a resident of Gantt, Alabama and has many friends in the state who are with him, enjoying his visit to his native state.

Educational Survey Of County Closing

Teachers Are Being Praised For Their Co-operation In Work

The Educational survey which has been going on in Chilton County for some time, is now nearing completion, according to information.

During last week, Intelligence Tests were conducted at several schools in the county. Dr. H. W. James, head of the Educational Department of Alabama College, Montevallo, Alabama Miss Olivia Lawson, Associate Professor of Education of Alabama College and Misses Paulin Beard, Martha Hain, Allison Blair and Edna McInnish, students of Alabama College were conducting the Intelligence Tests over the county.

The schools visited by these people include, Jemison High School, Collins Chapl Junior High School Stanton Junior High, Providence 33 B, Oak Grove, Macedonia and Mitchell Dam. The tests were given to about five hundred pupils over the county. Tests included an Inteligence Test, Gates Primary Reading Test and Stanford Achievement.

The test papers of the different schools included in these tests are this week being graded, and it is expectd that Dr. Harmon of th State Department of Education will be here the latter part of this week.

Dr. Jams and party from Alabama College who were conducting tests in this county, commented on the wonderful co-operation received from the teachers of the schools which they visited and also from all those who were more or less connected with this work in Chilton County.

GARDEN LETTER FROM ALA. POLYTECHNIC INSTITUTE

The hotbed and coldframe should now be ready for use. If these have not been constructed you should do so at once. Details of preparation and construction are explained on pages 4 and 5 of the Alabama Home Garden Circular, a copy of which may be had on request fro your county agent or the Department of Horticulture, Auburn, Alabama

As soon in December as the hotbed is reay for use it should be planted to cabbage, lettuce, cauliflower and Brussell sprouts. In January these vegetables should be transferred to the coldframe and later the hot bed may be planted to tomatoes, peppers, eggplant" etc. In February the hardy vegetables may be transferred from the coldframe to the open, and the more tender ones transferred from the hotbed to the coldframe, there to be hardened-off before transferring to the open.

The plants in the hotbed and coldframe should be given ventilation and sunshine by removing the covering as often as weather conditions will permit. The plants should be watered as often as it seems necessary. This is preferably done in early morning instead of late afternoon, as water at the latter time often causes a condition known as "damping-off."

Winter plowing in the garden shoul not be overlooked. This not only improves the condition of the soil for next year's plantings, but it will destroy many insects and diseases that become active with spring weather. It should be thoroughly plowed several times during the winter.

Barnyard manure should be broadcast over the garden soil during the winter. This will not only be adding organic matter to the soil, but since the elements contained become available, it will be of more benefit to the spring plantings where allowed time to decay.

A recent survey of Alabama home gardens revealed many interesting facts to the writer of this monthly letter. Some gardens were found with a large variety of fresh vegetables, indicating that advantages was taken of opportunities for late summer and fall plntings. Many of our gardens, however, indicated a laxity in garden interest during the fall, and as a result the variety of vegetables is quite limited. Some gardens visited during November had as many as sixteen different vegetables, while far too many had only two or three.

Let's begin now to plant next year's garden and have a supply of fresh vegetables each month in the year.

Julian Brown
Extension Horticulturist.

News Items of Interest From Chilton County High School

The Senior Class is studying the Play of Macbeth in English. Macbeth was played in Birmingham Saturday night, December 8, and the following of the class went up to see it. FUNNY OCCURANCE CONECTED WITH AUTO ACCIDENT

Last Monday afternoon, Mr. M. L. Robertson, who is connected with the Birmingham News and who is a resident of Clanton, was on his way to Birmingham, when Mr. L. W. Rogers, who is with the General Securities Finance Company of Birmingham, and who was on his way to Clanton, is said to have collided with him, on the Birmingham-Montgomery highway, about five miles north of Jemison.

The Dodge car which Mr. Robertson was driving, received damages to the extent that the left front wheel, fender and running board will have to be replaced, while the car driven by Mr. Rogers received considerable damage A wrecker from Franklin Garage in Thorsby towed the cars in.

The car driven by Mr. Rogers swerved from the road and landed in a ditch near a telephone pole.. While matters were being fixed up, a Mr. R. B. Whorton, who is with the Toledo Scales Company, as service manager of Montgomery, was approaching in his car, and as he neared the scene of the accident, a bird dog attempted to cross the road in front of the car, and in trying to avoid hitting the dog, Mr. Whorton swerved his car to one side of the side and lost conrol, as it is repored, and after hiting he bird dog, his car landed in the ditch where the car belonging to Mr. Rogers was. Mr. Whorton's car was almost demolished, and Mr. Whorton is said to have received a fractured rib and several cuts and bruises.

INITIATION HELD AS BASIS OF DAMAGES IN $100,000 CLAIM

Charging that her husband Harry L. Custred, died Nov. 23, 1926, as a result of an initiation into the order of Kamram Grotto, Mrs. Willie F. Custred filed suit against the order in Circuit Court Saturday.

The plaintiff charges Kamram Grotto and its agents with negligence in connection with initiation of her husband into the order. She further charges that as a result of the initiation her husband was caused to suffer from paralysis of the spine, which is alleged to have caused his death three years later. The initiation took place the night of June 7, 1923.

After receiving injury to his spine in the initiation, the petition avers that he was treated by several doctors but never recovered from the spinal injury Although after several months of treatment, Custred was able to work again, he never wholly recovered, it is claimed in the suit.

Presupre on the spinal column at the place of the injury is claimed by the plaintiff to have caused the sudden death of her husband. It was stated by doctors the petition avows, that death could have been brought about earlier had pressure been applied to the injury.—Birmingham News.

NOTICE OF APPLICATION FOR PARDON OR PAROLE

Notice is hereby given that the undersigned who was convicted in the Circuit Court of Chilton County, Alabama, on the 8th day of April, 1927, for violating the Prohibition Law and given a sentence of Three Months, at hard labor for Chilton County, Alabama, will make application to the Governor and Pardon Board of the State of Alabama for a pardon or parole of the said sentence.

This 8th day of December, 1928.

Activities Of C. E. Stapp As Co. Agent In Chilton County During the Past Year, 1928

During the last year I have put forth an effort to help bring about better conditions in Chilton County. I have tried to do my work in a way that I could look back over it at the end of the year and the years to come and feel that I rendered real service to my county and had a part in making it a better place to live.

I have carried our Extension work into more than thirty communities in the county this year and hope to be able to cover more territory and render better service next year, because I am better acquainted and have a much better organization back of the work advising me about the needs and ways of bringing about needed changes.

I think that my work with the club boys this year has been very successful. I have clubs of boys in twenty-two communities with a total membership of 320 boys. I have had four meetings with each one of the twenty-two clubs this year at which time I have let the boys pile on my car and other cars when needed and we spent sufficient time together to visit each boy's project where we compared methods of doing things and resuls obtained. In this way the boys who had corn projects got to see what the boys were doing who had cotton, pig, poultry, calf and strawberry projects as well as to compare their results with other corn club members. I always tried to take them to visit some demonstrations and places of interest.

I had one big Club Rally in Clanton in April when Judge Reynolds, Mr. Dennis, the bankers and other leading citizens made inspirational talks to the boys.

I held one splendid three-day camp in August for the boys at which time I tried to put over such a program as would make each of the 120 boys attending it have an enjoyable and profitable time. My work with the boys this year has been expensive for me, but if it has taught even a few of the boys to be a close observer and impressed them to take advantage of opportunities and develop into real and worthwhile citizens, I will be happy. Eighty-six of the first boys to make reports on their work showed an average yield of 367 pounds of lint cotton per acre at more economical figures than did ninety-four good farmers of the county who reported an average yield of 271 pounds of lint per acre. Thirty-one of the first corn club boys to report showed an average yield of thirty-six bushels per acre, while eighty good farmers from whom reports were secured showed an average yield of only 17.7 bushels per acre.

Soil Work

I have held 73 meetings this year where I tried to bring to our farmers' attention the results of the Experiment Station on soil-building crops, such as summer and winter legumes. Largely as a result of this work this year, about 36,000 pounds of vetch and Austrian peas have been planted this fall to be turned next spring as soil improving crops.

Even though this is one of the best terraced counties in the State, I have held 21 terracing demonstrations this year where I have stressed the importance of keeping the soil from washing away, and at the same time discussed best methods and most economical ways of building terraces.

I have held about 75 meetings and field trips on fertilizers for various crops at which time I have not merely given my ideas, but have given our farmers the results and facts as found out by our Experiment Station officials relative to kinds of fertilizers for various crops and best methods of applying same, etc.

I cooperated with the strawberry growers in holding seven good field meetings at the beginning of the last shipping season, where through the aid of some of our most experienced and successful growers and shippers we gave demonstrations in proper picking, grading, packing, etc., of strawberries with splendid results. The growers have asked for similar service next spring.

In meetings all over the county I have given facts as found out by our Experiment Station relative to varieties of seeds, trees, plants, etc., best adapted for this section, and in addition, have picked up many valuable suggestions from our best and most experienced farmers and carried them on to other farmers.

I have held 40 home orchard meetings advising and demonstrating proper care of orchards.

I have held 77 poultry meetings where I have demonstrated methods of culling the non-producers from the producers and where I have talked on proper breeding, housing, feeding and general care of chickens.

Farm Bureau

Extension work without the aid of some kind of organization has long since proven unsuccessful. Realizing the need of a good, strong organization of farmers in the county, I began working at the beginning of the year to set up a good farm organization. We had about 22 Farm Bureau members in the county to begin with and around these I have managed the setting up of a good, strong organization with 210 members. The Farm Bureau is officered by some of our best farmers namely, Mr. J. N. Dennis, president; W. L. Popwell, vice-president; H. G. Boyd, president of the Peoples Savings Bank, as Secretary and Treasurer, and the following directors: T. Frank Patterson, Ellis Mims, H. R. Oden, J. S. Weldon, W. M. Oden, L. G. Posey, E. R. Piper, I. M. Deason, and O. H. McDowell. Through this organization and with the advice of the above men, I have aided farmers this year in the handling cooperatively, to any and all farmers who wanted to cooperate, 997.3 tons of fertilizer valued at $30,282.60 at a saving of about $1,994.00, 25,416 pounds of vetch and pea seed valued at $2,769.45 at a saving of about $600.00; $2,970.74 worth of chickens at a saving of about $336; and many other items including oats, wheat, rye, rape, inoculation for seeds, insecticides and spray material, dynamite, windmill, lime, and lime spreaders, feeds, etc., valued at $2,057.51, and at a saving of approximately $500 to our farmers, or the total cooperative buying and selling to the amount of approximately $92,080.70 at a direct saving of approximately $4,030.00. This cooperative buying and selling without doubt helped stabilize the markets and resulted in a saving of many thousands of dollars to the farmers of this county that we cannot account for.

When called upon I have worked with and operated with all forces of the county that are working for the progress and development of the county. I have visited practically every school in the county and some of them many times, and have tried to make inspirational talks to the boys and girls and do my part in encouraging our educational work in every way. I have aided parent-teacher organizations and schools without such organizations from time to time, and in fact, almost every week in putting on programs for raising money for their schools, all of which has been a pleasure.

In presenting my work this year I have visited 745 farmers on 600 farms, held 637 meetings with a total attendance of about 9,641 persons; have had approximately 2,776 callers at the office and some 486 telephone calls. I have written 72 news articles for the papers, 990 individual letters, 42 circular letters, and mailed out a total of 20,666 copies of same. I have on display at my office for free distribution Farmers' bulletins, covering more than 300 subjects and I judge that this service is appreciated, because of the fact that more than 4,200 bulletins have been taken by people interested in the subject covered.

I have traveled more than 24,000 miles this year in trying to do my part to make Chilton County a prosperous county and finer place in which to live.

I have thoroughly enjoyed my work this year. I think that we have a wonderful county, and that thru the united effort of all forces working for the progress and development of the county, we will make remarkable progress within the next few years.

C. Reese Mullins—Half dozen bottles Singer Machine Oil to Mrs. G. L. Glasscock.

Clanton Kiwanis Club—$10.00 in gold to J. G. Wood.

O. M. CARTER GIVES ADVICE TO BATTERY OWNERS

"Battery trouble during the winter months is mostly caused through ignorance or neglect on the part of the battery owner," claims Mr. O. M. Carter, local dealer in Willard Storage Batteries.

"With but little care—at regular intervals—your battery will give you uninterrupted service throughout the winter. This care consists of not only using the starting and lighting system conservatively but of frequent testing for specific gravity which should be kept at the proper density.

"While a partly discharged battery will operate fairly well during warm weather extreme cold temperatures will reduce the efficiency by more than fifty percent. A cold and stiff motor is also a severe drain on the battery. Because of this fact it is imperative that the battery be kept fully charged during the winter in order to obtain maximum efficiency," Mr. Carter says.

"A battery put in storage for the winter will continue to discharge at a slow rate. Because of this constant discharge, while out of use, it is advisable to store your battery in a service station where it will get expert care during its inactive period," concludes Mr. Carter.

BILLINGSLEY

Rev. Stafford from Plantersville preached a very in teresting sermon last Sunday night. His subject was, "Influence." He was accompanied by his wife and son, and will be pastor of the Methodist church here for the ensuing year.

The Woman's Missiionary Society of the Baptist church is observing this week as the Week of Prayer for Foreign Misions. They will meet at different homes here during the entire week.

Mr. Brasher Mr. and Mrs. Johnson and children of Chelsea were the guests of Mr. and Mrs. P. L. Donohoo the past week-end.

Mr. and Mrs. W. J. Patrick and daughters Inez and Willie Jean spent Sunday in Selma.

Mr. and Mrs. T. L. Patrick and daughter Maude Lee spent Thursday in Montgomery.

Mr. and Mrs. C. D. Golson of Prattville. Mr. and Mrs. Arnie Powell and little daughter Dorothy of Verbena, spent Sunday with Mr. and Mrs. J. F Baxter.

Mrs. J. J Traywick was in Montgomery last Monday shopping

Mr. Pryor Faulk was here last Monday representing Faulk Brothers, wholesale house of Prattville.

DR. EDGAR TO BE OUT OF OFFICE SEVERAL DAYS

Dr. J. E. Edgar, dentist, states that he will not be in his office on next Friday, Saturday nor the following Monday and Tuesday.

Buy your Christmas presents at the Dorcas Class Bazaar—fancy work, children's dresses, potted bulbs and cakes. Something to suit the taste and pocketbook of everyone. Bazaar will be held in the new Mullins building, Saturday, December 15, 1928. 2t

Mris Armstrong Eentertains Honoring Daughters Birthday

Mrs. G. C. Armstrong entertaned last Wednesday Dec. 5 in honor of her little daughter's birthday, Mary was ten years old and all of her little friends came to help her make this occasion a happy one. The home was beautifully decorated with Christmas decoration. The bells and tinsels were arranged throughout the living and dining room, and the lights shaded with Christmas shades which made the occasion have the Christmas spirit. A contest was enjoyed during the evening.

Harold Lawrence winning the boys' prize and Hilda Hart won the girls' prize Later in the evening, hot chocoalte and Christmas cookies were served to the little guests, who also received dainty little souvenirs from the hostess.

The utilities of a city are combined in your motor car

YOUR automobile is something like a miniature city. There is an electric light and power system, a water system, a fuel system.

In the new Ford, you will find each of these systems of the latest design and best materials. Every part has been made to serve you faithfully and well at a minimum of trouble and expense.

Take, for example, the generator—one of the most important parts of the electrical system which supplies the current for lighting and for engine ignition.

In the new Ford, the generator is of the power-house type and is distinctive in many features. It has been specially designed to prevent most forms of trouble. Oiling is necessary only once a year. About the only thing you need do is to have the charging rate changed as the seasons change.

Closely allied to the electrical system is the ignition system. It, too, is of new mechanical design in the new Ford. There is but one high tension cable and that connects the coil with the distributor. Even cables from the distributor to the spark plugs have been eliminated. Special care has also been taken to make the distributor water-proof, thus preventing short circuits from rain, etc.

The entire electrical and ignition systems of the new Ford are so simple in design and so carefully made that they will give you surprisingly little trouble. Yet that doesn't mean they should be neglected. Certain little attentions are needed from time to time.

The storage battery should be given water and the connections kept clean. The generator charging rate should be changed as indicated. Spark plugs should be cleaned at regular intervals. Distributor points should also be kept clean and the distributor cam given a light film of vaseline every 2000 miles.

These are just little things, but they mean a great deal to your car. You can have them looked after at very small cost by the Ford dealer when you take the car in for oiling and greasing.

A thorough checking-up at regular intervals will lengthen the life of your car and give you many thousands of miles of carefree, economical motoring.

BOOST OUR HIGH SCHOOL

Selling the Chilton County High School would be a pretty hard undertaking, if we expected to get a cash consideration, that would be adequate and fair for it's real value. The property is worth considerable amount of money, and it would make a splendid apartment house or hotel, and in fact it could be used for many purposes.

But we are not out to sell the physical properties of the school. We have an interest in it. Our interest is a valuable right, and one that we appreciate. Some dividends have already been paid, in our interest, but we are not satisfied with small dividends. We want to see them grow bigger and bigger.

Now the thing we want to do is to call your attention to the fact that every citizen of the town and county has an interest in the school. We want to sell the idea that the Chilton County High School is the best in the State. If we make up our minds that it is, we will make it so, although it may not in truth and fact be the best.

No axe to grind, but we want to see the Chilton County High School put on the top rung.

"Fire plug is opened, town tank is emptied"—Dadeville Spot Cash. Well, that's one way of making a town bone dry at he wrong time of the year.

Lord Burghley of Petersborough, Eng., the famous English sprinter, has been appointed a county magistrate.

J. H. Whitley of London, retiring speaker of the House of Commons, has been granted a pension of $20.000. the largest ever recorded.

Great Britian' highest mountain, Ben Nevis, 4,400 feet, has been climbed by Joseph Taylor of Edinburgh on a motor cycle.

A. L. Duncan, aged 77, of Southampton Eng., has crossed the Atlantic 140 times.

After a three hour battle, Ed Steadman of Beaumont, Tex., hauled in a 2.100 pound sawfish 16 1-2 feet long from the Gulf of Mexico.

Forty-five minutes after they were married in Riga, Russia, Ivan Kosloff and his bride obtained a divorce, both charging cruelty.

FARM AND HOME FACTS

"Terrace land, remove stumps and trees, get rid of hedges, and make bigger fields in order to use more power and machinery and make more money farming."—J. B. Wilson, Auburn.

Rat control is a community problem. When the majority of people of a community make up their minds to get rid of rats they can do it.

The farmer who manages to double his acreage without reducing his production per acre is making farming pay him more than twice as big a net income.

"My garden is an honest place. Every tree and every vine tell after two or three months exactly what sort of treatment they have had."—R. W. Emerson.

Otto Brown, extension forester, Auburn, likens trees to a savings account. Take care of them and harvest only those that are ready for harvest and they will produce an income each year.

A good radio receiving set is no longer a luxury. It is a necessity for the farmer who wants to keep up with progress and have the best in music and entertainment for himself and family."—L. N. Duncan, Auburn.

The "loafer hen," eats much and lays little, is the greatest drag on farm poultry flock profits. Replace non-layers with good reliable stock, says the U. S. Department of Agriculture, and watch the profits grow.

W. S. Knudsen, president and general manager of the Chevrolet Motor Company, reputed one of the most conservative executives in the industry, predicted at Detroit last week that Chevrolet production schedules for the coming year would call for an output which would equal at least 1,250,000 cars and trucks.

Fifteen mammoth factories throughout the country, according to Knudsen, are now working at top speed building the new six. Cars are being distributed to the dealer organization as fast as they come off the line, so that as many as possible will be on display and ready for delivery December 20.

The tens of thousands who have already placed orders can feel assured of early deliveries, Mr. Knudsen said, when they bear in mind that 90 days after the introduction of the 1928 car more than a quarter million of the were on the highways in owner after the January announcement, a half million cars were in use. And before October 1 the company established a record of building and delivering 1,000,000 cars which Mr. Knudsen refered to as the greatest single achievement in the history of the automobile industry.

Mr. Knudsen's optimism over the forthcoming year, he explained, has its basis in continued prosperity and in what he interprets as a well defined preference on the part of the public for the six cylinder car. "The coming year will find national prosperity solidly entrenched, and Chevrolet, with a new and improved product carefully designed to meet public preference, is prepard to handl its full share of the coming year's business growth," he said. "All of our production facilities are being keyed up to meet the rising demand so that Chevrolet will be able to make deliveries as rapid'y as our precision methods permit.

"The year just coming to a close found Chevrolet preparing itself for the advent of the new six. Numerous expansions were brought to completion, adding to our facilities several hundred thousand feet of factory floor space. The natural result of all this has been an increased productive capicity.

"With these expanded and improved facilities, and our new and improved product which is to sell at virtually the same price as our four cylinder cars, we feel assured of marching toward new records this year, at the same time striving to our utmost to maintain in full the public's confidence in the Chevrolet Motor Companys."

Mr. Knudsen concluded by expressing his gratification at the reception which the new six is being accorded every place it has been seen at advance showings. Upwards of one million persons in a dozen cities have already seen the new car.

PRICES REDUCED. Pecan trees, Satsuma oranges and ather standard fruits and ornamentals. Quality best. Poperly grown. Prompt shipment.

DIZZY
Lost Appetite

Mr. M. F. Fink, of Harrisburg, N. C., says: "It must have been fully twenty-five years ago that I began taking Black-Draught regularly.

"I was in town one day, and while talking to a friend I stooped over to pick up something. When I straightened up, I felt dizzy. I spoke to him about this and how I had not felt like eating.

"My friend told me to take some Black-Draught. I knew my mother had used it, and so I bought a package. When I got home, I took a good, big dose, and the next night, another. In a few days I felt much better.

"A good many times I have had this dizziness and a bad taste in my mouth, or headaches, and then I take Black-Draught and get better. I do not have to take it very often. We buy from five to seven packages a year." Try it! C-127

Thedford's BLACK-DRAUGHT for Constipation, Indigestion, Biliousness

We guarantee Gold Dust and Ca-Mi-Co Flours to be Equal to or Better than any other Flours sold in America regardless of price
Cool Weather
is the ideal time for hot biscuits. They're good for breakfast, lunch or the evening meal.
Naturally the best biscuits are made from good flours and it is well to ask for Cadick's Gold Dust (It's White!) or Cadick's Ca-Mi-Co (It's White!). Both of them are fine and the latter is self-rising.

Chilton County Abstract Co.
M. D. FOSHEE, Manager

A good business man will not buy a farm or any property without first looking it over to see what it is worth.
However, some will buy or loan money on land without an abstract.
Isn't it equally as foolish to buy a farm without looking it over as to buy it and not know whether the titles are good or not? Without an abstract you do not know where you are getting the land you look at or not.
Before investing in land in any way have an abstract made and be safe.

M. D. Foshee Clanton, Ala.

NERVOUS IRRITABILITY

Do you become irritated at trifles, lie awake nights, start at sudden noises? Better look out for your nerves or you will have a serious nervous breakdown.

Dr. Miles' Nervine is a good nerve medicine to take under these conditions. Used with success for nearly half a century. Try it for Nervousness, Sleeplessness, Neuralgia, Nervous Dyspepsia, Nervous Headache, Neurasthenia
If you would like to try Dr. Miles' Nervine, we'll send a generous sample for 5c in stamps.

STATE CAPITOL NEWS

Alabama's pioneer work in the erection of toll bridges through the agency of the Alabama Bridge Corpration, assumed concrete form during recent days, when bonds were sold and and contracts were let for the fifteen toll bridges authorized by recent act of the Legislature. Actual construction work wil get under way within two weeks, and contracts call for completion of the last of the bridges by August 1, 1930.

Alabama is the first state to successfully launch a program of bridge construction by a corporation composed of State department heads and inquiries have already been received from a number of states for information as to how it is done, with a view to following the example of this state. Creation of the State Bridge Corporation made necessary the adoption of a constitutional amendment in order to provide funds to build the bridges so urgently needed over the navigable streams of the State. The Alabama Bridge Corporation is composed of Judge Woolsey Finnell, the State Highway Director, Henry S. Long, Chairman of the State Tax Commission, and Charles Moffeat, Chairman of the State Board of Administration. These men and their assistants perform their duties in carrying on the bridge building program without any extra compensation whatever. The Corporation was authorized to sell bonds in the amount of $5,000,000, and the bonds have already been disposed of bringing a premium of $4,000. The fifteen bridges for which contracts have been let, will be used as toll bridges only for a sufficient time to retire the bonds used in financing their construction, after which they will be free public bridges. The constitutionality of th bridge corporation act has been approved by the Supreme Court of the State, and also by the attorneys of big financial interests which have bought the bridge bonds.

The location of the bridges will be as follows:—over the Tombigbee river, five, at Cochrance, Gainesville Butler, Epes, and Jackson; over the Tennessee River—three at Scottsboro, Guntrsville and Whitesburg; over the Alabama, two at Miler's Ferry and at Claiborne; over the Black Warior, two at Demopolis and at Eutaw.

Total cost of contracts for construction of these fifteen bridges was below the $5,000,000 authorized by the Legislature the amount of the contracts totalling $4,285,824.01.

The bill creating the Alabama Bridge Corporation under the provisions of which the bridge building program is operating, was introduced in the Legislature by Colonel J Lee Long, speaker of the House of Representatives and veteran Legislator from Butler County.

All but 14 of the 67 counties of Alabama either have county child welfare organizations actively functioning or have taken the necesary steps to begin child welfare work on January 1st. Evidence of the tremendous strides being made in this State in protecting and conserving child life is shown by the fact that on October 1927, there were only 14 counties organized for child welfare work, while today there are 53 organized counties, leaving only 14 unorganized.

The forward movement in child welfare work as in public health and educational fields, was made possible by the greatly increased appropriations made available for this humanitarian work by the Legislature of 1927. The system of county organization embraces a county child welfare board, and a county superintendent of child welfare, who acts as probation officer for the court, enforces the compulsory education law and acts as a leader in matter generally relating to the welfare of children.

The fourteen counties which so far have not established a child welfare organization are Culhman, Blount, Clay Chilton Randolph, Bibb, Elmore Macon Russell Barbour, Geneva, Wilcox, Greene and Sumter. Of these counties it is believed that Chilton, Geneva, Cullman and Randolph will organize and take up the work in the near future.

Announcement was recently made from the State Child Welfare Department of a list of young women who have completed the course in social service at Alabama College, and will soon be given duties as Child Welfare Superintendents in various counties. The list comprises; Misses Opral Adams, Ida Ray, Kathryn Welch Lucile Green, Mary Carroll, Lois Goodman, Ethel Morrison, Meda Pyrd, Bess Elrod, Alleen LeCroy, Agnes Grimsley and Anne Council, Mrs. Mar Moore English, Mrs.R. R. Nettles and Mrs. Cleta W. Davis. All of these workers are college graduates and have at least three years teaching experience. The qualifications prescribed for these child welfare workers are in line with the high standards which have given Alabama an enviable rank among the states in child welfare work.

The State Fire Marshal's Department has been busy in recent months running down arson cases, and has been securing excellent results, as shown by the number of indictments secured . During the past three months. a dozen indictments on arsn charges have been obtained, three at Ozark and three in Mobileshrd taia oioi ooa and three in Walker County, two in Birmingham, two at Eufaula, one at Mobile and one at Cullman. One of the indictments in Walker County went back to the burning of a coal tipple in 1921. The deputies of the State Fire Marshal are also waging an active campaign of school inspection over the State to make schools safe for the children.

Acording to the State Fire Marshal, D. M. Slaughter, more incendiary fires are caused by spite and desire for revenge than any other cause, not even excepting desire to collect insurance, which is also a potent factor among the causes of arson.

Purchase of a new demonstration farm of 113 acres, at a cost of $8,723, at the Abbeville State Secondary Agricultural School was recently announced. The farm is one of a number of demonstration farms authorized by the Legislature of 1927.

"... and be sure to keep plenty of good oil in the crankcase. We use Pan-Am in our demonstrators."

Your 1929 car *especially* needs an oil like this

PAN-AM 100% FROM PURE PARAFFIN BASE OIL MOTOR OIL — GASOLINE — PAN-AM — MOTOR OILS

ANY car runs smoother and sweeter with Pan-Am motor oil in the crankcase. And in the newest cars an oil of this type is almost a necessity.

For they depend upon greater engine speeds to deliver their better performance. That means terrific heat and vastly increased wear.

Under such conditions you need an oil that will keep its body in spite of heat and friction. An oil like Pan-Am!

This motor oil is tougher and sturdier because it is refined with unusual care from pure paraffin-base crudes.

Try Pan-Am in your car new or old. Every dealer has a chart showing the correct grade for each model of all makes of cars.

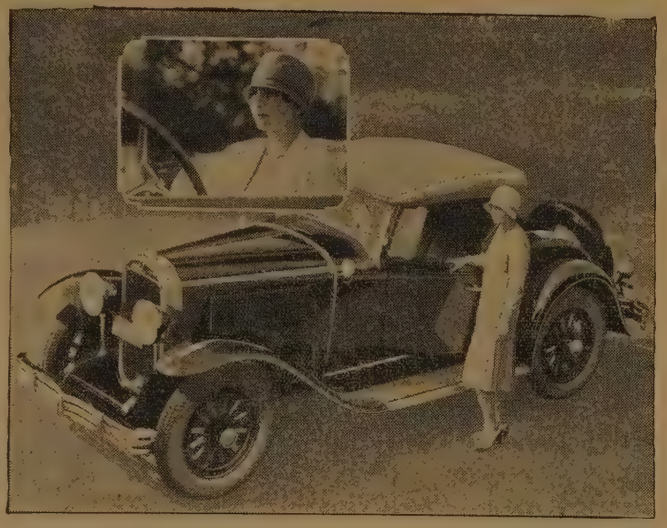
He is survived by his wife, three daughters, Ellen, Lillie and Kathryn, and two sons, Albert and Ocie of Wetumpka, Alabama.

AN EXHILARATING EFFECT

A bottle of Herbine on the shelf at home is like having a doctor in the house all the time. It gives instant relief when the digestion gets out of order or the bowels fail to act. One or two doses is all that is necessary to start things moving and restore that fine feeling of exhilaration and buoyancy of spirits which belongs only to perfect health. Price 60c. Sold by

UPCHURCH DRUG CO.

King of Cars for Court Queen



Helen Wills, monarch of all she surveys in the realm of tennis, has purchased a new Silver Anniversary Buick for her personal use. Known on the Pacific coast for her ability as an artist almost as well as for her tennis, she believes the new Buick is the new vogue in motordom. In the photograph, Miss Wills is shown with her new roadster.

Isabella High School News

An unusual program was rendered at Chapel, by the Poe Literary Society, Wednesday, December 5, when a mock trial was held for the purpose of proving that Herman Lecroy, on the night of November 26, tried to break into Mr. John W. Foshee's store at Maplesville. "Mr. Lecroy was tried before the most reliable judge, in Chilton county, Mr. Robert Forshee. Witnesses, Claud Conoway Ralph Mims, and Jerry Ratcliff brought forth very substantial evidence against the culprit, stating that on the night of the 26th, the aforesaid criminal was seen in Maplesville about 9 o'clock running from Mr. Foshee's store with several large sacks in his hands, in which he was carrying tools. After a heated argumentation and discussion among the jury, they declared Mr. Lecoy, as being guilty of the charge, so he was brought in by Sheriff. James Burnett, and given a fine of $200 with 6 months imprisonment.

The P. T. A. held its regular meeting Thursday at the auditorium of the school house. The topic for discuss was "The Importance of Health." The Senior I Girls gave a Health play showing the value of cleanliness, substantial foods, and good health to individuals. Miss Mary Thweatt told about some new aspects of health. Miss Jones and Mr. Chambers discussed the importance of enforcing health rules, both at home and at school and gave charts that the boys and girls observe daily in their routine. The program was concluded by a rumnery, given by the president, Miss Maddox, of how parents could help teachers, and how teachers could help the children to promote their interest in building up strong and healthy bodies.

The basketball team of Maplesville High School played Isabella boys on the latter's court last Wednesday afternoon. Considering the fact that it was a practice game and the first practice of the season, both teams played well and showed the probability of good teams for the season.

HOSPITAL NEWS

Mrs. W. T. Baker was discharged last week.

Master Arland Langston of Jemison was operated on for appendicitis Sunday.

Mrs. Mack Baker was operated on Tuesday.

Mrs. Euell Woodyard went home Monday.

Mrs. Joe Grooms who was recently operated on for appendicitis was discharged Tuesday.

Mrs. Mattie Pounds is somewhat improved.

Mrs. W. A. Scarbrough was admitted Tuesday following a stay in a Montgomery hospital.

Mr. Tom Hilyer of Cooper, has returned home much improved.

Clinton Kirkland of Calera is in the hospital following an auto accident.

At Verbena High School auditorium on Thursday night, Dec. 20 will be held what promises to be the biggest Fiddlers' Convention ever held within a radius of many miles. This is the 1928 Annual Convention. Remember the date. $$$ in prizes to best fiddler; other useful and valuable prizes to others. $5.00 will be awarded the best hog caller present.

4-H CLUB MEMBERS AT NATIONAL MEET

Auburn, Ala., Dec. 10.—Eight 4-H club boys and girls who are prize winners represented Alabama at the seventh National 4-H Club Congress in Chicago, December 1-7. Those making the trip were Pauline Lynch of Clay County; Alfred Montz of Hale County; Collis Williams, Bullock County; John Brooks, Marion County; Edwin Roberson, Talladega County; Eline Benefield, Cullman County.

With these boys and girls were Miss Bess Fleming and T. A. Sims, Extension service workers of the Alabama Polytechnic Institute, who are state leaders in 4-H club work for boys and girls.

Six of these trips were awarded by Alabama fairs. The State Fair at Birmingham awarded two and the State Fair in Montgomery awarded four. In making the award, yield, exhibit, cost, and record book were used.

John Brooks of Marion County won a trip offered by the Illinois Central Railroad. Thelma Sheppard of Tallapoosa County won a trip offered by Montgomery Ward & Company to the girl having kept the best record of her four successive years of club work.

Annually Alabama sends her outstanding boys and girls to the Club Congress in Chicago. To win one of these trips a boy or a girl must do exceptionally good work. Although only a few can win it is said that thousands of these youngsters are influenced and stimulated by the offers, each hoping to win.

FARM AND HOME FACTS

Hogs should have extra bedding during cold weather.

Terraces built during winter will be settled before spring.

Hotbeds for planting in January should be prepared in December.

Turkish paste made with fruit juice is a good confection for children.

Celery seed may be planted now in coldframes for the spring crop.

Beef cattle and yearling need a shed to protect them during winter.

To freshen old or wilted vegetables soak them in cold water for two or three hours before cooking them.

The assistant secretary of agriculture at Washington has said that now is the best time in 30 years to buy farm lands.

It is well to make an inventory of the farm machinery on hand and determine the new machinery which will be needed to do the job of farming next year and in future years.

The new radio station WAPI at Birmingham is expected to go "on the air" about Christmas of this year. It will have power enough to cover Alabama and most other states of the nation.

"Timber is a farm saving bank to be drawn upon in time of extra need. The trees are the capital or principal; new growth is the interest. Each day the interest is added—and the cashier cannot run away."

NEWS IN BRIEF

Walter N. Campbell, of Nashville, is the manager of the new radio station WAPI at Birmingham, according to announcement made at Auburn. His appointment is effective Dec. 15. He is an experienced radio manager.

A kitchen cabinet, a serving table or wheel tray, a fireless cooker, a dish drainer, a folding ironing board are some of the useful Christmas gifts welcome to any homemaker which may be made at home at small expense.

The gross income of American agriculture for the crop year 1928-29 is estimated at $12,253,000,000 as against $12,127,000,000 last year. This estimate was made by the Department of Agriculture at Washington. It was pointed out that livestock have prospered during the year.

Total crop production in the United States this year is 7.6 per cent above the average of the last ten years, the U. S. Department of Agriculture reports. Although production increased, in the aggregate production was 1-2 of 1 per cent below the ten-year average.

CONTROL OF CORN WEEVILS IS URGED

Auburn, Ala., Dec. 10—Farmers of Alabama suffer a loss of hundreds of thousands of dollars each year caused by weevils in stored grains. The exact extent of the damage is not known but W. A. Ruffin, extension entomologist of the Alabama Plytechnic Institute, Auburn, says that it is enormous.

Mr. Ruffin said, however, that this loss is avoidable; and that the cost of avoiding it is small. The cost is only a fraction of the losses.

To destroy insects in corn and other stored grains Mr. Ruffin recommends the use f carbon disulphide ("highlife"). It is a standard insecticide for this purpose. If crib or other container is tight it should be used at the rate of 10 to 12 pounds per thousand cubic feet of space. If crib is not tight increase carbon disulphide to 15 pounds per thousand cubic feet. If it is too loose the use of carbon disulphide is not recommended. The gas will escape without killing the weevils.

A crib with a tight floor and tight walls is sufficient. Burlap, gunny sacks, or any other material suitable may be used for covering the top of corn, placing it on top of the corn. Carbon disulphide is placed in container with an open top thru which it escapes and finds its way down through the corn, killing not only weevils, but rats, mice, and any other living beings therein.

Mr. Ruffin, and also county agents, advise trying it when the temperature is 70 degrees or higher. After it is applied it should remain undisturbed 24 hours. Fire should be kept away. At the end of this period open the crib so that the remaining gas will disappear. Corn and other grains are not damaged by this treatment.

Hens that are not laying tell on themselves by their appearance. If they are laying they are vigorous and look healthy; if not, their combs look dull and they give other evidence of inactivity.

The air each night is filled with splendid radio programs which may be had in each home having a good receiving set. When the new station WAPI begins operating in Birmingham day-time programs will be in reach of practically everybody in Alabama.

Grapes and ornamental deciduous shrubs may be propagated by cuttings during winter.

TIMELY FARM FACTS

Grape vines and scuppernong vines should be pruned during the winter.

Dip measuring cup in cold water before measuring molasses or thick syrup. The syrup will pour much more easily.

When mules and other workstock are not at work they need a liberal amount of roughage and a small amount of grain.

A fresh coat of paint makes buildings look better and it also protects them against weather, the cost of painting being much less than its value.

All fruit trees should have a good winter spray in order to kill insects and diseases that will resist summer sprays which must be weaker in order not to kill the foliage.

The two biggest mail order houses in the United States are doing a business exceeding $600,000,000 this year, according to recent financial reports. This is approximately $2,000,000 for each working day. Most of the business is done by mail but both concerns have many stores throughout the country and they are doing an enormous "over the counter" business.

As a corn borer control measure plowing must be clean, and the trash must be buried in such a way that none of it will appear or reappear on the surface.

Commercial hatcheries thrived in Egypt 2,000 years ago. The last 30 years has seen a decided increase of them in the United States. It is now one of the large agricultural industries.

Eggs are composed of two-thirds water. See that the flocks have access to water supply at all times, in order to keep egg production at its best.

Fall application of lime means better crops in 1929 than if delayed until spring.

If the hens on your farm are not producing profits, the stock is likely at fault. Sell the poor layers, and replace with good stock.

Select corn at husking time, if it was not selected from the standing plants. The poorest place to select corn is from the crib at planting time.

Fair treatment of customers and better quality chicks from profitable producing stock are the objects of a recently formed hatchery organization. Its members are identified by the slogan "Hatchery Chicks For Greater Profits."

for Economical Transportation

CHEVROLET

New Features of- The Outstanding Chevrolet of Chevrolet History

- a Six in the price range of the four!

Everywhere The Outstanding Chevrolet is being hailed as a spectacular achievement in advanced design, because it embodies the greatest array of improvements ever offered on any automobile of comparable price.

Here, for example, is a marvelous new six-cylinder, valve-in-head engine whose design represents over four years of development and testing on the part of Chevrolet and General Motors engineers. It has numerous advancements typified by a non-detonating, high-compression cylinder head—gasoline pump with filter, and automatic rocker arm lubrication. It provides performance the like of which was never before available in the low-price field—marvelous smoothness, tremendous reserve power and sensationally swift acceleration—all with an economy averaging *better than 20 miles to the gallon of gasoline!*

Here are new and improved four-wheel brakes unsurpassed for silence in operation, positive action and ease of adjustability!

Here are marvelous new Fisher bodies introducing a new order of beauty, smartness and luxury.

And here, also, are other features by the score—each an impressive example of automotive progress—each contributing to outstanding performance, quiet operation, long life, ease of control and economical ownership!

We cordially invite you to visit our showroom and secure complete and detailed information regarding this great new car, which will be ready for delivery beginning January 1st.

Advance Showings

The Outstanding Chevrolet of Chevrolet History is being displayed in a series of advance showings, the last of which are in the cities listed below:

San Francisco, Dec. 8-13, Civic Auditorium, Larkin Hall . . . Cincinnati, Dec. 8-14, Hotel Sinton . . . St. Louis, Dec. 8-14, Arcadia Ballroom, 3515 Olive Street . . . Chevrolet's new six-cylinder, fully enclosed valve-in-head engine has a high compression non-detonating head. Its piston displacement is 194 cu. in. and it develops 46 H. P. at low engine speed.

An automatic accelerating pump results in unusually swift acceleration, as well as greater gasoline economy.

On the indirectly lighted instrument panel are grouped all controls, including the water temperature indicator and theft-proof Electro-lock.

The new chromium plated radiator, lamp standards and rims, and one-piece full crown fenders are typical fine car features of the Outstanding Chevrolet.

The adjustable driver's seat in all closed models. This brings the clutch and brake pedals within proper reach for all drivers.

Newly designed 4-wheel brakes, safe—positive—quiet.

Marvelous new bodies by Fisher are an outstanding feature of the Outstanding Chevrolet.

Other Outstanding Features of Advanced Design and Equipment

MOTOR

New Grammar School Building Inspected

Building Accepted From A. B. Bearden & Son, Contractors

The new Grammar School building which has been under construction here for some time is now completed, according to information from authoritien.

The building, a one story brick, has a beautiful front. There are six roomy class rooms, office and library in the building, this is not including the many other smaller rooms, such as cloak rooms, equipment rooms and toilets. The rooms are heated by jacketed heaters. Mr. W. E. Benns, State Inspector of Montgomery, inspected the building on Tuesday, December 11 the it was accepted from the contractor, A B.Bearden & Son, or Birmingham, Alabama.

In this statement, which is on file in the office of the County Superintendent of Education, Mr. Benns Said that the building was well and satisfactory finished according to plans and specifications. Water connetions made to sanitary plumbing Sewer connection has been made from main sewer in street to the building. He also stated that the workmanship was well done.

So far there has not been any new equipment bought to amount to much, according to information, as the desks and other equipment of the old school bulding are being used with satisfaction in the new building. However, we are informed that probably some new fixtures for the office will be purchased.

School will progress in the new building.

B. B. CATHER WAS VISITOR TO CLANTON LAST WEEK

Mr. B. B. Cather, publisher of the Southern' Aegis, a weekly newspaper published at Ashville, Alabama, was a mong the prominent visitors to Clanton last Thursday. Mr. Cather was enroute to points south, and while in town, was a pleasant caller at the News ofice.

Mr. Cather was accompanied by Messrs M. W. Weir, and Orebough.

Fire Damages Home Of Oscar Jones Wednesday

The home of Mr. and Mrs. Oscar W. Jones, located on the corner of First Aveue and Third Street, was discovered on fire last Wendesday morning about eleven o'clock. The entire roof was burning when the fire equipment arived, and if it had not been for the efficient and quick work on the part of Mayor Eric Hart Chief Milton Smith, and assistants, along with the untiring aid of volunteer firemen, the dwelling and much of its contents would have been completely destroyed.

The alarm was turned in late and due to this the fire had gained considerable headway before the fire truckarrived. However, with quick work and co-operation of the volunteer fighters, the fire was soon under control and only destroyed the roof and upper portion of the house. Much damage was done to the house by water and smoke, the extent of which we have not learned as we go to press.

The origin of the fire had not been determined at the time we received our report.

ONE COUNTY SCHOOL CLOSED ON ACCOUNT OF SICKNESS

Only one school in Chilton County has been caused to close on acount of sickness, so far. The school at Cooper, Alabama was forced to close last week on account of several cases of diphtheria in that community, according to reports

TO RETURN HOME FOR CHRISTMAS HOLIDALS

Mr. C. O. Franz motored to Ooltewah, Tenn., this week. He was accompanied on the return trip, by his son, Clyde, Miss Cora Russell, daughtre of Elder and Mrs. A. B. Russell, and Miss Wana Rogers. These young people have been attending the Southern Junior College at Ooltewah, and will spend the holidays in Clanton.

Miss Rogers will be the house guest of Miss Russell during the holidays.

Elder A. B. Russell of the Alabama Conference of Seventh Day Adventists, of this place spent the first part of this week in Selma on business.

MUCH INTEREST SHOWN IN FIDDLERS CONVENTION

Convention To Be Held At Verbena, Alabama Tonight

The committee in charge of the 8th Annual Fiddlers' Convention to be held in Verbena High School Auditorium on the evening of December 20 at 7:30 P. M. are in high spirits over the reception given the announcement of the date for this year's convention. From Crilton and seveal neighboring counties have rome reports from fiddlers that they would be there, and that they had got the word to other fiddlers, and they were sure these would be there, too. Many of these heard from are first prize men in other contest in this and other counties, and a splendid list of beautiful old time pieces will be offered for the regalement of the audience.

No little interest is being attached to the feature that is added this year—the Hog Calling Contest. Already pigs, piglets, hogs and hoglets, have been noticeably nervous in various sections, as hog callers have added lustiness to their otherwist unconcerned "Pig-whoo ooos pig—ooo" and one farme has wondered whether his members of the swine tribe were worried from this or felt the approach of another cold wave which would soon transform them into de'ectable edible portions. Perhaps Zanani has left off training Spark Plug and will be on hand for tre great hog calling, and it may be his "awoik, a-wooks" that are disturbing the ertwhile porter of grunts. Be it as it may the hog calling is getting it sshare of interest.

The committee is appreciative of the numerous letters of commendation received from those interested. Evidently the fiddlers are in fine fettle— they write and forget to name a judge. This will be left up to them on their arrival here, unless nominations come in later. The committees also wish to express their appreciation to the business men of Clanton and Verbena for their generous aid in advertising the event and for the handsome prizes that have been placed for the fiddlers. They wish to assure the general public that their interest and comfort will be well taket care of

CHRISTMAS PAGEANT AT BAPTIST CHURCH SUNDAY

A Christmas Pageant will be presented at the Baptist Church next Sunday evening at seven o'clock. The Pageant is entitled, "The Natinity" There will also be exercises by each department of the Sunday School. Also selected songs.

Merry Christmas

As we come to another Christmas, we sincerely trust that it may bring to our subscribers, friends and all mankind much joy and happiness. That it may be the epoch in our lives as individuals and as citizens of Chilton County, when we may grasp those ideas which prompt men and women to get a clear vision of higher ideals and that from those visions we may be enabled in the future to render better service to our great Creator and fellowmen, and that we may learn to better co-operate with each other and thereby accomplish much good and continue to make progress in our Spiritual, Educational and Business activities.

As we reflect over the last past twelve months our hearts are made glad for the manifold blessings and comforts which we have enjoyed and for them we acknowledge our indebtedness to the Omnipotent God and our friends.

May we all observe this Christmas by contemplating over the glorious works of Creation and by meditating in our minds the significance of the words that came from the Heavenly host over two thousand years ago, when they sang: "Glory to God in the highest, and on earth peace, good will toward men."

THINK OF THIS

While you are making merry and enjoying your blessings, during this Christmas. And while your children are all happy because you have provided for them, that they shall not know the meaning of "want" when it comes to food, clothing and shelter, and while you know now where your next meal is coming from, just remember while YOU are enjoying all this that there are one-hundred and fifty orphan children in the Methodist Orphanage at Selma, Ala.

The main building of this orphanage is in a very dilapidated condition and the Methodist Layman Club of Birmingham is trying to raise $30,000.00 with which to care for these children. If one of the children was yours, would he deserve any help?

Think it over while YOU are enjoying YOUR Christmas.

All subscriptions to this catise should be forwarded to F. L. Aldridge, Supt., Selma, Ala.

ANOTHER GOOD PROGRAM AT THE WADESONIAN

There is another good program scheduled at the Wadesonian for the coming week, beginning next Friday. The weekly program of the Wadesonian may be found in the News.

HUBERT JONES NOW LOCATED AT SYLACAUGA, ALABAMA

Mr. Hubert Jones, who has been conected with Hill Grocery Company in Montgomery, and a former resident of Clanton, has accepted a position with Jitney Jungle Store in Sylacauga, Alabama.

Mrs. Jones and little daughter, Dorothy, are making their home in Clanton at the present, at the home of Mrs. J. M Curlee on West Second Avenue.

Miss Alma Robinson arrived this week to spend the holidays with her mother, Mrs. W. C. Robinson.

BUILDING TO BE ERECTED HERE BY J. WATTS MOORE

Ground is being broken this week for a building on the lot belonging to Mr. J. Watt More, on Seventh Street which is the Birmingham-Montgomery highway, across the street from the Dixie Cafe. The building will be 25 feet in front by 75 feet long, facing the highway. The James Sign Shop will ocupy the new building which will be a modern brick building progably one story. Mr. Wess Danforth has charge of the construction.

COUNTY AGENTS MEETING AT AUBURN POSTPONED

The annual meeting of the county farm agents, which was to be held during this week at Auburn, was postponed to a later date on account of the sickness at A. P. I.

We stated in last weeks paper that our County Agent C. E. Stapp would attend this meeting, and we were informed this week that he would remain here.

VERBENA METHODIST CHURCH MAKES SPLENDID START

The Methodist Church of Verbena, Alabama starts off the new Conference year with it's colors flying high and bright. The new pastor for the ensuing year, Rev. J. M. Mitchell filled his first appointment on Sunday, December 9th.

The impression Rev. Mitchell made on his congregation was wonderful, and his preaching was highly complimented. Mr. E. B. Williamson is in charge of the singing, both at Sunday School and preaching services. It is a rare treat to hear Mr. Williamson.

Special music for Sunday, Dec. 23 is scheduled. Preaching every second and fourth Sunday, both morning and night. Sabbath School begins every Sunday morning at ten o'clock. Mr. R E. De Sear is Superintendent, and every one is cordially invited to attend these services at Verbena.

SCHOOLS OF COUNTY TO CLOSE ON DECEMBER 21

The schools over Chilton County will close for the Christmas holidays on next Friday, December 21, and will resume work on Monday, December 31, according to information from County Supt. of Education, B. Lawrence,

ALL DAY SINGING AT MARS HILL ON LAST SUNDAY

An all day singing was held at Mars Hill, northwest of Jemison last Sunday, December 16.

Prof. J. A. Lesley of Tuscaloosa acted as director of the singing, while other directors during the day were Messrs W G. Culp, Archie and Lige Glass, Henderson Hayes, C. W. Scott and others.

W. T. JACOBS AND WIFE INJURED IN ACCIDENT

Both Receive Broken Legs In Head-On Collision Last Monday

Mr and Mrs. W. T. Jacobs, Opp, Alabama were seriously injured last Monday, December 17, when their car had a head-on collision with another car said to belong to Scot Taylor of Birmingham, and driven by a negro chauffeur, about fourteen miles south of Clanton on the Birmingham-Montgomery highway, at the point where the old highway comes into the new paved road.

According to reports from the car occupied by Mr. and Mrs. Jacobs, who were on their way to Russellville, Alabama to visit the latter's mother, was going north and the car driven by the negro was going south. Reports say that Jacobs was entering the paved highway from the old road when the accident occured. Just who was in fault was not learned at the time of this writing.

Mr. and Mrs. [illegible] Central Alabama [illegible] motorists, [illegible] found according to hospital reports that Mrs. Jacobs suffered a badly cut [illegible] with the knee cap broken, and [illegible] thigh crushed. She also received a serious cut across the forehead, and othe cuts and bruises. Mr Jacobs' right leg was found to be broken below the knee, and nose broken. He also received cuts and bruises about the body.

Mr. Jacobs is a prominent druggist of Opp, Alabama. and is widely known throughout that section of the state. At the time of this writing, Mr and Mrs. Jacobs are resting as well as could be expected.

The occupants of the other car who were from Birmingham were not so seriously injured, according to reports, and returned to Birmingham Their names were not learnd at the time of this writing.

Both automobiles were completely demolished, acording to reports.

VISITORS FROM FAIRFIELD IN CLANTON RECENTLY

Among the many and prominent visitors to Clanton last Saturday, were Mr. James Blomeley and attractive daughter, Elizabeth of Fairfield, Ala.

Mr. Blomeley, who was here on business, and his daughter, were guests of Mr. and Mrs. W A Reynolds at their home on West Second Avenue, while in the city

Mr. and Mrs. W. J. Billingsley of Thorsby, Alabama wre among the visitors to Clanton last Monday.

Non-Jury Term Of Court Convenes Here

Several Fines Imposed; Judge Geo. F. Smoot Presided

A Non-Jury term of the Circuit Court of this county was held last Monday with Judge George F. Smoot, presiding and Hon. Winston Huddleston, Circuit Solicitor prosecuting for the state. The County docket and some few civil cases were [illegible]

A large number of equity cases were submitted and decrees rendered. The case of the Peoples Bank and Trust Company, versus the County Board of Education, which is a Mandamus proceedings, was set specially for hearing Monday and after settling some pleadings, the cause was continued until a future date for the taking of testimony.

The following criminal cases were disposed of, by pleas of guilty or trals:

State v. William Bice, Continued.

Stae v. Clus Grubb, Forfeiture and continued.

State v. George Pearson, fine $180.00

State v. Walter Wilson, fine $50.00

State v. LaFayette Cleckler, fine $50.00

State v. Evans Dawson, fine $50.00

State v. Mack Bates, fine $50.00

State v. Charlie Roper, fine $50.00 and given 3 months hard labor, as additional punishment.

THOMAS E. WYATT ON ROAD TO SPEEDY RECOVERY

Mr Thomas E. Wyatt, night marshall of the Town of Clanton, who has for some time been confined to his bed on acount of serious illness, is now on the road to recovery, according to latest reports to us.

Mr. Wyatt has been greatly missed from duty and his many friends have been wishing for him a very speedy recovery. Mr. C. C. Boockholdt has been filling the place of Mr Wyatt on night duty.

Miss Sunset Polk arrived in Clanton last Friday to spend the Christmas holidays with her parents, Mr. and Mrs. W. M. Polk. Miss Polk has been studying music at the Conservatory in Cincinnati.

Letter From Education Director To Prof. Warr

The following letter from Mr. W. L. Spencer, Director of Secondary Education, of Montgomery, Alabama, to Prof. L. C. Warr, Principal of the Chilton County High School, tells in a way, how the high school stands.

December 11, 1928.

Mr. L. C. Warr, Principal
Chilton County High School
Clanton, Alabama.

Dear Mr. Warr:

I am glad to report to you that the Chilton County High School has been continued for another year as a member of the Southern Association. However, there are certain conditions in your school which were brought to the attention of the Reviewing Committee and upon which they have requested me to write you.

Some of your classes are enrolling more than thirty pupils in the division. This of course is more than the average teacher can handle successfully. The conditions in your building, however, received more serious attention from the Reviewing Committee than any other single factor. The fact that it is overcrowded and hardly adequate for the best work in your school led the Reviewing Committee to advise some way be found by which more room can be provided and improvements can be made so as to enable your school to do the superior work which the Southern Association schools are expected to do. I hope you will be able to bring about the provision.

Let me congratulate you upon your continuation as a member school in the Southern Association. You know, I am sure, that any help which this Department can give is at your command.

With all good wishes, Iam

Very truly your,
W. L. Spencer
Director Secondary Education.

IN LOVING MEMORY OF MRS. J. L. VINES

December 9, 1928.

Last Sunday we were happy because of her sweet presence with us, today she is happy in the presence of God and the Angels, and we are sad and lonely, because of her long absence from us.

On last Monday we had the pleasure of being with her and hearing her bless her neighbors by saying she knew she had the best neighbors in the wodd. She seemed to be in fairly good health for a woman of her age. Her face beamed with joy and happiness as she told of her love for her good neighbors. But "God moves in a mysterious way, His wonders to perform" and after when he takes from us, he chooses the best—such jewels as will make heaven brighter and that will draw our minds to Him and our heavenly home. So Tuesday morning at 3 o'clock Mrs. Vines of Wetumpka, Aaron Vines of of the left side being affected, but she remained conscious until all of her children and brothers arrived and spoke to each one, knowing them by name. She gradually grew worse until the last.

A devoted husband, loving children, relatives and friends, a trained nurse and Dr. Gragg did every thing in their power to relieve an bring her back, but she had finished her work, God, in his infinite wisdom said "it is enough" and at exactly 12 o'clock Wednesday night December 5 He waited her spirit away to dwell forever in the heaven of rest.

She was 61 years, 3 months and 18 days old having been born August 18, 1867.

She was married to Mr. J. L. Vines December 27 1885, with whom she lived happily almost 43 years. She leaves to mourn their loss her husband, and six children—three sons: David Vines of Wetumpka, Haron Vines of Knoxville, Tenn., and Luther Vines of Birmingham; three daughters: Mrs. Cleve Mims of Mulberry, Mrs. W. S. Parrish of Mitchells Dam and Miss Clara Vines.

She professed religion in early childhood and lived a beautiful Christian life being a faithful member of the New Salem Baptist church where her remains were laid to rest on December 7th in the presence of a large crowd of sorrowing relatives and friends.

Funeral services were conducted by Revs. Bizzell and Lowery. The pall bearers were: Messrs Roy Connatser, Grady Parrish, J. B. Varnell, O. W. Crane, Earl Lindsay and Mr. Johnson—the last four being members of the Chi Sigma Gamma Fraternity of Howard College. Mr. Mell Martin was in charge.

Now as a neighbor and friend of Mrs. Vines I wish to say a few words personally for her.

I have lived a neighbor to her for several years and have been in close friendship with her and I can truthfully say there never has been a better neighbor ortrue friend in need than she was.

The night was never too cold nor too dark for her to go and minister to the needs of a sick neighbor. She was always ready to help the poor in many ways. She has always had a warm place in the heart of each member of our family and each of us deeply mourn our loss of her as a friend and neighbor and I feel that I am speaking the sentiment of every one of her neighbors .This Was made manifest by the number of friends who came to see and minister to her during her short illness and the many beautiful floral offerings.

There's nothing that I could say of her that would be too good. Her life here was a useful one and her character was a beautiful one. She was the light of her home and the joy of all about her.

There was no sacrifice too great for her to make for her husband and children which they have all shown that they fully appreciate and they should rejoice at the thought that some day they shall all be gathered home to dwell with mother and all the redeemed when there will be no more sad partings.

May God bless and comfort her loved ones and keep them in the hallow of His hand until the sumons shalll come to them. May they be found waiting and watching.

Mrs. S. M. Connatser.

CHILDREN'S FATAL DISEASES

Worms and parasites in the intestines of children undermine health and so weaken their vitality that they are unable to resist the diseases so fatal to child life. The safe course is to give a few doses of White's Cream Vermifuge. It destroys and expels the worms without the slightest injury to the health or activity of the child. Price 35c. Sold by

CLANTON ADVENTIST TO GO TO INDIA AS MISSIONARY

Information has just been received at the headquarters of the Alabama Conference of Seventh Day Adventists in this city that J. Franklin Ashlock, for several years connected with the home missionary, young people's and publishing departments in this conference, has accepted a call from the foreign mission board of Adventists to go to India as a missionary. He and his wife, who was formerly Miss Marcella Klock, of Lake Charles, La., and young son, will sail from New York on Dec. 22, in company with three other young people who are also going to India as Adventist missionaries. They will go by way of Europe to Bomby where they will be sent to the mission stations where they will be asked to go

Young Ashlock, although now only 26 years old, has had a rather successful career as a worker in the Adventist denomination. Coming to Alabama in June, 1926, as the secretary of the publishing department of the local conference, he directed a large number of young men and women as missionary colporteurs and for a year and a half, from August, 1926, until February, 1928 he was leader of the home missionary and young people's departments. He was equally known among the constituencies of Mobile, Birmingham, Clanton Montgomery and other places in the state where he was chairman of conventions for the strengthening of all three departments of which he was the leader.

MISS HAZEL KREIDER TO TAKE PART IN BROTHER'S WEDDING

The following announcement of the completion of the wedding plans of Miss Grace McAllister for her marriage to Elmo Horace Kreider, of Montgomery was taken from the Birmingham News of last Sunday, December 16. Mr. Kreider is a brother of Miss Hazel Kreider of this place. Miss Kreider will take part in the ceremonies.

KREIDER-MCALLISTER WEDDING PLANS COMPLETED

Miss Grace McAllister, lovely daughter of Mr. and Mrs. J. E. McAllister, has completed the plans for her marriage to Elmo Horace Kreider, formerly of Montgomery.

The marriage will be solemnized on Dec. 21 at the South Avondale Methdist Church at 8 o'clock in the evening, with the Rev. L. D. Patterson, pastor of the church, reading the nuptial vows.

The bride will be given in marriage by her father.

Miss Lillian Weese will attend the bride, as maid of honor. The group of bridesmaids include Miss Hazel Kreider, sister of the groom, of Clanton, Ala.; Miss Elma Tyler Carter and Miss Eva Powers.

Sidney Kreider, of Montgomery, Ala. will serve his brother as best man and the ushers and groomsmen will be Donald McAllister, brother od tre bride, Saul Bishol and Lee Fair Pamplin, Little Misses Lola Mae McAllister, sister of the bride and Juanita Vaughan, niece of the groom, of Georgetown, Ala., will act as flower girls.

Preceding the ceremony Mrs. D. C. Ball, soprano, will sing a proup of love lyrics, accompanied by Miss Virginia Knight, pianist, and Carl F. McColl, violinist.

SHAREHOLDER'S MEETING

The annual meeting of the shareholders of the First National Bank of Clanton will be held in the directors' room of the bank at 8 o'clock p. m., on Tuesday, January 8, 1929, for the purpose of electing directors for the ensuing year and the transacting of such other business as may legally come before them.

This, December 8 1928.

CHRISTMAS PROGRAM GIVEN AT CONGREGATIONAL CHURCH

A Christmas program was put on at the Congrational Crurch at Thorsby, Ala., last Sunday evening, December 16 at seven-thirty o'clock. The Community Croral Club staged a Cannata entitled, "Tre Child Jesus."

Those taking part in this program were: Misses Marie Boring, Catherine Dick, leader, Pearl Carlson, accompanist, Genie Collins, Ruth and Jewel Martin, Klinglehoefer, Gertrude Steiner and Mary Ella Gerald. Mesdames Hattie M. Gerald and Z. Y. Appelton, Messrs. Maddox, E. N. Steiner, Sorberg, Dickson, Marcelle Wilder, Z. Y. Appelton, David Childress and Rev. J. E. Each.

A large audience witnessed this performance at the church, and afterwardn, a radio program, was put on through the ciurtesy of the Thorsby Hardware Company and Mr. Reuben Foss.

A SUCCESSFUL B. Y. P. U. CONVENTION AT VERBENA

On Dec. 2 the young people of Unity Association held the most successful convention of its history.

This convention mas well attended, having equally as many present as at any previous meeting held by tresc young people.

The theme of the program was Devotionay Loyalty.l This spirit promoted the entire convention, and was the dominant spirit of the speakers who were: Miss Clyde Merrill, Dr. J. T. Williams and Mr. D. F. Green, and Mr. Judson Lyon.

Unity Association boasts of two beautiful banners, Efficiency and Attendance. The Eficiency Banner was awarded to Milton, the attendance to Mountain Creek.

A number of subscriptions to the B. Y. P. U. Magazine were obtained during the day.

Many young people of Unity Association will be glad to know that the next convention will be held with Billingsley Baptist Church some time in February. The date will be announced later.

PRICES REDUCED. Pecan trees, Satsuma oranges and ather standard fruits and ornamentals. Quality best. Poperly grown. Prompt shipment.

Entered as second class matter at the Clanton, Ala. postoffice under act of congress of March 3, 1879.

Comes Christmas Day. What it means to you depends upon your capacity for knowing just as your appreciation of everything else depends upon your capacities. In the man who can not read, capacity [illegible] much. If he learns to read, but cannot read music, his capacity is still limited. As he goes o learning, his capacity of knowing is increased and thereby his field of enjoyment is enlarged. Ignorance is not bliss, as it sometimes is mis quoted as being. Greater happiness comes to those whose faculties have been prepared to appreciate at their proper values all things in life. So what Christmas Day means to all of us depends upon our capacity for knowing.

There is a Christmas tree in your home. Around it are those passing through some of the hapiest moments they will ever know. Do you not envy the experience of the youngst of the group seeing that tree for the first time? To that little one the tree is an amazing sight. As the years pass it will become less and less amazing but it will never lose its power to give enjoyment. Then all of a sudden, it will become [illegible] when the child of today has become a parent. You, who were children yesterday, are children again today, so know the feelings of all those gathered around the tree, from the tiniest to the lagest for you have known the experience of all of them. And how merry you are this morning! You know how to make all the toys run better than any of them—how infinite [illegible] knowing! You do not reflect upon it but it exerts its powerful influence.

You know there is a Santa Claus. Some of the chilren may look at you knowingly but in your heart you know something they must yet learn. They have been infected by a taint of skepticism that once affected you, but you know, ah you know. You know there is something mysterious and unexplainable is more real than the [illegible] something superior to practical [illegible] You [illegible] you desire; any more than you can [illegible] that you are conscious of [illegible] you look at a [illegible] and then close your eyelids. They are [illegible] Yet you [illegible] For colors the Christmas tree is lost as [illegible] as that, but the children do not see them, because they do not have the same capacity of vision that you possess.

Merry Christmas, visionaries all.

Choose Securities Carefully

Millions of Americans are today buying securities in our business and industrial organizations. The prosperity brought on by our modern industrial era has given the average citizen a confidence in stocks and bonds as a way to invest his money.

In [illegible] interest of [illegible] for sound financial guidance and the many protections given to the investor millions of dollars are lost yearly through the purcease of fraudulent or "wildcat" stocks, or through investments made in honest enough ventures, which have little or no chance for success.

Major stock and bond exchanges such as those at New York, Los Angeles and San Francisco investigate securities before listing them for trading, thus assuring the purchaser so far as humanly possible, value received. Such securities stand a good chance of paying dividends and appreciating in value, with little danger of going bankrupt, and are referred to as "listed securities."

The investor should take care in selecting the brokerage house through which he purchases his securities. Houses which are members of one or [illegible] are like [illegible] the [illegible] and [illegible] no unmeet

PRACTICAL SUGGESTIONS ON CRIME PROBLEM

According to Chief L. V. Jenkins of the Portland, Oregon Police Department, if we are to reduce crime we must reorganize our legal system so as to eliminate redtape and technicalities, and arouse public interest in combatting the criminal.

The public, Chief Jenkins stated, has grown so accustomed to burglaries and even murders that it accepts them as a matter of course. It "passes the buck" entirely to the police, not realizing they are working under great disadvantages and against almost insurmountable odds. In the opinoion of this nationally known authority, the low pay given police officers, coupled with discouraging legal practices that often make their work go for nothing, is a positive encouagement to the criminal. Professional salvationists take advantage of pardon, parole and repeal of sentence provisions to turn the most case-hardened criminals loose on society.

It is men with practical experience like Chief Jenkens who can point the proper road to real crime cures. And it is noteworthy that his advocacy of simpler and better laws, public roooperation with the police and less "freak" legislation, is in concurrence with the beliefs of practically every real crime authority.

MODELED AFTER WORDS OF LINCOLN

A century and a half ago our fathers brought forth upon this continent a new nation, conceived in liberty and dedicated to th propositeion that all men are created equal in political, industrial, social and commercial opportunity, and that that golden outward-swinging doors shall never be closed on any human being.

A nation of freemen thus conceived and dedicated has endured over a hundred and fifty years, and dev loped a high degree of prosperity by citizens industrious in peace and valorous in war.

They gave their lives that we might enjoy the blessings of freedom with fair and equitable laws, enacted under a constitution where the chance to improve conditions might always remain open for the poorest child to become the heir of the greatest fortune.

The sacred heritage of wise statesmanship has endured the test of time and will continue to stand superior to all vicious delusions, promises and inventions of paternalism and, the wildest dreams of Russian bolshevik or soviet, where everything is owned by everybody and nothing is owned by anybody.

A cow belonging to E. V. Reed of Berry, Ala., has had five calves in ten months, twins and triplets.

MOUNTAIN CREEK NEWS

Mr. J Gray of Wetumpka, Ala., was the guest of Mr. Be Gray last Friday.

Mr. J. N. Atkinson spent the weekend in Montgomery

Mr. ad Mrs. Gus Gray and family, of West Point, Ga., were the guest of Mr. and Mrs. Ben Gray Sunday.

Mr. Amzi Kicker, student at Auburn University arrived. Satuday to spend the holidays with his parents, Mr. and Mrs. C. Kicker.

Just at present we are very sorry to say that Amzi Kieker is ill with flu.

Mr. J. N. Atkinson was called to Montgomery Monday on business.

Mr ad Mrs. Raymon Duffey and family spent Monday afternoon in Clanton.

Dr. and Mrs. John Eiland of Verbena were the guest of Mr. and Mrs. Z. Eiland Sunday afternoon.

Mr. and Mrs. Albert Long of Wetumpka spent Sunday with his mother, Mrs. H. Long.

The citidens of Mountain Creek are very glad to know the industries of this city is growing fast as there will be n operation real scon a saw mill Headley and Calloway.

Prayer serbices are held at the Mountain Creek Baptist Church every Wednesday night at 7 P. M.

Mr. and Mrs. Stewart Armstrong of Clanton, Ala., were the guest of Mr. and Mrs. J. N. Atkinson last Sunday afternoon.

The B. Y. P. U. of Mountain Creek have announced there will be a program at the Mountain Creek Baptist Church Sunday Dec. 23, at 7 P. M. All visitors are cordially invited.

Mr. Lee Long, of Wetumpka spent the week-end with his wife and child ren, who are visitors of his mother here, Mrs. H. Long.

STATION W B R C, BIRMINGHAM

The editor of the News was a visitor to Station W B R C, on the mezzanine floor of the Bankhead-Leland Hotel in Birmingham, and was shown quite a bit of courtesy from those in charge of the studio, while there. However, we understand that courtesy is a part of their wonderfully entertaining programs, and prevails throughout the studio.

Although the people of Clanton and vicinity are very seldom able to pick up programs from W B R C, Mr. Dud Connally, announcer, states that within a very short time, their varied and entertaining programs may be heard without any trouble.

SUGGESTIONS FOR LAWN MAKING

There is nothing as pleasing of inviting as a nice green turf. Anyone that has ever visited the Old Country realizes the truth of that statement. We cannot have such beautiful lawns here in this country, because of climatic conditions, but there is absolutely no excuse for the majority of lawns that we do have.

A lawn pays us back in quality according to the amount of work we put into it. Making and keeping a good lawn necessitates quite a bit of work, but how proud we feel when we finally develop a beautiful piece of turf.

The following practical suggestions are given in the hope that a large number of people in Chilton to like to fix their lawns f they only knew how.

---"It Is More Blessed to Give Than to Receive"---

As you sit in your comfortable home this happy Yuletide season, surrounded by your loved ones, we ask that you think of the little orphans at the Methodist Orphanage at Selma.

The Birmingham Laymen Club has undertaken the task of raising a fund of $30,000 to remodel and make more comfortable the dilapidated buildings of the orphanage—the home of these 150 children who are having to depend on others for the comforts and needs of life.

A donation, large or small will be appreciated. It will help to make the home of 150 orphans more comfortable. It will make your Christmas happier. You may see your local Methodist pastor, or send your donation to

FORD FORDOR SEDAN IS DELUXE OF NEW FORDS

The Fordor Sedan is the de luxe of the newthe new Ford pasenger car line and has many features that are new and exclusive in low priced cars.

It is distinctive from the other Ford passenger cars in exterior appearance The cowl sweeps down in a garceful curve from a raised panel at the windshield to a narrow belt moulding which runs from the front of the hood on a straight line back and around the car. This gives the body a long, low effect.

Another feature that adds much to the exterior apearance is the roll belt effect below the windows which rolls down to the narrow moulding. The top and rear puarters have rounded corners and are covered with a pyroxylin coated material of a tan shade, inpleasing contrast with the body colors There is a ventilator in the lower panel of the cowl on the left side, for greater driving comfort.

The interior of the car has a strikingly rich and inviting appearance. The triming is of light brown effect with deeply cushioned seats upholstered in soft brown hairline cloth, a highly effective combination. The cushions are of the lounge style with overstuffed plain panels. Arm rests in the rear compartment are another convnience. Seats in both compartments are deeply cushioned, wide and most comfortable. The attractiveness of the interior is further enhanced by the use of embossed panelling on the doors and around the ends of the seat in the front compartment. This is a decidedly distinctive touch, such as might be expected only in custom built bodies. An oval bow light in the rear compartment and a flexible robe rail are other pleasing and servicable features. The hardware is all nickeled in a conservative style of scroll effect and is all of uniform design in harmony with other interior trimming

Christmas
GREETINGS

We extend to everyone wishes for a very Merry Christmas, and offer our sincerest thanks for the past business given us.

We hope that we will be able to serve you with the utmost satisfaction to you, in the years to come.

A MODERN PROBLEM AND ITS SOLUTION

John W. Longnecker, of the Hartford Fire Insurance Company in a recent address to local insurance agents brought out splendidly an important phase of the insurance business. Although he was speaking to a group of agents, his words are of importance in giving an insight into the modern problem of getting public understanding.

"Why is it that doctors, botanists, biologists, and scientists generally turn to Latin for their exact descriptive words?" said Mr. Longnecker. "Is it not because Latin, being a dead language, is made up of words the meanings of which have bees exactly fixed? Of course you must know Latin to understand or meaningless; there is no middle ground where misunderstanding can creep in.

"You go forth each business day the interpreter of a great service, a misunderstood service, and it is your job to take a business around which there has grown an air of mystery and make that business interesting to people by giving it attributes anybody can understand. You must stock fire insurance apart and show what makes it tick.

"A business of the people and for the people draws away from the people and becomes a thing apart. So the first step in solving any problem of public relations, which is the wiping away of misunderstandings, must be taken in unscrambling that business and finding words that mean the same thing to the hearer of them that they do to the speaker thereof."

Mrs. M. Lande andl litle son, Ervin, ad Miss Bertha Margolis spent last Sunday in Uniontown as guests of Mr. Harry Margolis.

PITHY FARM FACTS

Fruit deserts make the best finish for a rich meal.

The tall thin woman should wear a hat of soft texture.

European farmers have made substantial reductions in the cost of producing livestock by providing pastures.

A pound of cottonseed meal is worth as much as 1-7 pounds of cotton seed as a feed for cows. Animal husbandmen at Auburn insist that seed should not be fed if it is possible to get meal at a reasonable cost.

Going to the Fiddlers' Convention at Verbena High School auditorium Thursday night, 7:30, to enjoy good music and see who is the best hog caller?

Verbena's 8th annual Fiddlers' Convention will be held at the high school auditorium Thursday night beginning a. 7:30.

The many friends of Mr Harry Margolis ofm Uniontown will be glad to lean that he is able to be out and back in his store after being confined to the hospiatl in Selma for some time with a sprained back.

Chilton County Abstract Co.
M. D. FOSHEE, Manager
A good business man will not buy a farm or any property without first looking it over to see what it is worth.
However, some will buy or loan money on land without an abstract.
Isn't it equally as foolish to buy a farm without looking it over as to buy it and not know whether the titles are good or not? Without an abstract you do not know where you are getting the land you look at or not.
Before investing in land in any way have an abstract made and be safe.

State Capitol News

News of the selection of Gadsden for the location of the $30,000,000 southern factory of the Goodyear Tire and Rubber Company was received with elation at the State Capitol. The location of this great manufacturing establishment in Alabama is regarded as the greatest industrial development since the Tennessee Coal and Iron Company came to this State and as another striking indication of the manner in which the trend of development is coming more and more southward. It will give employment to some five thousand people, and will benefit not only Gadsden but the rest of the State, through the demand which will be created for raw material, food for the additional population, etc.

Gadsden won out in a contest for the factory over Atlanta, Georgia, in a spirited contest in which both towns put forth their best efforts to secure the plant. A large part of the credit for the selection of Gadsden is given to Governor Bibb Graves, who personally appeared before officials of the Goodyear Company at Gadsden recently, and presented in eloquent and convincing manner the advantages of Gadsden and Alabama for new industries. Previous to the hearing at Gadsden Governor Graves had devoted much time and study to gathering data and statistics showing why the State of Alabama and City of Gadsden should be selected for the factory. When the directors of the Goodyear Company came to Gadsden the Governor went before them, and with a representative of the competing city of Atlanta present, gave the board detailed information on Alabama's advantages. Chas. A. Stillman, Vice-President of the Goodyear Company, was a classmate of Governor Graves at the University of Alabama. In speaking of the selection of Gadsden, Mr. Stillman declared that the Governor's presentation of its advantages was the largest factor in influencing the decision.

Numerous telegrams, one from the Chamber of Commerce of Gadsden, and others from individuals over the State, were received by the Governor after the selection had been announced, expressing appreciation of his energetic and succesful action toward bringing this new industry to his State. The Governor and officials of the Goodyear Company were entertained at a banquet Thursday at Gadsden, celebrating the selection of that City for the factory.

I. T. Quinn, State Commissioner of Game and Fisheries, was recently signally honored by being elected President of the National Game Conference, at a meeting in New York. The conference comprises thirteen national conservation organizations and in addition includes in its membership government and state officials of the United States and Canada, game breeders, sportsmen and scientists.

With the arrival of cold weather, one of the greatest problems in the functioning of the machinery of State Government has reached the acute stage. It is a problem which has baffled administrators among the ablest that the state has produced. Officials who have grappled with and solved weighty matters of finance and administration have been to shrink from this particular task in hopeless despair.

The problem is how to regulate the heat and ventilation in the historic capitol building so as to suit all the variegated tastes of the numerous feminine employees. It has not been solved, and there is grave doubt whether it ever will be.

"In my office," moaned a certain department head, who insisted that his name be withheld, "we have eighteen separate and conflicting opinions in the proper distribution of heat and air. There are three men in the office, who are satisfied with anything, and seventeen women, all with divergent and irreconcilable views. I am appealed to daily by distressed members of the conflicting factions, the fresh air advocates and those who dread a draught, until my life is miserable. I see no hope for a solution and am frankly despondent.

"Some of the ladies in my office want the windows up, some want them down; others hold that the windows should be closed at the bottom and opened at the top, and others are vice versa. Some assert that eighteen inches at the top and twelve at the bottom of windows is the proper ventilation, others demand a greater or lesser amount. Some freeze if the door is left open, others faint if it is closed. Some want the door wide open, contending that a direct breeze is healthful, to others this breeze is a deadly draught and they will be satisfied only with the door slightly opened. Then there are the varying opinions as to the amount of heat that should be turned on, and the temperature of the room."

The same official expressed the belief that the woman of today dresses too lightly for sedentary occupations. The present styles of feminine garb may be all right when the wearer is stirring around, shopping or otherwise on the move, but they are inadequate in cases where the woman works in an office, sitting at a desk for hours, in the opinion of this masculine observer. An instance was recently reported where one of the feminine workers at the capitol was seen on the job attired in a chiffon dress, with and army blanket thrown around her, the dress for style and the blanket for comfort, persumably.

The problem of heat and air in offices is not confined to the winter time. In the summer, the official quoted above declared that the battle rages amongst his female assistants, between those who demand the cooling breezes of an electric fan and those who shrink from this artificial blast with dread and aversion. Last summer this official, after trying vainly to properly separate the advocates and opponents of electric fans so as to suit everybody, finally lost his usually serene temper and announced that anyone who was not satisfied could quit. Nobody did, but even this drastic action brought only a measure of temporary relief to the harassed office head.

E. V. Doughty of Cardiff, Wales, was sent to prison for throwing ammonia on children who annoyed him.

Isabella High School News

The following program was rendered by the Wilsonian Literary Society, Wednesday, Dec. 12.

Report of Chaplan— Virgie Owen. Importance of Physical Education in High Schools—Esther Ray.

Debate—Resolved: Athletics, as present conducted should be abolshed. Af.—Herbert Forshee. Neg.—Gene Griffin.

Value of good sportsmanship—Guy Williams. Spice of life—Tommie Rucker. Piano solo— Myrtle Darbin.

Both of Isabella Basketball teams are playing good ball. Playing double headers twice last week. The first, which were only a practise games were played Wednesday afternoon with Antioch on Isabella's court, Isabella winning both games. The second was played Friday afternoon with Marbury on the later's court. The four teams were equaly matched;they were compelled to play defensive games during the whole period. Altrough the Marbury lassies won by a score of 11 to 4, the Isabella sextette played a good game, the score at the end of the first half being 4 to 3 in favor of Isabella. The Isabella boys were in the lead during the entire game. The final score was 10 to 5. Keep it up boys! Come on Girls!

On Friday night Miss Cora Belle Maddox, teacher of Vocational Home Economics, entertained her pupils,their mothers and the faculty at a banquet. The dining room was beautifully decorated with Christmas greens, and the favors carried out the same idea. An elaborate plate dinner was served to the following: Mesdames Williams, Conoway, Cox, Roper, Edwards, Webb, Manning, Oden, Gibbs, Lecroy, Turner Misses Thweatt, Jones, Sexton, Mize, Maddox, Manning, Webb, Oden,, Reinhardt, Ratcliffe, Foshee, Durbin, Cox Lee, Griffin; Messrs. Tromas, Griffin, Chambers.

HAYNES-BILLINGSLEY BASKETBALL GAME

The girls basketball team of Haynes came to Billingsley to play the girls team last Friday, December 14, at 3.00 they had a very exciting game.

The Billingsley players played as follows: Sarrah Missildine played forward the first three quarters; Margaret Downs played forward the first half and took Sarah Missildine place about five minutes before the last quarter was up. Elsie Lee Parker jumped center the first quarter and last quarter with Pauline Allen running center; Evelyn De Ramus jumped center with Lucile Pattills running center the third quarter; Inez Nummy and Gladys Beadlecomb played guard first half; Gladys Bealdecome and Sallie Shaw played guard third quarter; Inez Nummy and Saslie Shaw played guard last quarter.

The refree was Miss Ethel Ruth Ganes of Haynes. The game ended with a victory of 22 to 18 in favor of Haynes.

MR. AND MRS. COLLINS ANNOUNCE BIRTH OF GIRL ON DEC. 15

Mr. and Mrs. Akins Collins of Panama City, Fla., announce the birth of a girl on December 15. Both the mother and little daughter are doing fine.

Mr. and Mrs. Collins are well known in this county. Mrs Collins was before her marriage, Miss Mary Douglas Goodgame.

Best line of Christmas cards in town. All 10 cent cards to sell for 5 cents. UPCHURCH DRUG COMPANY.

Again the Louisville & Nashville Railroad has gone to market in order that it may maintain its property up to the standard which has always characterized the "Old Reliable." This large sum includes an appropriation of $7,800,000 for 24 new heavy locomotives, 1460 coal cars of giant capacity, 750 automobile cars, 300 box cars, 12 modern passenger coaches, 6 baggage cars, and 4 splendid all-steel dining cars, all of which are scheduled for 1929 delivery.

In addition to this equipment, 65,000 tons of 100-lb. rail, at a cost of $2,700,000, have been ordered, the delivery to begin at once.

The placing of these substantial orders should be encouraging to the people of the L. & N.-served territory in view of the fact that it evidences the Company's confidence in the states it serves, a confidence further accentuated by the fact that during the first nine months of 1928 the Company actually expended for new improvements a total of more than $9,250,000 and has authorized and outstanding an additional $7,800,000.

The recent appropriation of $10,500,000, therefore, makes the aggregate amount of work authorized and outstanding nearly $18,300,000. Many dollars of these appropriations will find their way into the territory in which this newspaper is published.

CHILTON COUNTY NEWS

VOLUME 7 — CLANTON, ALABAMA, THURSDAY DECEMBER 27,1928 — NUMBER 14

Station W A P I To Be On Air New Years

Initial Program Is To Be Formal Opening Of Station

On New Year's day the new radio station WAPI in Birmingham will go on the air for the initial broadcast. It wil be the formal opening program which will begin in the evening and continue far into the night.

The station will operate on a frequency of 1140 kilocycles or 263 meters. During the formal opening station will be on the air several hours continuously.

Plans have been made for broadcasting part of the program from studios in Auburn and in Montgomery. Most of it will be broadcast from the main studio on the fourteenth floor of the Protective Life Insurance Building in Birmingham.

Broadcasting from Auburn and Montgomery will be lone by remote control. Governor Bibb Graves is scheduled to talk from Montdomery. Dr. Knapp and Director Duncan will talk from Auburn, while the program will be monagel from the htudio in Birminghom.

There after, the station is to be on the air several hours each day. It may be heard in the early morning, at different intervals during the day, and also during the night hours.

In announcing the formal opening Mr. Duncan said that the station will attempt to provide an outlet for all talent of sufficient merit and it is designed to be of maximum service to the maximum number of people.

Opening of the station is a climax to radio developments by the Alabama Polytechnic Institute which has chosen this as another way of being of service.

DEATH CLAIMS MRS. E. Y. McMORRIES

The friends and students of Mrs. E. Y. McMorries will regret to learn of her death last week in Prattville, Ala. The funeral was conducted from the home of Mrs. W. F. Huie, her niece who lives in Prattville, last Monlay afternoon.

Mrs. McMorries was the wife of Prof. E. Y. McMorries and was well known in Clanton and Chilton county at one time was one of the ablest Educators of the county and taught school in Clanton for a number of years.

After the death of Prof. E. Y. McMorries who died in Birmingham in 1906, Mrs. E. Y. McMorries his wife came back to Clanton, and taught a primary school for a number of years and quite a number of the young boys and girls of toay in Clanton attended her primary class.

She later went to Prattville to make her home with her sister, Mrs. Bell Northington, and about three years ago she suffered a stroke of paralysis, and was confined to her room in the Taylor Hospital ever since until her death last week.

FIDDLERS CONVENTION AT STANTON NEW YEARS NIGHT

We have been requested to announce that there will be a Fiddlers Convention at the Stanton School House, Stanton, Alabama on New Years night.

Cash prizes will be awarded the winners in the convention. All fiddlers are urged to come and take part .Refreshments will be served by the P.-T. A. Proceeds go for the benefit of the school.

MR. AND MRS. JOHN ARMSTRONG ILL AT BOOTHTON

Word was received here last Wednesday that Mr. and Mrs. John Armstrong were quite ill in the home of Mrs. Armstrong's brother, Dr. G. C. Roper in Boothton, Alabama.

Mr. and Mrs. Armstrong were visiting D... and Mrs. Roper during the Christmas holidays and were compelled to retire to bed on account of influenza.

PAY CENTRAL FEE BY FIRST OF YEAR OR BE CUT OFF

Authorities of the Peoples Telephone Company authorizes The News to announce to the public that after January 1st, 1929, no service will be given phoneholders who have not paid their central fees to the company. The public will please take notice and be governed accordingly.

BUILDING BELONGING TO G. D. COLLINS BURNS

Fire of unknown origin gutted the Colonial Apartments located at 1609 Twelfth Avenue, South Birmingham, Alabama last Saturday night, according to reports. The building was owned by Mr. G. D. Collins of Thorsby, Alabama.

The damage is estimated at more than $50,000, and approximately seventeen families were rendered homeless by the fire. Several of the nineteen apartments were completely dstroyed and others considerably damaged by smoke and water.

WM. DORMINEY DIED AT UNION GROVE HOME

Mr. Wm. G. J. Dorminey, age 62, died at his home in the Union Grove community last Wednesday morning. Funeral services will be held today at Union Grove at one o'clock p. m. with Rev. R. M. Honeycutt conducting with Martin of Clanton in charge.

The deceased had not been in good health for some time. Mr. Dorminey is a pioneer citizen of Chilton County and a rather prosperous farmer.

Surviving is his wife, Leona Green Dorminey, two daughters Miss Jessie Dorminey and Mrs. Frank Oslin of Birmingham, one son John, of Birmingham, and other relatives.

MR. AND MRS. TAYLOR ANNOUNCE BIRTH OF FINE BOY

Mr. and Mrs. F. G. Taylor announre the birth of a fine boy on last Monday night, December 24, at eight-twenty o'clock, whom they have named Charles Grady. Both the mother and baby are doing fine.

SUPT. LAWRENCE WRITES EXPLAINING SURVEY

Financing Made Possible Through Rockefellow Association

Following is a letter from Mr. B. Lawrence, Supt., of Education of Chilton County, explaining the financing of the recent educational survey of this county.

Recently we have put on an educational survey in Chilton County exactly like the one recently made in Elmore County. The purpose of this survey is to discover any weak points in our present system with a view to strengthening and bettering the whole program of education in the county. This report will be ready to present to the County Board of Education sometime during the month of January.

The survey has been a great undertaking and called for much effort on the part of the officials, teachers and patrons. I am glad to say that the teachers had done far better in assimilating certain information than anyone had expected. It is only another demonstration of the splendid spirit of cooperation and interest the teachers are taking in working out an educational system in Chilton County that will rank favorably with any oth... in the state with simila...

...uch has been said about financing of this surve... No doubt many others have wonde...d how the money was provided for the work The only cost to the County has been in furnishing transportation for those making the survey and the furnishing of maps on which the location of roads, as well as children of the county, are shown. The salary and other expenses of the survey staff has been provided through the courtesy of the General Education Board of New York of which John D. Rockefellow is the financier. We are grateful to him for this wonderful aid given us in an effort to work out a better school system in Chilton County.

In conclusion permit me again to express my appreciation or the cooperation rendered in making the survey and may I ask that, when the report of the survey staff i smade, we consider well the recommendations and do all that we can to provide adequately for the education of the boys and girls of the county. We have a growing county and one that presents many splendid opportunities. Never before were people so much interested in educating the children. At this time we have more than 800 children enrolled in our schools over and above any previous enrollment in the county. This means that we so have nearly one

Resolutions

The year of 1928 is almost a matter of history. The year 1929 is just around the corner and it is now in order for resolutions. They are easy to make, more so than accompolishing the things we sometimes resolve to do, however, while we are engaged in making New Year's resolutions, let us first take account of the things we have done during 1928, which we feel contributed to the upbuilding of our land and country and made it a better place to live. And before making the new year resolutions for 1929,—pertaining to the things we expect to quit doing or that which we are going to do in the future—let every one resolve that the year of 1929 will not pass until we have made some sacrifice, given of our means or accompolished some deed that makes our town, our county and our country, a better place to live.

LONG OUTLINES ROAD SITUATION TO HOUSE

Members of the lower House of the Alabama Legislature Thursday received a letter from Speaker J. Lee Long asking them if they would be willing, in the event Gov. Graves sees fit to call an extra session to confine their activities to the submission of a good roads bond amendment and local legislation, says Atticus Mullin in The Montgomery Advertiser.

The letter from Speaker Long setting out the road building situation in Alabama closes with the following paragraph: "My opinion is that the governor's action in this matter will be influenced largely by your reply. I will greatly appreciate your answer at an early date directed to me at Greenville," The letter is dated Greenville, Dec. 19, and members of the House from Montgomery County received their letters Thursday.

Col. Long in his letter tells the members of the loyer House of the Legislatere that he is advised that a $50,000,000 bond issue will complete the road program in Alabama and calls attention to his own proposal that not more than $8,500,000 of this amount be issued in any one year. He also calls attention to the plan for paying the interest and retiring the bonds on an additional one cent tax per gallon on gasoline.

Col. Long calls attention to the fact that alrealy more that $4,000,000 of the $25,000,000 road bond issue of the Brandon administration has been retired and that already $250,000 of the $25,000,000 of the Graves administration has been retired with the first of these bonds sold les than 20 months ago.

Col. Long says that in his opinion Alabama is on the eve of the greatest industrial development in any state in the South and "if we want this development to materialize continued road building is a necessity."

AN ADJUNCT OF PROSPERITY

T... growing metal prou... in ...ited States and the p... in mininbg from both ... standpoint, ... most enc...ragging p... of our industrial life.

In the great Western states, metal production has led directly to a greater general prosperity that has been reflected over the entire nation.

The tremendous demand for such metals as copper, lead and zinc by the railroads, the electric industry and general manufacturers, makes imperative a steady, stable supply at a fair price. And this, in the past few years, has been attained by tremendous progress made in the science of production and ore refining, and by a reasonable adjustment of supply and demand.

Without mines no nation has ever been able to achieve greatness. The United States is singularly blessed with its mineral resources and in the character of the industry that is producing them.

Mr. Claudy Pipes is spending the Christmas holidays with his parents, Mr. and Mrs. H. T. Pipes.

CARD OF THANKS

We wish to take this means of thanking those who aided us in the fire which damaged our home last Wednesday, and especially the pupils of the high school, who rendered considerable help in saving of the household goods.—Mr. and Mrs. Oscar Jones.

BILLY RETHERFORD AT HOME FROM ATLANTA

Mr. G. D. Retherford returned last Friday from Atlanta bringing his little son, Billy, who has been there under treatment.

According to latest reports, Billy is some better, however he is still under treatment of Dr. Dowman at the Piedmont Hospital in Atlanta. Billy will be carried back to Atlanta again in a few days.

Mr. and Mrs. Ben Goltsman are spending some time in Birmingham with friends and relatives.

NEW COTTON MILL MAKES TRIAL RUN LAST WEEK

Formal Opening Day Will Be Visiting Day For People

The new cotton mill here turned its wheels last Friday, December 28, for the first time with cotton making its way into thread.

This operation was merely a trial, and several spectators were present at this operation. The spectators included Mr. Glenn Boyd of the Peoples Savings Bank, Judge L. H. Reynolds and the County Commissioners, Mr. Frank J. Callen, director from this mill, and others.

The honor of placing the first armful of cotton in the m... was given Mr. Callen, who also re... of the first thread manu... here.

BRIEF NEWS NOTES

Nitrogen is at the bottom of successful agriculture and the farmer who learns to use it properly with other fertilizers is in better shape to make money farming.

A federal radio commission estimates that there is in use in the United States 12,000,000 radio receiving sets serving 40,000,000 persons.

A press dispatch from Vancouver says that British Columbia agriculture broke all records this year with a production of $79,020,000. This compares with $$76,999,000 in 1927—the highest on record at that time.

It is said that the American appetite for fresh peaches has increased by 50 per cent during the last twenty years. The average consumption is 1,000,000 bushels per week.

A recent issue of the Prairie Farmer was printed on paper made of corn stalks. Secretary Jardine, of the United States Department of Agriculture, extended congratulations and spoke encouragingly of the future of the industry.

ELECTRICAL PROGRESS IS PRONOUNCED

More than 4,000 towns and villages have been added to electric company lines since 1923, according to Howard T. Sands, writing in the Industral Digest.

This progress is the result of mass production of electric current through large central stations. Better service at lower rates is made possible, and electricity is furnished on a practical basis to thousands who otherwise would not be able to have it. The transmission lines of an interconnected system from a network over a large amount of territory, and towns, villages and many farms within that territory have available the same high standards of continuous electric service as do large cities.

"Another result of interconnection" Mr. Sands says, "is that as power lines have been extended into rural neighborhoods, smaller communities have been able to offer industry dependable service at reasonable cost. This movement indicates that while present industrial sections are keeping their industries, new factory expansion is permeating rural sections and bringing about a better diffusion of agriculture and industry, with mutual advantages. Farmerss must benefit when factories ar located in their midst, for it means additional home markets for their products.

This modern trend of decentralization of industry' brought on by wide electrical distribution, is inaugurating great prosperity and progress for many small towns and rural and agricultural sections. Electricity, by broadening the industrial horizon, becomes a great civilizing influence as well.

496 CASES OF 'FLU' REPORTED IN STATE

Diptheria Outnumbers Influenza With 538 Stricken During Last Month

For November 496 cases of influenza were reported in the state and 538 cases of diptheria, according to a report of the bureau of vital statistics, state board of health. These figureh compared with 226 cases of influenza and 424 cases of diptheria reported for the same period last year.

Other communicable diseases reported were as follows:

Typhoid, 80; malaria, 566; smallpox, 17; measles, 74; scarlet fever, 212; whooping cough, 50; diptheria, 538; tuberculosis, 270; pellagra, 27; meningitis, 4;tetanus, 5; influenza, 496; dengue, 2; poliomeylitis, 6; pneumonia, 186; chickenpox, 71; mumps, 16; encephalitis, 2; opthalmia neonatorum, 3; trachoma, none; typus, 4; syphilis, 144; chancroid, 10; gonorrhea, 192.

The October report showed the following cases and deaths:

Typhoid, 132 cases, 30 deaths; malaria, 1,382 cases, 61 deaths; hmallpox, 5 cases, 1 death; measles, 29 cases, 4 deaths; scarlet fever, 176 cases, 1 deaths whooping cough, 59 cases, 9 deaths; diphtheria, 447 cases, 38 deaths; tuberculosis, 230 cases, 162 deaths; pellagra, 25 cases, 69 deaths (previous reporth); meningitis, 2 cases, 1 death; tetanus, 11 cases, 8 deaths.

Influenza, 230 cases, 55 deaths; dengue, 10 cases; poliomyelitis, 14 cases, 2 deaths; pneumonia, 111 cases, 118 deaths; chickenpox, 25 rases, mumps, 17 cases; encepalitis, none; opthalmie, 2 cases; trachoma, 2 cases; typhus, 2 cases; 1 death; syphilis, 132 cases, 37 deaths; chancroid, 12 cases, and gonnorrhea 183 cases.

MT. PLEASANT JR. HIGH VICTOR OVER MAPLESVILLE JR. HIGH

On last Friday afternoon, December 21st, the Mt. Pleasant Jr. High school basket-ball team gave the Maplesville Jr. High team a severe drubbing by the tune of 32 to 17.

The first half which was the most exciting part of the game, closed with Mt. Pleasant leading by the bare margin of 11 to 10. The Maplesville team rallied twice, but was never able to overcome the large score which the Mt. Pleasant boys heaped upon them the 3rd quarter. Dukes, center for the victors made the most impressive showing during the game. This husky lad made many difficult shots appearing easy in netting the ball for 14 points.

E. Cooper running guard for Mt. Pleasant, after getting away with a bad start during the first half of the game. Starred on the defence in the last half allowing his opponent not a single goal.

Radcliff, center ror Maplesville led his team in scoring, getting 6 of their 17 points.

The largest crowd of the season wtnessed the game. The two teams meet on the Isabella High school court the first Thursday in January (Jan. 3rd.) to play off the tie. Maplesville having previously defeated the Mt. Pleasant team by the score of 13 to 5.

Mr. D. L. Gilmore was a visitor to Clanton last Saturday.

FOR HOME AND STABLE

The extraordinary Borozone treatment for flesh wounds, cuts, sores, galls, burns and scalds is just as effective in the stable as in the home. Horse flesh heals with remarkable speed under its powerful influence. The treatment is the same for animals as for humans. First wash out infectious germs with liquid Borozone, and the Borozone Powder completes the healing process. Price (liquid) 30c, 60c and $1.20. Powder 30c and 60c. Sold by

1929 CHEVROELT SOON TO BE READY FOR DELIVERY

Although Chevrolet originally planned only for eleven major advance showings of it new 6-cylinder car, the tremendous interest which has been excited throughout the country to see the new car has made it necessary for the company to plan fifty additional advance showings in other important centers, company officials announced yesterday.

Already additional showings have been held at Philadelphia, Indianapolis, Kansas City, Flint, Columbus and Cleveland. The first four of these observed openings last Saturday. The Cleveland opening was held Monday. Columbus had its opening Tuesday.

Everywhere the new Chevrolet line has been lisplayed thus far the crowds have been tremendous. At New York, Detroit, Chicago, Los Angeles and Washington, cities on the original list of eleven where showings have already been completed, close to a million persons flocked to inspect the new cars.

At Detroit the opining day crowd, November 24, was 28,000, a figure which betterred by 3,000 the best opening day crowd in the history of the famous Detroit Automobile Show. Approximately a quarter million people visited the showing during its six day New York run. Proportionate crowd interest was demonstrated at Washington, Chicago and Los Angles.

The revised plans for a more widespread showing of the sensational new Chevrolet will in no way affect the presentation originally scheduled and still unfullfilled. Three of these cities, St. Louis, San Francisco and Cincinati, are now holding showings and Portland Dalas and Atlanta will have openings December 18.

When it was decided that the advance showings should take in more territory so that no large center would be overlooked prior to the nation-wide exhibit Decemeber 29, Chevrolet's vast and efficient sales force went into immediate action. Marshalled by H. J. Klinger, general sales manager of the company, and captained by the regional sales managers, arangements were culminated almost overnight to bring about the showing in Philadelphia, Cleveland, Columbus, Indianapolis, Kansas City and Flint.

Cars from the Flint factory had to be loaded and rushed express. Dealer organizations in each of these places, working smoothly in every instance, selected centrally located and popular exhibit places. Newspaper advertising was relied upon to welcome the public. And the success of the suddenly planned venture was atested ao by the mammoth crowds which poured fourth at all these points to view the handsome new Chevrolet.

While the Chevrolet sales organization, expecting its greatest year in 1929, is busy with the advance showings, and special dealer exhibits, the production forces of the company are equally behind the scenes.

Fifteen mammoth Chevrolet factories throughout the country are working at top speed turning out parts and assembling these parts into complete automobiles. Every thing is being pushed forward at peak capacity so that the thousands who have already placed orders will not be disappointed when deliveries begin January 1. As soon as the cars come off the assembly line they are distributed to the dealer organization so that every Chevrolet dealer will have cars on display and ready for delivery to customers December 29.

BELL COMPANY TO SPEND $1,254,000

Approximately $1,254,000 will be spent in the Birmingham district in 1929 by the Southern Bell Telephone Company, it was announced Friday by officials. One hundred and six thousand dollars will be spent in laying a cable in Shades Valley while $69,000 will be spent in putting in a central office buillding and exchange in the money will be expended in equipment and improving the scrvice to various sections of the city.

Three hundred and fifty thousand dollars will be spent for equipment for this new building while the rest of the Homewood and Holywood area.

SHAREHOLDER'S MEETING

The annual meeting of the shareholders of the First National Bank of Clanton will be held in the directors' room of the bank at 8 o'clock p. m., on Tuesday, January 8, 1929, for the purpose of electing directors for the ensuing year and the transacting of such other business as may legally come before them.

This, December 8 1928.

FARM NEWS NOTES

Grapes may be propogated by cut tings. This is slower than buying nursery stock but it is cheaper.

Corn grown in the United States is being sold in large quantities for export through the Gulf ports, according to press dispatches.

The United States Department of Agriculture estimates that there are more than 1,000,000 snuff takers in the United States. The yearly production of snuff is 41,000,000 pounds which is four times that of 50 years ago.

The Progressive Farmer published at Birmingham presents the fact that farm population in the United States decressed 3,000,000 during the last 8 years, and the country is producing 5 per cent more crops and 15 per cent more animals are produced Production per man and per acre is increasing.

In France more than 1,000,000 automobiles are now in use as against 600,000 in 1924. French industry is adding 600 new cars daily.

PAGE, LINE AND PARAGRAPHS

See that the water for the cattle is kept above freezing temperature. They will not drink so much as they need in water if it is ice cold. Fattening cattle need from 5 to 10 gallons per head daily, and 2-year old steers should have at least 10 gallons a lay.

Treat the farm horse to a visit to the "dentist," or veterinarian, once a year and have the long, sharp corners of his teeth filed off. Horses' teeth wear unevenly, and the roughness will cause sore tongues and cheeks, resluting in poor mastication and digestive troubles.

An abundance of home-grown legume hay is the basis for an economical dairy ration, says the Bureau of Dairy Industry of the U. S. Department of Agriculture. Farmers' Bulletin 1573-F, recently issued by the department under the title of "Legume Hays for Milk Production," describes the feeling val ue of legume hays to the dairyman.

When beef cattle are to be finished on grass with supplementary feedh. is better to rough them through the winter on a ration of silage, straw, and cottonseed or linseed meal, or on a hay and straw or stover ration with some protein meal in the absence of a legume hay, and to save the grain for summer feeding on grass, states the U. S. Department of Agriculture.

Now that feed grains are lower in price than at other times of the year, buying in quantity will result in saving for the poultry keeper provided the feel is well stored. Grains should be thoroughly hried before storing and should be kept where they will not be rained on or absorb moisture from the floor. Grain in sacks ran be kept on law racks with space between the rows for air circulation.

Nearly fifteen per cent of the total volume of the trees cut on a recent hardwood logging operation in central Louisiana was lost because of butt rot which entered through fire injuries, acording to observations by officers of the Forest Service, United States Department of Agriculture. The loss in quality was even greater than indicated by the volume reduction. The entire loss could be attributed to the effects of two forest fires that occurred in 1916 and 1924.

The home fruit grower with only a few trees can rid them of the destructive San Jose scales without the expensive spraying appratus used in commercial orchard,. A spray of fish-oil soap, applied with a brush or even with cloths, is excellent in such cases says the U. S. Department of Agriculture, and shoull be applied while the trees are still dormant, at the rate of two pounds of the fish-oil soap to a gallon of water. Rather severe pruning will simplify the treatment and will also produce a new growth of uninfected wood.

It is sometimes a good plan for communities of small producers of beef cattle in range areas to buy bulls cooperatively in carlots, suggests the U. S. Department of Agriculture, where the number of bulls produced is not enough to supply the demand. Such a plan is economical, as a better price is usually obtained. If good care is given the bul's, they may be useful longer than three years, and instead of having to dispose of an otherwise good bull to prevent possible crossing with his own offspring, exchanges can be made between producers on ranges so situated that there is little chance of the bulls straying back to their former ranges.

TERRIBLE TB

Tuberculdsis in livestock is a deceptive disease. Unlike most other livestock diseases, which cause visible symptoms and arouse imediate alarm among livestock owners, tuberculosis is generally show in developing and ith sfmptoms are not easily recognized from the appearance of the animals, so many people mistakenly believe that it does comparatively little harm. Early eradication is the most economical way to combat the disease, have the herd tested, says the Bureau of Animal Industry, U. S. Department of Agriculture—and then keep the disease out. Means by which tuberculosis is introduced into a healthy herd are by adding animals affected with the disease; by feeding calves with unpasteurized milk or other dairy products from tuberculous cows; by showing cattle at fairs and exhibitions; by shipping animals n cars which have recently carried diseased cattle and which have not been properly disinfected; and by using community pastures. Do not add cattle to your herd unless you know they are from tuberculosis-free herds, or herds under supervision for the eradication of the disease.

CHILDREN'S FATAL DISEASES
Worms and parasites in the intestines of children undermine health and so weaken their vitality that they are unable to resist the diseases so fatal to child life. The safe course is to give a few doses of White's Cream Vermifuge. It destroys and expels the worms without the slightest injury to the health or activity of the child. Price 35c. Sold by

MONTGOMERY HIT BY $200,000 FIRE

Kress Store Swept By Blaze While Shoppers Watch

Montgomery, Ala., Dec. 21.—Fire which swept the S. H. Kress store here Friday morning causing damage estimated at $200,000 was under control at noon although a heavy blaze was still flaming in the basement of the store where stock was said to be stored

The fire, discovered about 6:30 a. m by policemen, for a time threatened the heart of the Monagomery shopping district while thousands of early hhoppers crowded the streets to watch firemen in their fight to control the blaze.

A large number of merchants in buildings aljoining the Kress structure began moving their stock during ahe morning when it was feared the blaze would spread.

All fire equipment was callel out to help fight the fire and protect adioin buildings.

A broken gas pipe in the basement of Kress Building hampered the work of the firemen for some time, but the gas was eventually cut off and the building soon cleared of fumes.

Entered as second class matter at the Clanton, Ala. postoffice under act of congress of March 3, 1879.

NECESSITY FOR CAUTION IS INCREASED

While here in the United States we have an average of one fire a minute, in Europe fires are the exception not the rule. It is reported that there is one town on the Continent which had only one fire during the last hundred years. While there are many contributing factors to conditions on both sides of the Atlantic, probably one of the chief reasons that fires are so few in Europe is the Code Napoleon which prevails in most countries. This law holds the person who causes fire responsible for the damage it wreaks upon the building he occupies and also that which affects adjacent property. European authorities look upon the individual who has a fire as one who should be called to account.

Fires cause the people of the United States an annual money loss of some $560,000,000, to say nothing of the thousands of lives snuffed out.

Modern conveniences for our homes, which in many instances increase fire hazards, and which the average European home does not enjoy, emphasize the necessity for greater instead of less caution on the part of every citizen in this country.

SAVING A BILLION DOLLARS A YEAR

[illegible] the National

[illegible]

[illegible] fluctuation and it [illegible] months that [illegible] is [illegible] the billion [illegible] the control [illegible] the disease [illegible] been downward, but 1927 showed a marked recurrence of cases. This has not been so marked during 1928 but it is still much above the average of the past five years. With the increase of cases there has been a corresponding increase of deaths. In October of this year, thirty-eight children in Alabama died of Diphtheria. It is with these deaths that we are at present concerned.

"General immunization of infants and children is increasing and will become more general each year. In the meantime, too many of those who contract the disease die. Diphtheria antitoxin has been available for over thirty years and its value proven beyond any question of doubt. If given early enough and in adequate doses we know it will cure the disease and yet needless deaths are occurring.

"Much of the responsibility rests with parents who do not seek medical advice early and the disease is far advanced when the physician is called. In too many instances, however, there is another delay on the part of the doctor before antitoxin is given. The tendency is often to wait for a report from a laboratory to confirm the diagnosis.

"The laboratory makes its report as soon as possible but unfortunately a report cannot be given immediately. Cultures govern the administration of antitoxin. When a suspicion of Diptheria exists given antitoxin and given enough in the first dose to cure the disease."

Had the [illegible] rate prevailed over the entire period of [illegible] to the public would have been 22 billion [illegible] In other words, the [illegible] would have [illegible] electric rates and better and cheaper lamps, 12 billion dollars, nearly a billion dollars yearly.

Had the 1913 rate been the rate charged in 1927 alone, the public would have had to pay two and three-fourths time more than it actually paid for the lighting it used—an additional cost of nearly two billion dollars.

No industry can point to a finer record of giving a constantly better public service at a steadily decreasing price.

Proper housing is one of the most important factors in poultry keeping. See that hens are protected from winter draughts, and they'll repay by laying eggs you can turn into winter profits.

The farmer who will profit in the future will be the one who reduces the cost of producing crops and livestock.

A national hatchery organization is conducting a $10,000 prize essay contest on "Why It Pays to Buy Chicks From a Hatchery." Full details are available from Contest Editor, 705 Third National Building, Dayton, Ohio. Forty-one prizes are offered for a 500-word letter, with $5,000 as first prize.

Rust is costing American farmers $150,000,000 annually, which would make a nice little pot of relief. Oh, where is your idle machinery tonight?

Managing poultry for profit isn't the easiest thing in the world, but it is a possibility on most every farm if proper methods are used. Good stock is the first essential to a profitable farm.

Proper feeding is half the battle when it comes to getting profits from the farm poultry flock.

Fine Year For Ala. Banks

Although 1928 was a presidential year, and a year of short crops in Alabama, not a single bank failure has occurred in the State during the year. Alabama's financial stability contrasts strikingly with that of many other states, including states bordering on Alabama and others far away, which have experienced a number of bank crashes during the year. Taking the four states bordering Alabama, we find that Georgia has had 22 bank failures, Mississippi 5, Florida 33 and Tennessee 4. Other states reporting bank failures include South Carolina 18, Iowa 40, Indiana 33, Missouri 31, Minnesota 38 and a number of others. These figures were compiled early in December.

"It is my opinion that the financial institutions of the State have never been in a more sound and healthy condition than at the present time," said Judge C. E. Thomas, Alabama's State Superintendent of Banks, in commenting upon the wonderful record of the banks of Alabama as compared with other states.

Crime is becoming less profitable in Alabama, and the way of the transgressor is being made harder, if the increase in prison population is any indication. Figures recently released by the State Convict Department show a total prison population of 4,415, the largest in the history of the State, comparing with 2,785 at the beginning of the present administration. This increase is accounted for only in a very small degree by the fact that the State has taken over county convicts, which under preceding administrations were handled by the individual counties. The number of these county convicts at the time the above figures were compiled was approximately 400, so that deducting them from the total, there is still an increase of some 1,200 state convicts since the beginning of the Graves regime.

Sheriffs of the State are more active and are doing more efficient work than in years, and jury commissions and juries manifest a general tendency to "tighten up" on law violators, it is stated. Governor Graves is actively cooperating in law enforcement, and whenever complaints of law violations are received at the executive department they are forwarded immediately to the Sheriff of the county involved for his attention. Prompt action invariably follows, it is stated.

Why Farm Incomes Vary

LARGER CROP YIELDS $83
MORE LIVE STOCK $657
EFFICIENCY OF LIVE STOCK $557
KIND OF CROPS $303
PRICES RECEIVED FOR GRAIN $280
COST OF POWER AND MACHINERY $240
OTHER EARNINGS $23
SEARS ROEBUCK AGRICULTURAL FOUNDATION

Earnings of farmers in the same community, with farms of approximately the same size, with similar soils and the same expense per acre, may differ as much as several thousand dollars a year, states the Sears Roebuck Agricultural Foundation. The larger incomes are the reward for superior management and the application of better methods of farm practice.

Analysis of the records of 175 farmers for the three years, 1925 to 1927 by the Illinois College of Agriculture revealed that the 35 most profitable farms had net earnings of approximately $3,000 annually more than the earnings of the 35 least profitable. The farms in the least profitable group averaged 214 acres compared with 246 for the others, but the investment per acre was practically the same.

Among the factors responsible for the variations in earnings, the most important was crop yields, which caused $831 of the average annual difference between the 35 most profitable and the 35 least profitable farms. The other factors and the difference in earnings attributable to them were: amount of live stock, $357; efficiency of live stock, $557; kind of crops, $304; prices received for grain, $280; cost of power and machinery, $216; cost of man labor, $49; and other expenses, $23.

On the 35 most profitable farms the average yields of grain per acre were about 19 per cent higher than on the 35 least profitable farms. The use of high-yielding, adapted varieties of seed, testing for germination and freedom from disease, the rotation of crops, the growing of legumes, the feeding of crops to live stock and conserving manure, and the use of such materials as limestone and rock phosphate, are the principal steps to high yields. Some of these farmers made as much as $500 a year more than others merely through the use of high-yielding varieties of seed.

Farmers who disposed of a larger proportion of their crops through live stock had larger net incomes than those who sold most of their grain. On the 35 most profitable farms, the productive live stock returned $103 for every $100 worth of feed used, while on the least profitable, it returned only $135. As an average of all the farms, live stock returned $151 for each $100 worth of feed.

Sanitation, disease control, the use of legume pastures, the purchase of high protein supplements to balance home grown feeds, good breeding stock and producing so as to take advantage of seasonal fluctuations in prices were the chief factors in efficient live stock production.

The most successful farmers increased their incomes $304 a year by having a high percentage of the tillable land in crops producing higher profits, such as corn, wheat, alfalfa, and a smaller share in low profit crops such as oats and timothy hay. They received $280 more because they obtained higher prices for their grain. They marketed when prices were good and sold grain of better quality.

The 35 most profitable farmers spent $216 less per year per farm for power and machinery than the least profitable group. The labor cost was $49 less, and other expenses, $28 less. It is significant that the most profitable farms got their higher incomes with a smaller power and machinery cost and with less labor expenditure per acre than on the least profitable farms.

Many of the measures taken by successful farmers to increase their incomes can be applied as easily by farmers in meager circumstances as by those who are prosperous, the Foundation adds. Through them, such farmers can eventually join the successful group.

B. LAWRENCE WRITES CONCERNING SURVEY

(Continued from first page)

fourth more children in school than ever before. It is creating quite a demand on the part of the County Board of Education to provide adequately for these extra children. We are happy that they are in school and we trust that the number will increase but let us at the same time keep step with the demands by providing necessary buildings, teachers and equipment.

Yours for the boys and girls of the county.

B. LAWRENCE,
County Supt. of Education.

Personal News

Mr and Mrs. Latham Ellis of Birmingham are spending the Christmas holidays here with friends and relatives.

Mrs. Stewart Armstrong spent last Tuesday in Mountain Creek with friends and relatives.

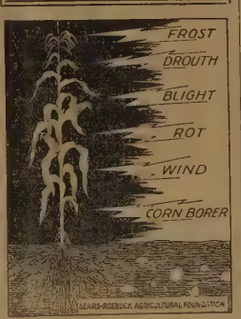
Trouble-Proof Corn Found by Science



Super seed corn that can rout its natural enemies in the shape of root, stalk and ear rot diseases, drouth, frost, wind storms, and the corn borer, and that can make the most effective use of plant food in the soil offers hope of a material increase in farm income, the Sears-Roebuck Agricultural Foundation declares. Such seed corn is being developed by the United States Department of Agriculture, [illegible] experiment stations and the Funk farms in central Illinois.

It is estimated that corn diseases take an annual toll of 5 to 10 per cent from the crop. They are most destructive in the corn belt, and in the south, owing to the frequent return of corn to the same field in the rotation and the fact that many farmers do not make germination tests. The loss may take the form of seedling blight, or death of the plant soon after germination, causing poor stands. Those not so badly infected may survive, but be stunted, spindling, off color, and wilt early on hot days. They may show late tasseling and poor pollination, leaning or down stalks due to weakened roots, broken stalks, barrenness, premature death of stalks and leaves, or belated ripening, broken shanks, soggy ears, or shrunken, unnaturally rough kernels. Corn rot diseases can be controlled.

WINTER CARE OF BATTERIES

With slower driving speeds, longer use of lighting equipment and a cold motor, battery efficiency is considerably reduced during the winter months," says Mr. O. M. Carter, of the Carter Electric Shop, Storage Battery dealer.

"Because of this fact, a battry may becom dischargd and freeze. With but reasonable care and regular hydrometer tests your battery should give you uninterrupted service throughout the winter months.

"If your car is not to be in use for the winter, the battery should be taken out and sent to a battery service station for storage during its inactive period. The additional security and convenience far outweighs the cost," Mr. Carter claims.

"And remember," Mr. Carter warns, "a battery stored in your home for the winter will continue to discharge. The safest bet is to store your battery with a reliable service station."

We extend to our Friends, Customers and all Chilton County our wishes for a

MT. PLEASANT

Santa Claus with his reindeer from the land of ice and snow visited the Mt. Pleasant school on Friday afternoon. The room and trees had been decorated beforehand and everything had been made ready for his arrival. The Lanierian Club presented an attractive Christmas program that was enjoyed by many friends and patrons of the school. After Santa Claus delivered his gifts to all the good boys and girrs he disappeared. School adjourned for the holidays. Work will be resumed at Mt. Pleasant on Monday, December 31st.

A thrilling basket ball game was witnessed on Mt. Pleasant's basket ball court last Friday. This Friday Mt. Pleasant's opponent was the lively Maplesville team. The first half ended with Mt. Pleasant in the lead by only one point, however, the final score was 34 to 12 in Mt. Pleasant's favor.

Miss Ethel Gentry will spend the Christmas holidays with her sister in Birmingham. However, she spent the week end with her parents in Mt. Creek, Alabama.

Miss Olys Bean spent the week end with her parents, Mr. and Mrs. J. P. Bean.

Mr. R. B. Johnson spent a very pleasant week end at his home in Jemison.

The many friends of Rev. S. J. Ezell will regret to learn that he has been quite ill with influenza at his home here.

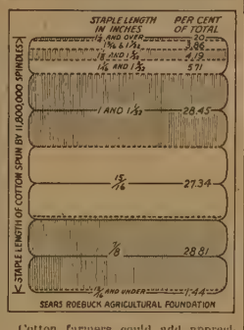
Make Cotton Meet the Mill Demand



Cotton farmers could add appreciably to their income from this crop by producing the types of cotton spinners want, and marketing it on a quality basis, states the Sears-Roebuck Agricultural Foundation. The evidence shows that American mills use better cotton than the average of the grades and staples produced in the United States and the mill demand for higher quality lint is increasing. Premiums paid by spinners for high quality cotton range up to 6 to 8 cents for strict middling 1¼ inch staple over the price paid for middling ⅞-inch cotton.

Of the 6,519,806 bales of upland cotton consumed by mills in the United States in the year ending July 31, 1928, 84.6 per cent were from ⅞ to 1 1-32 inch in length, according to the United States Department of Agriculture. Cotton measuring 1 inch or more made up 42.4 per cent of the total, while only 1.4 per cent was under ⅞ inch. In grade, 82.4 per cent of the consumption ranged from strict low middling to good middling.

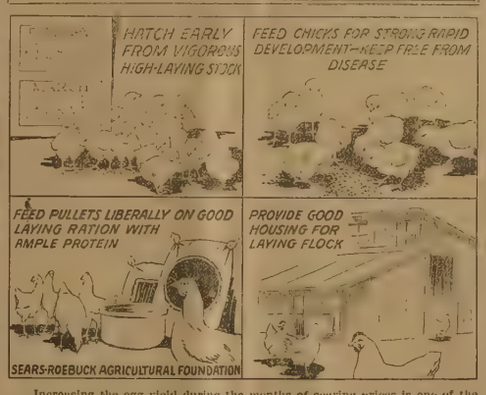
No equally comprehensive record of the crop grown is available as yet, but partial reports and the comments of mills show that growers are producing much more cotton ⅞ inch or less in length than mills need. This short cotton is largely exported and must sell abroad in competition with cheap cottons from China and India, produced by low-paid labor.

Georgia mills consume about as much cotton as is grown in the state, but only about 25 per cent of the cotton used is ⅞ inch or under while about 80 per cent of the crop grown is ⅞ inch or under. Hence, it becomes necessary for the mills to go outside the state for the bulk of their requirements, adding materially to freight costs. In representative Texas counties, 14.3 per cent of the ginnings of part of the 1927 crop were found to be under ⅞ inch while such cotton made up only 1.4 per cent of the national consumption, and 38 per cent of ginnings were ⅞-inch cotton against consumption of 23.8 per cent of that length.

Usually varieties of cotton 15-16 inch in length yield more per acre than the longer staple varieties or those under ⅞-inch. This lower yield must be considered in determining how far growers can go in trying to raise the longer staple. In general, it is suggested that varieties running to 1-inch staple should be more widely used. In good seasons, they may produce 1 to 1 1-16-inch staple, but in poor years they may drop to 15-16 inch. Varieties of upland cotton producing above 1 1-16-inch staple frequently fall so far in yield that the increase in price is more than counterbalanced, giving a lower value per acre.

Unfortunately, much of the cotton crop is sold in local markets at a "hog-round" basis of middling cotton of ⅞-inch staple. In such markets growers who have produced cotton of superior grade and length do not get the benefit of the premium which spinners pay for such cotton. This method, coupled with the higher yield of shorter cotton, discourages improvement. Cotton sold through cooperative associations is paid for on a grade basis and it is probable that the tendency to pay a premium for superior cotton in local markets is increasing.

How to Get More Winter Eggs



HATCH EARLY FROM VIGOROUS HIGH-LAYING STOCK
FEED CHICKS FOR STRONG RAPID DEVELOPMENT—KEEP FREE FROM DISEASE
FEED PULLETS LIBERALLY ON GOOD LAYING RATION WITH AMPLE PROTEIN
PROVIDE GOOD HOUSING FOR LAYING FLOCK
SEARS-ROEBUCK AGRICULTURAL FOUNDATION

Increasing the egg yield during the months of soaring prices is one of the surest methods of swelling the profits from the poultry flock, the Sears-Roebuck Agricultural Foundation points out. Prices paid to producers for eggs during the three months, November, December and January, are nearly twice as high as in the spring months. While extra care is required to obtain high winter egg production, all of the essential steps are within the reach of the average farmer.

"To produce a great man, start with his grandmother." Any chicken will lay in March, April and May, but the ability to lay from November to March has been developed only by many years of breeding and selection. To get winter eggs, early pullets must be hatched from vigorous, healthy stock of proven ability to lay during the winter. At the Massachusetts Experiment Station, pullets hatched in February produced 56 eggs before March 1 of the following year. March pullets laid 40 eggs before March 1, April pullets, 30, and May pullets, only 18. The spring and summer egg production from the early-hatched winter layers was just as good as from the late-hatched pullets that did not lay in the winter.

Careful feeding and management of the chicks are necessary if healthy, well-matured pullets are expected in the fall. In addition to the whole grain ration, a mash containing a liberal supply of protein and minerals is needed throughout the growing period. The chicks must have plenty of sunshine and the poultry house and yard must be kept sanitary to prevent disease.

A good flock deserves a good home, a poultry house that is well ventilated, light, clean, free from drafts, dry and free from vermin. Pullets should be housed at least by the first of October to become used to their new quarters.

By artificial illumination in the poultry house during the winter, essentially the same length of day can be produced as fowls normally would receive in the spring. It gives more time to consume the feed necessary to keep warm and have a surplus for egg production in the fall and winter when the price is high.

A hen is a factory and cannot produce eggs unless her ration contains all the ingredients needed to make eggs. Also, she must be made to consume a large amount. Many farm flocks get poorly balanced, inadequate rations from November to March and hence lay few eggs during those months. For most farm flocks, the combined mash and grain feeding plan is best. The scratch grain can be varied according to the supply and prices of local grains, a standard mixture consisting of equal parts of corn, wheat and oats. The mash also varies, but one in common use consists of 100 lbs. of wheat bran, 100 lbs. of flour middlings, 100 lbs. of yellow corn meal, 100 lbs. of ground heavy oats or ground barley, 100 lbs. of meat scrap, 3 lbs. of salt, and 10 to 20 lbs. of steamed bone meal.

The animal protein can be obtained also from skim milk, buttermilk, or tankage. In addition, some green feed, such as cabbage, rape, or sprouted oats must be given to keep the hens in good physical condition. Oyster shell for lime and grit must also be included.

The use of a mash feed, either home-mixed or purchased, as a part of the ration offers one of the easiest means of improving the winter production of farm flocks, the Foundation continues. Probably not over 10 per cent of farmers play a mash, although it is not possible to force the hens to consume a balanced diet without its use.

MOUNTAIN CREEK NEWS

Mr. and Mrs. W. F. White announce the birth of a baby boy, born Wednesday, December 19, 1928, whom they have named Warren Rudolph.

Mr. and Mrs. J. W. Lake and family of Troy are in town for the Christmas holidays. They will divide their time respectively between her parents, Mr. and Mrs. Z. A. Eiland, and his parents, Mr. and Mrs. Tom Lake.

Mr. and Mrs. James Garthright of Wetumpka were guests of her parents, Mr. and Mrs. W. F. White, a few days past.

Mr. and Mrs. Sam Eiland are here for the Christmas holidays.

Mrs. J. N. Atkinson spent the day in Montgomery last Saturday.

Mr. Geo. Culver, our postmaster, been sick a few days, but we are glad to see him able to be back at work.

Mr. Oliver Henderson of Birmingam is visiting his mother and father, Mr. and Mrs. T. J. Henderson.

Mrs. Sam Eiland, Mary Elizabeth Eiland and Bessie Mae Culver motored to Montgomery last Saturday.

Miss Icie Belle Cobern is home for the Christmas holidays. She is visiting her parents, Mr. and Mrs. Will Cobern.

Miss Alma Gentry of Clanton and Miss Ethel Gentry of near Thorsby are spending the holidays with their parents, Mr. and Mrs. Henry Gentry.

Mr. and Mrs. A. B. Burton are spending their holidays in Birmingham with their sons, Messrs. Will and Howard Burton.

Mr. and Mrs. Hozard Baxley and family of Birmingham are spending Christmas holidays with her parents, Mr. and Mrs. W. H. [illegible] and his parents, Mr. and Mrs. J. A. Baxley of Mt. [illegible]

[illegible]

Mr. [illegible] and Mrs. [illegible]

Mr. and Mrs. Osie Long and family are visiting his moter, Mrs. H. Long.

Mr. B. D. Morris was in Mt. Creek Sunday. He came up from Montgomery to spend the holidays with his mother, Mrs. O. H. Connell, of Marbury.

Mr. and Mrs. Rudy Powell of Prattville are visiting her sister and brother-in-law, Mr. and Mrs. Jack Dennis.

Mr. Amzi Kicker is up and out after a few days illness. His parents and many friends are glad to know he will remain here for the holidays before returning to school.

Mr. B. F. Baxley of Greenville, S. C. spent a few days last week with his grandparents, Mr. and Mrs. J. E. Gray and he is expected to return with his wife to spend Christmas Day.

Mrs. J.N. Atkinson and two daughters, Ruth and Nellie Mae, Mr. and Mrs. D. C. Atkinson, Mr. and Mrs. W. B. Atkinson, all of Birmingham, are to arrive here Christmas morning to visit Mr. and Mrs. J. N. Atkinson and Mr. and Mrs. J. B. Gray.

Mr. and Mrs. J. N. Atkinson are expecting Mr. and Mrs. Stewart Armstrong of Clanton to spend Christmas Day with them.

Mr. Eugene Baldwin of Montgomery is spending Christmas holidays here.

Miss Clara Trice is spending the Christmas holidays in Pratville.

Mr. andt Mrs. T. J. Henderson, Mr. and Mrs. Charlie Henderson and Miss Mary Henderson motored to Montgomery Sunday.

Miss Trudie Fowler who has been away teaching school is spending the Christmas holidays with her parents, Dr. and Mrs. J. Fowler.

Misses Ellen Long and Nevada Trice spent Saturday afternoon in Verbena.

Rev. Arthur DeLoach took dinner with Mr. and Mrs. J. B. Gray last Sunday.

Our Sunday School and preaching Sunday. Preaching services was conducted by Rev. Arthur DeLoach and the Sunday night services consisted of a Christmas pay with local residents rendering the different parts. The first program was put on by the Sunbeam Clasr under the directios of Mrs. Sam Hudson and Mrs. R. L. Duffey.

The next program was given by the B. Y. P. U. under the direction of Rev. Arthur DeLoach.

The play was an appeal for more and better missionary work for the Southern Baptists and was followed by a very interesting and appealing sermon by Rev. DeLoach. Record crowds were in attendance both in the morning and at night.

Rev. Mack Wamble and family of Birmingham are guests of his parents, Mr. and Mrs. W. T. Wamble, and her parents, Mr. and Mrs. Henry Gentry.

Mrs. Ezell Is Hostess to Dorcas Class

Mrs. S. J. Ezell was hostess Friday evening when the Dorcas Sunday school class of the Baptist church entertained with a Christmas party.

Red tapers, baskets of flaming poinsettas, a gaily decorated Christmas tree and other holiday suggestions over which was cast a soft glow from red lights dripping in foliage all lent charm to the attractive setting.

The climax of the evening was reached when Santa, who was cleverly impersonated by Master John Ezell, appeared on the scene. With the assistance of his sister, Grace, the gifts were exchanged after which the members were ushered into the dining room where delicious refreshments were served. Among those enjoying this delightful affair were the following: Mesdames L. Foshee, H. White, J. B. Atkinson, Grady Heflin, Loren Smith, Joe Higgins, Hance Allred, C. Ross, J. Jones, L. Parrish, Tom Parrish, Renfroe Jones, S. Calloway, Milton Smith, A. L. Farley, Matthews, W. A. Wingard, D. Eubanks, B. Sims, Hubert Jones, G. C. [illegible], Flem Higgins, Dorsey Roe[illegible]att and J. T. Do[illegible]

RED CROSS ISSUES REPORT ON WEST INDIAN HURRICANE RELIEF;

September Storm Called Nation's Next Largest Catastrophe

The number of persons affected by the West Indian Hurricane which in September cauhed heavy loss of life and property destruction in Florida, Porto Rico and the Virgin Islands is placed at 560,000 in a preliminary report on the disaster and the subsequent relief work of the American Red Cross made public today by S. L. Gibson, Chairman of the local chapter.

With a relief of approximately $5,567,000 the Red Cross is engaged in a reconstruction program in the affected territory which is said to be next to the largest hisaster relief task the organization had ever faced in this country. Only following the great Mississippi Valley flood of 1927 has it ever before been called upon to administer to the relief needs of as many sufferers from one catastrophe.

Reported deaths in Porto Rico are given in the report as 271, while more than 3,000 persons were injured. In Florida more than 1,800 were killed, mostly by drowning, and about the same number injured. Property damage was extensive in both areas, a total of 136,994 homes and other buildings being destroyed or damaged in Porto Rico, while 31,615 suffered a similar fate in Florida. In addition to this, Porto Rco suffered the loss of appromately 9,300 head of live stock and 220,000 chickens and other poultry. So heavy was the destruition on the islands that not less than a half million persons were left destitute.

All emergency relief work in both disaster areas has been completed, the report stated, and the organization is concentrating its efforts on reconstruction measures, looking toward the permanent reestablishment of families. Chief among these are assistance in rebuilding and repairing damaged strnctures, providing household effects, making special provisions for widows and orphans left destitute by the disaster, and the extension of special assistance to farmers.

In Porto Rico the organization is helping to repair or rebuild upwards of 50,000 homes and has furnished emergency seed to approximately 50,000 small farmers with which to start food croph. Special help has been given to the coffee growers who suffered heavily rom the disaster. In addition to distributing 20,000,000 cofee seedling, the organization is expending $30,000 to supply coffee seed beds. All assistance to farmers in both Porto Rico and Florida is being carried on in close cooperation with national and local Departments of Agriculture.

The enormity of the emergency relief work in Porto Rico and other West Indies Islands, is indicated by figures given in the report which show that the organization had fed up to the middle of Nofember a total of 511,661 personsand was at that time still feeding 115,675. It had furnished clothing to 180,449 individuals while its medical program had included the establishment and operation of fourteen emergency hospitals. Six* thousand seven hundred and five persons had received medical aid from the organization.

Destruction and relief work in the Virgin Islands were of the same type as in Porto Rico, although not as extensive.

Reconstruction work in Florida is making rapid progress although some delay has been caused by mater remaining on the land in the Lake Opeechobee area. Two refugee camps are being maintained at West Palm Beach for disaster sufferers from that section who cannot return to their homes until the water subsides. With this exception the emergency period has passed and awards to individual families are being made as rapidly as their needs can be* ascertained. More than 60,000 persons in Florida were afefcted b*y building losss alone, a large pro*portion of whom will need assista*nce from the American Red Cross.

The report gives special commendation to the quick action of Red Cross chapters and other agencies which sprang into acaion at once and in many cases, especially in Florida were prepang to give relief before the hurricane struck as the result of warnings issued by the United States Weather Bureau.

Acknowledgment is male in the report o of extensive coo*peration received from the American Legion, the Army, Navy, United States Public Health Service, United States Coast Guard Service, and railroads, steamship lines, and other public utilities, which made large donations of service.

WANTED TO BUY CATTLE

I want to buy cattle. Will buy all kinds at the highest market prices See me at once. —BAY FIQUETTE, Clanton, Alabama. No. 10.

Albert Furnes of Jamestown, N. D., cut off his toe to get rid of a corn from which he was suffering.

Modern In Design And Construction

AN interesting and attractive new radio receiving set just offered the public is the product of the National Carbon Company, known to millions of radio fans as the maker of Eveready Batteries and sponsors of the "Eveready Hour" broadcasting program.

The Eveready model pictured above is made of die-cast aluminum, a new material in receiving set construction. It carries the more modernistic motif of interior decoration. Much of the attractiveness of the new aluminum set comes from the fact that it takes a lacquer in a surprising and pleasing fashion. Its selection as material for one of the Eveready radio cabinets was decided upon not only because of its handsome and unusual appearance, but also because it was found well adapted for receiving purposes. It is established that sudden changes in temperature and atmospheric moisture do not affect the aluminum cabinet.

This newest type of radio receiver is accompanied by a loud speaker of the same material, made in a design to conform with the striking and handsome appearance of the set itself.

Chilton County Abstract Co.

M. D. FOSHEE, Manager

A good business man will not buy a farm or any property without first looking it over to se* what it is worth.

However, some will buy or loan money on land without an abstract.

Isn't it equally as foolish to buy a farm without looking it over as to buy it and not know whether the titles are good or not? Without an abstract you do not know where you are getting the land you look at or not.

Before investing in land in any way have an abstract made and be safe.

THE EXTERNAL FINISH OF THE NEW FORD

The external finish of pyroxylin lacquer and the manner in which it is applied are further examples of the superior workmanship that is going into the production of this latest of Henry Ford's products.

When the new Ford body enters the paint department it is first treated to a bath in special spirits until all traces of oil or grease are removed. It is then dried with clean towels and carefully buffed to smooth out all burrs or marks that may have been made in the process of assembling the body. Crevices or other places inaccessible to a towel are blown clean with compressed air.

Next comes another wash which not only cleans the body again, but also neutralizes and acids that may have remained on it. In this final washing process, the workmen are required to use rubber gloves to preclude the possibility of any finger marks on the smooth, metal surfaces. Following this the bodf is again thoroughly wiped, this time wiah sperially prepared rloths which will not leave any lint or lust on the body surface.

Then the clean body goes into a spray booth where it is given the primer coat. Next it is placed in a drier and kept there for two hours at 225 degrees Fahrenheit. Following this any slight imperfections that may remain are removed with a flexible knife and metal glaze.

Next comes a coat of foundation surfacer and another period of lrying for an hour and half at 225 degrees Fahrenheit. The body then emerges from the drying room into a rubbing deck, where skilled workmen wash and smooth the surface with clear water, very fine sand paper and finely powdered punice stone.

Another drying process takes thirty minutes, after which the body is ready for the pyroxylin. It is placed in the spraying booth where it is given two "double-header" coats of pyroxylin. Each double header roat consists of two consecutive coats, one applied with vertical strokes of the air brush and the other horizontal strokes. Twenty minutes is allowed for air drying between each double header coat.

It requires but two and a half hours for the pyroxlin to set and harden thoroughly. Then with water, sponge and fine oil-bondede sandpaper, it is sanded to an absolutely smooth finish. Again the body is washed and dried with clean towels, compressed air again being used to clean out places inaccessible to the towels.

Finally, the body is given a mist coat of pyroxylin thinner—just enough to permit the michoscopic sanding marks to be smothed over. After drying for twenty minutes at 100 degrees Fahrenheit, the body goes to the polishers where it receives the high lustre which gives it such an attractive appearance.

SNAPPY STUFF

An aeronaut dropping from a balloon by parachute at McComb, Miss., landed squarely through a hole burned in the roof of a house only two hours before.

James Forshon of Sheffield, Eng., testified at a wage hearing that he paid married employees more than bachelors because he sympathized with them.

James V. Firkan of Buff lo, in his divorce suit discribed his wife as "mutton dressed up as lamb."

At the rate of payment fixed by court, George Hall of London has 272 years to settle a debt incurred to a money-lender.

Miss Ellen Watson of Chicago screamed for two days in her cell without cessation when convicted of shoplifting.

"Yes, I was drunk anl glad ot "it," boasted Fobert Cloren in court at St. Louis, but he wasn't so glad over the $100 fine.

A horse owned by Donald Claren of Milwaukee kicked open the door of a burning barn, drove out thirty sheep and then ran out himself.

The wedding services for Miss Mary Brance and Lieut. Sudgen of Cardiff was transmitted to the bride's sick mother by telephone.

Frau Olga Schildrich of Berlin captured a burglar in her house and sat on him while her husband called the police.

Louis Brignelles of Brussels who is deaf and dumb, saved a woman from a burning house when all hope for her rescue had been abandoned.

James Corseth of Melbourne, cook on a coastal steamer, was thrown over board by sailors because they disliked his cooking.

PRESIDENT SIGNS BILL FOR ERECTION OF BOULDER DAM

Measure Calls For Power Plant And Flood Control

President Coolidge Friday signed the Boulder Dam bill making effective the act providing for a reclamation, flood control and power project on the Colorado River.

The president affixed his signature before a gathering of proponents of the Swing-Johnson bill, who were brought to the executive office by Senator Johnson and Representative Swing, California Republicans, who for years had led the fight for enactment of the bill.

The meahure provides that the government shall supply the $165,000,000 estimated as necesary to consthuct a dam and accompanying workh in Black Canyon. The money is to be repaid, under an amortization plan from proceeds of the sale of power.

Needs Radification

The signature of the president was the last official act required in providing federal authority for the construction, but either Utah or Arizona of the seven Colorado River basin states must ratify the Colorado River compact for distribution of water before the act can become effective.

The long fight in Congress came to its end earlier in the week when the House acceptd Senate amendments to the measure. The Senate passed the bill Dec. 14.

Miss Mary Ellis is spending the Christmas here with her parents Mr. and Mrs. John T. Ellis . Miss Ellis is a student at Judson College.
